WILL THE STATE PAY NEW JERSEY TROOPS?

Governor Voorhees to Ask for an Appropriation.

REASONS FOR HIS COURSE.

THE AMOUNT OF MONEY INVOLVED IN PLAN IS $250,000.

Governor Would Have the Extra Allowance Given for Time the Soldiers Spent in the Service Until the Partial Mustering Out—Believes the State Will Vote the Money—The Claims.

(Special to The Daily Press.)

Elizabeth, September 1 — Acting-Governor Foster M. Voorhees announced yesterday that he intended to try to get from the Legislature an appropriation sufficient to pay all the New Jersey volunteers enough to make their wages since they took the field equal to the amount they would have received if they had been in the service of the State.

It is estimated that the sum required is about $250,000. The Governor says he believes the Legislature cheerfully will make the appropriation. Said he yesterday:

"State pay was not promised except in an implied sense, but I am at liberty now to say that the intention was from the outset to have the New Jersey volunteers receive the same pay while in the service of the Nation as if engaged in the service of the State only.

"Had our boys been called out to quell a strike or any internal disturbance, or even to spend a week or two in camp at Sea Girt, the privates would have received $1.50 a day, or $45 a month, while in service. It is not reasonable, therefore, to think that the people of our State would expect them to leave their homes, ready, willing and eager to face Spanish bullets in the Nation's cause for a paltry pittance of fifty cents a day.

"When the first call was issued it was suggested that I, on behalf of the State, should promise that the volunteer privates and non-commissioned officers would receive from the State in addition to the compensation paid by the Government an amount sufficient to make their salary the same as if in the service of the State.

"Such a course I did not consider wise at that time for many reasons. The principal one was that I consider the best soldier the man who becomes a soldier for patriotic rather than mercenary reasons, and surely no one would suspect a man of being mercenary who surrenders a lucrative position to fight for his country for fifty cents a day.

"None of our volunteers had reason to expect compensation in addition to what the National Government might allow them, but our State is rich enough, and I believe the people are willing to give them at least as much as they would receive while enjoying a summer outing at Sea Girt.

"I do not anticipate having the National Government reimburse the State for this proposed outlay, but I will endeavor to get from the National Government an appropriation for the payment of such of our National Guard and other volunteers as were detailed at Sea Girt for a time and then rejected by the Government for physical reasons.

"I shall attend to that and everything else concerning the troops while at Washington, and will remain there until the order to muster out at least half of our troops is issued and see to it that the boys who remain to serve in the army of occupation are well provided for. I don't know at present what regiments, companies or individuals will remain, further than the general assumption that no one will be permitted to remain whose service is required at home.

STOLE THIRTY FAT CHICKENS.

Thieves Make a Big Raid on John Beethan's Hennery.

(Special to The Daily Press.)

Dunellen, Sept. 1—John Beethan, a farmer and milkman living on the Greenbrook road, has reported to the authorities that early this week chicken thieves broke into his henhouse and made way with thirty of his fattest pullets.

Mr. Beethan has a large hennery and supplies customers with fresh eggs. Therefore he keeps good breeds of chickens and the loss is considerable. There is no clue to the thieves.

Too Many Geese.

A family living on West Fourth street, in the heart of the city, have a flock of ducks and geese which annoy the neighbors very much. No complaints have been made yet, but if the bipeds keep up their constant "quack, quack, quack," as they do continually, there may be trouble.

MUSIC FOR THE MASSES.

SECOND OPEN-AIR BAND CONCERT WAS VERY POPULAR.

Fully Fifteen Hundred Gathered Around the City Hotel to Hear the Playing of the Queen City Band, Which was Good.

One thing is evident. The open-air band concerts have found favor with the people of Plainfield. There must have been over 1,500 people who gathered last evening in the neighborhood of the City Hotel, at the corner of Park avenue and East Second street, to listen to the second concert given by the Queen City Band from the balcony of the hotel. And the night itself was simply grand, although a trifle warmer than might have been wished.

The concert was set for 8 o'clock, but half an hour before that time the procession in that direction began to move. Most of the people came on foot and wandered up and down along the neighboring streets listening to the music and incidentally chatting with their friends. Some came on wheels and ensconced themselves along the curb.

Patrolmen Totten and Cash were on duty at the scene of the concert and it took their united efforts to keep even a little passageway open for such pedestrians as wished to be on the move. The sidewalks were lined three or four deep for half a block in every direction, while near the corners the crowd overflowed the sidewalks and extended out into the roadway.

There were some of the listeners who had driven in from the outskirts and taken up a position of vantage where they might see the crowd as well as listen to the selections by the band.

The band occupied the balcony as on the occasion of the first concert. The balcony was hung with a number of extra electric lights to enable the musicians to see their music. The programme, as published in The Press, was followed out. The popular selections found the most favor, of course, and some of the enthusiastic ones hummed the familiar airs as the band played them.

The rendition of the programme was good. Practice has done much for the band and they made an excellent showing, well pleasing the crowd with their various selections. Sometimes the audience applauded, but the members of the Queen City Band were afterwards complimented very generally on the excellence of their music. The crowd was well pleased and that was all that was necessary.

POLITICS IN MIDDLESEX.

Interest Centers Around Congressional and Gubernatorial Nominations.

(Special to The Daily Press.)

New Brunswick, Sept. 1.—It is the impression among politicians in New Brunswick that the Democratic Assemblymen will be renominated when the county convention shall have been held. The men are Joseph H. Ridgway, of New Brunswick; Adam Eckert, of Perth Amboy, and John J. Quaid, of Sayreville. Thus far there has been little talk among the Republicans as to possible candidates to oppose them. There is some talk of P. S. VanAnglen, of New Brunswick, being selected for one, and J. S. Silvers, of Cranbury, as the second. There will be no county officers to be elected in Middlesex county, and the interest in the campaign will be centered upon the congressional and gubernatorial contests. The present representative in Congress for the Third District, Benjamin F. Howell, is a New Brunswick man, and was elected by the Republicans. It is believed he will be renominated. The sentiment for Governor is strongly in favor of Foster M. Voorhees, and unless the primaries are manipulated against him, the delegation from Middlesex county to the State convention will be largely composed of Voorhees followers.

Stealing Railroad Ties.
(Special to The Daily Press.)

Westfield, September 1.—The section bosses on the Jersey Central Railroad have been annoyed lately by Italians stealing the old ties after they have been taken up and piled beside the track. Yesterday Constable Koester, of Westfield, saw three Italians loading ties on a wagon near Central avenue, and upon questioning them he found that they were "just taking" them without any special authority. He made them unload the ties and then let them go.

Christian Endeavorers to Elect.

With tonight the regular monthly business meetings of the Park Avenue Baptist Christian Endeavor Society will resume, and the first meeting will be held at the home of Miss Cornelia Rockfellow, of Park avenue. At this meeting a committee will be appointed to nominate officers and committees for the fall election.

POLITICIANS WILL MEET AT THE SHORE.

Clambake of Union County Republicans at Neptune Heights.

PLAINFIELDERS WILL GO.

WILL PROVE AN OPPORTUNE TIME FOR CAMPA'GN TALK.

Many a Boom for Office Will be Launched by Aspiring Politicians—A Large Delegation Will Attend From This City—Date of the Clambake is September 13th—A Big Time Expected.

Down by the shores of the broad Atlantic there is to be a great gathering of the clans. Every Republican of prominence in Union county who can so arrange his business as to allow him to be absent for a day, is going down to the seashore on this occasion. The annual clambake of the Union county Republicans is the attraction, Neptune Heights, near Avon-by-the-Sea, is the place.

The Jersey politician likes other things besides the political plums and his share in the distribution of the party spoils. He is particularly fond of a good time, especially when some savory preparation is included in the entertainment. The clambake, with its varied delights and good things, appeals very strongly to the politician from Jersey, and such affairs have been favorite gathering places for the brains and sinew of the different political combinations. Every year the Republicans of this county gather by the sea, digest clams and discuss the political situation.

Coming as it does at the close of the summer, and at the very start of the campaign preceding the State election, the clambake has a greater significance than is apparent at first view. It is the first time that the workers in the G. O. P. from all over Union county meet and have a chance to discuss the coming campaign. Many a successful boom has been launched into public notice at this outing at the opening of the campaign. This year the general uncertainty of the political situation in Union has made some of her worthy sons rather anxious to confer with their associates to see just where they stand and what is going to be done.

Of course, Plainfield will be right worthily represented at the clambake, which, by the way, is to be held September 13th. She will send a large delegation down, for Plainfield is out for her share of the spoils and she wants to have her various little booms ready to spring on the county at the first opportune moment.

It is less than a month off to the State convention and the primaries are soon to be called. They will precede the convention by about a week. A meeting of the city executive committee of the G. O. P. is slated for this evening when the date for the primaries will be set and other political matters talked over.

FIRST AND FOURTH TO BE CHOSEN.

A Report That These Regiments Will Remain in Service.

(Special to the Daily Press.)

Elizabeth, Sept. 1—It is now reported as pretty certain that the 1st and 4th New Jersey Volunteers will be the two regiments to be retained in the service, and that the 2d and 3d will be mustered out.

The 4th was formed under the second call and its well men number about 99 per cent. The 1st has been in camp in the south since the outbreak of the war, but it has escaped the ravages of disease, which killed off men by the score in the regiments camped about it. While the other regiments in the brigade lost scores, the 1st has lost only five men since it was mustered in, and, including the men home on sick leave, most of whom are well enough for service, it has only sixty on its sick list. Some of the sick suffer from the sores resulting from contact with poison ivy.

Realty Changes.

The following real estate transfers have been recorded from North Plainfield in the Somerset county clerk's office: Edwin J. Howe et ux., to Joseph P. Taylor, $3,500; W. H. H. Wyckoff, sheriff, to John C. Smith, $5.

Hole in a Culvert.

One of the police officers reports that there is a hole in the culvert on the corner of Grant avenue and West Fourth street large enough for a horse to step in. Street Commissioner Gavett will repair it at once.

A Welcome Service.

The meeting at the Salvation Army Hall this evening will be of unusual interest. It will be that of a welcome service in honor of Capt. Ormsby, who has been enjoying a few weeks furlough.

3D REGIMENT TO MOVE.

WILL PROBABLY GO TO SEA GIRT BY NEXT SATURDAY.

Major Landon so Informs the Soldiers—Pay Rolls Signed Yesterday—New Orders in Reference to Paying Fines.

(Special to The Daily Press.)

Pompton Lake, Sept. 1.—Before dismissing his battalion after dress parade last night, Major Landon told the men that they would positively leave Pompton Lake by next Saturday. The men greeted the news with vociferous applause. Where they are to go he pretended not to know, but it is probable that their next destination will be Sea Girt. None of the other companies outside of the Third Battalion have been officially informed that they are to move.

The pay rolls were all signed yesterday. Some of those who were fined for taking French leave did not sign, pending an answer to a protest against the excessive fines which was sent to Washington about a week ago. Those culprits who did sign the rolls will receive 19 days' pay, or $9.50. An order lately issued permits an enlisted man to draw a certain proportion of his pay each month until his fine is settled. As far as possible the cases of absence without leave, instead of being tried by a field officers' court, will be referred to a general court-martial, and those previously convicted by a field court have a right of appeal to a general court-martial.

Muster inspection and roll-call was held yesterday. The men were lined up in heavy marching order.

SEWER STOPPED UP.

Street Department Gang Removed it by Flushing With Water.

Street Commissioner Gavett had a force of men at work last night locating a stoppage in the sewer on East Second street. The point of obstruction was found and flushed out with a stream of water, and now is working again in good shape.

The East Second street sewer is a long one. Starting at the corner of East Front and Washington streets, it comes down Washington street to Second, and down East Second to Park avenue. There is a flush tank at the corner of Front and Washington streets, but no more until Park avenue is reached. It is said that another flush tank should have been built near Watchung avenue.

The stoppage was first noticed by a private drain refusing to work. It was suspected that there was a stoppage in the main pipe, so Mr. Gavett had his men locate it by means of jointed rods. It was found 250 feet east of Park avenue, and the obstruction readily gave way to the streams of water. Just what the obstruction was Mr. Gavett has been unable to find out.

This is the first time that the main sewer has been plugged up in this way.

CONDITION OF JERSEY CROPS.

Weather Has Lately Been Exceedingly Favorable to Maturing Crops.

(Special to The Daily Press.)

New Brunswick, Sept. 1.—The observers and crop correspondents report for the week ending Monday, August 29th, that the weather conditions have been exceedingly favorable to all maturing crops. Corn now promises to be the largest crop in several years, the stalks have obtained an unusually large growth and the ears are well formed. In the southern section some fields will be ready to cut next week. Sweet potatoes, lima beans and all varieties of melons are maturing rapidly, and large quantities have been shipped during the week. Late tomatoes and round potatoes have also improved, but the yield of both these crops will be decidedly below the average. Late orchard fruits are not at all promising. In some sections the peaches are forcing, and in other rotting on the trees. Apples, the State over, will be a short crop, but the quality will be good. Grapes are coloring, and in well-cared-for vineyards the yield will be about one-half of the average. A good second crop of hay and clover has been secured in fine condition. Fall ploughing and seeding is progressing rapidly, and in some sections is already completed.

Dewey Street, New Brunswick.
(Special to The Daily Press.)

New Brunswick, September 1.—A petition is being circulated among the residents of Handy street to have the name of that street changed to Dewey street in honor of Admiral Dewey. It is thought that the Common Council will not hesitate to grant the petition if it receives the signatures of the majority of the residents, and it is more than probable that it will. The petition will be presented to the Council at the regular meeting this month.

FAST CYCLISTS WILL MEET IN A ROAD RACE.

Last of Series of Events Arranged by Harry K. Lister.

OFFICIALS OF THE MEET.

A NUMBER OF CRACK RIDERS FROM OUT-OF-TOWN.

W. J. Mooney, of Rahway, Will Ride From Scratch—He Will be a Strong Competitor—L. A. W. Consul Cumings Says That There Will be No Trouble Grow Out of the Race.

This afternoon at 4 o'clock will see an interesting contest on the road between nearly a score of the fast wheelmen of this vicinity. It is the occasion of the last of a series of three road races, arranged by Harry K. Lister. The other two were very successful and everything points to an equally successful termination of this one.

It is to be regreted that a number of the well-known local riders are not going in the race as they would have given added interest to the event. Poole, Sims and Richter have all decided not to ride. The riders entered, however, will furnish plenty of excitement and a pretty race from start to finish may be expected. There are a number of out-of-town men who will participate in the event and who may show up in remarkable form at the time of the race. Among them, W. J. Mooney, of the famous Mooney family, of Rahway, will ride from scratch. As he has been in a number of races and has made fast time, he will give the other contestants a lively race. Harry Cuming is the nearest Plainfield rider to scratch. He starts with the one minute bunch and may be looked upon to be well toward the front at the finish. Then there are a number of other well-known riders who are going to try for the honors.

It is said that some of the riders did not enter on account of trouble that they feared might arise if any of the local riders who are suspended, should compete. While the League of American Wheelmen and the Century Road Club, which has assumed authority over road racing, once agreed that suspended men should not take part in road contests, the decision has never been sustained and is practically a dead letter. Local Consul T. A. Cuming is the authority for the statement that no trouble will follow.

The officials of the race are:

Chairman, H. K. Lister.

Timers, J. W. VanSickle, Charles E. Vail and H. C. VanEmburgh.

Judges, Nathan Titsworth, Charles B. Morse, Thomas A. Cuming, Chauncey F. Stout and Raymond A. McGee.

The entries and handicaps are as follows:

No.	Name and Address.	Handicap.
1.	M. F. Fifer, Elizabeth	Scratch
2.	W. J. Mooney, Rahway	"
3.	J. T. Conquest, Perth Amboy	30 seconds
4.	John Allgair, Jr., Somerville	1.30 "
5.	Harry Cuming, Plainfield	1 minute
6.	A. Dufresne, Elizabeth	1 "
7.	Yep Sorensen, Plainfield	1½ "
8.	George Apgar, Plainfield	1½ "
9.	Chas. Dodd, Elizabeth	1½ "
10.	W. Downs, Newark	2 "
11.	Eli G. Embler, Westfield	2 "
12.	W. W. Robinson, Perth Amboy	2 "
13.	Jos. Burke, Plainfield	2 "
14.	Morris Sorensen, Plainfield	3 "
15.	Charles Vanderveer, Cranford	3 "
16.	Henry Angerbauer, Plainfield	4 "
17.	Ed Duck, Plainfield	4 "
18.	Ira Warren, Elizabeth	4 "
19.	M. Owens, Plainfield	4 "
20.	H. Rathjen, Plainfield	4 "

DOWN WITH YELLOW FEVER.

After Faithful Administering to Others, Daniel C. Main is Stricken Himself.

After weeks of good and faithful labor for and among the sick soldiers at Santiago, and after having had the malarial fever, Daniel C. Main, of Shafter's ambulance train, now has the yellow fever. He will have good care outside the fever hospital, and is very hopeful of recovery; for all cases that have come under his observation have, with few exceptions, been very light.

After Revenue Delinquents.
(Special to The Daily Press.

Rahway, September 1—Deputy Internal Revenue Collector George E. VanVoorhees, of Elizabeth, visited Rahway yesterday to hunt up delinquents who have not paid their revenue tax. He also made a call on former Assemblyman Josephus Shann to get a list of his guaging instruments. Mr. Shann some time ago having been appointed Government gauger. From Rahway Collector VanVoorhees went to Boynton Beach, where C. V. Boynton, the proprietor, has incurred a penalty for not paying the tax on his bowling alleys in time. He has six alleys, the tax on which is $5 each, and there is a penalty of 50 per cent. to be added to this for failure to pay the tax before August 1st.

Merchant's Association Excursion.

New York, Sept. 1st—4th. Reduced rates—15 days limit. Consult Lehigh Valley ticket agents for particulars.

LOOKING FOR A BOARDER

HE HAS GONE AND SO HAS MONEY, JEWELRY AND CLOTHES.

George Pattel Was Thought to be a Model Guest by Mrs. Lizzie McLane, But Now She Wants Him Arrested.

There is one woman in this city whose faith in human nature has been sadly shaken. That woman is Mrs. Lizzie McLane, of West Fourth street. Three months ago she took in a boarder, George Pattel by name, who has disappeared within the past few days, and at the same time sundry articles of wearing apparel, linen, some jewelry and money are found to be missing. Justice Mosher has issued a warrant for Pattel's arrest, but his whereabouts are unknown.

Pattel came to Mrs. McLane's house early in June, looking for board. He described himself as a machinist and said he had secured work in one of the shops in this city. Pattel claimed to hail from Newark and was given a nice room. The new boarder was a quiet kind of man and never made any complaints. He was considered a model boarder. Almost every night he went out but never stayed out late, and was in bed by 11 o'clock.

All summer Mrs. McLane has been missing small sums of money at intervals. She was careless with her pocketbook, and used to leave it anywhere. Ofter there was quite a quantity of change in it, and Mrs. McLane did so much paying and receiving money that she did not keep an account of the money in her purse. She would find herself running short at times, and would try and figure up her accounts to find out where she had spent the last sum, but always had to give it up.

Mrs. McLane didn't suspect her boarder, but supposed always that she had made some use of the money, which she didn't remember.

Sunday night Pattel disappeared. He didn't come home that night, and hasn't been seen since. His board bill was paid up to Saturday night, but Mrs. McLane says that upon investigation she finds that her husband's best black coat and vest are gone, besides a ring and watch belonging to her, three or four towels, and three of her son's white shirts. No one saw Pattel go, and his whereabouts is unknown. It is thought that he is in Newark, as he said his former home was there, and used to talk a little about friends he had in that city.

He is described as being tall, thin and dark-haired, with a black mustache.

TO WELCOME JERSEY'S TARS.

Boys from the Badger to Be Given a Rousing Reception.

The auxiliary cruiser Badger, manned by the battalion of the East New Jersey Naval Reserve, composed of young men from Hoboken, Jersey City, Newark, the Oranges, Plainfield, and adjacent towns, is expected in New York tomorrow. The people of Hoboken, where the reserves' training ship, the Portsmouth, lies, are planning to give the sailor boys a rousing reception. It is expected that the boys will proceed to the Portsmouth in a body when they are mustered out.

The plans for the reception are in embryo as yet, but the city will certainly be decorated in honor of the boys who gave such good account of themselves as "amateur tars," a name, their friends say, they should be proud to maintain.

Death of Mrs. Baily.

Mrs. Mary Baily, of New Vernon, mother of Mrs. Israel Lewis, of Somerset street, and grandmother to Mrs. Frank Jones, of Grandview avenue, died at the home of her daughter in Newark Monday morning, of cancer. The remains were moved to her home in New Vernon by Undertaker H. DeMott, and the funeral services will be held tomorrow afternoon at 2:30 o'clock.

Repairs in the Gym.

The gymnasium at the Y. M. C. A. is closed this month undergoing repairs. The formal opening will occur about October 1st, when the gym will have been overhauled and painted, the swimming tank painted and all the apparatus cleaned and put in first-class shape.

The Tax Rate.

The tax rate in Plainfield this year is $2.42 on the $100, divided as follows: County, .52; State schools, .28; fire, .20; library, .04; city and city lights, .60; poor, .05; free school and bond tax, .62; principal on sewer bonds, .05; interest on sewer obligation, .06.

E. L. Bonny and family, of Mercer avenue, are back from their summer outing spent at Friendship Lake, New York State.

PAUPER'S GRAVE FOR LITTLE JOE GREER.

Father Has Gone No One Knows Where.

BROTHER AT A CONVENTION.

THERE IS NO ONE TO LOOK AFTER HIS BURIAL.

So He Will be Laid Away This Afternoon in a City Plot—Other Brother is at Home Living on the Charity of the Neighbors—Eldest Brother at Nyack Attending Christian Alliance Convention.

The father has gone, no one knows whither. A Christian Alliance convention claims the attention of the eldest son. Meanwhile the body of little Joseph Greer, who met such a horrible death under the wheels of a passing coal train, lies in Casey's morgue and will have to be buried this afternoon at the city's expense. The other son, Alexander, deserted by his kin, is living on the charity of the neighbors. It is a sad case, indeed, the present situation of the Greer family.

This is not the beginning of the misery for the Greers. For some time the two younger sons, one of which is now dead, occupied several small rooms in an apartment house on South Second street, near Muhlenberg place. The father was in Jersey City all the week and the two lads had to run the household affairs as best they could, which, as may be guessed, was not very satisfactory. The oldest son worked in Jersey City.

Now, since the death of the lad, Joseph, things have been going from bad to worse. At first, they couldn't find the father. Then he was located at the Erie Railroad roundhouse in Jersey City. Yesterday he set out for Elizabethport saying that he was going to secure a burial plot in which the remains of his youngest child might be placed.

Meanwhile the body laid in Casey's morgue and no one came. This morning Detective Dougherty, of the Central Railroad, found that the father had not been there since early yesterday morning before he departed for Elizabethport. On going to the home of the Greers, he found that the father, Alexander Greer, returned at midnight. Greer told his son, Alexander, Jr., to call him early. The boy did so and early this morning the father slunk away and has not been heard from. He said nothing as to where he was going. Detective Dougherty also learned on investigation that Greer had returned to Plainfield early yesterday afternoon in a partially intoxicated condition and slept about the North Avenue station most of the afternoon. Nothing was seen of him in the evening.

The oldest son, Robert Greer, works in Jersey City. Detective Dougherty had already looked him up at his boarding place and the housekeeper there was loud in her praises of the young man telling how much he had done for his brothers in Plainfield. He was such a model young man, she said, and so kind and good.

This morning, Dougherty went there again to see if Frank Greer would come and take charge of his brother's remains. This time the boardinghouse keeper told the detective that the young man had gone to Nyack to attend a Christian Alliance convention and might not be back for a day or two. And Frank Greer knew that all that was mortal of his brother lay in the casket over in Plainfield.

Undertaker Casey waited until noon today for someone to come to take charge of the body, but no one came. After a conference with Detective Dougherty it was decided to inter the remains in a city plot. It was not safe to keep the corpse much longer and there seemed no prospect of any one coming if they did wait. So Casey has given orders to the grave digger and this afternoon the body of Joseph Greer will be laid away in a pauper's grave.

Alex. Greer, now the youngest of the family, still remains at home. There isn't a crumb in the house. The neighbors are kind to him, however, and he has had enough to eat. He has no idea when his father or elder brother will return.

Will go to Bayonne.

The members of the Exempt Firemen's Association are requested to meet at their hall Monday morning at 8 o'clock sharp. They will take the 8:48 train to Bayonne to attend the big firemen's parade in that city that day.

Corporation Counsel Craig A. Marsh and wife, of West Eighth street, have returned from their European trip.

AMERICA AND CANADA

The Quebec Conference Seems to Promise Good Results.

MANY QUESTIONS ARISE

The International Representatives Are Working Hard—The Highest Expectations Seem Likely to be Realized—Important Announcements Are Looked for Before Friday's Adjournment.

Quebec, Sept. 1.—A most hopeful feeling prevails regarding the progress of the international conference, and it looks as if the highest expectations for a better understanding between the United States and the Dominion of Canada were about to be realized. The impression has gone abroad from the Parliament buildings, where the conference sessions are held, that a satisfactory settlement of existing disputes is in sight, and important announcements are expected before the adjournment on Friday. The international representatives are working very hard, each side holding separate meetings before the opening of the general session at eleven.

Yesterday the Americans met again in the evening to look over thte many memorials that are daily received. With the exception of a brief recess for luncheon and a few moments given for photographing the commissioners at their desks in the council chamber, the whole of Tnuesday was taken up with joint discussion.

Yesterday the usual programme was followed, each side holding separate and informal meetings in the early morning and the commissioners coming together in joint session from eleven to six o'clock.

The Atlantic fisheries were again dealt with. To-day a delegation from the fishery interests of Boston and Gloucester will meet the commission.

Sir James Winter, Newfoundland's representative, will return to the island colony before the adjournment in order to meet the British commissioners, who are investigating the French shore dispute. From this fact it may be inferred that the commissioners at Quebec have reached an agreement regarding the Atlantic shore question, as this is the only subject in which Newfoundland is concerned.

It is said that the Canadian representatives will recommend that American fishermen be permitted access to the inshore fisheries and the American commissioners will recommend that Canadian fish be granted admission to the American market, though both recommendations will be qualified by certain restrictions.

The Boston chamber of commerce delegation comes to urge closer trade relations with Canada and Newfoundland and it does not seem likely that the New England fishery interests will block the Atlantic shore agreement, with provincial and federal factors involved.

The lumber dispute is a complicated matter, but as long as the same political party is at the helm of the Dominion and Ontario, friction probably will be avoided.

While Ontario agitated for the reimposition of the export duty on Canadian logs, one clause of the Dingley tariff rendered such a measure ineffective. This clause provided that the log duty should be added to the duty on lumber coming from countries imposing an export duty on logs. Ontario then took matters into her own hands and passed a law requiring that logs taken from public lands of the province should be sawed in the province. The British North American act gives Ontario full power to pass and to enforce such a law.

ALGER'S VIEW OF CRITICISM

Fearful Only of Its Effect Abroad.

Washington, Sept. 1.—It cannot be said that Secretary Alger is indifferent to the many sensational stories that are printed as to the conditions that prevail in the great military camps, for his first interest lies in the welfare of the individual troops.

But he said to-day that with a full knowledge of the lack of foundation for most of them, he deprecated such publications, not because of fear that the American people would be mistaken in their understanding of the actual facts, but rather from an apprehension of the evil effect such publications would produce abroad.

There the people, who, with their full military training, know just what hardships must be encountered by troops in a campaign, and especially in military camps and manoeuvres, would regard with amused surprise the innumerable complaints that are pouring forth upon the government here upon pretexts that would be disregarded entirely in Europe, and they could scarcely fail to gain the impression that the American people are lacking in soldierly qualities.

Spanish Flag on New York Bay.

New York, Sept. 1.—Two steamships flying the Spanish flag sailed from this port yesterday. They were the former United States prizes Miguel Jover and the Catalina. The latter was captured by the gunboat Detroit and the Jova was taken by the Helena. The Washington authorities decided that the steamers should not have been seized, and ordered their release. The Jova and Catalina cleared yesterday for Spain via Havana and manned by their old crews went to sea.

An Outbreak in Peru.

Lima, Peru, Sept. 1.—The Cacerist party, in the city of Puno, capital of the Peruvian province of that name, have created a disturbance by bribing the guards on duty at the jail and freeing the prisoners. The Civic Guard and citizens, headed by the prefect, succeeded in crushing the outbreak.

Gov. Black Asks Release of Volunteers

Washington, Sept. 1.—Governor Black has asked Secretary Alger to order home the Ninth and Fourteenth New York regiments and place them out of service. It was intended to send these regiments to Alabama, but it is likely that Secretary Alger will grant Governor Black's request.

LEAVING THE CAMPS

The Rough Riders To Be Mustered Out At Once.

Camp Wikoff, Montauk Point, Sept 1.—General Wheeler yesterday received a telegram from Adjutant Gen. Corbin ordering, that the Rough Riders be mustered out at once. This means that Colonel Roosevelt and his gallant men will muster out to-day and probably leave for New York by the first train available.

Major Brown, who will attend to the mustering out, has arrived in camp. It was his original intention to muster Roosevelt's men out on Monday in either Madison Square or the Central Park plaza, but the later orders mean that the men will be mustered out at this place.

It is probable New Yorkers will see the dashing colonel and his gallant men marching up Broadway within a day or two.

Eighth New York Leaves Camp To-day

Chickamauga Park, Tenn., Sept. 1.—The Eighth New York will leave today for New York city. The Third Tennessee will leave for Anniston, Ala. The Second Nebraska will leave for Omaha to-day. The seven batteries of light artillery will leave for their home states on Friday and Saturday. Grigsby's Rough Riders probably will go on Saturday. No regiments left here yesterday.

The various regiments under orders to move at once are busy getting ready. The men to be mustered out are turning all property issued to them here back to the army officials and packing up their personal effects. Every effort is making to get all the army away from Chickamauga this week.

Several Regiments Leave Camp Alger.

Washington, Sept. 1.—The Thirteenth Pennsylvania and the First battalion of the Seventh Ohio has left Camp Alger for Middletown, Pa. The other two Ohio battalions will go to-day. The destination of the First New Jersey, First Connecticut and Third Virginia has not been finally settled upon. A strong pressure is being brought to bear to have the last two regiments mustered out. It is thought that the Third Virginia will be ordered to Richmond and the First Connecticut to its home, both to be mustered out. Whether the First New Jersey will be mustered out depends upon the recommendation of the governor of New Jersey.

Warships Leave Ponce.

Washington, Sept. 1.—The navy department has received a telegram from Ponce, Porto Rico, announcing that the Puritan, Amphitrite, Terror, Hannibal and Montgomery have sailed from that place. They will go to Newport, R. I.

The main object is to get the crews of the vessels away from the tropical climate to northern waters. The citizens of Newport have been making efforts with the navy department to secure a rendezvous of the larger vessels in the navy at Newport. The department could not do this, but agreed to send some of the smaller types.

The President's Visit to Montauk.

Washington, Sept. 1.—Secretary Alger sent a dispatch to General Wheeler at Camp Wikoff, stating that the president would be at Camp Wikoff Saturday, accompanied by some of his cabinet, including himself. The reason Secretary Alger sent the dispatch was because it was reported at the war department that a bulletin reported to have been signed by General Corbin had been posted at the camp saying that the president would not be there until next week. No such dispatch was sent by General Corbin.

Sternberg Has Nothing to Say.

Washington, Sept. 1.—Surgeon General Sternberg would not discuss the statements made by Lieutenant Colonel Nicholas Senn regarding the sanitary conditions at Camp Wikoff.

General Ludington said no reports had reached him that the water was bad or likely to become so. The reports of water first made showed that it was good.

The point that Surgeon Senn makes is that it will soon become infected with typhoid germs.

Emperor William's Autumn Trip.

Berlin, Sept. 1.—Emperor William, it is announced, while en route in the autumn to attend the dedication of the Church of the Redeemer at Jerusalem, will be the guest of King Humbert at Venice.

THE HABITS OF THE ESCALLOP.

How It Comes About That Beds of Them Are Discovered in Familiar Waters.

It may be a source of wonderment to one not familiar with the habits of the escallop to read, as he does at intervals, that a great bed of them has been found—as, for instance, recently in Great South Bay—in waters that are well known, that are constantly fished, and that have been regularly fished for years. The wonder is that the escallops there were not discovered before. The fact is that they were not there, and the explanation of that is found in the fact that the escallop has the power of locomotion. The oyster in the early stages of its existence is a free swimmer, but from the time that it attaches itself to something and begins to grow into its final and familiar form, which it does when it is still very minute, it remains fixed. The escallop, however, is able to move about, and sometimes it comes to the top of the water. It could do this easily in four or five feet of water; it might reach the top from two or three times that depth. It is sometimes taken in nets, the escallop being off the bottom and higher above it than the head line of the net in which it is taken.

The escallop moves itself by expelling a column of water from its shell. It can open and close its shell freely. It takes in water, which it forces out again against the surrounding water. It moves about, and beds are found in various places, and escallops bedded here to-day might be somewhere else to-morrow. Fishermen taking escallops and holding them for the market, if they keep them in the water, put them in crates with slats close enough together to keep them in.

FROM CAMP WIKOFF

Commander Wheeler's Firm Management Is Working Wonders

NO YELLOW FEVER THERE

Medicines Are Now Plentifully Supplied There Are 17,000 Men in Camp at Present. General Wheeler Says it Is a Very Healthy Camp. Less Than 1,000 Patients Are in the Hospitals.

Camp Wikoff, Sept. 1.—General Joseph Wheeler said to-day in regard to the medical administration here:

"All the chief surgeons assure me they have sufficient medical supplies. Colonel Forwood says there has been no time when there has been a deficiency of medicines. He has always told the division surgeons they could get medical supplies by making out requisitions. The difficulty has been in not having places to store large quantities in scattered places. Because of this frequent requisitions for limited supplies must be made."

General Wheeler said that he had 17,000 men in camp at present. Dr. S. M. Gonzalez, appointed by Gen. Shafter as yellow fever expert in the Fifth army corps, was seen at the hospital yesterday.

"There are no yellow fever cases here," he said. "There are some convalescents, however. I cannot give the numbers. There is absolutely no danger at all. This is a very healthy camp."

There were 1,272 patients in tthe general hospital yesterday. To-day this number is reduced to nine hundred through the granting of furloughs for convalescents. Since the camp was established five thousand patients have been treated in tthe general hospital, and about 3,500 in the regimental hospitals. In all eighty men have died in camp up to date. The following men died yesterday:

Alexander Heller, Company B, Eighth Ohio, typhoid; Henry Burdig, Troop K, Tenth cavalry, typhoid; Philip Gooch, Company K, Twenty-fifth infantry, typhoid; John W. Crawford, Troop M, Ninth cavalry, typhoid.

The transports Alleghany and Panther arrived yesterday, the former having on board 500 men of the Ninth Massachusetts and the First Illinois men. The Panther has 116 men of various commands.

Fourteen of the Ninth Massachusetts volunteers died on the Alleghany during her trip from Santiago. The names are not yet obtainable. There was one death on the Panther.

General Ames has begun an investigation which will be most thorough and leave no doubt as to whether Montauk should be abandoned for the reason set forth by Dr. Senn. Independent of what General Ames's investigation reveals, the work of removing the sick soldiers to their homes or to city hospitals is to be pushed as rapidly as possible. The steamer Shinnecock, which has been chartered, is now here being fitted up as a hospital ship, and a corps of doctors and nurses have been detailed to care for the sick soldiers while they are being transferred on the hospital ship to the city.

The transport Yucatan is also being fitted up as a hospital ship, and will accommodate 250. The feeling at General Wheeler's headquarters was that all the troops should be sent home as fast as they get out of quarantine, and General Wheeler and General Ames are likely to recommend this to the president and Secretary Alger.

The men of Companies D and M of the Texas volunteers and those of A and D of the First artillery, were landed from the transport San Marcos yesterday and went to the detention camp. The San Marcos is now being made ready to act as a hospital transport to carry sick to New York hospitals, where arrangements have been made to care for them.

The transport Specialist has also landed her troops. Only 118—details from Battery A, Second artillery; K of the First artillery, F of the Fourth and F of the Fifth—came on the Specialist, and they had charge of 252 horses on board.

Comp'aint of War Department Employees.

Washington, Sept. 1.—The war department clerks are discontented over the situation which allows them to go uncompensated for the extra labor demanded of them during the war. The appropriation for extra clerical assistance has been expended in the temporary employment of copyists, typewriters and others who are not within the classified service. Many of these appointees have been so obviously political or personal favorites, and the traffic in positions has been so spirited, that the whole business has redounded as little to the credit of the department as to its efficiency. The older clerks have really been obliged to do the extra hard work without any extra reward, in order that a lot of political and personal appointees might be provided for, at the instance of congressmen. At one time the feeling was so strong that a strike similar to that inaugurated by the department telegraphers was imminent.

Much Gold Coming.

New York, Sept. 1.—Lazard Freres have been advised that their London house will ship $1,375,000 gold to them this week as follows: By the Kaiser Wilhelm der Grosse, $675,000; Majestic, $250,000; Campania, $450,000; this makes with the $2,725,000 previously received, a total importation by Lazard Freres on the present movement of $4,100,000.

The New York in Dry Dock.

Brooklyn, Sept. 1.—The cruiser New York was put in dry dock at the navy yard yesterday, and in all probability will be out again before the end of the week. It is expected that it will not take longer than three days to clean and repaint her underbody, when she will be in as good condition as she was before the Cuban campaign.

Trouble in Esuador.

Lima, Peru, Sept. 1.—The congress of Ecuador has suspended its sessions until it can obtain government protection. Consequently, the cabinet has resigned.

Shoes for Spring.

You'll be buying a new pair of shoes soon. Where are you going to buy them?

The shoe store you want to patronize is the store that gives you the most style, comfort, elegance and durability for the money.

If you'll "shop around" before you buy you'll find that this is the store you're looking for.

Flynn Bros.,

222 West Front St. Plainfield, N. J.

LET US ARM YOU!

It's quite necessary, because while Uncle Sam is settling scores with the Spaniards you're bound to have a little brush at home at the same time, and there's nothing like being ready for emergencies. Until you can sign a perpetual truce with sun, wind and storm, your house and other buildings will need to be fortified with paint, and ours are like a 20-inch chilled steel armor.

NOTICE

to all interested in

Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

WILHELMINA TO HER PEOPLE

Young Queen of Holland Issues an Address

The Hague, Sept. 1.—Upon the occasion of her birthday and the attainment of her majority yesterday, Queen Wilhelmina Helena Pauline Maria, who was born August 31, 1880, issued this morning a proclamation to the people of the Netherlands.

Her majesty declares that she is ready to accept the splendid, but weighty task imposed upon her, supported by the fidelity of the people and the noble and elevated conception of her duties given to her by her mother.

"It shall be the aim of my life," the queen says, "to follow her example, and govern in a manner expected of a princess of the house of Orange. True to the constitution, I desire to strengthen the respect for the name and flag of the Netherlands."

QUEEN WILHELMINA, OF HOLLAND.

The queen proceeds to express her desire for the intellectual and material welfare of the whole people and her hope and expectation that the support of all, in every sphere of official and social activity, will never be lacking. Concluding, the queen then says:

"Trusting in God and with the prayer that he will give me strength, I accept the government."

THE OLIVETTE GOES DOWN

All on Board Saved. A Mysterious Accident at Quarantine Near Fernandina.

Fernandina, Fla., Aug. 31.—The hospital ship Olivette, which has been lying near the quarantine station, through some mysterious agency sank this morning at about 7.30 o'clock. Aboard of her was a hospital corps of thirty-five persons, and a crew of forty-five persons, all of whom escaped without injury, but in scanty attire.

The roustabouts sleeping in the lower hold had a narrow escape, being driven from their bunks. Fortunately for those aboard there was a schooner near by, and some of the men took shelter on her, while others sought refuge at the quarantine station.

The Olivette went down in about 30 feet of water, her main deck being submerged. No one apparently knows what caused the accident, and as no investigation has yet been made, the matter remains a mystery. Vessels in the harbor probably will pump her out if possible.

The Olivette arrived at Montauk Point on August 21, with 275 soldiers from Santiago, 75 of whom were landed and 200 were taken to Boston, where the Olivette arrived on Aug. 23. From Boston she sailed for Fernandina for the purpose of transporting sick soldiers to Philadelphia. The Olivette belonged to the Plant line of steamers, which chartered her to the government, and was built at Philadelphia in 1887. She was 274 feet long, 35 feet beam, 11 3-4 feet deep, and registered 1,611 gross and 1,105 net tons.

CERVERA GOING HOME

Ordered to Prepare to Take His Officers and Men Back to Spain.

Annapolis, Sept. 1.—Orders have been received here from the president directing Admiral Cervera to make the arrangements to proceed with his officers and men back to Spain immediately, in accordance with the instructions issued by the Spanish minister of marine.

The officers were very enthusiastic when they received the news. It is understood that they will return without giving parole. Captain Eulate left yesterday afternoon for New York.

Gen, Boynton's Report.

Washington, Sept. 1.—Brigadier General H. V. Boynton has sent a report of the investigation into the hospital conditions of Camp Thomas at Chickamauga, which he was ordered to conduct. He states that since the institution of the camp 75,000 troops have been encamped there. Of this number only 198 have died up to date.

One of these soldiers was killed by a railroad train. The general condition of the camp is excellent and the report throughout shows a surprisingly favorable state of things.

Greely's Protest Overruled.

Washington, Sept. 1.—One company of the Army Signal Corps has been ordered by the secretary of war to proceed to Omaha for the purpose of taking part in the exposition.

The detail was made in opposition to the recommendation of General Greely, the chief signal officer, who told the secretary that there was more work for the Signal Corps to do now than at any time since the beginning of the war.

Gen. Frank Succeeds Wade.

Washington, D. C., Sept. 1.—Brigadier General Royal T. Frank has been assigned to command temporarily the Third Army Corps, formerly commanded by General Wade, the latter having been relieved to become a member of the Cuban military commission.

Gov. Taylor Very Ill.

Knoxville, Tenn., Sept. 1.—Gov. Taylor, who has been suffering with kidney trouble for several days at his home in Johnson City, is now reported seriously ill. His immediate relatives have been called to his bedside.

DREYFUS CASE AGAIN

Col. Henry Confesses Forgery and Commits Suicide.

TRIAL MAY BE REVERSED

This Startling Announcement Entirely Changes the Aspect of the Dreyfus and Zola Cases. The Anti-Dreyfus Papers Confounded and the Friends of the Prisoner of Devil's Island Jubilant.

Paris, Sept. 1.—The arrest of Lieutenant Colonel Henry on the discovery that he is the author of an important letter which figured in the Dreyfus case, is one of the most sensational developments in the whole of this extraordinary affair. Colonel Henry has been, throughout, the champion of the army against Colonel Picquart, with whom he fought a duel.

This new development evidently entirely alters the aspect of both the Dreyfus and the Zola cases, and practically nullifies the evidence of Generals Pellieux and Boisdeffre, and the declarations of the minister for war, M. Cavaignac, in the Chamber of Deputies. In fact, some people believe that perhaps the real turning point in the Dreyfus case has been reached, and that the arrest of Colonel Henry will lead to a revision of the trial of the prisoner of Devil's island.

It appears that as soon as M. Cavaignac assumed the office of minister of war he charged the official bureau to make a thorough research of the Dreyfus case, and it was this inquiry which resulted in the discovery of decuments lately read in the Chamber of Deputies by M. Cavaignac, showing that proof of the guilt of Dreyfus was forged. When Colonel Henry was summoned to the ministry for war and was questioned by M. Cavaignac in the presence of General Boisdeffre and others, he at first affirmed the authenticity of the incriminating document. But, when discrepancies were pointed out, he at first admitted adding sentences, and finally confessed to fabricating the whole letter. It is affirmed, however, that this discovery has not changed M. Cavaignac's belief in the culpability of Dreyfus, but the minister is determined to punish all the guilty parties, no matter what their rank or position may be. Colonel Henry is to be tried by court martial.

Colonel Henry confesses to having committed forgery, "owing to the absolute necessity for finding proofs against Dreyfus," and it is understood that the document in question is the letter which has hitherto been alleged to have been written by the German military attache to the Italian military attache in October, 1896.

Finally, it is said that when the interpellation in the Dreyfus case was coming up in the Chamber of Deputies this letter was secretly communicated to the court martial and was the chief evidence upon which Dreyfus was convicted.

The anti-Dreyfus papers are dumbfounded at the arrest of the colonel, while, on the other hand, the papers which have been supporting the proposition to reopen the Dreyfus case are jubilant. They now demand the immediate release of Colonel Picquart who is imprisoned on charges connected indirectly with the Dreyfus affair, and they also insist upon a revision of the Dreyfus trial.

When Count Esterhazy was informed of the arrest of Colonel Henry and of his admission, he exclaimed:

"This is too terrifying."

Paris, Sept. 1.—Lieutenant Colonel Henry, who yesterday confessed to having forged a letter that virtually convicted Dreyfus, committed suicide last night.

General Lemouton de Boisdeffre, chief of the general staff of the French army, who presided at one of the Dreyfus court martials, has tendered his resignation to the government.

The wildest excitement prevails in Paris.

Four years ago, lacking about three months, Captain Albert Dreyfus, was found guilty by a French military tribunal of selling plans and descriptions of French forts and their management to a forengn power. The foreign power was then naturally supposed to be Germany. Later there was reason to suppose that it was Russia, or perhaps Italy. France's ally, it was said, wanted to know how she was fortified against the enemy with which she had a quarrel to the death, not being willing to engage in a fruitless fight for her sake. Germany denied that she had bought any secrets from Captain Dreyfus;; of course, Russia did the same.

Dreyfus apparently owed his conviction to the fact that he was a Jew. Had Dreyfus been a Christian it is probable that he would not be on Devil's island to-day. Germany and France may be at odds as nations, but as peoples they are united in their ill will toward the Jews.

The story of the conviction, sentence and degradation of Dreyfus was one of the most remarkable known to modern military annals. Suspicion fell upon him at first only because he visited a resort frequented by known spies. He was tried in secret and convicted on circumstantial evidence that, as far as was made public, was not conclusive.

The world, if not Francve, might perhaps have forgotten about Dreyfus if Zola had not taken up the cudgels for him last December and challenged the verdict of the court martial which had been presided over by Count Esterhazy. Zola was too late. By this time it was not the guilt or the innocence of Dreyfus, the Jew, but the honor of the French army which was at stake. The French government discerned this, hence the scant justice with which Zola was treated. Even Dreyfus got more. "Spit on Zola" represented the attitude of the government, as it did that of the Paris populace. France's most popular novelist, although not in the academy, is now in exile—he concluded it would be useless martyrdom to serve the sentence of his second trial.

UNIVERSAL PEACE PROJECT

Copy of the Note Handed to Our Ambassador at St. Petersburg.

Washington, Sept. 1.—United States Ambassador Hitchcock at St. Petersburg has cabled the state department that he has been handed by the Russian minister for foreign affairs, Count Muravieff, a copy of the identical note addressed by order of the czar to all of the representatives in St. Petersburg of foreign governments, proposing a joint conference to consider the question of general disarmament.

The full text of the note was not cabled by Mr. Hitchcock, but will be sent forward by mail.

Its character is such as would require something more than a mere acknowledgement of receipt, and as the proposition is one of the acceptance of which would involve a radical change in the foreign policy of the United States, it is sure to receive most earnest attention and consideration at the hands of the president and Mr. Hay when the latter assumes office.

Did the Czar Aim at Us.

London, Sept. 1.—Mr. James Greenwood, a prominent and well informed writer, published a letter in the Star yesterday afternoon in which he says it is possible that one of the objects of the czar in issuing his peace circular was to embarrass the progressive party in America and encourage its opponents. If this is so, he says, how much more politic the issuance of the circular is than actual interference would be to keep the United States out of the far East.

THE CZAR OF RUSSIA

So far, Mr. Greenwood thinks, the circular has done an enormous deal of harm. France is a striking spectacle of hate revived and rage renewed. In two days there is much less peace in Europe than before, and the upshot is likely to be greater still.

It would be odd, he adds, if the people of the United States did not suspect that in the circular there was concealed a backhanded slap directed at themselves.

Germany to Support the Czar.

Berlin, Sept. 1. The Cologne Gazette says that Germany has manifested already to Russia her willingness to support the czar's scheme of universal disarmament.

France, the paper says, is unfavorable to the idea, and maintains an attitude of restrained complaisance toward Russia.

It would be impossible, the Gazette adds, for Russia to indorse the attitude of France in regard to Alsace-Lorraine.

Ambassador Hay's Successor.

Washington, Sept. 1.—It is said that the president will decide upon an ambassador to Great Britain before he returns to Washington next week. There was a conference yesterday at Cleveland in regard to the peace commission, and it is expected by officials now in Washington that another will be held to-day, as to the selection of an ambassador to succeed Colonel Hay at the court of St. James.

It is said that all idea of appointing Senator McMillan of Michigan has disappeared, and that the man now being considered is Postmaster General Charles Emory Smith. It is stated that Mr. Smith left last week to consult Mr. Wells, owner of the Philadelphia Press, and Mr. Smith's close friend, in regard to accepting the mission.

Mr. Hanna is expected to reach Cleveland to-day and will give his views on the matter. If Mr. Smith be made ambassador to Great Britain, it is said that Perry S. Heath, now first assistant postmaster general, will be made postmaster general.

Troops Coming Home.

Washington, Sept. 1.—The war department has received a cablegram from General Miles stating that Troop C of Brooklyn and Troop A of New York would sail from Porto Rico on Friday of this week.

Both troops upon arriving at New York will march direct to their respective armories.

The war department officials have given assurances that the Brooklyn troopers will be brought home in comfortable condition and that there shall be no repetition of the suffering and overcrowding of the men that marked the trip from Newport News to Ponce.

Shipments of Projectiles.

Reading, Pa., Sept. 1.—During the past month the Carpenter Steel Company made the largest shipments of projectiles in the history of the establishment. They consisted of all sizes, from four to thirteen inch, and were consigned to various stations. The shipments are said to have aggregated in value more than $200,000.

The firm's employes are working day and night the same as they have been since the outbreak of the war.

France's Big Deficit.

London, Sept. 1.—A dispatch from Paris to a local news agency says that the French budget estimates show a deficit of 120,000,000 francs, which will be greatly augmented if the programme of M. Lockroy, ministetr of marine, is adopted.

The Relief Sails for Boston.

Guayama, Porto Rico, Sept. 1.—The hospital ship Relief, with seventy-six men from here, fever and typhoid cases, and with thirty-five sick men from Ponce, has sailed for Boston.

The Fourth Ohio regiment is anxious to go home.

The Democrats Plan.

War news is now taking a back seat for political gossip, for days are drawing nearer when the conventions of the political parties will have to name their standard bearers.

Yesterday a great impetus was given to the campaign in New Jersey by the meeting of the Democratic State committee in Newark when the date for the State convention was fixed for September 28th at Trenton. As was anticipated the Democrats choose a date following the convention of the Republicans. What the G. O. P. will do at their convention will have a material bearing on the campaign policy of the Democrats and the latter are taking a position to be well-prepared for whatever turns up.

The committee discussed the question of apportionment, and there was a proposition to adopt the Republican plan of an apportionment according to the vote of 1895 by counties, without regard to the election districts. It was decided, however, to adhere to the old plan of one delegate for each one hundred voters, with one delegate for a fraction over one hundred, each district to have at least one delegate. The basis will be on the districts as they existed in 1895.

Under this rule Union county will be entitled to fifty-eight delegates. Somerset will have twenty-four.

Chairman Price said he had not as yet named a committee to draft a platform. It is understood that Prosecutor Budd, of Burlington county, will be the chairman of the committee, and will select the rest of the committee members. Mr. Budd voted for Bryan in 1896, but was not a rampant Bryanite. He is an enthusiast for party harmony, and his idea will be a harmony platform.

The Mayoralty.

Hon. W. R. Codington, whose name was mentioned as a possible candidate for Mayor on the Republican ticket at the city election in December, writes the following letter to the editor of The Daily Press today:

September 1st, 1898.

To the Editor of The Daily Press:—I see by your issue of last evening that among others I have been mentioned as a possible nominee of the Republican party for Mayor of this city. In order that there may be no misunderstanding, permit me to say that I am not a candidate and am not aspiring to the mayoralty. When the people of this beautiful city desire to thus honor me, they will no doubt make it known to me, and then it will be for me either to accept or decline. Until then let it be understood that I am not a candidate and am not seeking the nomination.

I am, yours very respectfully,

W. R. Codington.

This defines Mr. Codington's position towards the Mayoralty very explicitly. Of course, it is too early yet to correctly anticipate who will be honored with the nominations for the city offices to be filled, but it is certain that if the Republicans win in the municipal election they will have to put up a home man—that is, one whose business interests are in Plainfield all the time. In this regard and also the fact that he is thoroughly identified with the substantial interests of the town and is of a conservative character, Mr. Codington seems well-fitted.

Those who make a business of seeking pleasure never secure it except as the merest illusion. It is the myth of Ixion and the cloud. The only solid delights of this kind which leave an impression on the mind are such as take us by surprise.

Travel improves good wine and spoils the poor. The same thing may be said of brains. There is no such arrant nuisance as the traveled fool.

There are certain persons whose consolation for unhappiness is to appear as miserable as possible.

VIEWS OF MANILA.

Anything relating to the captured city of Manila is of interest to our people. The two pictures presented are from photographs. The upper one shows a bridge across the Pasig river and the lower one shows Escolta, the principal business street and thoroughfare of the city.

The British-American Boundary.

It seems singular at first blush that down to the very present the exact line separating Canada and the United States has never been accurately charted. It is one of the questions which will be acted on by the joint commission at Quebec. Disputes over such uncertainties have often endangered the peace of nations. It came within one of plunging us into war with England when the quarrel over the Oregon boundary reached an acute stage. The battlecry ran through the country, "Fifty-four forty, or fight." Not very long ago the situation became grave in the matter of the Venezuelan line, which also involved this country as the defender of the Monroe doctrine. These issues lie dormant perhaps for a long time and then suddenly spring into an alarming activity. We shall now have this open question forever settled. The parts of the boundary which are to be arranged are the division between Alaska and northwestern Canada, the portion which crosses Lakes Erie and Ontario, and the section marking the boundary between St. Mary's river and the Lake of the Woods.

In the first of these cases the surveyors of Canada and the United States have so far come to an agreement that the basis for an understanding is clearly defined. The rich goldfields of the region through which a prospective line passes have spurred prompt and definite action. There are less accurate data for determining the line westward of Isle Royale, in Lake Superior, extending to the northwestern shore of the Lake of the Woods. The country up to this day even has been imperfectly studied, and the description of points of departure in a zigzag course as laid down in the treaty of 1842 proves to have been the merest guesswork, some of the small lakes specified being known not to exist at all. The old maps in existence are quite vague and unreliable. It would seem that a surveying party should have gone over this ground in anticipation of the work of the commission. What ground of accurate knowledge there is in this case it is not easy to see. The old line established by the treaty of Ghent and the Webster-Ashburton treaty of 1842, cutting Lakes Erie and Ontario, is known by the late reports of army engineers, published by the hydrographic office, to be quite incorrect. In both sections of boundary some approximate decision only can be reached. But with a desire on both sides to put the matter out of future question there will not be much trouble in finding a basis. The disposition of a few hundred square miles of land and water is unimportant to either country. It is only when two peoples wish to quarrel that their commissioners would split hairs about such a matter.

As it is well understood that Secretary Day will vacate his occupancy of the state portfolio at the conclusion of the peace negotiations there has been some speculation as to who will succeed him in office. Among various names which have been suggested no one so instantly commands the approval of thoughtful men as Colonel John Hay, the embassador to the court of St. James. To the most vigorous Americanism he unites a cosmopolitan culture and experience. There are few, if any, living Americans who have come nearer to the model of foreign training for great public posts—that is to say, experience in important missions leading by steps from lower to higher till he has now achieved the top rung of the diplomatic ladder. Beginning as assistant secretary to President Lincoln in the civil war, he became secretary of legation at Paris, charge d'affaires at Vienna, secretary of legation at Madrid, then assistant secretary of state in the Hayes administration to finally culminate in his present great office. This discipline and experience acting on great natural talents should make Colonel Hay a minister of state worthy the highest American traditions, which include a Webster, a Calhoun, a Marcy, a Seward and a Blaine. Colonel Hay, it need scarcely be said, has made himself notable in literature, in the role of traveled essayist and critic, as poet and as writer of fiction. Intellectually a sort of Admirable Crichton, "he has touched nothing which he has not adorned." Fortunately, too, his great wealth allows him to fulfill the social traditions of place in a princely fashion, the lack of which in these modern days sadly embarrasses so lofty an official as a minister of state.

The new America's cup challenger, Sir Thomas Lipton, is not satisfied with a sporting ambition. He is willing to be known also as a philanthropist, for he has just sent a check for £100,000 to the Princess of Wales, who is desirous to organize a system of dining rooms for the poor where they can get a good meal for a trifle. We think the more of the sporting baronet for his generosity, but none the less we shall keep that America's cup to drink his health in.

The French mob, it is said, propose to burn the house of Zola, who, after his last trial, skipped out of his beloved Paris, which has ceased to love him. Better not burn his house. Instead they would wisely burn certain of his books in a grand auto da fe. That will violate no law, be a positive benefit to humanity, and it will hurt Zola's vanity worse than setting the torch to his house.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

Governor Voorhees is quite right in his contention that the State of New Jersey ought to pay to the volunteers the difference between the pittance which they are receiving from the National Government and the amount which they would have received ($45 a month) if they had been in the service of the State. It will cost $250,000, but the State can afford to pay the money.—*Tribune.*

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

At Music Hall for three nights, with a Saturday matinee, commencing tonight, there will be a great treat for theatre-goers in the appearance of the well known soubrette, Miss Katherine Rober, supported by the favorite Lillian Kennedy Company, in productions that have never been done at popular prices before. They are full of sensational situations, startling climaxes and at the same time full of the latest songs, medleys and dances of the day. Prices will be 10, 20 and 30 cents.

* * * * *

Chas. H. Hoyt's "A Bunch of Keys" is to be produced at Music Hall Thursday, September 8th. It has jingled to an accompaniment of laughter in nearly every city of the union, and is yet incentive to merriment. The company presenting "A Bunch of Keys" this season is the strongest that has ever been seen. The songs, dances, music and many of the features are entirely new and polished up to date.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, N. J., Sept. 1.—During the jollification Tuesday night attending the running of the first car over the railway tracks, David, the fourteen-year-old son of Mrs. Kuldoshes, stepped on a broken beer bottle and cut his foot badly. When the accident occurred, the car was near the Plainfield terminal. David was barefooted, and was on the car enjoying a free ride with several others. As the car stopped he jumped and struck the broken glass. A howl told that he was hurt, and after a hasty examination he was put on the back of one of the horses and taken home. When the bottle was picked up, it was found that David jumped directly on a sharp piece of glass four or five inches in length, and that a wound fully two inches in depth had been made in the foot. Dr. Brakely, who was summoned, had to take four stitches in the cut to draw the flesh together. The wound was beginning to heel nicely yesterday, and no trouble is expected.

Justice Warden has had two or three little family jars to straighten out lately in his capacity as borough magistrate, but has let the offenders, who were Poles, off with a fine. This appeal to their pocketbooks, the Judge thinks, is preferable to committing to jail.

Mrs. A. M. Randolph and Miss Vergie Tunison spent yesterday with Mr. and Mrs. Manning Randolph in Piscataway.

Every other week during the summer the crews on the two drill engines, 30 and 69, are laid off one day.

Fred Wilcox, of drill engine, No. 69, had a day off yesterday, which he spent out of town.

Mrs. Samuel Richardson is entertaining out-of-town friends.

Mrs. William Carman is quite ill at her home on North avenue.

Miss Jennie Messler is visiting friends in Greens Village.

Mrs. P. C. Smith is entertaining company from Belvidere.

Frederick Wells, of Newark, spent yesterday in town.

Miss Viola Lievers is visiting in High Bridge.

NEW MARKET.

(Special Correspondence of the Daily Press.)

New Market, September 1.—Miss Edna Coriell, of Dunellen, is spending a week with her grandparents, Mr. and Mrs. Abner Coriell.

A company of young people from Plainfield, among whom were G. B. Crandall and Benjamin Carpenter, of Dunellen, spent yesterday on the lake.

Herbert Nelson, of South Orange, has been visiting relatives in town.

PLAINS AND FANWOOD.

(Special Correspondence to The Daily Press.)

Scotch Plains, September 1—Frank Gotlick and family, former old residents of the town, but for several years living in Plainfield, have taken up their residence on Mountain avenue.

The boys are taking a lively interest in the proposed bicycle race, one week from Saturday, and from the outlook there will be a large entry.

Mr. and Mrs. William Bacon, of Haverstraw, N. Y., who have been visiting Mrs. Bacon's father, returned to their home Tuesday.

John Warta and family have removed to Pennsylvania, where Mr. Warta has a position in a large cement place.

John Schmidt, of Co. J, 22d Reg't., N. Y., stationed at Fort Slocum, visited friends in town Tuesday.

Rev. J. S. Braker and family are expected home from a two weeks' stay at Montandon, Pa., Wednesday.

Mr. and Mrs. Elias Southard, of North Plainfield, are visiting Mrs. Southard's mother, Mrs. Boyle.

Mrs. James Ritchie, of Plainfield, visited old friends in town Tuesday.

Orman Noble is quite ill at his home on Westfield avenue.

Miss Lizzie Reick visited friends in Plainfield Tuesday.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

A. W. Day, of Madison avenue, has gone to Water Mill, L. I., to spend Sunday.

Robert E. Speer will preach at the Crescent Avenue church morning and evening Sunday.

Fred Barker, of the N. Y. and N. J. telephone office, has left his position and gone back to his home in Newark.

R. M. Honeyman, general secretary of the Y. M. C. A. at Somerville, will give a Bible talk soon at the Washingtonville chapel.

Wm. D. Murray and family, of West Eighth street, have returned from Mt. Washington, Mass., where they have been spending the summer.

Rev. W. E. Honeyman and wife, of Lincoln place, have returned from visiting the scenes of the former's childhood at New Germantown, this State.

The death of Maxwell S., infant son of Mr. and Mrs. John P. Thompson, of West Third street, occurred yesterday. The funeral will be held from his parent's residence tomorrow.

WESTFIELD.

(Special Correspondence of The Daily Press.)

Westfield, September 1.—Township Clerk Irving I. Ross, who has been at Long Branch during the summer in the interests of the New York and New Jersey Telephone Company, has returned to his home in this town and will now take charge of the company's new business on Staten Island.

Cards are out announcing the marriage of Miss Minnie Meyer, daughter of Mr. and Mrs. E. Meyer, of Mountainside, to Rev. E. T. French, of Ansables Folks, N. Y., which is to take place Wednesday, September 14th.

Rev. George Francis will return to occupy the pulpit at the Baptist church Saturday, and Rev. Charles Fiske, rector of St. Paul's church, is expected home tomorrow.

Rev. Charles Anderson, pastor of the Methodist church, arrived home today, after having enjoyed a vacation of one month at Ocean Grove.

The Board of Education has decided to open the public schools Wednesday so as to have a week in which to give the scholars a vacation at Easter.

The grounds in the rear of the Methodist church have been graded and put in fine condition back as far as the parsonage.

A horse belonging to M. B. Walker ran away yesterday, but was caught before any damage had been done.

LINCOLN.

(Special Correspondence of The Press.)

Lincoln, September 1—The Lincoln Social Club gave a dance last night at Lincoln Park which was attended by 400 or 500 people from surrounding towns. The platform was handsomely decorated with lanterns and flags and made a good appearance. An orchestra from Bound Brook furnished the music. Dancing was kept up until the early morning hours. The platform was filled with dancers all the time, eight sets being on it at once. Guests were present from Bound Brook, Dunellen, Plainfield, Rahway, New Brunswick and Raritan.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness, caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular; free.

Ladies fine lisle hose, 50c quality, 29c pair.

Edward White.

SLEEPING IN SPLENDOR.

Magnificent Beds Used by American Women of Fashion.

The most splendid bedroom in all New York city is considered by both her feminine friends and enemies to be that of Mrs. Ogden Mills. Her sleeping apartment is an exact copy of an royal chambre a coucher. The room itself is one of the largest in her spacious New York home. In that room this leader of fashion performs the one and only function of sleeping, and the bed is, with the exception of a couple of small gilt chairs and a clock, the single piece of furniture. This is a long, broad downy nest, in which four persons could rest comfortaly, and, saving the headboard and top of the canopy, not a scrap of woodwork shows anywhere about it. Every inch of the bed proper is hidden by magnificent draperies of blue brocaded satin, further embellished with heavy embroidery of gold thread.

Quite complete, this throne-like affair was made in America, because after examining big beds for sale in the Parisian bric-a-brac shops, Mrs. Mills decided they were all lacking in the convenience and comforts the modern American woman demands for her sleeping hours. So she came home and of very plain oak her bed was built, the lofty canopy frame put up, the embroideries ordered from an American needlewoman, hung, and then the great curtains and coverlid were edged with forty pounds of bullion fringe. These requisites for a perfect Marie Antoinette bed brought the price of it far up into the thousands, but the end was not yet. A wonderful foundation of spiral steel springs first lined the inside of the couch, on the top of this a thin felt mattress was placed, and then on top a hair bed, slipped in a big silken cover, before sheets or blankets could be laid on. Finally, the headboard, decorated by the brush of an American artist, was put into place, and, lastly, the electrician was called in to give the finishing touches. The good offices of the electrician was not an original idea on the part of Mrs. Mills, for all the new beds, built for comfort as well as beauty, having first of all a tiny button that any one lying on the pillow can easily reach up touch, and turn on the light in a group of bulbs artistically arranged in the headboard. In Mrs. Mills' bed a couple of guilded Cupids in this board hold each a spray of lights that shed their radiance down softly over the pillow at the exact angle needed for comfortable reading. To make the light perfectly agreeable and easy for eyes, the globes of glass are first ground and then treated with a varnish that subdues the hard electric glare.

Beside this arrangement runs a little rows of keys along the bed's panel, and turning one summons the lady's maid. Another sets the front door bell a-ringing and so acts on any housebreaker as a most effectual alarm, and a third key sets in motion an electric current that warms the bed.

Mrs. Yerkes, the wife of the wealthy Chicagoan, is another woman who possesses a big French bedroom, with the bed set on a dais, and the room itself is used exclusively for sleeping. After the fashion of royal French ladies of a century ago, these fair Americans, who can afford the luxury, believe that a bedroom should have great space, a lofty ceiling, and all day long a current of air should sweep over the pillows, uncontaminated by human lungs. No furnace heat is used or gas lights burned in these sleeping apartments. A half hour before madame retires a fire of dry logs is lighted, to take the chill off the atmosphere; by candle or electric light the lady goes to bed, and all these precautions are taken in behalf of health, to secure sound sleep and good complexions.

Mrs. Leitre, of Washington, rests from her labors as the most prominent hostess of the capital in a wonderful carved English bed, without one scrap of drapery about it. Too precious and beautiful is the ancient decorated woodwork to hide under even the richest brocades, and Mrs. Leiter sleeps on a sixteenth century arrangement of mattresses. That is, in place of a spring foundation, six rather thin mattresses, made alternately of felt, wool, hair, cotton and dried seaweed, are used. By a proper disposition of these a most exquisitely comfortable bed is secured, and every day a different mattress is put on top. In this particular bed, quite fit for the purpose, it is said both Queen Elizabeth and Lady Jane Grey slept, and, according to the English notion of what constitutes health in bedmaking, this couch does not yeat its sheets and blankets all day. In the morning, after the bed has been aired and turned, a rich satin coverlid, handsomely embroidered, is laid over it, and not until the evening are the fresh lavender-scented bed clothes, first aired and then warmed before an open fire, laid on.

Mrs. Cornelius Vanderbilt, Jr., has sesses also a remarkable carved English bedstead, which is fitted up with electric comforts and stands high from the floor, while Mrs. William C. Whitney, when she is going to stop a length of time in any one of her husband's handsome homes, has boxed up and sent on before her, like Queen Victoria, her favorite bed. It is a colonial affair, carved from American oak, and bought out of an old Virginia home where George Washington used to be a frequent visitor. The beautiful bed was frequently used by the great General, and Mrs. Whitney always keeps it hung with valances of white dimity, exactly like those that decorated it in Washington's day. The silk coverlet on this bed is one he slept under many times, and, following the fancy of all rich society women, Mrs. Whitney prefers to sleep on springy mattresses and as high from the floor as possible.—New York Sun.

"She is worth her weight in gold." "Here or in the Klondike?"

The Newest Sailor Hats.

With the ripening of the summer new ideas in the decorating of sailor hats come forth. The usual sailor is trimmed only with a hatband. There are women who would not be found dead in a sailor hat trimmed. These are the extremely tailor-made type. Then come the sort who twist brown veils around their hatbrims, to take away the perfectly plain look. Brown veils are a fad of the moment. They are generally becoming, because they tone with the hair.

Later than the brown veil arrangement is the scarf of chiffon or surah. It is very pretty, and, therefore, a happy thought. It is a new opportunity to introdute color into the monotonous shirtwaist costume. But it is an added responsibility to keep the effect harmonious.

Veiling heavy enough to use as a loose scarf, with ends, comes only in white, black, brown and blue. So the fashion permits the employment of chiffon, such as is sold for trimming gowns. It comes in all shades and is cut in two lengths, ten inches wide, each a yard and an eighth long.

Only one length is used at a time. The other is kept in reserve for the day when the first shall have passed its usefulness. No band at all is liked on the hat when the gay scarf of chiffon or surah is worn.

A young woman with a neat taste in gowning wears a brown linen skirt, a white shirtwaist, white collar, tie and belt, a sailor hat in natural straw color, and scarf of cherry chiffon. A military pin secures it to the crown in front and another keeps in place the folds at the back. It is the simplest task to whisk off this cherry chiffon scarf for another of turquoise or violet.

Another simple fashion in the trimming of sailors is the wreath of flowers around the top of the crown. The band is removed for this style, too. A white Panama sailor has a circle of white roses, with foliage. A white-dotted veil and big necktie of white muslin add considerable grace to an otherwise ordinary costume.

Cooking Brussels Sprouts.

A woman travelling in Belgium describes a dish of Brussels sprouts which were cooked with chestnuts. She found that the sprouts are boiled in salted water until about half cooked, when they are taken out, drained, and put into a saucepan with a little butter and seasoning. Meantime the chestnuts, those of the large variety being used, have been blanched, partially cooked, and cut into small cubes. They are added to the sprouts, and both are simmered slowly until tender, and are cooked about an hour after being put together. A dozen large chestnuts may go with about a quart of sprouts. It may be added that the dish is particularly good when served with a roast veal or mutton.

Cool Headed Women.

The efforts of the various relief organizations that have been formed among women's clubs are confined to the mast practical methods. It is significant of the experience of the women at organized work that they have undertaken these measures in such a promptly efficient fashion. Cool-headed women, accustomed to committee work, have brought quick order out of apparent chaos, in the embarrassment of volunteer service, and a prompt discriminating judgment has rapidly produced tangible results. The impractical woman who has occasionally presented herself has been quickly suppressed, and the work in all its phases has gone ahead with most commendable despatch and efficiency.

Black and White Silk Mulls.

Many of the black and white silk mulls, silk dotted batistes, and figured organdie muslins, are made with a circular skirt, and trimmed with countless narrow ruches, made of black mousseline de soire or black satin ribbon. In many cases these ruches are put on to outline an apron overskirt, long or short, round, or deeply pointed. The skirt clings to the figure on the front and sides, flares slightly as it nears the hem, and is very full just at the back. The waists are usually round, with yoke tops, and with fulness below in soft, straight folds. The collar, little shoulder epaulettes, and front, are edged with the ruching.

Cremation in Italy.

Cremation is more extensively practised in Italy than in any other country. The first crematorium was established in Milan in 1876, and there are now fifty in operation in Italian territory.

FACTS ABOUT HUDSON'S BAY.

Great Wealth with No One to Take Advantage of It.

At a recent meeting of the McGill Science graduates at Montreal some interesting facts about Hudson's Bay were brought out. This inland ocean, which is now called the Mediterranean of North America, drains a territory three million square miles in area, with vast rivers flowing into it from the south, east and west; fine natural harbors line its shores, adjacent to good farming lands and rich mineral deposits. White whales, walruses as big as elephants, and fur-bearing seals disport themselves undisturbed. For the finest fish no nets are spread. Both afloat and ashore there is wealth, with no one to take it away. In the district south of James Bay, a region as large as all England, the total population is one Scotchman and thirty or forty families of Indians. Dr. Bell, the director of the Geological Survey, said: "Moose Bay is in a latitude further south than London, and the northern portion of Hudson's Bay is about the same latitude as that of the north of Scotland. The bay does not freeze across in winter, and navigation is possible during four or five months of the year. The all-water route will bring the great Northwest as near to Europe as the city of Quebec, and, while offering perhaps the best passage to the Yukon region, it is certainly the natural route to the great oil fields." Alluvial gold is found in the valleys and fine specimens of gold-bearing quartz have been brought in by the survey party. It is stated that the soil observed is rich and productive, and that scores of millions of acres offer profitable stock-raising and farming.—New York Tribune.

DISEASES OF JEWELS.

Pearls and Opals the Most Tender and Easily Effected Stones.

Although it may seem odd, it is no less true, that the most precious gems are subject to various diseases, which frequently destroy their luster and beauty, says an exchange.

One of the most common diseases of jewels is an inclination to change their original color. Although it is generally believed that emeralds, sapphires and rubbies are not subject to this change, recent experiments have established the proof that these stones are liable to fade. Garnets are found to fade very rapidly, and faded garnets and rubbies assume a pale and misty appearance.

Many gems, often without any apparent cause, suddenly become cracked or seamed, the damage being beyond repair. Opals, known as the unluckiest stones, are so sensitive that their beauty is frequently destroyed by their owner's close proximity to an open fire. The luster of this stone is caused by the presence of myriads of little fissures which deflect the light into the characteristic prismatic colors of the gem. The tiniest of these fissures is likely at any moment to destroy the Pearls are subject to countless diseases. A moderate heat is sufficient to transform them to a heap of ashes, and if they are accidentally brought into the proximity of an acid they become irretrievably ruined. They are easily broken, and when frequently worn soon lose their lustre.—St. Louis Globe-Democrat.

Columbus and the Timid Sailors.

It was on the forty-seventh day out when some of the crew began to murmur, and one of them, more outspoken than the rest, walking into Columbus' cabin, implored him not to go farther.

"Why?" asked Columbus. "What's the use of turning back, now that we're nearly half-way there?"

"We are afraid we'll never get back," said the sailor. "You'll lose your way before long."

"Not at all," said Columbus, pointing through the stern window of his ship. "We can't lose ourselves. Do you see the wake of this ship?"

"Yes," said the sailor. "I see. It's my own wake I'm thinking of, your honor."

"Well, never fear," said Columbus, calmly. "When we decide to return, all we have to do is to follow that wake back to Gibraltar, and from there the way is easy."

The sailor departed satisfied.—Harper's Bazar.

Didn't Recognize His Own Daughter.

It is said that the great historian Mommsen was once wandering along the street near his home in Berlin when he met a little girl whose face attracted his attention. After chatting with her a few moments, he patted her on the head and asked:

"And now, my little one, who is your father?"

"My papa is Herr Professor Theodore Mommsen," was the astonishing reply.

Like many another busy German scholar, the great historian of Rome had apparently not found time to make the acquaintance of his own children.—Roanoke Collegian.

Plenty of Exercise.

Walker—The trouble with bicycling is that it does not develop the arms in proportion to the legs.

Wheeler—Yes, it does, if you will only use one of those little two-ounce hand pumps to inflate your tires.—Indianapolis Journal.

A Distinction.

Stranger (to Highlander in full uniform)—Sandy, are you cold with the kilt?

Sandy—Na, mon, but I'm nigh kilt wi' the cauld.—Detroit Free Press.

Belle—I had an awful scare the other day while out for a walk with Will.

Betsy—How?

"Why, we met the minister, and Will asked him to join us."—Yonkers Statesman.

W. W. ASTOR'S FOUNTAIN.

Has Only One Rival and Cost More Than $250,000.

William Waldorf Astor's new fountain for Cliveden is the largest private fountain of the kind in the world. It is gorgeous and of enormous expense, and the only fountain which rivals it in size and appearance is that of the Emperor William of Berlin, the next largest of the kind being at Moscow. In these two fountains the architects have developed the same idea which dominated the plans for the Astor fountain—a gigantic shell of stone in a basin on the ground level, the shell being horizontal, and when full of water the surface of the water is about on a level with the eye.

Mr. Astor, who expects that his fountain will astonish people when it is exhibited, has called it "The Fountain of Love." The shell alone weighs between sixty and seventy tons. This gigantic shell is made of nine pieces of the finest Sienna marble, and is light brown in color, but the huge blocks have been so skilfully put together that it is almost impossible to see the joins. The nine pieces of Sienna marble out of which the shell was made are the largest blocks of Sienna marble ever taken out of Italy. Like large cut diamonds, they represent an enormous waste of material. The fountain in its architectural features represents the development of one idea. It is practically simple, and devoid of ornate carving, excepting in the three groups.

All round under the edges of the shell rare and beautiful equatic plants are growing. There is no fountain in England rivalling this one of Mr. Astor's in size and beauty, and it is even said by architects that as a work of art, and considering its size, it is the finest fountain in the world. This fountain has already cost, according to moderate estimates, a great deal more than $250,000.—Success.

PIN HOLES IN THE CHECKS.

The Only One of the Cashier's Precautions that was Overlooked

In the course of a lecture delivered recently on chemical tests used in discovering by the ink the age of documents, and whether there have been interpolations, Prof. C. A. Doremus told of a curious discovery in the case of a raised check, made by his father, who is an expert in chemistry and in documents. The interests involved in this case were very large, and it was not practicable that the original check should be tampered with or chemically treated. For purposes of testimony an enlarged photograph of the check was taken by Dr. Doremus, who was called as an expert in the case. The first trial resulted in no decision, and on the second trial what purported to be the original check was produced. It was handed to the cashier of the bank for identification. He examined it and said:

"This is not the original check."

"How do you know that?" demanded the amazed lawyer.

"Because in the heading of the original check I picked a hole in the centre of each of the 'o's' with a pin," was the reply. "This check has not those holes."

In all other respects the check seemed to be identical. The Court called for Dr. Doremus's photograph to be produced. It plainly showed the pin holes. Upon this the lawyer for the defence threw up his case, and the guilty substitutor of the false check fled the country.—New York Sun.

AN ALL-SEEING ELECTRIC EYE.

Or the Work that the Fluormeter Will do for the Body.

If you can imagine an improved X-ray machine which not only discovers to the operator the inner bones of the anatomy, but also shows the texture of the subcuticle, or under skin, and the blood as it flows through the veins and reveals the tiny pulses that beat time to the dancing of the heart; if you can conceive of such an apparatus, then you will understand what the fluormeter is and the work it is intended to do in a surgical and medical way.

With this wonderful machine a patient is laid upon the operating table, without removing a particle of clothing, the new X-ray is turned on the parts to be examined and the rest is easy. A foreign substance in the blood, no matter how minute, can be located and whatever effect it may have had upon its surroundings can be detected and acted upon. The illuminating power of the fluormeter is so great that semi-opaque substances like ground or frost glasses are not proof against its all-seeing eye.—New York Journal.

Way to Demagnetize Watches.

A simple method of curing a magnetized watch consists in hanging it from a string, which latter is twisted as tightly as possible, and then holding the string and watch near a dynamo or strong magnet. The watch is then released, and, of course, begins to spin, and while doing so is gradually carried away from the dynamo and out of the magnetic field. The demagnetization is due to the rapid alterations of the poles of the magnetized parts in a magnetic field that is decreasing in intensity. This is well known to be a thoroughly reliable method.—Louisville Courier-Journal.

The Robber Made a Good Official.

President Diaz several years ago interviewed a famous bandit who was in prison. The robber informed the President that his lawless life was the result of having no work to do. The President liberated him, made him chief of police of his native district, which was one of the worst in the country, and informed him that he would be held strictly accountable for all robberies in his district. From that day to this not one has occured.—Cleveland Plain Dealer.

Lokal-Nachrichten aus der alten Heimath.

Provinz Westpreußen.

Danzig. Das russische Kriegerdenkmal wird am 15. September feierlich eingeweiht werden; zu der Feier werden verschiedene hohe russische Würdenträger erwartet.

Marienwerder. Franz Döring, einer der geachtetsten unserer Mitbürger und Senior der Stadtverordneten, feierte jüngst sein 50jähriges Bürgerjubiläum.

Rheinprovinz.

Köln. Unsere Stadt und Umgegend wurden neulich von einem heftigen Wirbelsturm mit Hagelschlag heimgesucht; Häuser wurden abgedeckt, Schornsteine sind eingestürzt. Doppelte Telegraphenmaste lagen mit zerrissenen Drähten auf der Bahnlinie. In einem Nachbarorte stürzte der Kirchthurm ein. Es fielen Schloßen bis zu 250 Gramm Gewicht. Ein aufgehobenes Eisstück wog sogar 1 Kilogramm.

Aachen. Die Polizei verhaftete hier eine Mutter nebst Sohn aus Berlin, die hier, in Hannover und in Köln falsches Geld ausgaben. Bei Durchsuchung des von ihnen gemietheten Zimmers wurden über 1000 falsche Thaler beschlagnahmt.

Rheydt. Der Landwehrverein feierte sein 50jähriges Bestehen. Er zählt 1200 Mitglieder; sein vornehmstes Ehrenmitglied war Fürst Bismarck. Der Verein gewährte in dem halben Jahrhundert seines Bestehens 21,500 Mark an Unterstützungen, davon allein im Kriegsjahre 1870 10,000 Mark.

Provinz Sachsen.

Kösen. Anläßlich des Ablebens des Altreichskanzlers zogen viele Verehrer des großen Todten zu dem Bismarck-Denkmal vor der Rudelsburg und legten dort Blumen und Kränze nieder.

Naumburg. Hier starb der Senior der Thüringer Lehrer, Organist Brauer, im 92. Lebensjahre. Brauer hat als Verfasser der bekannten Pianoforteschulen, die in vielen Auflagen erschienen sind, und der Choralvorspiele zu Hentschels Choralbuch sich in der Musikwelt ein dauerndes Andenken gesichert.

Provinz Schlesien.

Breslau. Der Dieb, der den Einbruch in das hiesige Museum schlesischer Alterthümer verübte, ist in der Person des Kaufmanns Langmartin festgenommen worden. Der geständige Verbrecher führte 24 gestohlene Münzen bei sich; die übrigen hatte er veräußert.

Neudeck. Graf Guido Henckel v. Donnersmarck hat anläßlich seines 68. Geburtstages sowie 50jährigen Fideikommißbesitz-Jubiläums eine 1,000,000 Mark betragende Stiftung gemacht, deren Zinsen gemeinnützigen und wohlthätigen Zwecken dienen sollen.

Provinz Schleswig-Holstein.

Fehmarn. Die deutsche Gesellschaft zur Rettung Schiffbrüchiger hat beschlossen, unweit Puttgardens eine neue Rettungsstation zu errichten, die schon am 1. Oktober d. J. ihrer Bestimmung übergeben werden soll.

Kiel. Die Inspektion der Marine-Infanterie sucht 1000 Dreijährig-Freiwillige, welche in Kiel und Wilhelmshaven ausgebildet und im Frühjahr 1899 nach Kiaotschau gesandt werden sollen.

Provinz Westfalen.

Münster. Der Weihbischof Dr. Cramer feierte sein 60jähriges Priesterjubiläum. Er ist 1815 zu Oelde geboren, wurde 1864 Regens des Priesterseminars und 1884 Weihbischof. Er hat eine Reihe von Erbauungsschriften verfaßt, die in katholischen Kreisen weit verbreitet sind.

Lüdenscheid. Nach einer Bismarck-Gedächtnißfeier beschlossen die Stadtverordneten, 10,000 Mark für eine Bismarck-Stiftung zu spenden. Aus den Zinsen sollen bedürftige Familien derjenigen Bürger unterstützt werden, die zur Wiederherstellung ihrer Gesundheit einer Heilanstalt überwiesen sind.

Sachsen.

Dresden. Die hiesige königliche Kapelle, welche im September d. J. ihr 350jähriges Jubiläum feiern darf, will anläßlich dieses Festes ein großes Konzert veranstalten, dessen Ertrag zu einem in Dresden zu errichtenden Richard Wagner-Denkmal verwendet werden soll. — Auf dem katholischen Friedhofe erschoß sich am Grabe seiner Braut der Braumeister Buk aus Prag.

Freiberg. Der hiesige Silberbergbau beschäftigte am Ende des vorigen Jahres 4023 Bergleute, davon 3424 auf fiskalischen Werken. Die Gesammtausbeute der fiskalischen Gruben hatte einen Werth von 1,318,701 Mark; zur Unterhaltung des Betriebes der Silberbergwerke hatte der Staat 2,800,622 Mark zuzuschießen, eine Summe, der jedoch die Erträge der fiskalischen Hütten gegenüberstehen.

Leipzig. Kürzlich wurde bei Erdbewegungen am Nordfriedhofe eine große Menge von menschlichen Gebeinen aufgefunden, die bei ihrer nothwendigen Translokirung nicht weniger als 22 Wagenladungen bildeten. Ohne Zweifel waren es die Ueberreste französischer und preußischer Krieger, welche der Blüchers Versuche am 19. Oktober 1813, die nördliche Vorstadt von Leipzig zu nehmen, hier ihren Tod und ein gemeinschaftliches Grab fanden.

AMOS H. VAN HORN LIMITED

Note first name "AMOS" and No. "73" before entering store. Get off car at Plane St.

Don't "chance it"

'tis costly work. Be on SAFE SIDE and get your furniture, carpets and the like FROM US, the house that's been going near 40 years—that owns and DESERVES a name for fair, square, yes, GENEROUS dealing—that's so SAFE to deal with, your child might trade with it and not be hoodwinked.

About a dozen suits left at $16.50—inlaid, mahogany finished frame—brocatelle covered—a $25 suit—and little priced at that! There must be 40 other suits will clear out before the 1st.

"Odd" Dining Furniture—

—immense lines—even if they're odd sets they're '98 build and may be yours at and below maker's costs.

A dozen sets of 6 cane seat chairs each set—just half former costs. All china closets to go at cost.

Carpets—Ingrains, 39c. yd.—Body Brussels, 90c.

Moquettes and Velvets also at price marks that don't pay for their cartage! But Fall's styles can't mix with them—they must go before one week. Mattings, in 40 varied effects—10c. a yard up.

Enameled Beds —now $1.95

—that were $2.50 and $3.50—a whole floor given up to Brass and Enameled Beds—there's no such enameled bed sale in all Newark. Dressers and Chiffoniers are grouped in the sale.

30 to 40 Refrigerators left—prices cut in two!

Wickless Blue Flame Oil Stoves—a great, powerful flame—burns oil, but has no wick! All sizes—now on hand to go at wholesale rates.

"Monarch" and "Insurance" Vapor Stoves being cleared away at less than first cost to us! Hundreds use these labor-saving stoves all the year 'round!

$3.50 Baby Carriages—Far too many carriages on our hands—'tis $3.50 instead of $5.

75c. A WEEK WILL DO IF CASH IS SHORT.

Happy Lives.

Are Lives of Happy Living, and Thus 'Tis Well That You Should Know How This Can Be.

In Plainfield there is many a happy home. Perhaps you know of some, or better still, it may be that you rest your head at night in one yourself. Then again, there is many an unhappy fellow creature in your midst. 'Tis not surprising that this should be the case, when one thinks of the burdens some backs are forced to bear. If yours is not the back that bears the burden, still we think you would be glad to lend a helping hand to lighten another. Let us show you how it can be done, and at the same time tell a story of Plainfield life that will prove this aid can easily be given.

Mrs. Valentine Utzinger, of No. 75 Grandview avenue, says:—"I suffered from kidney complaint for the last 6 years. I doctored and used various kinds of medicines with little or no result. I had almost a constant, sharp, darting pain across my back and if I over-exerted myself or took cold I suffered severely. I always felt it most when the weather was damp. There was also a kidney weakness which was very distressing and inconvenient. While in this condition I saw Doan's Kidney Pills highly recommended and I was induced to try them. My son brought me home a box from L. W. Randolph's drug store. I started to use them at once, following directions closely. I give all the credit for this relief to Doan's Kidney Pills for they are beyond a doubt a grand medicine for kidney trouble. I have recommended them to a number of my friends and will continue to do so."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U.S. Remember the name Doan's and take no substitute.

HAVEN FOR SAILORS.

NEW YORK CATHOLIC MISSION FOR MEN OF THE SEA.

Model Reading Room Superintended by the Rev. Father Dougherty—Archbishop Corrigan and Other Prelates Deeply Interested In the Work.

At 178 Christopher street, just off from busy West street, in New York, where longshoremen, stokers and sailors hang about, is a little reading room, which is called the New York Catholic Mission For Sailors. Even in the hot nights the room is too small to hold those who would come to read the papers and play games and listen to the Rev. Father Dougherty's words of inspiring instruction.

Away down in the heart of the sailor there is a feeling of deep reverence for God. Out on the ocean, where the sky and sea make their only vista, all speak of the infinite God, who, like the ocean, is deep and high—and full of mystery. This little place, which is too cramped for its great work, is loved by the boys of the sea, and when they come ashore they hasten to meet old friends and find new ones.

"We don't obtrude religion upon them," said Father Dougherty, the superintendent recently appointed by Archbishop Corrigan, to me the other day. "Yet we know that they are brought under the influence of the religious spirit, as it is proved by the excellent way in which they attend mass in the neighboring church of St. Veronica." The work was found necessary at first by the establishment of reading rooms by other denominations. The Catholic boys wanted their own place.

A committee was at first formed headed by the archbishop of New York, the Rev. M. A. Corrigan, the Rev. Father John J. Kean, the Rev. David J. McCormick, the Rev. Father Charles H. Parks, chaplain of the San Francisco, and the Rev. Father Chidwick of the ill fated Maine, and the Rev. W. H. I. Reaney of the Olympia. These men worked hard amid many discouragements till at length plans were formulated and the work was successfully carried on. The room at 178 Christopher street was engaged, 2,000 books of an interesting kind were purchased, tables and chairs; games of every kind are there, dumbbells, quoits, etc. On Sunday evening a service is held, singing, prayer and short instructions by the spiritual director, Father Dougherty. The attendance fills the room. Every Monday evening a concert is given where the boys of the ships come and with their own talents they make the evening pass delightfully. Sometimes professional talent is engaged, and the room is crowded almost to suffocation.

While I sat talking with Superintendent John Willie the boys had just come into port, had washed away the grime of the boat hold, and the stoker, whose face was intended to be clean, betrayed the occupation which he followed. They sat down at the little tables and looked over the papers or took hold of the dominos and entered into a friendly game.

Occasionally the priest, Father Dougherty, drops into the reading room not as a minister as much as a friend. The room is open from 12 m. to 10 p. m. every day. The sailors, while they have a chance, come in and read or write letters, and oftentimes to enjoy a quiet smoke. I watched some of them as they were deeply engaged in a game. An old man, "Old Larry," as they called him, a veteran of the late war, was telling thrilling stories of the war of 1861. He is in great sympathy with the boys of the sea. He comes as soon as the door is opened and stays till late. "Boy," he says, "you don't know what war means. I remember in 1863" —and the boys laugh in a good natured way.

"Monday night we have a good time," said one of them, who was playing checkers. "We have singing, recitations and lots of fancy and jig dancing." This reading room in Christopher street, New York, is the first center of the apostleship of the sea in the United States. One hundred and ninety of the men of the ill fated Maine were accustomed to drop in this reading room, and they are greatly missed by the boys.

The boys are grateful for the work that is being done for them through this "Bethel," and some of them collected $100. It has been the means of recalling hundreds of men to their duty to God and their fellow men. Many a poor mother blesses the day that her son joined the Holy league. She can stand at the door and expect him home at the appointed time and does not dread a drunken blow or a night of misery. Many a broken hearted wife blesses the reading room. The men in charge of this reading room meet every incoming and outgoing steamer. They welcome and invite the boy of the sea, or else they leave upon the outgoing steamer books and newspapers which will brighten their outward cruise. May it continue its successful career.—Rev. R. H. T. Miles in New York Journal.

English Degree For Two Benedictines.

Two English Benedictines have recently received the degree of bachelor of arts from Cambridge university, being the first Catholic ecclesiastics to obtain a degree in course from either of the two great English universities since the reformation. They are much older than the ordinary undergraduates and took the degree under the new arrangements made for advanced students.—Boston Herald.

To Heat the Vatican.

The recurring indisposition of the pope has again raised the question of heating the Vatican, a problem which so far has never been satisfactorily solved. There are no fewer than 11,000 rooms in the papal palace, and many of them never receive a ray of sunlight.

FINE NEW MONASTERY.

Augustinians Will Erect a Commodious Building at Villanova.

The plans prepared by Very Rev. J. J. Fedigan, O. S. A., provincial of the Augustinian order in the United States, for the erection of a new monastery and college at Villanova, Pa., have been approved of by the advisory board of that order at its adjourned meeting, held a few days ago, in the hall of the college faculty.

The new buildings are estimated to cost from $250,000 to $300,000. The monastery, which will be separate from the old one, will be built on a large tract of ground west of the college chapel and facing the Lancaster pike. The position of the new collegiate building, which will also be distinct from the old college building, has not been definitely fixed on, but the site most favored and which will probably be adopted is on the college campus immediately east of the old building. The new building will not, so far as is now arranged, be connected with or in any way obstruct the view from nor mar the picturesque appearance of the fine old building which now does service for the college department. The clearing of the ground and the digging for foundations will be commenced during August, after which the foundations will be laid, and then work will be postponed until next spring, when it will be resumed and continued until finally completed. The buildings will be commodious, healthful and fitted up according to the most modern ideas and, it is stated, will equal if not surpass the majority of educational buildings in the United States.

Father Fedigan and his advisory board have undertaken the work after long and careful consideration and as a matter of absolute necessity. Villanova is the mother house of the Augustinian order, but the work in which its members are engaged has been considerably handicapped for want of accommodation. This was felt more than ten years ago, and, owing to the growth of the order each year, it has become more apparent until now all the departments are crowded so that numbers of applicants for the monastery as well as in the collegiate department had to be refused admission. There are 130 pupils in the collegiate department, a number that would be trebled if accommodation permitted, and, not including the members of the faculty, there are in addition 40 fathers and brothers and 24 novices.—Philadelphia Press.

AN OLD MISSION.

Bohemia Manor Mission Recently Transferred to the Archdiocese of Baltimore.

A few days ago the Jesuit fathers transferred to the archdiocese of Baltimore one of the oldest and wealthiest missions in the great Catholic district peopled by the Maryland pilgrims. This is the Bohemian Manor mission, which since 1704 has been the center of religious life on the lower Chesapeake. The estate around the mission is of considerable wealth. It consists of 1,500 acres of the best land in the lower parts of Cecil county. It was conceded to the Jesuits by Lord Baltimore shortly after the landing. The mission proper is at the head of the Bohemia river, at the point where Augustus Hermann settled about 1700. The mission is famous in the history of the country. It was founded by the Rev. Father Thomas Mansell in the year 1704. The archives of Loyola college, Baltimore, contain a history of it and of the reverend fathers who have from time to time served in the church.

The school, which is said to have been kept at the mission, and from which the Georgetown college received its inspiration, has long since passed away, but during its existence many of the most distinguished families of Maryland attended. John Carroll, a member of the society and afterward archbishop of Baltimore, was educated at the mission, and Charles Carroll of Carrollton is said to have attended the school. The church, which is still in a good state of preservation, was erected in the year 1735, and the first minister was the founder, the Rev. Father Thomas Mansell. The Rev. Ambrose Marechal, who was afterward the third archbishop of Baltimore, attended the school and is said to have helped with the construction of the church.—London Tablet.

The Church of the National Vow.

The popularity of the Basilica of the Sacred Heart on Montmatre is evidenced by the report issued in the latest number of the Bulletin du Vœu National. During the month of June Pere Lemius and his devoted band of assistant priests have labored hard, and they have now the consolation of knowing that their labors and the preaching of Pere Schauffler, O. M. I., have not been in vain. No less than 600 masses were celebrated in the Basilica during the month, while 40,000 communicants approached the altar rails. The night watches before the Blessed Sacrament were kept by 6,849 men, which shows how great an advance this work has made in popular favor. Between the years 1884 and 1890 the annul number of watchers varied between 4,000 and 5,000. A year ago the number had risen to nearly 20,000, a figure which will most probably be passed this year, and parallel with the growth of devotion is the increase in subscriptions toward the building fund. In June the offerings amounted to no less than 167,891 francs.

Tent For Sandy Hook Catholics.

The Knights of Columbus have donated to the Rev. R. E. Burke, chaplain at Fort Hancock, Sandy Hook, N. J., a large tent, in which Father Burke will celebrate mass at the fort every Sunday at 10 o'clock. The tent is erected in a grove. It is open at the sides in such a way as to permit as many as 1,200 to 1,500 men to hear mass at one time. There are 1,200 troops stationed at Fort Hancock, about half of whom are Catholics.—Boston Herald.

THE DANGER OF BEAUTY.

I never read the papers without feeling so content
That both my eyes are twisted and my nose is slightly bent;
I'm glad my mouth is out of line and that my teeth are few,
And if I had a "wealth of hair," I don't know what I'd do.

A "tiny foot" or "lily hand" would fill me with dismay,
And if I had a slender waist I'd sicken in a day;
For I have noticed from the first, as strange as it may seem,
The girl who gets the worst of it is "lovely as a dream."

The papers never tell about a woman being [illegible] shot,
Or mangled by a trolley car, or married to a sot,
Or forced, at point of pistol, her last fifty cents to lose,
But that her eyes are "limpid" and her boots are number twos.

So I can live in sweet content, without the slightest fear
That trouble or calamity will ever hover near—
And when I see my misfit face, it's some relief to know
That I'll outlive the beauties by a hundred years or so!

—Wallace Dunbar Vincent.

A QUEER ENCOUNTER.

BY LOYD WILLIAMS.

A heavy shower of rain had left me stranded in the ancient and sleepy city of Elchester. The country roads, bad enough at the best of times, were so sloppy as to put bicycling out of the question. I knew nobody in the town, and as there is only one place of interest—the cathedral—I went there.

In doing this I believed I was spending an idle hour. As a matter of fact, I was unconsciously fulfilling the object for which I was probably brought into the world.

The building appeared to be empty, and I amused myself reading the tablets that recorded the lives of worthy people who existed generations ago. I found that the cathedral sheltered the bones of many people named Clutton. This was interesting, for my own name happens to be Clutton, and, though I have never troubled myself about family "trees," I knew that we came from the West of England. In other words, the knights and dames who lay in Elchester Cathedral were in all probability my ancestors. I wished that they had had the foresight to leave me some of their property.

Wandering through the cloisters, I came across a living picture of much greater interest and beauty than the images of stone and iron lying around me.

It was a young lady who was sketching a corner of the building, and making a frantic attempt to do justice to the wonderful arches and quaint windows.

In order to get a peep at her face, I made a pretence of examining a mounment close at hand. It was erected to the memory of "Sir Francis Clutton, 1153-1201." His legs were crossed at the knees, which signified he had fought in three Crusades; and had it not been that some barbarous visitor had broken off the gentleman's nose, he would have made a most imposing figure.

I took the liberty of standing for a moment by her side, to see her work. "If you will excuse my saying so," I ventured, "you have drawn that arch wrong. It is out of perspective."

"I know it is," she answered, with a little moue. "But I can't get it right. Are you an artist?"

"Not exactly," I said. "But I know something of architectural drawing."

"I wish you would show me how to get the wretched thing in so that it doesn't seem to be standing on one leg!"

"With pleasure."

I took her place on the campstool, and on another piece of paper made a rough drawing of the corner which had puzzled her.

"What a number of people of the name of Clutton are buried here!" I said, by way of opening the conversation.

"Oh, yes; they used to be a great family in days gone by," she said. "Henry VIII, took them away, when he was reforming the Church. The Cluttons didn't change their religion fast enough. Edgar Clutton was the last of them. But he deserved to be punished," she added. "He did a very shabby thing."

"What was that?" I inquired.

"He was bethrothed to his cousin, Dorothy Clarence, and jilted her."

"And what became of Mistress Dorothy Clarence?"

"She went into a convent. They say she died of a broken heart, and soon afterwards Sir Edgar was executed for high treason."

"Rather a severe punishment?" I suggested.

"Not at all," she said warmly. "He was a mean wretch to behave as he did! Since those days a Clutton has never owned an acre of land in Devonshire. And they will never get back to their position of landowners unless——"

She stopped.

"Unless what?" I asked.

"Well, there is a ridiculous old legend, which has been handed down; but I don't suppose it will ever come true. It runs—

"'My lord shall come to his own again
When a Clutton squire wed a Clarence dame.'"

"So the theory is that when a Clutton marries a Clarence, and so repairs the wickedness of Sir Edgar, then prosperity will return?"

"Yes; but I am afraid that will never happen now," she said, with a little sigh. "Nobody knows what has become of the Cluttons; and the Clarences are nearly extinct."

"It appears to me," I said, "that you are superstitious about the country legends."

"I am afraid I am," she said, laughing, "because so many have come true. But this one never will."

"Why not?"

"Because," she said, "I happen to be the last of the Clarences. I was named Dorothy, after the lady who died of a broken heart."

"Are you a Miss Clarence?" I asked, struck at the coincidence.

"But I am afraid I can't help those unfortunate Cluttons," she went on, "because I don't know one."

At this, I am afraid, I winked at the broken-nosed monument of Sir Francis.

"Besides," she continued, "even if I did, I couldn't give them back their property, because I haven't any money."

By this time my rough drawing was finished, and she was kind enough to say it was very clever.

"May I keep it?" she asked. "I should like to paste it in my scrapbook."

"By all means. Would you like me to sign my name?"

"Yes, please, and put the date."

I did as she told me, signing myself "Richard Clutton."

When she saw what I had written she went pale with astonishment.

"Are you really descended from those old monuments?" she said.

"Not from the monuments," I answered. "But I believe I am descended from that unfeeling brute who broke Miss Dorothy Clarence's heart."

Then she turned scarlet at some thought which struck her, and looked uncomfortable; but I could not resist the opportunity of teasing her.

"There is no doubt that you will have to marry me," I said, "and so restore the Cluttons to their former glory."

"I don't see that," she said. "I—I don't believe in those old legends."

"I thought you said you did."

"Yes. I believe in some of them, but not this one. Besides, I am not going to marry anyone. I have decided to be an old maid. I like old maids."

"So do I. But I like young maids better. I am afraid, Miss Clarence, you can't escape. It's a question of destiny. You and I will have to fall in love with one another; so we must make the best of it."

By this time she had quite recovered her equanimity, and was prepared to treat the matter as a joke.

"It seems rather hard lines that I should be obliged to fall in love with, you," she said, with a mischievous gleam in her eyes. "I am afraid you are not my ideal."

"Perhaps not," I admitted. "But then, Dorothy, people never marry their ideals."

"I beg your pardon?" she said, raising her eyebrows with dignified surprise.

"People don't marry their ideals," I repeated.

"People don't usually address strangers by their Christian name," she replied severely.

"Certainly not. But perhaps you forget that we are not strangers; we are cousins. You can't seriously expect me to address my own cousin as Miss Clarence?"

"Many thanks for your help with the sketch. It is time for me to go."

She packed up her drawing materials; but I noticed she did not offer to return my sketch, in spite of her indignation—she packed it away in her portfolio. However, that may have been an accident.

But I was not going to let her escape so easily.

"You will let me see you home, at any rate?" I said.

"I think not," she answered; "I live a long way off."

"So much the better; we can discuss family legends and other things."

"Besides, I am well known. If I am seen walking through the streets of Elchester with a stranger everybody will want to know who you are."

"You will, of course, explain that my name is Clutton," I remarked, "and they will grasp the situation at once."

She bit her lips with vexation.

"Come," I said, "don't let us worry about destiny or anything else. I will walk with you as far as your house. You must in mercy permit that, for I don't know a soul in the town. Then if you find an additional cousin such a nuisance, we will say good-bye for ever and a day. Will that do?"

"Yes," she said, rather doubtfully.

On our way through the town she pointed out the house where at one time a branch of the family used to live. It is now converted into a hairdressing establishment—a somewhat inglorious falling-off.

That evening Mr. Clarence called at the hotel where I was staying, and begged to make the acquaintance of a member of the family. I submitted gracefully, and we discussed the family tree and the family history until two o'clock in the morning.

I think few men have had a more difficult courtship than mine, for Miss Dorothy fought against the guidance of destiny with all her might. But I succeeded.

Curiously enough, the rest of the legend came true, for a distant relation left her a moderate fortune. The terms of her will ran: "I leave the sum to my kinswoman Dorothy Clutton, that the ancient prophecy may be fulfilled, and I beg that she will employ it as far as practicable in repurchasing the Clutton property."

And all this arose from a chance encounter in an old cathedral on a wet afternoon!

MISS BERWICK'S LUCK

BY PAUL CARSON.

Miss Berwick was small and retiring, while the city was big and aggressive. The two did not get on well together. Miss Berwick sewed for a living and dwelt in a little hall bedroom up four flights of stairs, in company with a tiny oil stove and diminutive folding bed.

She was in mortal dread of both of these articles, fearing that one would blow up or the other fold up unexpectedly and find her unprepared.

Miss Berwick had a cousin, Mrs. Green, her only relative and friend in the unfriendly city. This cousin invited Miss Berwick to a Sunday dinner, an invitation which was gladly accepted, for, having on Saturday night paid a week's room rent in advance, there was only a dollar left in Miss Berwick's shabby pocket-book, and a good square meal was not to be lightly declined.

Mrs. Green lived in the suburbs, several blocks from a car line, and trudging thitherward in the hot sun, the little woman found herself looking backward to the hard winter during which she had barely existed.

"I don't see how I can ever live through another," she thought.

Mrs. Green occupied one of those aggravating houses whose front door opens directly into the front room—"the parlor," Mrs. Green called it—and there Miss Berwick was cordially welcomed by the Greens big and little. She took off her bonnet and laid it with her pocket-book and gloves on a stand near the door, and went out to dinner, which was ready in the adjoining room. Mrs. Green carefully closed the parlor door to keep out the heat, and no one remembered to lock the front door. They sat at the table a long time, but upon their return to the cooler room the visitor at once noticed that something had happened. The purse still lay where it had been placed, but how changed! Instead of being a flat, poverty-stricken pocket-book, its normal condition, it was partly open, and its fat sides were nearly bursting with greenbacks.

"Look here!" Miss Berwick gasped.

Mrs. Green looked.

"Henry," she called sharply, "come here!"

Mr. Green, dropping his pipe, came in hastily from the porch.

"Where did that money come from?" demanded Miss Berwick.

"Where?" echoed Mrs. Green.

"It's a miracle!" said Miss Berwick.

"Miracles are not so easily explained," rejoined the practical Mr. Green, calmly.

"Explain this, then," said his wife.

"That is easy. Is the street door locked?"

It was ajar.

"And look here," cried Mrs. Green, "here's my 'Evangeline' with the leaf torn out," picking it up from the floor; and sure enough, some one had hastily torn a fly leaf from the front of "Evangeline," and being in a hurry had left the book on the floor where it fell.

"Let's count it," suggested Miss Berwick, and to their astonishment they found fifteen hundred dollars.

"I'm going to turn it over to the police at once," she declared.

"That's right," assented Mr. Green. "I'll go down with you."

"And so will I," said his wife, feeling that her cousin would need a woman's sympathy when giving up fifteen hundred dollars, even if it did belong to some one else.

An hour later a man and two women, one of the latter excited and the other looking seared, appeared before the chief of police with fifteen hundred dollars and, an astounding story as to where they got it. The chief took the money, however, locked it up with "Evangeline," which Mrs. Green had brought along as a possible clue.

The chief said,

"The owner will doubtless notify the department of his loss or else the morning papers will advertise it."

The chief of police retained the money and the copy of "Evangeline," and then the morgue—that great revealer of secrets—unravelled the mystery.

One day the body of a well-dressed woman was taken from the river. On her hand was a wedding ring. In an oil-silk bag attached to a chain around her neck and worn inside her clothing was a diamond ring, twenty-five dollars in money, and a note written on a piece of paper whose jagged edges were afterward found to fit exactly in the place where the fly leaf was torn from Mrs. Green's "Evangeline." The note read:

"I am a childless widow, without a relative. They say I am insane. It may be. I am going to drown myself in the river that flows at my feet while I write this. Better death than a madhouse. I had fifteen hundred dollars, which was left of my husband's life insurance. I saw a door ajar and went in and put the money in a pocket-book. It looked as if its owner were poor. I give the money to the owner of the pocket-book."

That was all, no date, no name, and there was no mark on the clothing, which was evidently of foreign make. The woman looked like a French woman. They buried her decently. Mr. and Mrs. Green and Miss Berwick followed her to the grave.

Months elapsed, and all hope of learning anything more being abandoned, the money and ring were turned over to Miss Berwick, who gave the ring to Mrs. Green.

Then, before another winter gripped the city in its cold arms, Miss Berwick fled to the quiet country town of her girlhood, where, having established a little notion store, she lived the rest of her life in harmony with her environment.

SPORTING.

GOSSIP OF THE DIAMOND.

CURRENT BASEBALL NEWS IN AND AROUND PLAINFIELD.

Bits of Information and Comment Gleaned From the Great National Game —Latest Scores of the League Teams

It does the heart of the baseball crank good to see Fred Smith, the crack second baseman on the Riverdales, play ball. Fred isn't afraid of anything. He gobbles up every ball that comes within his reach, and many that an ordinary second baseman would not think of touching. He plays a conscientious game and fills his position as few others can do. He was a member of the Princeton 'varsity team and also made for himself a great reputation in football as the star quarterback of the Princeton eleven.

There is going to be a great old game up at the Crescent Oval Labor Day afternoon. The reputation of the Cuban Giants is probably too well established to need comment on the part of The Press. It is one of the oldest organizations of the kind in this part of the country and has played all over the United States from the Atlantic to the Pacific coast and from Canada to the Gulf States. The team is just now on the eve of a trip through Canada. Mondoy afternoon they will meet the Riverdale Field Club, reinforced with some new players secured expressly for this trip. The colored boys are great ball players and perform all kinds of stunts on the diamond that will form a treat in themselves. Then, too, they play great ball and the local team will have to do some hustling if they expect to win in the contest.

GOLF.

The Hillside Tennis and Golf Club's arrangements regarding the lockers in the new clubhouse are as follows:

Each member occupying a locker in the present clubhouse will be assigned the same number of locker in the new house.

Lockers will be assigned to those who have applied or who may apply and will be found tagged with applicant's name.

Members are requested to remove contents of lockers in the Plainfield Avenue Clubhouse on or before Sept. 3d, on which date keys to lockers in the new house may be obtained from Mr. Fox.

Lockers are being assigned by the house committee, of which George P. Mellick is chairman.

It will be an easy matter to reach the new golf grounds Labor Day, at the formal opening of the new clubhouse, as arrangements have been made with Capt. Hand for stage service by the following schedule (route via Park avenue):

Leave Plainfield Railroad station at	9:15	a. m.
" " " "	10:30	"
" " " "	1:30	p. m.
" " " "	2:00	"
" " " "	2:30	"

" "	5:30	"
" "	6:30	"

Fare, 15 cents each way.

ON THE GRIDIRON.

J. Vincent Rittenhouse, of East Sixth street, left yesterday afternoon for Bethlehem, Pa., where he will attend the preliminary practice of the football eleven of the Lehigh University.

THE COURTS.

JUSTICE MOSHER.

Summons issued—In the case of Schorb against Kane, on contract, returnable September 6th. In the case of Bowler against Knight, on contract, returnable September 6th.

Case adjourned—Miller against Marshall, for one week.

—Press want ads bring results.

EARLY CLOSING MATTER

LAST NIGHT WAS THE TIME FOR 7 O'CLOCK AGREEMENT TO END.

Some of the Merchants Will Continue the Arrangement Through September—Uncertain Action With Others, Though.

It looks as if the early closing movement among the local store keepers would be continued for another month at least. Today, being the first of September, the agreement among the merchants made last spring comes to an end. It was then agreed that the stores should close every evening except Saturdays at seven o'clock. Now some of the merchants will continue this practice for the month of September.

The people have by this time become accustomed to the early closing and make their purchases before that time. Then the clerks are allowed their evenings to themselves.

Edward White and VanEmburgh & Son have announced that they will close tonight and the other evenings this month at 7 o'clock. A Press reporter visited some of the various merchants about town. Nearly all expressed a willingness to close if the rest would. They wanted to think it over and see what the rest were going to do.

Woodhull & Martin expressed themselves very strongly in favor of a united movement to close at the early hour that has been tried for the past two months.

It looks as if someone would take the initiative that the stores would continue the early closing movement through September.

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

The Bridge street bridge in Rahway, which was erected in 1808 across the Rahway river, is being demolished. Lafayette, when he made his memorable visit to Rahway on the occasion of his trip to America in 1824, passed over this bridge on his entrance to the town. The pretty girls of Rahway lined both sides of the structure, and besides covering the driveway with flowers, they showered them on the head of the General. He was slowly driven across the bridge. Many souvenirs of the old bridge are being gathered by the persons who have assembled to witness its demolition.

Every new arrival at Yale University has many things to learn. One is the host of stories that are told of various students and professors or of some famous happening in the history of the institution. Some are pathetic, others are filled with humor, and all are claimed to be strictly original. Now it is said that the students in that vast institution sometimes are in the habit of spitting on the floors of the class and lecture rooms. A story is told of one well-known professor who has had occasion to notice the prevalence of the habit among the young men under his direction.

"Young men," he remarked one day, "all those who expect to rate first in their class will greatly increase their chances of reaching there if they do not expectorate on the floor." It is told that the boys were so pleased with this remark that the result was very satisfying to the instructor.

* * * *

There is a road up in the hills of Warren township that such Plainfielders as are called upon to travel over it wonder how it is possible to make a road quite so rough and rocky. The road is the one going from Warrenville to Martinville and known as the Springdale turnpike. The Springdale turnpike was once one of the best roads in the township. Part of it is yet. Last spring the Township Committee decided to have a stone road there as the mud was rather too deep for comfort. The contract was awarded. The contractor was a bright man. He read the agreement and found that he was called upon to build a stone road. So he hauled several loads of field stone and dumped them on the road, spread them over the road and put on a thin layer of dirt. It was a stone road but such a one. He was told he had not fulfilled the contract but he pointed out that it was a stone road. If it wasn't a stone road, what was it, he wanted to know. Certainly the stone was there, and plenty of it, too. Since then the mile of "stone road" has been traveled many times but still retains the ability to give each newcomer a thorough shaking-up.

WEAR Royal Worcester Corsets.

FOR SALE BY LEADING DEALERS.

WON IN FIRST INNING.

RIVERDALES EASILY DEFEATED THE WATSESSING TEAM.

The Game was Played Yesterday Afternoon on the Grounds of the Orange Athletic Club—The Score by Innings.

(Special to The Daily Press.)

Orange, September 1—The Riverdale Field Club, of Plainfield, won fresh laurels on the baseball diamond yesterday afternoon by defeating the crack Watsessing Baseball Club at Orange Oval by a score of 9 to 4. The Orange A. C. was at Montclair, and the Riverdales were invited to take their place in a game on the Oval.

While the game was well played, there was not very much doubt from the start as to which team was going to win. The Riverdales rolled up a score of five runs in the first inning by some heavy batting. That was a lead that the Watsessing boys couldn't overcome, although they came within one of it. Meanwhile the Riverdales scored four more runs at different intervals and had lots of fun.

The Plainfield team knocked L. Hesterfer out of the box in three innings. Then his brother went in and did better. Tommy Dunne, of the New York A. C., was playing in right for the Riverdales and he relieved Westervelt in the sixth inning, although Harry could have continued without trouble. The day was a pretty warm one, however, for any man to pitch nine innings. Cowan, of the N. Y. A. C., was in centre field for the Riverdales, and Affeld, the old Cornell man, played third in place of Romig. The rest of the team was there as usual.

The score by innings was as follows:

									R.	H.	E.
Riverdale A. C.	5	1	2	0	0	1	0	0	—9	14	3
Wa's's'g B-B.C.	0	1	0	0	2	0	1	0	0—4	8	7

Batteries—Westervelt, Dunn and Driscoll; L. Hesterfer, J. Hesterfer and Hays.

Free of Contagious Diseases.

For the first time for several years Plainfield is now absolutely free from all kinds of contagious diseases There is no cases in quarantine, the last one being removed from quarantine yesterday. The health authorities are very proud of the showing and point out the fact that it is the result of their efforts to keep the city clean and healthy that have been found so much fault with in the past.

Accused of Disorderly Conduct.

Richard Day was arraigned before the City Judge this morning on the charge of disorderly conduct and of using profane and indecent language. He pleaded not guilty and his trial was set down for Saturday morning at 9 o'clock.

—A. Kane writes to The Daily Press to say that the costs of the legal fight which his brother Charles is having with the Ettinger estate will not amount to $100.

Miss Eva Jenkins, of East Sixth street, is getting up a party to go boating on New Market pond tonight.

MUGWUMP EPISCOPALIANS.

Drift Toward Extreme Ritualism in Some Churches in England.

It looks as if the Bishop of London, Dr. Creighton, would be compelled before long to take official notice of some of the proceedings of the advanced ritualists in his diocese, and his interference is almost certain to be the signal for a hot theological fight. Certain aggrieved evangelicals have protested vigorously against the methods of worship in St. Ethelburga's Church, in Bishopsgate street, London. Among other things they say: "Among the idols in our parish church there are three large crucifixes and other small abominable idols of that sort, also an image called a "Madonna and Child.' We have seen superstitious reverence paid to several of the idols. During public worship on Sunday morning we saw an official light up an assortment of eighteen candles before the so-called 'Madonna and Child.' There is also a crib with a number of stone images in it; here there are kneeling mats, and we saw a person ceremonially bow to this image crib. The church is also furnished with vessels containing so-called 'holy water.' The service last Sunday was prefaced by the curate parading the church with a basin containing this so-called 'holy water,' and sprinkling most of the people present with a small mop. One of the church warlens, nominally a member of the Church of England, is a dealer in candles. It is said that the church candles come from him. The so-called priest' openly announces beforehand hat 'mass will be celebrated' at such a day and hour, and when that ceremony occurs the priest, after filling he church with incense, produces and consecrates a wafer, elevates it before nd for adoration by the people, ceremonially prostrates himself, and then swallows the wafer. Next, after ceremonially mixing in the cup water nd wine, he consecrates, elevates, nd swallows the mixture. Then he eremonially washes the plate and up and rinses his fingers, and swallows the rinsings in the presence of he people. At 11:15 service there are o communicants; the 'priest' alone artakes of the 'mass.'" In acknowledging the document the bishop, somewhat brusquely, advised the protesters, if they did not like the service at St. Ethelburga's, to go to church somewhere else. This has stirred them to exceeding wrath, and they now threaten legal proceedings.—New York Post.

KINDLINESS VS. ETIQUETTE.

How the Former Triumphed Over the Latter at St. Petersburg.

There is an excellent story of a triumph for simple American kindliness and common sense over diplomatic etiquette and stiff court precedure. The story concerns a former Minister of the United States in St. Petersburg, at one of those elaborate and very formal receptions of levees which the Emperor and Empress give on New Year's Day, and several times later during the Winter. All the diplomats stand in line in their order of precedence, and their majesties walk down the line to exchange greetings with each in turn. On this occasion the Empress, now the dowager Empress, was not present, having just given birth to one of the younger Princesses. It seems that the good wife of the American Minister was in this country, occupied with a similar domestic duty.

The Emperor came down the line and asked after the health of each of the gentlemen present, at the same time exchanging the usual seasonable greetings. Then, as was also his custom, he asked of each what was the news from home. This always means in the diplomatic world: "How is my good brother, the Emperor of Germany?" or, "What is the news from my dear sister, the Queen of Great Britain and Ireland?" It is supposed that all of the questions were answered with pleasant information about his fellow rulers of the globe. So when he came to the American Minister he did ask the usual question: "I hope you have good news from home." Of course he did, and our full-hearted representative could not keep it a secret. "Yes, thank your Majesty, excellent news; it is a boy, and weighs twelve pounds."

It is needless to say how this perfectly natural answer smote the assembled corps hip and thigh. It is said that a widespread titter was scarcely decorously suppressed. But the good-natured man and father, even if he was a Czar, pretended not to notice it, and said that he was truly glad to hear it, and he hoped the Minister would convey his heartiest congratulations to Mme. Minister. He then passed on to the next men in the line extending his greetings. It seems that the ill-concealed disorder among his colleagues made no impression upon the good-hearted and happy American. He had forgotten something. Coming out of his place he followed the Emperor, and tapping him on the shoulder, said: "I beg your majesty's pardon. I failed to inquire after the health of the Empress and the little Princess." The Emperor thanked him again with great kindness and assured him that both were doing as well as could be expected. And from all accounts this last exchange of domestic compliments provoked the line into actual laughter.

This was the one good story of the great winter capital for days and weeks. It was whispered around at parties and tittered over teacups, until at last reached the ears of the recovering Empress. And with the kindness which has always characterized her, as well as her late husband, she resolved to teach the small-minded court circle a lesson. So at the next assemblage she made occasion to seek out the American Minister as an object of her especial favor, and later, at the banquet, in a particularly audible voice, thanked him for his kind inquiries after her health during her recent illness.—Washington Post.

CURRENT HUMOR.

"What did you do with that letter that was on my table?" asked Gus De Smith of the colored boy who cleans up his room.

"I tuck it to the postoffice, sah, and put it in de hole."

"What did you do that for? Did you not see that there was no address on the envelope?"

"I saw dar was no writin' on de 'velope, but I 'lowed yer did dat ar on purpose, so I couldn't tell who yer was a-writin' to. I'se an edicated negro, I is."

"Can you lovve one so far beneath you?" faltered Sir Roderick, his voice trembling with emotion.

The fair Lady Constance leaned from her casement.

"Why, it ain't more than tairty feet!" she exclaimed, looking down at him. "Well, I should hasten to cackle!"

Love will at times annihilate time and space as well as the long green.—Detroit Journal.

Young Chump—Wasn't it awful, those Parisian students rushing around and shouting. "Let us pillage!"

Old Grump—They might have done worse. They might have roamed the streets howling "Rah! rah!"—Cincinnati Enquirer.

Washerwoman—Please, mum, I've brought your things from the wash.

Patron—Well, take them to some one else, and leave me some one else's washing. I think if you will manage that way I'll get more of my things.

German Professor (in his lecture on water)—And then, gentlemen, do not forget, if we had no water we could never learn to swim—and how many people would be drowned!—Vienna Fremdenblatt.

Kind Old Gentleman—Why, have you had trouble with this poor little boy?

Johnny Eastside (haughtily) — No trouble at all, mister; I done him up with one hand.—Brooklyn Life.

"How tall be ye, Henry?"

"'Bout 6 foot, I guess, with my boots off. How tall be you?"

"'Bout 6 foot when my hair's cut."—Harper's Bazar.

The Last and Deepest Price Cut in our Summer Clothing.

The season is well advanced. There is no denying of it, and it is high time for summer suits and trousers, and in fact all summer goods, to be sold. We depend upon the power of price to do the work. Just read these prices. Have you known their equal anywhere?

BURKE RODE TO WIN IN LISTER'S RACE.

While Scratch Men Quarreled as to Pace.

NINETEEN RIDERS IN IT.

BURKE WON FIRST PRIZE, ALSO TIME PRIZE.

He Rode Well From Start to the Finish—Passed the Others One After Another—Day Was Hot and the Dust Was Awful—Arrangements for the Race Were Good and Finish Close.

Out in the dust and under the broiling sun, the people went yesterday afternoon and sweltered, just to see a score of dust-covered, panting riders bend over their wheels and race along for fifteen weary miles. It took a lot of energy to go out into the heat even to witness the race, but it took lots more to participate in the race. Nevertheless there must have been nearly eight hundred people distributed along Park avenue to witness the event.

It was the last of the series of road races that Harry K. Lister has conducted. While the race yesterday afternoon did not have quite as many close finishes in it as some of the preceeding ones, yet it was decidedly exciting and was conducted in a very satisfactory manner, everything passing off without a single break or slip. Although many were kept from attending the race for the reason it was held in the afternoon instead of the early evening, the hour was far more satisfactory to all concerned and the darkness did not handicap both riders and officials as at the last race.

The race was over a course of fifteen miles, starting on Park avenue, just south of Randolph road. It went to Pumptown, back to Campbell's roadhouse at Avon Park and then to Pumptown again, finishing on Park avenue at the starting point. The road was in good condition most of the way but awfully dusty. The riders, who looked warm and tired when they started, returned in a condition in which their own mothers would have hardly recognized them. Dust covered them from head to foot and formed a mask with the prespiration in their faces.

The honors of the day went to Joseph Burke, a plucky young Plainfield rider. He crossed the tape over twenty seconds ahead of any other competitor and left the scratch bunch three minutes behind. That settled their chances for the coveted time prize for Burke only started with two minutes handicap and had nearly rolled up another minute to the good when he completed the fifteen miles. He was in good condition too when he finished in comparison with many of the other riders who looked very near the verge of collapse.

There was a little delay at the start to give some of the absent ones a chance to appear and allow the heat to let up a little. As far as the heat was concerned, the delay did not do any good for the sun continued to pour down and bake or rather boil spectators, officials and racers.

There were twenty-one entries in all, Jorden Hansen, of Perth Amboy, the Irvington-Milburn hero, making a post entry. He rode from scratch. There were nineteen riders to face the starter when the race began. The men were sent away in good shape and lost no time in setting up a lively pace.

The limit men straggled out after the first three miles while the scratch riders jumped out at a fast clip. They overtook the thirty-second men and picked them up. Then that bunch overtook Harry Cuming and A. Dufresne, with a minute handicap, near Oak Tree. This bunch of seven men stuck together to the finish, pacing alternately.

Meanwhile Burke lost no time in getting after the leaders, Embleton, of Westfield, and Robinson, of Perth Amboy, were with him for a while. By the time they reached Pumptown, they had passed Charley Vandeveer, the old colored war horse who did some great riding years ago. At that time Mike Owens was in the lead.

By the time the racers reached Campbell's, Owens had dropped back to third while Burke was not far behind him. Embleton snapped the crank to his pedal and had to drop out. Robinson could not hold Burke's pace and fell back to seventh.

On the way back to Pumptown, Burke crawled by Angerbauer and Warren, of Elizabeth. Morris Sorensen, who had been with him most of the way so far, finally fell back a little way. Burke was ahead when he made the last turn at Pumptown and he came down the stretch to the finish in great shape. He never lost his lead but kept on riding, slowly leaving the others behind. Had he not stuck to his pace on the ride home, he would have lost his chances for the time prize.

Sorensen had a lively brush with Warren, but the Elizabeth man was pretty well gone and he had to slow up. Sorenson went after Burke, but the lead of the latter was too great.

Burke crossed the line in good form amid the shouts of the enthusiastic spectators who forgot for the time being that it was warm, but ran about and shouted to their hearts' content.

Sorensen didn't look badly when he came in second. Then Owens and Angerbauer, who had been riding together a good share of the journey, came in for a close finish. Owens had a little spurt saved up and crossed the tape several lengths ahead. Half a minute later Warren came, nearly exhausted. He could barely sit on the saddle.

Charlie Dodd and George Apgar had a little race all by themselves. They alternated the pace for the fifteen miles and then Dodd won out by a wheel on the finish. Robinson looked decidedly tired when he finished next alone.

Two minutes and forty seconds after Burke came over the tape the victor, the scratch bunch arrived there. The seven men who comprised it had a lively little sprint to wind up with, and the audience howled with delight to see it. They had kept together pretty well all through the race and finished about a wheel's distance separating them. Fifer, the Elizabeth star, headed the bunch over the tape, his pretty purple and white racing suit looking sadly the worse for the dust. Allgair, from Somerville, came in second, with W. J. Mooney, of Rahway, trying hard to pass him. Hansen and Conquest, the Perth Amboy combination, followed. Dufresne beat Cuming in the sprint.

The first time prize was fairly won by Burke, who completed the distance in 38:56. Fifer took second time prize. His time was 39:42. He was certain that he had won first time.

The order of finish, the handicaps and the actual riding time of the riders were as follows:

Name and Address.	Handicap.	Time.
Jos. Burke, Plainfield	2 min.	38:56
Morris Sorensen, Plainfield	3 "	40:17 2-5
M. Owens, Plainfield	4 "	42:06 2-5
Henry Angerbauer, Plainfield	4 "	42:07 2-5
Ed Warren, Elizabeth	4 "	42:42
Chas. Dodd, Elizabeth	1½ "	40:27 2-5
George Apgar, Plainfield	1½ "	40:22
W. W. Robinson, Perth Amboy	2 "	41:18
M. F. Fifer, Elizabeth	scr	39:42
John Allgair, Jr., Somerville	30 sec.	40:12 1-5
W. J. Mooney, Rahway	scr	39:42 2:5
Jorden Hansen, P. Amboy	scr	39:43 3:5
J. T. Conquest, P. Amboy	30 sec.	40:13 4-5
A. Dufresne, Elizabeth	1 min.	40:43
Harry Cuming, Plainfield	1 min.	40:44

Harry K. Lister acted as starter and clerk of the course. The judges were Thomas A. Cuming, Sydney R. Titsworth, Charles B. Morse, Chauncey F. Stout, Raymond A. McGee and Fred J. Pope. The timers were J. W. VanSickle, H. C. VanEmburgh and Carroll L. Runyon.

REPUBLICAN OUTING.

A Day at the Seashore Planned for the 15th.

Arrangements have been completed for the second annual outing and dinner of the Union county Republicans to take place Tuesday, September 13th, at Neptune Heights, Avon-by-the-Sea, the beautiful place visited last year.

The guests will assemble at Republican Headquarters, Dix building, Elizabeth, at 9:15 o'clock, and special train over the Central Railroad will take them to the seaside. Drake's Band will furnish the music. The tickets, including dinner, cane, badge, etc., are sold at $2.50, and can be obtained of Charles N. Codding, chairman, Westfield, or any of the following committee:

Rahway—Charles H. Reed, H. B. Rollinson, S. Rusling Ryno.

Westfield—C. H. Denman, Chester M. Smith, Luther M. Whittaker.

Fanwood—Geo. Kyte, John Robison.

Springfield—J. Martin Roll.

Roselle—James W. Hope, Henry Krouse.

Union—Dennis Long.

Summit—Francis S. Phraner, J. W. Clifft.

New Providence—John F. Wahl.

Morristown Horse Show.

The second annual open-air horse show at Morristown is fixed for October 6th, 7th and 8th. It will be held at the Driving Park under the auspices of the Morristown Field Club. The indications are that the show will be the event of the season in Morris county and excel the success of last year's equine exhibition there. The arrangements will be on a grand scale and include several innovations. Many improvements are to be made to the show grounds. There will be an elliptical show ring with arena boxes and promenade on one side and a row of packing spaces for four-in-hands and other traps on the other side or infield.

—Press want ads pay—try one.

THATCHER NOT THERE.

MINSTREL MAN DIDN'T PRESIDE OVER THE CLAMBAKE HE ARRANGED.

The Bake Itself Was All Right, But Those Who Went to "The Elms" Were Disappointed in Not Seeing the Host.

George Thatcher's clambake without the presence of that famous minstrel was strikingly like an attempt to give Shakespeare's "Hamlet" with "Hamlet" left out. The clambake was held last night. As far as the bake itself was concerned, there was nothing that could be found fault with but most of the guests went there to see Thatcher and with the expectation that he would have something particularly pleasing for their entertainment. In that they were greviously disappointed. There was no music, no speeches and they had to be content with the savory dishes and each others company.

"The Elms," Thatcher's roadhouse on South avenue and Terrill road, was the scene of the bake. The night was a perfect one except for the warmth which rather prejudiced the guests against anything hot to eat. Elaborate preparations had been made for the bake and a great stock of good things laid in.

Thatcher has a date in Washington for two weeks, beginning Monday night, to appear in one of the theatres there. He expected to be present at the bake and was preparing for a big time. He left last Monday and went to Washington, where he is now.

The bake was an excellent one, and the guests who did come found a sumptuous meal awaiting them. They were loud in their praises of it, but the absence of the host disappointed everyone. There was no music except the sound of the knives and forks and clinking of the glasses. The guests numbered about a hundred.

After spending most of the evening sitting around the lawn, most of the guests departed. The order at "The Elms" was very good.

SOLDIERS ESCAPE FROM GUARDS.

Two Prisoners at Pompton Lakes Disappear While at Their Meals.

(Special to The Daily Press.)

Pompton Lakes, September 2.—Privates Joseph M. Hines, of Company B., and Richard Celinski, of Company F., two prisoners, made their escape Wednesday night about 6:30 while at their company streets for supper under guard. The custom is to send prisoners from the guardhouse under guard to their meals.

In some way during the meal they slipped from the guard, and were gone some time before it was realized they had escaped. Guards were sent in all directions throughout the country, and descriptions have been wired to nearby points to have the men apprehended. They were seen a short time after by some people in the neighborhood, and were making for some point on the Erie Railroad.

Hines deserted once before and was brought back to camp from Newark after an absence of twenty-one days, and was under guard awaiting trial, the papers having been forwarded to the War Department. Celinski was under arrest for being away on French leave.

Came Back Looking Healthier.

Sydney R. Titsworth, of West Fifth street, and Nathan E. Lewis, of West Eighth streeet, have returned from Watch Hill after spending a month, and were accompanied by Howard Lewis, of Alfred University. At Watch Hill the three were guests at the summer cottage of Mrs. George H. Babcock. They had a handsome sloop yacht on which they spent most of their time. They took a number of their friends out for a sail on the Atlantic and made a great record for themselves at fishing. They are all three very darkly tanned. They have many wild sea tales to relate to their friends in Plainfield about their experiences while sailing on that part of the Atlantic near Watch Hill.

Headquarters Train.

The special headquarters train of the G. A. R. of New Jersey will leave Jersey City Monday morning at 9:42 o'clock to go to the thirty-second annual National encampment of the G. A. R., to be held at Cincinnati September 5th to 10th. The arrangements for the train were made by Department Commander Smith, of this city, who will accompany it. A number of veterans from this city will go to the encampment on this train.

Factories Consolidate.

The machinery of the Parker, Wishart & Call Company has arrived at the factory of the Aluminum Press and Plate Company and will soon be established. The factory of the former company in Connecticut has been abandoned and the business done there will be consolidated under an arrangement with the Aluminum Press and Plate Company.

TOO WARM TO DECIDE.

Judge DeMeza Reserves a Decision in a Case for a Week.

It was rather difficult to make the two stories hang together, especially on such a hot day as this and the Judge decided that he wanted to think it over. Jacob Sachar, who had been arrested on the charge of reckless driving, told his little tale. He had been walking his horse, he said, on the right of the road when George Grollmisch drove his carriage along the left side of Richmond street and ran into him. Now Grollmisch and his array of witnesses claimed that Sacher had his horse on a gallop and ran into Grollmisch who they said was on the right of the road. Nearly a dozen witnesses were sworn.

The Judge reserved his decision in the case for a week.

APPEAL FOR WORTHY OBJECT.

Managers of Fresh Air Camp Have Children to Do Good to.

The Press has been asked to print this appeal to the people of this city in behalf of the Fresh Air Camp: Will not the charitably-disposed people of our town help us in the support of the Fresh Air Camp? Some have responded to our appeals and have donated liberally. But this summer has given us more sick children to care for than ever before, often many more cases being reported to us by the physicians than we can accommodate. For the sum of $3 six or seven little ones can be given a whole day in the pure, cold mountain air under the nurses' watchful care, and in many cases it has brought renewed health and strength to the little ones whose lives were despaired of.

We have no funds with which to continue the work, but the need is so great that we feel we must persevere and trust to the generosity and charity of the people of Plainfield to help us in this matter. Any contributions to the work may be sent to the treasurer, Mrs. W. A. Coddington, 409 East Second street.

THIRD ON SHORT RATIONS.

Captain Collins' Quick Punishment for Complaints.

(Special To The Daily Press.)

Pompton Lake, N. J., Sept. 2.—Failure to receive the proper amount of rations yesterday caused quite a large number of the men of Company E to start off to inform Colonel Lee of their treatment. As they were passing Captain Collins' tent he halted them, saying: "If you have any grievance state it to your captain." They informed him that they were receiving only a small piece of meat and a cup of coffee for dinner. As a reward for their obedience he ordered the men to quarters, and the leader, Private Conser, to the guardhouse, charged under the sixty-second article of war with inciting a mutiny.

Each captain has informed his men that all those who desire to enter the ambulance corps of the United States army to give their names. But few of the men put their names down.

All Ate Watermelon.

Daniel Manning, of Clinton avenue, gave a melon party last night, which was attended by about 40 people, young and old, from South Plainfield, New Market and this city. Mr. Manning's immense patch of water and musk melons was placed at the disposal of his guests, and the melons disappeared very fast.

Mr. Manning's melons have a reputation for sweetness which was conclusively proven last night. They had been placed on ice, and the way they disappeared showed that the guests enjoyed them. The latter part of the evening was spent in dancing on the piazza to music furnished by John Bouroughs, and it was not until morning that the party disbanded.

Good Work Done.

The regular monthly meeting of the board of directors of the Y. M. C. A. was held last evening at the building, ten directors being present, Vice-president Bonny in the chair. The meeting opened with Scripture reading and prayer. Several reports were received. The attendance at men's meetings has been larger than any previous August since the building was opened. Five men were directed to where they secured work, and six have been directed to boarding or lodging houses.

Brunswick Traction Company in Control.

(Special to The Daily Press.)

New Brunswick, September 2.—According to a well-established rumor the Brunswick Traction Company assumed full control of the trolley line from Bound Brook to Raritan yesterday morning. The transfer by the New York and Philadelphia Traction Company was made in New Brunswick within the past few days. The Brunswick Traction Company will operate the line.

Miss Carrie Drake, of Duer street, is visiting relatives in Scranton, Pa.

VICTIM OF THE FEVER.

ABRAM ALBERTSON, OF THE 71ST REGIMENT, NOW IN BED.

He Went Through the Hard Cuban Campaign and Came Home in Apparently Good Health—Parents at His Side.

Having gone safely through the arduous campaign at Santiago, and escaping illness and death in the trenches at San Juan Hill, Abram Albertson, a non-commissioned officer in Captain Rafferty's famous Company F, Seventy first Regiment, N. Y. V., who is visiting his uncle, C. C. Cokefair, of Crescent avenue, has at last succumbed and lies at his relative's home wasting away with fever.

Albertson came north from Cuba apparently in perfect health, marched up Broadway with his regiment and took part in the immense ovation accorded the heroes; then came here to visit his relatives, with whom a great portion of his life has been spent, before proceeding to his home in Bangor, Pa. Instead of going home, his parents have been sent for, and are now watching by the bedside of their son, who is tossing about in delirium.

Night before last Albertson felt ill. He didn't suppose it was anything serious, but went to Dr. Hedges, a few doors below where he is staying, to get some medicine. The doctor, as soon as he looked at his patient, saw that he was much worse than he supposed, and insisted upon helping him home and putting him to bed, where he is treating him for typhoid fever, although the symptoms are not fully developed yet.

Albertson's mother and father were sent for at once, and came here yesterday on an early train.

Mr. Albertson was seen by a Press reporter this morning, and expressed surprise that his son should have passed through all the dangers of the campaign only to be attacked when everyone thought he was safe. Mr Albertson is very glad that his son is safe in Plainfield, and not cooped up in one of the crowded hospitals at Camp Wikoff. As his son marched up Broadway a few days ago, Mr. Albertson says, he never saw him looking better, and while in front of Santiago the young officer nursed four comrades who were stricken with the fever.

Young Albertson is not allowed to see any one, but he has many friends here who are anxious to do all they can for him.

THE PRESIDENT INVITED.

The Waverly Fair Managers Are Now Ready for Its Opening.

The executive committee of the New Jersey Agricultural Society has about completed its arrangements for the annual State Fair, which will be opened at Waverly Park, Monday. Invitations have been sent President McKinley, Vice-President Hobart and Attorney-General Griggs. Messrs. Hobart and Griggs will attend the fair next Thursday, which will be Governor's day.

The entries in all the show departments will close Saturday night. The exhibits will be larger and more varied this year than last, and if the weather conditions remain favorable the management expect to see a greater success than ever before in the history of New Jersey State fairs.

End of a Long Pastorate.

(Special to The Daily Press.)

Perth Amboy, September 2—Rev. Father F. L. Connolly ended his pastorate of St. Mary's parish, Perth Amboy, yesterday, after being in Perth Amboy twenty-six years. He has been transferred to Gloucester. When Father Connolly read the letter from Bishop McFaul ordering the transfer, he said that he would not preach a farewell sermon, as he expects to return to Perth Amboy to complete his work here. Bishop McFaul has appointed Father O'Connell, of Bound Brook, to succeed Father Connolly.

Maine Memorial at New Brunswick.

(Special to The Daily Press.)

New Brunswick, September, 2.—The committee on the Maine memorial, which will be erected here in memory of the three victims from this city, has received word from the stone quarry where the granite boulder was ordered that it will be ready for shipment in about six weeks. The committee will shortly hold a meeting to arrange for the ceremonies incident to the unveiling of the memorial.

Short Hills Man Missing.

(Special to the Daily Press.)

Summit, Sept. 2.—The police have been asked by Mrs. James Morris, of Hobart avenue, Short Hills, to help her to find her husband, who has been missing since August 15th. She last heard of him in New York, where, August 15th, he was taken by an attendant from the insane asylum at Blackwell's Island. He had been an inmate there for three days and was pronounced all right.

WORKING AGAINST VOORHEES.

Robert Carson, of Middlesex County, Doing Utmost for Pitney.

(Special to The Daily Press.)

New Brunswick, Sept. 2—Middlesex county will have thirty-six delegates to the State convention, and unless the primaries are manipulated by the forces opposed to Governor Voorhees, the majority of the delegation will be for Voorhees.

At the present time there is an influence at work throughout the county which is inimical to Governor Voorhees' renomination. This opposition to Voorhees is fostered in a large measure by Robert Carson, of New Brunswick, collector of the port of Perth Amboy, and at one time the leader of the Republican party in Middlesex county. Mr. Carson is an avowed Pitney man, and is doing his utmost to get as many delegates for Mr. Pitney in Middlesex county as he possibly can.

JERSEY PRESENTS A WAR CLAIM.

State Wants $175,000 for Equipping the Troops.

(Special to The Daily Press.)

Washington, D. C., September 2—New Jersey's claim for expenditures for equipment, transportation and maintenance of her volunteer regiments ($175,000) has been filed with the auditor for the War Department. Governor Voorhees is expected here to settle the matter.

To Resume Grain Shipments.

(Special to The Daily Press.)

Perth Amboy, Sept. 2.—The shipment of grain from Perth Amboy, which was abandoned two months ago, was to be revived yesterday. It has been found impossible to handle it as cheaply elsewhere, as was anticipated when the change was made. The grain is brought to Perth Amboy in cars over the Lehigh Valley road from Buffalo, and loaded in canal boats for shipment abroad. The plan which has been proved a failure aimed to save one handling of the grain by floating the cars as they came from Buffalo from Jersey City to Brooklyn, and there loading the grain into the steamers. The resumption of grain shipment means steady work for nearly 200 men.

Nominating Committee Chosen.

The monthly business meeting of the Park Avenue Baptist Christian Endeavor Society was held last night at the home of Miss Cornelia Rockfellow, of Park avenue. There was a large attendance, and a very profitable evening was spent. Refreshments were served by the young hostess before the members departed. A nominating committee, composed of D. M. Runyon, Miss Laura E. Runyon and Arthur Heath, was appointed and these three will meet and select officers and committees to be voted for at the business meeting to be held the first Thursday in October. Arrangements were also made for the tenth anniversary of the society, which is to be celebrated on November 23d.

The Peter's Brock Bridge.

(Special to The Daily Press.)

Somerville, September 2.—The new bridge over Peter's Brook, at the East End of town, will be completed this week, though it may be ten days or two weeks before it will be opened to the public. It is a handsome structure which will cost $10,000, of which amount the trolley company pays one-third. The bridge is of iron with a concrete floor, covered by macadam. It is sixty feet wide, with a forty-foot roadway, and a sidewalk ten feet wide on either side. The trolley tracks are in the centre, but provision has been made for an additional track when needed. Passengers on trolley are now being transferred over the bridge.

Petit Jurors.

Sheriff Wyckoff drew the petit jurors for the September term of court on Tuesday. This will be the last jury that Sheriff Wyckoff will draw. The following are from North Plainfield: George N. Stewart, Jacob R. Doty, John W. Coddington, Edward A. Embry, David D. Smalley.

Wanted to be a Hero.

The story of a man who gave his name as William Johnson, and who told a story of being driven to Cranford in a coach and robbed yesterday, is not believed by the police. They think that the man invented the story.

Run Into Poison Ivy.

Henry Eimer, of Harmony street, has been confined to his home since Sunday with poison. Sunday he went on a picnic in the mountains and got into the poison ivy with the unpleasant result already noted.

Woman Signs the Pledge.

At the meeting of the Reform Club last night there were four signers to the pledge, one of them being a woman.

—Tomorrow only, Saturday, Sept. 3d, large oval copper-bottom wash boilers, 59 cents each, at VanEmburgh's.

KEAN GIVES A BOND TO BUILD THE TROLLEY.

A Definite Step Taken Yesterday in the Great Project.

SECURING THE CONSENTS

FREEHOLDERS WILL TRY TO PLACATE CRANFORD OBJECTIONISTS.

County Road Committee Instructed to Draw Up a Set of Regulations Governing the Equipment and Operation of the Trolley Road—Trouble With Plainfield Councilmen Not Referred to.

(Special to The Daily Press.)

Elizabeth, Sept. 2—Every day brings the proposed county boulevard and trolley line from Elizabeth to Plainfield nearer to a reality. A definite step nearer was taken yesterday afternoon at the meeting of the Union County Board of Chosen Freeholders, held in this city, when the Elizabeth City Horse Railway Company presented its bond for the faithful performance of its part of the contract in making the trolley line and operating it. Then, too, the Freeholders began active measures to secure possession of the necessary property to allow the widening of the county road through Elizabeth and the township of Union.

It was a regular meeting of the Board of Freeholders yesterday afternoon, and there was an unusual amount of interest attached to the session because of the expected action on matters connected with the boulevard and the trolley line. In consequence there was a number of interested citizens gathered in the meeting room about the courthouse, for both friends and foes of the plan were anxious to learn what steps would be taken.

It was generally known that the agents of John Kean's company, which purchased the franchise, have been at work ever since the franchise was granted securing consents of the property-owners to the plan to build the trolley line. A report of the progress of this work was expected by the interested ones and they were not disappointed.

The representatives of the Elizabeth City Horse Railway Company were on hand and presented the bond of the company, properly approved by Judge VanSyckel, according to the provisions of the county trolley law.

Accompanying the bond was a communication from the company. They stated that they had secured almost all the necessary consents in the city of Elizabeth and the township of Union, which goes as far along the route of the proposed line as Cranford. The Freeholders were asked to begin at once the widening of Westfield avenue from Elizabeth to Cranford according to the plan so that the Kean company could begin laying their tracks. It was stated informally that the company would have all the consents inside of a week and would then be ready to start work. No attempt has yet been made to go through Cranford, but it is confidentially asserted that the company will not have the serious difficulty which has been predicted by some.

After listening to the communication of the corporation, the Freeholders passed a resolution instructing the county road committee to employ some one to deal with the property-owners along the line between Elizabeth and Cranford and see what were the best terms for which the needed property could be acquired. While nothing was said about who the appointee will be, it seems probable that an Elizabeth man will be named.

The Freeholders also instructed the county road committee to draw up an agreement and set of regulations governing the equipment and operation of the trolley road by the traction company. The committee will prepare a draft of the regulations which will be reported back to the Freeholders at the next meeting which occurs September 15th.

Then there were some routine matters attended to by the Board but that ended the business of importance. The trouble between the Board and the Plainfield Common Council was not even referred to in any fashion.

A Fireman's Day in New Brunswick.

(Special to The Daily Press.)

New Brunswick, September 2.—The firemen of New Brunswick are making active preparations for the observance of Firemen's Day and the biennial parade of the department. It will be held October 6th this year, and a large number of fire companies from nearby cities are expected to participate.

Change on the Lehigh.

A new superintendent takes charge of the Lehigh Valley Railroad in New Jersey today. The retiring superintendent, James Donnelly, takes the place of general agent, a new office.

GEN. SHAFTER RETURNS

Commander of the Santiago Army Arrives at Montauk.

HE WILL ASSUME CONTROL

A Landing Made Yesterday. The Steamer in Quarantine. Preparations Made by Gen. Wheeler to Receive the New Commander of Camp Wikoff.

Montauk Point, L. I., Sept. 2.—General William R. Shafter arrived at Montauk yesterday on the Mexico, which sailed from Santiago on August 25. The transport was sighted about dawn. The Mexico had on board besides General Shafter, the members of his staff, including Lieutenant Colonels E. J. McClernand, B. F. Pope and George McC. Derby; Majors Robert H. Noble, John D. Miley and S. W. Grosbeck; Captains J. C. Gilmore and E. H. Plummer. As soon as General Wheeler was notified of General Shafter's arrival he at once proceeded to make arrangements to pay honor to the chief of the American army at Santiago, and ordered a salute of fifteen guns to be fired by the Hotchkiss battery, and Troops M, E, C, H and K of the Second regular cavalry were detailed to escort General Shafter into camp when he should land. As soon as the Mexico came into Fort Pond bay and dropped anchor Dr. Magruder, the quarantine officer, put out in his boat to inspect her.

General Wheeler and staff were in full uniform to receive the commander of the Fifth army corps. The detachment of cavalry detailed as escort to General Shafter was drawn up in line at the wharf waiting for the general to land, and all the regulars and volunteers who could get away from their camps joined the crowd to give him a very cordial reception.

General Wheeler said that if Dr. Magruder did not find much sickness on the Mexico, General Shafter and staff would come ashore without delay. General Wheeler added that he was, of course, ignorant of General Shafter's plans, but he presumed that he would soon leave for Washington after he landed. In this case General Wheeler said he would probably continue in charge of Camp Wikoff pending his return.

General Shafter and his staff were landed from the Mexico about noon. They did not wait until the Mexico came up to the dock, but were taken off in the auxiliary gunboat Aileen, which was lying in Fort Pond bay.

General Shafter and his staff were landed at the "floating dock," some distance away from the quarantine pier, General Young being at the pier at the time. The coming ashore at the float of the commander and his staff was unexpected. General Wheeler had the cavalry escort drawn up at the quarantine pier, and the Hotchkiss guns waiting to salute General Shafter. He was not aware that General Shafter was on shore until the party had been driven to the detention hospital in carriages. General Wheeler was a little put out when he learned that General Shafter had landed. General Young was the only officer who accompanied General Shafter to the detention camp.

A swarm of newspaper men and hundreds of soldiers had been awaiting the general at the detention pier. General Shafter appeared to be in good health when he came ashore. On the Mexico, besides the general and his staff, came one company of the First regular infantry. No report as to their condition has been made as yet.

General Wheeler, when informed that General Shafter was ashore, ordered the salute of fifteen guns fired, and these were sent off after General Shafter was out of hearing. It was difficult to get near General Shafter at the detention camp, but the commander of the successful Santiago campaign sent word to the correspondents that he was glad to be on American soil once more, but was sorry to learn that so many of his men had died and were still sick at Montauk.

He said, however, that had the troops remained in Santiago they would have fared much worse.

Soon to Have Trials.

Norfolk, Va., Sept. 2.—The latest additions to the navy, the big battleships Kentucky and Kearsarge, now at Newport News, will very soon have their builders' trial trip. The boilers have been in place for some time, the furnaces are ready to receive fire, and the engines were put in place yesterday, being ready for a test.

The huge funnels are being constructed, and as soon as they are in place the trip will be made. That, it is now thought, will be the latter part of this month. The Illinois is to be launched early next month. The fighting turret for this vessel arrived yesterday from Bethlehem, Pa., and lies on a car in the yard waiting to be placed in position on the battleship.

Railroad Wreck.

Fulton, N. Y., Sept. 2.—Train No. 5, on the New York, Ontario & Western railroad, known as the Chicago limited, was wrecked at Ingalls Crossing, four miles south of this village yesterday morning.

The wreck was doubtless due to the work of tramps, who threw the switch open, at which the train was wrecked as well as two switches to the north of the wreck.

The engineer, fireman and brakeman were killed and a dozen passengers seriously injured.

Italy in Line With Czar.

Rome, Sept. 2.—It is reported that the ministry will accept the initiative of the czar in the matter of discussing the question of universal disarmament and that Italy will be represented in the conference by Signor Pansa, the Italian ambassador at Constantinople.

Increase in Postoffice Receipts.

New York, Sept. 2.—The receipts at the New York postoffice last month amounted to $597,31.94, against $567,215.63 for the corresponding month last year, an increase of $30,631, or five and one-half per cent.

COMING BATTLE NEAR OMDURMAN

His Leaders Place Themselves at Our Disposal.

Santiago de Cuba, Sept. 1.—General Cebreco, commanding the Cuban forces at El Cobre, sent word to General Lawton to-day that Maximo Gomez, the Cuban commander-in-chief, had ordered him to place himself at the disposition o fthe American commander. Included in the letter of notification were warm congratulations to General Lawton upon his appointment to command the department of Santiago. General Lawton's popularity with the Cubans has made the choice of the government in selecting him for the important post he holds singularly fortunate.

General Lawton has also received letters from the Cuban leaders, Generals Lacret and Pedro Perez, in which they say they place themselves under his command pursuant to instructions from General Gomez.

General Lawton said to-day that the action of General Gomez indicates a gratifying change of policy on the part of the Cubans, who have hitherto regarded the American occupation of Santiago, without regard to their claims, with sullen disapproval.

GOMEZ PROMISES AID.

Shelling the Dervish Position—A Sand Storm Interrupts the News

Cairo, Sept. 2.—The telegraph line to the front is interrupted beyond Nasri island, owing to a sand storm. This will delay the news of the great battle that is expected to occur between the Anglo-Egyptian expedition and the Dervishes for at least a day.

The latest dispatches received described a reconnoissance of the Dervish position near erreri by the British gunboats. The Dervishes were warlike, sounding their drums and displaying scores of banners. The gunboats shelled the position.

Although frequent glimpses of the enemy have been had during the past few days, Monday's engagement was the first time the two forces were in actual touch. The British and Egyptian cavalry repeatedly charged the Dervish horsemen, who galloped away in the brush.

Strikers Kidnap Mine Officials.

Pana, Ill., Sept. 2.—A crisis has been reached in the coal strike situation, and the city is virtually under mob law.

Yesterday afternoon David J. and Louis Overholt, president and superintendent of the Springside mine, were seized on the main street of the city by a crowd of miners and forcibly dragged from their buggy.

The attack was made opposite the Hotel Pana. The Rev. Dr. Millard, a septuagenarian, and lifelong friend of the Overholts, rushed to their assistance and was beaten into insensibility with the butt end of revolvers in the hands of strikers.

He was carried into the office of Dr. Miller and his wounds dressed. His injuries are believed to be mortal.

The kidnappers took the Overholts into the Hotel Pana, where Sheriff Coburn and two deputies attempted to effect their rescue. The sheriff was quickly disarmed, beaten and kicked out of the hotel. The miners then marched south on Locust street, the principal thoroughfare of the city. Two miners, revolvers in hand, headed the procession.

Chance to Re-Enlist.

Washington, Sept. 2.—In order to keep the regular army up to the maximum of 61,000 men, the war department will have recruiting officers at all stations where volunteers are mustered out, with a view of giving the men an opportunity to enlist in the regular service.

The time which they have served in the volunteer service will be allowed them as a part of the continuous service in the regular branch. It is estimated that the regular army is some four or five thousand below the maximum allowed by the bill which provided for the increase of the regular army when the war began.

FINNY CREATURES IN A TRUST.

English Capitalists Buy Up All the Fish in the Great Lakes.

All the fish caught in the Great Lakes and sold throughout the United States or elsewhere are to be handled by an English syndicate.

This syndicate, which has a capital of $5,000,000, has secured control of the business of the twenty corporations and firms doing business on Lakes Winnipeg, Superior, Michigan, Huron, Erie and Ontario and the hundreds of smaller bodies of water in the West and Northwest.

Negotiations leading up to the present combination were begun over a year ago and a secret meeting of all the leading men interested was held in Chicago last summer. The main basis of the agreement which has resulted in the present combination was then reached, and practically all of the important details of the big affair have been arranged since.

The combination will distribute about 150,000,000 pounds of fish annually at the outset, but it claims that this quantity will be greatly increased after the concern has systematized its business.

The London company will control all operations of the concern, but headquarters will necessarily be established in the United States.

Cold storage plants will be established in New York, Buffalo, Erie, Cleveland, Sandusky, Toledo, Detroit, Chicago, Milwaukee, Cincinnati, Indianapolis, Pittsburg, St. Paul, Minneapolis, Duluth, Kansas City, St. Louis and Denver. In addition there will be the necessary freezing plants at all stations on the Great Lakes bordering on the United States, as well as on Lake Winnipeg, Canada.

By controlling the output and preventing waste the combination claims it can sell fish in a larger territory than they are sold now and can sell them cheaper than anybody else.—Chicago Times-Herald.

ABOUT ARMY CAMPS

Political Misrepresentations Have Caused Much of the Trouble.

ONE ILLUSTRATION GIVEN

The War Department Suffers at the Hands of Politicians. Distressing Stories Are Circulated About the Camps for Selfish Motives. Innocent Officials Improperly Accused.

Washington, Sept. 2.—The war department is still in the thraldom of the politicians. The efforts of the latter, which were exerted on behalf of staff commissions, are now put forth in favor of establishing new camps. Their policy is the more disastrous as it includes an attack on existing camps. Distressing stories are industriously circulated to the manifest injustice of many officers against whom all sorts of charges are made. The report from General Boynton on the conditions at Chickamauga has done a great deal to quiet the clamor against that camp, and has relieved surgeons and others of the reflections upon their work and their personal characters. Many of the attacks made on officers and the descriptions of conditions at certain camps are directly traceable to politicians who would profit by the acceptance of offers from land owners in other localities.

Representative Livingstone, Democrat of Georgia, has been pointing out to newspaper men here the horrors of Chickamauga and denouncing its unsanitary surroundings. He was reminded by Representative Catchings, Democrat of Missouri, that Gen. Boynton would hardly misrepresent the state of affairs there, and that, years ago, when Chickamauga was first talked of as a public park, the Atlanta delegation, headed by Mr. Livingston himself, then as now on the House appropriations committee, supported the proposal with the argument that Chickamauga was a health resort, where in the event of a great war, troops could be sent for recuperation.

Mr. Livingstone desires to have the troops withdrawn from Chickamauga and sent to the Atlanta Exposition grounds. He fears defeat in the coming congressional election, and a transfer of camp to Atlanta would be a help to his campaign at this time.

Other suggestions for breaking up existing camps and establishing new ones are "boomed" by the same sort of influences, and the men engaged in the traffic do not stop at any incriminating officers or blasting of reputations to accomplish their ends.

The history of this sort of business, if it were written out in full, would form a curious chapter in the annals of the war.

The project of transferring regular troops to military posts is renewed. It is likely that the post in New York harbor will be used in this way, and most of the regular infantry and artillery quartered there where the accommodations for caring for the troops are sufficient.

Army officers are besieging the war department for information as to their positions on the relative rank list. There have been so many promotions that no one undertakes to keep pace with the changes. The war department has issued a list of army officers, with their titles and their corps or regiment. It is similar to the monthly directory issued by the adjutant general's office previous to the war, excepting that no addresses are given.

The casualty returns from troops are coming in very slowly. Those received at present are the returns for May and June. The department, therefore, is unable more than roughly to estimate the losses of our army in Cuba, and it will be at least two months before an accurate casualty list is prepared.

The collier Saturn will be repaired at the Norfolk navy yard, if it shall be decided to continue her in service. The Saturn ran aground off Ponce in an effort to pull off a transport which had got aground. The collier was somewhat injured, and is being towed to the United States.

The president has appointed Henry De Ford, Francis Dameresq, J. D. H. Luce and W. S. H. Lathrop of Goston, constituting the firm of DeFord & Co., fiscal agents at Porto Rico.

New Alaska Gold Fields.

Victoria, Sept. 2.—The steamer Horsa brings the report from Alaska of a gold strike on the Hootalinqua river. D. D. Lawney of San Francisco says the strike ran from $120 to $40 per day to the man. Bedrock had not yet been reached.

R. H. Hall, manager of the Hudson Bay Company, corroborated Lawney's statement. Hundreds of people have built narrow gauge carts on which to put a thousand pounds of provisions and are heading for the new Eldorado.

New finds are also reported from the Stickeen. From the Atlin fields news comes that several men are taking out $25 to $40 apiece per day.

4,600 Troops Leave Porto Rico.

Washington, Sept. 2.—This cable message was received from Gen. Miles:

Ponce, Sept. 1.

Secretary of War, Washington:

Twelve thousand troops will be left in Porto Rico and nearly 4,600 infantry, cavalry and artillery sail for New York. These troops sail on the Obdam, Concho, Chester, Alamo, Mississippi and Manitoba. The division is under command of Major General Wilson, with Brigadier Generals Schwan, Garretson and Haines.

Miss Davis Dying.

Atlanta, Ga., Sept. 2.—A telegram has been received in this city from Narragansett Pier stating that Miss Winnie Davis, daughter of Jefferson Davis, who was recently operated upon for appendicitis, is dying.

Gen. Pando Coming to New York.

Havana, Sept. 2.—General Pando has sailed for New York with his staff, by the Ward line steamer Philadelphia. Captain Brice, one of General Shafter's aides, took passage on the same ves-

Shoes for Spring.

You'll be buying a new pair of shoes soon. Where are you going to buy them?

The shoe store you want to patronize is the store that gives you the most style, comfort, elegance and durability for the money.

If you'll "shop around" before you buy you'll find that this is the store you're looking for.

Flynn Bros.,
222 West Front St. Plainfield, N. J.

LET US ARM YOU!

It's quite necessary, because while Uncle Sam is settling scores with the Spaniards you're bound to have a little brush at home at the same time, and there's nothing like being ready for emergencies. Until you can sign a perpetual truce with sun, wind and storm, your house and other buildings will need to be fortified with paint, and ours are like a 20-inch chilled steel armor.

NOTICE
to all interested in
Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

BIDS FOR BATTLESHIPS.

The Contracts Likely to Be Distributed Among Several Firms.

Washington, Sept. 2.—Four firms offered bids yesterday for the three new battleships authorized by the last congress. Many details of construction will figure in the awards. The lowest bid for each type of one vessel follows:

Newport News Shipbuilding Company of Newport News, Va., $2,580,000.

Cramps' Shipbuilding Company of Philadelphia, $2,650,000.

Union Iron Works of San Francisco, $2,674,000.

Dialogue & Co., of Camden, N. J. $2,840,000.

From the face of the bids it is clear that the government is going to secure very much more in the matter of power and speed than was expected; that the cost is going to be less than was paid proportionately for the Illinois class; and finally, that the department will be able to distribute the work among the three big building concerns, a method of construction that always redounds to the advantage of the government.

The bids were opened just after noon in the presence of a number of representatives of shipbuilding concerns, of bureau chiefs, and other men connected with the department.

Washington, Sept. 2.—The bids opened yesterday for three battleships are eminently satisfactory to the naval experts. The proposals are within the appropriations available, and are considered reasonable in all respects. It is a foregone conclusion that the contracts will be awarded to the Newport News Company at $2,850,000, the Cramps at $2,885,000, and the Union Iron Works at $2,899,000, on plans made by the builders and providing for 18-knot vessels. The Cramps' ship will be of 12,150 tons displacement, the Newport News vessel of 12,500 tons, and the Union Iron Works ship of 12,200 tons. The other bids will not be considered. The department does not propose to construct a 17-knot battleship, or one not according to its own designs, when vessels of 18 knots can be obtained within the limit of cost.

PEACE JUBILEE ARRANGED.

Will Be Held at Manhatten Beach Beginning Sept. 7.

New York, Sept. 2.—The Women's Patriotic Relief Association, which among its good works in the month just ended accomplished the relief of 2,444 dependencies of soldiers at the front, is arranging for a monster peace jubilee, at which all the naval and army heroes within reach will be present and on individual review before an admiring populace.

To these good women Admiral Sampson, Commodore Philip, the captains of five warships, Admiral Bunce and any number of army men have given their word that, duty permitting, they will be their guests. A greater portion of New York's naval reserve will be there, and last, but not least, the Rough Riders will have the honor of opening the jubilee.

The celebration is to begin September 7, and runs through the next three days. The scene will be Manhattan Beach, and during that time every resource of the place is to be at the disposal of the association.

Short as the notice is, and although the arrangements are as yet incomplete, there is no doubt of the success of the jubilee.

The jubilee is in four distinct divisions. September 7 is Rough Riders' day. Colonel Roosevelt has not yet given his official consent to their presence, but unofficially it is assured.

On the next day the navy will be honored, and on September 9 Colonel Downs and the survivors of the Seventy-first regiment will be the special guests.

The jubilee closes on September 10, with Municipal day, when city officials and men prominent in all walks of life in New York and famous speakers will be there.

For the army and navy Manhattan Beach will be home, temporarily. There will be receptions galore, nights of fireworks and opera and concerts without end.

Coal Miners on Strike.

Wilkesbarre, Sept. 2.—Four hundred men and boys of the Buttonwood colliery of Parrish and Ashley at South Wilkesbarre went on strike yesterday. The men had been getting from $2 to $2.50 for every set of timbering, and Tuesday notice of a 50 cent reduction was posted. Wednesday night the men held a meeting and decided to strike. A committee of ten, two each of Welsh, Irish, Hungarian, Polish and Slavish nationalities, was appointed and conferred with the officials yesterday afternoon. The men say that they will remain out until the rate is restored.

Bond Interest Anticipated.

Washington, Sept. 2.—An official announcement has been made that the interest on the four per cent. United States bonds due on October 1 will be anticipated. The coupons will be paid on September 10, on presentation, and the interest checks on the registered bonds will b sent out about September 20 for immediate payment. The early payments are due to the large amount of money in the treasury.

Gen. Merritt at Hong Kong.

Washington, Sept. 2.—The war department has been advised of the arrival at Hong Kong of General Merritt and Assistant Adjutant General Babcock. Major G. P. Schriven, signal officer at Manila, has been ordered to Hong Kong, probably with dispatches, which reached Manila after General Merritt had left.

Money Taken from Express Safe.

Chicago, Sept. 2.—A dispatch to the Times-Herald from Omaha says that robbers secured $6,000 in cash from the Pacific Express Company in Omaha yesterday. The money was consigned by the First National Bank of Omaha to the Citizens' National Bank of St. Paul.

The Relief Sails for Boston.

Guayama, Porto Rico, Sept. 1.—The hospital ship Relief, with seventy-six men from here, fever and typhoid cases, and with thirty-five sick men from Ponce, has sailed for Boston.

INVESTIGATION TALK

Alger Says Miles Was Doubtless Misquoted.

LINE OFFICERS BLAMED

War Department Officials Think Regimental Colonels and Captains Were Responsible for Bad Conditions of Troops and Camps. The Matter Will Be Probed to the Bottom.

Washington, Sept. 2.—Secretary Alger denies that he ever made any statement criticising or commenting upon the alleged interviews of General Miles.

The secretary is particular to deny the statement that he said the commanding general of the army would be court martialled, and all that he will say is that he did not believe that General Miles had made the statement attributed to him. The secretary says that he could not pay any attention, in his official position, to remarks attributed to tthe commanding general of the army in a newspaper article. The secretary says:

"I did not say a word that would indicate that I believe General Miles had reflected upon the war department, nor did I say anything about a court martial or a court of inquiry. I believe that General Miles has been misquoted and imposed upon just as I was in that fictitious interview published to-day."

There was a bitter feeling at the war department yesterday morning, since General Boynton's official report as to alleged abuses at Chickamauga has been published.

During the hysterical storm which prevailed in a certain class of newspapers in regard to the condition of the soldiers, the department kept quiet, but started a thorough investigation of some of the worst cases that were reported.

It is felt at the war department that in cases of neglect or bad condition of troops this has been due to the line officers of the regiments alone.

The records will show, department officials say, that every requisition or request made by colonels of regiments has been filled.

The department has relied upon colonels and line officers of regiments to keep it posted, and to keep the troops under their immediate charge in good condition.

The colonel is responsible for his regiment, and the captains for their companies. They are elected mainly by the soldiers themselves.

The absolute denial of Colonel Hart of the Eighth Ohio, of the falsehoods that his command suffered from lack of food on the way from Santiago to Montauk Point is considered here another proof of the recklessness of statements which have been made broadcast for tthe last few days.

The department will not rest with the present investigation, but will go to thte bottom of all stories and reports now being made.

Officials at the war department think that tmuch of the trouble which has caused criticism is due to volunteer staff officers.

They do not reflect upon the ability of these men, but simply state that they were raw recruits in the service, and were incapable of handling the staff business of the army.

General Corbin foresaw the trouble which would arise through the appointment of volunteer staff force. His plan from the start was to increase the army to one hundred thousand men by increasing the regiments.

These regiments, brigades and divisions were all equipped with trained staff officers. The regiments could have been doubled or tripled, yet the commissary, quartermaster and medical departments would have been able to handle them.

sel.

TO BE MUSTERED OUT.

Transfer of Troops for that Purpose Ordered.

Washington, Sept. 2.—The war department has issued orders for the following transfers of troops for the purpose of being mustered out at their destinations:

First Wisconsin, from Jacksonville to Camp Douglass, Wis.; Fifth Ohio, from Fernandina to Columbus; First United States volunteer cavalry (the Rough Riders), at Montauk Point; Thirty-third and Thirty-fourth Michigan, from Montauk Point to Camp Eaton, Island lake, Mich.; First Connecticut, from Dunn Loring to Niantic, Conn.; First Illinois infantry, from Montauk to armory in Chicago; Fifth Iowa, Jacksonville to Des Moines; Third Virginia, Camp Alger to Richmond; First Mississippi, from Chickamauga to Lauderdale Springs, Miss.; Second Mississippi, from Jacksonville to Lauderdale Springs.

Arrivals of War Vessels.

Provincetown, Mass., Sept. 2.—The United States battleship Massachusetts arrived here at five o'clock yesterday and dropped anchor just inside the harbor entrance.

The United States gunboats Machias, Wilmington, Helena, Detroit, Montgomery and Castine arrived here at 11 o'clock and dropped anchor close by the Massachusetts. The Bancroft was sighted at Race Point at 11.10 a. m. and reached here a little later.

News from Manila.

Manila, Philippine Islands, Sept. 2.—The United States transport St. Paul has arrived here from San Francisco and reports all well on board. The lighthouses in the Southern Philippines have been re-established.

It is reported that the religious orders are selling their property to a Hong Kong syndicate.

Gov. Taylor Very Ill.

Knoxville, Tenn., Sept. 1.—Gov. Taylor, who has been suffering with kidney trouble for several days at his home in Johnson City, is now reported seriously ill. His immediate relatives have been called to his bedside.

THE PARIS SENSATION.

New Trial for Dreyfus is Probable Now.

Paris, Sept. 2.—La Patrie announces that Colonel Paty du Clam has been arrested for complicity in the Dreyfus forgery.

It is now insinuated that the suicide of Lieutenant Colonel Henry was connived at by the French army authorities. In any case the suicide occurred shortly after the prisoner had received a visit from an officer of the general staff, who, on leaving, ordered the sentry on duty before Colonel Henry's place of confinement not to disturb the prisoner, as he had a lot of work to do. It is recalled that a similar opportunity to commit suicide was afforded to Dreyfus, who, however, declined to profit by it.

It is generally believed that the rest of the general staff of the French army will follow the example of General Boisdeffre, the chief of staff, and of General Gonse, the under chief, and tender their resignations.

It appears that the minister for war, M. Cavaignac, is convinced that Colonel Henry had accomplices in the forgery of the incriminating document.

In this connection it is reported that the minister of Justice, M. Sarrien, has already taken steps to grant Dreyfus a retrial.

The medical examination of the remains of the late Colonel Henry showed that his death was instantaneous. President Faure returned to his home at Havre yesterday afternoon.

The minister for war yesterday received in audience General Renouard, director of the military college, who has accepted the office of chief of the general staff, vacant owing to the resignation of General Boisdeffre. The latter bid farewell to the officials of his bureau yesterday morning.

Colonel Henry left letters addressed to the minister for war and to General Boisdeffre, in which he protested that he had not realized the gravity of the act which he committed "solely for the good of the cause."

NEW JERSEY TROOPS.

Still Believed that the Second and Fourth Will Continue in Service.

Sea Girt, Sept. 2.—Governor Voorhees was in Washington yesterday consulting with Generals Alger and Corbin in relation to mustering out two regiments of the New Jersey volunteers. General Stryker and Colonel Oliphant, who represent tthe governor here, stated to-day that definite orders would probably be issued to-day in reference to the New Jersey troops. It is still the prevailing belief in camp that the First and Third regiments are to be mustered out and the Second and the Fourth are to be continued in the service.

The heat was intense, and in consequence all company and battalion drills were suspended. The members of the old Third regiment engaged in rifle practice on the state range.

Private Murphy of the Second United States infantry, who participated in the fight at Santiago, came here Monday to visit his brother, who is a member of Company E. He was ill with fever and this morning he collapsed. Captain Gibbs had him removed to his home in Jersey City and furnished a detail of six men to accompany him.

Salute for Commodore Philip.

New York, Sept. 2.—At eight o'clock yesterday morning at "colors," the Brooklyn and Indiana each fired a salute of eleven guns in honor of Commodore Philip, the new commander of the squadron. He answered the salute with seven guns, the number the captains of the Brooklyn and Indiana are entitled to.

There are now lying off Tompkinsville the battleships Indiana and Texas, the cruiser Brooklyn, the auxiliary cruisers Harvard, Yale and Prairie, the monitor Montauk, the navy tug Seminole and the transports Supply and Celtic.

Round the Watchman.

Arlington, Mass., Sept. 2.—The safe in the office of the Cambridge Ice Company was blown open at 1 o'clock yesterday morning by three burglars and some money taken.

The burglars bound and gagged the night watchman, William Longwood, who lives near the office, rendering him helpless. They drilled holes in the door of the safe, which they covered with a blanket. They got the key of a money drawer in the office and took what there was of value in it. There is no clue to the burglars.

Shafter Reports His Arrival.

Washington, Sept. 2.—The following telegram has been posted at the war department:

Montauk, N. Y., Sept. 1.

H. C. Corbin, Adjutant General, Washington:

Just arrived at Montauk Point with headquarters and one company First Infantry. No sickness on board. Am on steamer Mexico, one of the ships captured in Santiago harbor, an excellent transport.

SHAFTER,
Major General.

Jacksonville Soldiers Parade.

Jacksonville, Sept. 2.—The parade of the Seventh army corps yesterday was a magnificent military pageant.

Nearly thirty thousand men were in line and every regiment presented a fine appearance.

The procession was reviewed by Gen. Lee and his staff.

Colonel William Jennings Bryan, in command of the Third Nebraska regiment, received a continuous ovation all along the line of march.

Gen. Miles Coming Home.

Washington, Sept. 2.—General Miles has cabled to Secretary Alger that he left Ponce yesterday for New York on the Obdam. He should reach home in about a week. His arrival is awaited with much interest, as it is likely to precipitate the controversy between the general commanding and the secretary of war.

The President in New York.

Washington, Sept. 2.—It is understood here that President McKinley will spend to-day in New York, though as he desires to avoid attracting attention his movements have not been made public in advance.

He will be joined by Secretary Alger at Camp Wikoff on Saturday morning.

Republicans Are Anxious.

The near approach of the date for the Republican State convention and the failure of Attorney-General Grey to give his opinion concerning Acting-Governor Voorhees' proposed resignation as a Senator from Union county are giving the friends of Voorhees a deal of anxiety, says a Trenton correspondent. The unique situation is perplexing in so many ways that great fear is felt as to the outcome by virture of his position as president of the Senate.

The knotty legal proposition for the astute Camden lawyer to solve is: Can State Senator Voorhees tender his resignation as the representative of Union county to himself, the acting-Governor, to take effect in January; and, having so resigned, can the acting-Governor then issue a proclamation for the election of a Senator in Union county in November, to fill the prospective vacancy? Attorney-General Grey is searching the books and growing grayer under the task allotted to him. Much depends upon that decision. Even if it is favorable, and the Republicans do elect a Senator in Union, it is hardly likely that he would be allowed to cast his vote for United States Senator, because the enemy that would not take the election into the courts would exhibit a weakness which cannot be ascribed to the present democratic leaders in New Jersey. All eyes are on the Attorney-General.

American Iron and Steel.

The most lately compiled figures of the treasury department illustrate in a very interesting manner how great has been the growth of our steel and iron industries. Other important classes of products have also displayed an increase from year to year, but it is in the most essential of all, that which may be called the cornerstone of the whole industrial fabric, that the expansion of output is most startling. That is the only word to designate an increase which has been noted even more keenly by our foreign rivals in England and Germany than has been done at home. If figures are uninteresting in one sense, they should be full of eloquence when we see the pregnancy of meaning behind their arid phalanx. The exports of all articles of iron and steel, which in 1880 were $14,716,524, had swollen in 1890 to $35,542,208, in 1896 to $41,160,377, in 1897 to $57,484,872 and in 1898 to $70,867,527. On the other hand, the imports, which were $71,266,689 in 1880, had gradually fallen in 1898 to $12,615,913. During this period the population has advanced from 50,000,000 to what is estimated at 75,000,000. So that we not only make substantially all our own articles of iron and steel merchandise, but send to other countries at the rate of almost $1 per capita. When we consider that 18 years ago we were forced to depend on foreign mills and factories mainly for these vital wants, it becomes a matter of the liveliest satisfaction that we have reversed the conditions. No other fact could better show how solid and stable the industrial development of the nation has been. It is specially notable that the greatest increase of exports and corresponding decrease of imports have been in articles of fundamental necessity, such as the partly manufactured metal which is the raw material of the more elaborate products classified as ingots, blooms, billets, slabs and bars, and as had in general been supposed of old to be largely dependent on enormous concentration of capital and low price of labor for economical production; and, secondly, in such highly artificial and specialized products as sewing machines, bicycles, electrical and railway machinery and the like. Our market for articles of the second category extends to every civi-

COMMISSIONERS OF CAPITULATION.

The personnel of the Commissions of Capitulation for Cuba and Porto Rico is as follows: For Cuba, Major General James F. Wade, Rear Admiral Sampson, Major General Matthew C. Butler; for Porto Rico, Major General John R. Brooke, Rear Admiral Schley, Brigadier General W. W. Gordon.

ilized and half civilized region of the known world. Asia, Africa and Australia as well as South America have shown the keenest appreciation of the superior lightness and strength which we put into our mechanical constructions without deterioration of enduring quality. It is in this feature of work, in itself cumbersome and heavy, that American skill has forged so amazingly to the head. We already hold the primacy in this line of production, and another decade is sure to place us much further in the van.

Another Tichborne claimant has entered the legal lists in England, flying at even higher game than did the butcher Castro. In this case it is a Mrs. Druse, who asks on behalf of her son for the dukedom of Portland. The story is so far somewhat incoherent, but it is intimated by the solicitors of the claim that the most important evidence has been kept down. The colossal "cheek" and mendacity in some of these cases, which it has taken many months, sometimes years, of legal investigation to unravel, would appear almost overdrawn in fiction. The history of the English peerage has been punctuated with Tittlebat Titmouses. Yet in several instances claims as wild and improbable as any put forward in other cases which are proved in the end to be impostures have been established as rightful. On one of them Charles Reade constructed a charming novel, and the most astonishing and apparently overcolored parts of the story were almost literally transcribed from the records of the court. This Irish legal romance of the eighteenth century is not likely to find any repetition nowadays, but the known possibility of such cases tends to make some minds overcredulous. There are many who even today believe that the miscreant Castro was the real Sir Roger Tichborne.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

Plainfield will have two new beds for her sewage. They will not be of feathers but they may become as odorous as the ones they now have if they give them time.—*Dunellen Call.*

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

The family of Conrad Kohlhopp, of Milltown, near New Brunswick, is famous for its weight, not only of its individual members, but collectively of the combined family. Mr. Kohlhopp tips the scale at 200 pounds. His wife weighs 220 pounds, one son 220, another son, 195; and the three daughters, 220, 185 and 175 pounds respectively. The total weight of the family is 1,415 pounds.

* * * * *

Affable and courteous as ever, Mayor Silas Drake, of Lincoln, taught a wandering showman that it pays not to ignore women, even if they are officeholders and pretend to "run the town." Wednesday a stranger came into Lincoln with a long wagon in which he claimed to have a two-headed boy which he wanted to exhibit at Lincoln Park. Meeting the Mayor, the stranger was stopped and informed that to show his monstrosity he would have to pay a $2 license. In spite of sundry dark allusions to the fact that women were members of the Common Council and that he supposed he could do about as he liked in Lincoln, the showman paid down his $2 and was allowed to proceed on his way.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

Despite the excessive heat last night a fair audience greeted the opening performance of the Katherine Rober Company at Music Hall. Miss Rober is a new performer to Plainfield, but judging from her reception last night she will undoubtedly prove a favorite hereafter. In the roles made familiar to the patrons of Music Hall in the past by the late Lillian Kennedy, Miss Rober seems well-fitted to assume. In manner and looks she resembles the dead actress to a remarkable degree. "The Deacon's Daughter" was presented last night. As the country girl who had left the rural environments to go to the city and become a popular actress unbeknown to her prosaic and puritanical parents and then eventually win her straight-laced folks to an approval of her course, Miss Rober displayed clever talent. The supporting company was good. Tonight the company will present "She Couldn't Marry Three." There will be a matinee tomorrow afternoon with a military drama, "Spain's Surrender," for the attraction.

* * * * *

Charles H. Hoyt's greatest, funniest and best farce comedy, "A Bunch of Keys," which has been polished up-to-date, will appear at Music Hall Thursday, September 8th. This was Hoyt's first endeavor and is pronounced by all to be his best. Although this is the oldest comedy, enough new features and business has been introduced to make it a new comedy; entirely new songs, dances, music and medleys. The company is headed by Miss Ada Bothner.

* * * * *

The coming attraction at Music Hall, September 13th, is the powerful drama of the south, entitled "At Piney Ridge," with the author, David Higgins, as "Jack Rose," the young mountaineer, and Miss Georgia Waldron as "Cindy Lane," supported by a fine company. The scenic equipment and mechanical environment are complete in every detail, as this attraction carries a carload of scenery and effects. The present tour of "At Piney Ridge," its second season of positive success, bids fair to be a sure guarantee of the real merit of this best of southern plays, for in all the cities where it has been so far presented, both the play and comedy have been hailed with enthusiastic audiences and sincere praise from the press. The story of the play, now generally familiar to the theatre goers of the country, is told in strong and firmly-written scenes that are the best sort of evidence of the great skill of the author as a dramatist, and that as a whole make up the elements of one of our best-written American plays.

* * * * *

John Daly is in Baltimore doing the advance work for "At Piney Ridge," which opens the season there next week at the Holliday Street Theatre. Mr. Daly did not expect to leave town until next week, but the company was booked for the Baltimore theatre at the last moment and Tuesday night he received a telegram instructing him to go to the southern city. He left Wednesday morning. After playing the week at Baltimore the company will play one night in Trenton and then they appear in Music Hall in this city for one night, Tuesday, September 13th. It will be the first high grade performance of the season.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, Sept. 2.—A force of men have been set to work cleaning up the gutters along the trolley tracks in accordance with the contract made by the street railway men to macadamize the road from gutter to gutter.

The heat here yesterday was so intense that business was almost at a standstill. Teamsters ceased hauling, laborers on the street worked only in the shade, and men lay around under the trees trying to keep cool. The stone crusher back of the village was forced to shut down because the men were nearly prostrated.

Mr. Sutphen, who has a fine orchard of pear trees, has erected a high fence around his trees to keep the small boys from making raids on the fruit. It is a question whether that precaution will be as effective as is supposed.

Rev. E. S. Jamison and family, who have been spending the summer out of town, returned today. Mr. Jamison will begin his duties as pastor of the Methodist church with renewed health and vigor.

The Christian Endeavor Society of the Presbyterian church will go to Chimney Rock tomorrow afternoon and hold their picnic.

Fred Tauzeau has returned from Pittstown, where hs has been spending a few weeks with William S. Thorp.

Mrs. Harold Tomlinson, of Plainfield, has been visiting her mother, Mrs. Ann Dunham, of Church street.

James Craig has rented his house on the corner of Jefferson and Dunellen avenues to out-of-town parties.

Mrs. Jennie Smalley, of Plainfield, has been visiting her grandparents, Mr. and Mrs. John Runyon.

Mrs. William H. Hamilton, of Westfield, has been visiting her parents, Mr. and Mrs. T. C. Bodine.

Miss Lizzie Hunt has gone to Somerville to spend a week with her cousins, the Misses Sculley.

F. T. Dickersan and family have returned from Dover, where they have been since June.

Fred Wilcox and family spent Wednesday enjoying a sail up the Hudson river.

Mr. and Mrs. Wilson Fredericks are home from Franklin, where they have been visiting.

Miss Marguerite Burnett, of Brooklyn, is visiting Mr. and Mrs. James McElvare.

Miss Jennie Apgar, of High Bridge, is a guest at the home of Mrs. W. W. Walters.

Thomas G. Robinson, of Newark, has been visiting friends on North avenue.

Mrs. M. L. Rarick has returned from her outing in New York State.

The bowling on the green tomorrow will be for the medal.

Mrs. Z. Boice, of Plainfield, has been visiting in town.

Miss Lizzie Dunham is visiting at Jutland.

Miss Julia Dodwell is at Asbury Park.

NEW MARKET.

(Special Correspondence of the Daily Press)

New Market, September 2—Miss Stella Best, of Jutland, is visiting Mrs. J. Rupell.

Mrs. L. Frazee, who has been stopping at the Nelson House, has returned to her home at Fordham, N. Y.

Miss Edna Smalley, of South Orange, is visiting her grandparents, Mr. and Mrs. L. B. Nelson.

Mrs. William Farrier is ill.

'PLAINS' AND FANWOOD.

(Special Correspondence to The Daily Press.)

Scotch Plains, September 2.—The Misses Billings, who have been spending a month with Mrs. George Lyons, have returned to their home in Brooklyn.

Mr. and Mrs. John Wilson and family, who have been occupying the Baptist parsonage during Mr. and Mrs. Braker's absence, returned to their home in New York yesterday,

Mr. and Mrs. Waldman, who have been spending the summer in town, have returned to their home in New York.

The high weeds along Terrill road have been harvested and the road presents a much better appearance.

Miss Mamie Merceir, of Plainfield, spent Wednesday with her parents, Mr. and Mrs. Joseph Merceir.

Charles Messler, the painter, is improving Jacob V. Coles' residence by a new coat of paint.

Mr. and Mrs. William Lee and family spent Wednesday crabbing at Tremley Point.

Mrs. John R. Marsh spent Wednesday with her daughter, Mrs. Darby, in Plainfield.

George Lines, of Westfield, visited old friends in town Wednesday.

WESTFIELD.

(Special Correspondence of The Daily Press.)

Westfield, Sept. 2.—The annual convention of the Elizabeth District of the Epworth League will be held in the Methodist church here Friday morning, afternoon and evening, October 28th, when it is expected over three hundred delegates will be present.

There is talk of organizing a hand polo team in town this winter. This game is very popular in the northern part of the State and is very exciting to the players as well as the audience.

The Social Club wheelmen and their lady friends enjoyed a bicycle run to Plainfield and return last evening. Upon their return a light lunch was served in the club rooms.

New House Furnishings.

Woodhull & Martin call attention to their change of ad in today's issue. In it you may read of some wonderful bargains they have for you in their several departments. The firm has been fitting up their furnishing department with new carpets, mattings, oilcloth, etc., and are prepared for the fall trade. They also call attention to a fine line of fur collarettes which they have in stock, beautiful goods, yet not expensive.

—Tomorrow only, Saturday, Sept. 3d, 10-gallon round wash boilers, 22 cents each, at VanEmburgh's.

—Tomatoes, melons, corn and everything in season, fresh from the farm, at Neuman Bros., the grocers, tomorrow morning.

JOTTINGS OF THE DAY.

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—The regular meeting of the Borough Council will be held tonight.

—The September meeting of the Borough Council will be held this evening.

—Tomorrow only, Saturday, Sept. 3d, galvanized water pails, 12 cents each, at VanEmburgh's.

—Tomorrow at White's they will put on sale 100 dozen fine black hose for ladies at an exceptionally low price.

—Mme. E. Mehzeli-Bartlett, who has been at the Brighton Beach Theatre all summer with her troupe of dancers, will close next week.

—A large addition has been added to the residence of Samuel Huntington, of Franklin place. The job will now soon be completed.

—The consecration meeting which is to be held at the Park Avenue Baptist church tonight will be in charge of Miss Anna Wyckoff.

—Neuman Bros. is certainly headquarters for peaches—150 baskets just received—for the table or canning. Prices low; fruit the best.

—The Westfield Clubhouse was sold yesterday at sheriff's sale at the suit of H. C. Sargent, who held a mortgage on the property. The place was bought for Mr. Sargent.

—M. Weinberger, manager of the New York Clothing Company, announces in their new advertisement a three-days' special sale. It will pay anyone in need of clothing to attend this sale.

—Daniel A. Dugan, City Clerk of Orange, a well-known newspaper man, who has been aboard the Badger during the war, will resume the duties of his office today. During his absence his work has been performed by City Counsel Thomas A. Davis.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness, caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular; free.

THE SUNDAY LESSON.

INTERNATIONAL SERIES WITH COMMENTARY BY DR. STEARNS.

Golden Text:—Precious in the sight of the Lord is the death of his saints. Psalm cxvi: 15. Sept. 4, 1898.

14. "Now Elisha was fallen sick of his sickness whereof he died. And Joash, the king of Israel, came down unto him and wept over his face and said, O my father, my father, the chariot of Israel and the horsemen thereof." This chapter records the death of five people and the resurrection of one. Why should not Elisha be translated and escape death as well as Elijah? God doeth according to his will, and none can stay his hand or say unto him, "What doest thou?" (Dan. iv, 35). The king of Israel uses the same words to him that he had used to Elijah. Prophets and kings may die, but God and not they is the chariot of Israel. When Uzziah died, the prophet Isaiah looked up and saw a king who never dies (Isa. vi, 1), and this is the only way of peace.

15. "And Elisha said unto him, Take bow and arrows. And he took unto him bow and arrows." The king was wise to obey the man of God without questioning. The one thing that brings salvation to the sinner is obedience. God commands us to repent and believe (Acts xvii, 30, 31; I John iii, 23). This anyone who is willing can do, for the reception of the Lord Jesus Christ implies repentance or a change on our part and faith in him. Truly receiving him, the soul is saved (John i, 12).

16. "And he said to the king of Israel, Put thine hand upon the bow. And he put his hand upon it, and Elisha put his hands upon the king's hands." Elisha's hands upon his meant the hand of God, for Elisha was a man of God representing God before the people. The great joy of our Lord was that the Father sent him and that he was on earth for God to glorify him, and that God was with him, speaking and working through him. He says to us, "As the Father sent me, so send I you," and "I, the Lord, thy God, will hold thy right hand, saying, Fear not, I will help thee" (John xx, 21; Isa. xli, 13).

17. "And he said, Open the window eastward, and he opened it. Then Elisha said, Shoot. And he shot. And he said, the arrow of the Lord's deliverance." God was directing the prophet to encourage the king to have confidence in him; for none can deliver like him and none can deliver but him. In verse 5 we read that "The Lord gave Israel a saviour." In Isa. xlv, 21, 22, it is written, "There is no God else beside me, a just God and a Savior, there is none beside me; look unto me and be ye saved, all the ends of the earth, for I am God and there is none else."

18. "And he said, Take the arrows, and he took them. And he said unto the king of Israel, Smite upon the ground. And he smote thrice and stayed." Five times he was told just what to do without any possibility of his doing otherwise if perfectly obedient, but this sixth time there is a possibility of much or little, as he will, for he is not told how oft to smite.

19. "And the man of God was wroth with him and said, Thou shouldst have smitten five or six times, then hadst thou smitten Syria till thou hadst consumed it." The exceeding abundantly of the Lord is always within our reach but we limit him by our lack of faith and lack of zeal for him. He is saying unto us, "If ye shall ask anything in my name, I will do it," and "Call unto me, and I will answer thee and shew thee great and mighty things which thou knowest not" (John xiv, 13; Jer. xxxiii, 3).

20. "And Elisha died and they buried him. And the bands of the Moabites invaded the land at the coming in of the year." Elisha died—that is, his work being done, he found himself "absent from the body and present with the Lord." Some of the angels who watched over him while in the body received him as he left the body and bore him or escorted him home to his God and Saviour, to Abraham, Isaac and Jacob, to Moses and Joshua and David and to Elijah, who had called him to his public service.

21. "And they cast the man into the sepulcher of Elisha and when the man was let down and touched the bones of Elisha he revived and stood up on his feet." It looks as if some Israelites were burying a man, and, seeing a band of these invading Moabites, they, being near Elisha's sepulchre, put the dead body therein with the result described, suggesting the resurrection of all who truly touch him of whom Elisha was a type, God my Saviour. If it was the Moabites who were burying the man, then there is a suggestion of life to the Gentiles through the God of Israel. I think there are but three resurrection stories in the Old Testament—the widow's son, the Shunamite's son and this one—and all associated with Elijah and Elisha.

22. "But Hazael, king of Syria, oppressed Israel all the days of Jehoahaz." In verse 3 we read that it was because of sin he delivered Israel into the hands of the Syrians. The book of Judges is a record of repeated oppressions of Israel by their enemies when they sinned against God and of God's deliverances when they called upon him.

23. "And the Lord was gracious unto them and had compassion on them and had respect unto them, because of his covenant with Abraham, Isaac and Jacob, and would not destroy them, neither cast he them from his presence as yet." Not for their sakes, but for his own name's sake and because he had seen fit to enter into covenant with them, an unconditional covenant with the parties just mentioned. This covenant still stands, and because of it and because of his faithfulness Israel shall be placed in the promised land with all his heart and soul, after much tribulation a deep conviction of sin shall be given them, they shall look upon Christ as he shall come in glory for their deliverance and shall receive him and become a righteous nation forever (Mic. vii; 18-20; Jer. xxxii, 41; Zech. xii, 10; xiii, 9; Isa. xxv, 9; lx 21).

24, 25. "Three times did Joash beat him and recovered the cities of Israel." Just as Elisha had said in verse 19. Many things—perhaps all in the way of victory and service—are unto us according to our faith. Little faith has a poor time and is often overcome, whereas great faith has great peace and joy and victory and brings great glory to God.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Sept. 4. Comment by Rev. S. H. Doyle.

TOPIC.—"Repentance and conversion—what are they?"—Ezek. xviii; 30-32; Acts xxvi, 19, 20.

Repentance and conversion are essentially similar in meaning. They refer to the turning, to the changing, of a man, under conviction and sorrow for sin, from sin to the service of God. Repentance may suggest more vividly the inward feelings and emotions under such an experience, and conversion the change in the outward life, but for all practical purposes both words include the same inward emotions and outward actions.

In the reference in Ezekiel the Lord Himself tells us what repentance is. In that from the Acts Paul describes it, and a comparison of the passages will show that Paul's theology is correct.

Repentance and conversion as described in these passages include conviction of sin, sorrow for sin, turning from sin, turning to God.

1. Repentance necessarily includes conviction of sin. No one will turn from sin except he is first convinced that he is a sinner. "When the wicked man turneth away from his wickedness * * * he shall save his soul. Because he considereth and turneth away from all his transgressions he shall surely live; he shall not die." Consideration leads to conviction, and conviction to conversion. It was not until David, under Nathan's awful declaration, "Thou art the man," was thus convicted of his sinfulness that he cried out to God in sorrow and repentance for forgiveness.

2. Repentance includes sorrow and grief for sin. Sorrow is not repentance, but it always accompanies it. We may be sorry for sin and not repent of it, but we will not repent of it without being sorry for it.

3. Repentance is turning from sin to God. These are the two essential elements of repentance. The sinner is convicted of his sinfulness, he is sorry for it, and then he turns from it to God. With grief and hatred for his sin, the sinner turns from it unto God and endeavors afterward new obedience. This is repentance as Scripturally defined. To Israel the Lord said: "Repent and turn yourselves from all your transgressions, so iniquity will not be your ruin. Cast away from you all your transgressions, whereby ye have transgressed and make you a new heart and a new spirit." A new heart and a new spirit would result in a new life. Paul said to the gentiles, "Repent and turn to God and do works meet for repentance." Repentance is not only ceasing to do evil, but also learning to do well. It is both turning from sin and turning to God. Have we repented? Have we felt sorry for sin, turned from sin, and are we serving God? Repentance is a personal matter between us and God. It brings God's pardon and forgiveness for sin. The absence of it causes the penalty for sin to fall upon our own heads. Let us therefore repent, turn to God and do works meet for repentance.

Bible Readings.—Job xi, 13, 14; Isa. i, 16-20; lv, 6-9; Jer. iv, 1; xxxi, 18-20; Ezek. xiv, 6; Hos. vi, 1-3; xiv, 1-9; Zech. i, 3, 4; Mal. iii, 1-12; Math. iii, 1, 2; Mark i, 14, 15; Luke iii, 1-3; Acts ii, 38; Rev. ii, 5, 16.

Try to Find Out.

All ought to try to find out what they were made for. Every one has a place and purpose in God's plan. That purpose should be understood and fulfilled as far as possible. Every saved man is saved for some specific service besides his own happiness. God made no man simply for his own happiness, and He saves no man simply that he alone may be happy in heaven. He had a nobler end in both cases than the gratification of a selfish spirit. There is some service for every one in God's vineyard. Idlers are not wanted. Let us find what God wants us to do and do it. Let us do it in earnest and do it well. Then God will say, "Well done, good and faithful servant." Oh, how glad that will make us.—Christian Instructor.

Upon the Enemy.

Let us train our guns upon the enemy, mass our forces against all forms of sin. Let us exercise wholesome discipline, ridding ourselves of all persons who bring the church into disrepute. Let judgment begin at the house of God. Let us first be pure, then peaceable. The sooner we get back to our former methods the better, to the Holy Ghost revivals that sweep every obstruction out of the way, that cause backsliders to confess their sins and half hearted, compromising Christians to come out boldly on the Lord's side. —Philadelphia Methodist.

With Those Who Suffer.

We all need personal contact with those who suffer. "The most certain softener of a man's moral skin," writes Dr. Arnold of Rugby, "and sweetener of his blood are, I am sure, domestic intercourse in a happy marriage and intercourse with the poor." Gladstone never appeared nobler than when he read the Bible to an old street sweeper in an attic.—Our Church Paper.

The Spirit Robes Us.

When we have conquered an enmity, the Spirit robes us in humility. We must not think we are forgiving because our anger is getting tired.—Lutheran.

The Battlefield.

Once this soft turf, this rivulet's sands,
Were trampled by a hurrying crowd,
And fierce hearts and armed hands
Encounter'd in the battle cloud.

* * * * * * *

Truth crushed to earth shall rise again—
The eternal years of God are hers—
But error, wounded, writhes in pain
And dies among his worshipers.

Yea, though thou lie upon the dust
When they who helped thee flee in fear,
Die full of hope and manly trust,
Like those who fell in battle here.

Another hand thy sword shall wield,
Another hand the standard wave;
Full from the trumpet's mouth is peal'd
The blast of triumph o'er thy grave.

—William Cullen Bryant.

EPWORTH LEAGUE.

Lesson For the Week Beginning Sept. 4. Comment by Rev. W. J. Yates, A. M. Topic, The Mustard Seed.

SCRIPTURE READING.—Math. xiii, 31, 32, "The kingdom of heaven is like to a grain of mustard seed. * * * the least of all seeds, but when it is grown it is the greatest among herbs."

This is the kingdom of God on earth, the church of Jesus Christ. At Pentecost it numbered 120 persons, a small beginning for a religious society making such claims and with aims of world wide expansion. It was both small and weak. Many times since it has seemed as if it was nigh extinction, yet it lives and grows both in numbers, influence and meaning. It is not a cystal but a living growth. Ages old, it has not yet reached its largest and highest development.

Very notable has it been in the expansion of the inner life thought. During the earlier Christian centuries the nature of the person of Jesus Christ and His relation to God were prominent in the teaching of the church. All shades of opinion were developed until in course of time the truth was clearly established. Afterward came the question of the mediatorial work of Jesus, then the nature of the church and rights of the individual, afterward the thought of the people centered more on the needs and capacities of human nature and the practical, humanitarian side of religion. There has been a steady progress in the doctrines emphasized and also a continual advance in the better understanding of each great truth held as doctrine.

Most impressive have been the numerical gains of the Christian church in the 2,000 years or less of its history. By the year 100 A. D. the little band of 120 had increased to 500,000. In 500 A. D. it was 15,000,000; 1000 A. D., 50,000,000; 1500 A. D., that number had doubled. In the next 300 years it had doubled again, so that 1800 A. D. counted 200,000,000 communicants in the church.

Most wonderful of all is the progress of the last century. This is the age of evangelizing agencies beyond all others the world has ever seen. In 90 years past the membership of the church has more than doubled and its aggressive power and efficiency greatly increased. It stands today as the most influential religion on earth and, though not so large in numbers as Buddhism and heathenism, it possesses aggressive life far in advance of either. Burma and India have now more Christians than all the world in A. D. 70.

In 1700 A. D. there were 155,000,000 people under Christian government. Now there are 685,000,000 under the rulership of Christian nations. The increase since the rise of Methodism has been one-third the population of the earth. The seed has become a great tree.

Remember the Needy.

There is an increasing spirit of helpfulness on the part of common people toward those around them. The rich have always been expected to help the poor because they have had large ability. The poor always have helped their own because of the spirit of sympathy with those in like condition. Many people with neither poverty nor richness have been neglectful of their duty and privilege because they did not have the responsibility and opportunity afforded by wealth and did not have the keen sympathy pressed home upon them by pinching want. The mercy and help department of the League and similar committees in other societies are doing much to show people what to do and are aiding them to overcome diffidence and natural shrinking and enter heartily on the work of helping others. Many people feel great backwardness in visiting the sick. They don't know what to say or do. They don't know how they will be received. Carry a little jelly, some fruit, a few flowers, some pretty ornament or book or cheering picture and make this the occasion for a few words of sympathy and hopefulness, and the task is easy. Try it once, and you will learn in doing what can never be known in merely thinking about it.

Which Is the Best?

"Ours is the toniest set in town," "We are very exclusive, only the most select are admitted," "We include the oldest and wealthiest families," "The best dressed and most cultured of the place belong to us," "The jolliest crowd you ever saw," "Literary and musical talent only, delightful times," "Will you join us?" Which course shall a young person choose among so many attractive ones? Weigh and gauge all and decide what is worthy and will be of highest value.

Is goodness and character of real worth to you? What is your supreme aim—to shine, to have a good time, to get knowledge, wealth, position, or to be noble in heart and life? The best society is that which includes the purest, noblest, most worthy people. Wealth, fame, wit, family, taste, talent, may all be possessed by the morally vile. Companionship with them will not give you any advantage, but will be apt to communicate to you their viciousness. The best is the virtuous, the pure and good.

Our Enemies.

Our enemies are rich in resources and can easily turn every movement in our midst to our disadvantage. They are ever eager and on the lookout to seize an opportunity that might prove fatal to us. They are in turn religious and irreligious, humane and brutal, but they approve only of that which serves their schemes, their infamous purposes.—Jewish Voice.

The Shaw memorial on Boston common is one of the finest works of art in the world. It shows Colonel Shaw leading his black troops to victory. It is worth a journey across the continent to see.

In the days of the civil war our soldiers always found the black man a friend they could trust.

Lokal-Nachrichten aus der alten Heimath.

Thüringische Staaten.

Kaltennordheim. Ein verheerender Brand hat das Dörfchen Schafhausen fast gänzlich zerstört; 31 Anwesen des etwa 200 Einwohner zählenden Dörfchens liegen in Asche.

Pößneck. Die hiesige Brieftaubengesellschaft hat neun Tauben die Strecke Pößneck-Stockholm, Schweden, fliegen lassen. Es war ein Landweg von 300 Kilometer, ein Seeweg von 140 Kilometer und wieder ein Landweg von 500 Kilometer zurückzulegen. Die erste Taube kehrte nach fünf Tagen zurück. Die Vortouren zu dem Fluge erforderten zwei Jahre.

Rauneburg. Zur Vornahme einer Operation begab sich ein hiesiger Arbeiter, der beim Essen eine Nadel verschluckt hatte und die ihm seitdem ziemliche Schmerzen verursachte, in die Klinik nach Jena. Dort bekam er eine große Portion Kartoffelmus und darauf ein Abführmittel, worauf sich die Nadel auf dem gewöhnlichen Wege entfernte. Der Patient konnte als geheilt hierher zurückkehren.

Freie Städte.

Hamburg. Der Verein für Handlungskommis von 1858 in Hamburg, der zur Zeit 286 Bezirksgeschäftsstellen an deutschen, ausländischen und überseeischen Plätzen besitzt, hatte im ersten Halbjahr 1898 einen Zuwachs von 5219 neuen Mitgliedern und Lehrlingen aufzuweisen, so daß sich jetzt die Gesammtzahl der Vereinsangehörigen auf über 55,000 beläuft. Die kostenfreie Stellenvermittlung weist in dem abgelaufenen Halbjahre die Besetzung von 2965 kaufmännischen Posten auf, am 14. Juni wurde die 68,000. Stelle durch den Verein vermittelt. An Kranken- und Begräbnißgeld, Arzthonorar, Kosten für Arzneien und sonstige Heilmittel wurden von der Kranken- und Begräbnißkasse des Vereins allein von Hamburg aus in der ersten Hälfte dieses Jahres 72,200 Mark verausgabt.

Bremen. Hier und in Bremerhaven ist ein Strike ausgebrochen; Heizer und Matrosen haben die Arbeit eingestellt.

Lübeck. Der ausständische Bauarbeiter Holst wurde zu sechs Wochen Gefängniß verurtheilt, weil er einen anderen Arbeiter zur Betheiligung am Ausstand aufgefordert hatte. — Nach längerem qualvollen Leiden ist hier der erst am 1. August nach 53jähriger Dienstzeit in den wohlverdienten Ruhestand getretene Landgerichtsdirektor Claussen gestorben. Mit ihm ist ein Mann dahingegangen, dessen Andenken in Lübeck stets in Ehren gehalten wird. Als Jurist hoch befähigt, war der Verstorbene auch ein warmer Förderer aller wissenschaftlichen und künstlerischen Bestrebungen.

Oldenburg.

Delmenhorst. Die beiden etwa sieben Jahre alten Knaben Ahrens und Scheffler waren ihren Eltern entlaufen. Trotz des Suchens konnte man ihrer nicht habhaft werden, bis sie endlich dabei abgefaßt wurden, als sie eine auf der Weide sich befindliche Kuh des Pächters Haferkamp zu Elmeloh ausmelken wollten. Per Polizei wurden die Flüchtigen ihren Eltern wieder zugeführt.

Mecklenburg.

Schwerin. Während der letzten Jahre ist eine Vermehrung der Kreuzottern in Mecklenburg bemerkt worden. Auch in diesem Sommer treten sie trotz der kalten Witterung häufig auf. Im Hornwalde bei Eldena wurden vor Kurzem zwei Kinder von Kreuzottern gebissen; das eine starb an den Folgen des Bisses. Die elfjährige Tochter des Besitzers Wille von Wustrow wurde beim Heidelbeerpflücken von einer Kreuzotter gebissen und erlag ebenfalls der Verwundung.

Braunschweig. Lippe.

Braunschweig. Die Verkäuferin Anna Fuhr sprang von einem Straßenbahnwagen in der der Fahrtrichtung entgegengesetzten Richtung ab und schlug hierbei so heftig mit dem Kopfe auf das Straßenpflaster, daß sie eine Gehirnerschütterung erlitt, welche den Tod des jungen Mädchens im Gefolge hatte.

Detmold. Die Leiche des Zieglers Friedrich wurde auf Waldheide wieder ausgegraben und zur Untersuchung nach Detmold geschafft. Der Mann wurde unlängst Morgens todt im Bette aufgefunden, und man vermuthet, daß er keines natürlichen Todes gestorben ist. Die Frau des Verstorbenen ist verhaftet worden.

Großherzogthum Hessen.

Darmstadt. Unter dem Vorsitz des Oberbürgermeisters Morneweg wurde in einer zahlreich besuchten Versammlung ein Ausschuß für Errichtung eines Bismarck-Denkmals in Darmstadt gewählt. Zur Beschaffung der Mittel wird straßenweise eine Haussammlung durch Damen und Herren vorgenommen.

Erbach. Ein hiesiger Metzger fand beim Ausschlachten eines Ochsen in dessen Gallenhaube eine goldene Brille mit einem Glas, die noch in gutem Zustande herausbefördert wurde. Der Ochse war in einem bayerischen Orte gekauft worden.

Mainz. Dahier hat ein Artillerie-Hauptmann aus bislang unbekannten Gründen seinem Leben ein gewaltsames Ende gemacht.

Wöllstein. Die am Bahnbau Wöllstein-Fürfeld beschäftigten italienischen Arbeiter haben wegen Verweigerung einer Lohnerhöhung die Arbeit eingestellt. Ersatz der Arbeitskräfte ist bei der jetzigen Erntezeit sehr schwierig.

Worms. Zum Bürgermeister wählten die Stadtverordneten den zweiten Bürgermeister von Darmstadt, Landtagsabgeordneten Köhler.

Public Sale of Real Estate.
City of Plainfield.

Notice is hereby given that by virtue of a warrant issued by George W. DeMeza, Esq., City Judge of the City of Plainfield, in the County of Union, to make the unpaid taxes assessed on lands, tenements, hereditaments and real estate in said City of Plainfield in the year eighteen hundred and ninety-six, the subscriber, the officer nominated and appointed by the Common Council for that purpose, will on the fourteenth day of September, 1898, at the hour of two o'clock in the afternoon, at the Collector's Office, No. 109 Park Avenue, in the City of Plainfield, sell the land, tenements, hereditaments and real estate, hereunder described, at public vendue, for the shortest time for which any person or persons will agree to take the same and pay such taxes, together with the interests thereon, and costs, fees, charges, and expenses.

IRON HEATED IN COLD WATER.

Novel Operation in Which the Old Smithy Theories Are Reversed.

It is now proposed to do away with the broad hearth, the coals, the blaze, and the bellows, but to retain the tank and its contents. Then simply by immersing the iron therein, it will be quickly brought to the desired temperature.

Over in Newark the other day, when tests of the device were being made, it was found that a rail spike fully an inch in diameter acquired a cherry tint fifty seconds after it was dipped into a cold bath, while a half-inch screw bolt came to a white heat in eighteen seconds.

The general arrangement of this wonderful apparatus is as follows: The tank is about as big as a kitchen sink, and stands on four legs. It is a portable affair. Two carefully insulated wires proceeding either from a dynamo on the premises or from some general power and lighting circuit outside, are led into the room. The "positive" wire is connected with the metal lining of the reservoir. The other wire is secured by welding or solder, or otherwise, to a pair of tongs, whose handles are covered with insulating material. The negative wire is long enough and flexible enough to allow considerable movement by the workman. The latter merely grasps with these insulating tons the spike, bolt, horseshoe, or other object which is to be heated and dips it into the liquid. That's all. When it is hot enough he turns to his anvil, and hammers the thing, or drops it where another workman can pick it up, and then uses his magic afresh to handle something else. —New York Tribune.

Experience of a Devout Young Woman.

A young woman who lives over on Capitol Hill, and has a name which exactly expresses her nature, spent a part of last Summer in Atlantic City. There is in Atlantic City an Episcopalian Church, whose doors are never closed. The pastor is exceedingly devout and ultra High Church, and he reads prayers every day. The Washington young woman went into the church one morning. The rector had just begun to read the service, and she was the only listener. The rector finished teh prayers, and it then became evident that he meant to do his full duty by his congregation. He was going to preach a sermon to the Washington young woman.

"Dearly beloved," he began, gazing earnestly into space, "I purpose speaking to you this morning from the text"—and to the dismay of his solitary listener he contin

Have You Seen

The Fancy Timothy Hay that we are now receiving? It is all last year's crop and far superior to most that we have seen.

BALED BY OURSELVES—which means large bales, free from dirt

TENNIS.

Interest in lawn tennis among the young people of Plainfield has been rather lax for the past year. There is a renewal at this time, however, on account of the annual contest for the championship cup of the Hillside Tennis and Golf Club, which takes place Saturday afternoon. The courts are being put in the best of condition for the coming match. The silver loving cup, the trophy which is contested for, is now held by Carl F. Walz. The principal rivals are George and Henry Rider although there may be some "dark horse" who will make his appearance at the tournament. It is open only to members of the club.

CYCLING COMMENT.

Entries for the five-mile handicap bicycle race to be held over the Mountain avenue course tomorrow, may be made at George Schick's tousorial parlors in Scotch Plains. An entrance fee of 50c. will be charged all who enter. Roger Haskard is managing the race. W. R. Buckley will act as handicapper and E. L. Hand as starter.

Babies Thrive On It.

Gail Borden Eagle Brand Condensed Milk.

LITTLE BOOK "INFANT HEALTH" SENT FREE, Should be in Every House.

N.Y. CONDENSED MILK CO. NEW YORK.

ON THE GRIDIRON.

The boys of the Westfield High School have organized a football team and are ready to meet teams from other schools.

PARTICULAR MENTION.

Clarence L. Bloxham, one of Druggist Armstrong's obliging clerks, goes on a well-earned two weeks' vacation tomorrow morning, a portion of which he will spend at the Thousand Islands.

EARLY INTELLIGENCE.

—Press want ads bring results.

—The subject of Rev. T. F. Chambers' address at the Y. M. C. A. Sunday afternoon, will be "The Dead Hand."

—About 1,000 yards all silk satin ribbon, all shades, No. 22, 2 3-4 inch wide, at 11c. yard, tomorrow only, at VanEmburgh's.

THE PEACE JUBILEE.

A Great Time to be Enjoyed at the Crescent Oval Tomorrow.

The "Peace Jubilee" of the Dewey Bicycle Club is to be held tomorrow at the Crescent Oval and a great time it will be. The athletic sports will begin in the morning and continue through the afternoon. The great events of the afternoon will be the chasing of the greased pig, the bicycle race, a two-mile and a five-mile, both scratch events, and a baseball game between the single and married men of the club.

Tomorrow noon there will be a parade in which the pig and Vanderveer and VanBlake's colored band will be the principal features. The parade will start at the corner of North and Watchung avenues and traverse Watchung avenue, Front street, Somerset street, Craig place, Grove street, Front street and Park avenue to the Oval.

In the evening there will be a concert by the band and other talent, together with fireworks.

Chicken Houses Should Go.

To the Editor of The Daily Press:—The attention of the Board of Health in city and borough is called to the various chicken houses which are so plentiful. Several cases of typhoid fever have been traced to this cause. Pig-pens have long since been abolished and why should not ordinances be passed prohibiting the raising of chickens? If parties are permitted to raise them no chicken houses or coops should be permitted near any residence. The attention of both Boards of Health should be given to many nuisances which are threatening the health of both towns. M.

Personal Friend of the Dutch Minister.

The Dutch of New York and vicinity were in evidence at the Everitt House, New York, Wednesday evening, when Baron de Weckelin, Dutch Minister to the United States, gave a big reception in honor of the birthday and ascent to the throne of the young Queen of Holland. Among the guests was Councilman John VanHerwerden, of South avenue, who is a personal friend of the leading representative of Holland in this country.

Which One Knows?

The father of Hattie Willis, whose engagement was announced a few days ago, called at The Press office this morning and said that his daughter was not going to be married. Strange as it may seem, however, it was the daughter herself who told a representative of The Press that she was going to be married.

Says He Can Clear Himself.

Richard Day, the hackman, says that the charge of disorderly conduct made against him in city court is simply the mean way in which a rival hackman is striving to vent his spite on him. He says that he can easily clear himself of the charge.

SCRATCHED BY A MAUSER.

A Member of the Famous Seventy-First Visiting in This City.

Harry McGee, a private in Co. L, Seventy-first Regiment, New York Volunteers, is visiting at the home of Mrs. Bock, 207 Somerset street. McGee took part in the battle of San Juan Hill and received a slight wound from a Mauser bullet. It was a mere scratch, and no harm has resulted from it.

He and about fifteen other soldiers were sent north to Camp Wikoff on the steamer Grand Duchess. After reaching camp McGee had a slight attack of fever from which he has fully recovered. He says that the physicians refused to tell him the nature of his complaint, except that it was a fever. He is resting for awhile and expects to spend his sixty days' furlough in quiet.

Before enlisting McGee was a clerk in a shoe store in New York.

WARM, ISN'T IT?

Three Days of It Now and the Promise of More.

Patsy Christmas says that it is too hot to work and Patsy ought to know, even if his name does have rather chilly associations. His men have been working out West Front street near Plainfield avenue, putting in new ties under the rails of the Plainfield Street Railway Company. The work isn't easy and the men were nearly exhausted before the morning had hardly started. Then their employer ordered them to stop work until there is some break in the present hot wave.

The other day someone remarked that the warm weather was over for the summer. It is probably a lucky thing that his identity is not known. The mercury has been known to be higher than it is today but the humidity is right up to the top notch and everybody is suffering in consequence. It's the third day of this warm weather and there is every prospect that it will continue for one or two days more.

A Bicycle Party.

An informal bicycle party was given last evening by Mrs. J. C. Peck, of Myrtle avenue, in honor of her guest, Miss Foxcroft, of Cambridge, Mass. Among those who were present were the Misses Mary Thompson, Persis Snodgrass, Gertrude Snodgrass, Elsie Horne, Elsie Martin and Alice Barlow; and Everett J. Peck. Arthur Peck, W. K. Dwight, Raymond A. McGee, Charles Dupee and Rhey T. Snodgrass. After a spin out Park avenue to Metuchen they returned to the home of Mr. Peck, where light refreshments were served.

The Excursion of the Season.

Boynton Beach will be the centre for a great gathering Monday, when the Grocers' Association will take its annual excursion to that place. The affair is always well attended and this year promises to be no exception. The fare is only 50 cents, and the guests are promised a mighty good time all day. The train starts from the North Avenue station at 8 o'clock. Ample arrangements will be made for all.

Lost Two Fingers.

Alvah Carey, son of T. J. Carey, of the borough, met with an accident in a box factory in New York, yesterday, which has deprived him of two fingers of his left hand. Carey is employed as stock clerk in the factory, and in a fit of absent mindedness placed his hand too near the saw, with the above result. He was removed to a hospital where his hand was dressed.

New By-Laws Proposed.

At a meeting of the Saenger Turn Verein Society held last night, the joint-committee from the Turn Verein and the Shooting Club reported upon the consolidation of the two branches. A system of by-laws was introduced and accepted by the Turn Verein, and if they are adopted by the other branch the two societies will be united.

Seeks to Recover Money Loaned.

Attorney J. P. D. Kirch has brought suit in Justice Mattison's court for William H. Ruckman against Annie C. Nelson, a stepdaughter. Ruckman indorsed a note for his relative, and seeks to recover the amount of the note.

Dr. Main Unable to Preach.

Rev. G. W. Gardner, of Grace M. E. church, will occupy the pulpit of the Seventh-Day Baptist church tomorrow morning. Owing to the illness of the pastor, Dr. Main, the communion service will be deferred one week.

Merchant's Association Excursion.

New York, Sept. 1st—4th. Reduced rates—15 days limit. Consult Lehigh Valley ticket agents for particulars.

TOO VALUABLE TO EXECUTE.

It Is Decreed, However, That He Shall Die When His Work Is Finished.

The city of San Luis Potosi is building a hall that will be the eighth wonder of the world. It has cost millions and will cost millions more. Seven years ago a dozen skilled stonemasons from Pennsylvania were imported to do the ornamental carving of its front. One Fourth of July a member of the party got drunk and killed a Mexican in a barroom brawl. His companions, in the language of General Cook, "rose like a flock of quail and lit running." He was tried and condemned to be shot. Then arose the certainty that with him in the grave there was no one to do the fancy carving on the City Hall. It was decided to keep him at work and shoot him when he had finished. Every day, in summer's shine and winter's snow, this workman hangs like a fly against the great white wall and pecks away at gargoyles and griffin's heads. A file of soldiers stands in the street looking up at him. His life ends with his job, and they say that he is the most deliberate workman ever in the Mexican Republic or any other republic. At the present rate of progress, according to the best obtainable calculations, the front of the City Hall will be sufficiently scrolled and carved about the middle of 1950.—Chicago Times-Herald.

PATENT LIFE SAVING BELT.

Can Be Worn Under the Clothing Without Attracting Notice.

Among recent English patents is a belt for saving life, which consists of a band of canvas, with cork layers at intervals. Attached to the belt are four floats or bladders of rubber, with a protective covering. This is strapped around the body under the arms, the bladders being inflated with air by the wearer by blowing through a tube which runs around the belt, and is fitted with a self-closing valve. The filling takes less than half a minute. Equipped with one of these belts, a man can walk into deep water with his clothes and shoes on, and be supported with ease in a perpendicular position without making any effort. He can, in fact, smoke a cigar while in the water. This life preserver does not prevent its wearer from swimming, but if he is exhausted it enables him to float in an erect position, it being impossible for his head to fall under the water. A passenger at sea who is nervous can wear a belt under his clothes without its being noticed by his fellow-travelers.

APPLE CORES FOR CHAMPAGNE.

The Paring and Cores Dried and Shipped to France.

The practice of the economies in the fruit-raising sections of the west has developed a new article of export. Until recently the orchard owners and the evaporator managers did not think of utilizing the cores and the parings of apples. They occasionally sold them to the jelly-makers or fed them to the hogs, but more generally allowed them to accumulate as refuse in great heaps, which slowly fermented and decayed. This year, in many places, the parings and the cores are being saved. They are spread out in the hot sun and dried, after which they are packed in large sacks and held for buyers, who gather them up and send away in car lots. The destination of the dried parings and cores in these large quantities is France. It is no secret that the refuse of the orchards of the Missouri valley and the Ozark country is now largely employed in the manufacture of champagne by the thrifty wine-makers of the vineclad slopes of France.—St. Louis Globe Democrat.

SCARED THREE MONTHS LATER.

A Curious Incident of Where the Fright was Postponed.

Cortland Cramp, son of the famous shipbuilder, was at sea some years ago. During a frightful storm he was swept overboard. He kept his nerve. He was perfectly calm, and recalled that people who were washed overboard by one wave were sometimes washed back by another. Presently his hand touched a rope. He grasped it firmly and held on until the captain of the vessel, seeing the rope dragging in the water, pulled it in, and pulled Mr. Cramp on board with it. Mr. Cramp was none the worse for his experience, but one day, quite three months afterward, when he was on land, a realization of the danger he had been in came over him suddenly, and his knees fairly knocked together with fear. He was in a perfect panic from fright, and to this day, whenever he goes into the surf, the recollection of his dreadful experience always returns to him, and he never ventures into deep water.—Washington Post.

His Bluff.

When the young man called to ask for the old man's daughter, the latter naturally thought it was necessary to put up a good bluff, that being the usual method of procedure. Consequently, he looked solemn, coughed once or twice as a sort of preliminary, communed with himself a minute or two, coughed again, and asked:

"Can you support her in the style to which she has been accustomed?"

"If I couldn't" returned the young man promptly, "I ought to be ashamed of myself."

The old man's bluff was called.—Chicago Post.

In some parts of Devonshire the people live to be very old. An old man of ninety, living quite a distance from the nearest town, requiring some family groceries, sent his son, a man of seventy-odd years of age. When the son failed to show up with the provisions in time, his grandfather, a centenarian of 108, said peevishly: "That's what comes from sending a kid."—Tit-Bits.

Ladies desiring *KNIFE-PLEATING or PINKING* done, will please leave orders with Mrs. Force, 201 Watchung avenue, and it will receive prompt attention. 10 29tf

Mid-Summer Clearance.

The enemy of the shoe trade is the carrying over of stock from year to year until it gets clear off style. It deceives customers. It disgusts clerks. It turns profit into loss. Hence goods of summer fashion are to go before August 31st. We'd rather have the cash than to carry over the goods, besides we want the room for fall stock.

Every man, woman and child can be interested in this sale, as shoes for everybody is our business.

BOROUGH SOLONS AND COLLECTOR'S ACCOUNTS

No Money Has Been Returned to Mr. Spencer as Reported.

MAYOR'S PATIENCE TRIED.

EX-COLLECTOR WILL HAVE TO RETURN MORE THAN HE HAS.

Councilman MacLaughlin Made the Statement in Behalf of the Taxation Committee and Was Seconded by Mayor Wilson Whose Remarks Were Quiet Testy—The Street Appropriation.

Although the regular meeting of the Borough Council was a short one last night, it was made the occasion, by Councilman MacLaughlin, of a statement in regard to ex-Tax Collector Spencer that the members hope will stifle a persistent rumor which has gone abroad concerning monies paid to Mr. Spencer by the Council, and show the true attitude of the Council towards the ex-collector.

Mr. MacLaughlin, in his report for the taxation committee, said that the report which had no doubt reached the ears of all present that the Council had returned certain sums of money to Mr. Spencer was absolutely without foundation. These remarks were seconded by Mayor Wilson, who said that the committee on the other hand had found frequent sums charged against Mr. Spencer, which sums would be demanded from him at an early date.

"We want every citizen and taxpayer in the borough," continued the Mayor, "to understand the situation of the Council in regard to Mr. Spencer. Patience is sometimes carried so far that it ceases to be a virtue."

These remarks of both Mayor and Councilman had evidently been prepared beforehand, and were but the expressions of their true feeling upon the matter.

The meeting came to order at 8 o'clock, all being present except Councilman Carey. Mayor Wilson presided. On the desk reposed a bouquet of nastursions, mixed with geranium leaves and a yellow rose, the gift of some unknown friend.

The clerk's report stated that $2,664.85 had been paid to county and State. A deficit of $517.11 left a balance of $2,147.74. The following sums have been received for the past month: From William Emmett, $6; three dogs redeemed, $3; one license and tag, $1.10; subscription on Rockview avenue, $500; Eli Long, fines, $34; total, $544.10. The tax collector reported that the total receipts amounted to $3,645.18; the disbursements, $2,732.59; leaving a balance of $912 59.

The Water Company reported that they had placed five new hydrants in the borough, and Peter Hansen presented a bill for services rendered as marshal during the term of Chief VanHorn. This claim was referred to the committee.

Mr. Woolston, chairman of the committee on streets, stated that $926.36 had been expended on the streets during August, $4 of which had been allowed Dr. H. K. Carroll and Hiram Woodruff, of Westervelt avenue, for filling, on account of the work done on that street.

This report of Mr. Woolston's brought about quite a discussion between him and Councilman Valiant. Mr. Valiant thought that the street committee was expending too much money on the streets, and before the fiscal year was passed would be behind their appropriation. Mr. Woolston admitted that $4,000 appropriated at a previous meeting was about used up, but said that he understood at the time the appropriation was made that there were some back taxes on which the committee could fall back upon in case they fell short.

The discussion was interrupted by the Mayor, who said that Greenbrook road, which was one of the streets that had been macadamized, needed the attention given it very much; that it had been in bad condition for the past twenty-seven years, and that he considered the job of macadamizing a good one, and reasonable, too.

Owing to the absence of the borough engineer the matter of accepting Somerset place as a borough street was laid over. Mr. MacLaughlin reported that the assessor's books had been approved, and that they were going over the collector's books in which they had found many matters that needed attention.

Mr. Valiant moved that the borough be empowered to negotiate a loan of $2,000, which was carried. The meeting then adjourned.

—Miss Rocap's selected school will open Thursday September 15th. She gives personal attention to backward pupils.

HOME OF SEVENTH-DAYS

METROPOLITAN PAPER TELLS OF THE SATURDAY OBSERVERS.

Plainfield and Vicinity is the Stronghold of the People Who Believe the Seventh Day is the Proper Sabbath

Of all the religious denominations in New Jersey the most distinct from all other Christian believers are probably the Seventh-Day Baptists, whose home and stronghold are in Plainfield and vicinity, says *The New York Herald*. Once Plainfield had few others in its population but these observers of Saturday instead of Sunday as the day of worship. One of the peculiar facts about this people is that although they keep Saturday for themselves and Sunday on account of the growth of the Sunday sentiment which came with the increase of population of other denominations, they are all well-to-do, many of them rich, forming some of the stanchest of Plainfield's population, and seem to make as much money in five days a week as others do in six.

The stranger driving through Plainfield and the suburbs and to the country between there and New Brunswick Sunday would be surprised to see business going on, particularly among the farmers, for in that direction nearly all of the whole population is made up of Saturday observers.

The sect had its beginning in Northern Jersey, at the little town of New Market, five miles from Plainfield, in a very peculiar way. Edmund Dunham, a descendant of one who came over in the Mayflower and progenitor of the Dunham family, whose members are the most numerous of any in Union or Middlesex county, was a Baptist preacher and regular Sunday observer in a little church at New Market in about the year 1700. In his neighborhood was a farmer named Bonham, for whom Bonhamtown was afterward named. One Sunday the preacher, on his way to church, saw Bonham working in the field, and stopped, in his surprise, to inquire the reason, and, if necessary, to do a little missionary work. The answer Bonham made was, "Prove to me that Sunday is the day ordained by the Lord to keep for worship and I will keep it."

This gave the dominie something to study, and he pondered over it. The more he hunted his Bible the more he pondered, and the result was his advocacy to his congregation of the seventh day doctrine as it is observed throughout all that section of the county today. The litttle church where the doctrine was taught still stands, and is one of the landmarks of the county. The Bible in which the Rev. Edmund Dunham failed to find sufficient warrant to continue worship on Sunday is owned today by the preacher's great-great-grandson, Randolph Dunham, of Plainfield. The little band of believers in the new doctrine worked like leaven in the loaf until the Seventh-Day Baptists were in the majority all through this vicinity, and are spread over Rhode Island, south Jersey, parts of New York, West Virginia, Wisconsin and elsewhere.

CLOSE OF SUMMER RESORT SEASON.

Gay Life Along the New Jersey Coast Practically Ends Today.

Asbury Park, N. J., Sept. 3.—The season on the north Jersey coast practically ends today and tomorrow. There is every prospect of a good sized crowd those days, but Monday the summerites will vanish and soon thereafter the hotel shutters will appear. But the shore has had a heavy season. Hardly a single resort from Atlantic Highlands to Point Pleasant has had a second-class season. August has been as heavy a month as ever was known at Asbury Park and Ocean Grove, and there is some indications that the season is gradually lengthening into the autumn. Asbury's hope is to become a fall and winter resort, too, and several of the prominent hotels are this year going to remain open the year round. Others have postponed the date of closing a week or two.

Changing Motive Power on Car Line.
(Special To The Daily Press.)

Elizabeth, Sept. 3.—The Elizabeth City and Street Railway Company, of which John Kean is president, will at once commence to tear up the tracks of what is known as the "Green line" of horsecars, and equip the road for trolley service. The company, which three years ago was the Elizabeth Street Railroad Company, secured a franchise from the city to change the motive power. The trolley line will extend from Front street, Elizabethport, to Broad and West Grand streets, a distance of two miles. As soon as the county has widened Westfield avenue, the line will be extended there, and on to Plainfield.

A GREASED PIG CHASER.

Capturing Slippery Porkers is a Regular Snap for This Man.

Edwin Bolden, of Westfield, has a reputation for catching greased pigs and climbing greased poles, and has come here today to sustain it. He expects to take part in the pig-chase and pole-climbing contest at the Crescent Oval this afternoon, and unless there are some better men about, Edwin will carry off the honors.

Edwin's scent is as keen as a hound's when it comes to tracking greased pigs. Hearing that such a race was to come off here today, Edwin buckled on his armor (an old suit of clothes) and came down on an early train. On his breast sparkles a medal which he proudly tells you was won in Westfield last year when he outdistanced all competitors and caught the slippery pig after the beast had gone many times around the inclosure.

Year before last Edwin went to Rahway and won in a contest there, climbing to the top of a greased pole and sliding down with a piece of money which was on the top. Edwin is bowlegged and walks on the sides of his feet. That doesn't seem to be an impediment in the way of his success at catching pigs, for, he says, the pig gets between his legs easily, only to be caught at the other side. We expect great things of Edwin today.

OPENING OF PUBLIC SCHOOLS.

Parents May Consult With Principal Travell Monday.

The Plainfield High School will begin its fall session Tuesday morning at 9 o'clock. The school building will be open Monday morning and afternoon, and opportunity will be given parents and students to consult with Mr. Travell in regard to studies. Teachers will be present to conduct examinations for pupils delinquent in studies, or for those planning to enter the High School from outside schools. No new pupils will be assigned to classes without examination, and it is the purpose after Monday to give necessary examinations in the afternoon rather than to interrupt the work of the morning session.

The corps of teachers is the same as last year with one exception; Miss Helen W. Peckham having been substituted for Miss Caldwell.

HEROES AT THE STATE FAIR.

Col. Roosevelt and the Merrimac Crew Will Be at Waverly Next Week.

The officers of the New Jersey Agricultural Society have extended the freedom of their grounds to the heroes of the late war, and Tuesday the members of Lieut. Hobson's gallant crew on the Merrimac, accompanied by other brave seamen, will be guests of the society.

The brave jackies will be driven about the fair grounds and all who attend will have an opportunity of seeing the gallant tars.

Colonel Theodore Roosevelt, the daring commander of the Rough Riders, has accepted an invitation to be present at the fair Wednesday. He will be accompanied by a number of officers of the famous regiment.

Vice-President Hobart will attend the fair Thursday.

To Travel With a Show.

Thomas Schaffer left yesterday for Wallingford, Conn., to join Miller, Kleinsmith & Steel's big dramatic sensation which opens there next week. Schaffer will do a turn at club-swinging and will have charge of a new series of moving war pictures. The company is booked to appear in Plainfield at Music Hall later in the season.

Work on the Streets.

David Bowden, the contractor, has begun to re-macadamize Westervelt avenue, and in a short time will have put it in first-class condition. The street cleaning gang are on West Seventh street near the city limits patching up some of the holes in the roadway, and another section are patching up East Fifth street.

Might Have Been a Fire.

Officer Cash, whose beat is on Park avenue, discovered a lamp in John VanEps jewelry store last night after closing time which was smoking and sputtering dangerously. The officer notified Mr. Van Eps, who accompanied him to the store and adjusted the wick.

A Good Prospect.

Plainfield Business College never before opened with such bright prospects. Many are coming for both the commercial and shorthand courses. The special offer for a double scholarship is good only for this month.

Populists on Deck.

The State convention of the New Jersey Middle-of-the-Road Populists will be held at Vineland September 3d, when delegates to the National convention at Cincinnati will be chosen.

—Press want ads bring results.

TO DRINK WATER WITHOUT ANY CUP.

New Hygeia Fountains Placed in the Public Schools.

SCHOOLS OPEN TUESDAY.

PUPILS WILL FIND THE FOUNTAINS SOMETHING NEW.

Interior of the High School Has Been Decorated Under Direction of Clerk Clark—New Offices for Principal Travell—Other Improvements Noted—Blackboards Removed From Sup'ts. Room.

The school children of Plainfield have one thing at least to look forward to when the Public Schools of this city open Tuesday morning for the fall term. The new hygenia drinking fountains have been established in the Stillman, Franklin and Bryant school buildings and will furnish no end of amusement to the children for the first few days.

The fountains are altogether new in the manner in which they furnish the water for the use of the thirsty pupils. No cups are used. Instead, from the centre of a metal bowl in the fountain a metal tube projects vertically from which issues a stream of water. The stream is half an inch to an inch in height. The pupil is supposed to lean over the fountain and place his or her lips over the stream of water. The method is supposed to do away with any contagion that could otherwise be conveyed by the drinking cups of the old style.

While the fountains are planned after the latest sanitary ideas, they will be a great curiosity for the youth of the city. After the small boy has looked them over, his first idea will be to place his finger over the opening and squirt the water at his companions, but in this he will fail. The manufacturers looked out for that, and have so arranged a series of little openings that when an attempt is made to partially shut off the water and make the stream smaller and consequently swifter, the water escapes through these holes and the scheme of the small boy is foiled.

It is going to look rather startling at first to see all the young misses of the High School bending over the marble basin of the fountain with their mouths close to the stream, and it is going to be an altogether exciting occupation for the first few days, until they get used to it.

In the High School five of these new fountains have been placed, two on the first floor in the main hall, two on the second floor and one on the third floor in the hall in the rear of Assembly Hall. The fixtures are of marble and nickle and are of artistic design. Five other fountains are similarly arranged in the Franklin building. Five more are placed in the Bryant, three on the first floor and two on the second. One of those is made very low for the use of the small children.

The High School has been greatly improved by some well selected interior decorating. The halls and class rooms, heretofore a plain white, have been tinted a light green, with a darker green dado. The ceilings have been similarly tinted.

The blackboards have been removed from Superintendent Maxson's reception room, and both reception room and private office have been papered in light green with a darker dado. The ceilings have been also papered. A new and more convenient desk has been placed in the superintendent's office.

The large cabinet for the school collection of stuffed birds and the mineral collection has been removed from the secluded corner on the third floor at the head of the front flight of stairs, where it used to be, to the rear of the second floor hall.

The little room on the third floor at the head of the front flight of stairs, formerly used as a girls' cloak room, has been changed to a private office for Principal Travell and decorated like the office of Superintendent Maxson. A cloak room has been built across the hall in the space formerly occupied by the large cabinet.

A very useful convenience is a speaking tube from the platform in Assembly Hall to Superintendent Maxson's reception room.

The interior decorating was done by Woolston & Buckle. D. W. Littell had the contract for putting in the new fountains. The boys' yard has been graded and completely macadamized. A portion of the girls' yard has also been improved. Smalley Brothers had the contract for that work.

The Franklin building has also been improved by interior decoration, done by E. E. Marshall & Co.

CONTINUED ON PAGE 8.

A BICYCLE FUED.

Trouble Between Metuchen Citizens Because There is Racing on the Sidewalks.
(Special to The Daily Press.)

Metuchen, N. J., September 3.—A fued has broken out between Frederick Clarkson and William Orton, over the ordinance against riding bicycles on the sidewalk. Both men are prominent members of the community, Clarkson being a New York broker and Orton superintendent of one of the Sunday-schools here.

An ordinance has been passed by the township, prohibing the riding of bicycles on the sidewalk. The ordinance has not been heeded, it is said, and every day there are many violations of it. Among the most persistent violators, it is said, is Mr. Orton. The town people could see no reason why Mr. Orton should be allowed to violate the ordinauce so frequently, and several of them got together and decided to make a complaint. Frederick Clarkson was the man to put his name to the paper, however, and this is what makes bad blood between the two.

Orton claims that the ordinance is illegal and has said that he will fight it to the end, and means to certiorari the case, if defeated. He has retained Attorney George Silzer, of New Brunswick, to represent him. Clarkson's lawyer is Counselor McClure, of Plainfield.

FUNERAL OF THADDEUS HORAN.

Services Held in St. Mary's Church and Largely Attended.

The funeral services over the remains of Thaddeus Horan were held yesterday morning at 9:30 o'clock from St. Mary's church. Interment was in St. Mary's cemetery.

Rev. Father C. J. Kelley, of Hoboken, a nephew of the deceased, officiated at the services, and the regular choir sang. The pall-bearers were Hugh McDonald, Edward Gavin, James Whalen, Frank Quinn, Michael Callahan and John Flynn.

Rev. Father Smyth also spoke, and said a great deal about the deceased's quiet life, and told his hearers that Mr. Horan had been a just man, had lived a good life, and had gone to his reward.

The floral contributions were numerous and consisted of crosses, wreaths, pillows, etc., from the various relatives and friends.

The Assessor's Report.

A meeting of the North Plainfield Township Committee was held Thursday evening, when the assessor's books were gone over and accepted with a few slight changes. The assessor is Robt. M. Clark. His report showed the total valuation of real property to be $252,800, and the total valuation of the personal property to be $36,100. The exemptions were as follows: Schools, $1,600; churches, $7,000; soldiers, $2,200; firemen, $800; debts, $3,500. The total amount of taxable property is $273,800. The number of acres in the township are 5,060½, the number of voters 132 and the number of dogs 77.

Adjourned the Cases.

It was too warm to do anything this morning that wasn't necessary, and so the cases which were to come up for trial in the City Court before Judge DeMeza were all adjourned for a week. Mrs. Anna Robinson, colored, came up for sentence. She had been found guilty of using profane and indecent language. The Judge sentenced her to pay a fine of $8 or go to jail for thirty days. She paid the fine.

With the Nabobs Now.

Charles Hand, the hustling real estate man and town boomer, has taken up his residence among the nabobs of aristocratic Netherwood. Mr. Hand has moved his family from their old home on East Fifth street to the large fifteen-room house at the corner of South avenue and Belvidere avenue. The house has all the latest improvements.

Closing Up the Camp.

The closing exercises of the Westfield Fresh Air Camp will be held tomorrow afternoon at 4 o'clock in the Auditorium. Dr. Brett, of Jersey City, will be present and make an address, and the annual report of the camp committee will be read.

Thomas Morgan Sells Out.

Thomas E. Morgan, the newsdealer, of West Front street, has sold out his business to William F. Allen, and expects to move to New York State with his family. Mr. Morgan has been established in business at that stand for many years.

—Constable Mattox made a levy yesterday afternoon on the Hotel Hunterston on an execution issued in the case of Hegeman against Morrison and Webb.

—Ernest, the young son of Ada Randolph, of South Second street, died yesterday. The boy was five months old. Arrangements for the funeral will be made later.

ANXIOUS TO GET HOME.

BADGER TARS HAVE FILLED OUT THEIR DISCHARGE BLANKS.

They Are Patiently Waiting to Be Ordered Off the Craft on Which They Did Glorious Deeds for the Country.

On Board U. S. S. Badger, Boston Navy Yard, Sept. 3.—The boys on the United States ship Badger are still patiently waiting for their discharge. They have looked for it for several days. The ship was docked last Saturday at noon. In the afternoon the port watch was given shore leave from 4 p. m. to 8 o'clock the next morning. At noon the starboard watch went ashore until the next morning. Monday new hammocks and bags were issued to the men, and they had to turn to and scrub their old hammocks and bags. This took them all day. Tuesday the men gave the ship a thorough cleaning and scrubbed the windsails. In the afternoon they were allowed the privilege of the dock, and a good many visited the old frigate Constitution, which is kept here for the benefit of visitors.

The crew of the Badger is the envy of the Connecticut and Maine Naval Reserves, who have not left the dock. They are on the monitor Wyandotte and the converted ferryboat South Boston. Wednesday morning the United States ship Vesuvius came up to the Navy Yard and docked.

All the members of the crew of the Badger were out on the dock Wednesday for drill. They were divided into five companies, and went through the various infantry movements very creditably. After dinner quarters were sounded, and when they had reported, they were furnished with blanks requesting their discharge. After filling them out they were turned over to their divisional commander. The men think this is the first step towards their discharge, and only hope it will come very soon. In the afternoon part of the port watch was given shore leave, and the starboard watch had the same privilege yesterday. The men have not been paid for a long time.

DOG BITTEN BY A SNAKE?

Ordered to be Shot but Walked Off in a Corner and Died Naturally.
(Special to The Daily Press.)

New Market, Sept. 3.—New Market had a scare Thursday afternoon. A big black Newfoundland dog was noticed acting in a strange manner around a group of men, and before it could be shot the animal collapsed and died. It is thought by some that the dog was bitten by a snake.

The animal belonged to William Farrier, the contractor, who, with a force of men, is repairing the Washington avenue bridge. The dog was young, but not very playful, and accompanied the men to their work Thursday. During the afternoon the dog ran around the bushes by the brook, and it is thought must have been bitten on the tongue by a snake, for suddenly his mood seemed to change, and he ran around the men, leaping up on them in a playful mood contrary to his usual habits. This became so noticeable that the men remarked upon it and called Mr. Farrier's attention to it. Everyone thought the dog must be mad, for the heat was so intense.

The dog continued his strange antics until he reached home, then Mr. Farrier told Mr. Curtis, his foreman, to get a gun and shoot the canine. While Mr. Curtis was gone the dog quietly walked off to a corner and died. An examination was made but no signs of hydrophobia were discerned. As no other reason could be assigned for the animal's actions, it was suggested that he had been bitten by a snake.

Wanted to Collect a Grocery Bill.

Counselor Wm. K. McClure secured an attachment early this week for Russel O. Howell against Mrs. Maggie F. Johnson, who kept a boarding house at Oak Tree. The attachment is returnable before Justice Moss, at Metuchen, September 20. Mr. Howell claims that Mrs. Johnson owes him a large bill for groceries which she has not paid. Hearing that she was about to pack up and leave this State, Mr. Howell attached her household goods, and she will have to wait until the claim is adjusted before she can remove them.

Newark Man Missing.

Edwin Steinkoof, a prosperous Newark plumber, has been missing since July 29th last, and although his sons have spent weeks searching for him and two detectives have been employed, no trace of the missing man has been learned.

—Bartlett pears, for canning, will be one of the specialties of Neuman Bros. Tuesday morning. They will have 100 baskets of fancy canning pears for sale at prices to suit the rich and poor. Next week is *canning week*.

WHAT'S TO BE DONE ON THE HOLIDAY.

The Attractions That Labor Day Offers to Plainfielders.

A VARIED ASSORTMENT.

OUTDOOR SPORTS ARE THE CHIEF ATTRACTIONS FOR THE DAY.

The Holiday Really Begins at Noon Today—Peace Jubilee Today—Baseball, Bicycling, Golf and Picnics Are to be Held Monday—Grocers' Excursion Goes to Boynton Beach on That Day.

Summer is dying. It is her last struggle for existence but unlike a sensible creature, she don't take it coolly and everybody is suffering in consequence. With the beginning of September, the business men understands that the summer season is over, activity is resumed and the half-holiday is given up. Labor Day, which falls on the first Monday in September, brings the vacation season to a close with one day for pleasure, enjoyment and rest, and marks the resumption of the wonted stir and bustle in business circles that grew lax during the warm weather.

Monday will be Labor Day and Plainfield will offer a number of attractions to her citizens. Then, too, there are other attractions round about this part of Jersey which will see a number of Plainfielders present.

The holiday really begins this afternoon for such Plainfielders as intend to spend the holiday out of town. In the New York offices business was practically suspended at noon, not to be resumed until Tuesday morning, for Labor Day is a legal holiday in a number of States, including both New York and New Jersey.

The Riverdale Field Club is playing in Orange this afternoon, while the Crescent Oval is given up to the "Peace Jubilee" of the Dewey Bicycle Club which began this morning and will be continued this afternoon and evening. In the line of other outdoor sports this afternoon, there is the match for the championship tennis trophy of the Hillside Tennis and Golf Club, and a golf match between the Hillside Club, of this city, and the Suburban Golf Club, of Elizabeth, to be played on the local links.

Tonight the Katherine Rober Repertoire Company will conclude its engagement at Music Hall. Dances will be held at the Park Club, the Mountain Park Inn and the Hotel Hunterston.

Monday there is a varied enough list of attractions to suit anybody. The first to be heard from in the morning will be the annual excursion of the Grocers' Association to Boynton Beach. Two large trains will start from the North avenue station at 8 o'clock to convey the excursionists to that popular shore resort. Boynton Beach is well known to the good folk of Plainfield and there isn't any doubt but that the Grocers will have a big crowd with them. They have arranged a five-mile road race and a baseball game for the afternoon in addition to the regular attractions of the place.

All the German residents and many of their friends will attend their national outing, the Volks-fest, which the Gesang and Turn Verein will hold at the Mountainside Grove. There will be a great assortment of pleasures there for those who attend.

The lovers of outdoor sport will find three events of interest to Plainfield, although only one will be held in this city. The Bogey handicap of the Hillside Tennis and Golf Club will be played on the golf links of the club during the day. Then there is to be a great road race on the Hudson county boulevard in which a number of Plainfielders are entered. In the morning, the Riverdale Field Club, of this city, will play the famous Woodbridge "Browns" at Woodbridge.

In the afternoon will take place one of the social events of the season, the opening of the new clubhouse and grounds of the Hillside Tennis Club. The new grounds are located on Woodland avenue and are particularly adapted for their present use. The clubhouse is a model one and has a charming location. A large number of invitations have been issued and there will probably be a large attendance. The opening is set for 3:30 o'clock.

The opening of the State Fair at Waverley will also attract many from all over the State. A specially fine programme has been prepared. The lovers of bicycle racing will find plenty of sport at the race meet of the Brunswick Bicycle Club, at New Brunswick.

The Crescent Oval will be the scene

CONTINUED ON PAGE 8.

MC'KINLEY WELCOMED

Enthusiastic Crowds Greet Him Informally.

IN CAMP WIKOFF TO-DAY

The President Accompanied by His Wife, Mrs Garrett P. Hobart, His Nephew, Secretary Porter and Private Secretary Cortelyou Was Driven at Once to the Hotel Manhattan.

New York, Sept. 3.—President McKinley arrived in Jersey City at 11 o'clock yesterday morning and was driven to the Manhattan hotel, Forty-second street and Madison avenue. Though no hint of the route to be taken from Jersey City to the hotel had been given by the members of the president's party, they were astonished to find how quickly a New York crowd can gather and how sharp are the intuitive qualities of that crowd.

Only a few seconds after the party arrived at the Pennsylvania terminal in Jersey City a great gathering of men, women and children were cheering and waving handkerchiefs in the big depot, and the Jersey police had all they could do to keep the people from surrounding the private car. Many enthusiastic men tried to get near enough to grasp the president's hand, while women pushed their way frantically through the crowd to secure for their children the coveted privilege of a glance at the distinguished party.

Affable as the president is on such occasions, it was soon seen that acquiescence in the evident desire of the crowd to shake hands with him would result in little short of riot and in the disabling of the president's good right arm. The crowd was forced to be content, therefore, with shouting its welcome, and this it did in a way that has characterized crowds since the beginning of the war.

Manhattan reached, the president found to his amazement that the ferry slips and streets approaching were even more crowded than the other side. Cries of "Way for the conqueror of Spain," "Now our boys at Wikoff will be all right," and thundering cheers, mingled with familiar calls of "How's Bill McKinley? He's all right!" greeted the party on every side.

Orders were given to drive the president through the unfrequented streets to avoid the crowd, as it was desired to arrive at the hotel as early as possible. A squad of mounted police preceded the carriage. It was evident, however, that Mr. McKinley would not escape the demonstration that had been waiting for him. Men rushed out from shops all along the line; small boys gathered on the instant and from the ferry to the hotel there was not a moment of the way when cheers were not resounding.

The president and his party were pushed through a tremendous crowd in front of the Manhattan and in a short time were seated at dinner in a private dining room.

The only condition on which the president would see a newspaper man was that he should not be asked any questions. Private Secretary George B. Cortelyou put himself at the disposal of the newspaper men, however, and answered every question that he could.

"New York crowds, like a great many things in this war," said Secretary Cortelyou, "make the impossible possible. I never saw such a remarkable gathering of people as we passed through, considering the fact that not the slightest information has been sent out before hand concerning when we would arrive, what hotel we would stop at or what route we would take to get there. The president was as much amazed at the demonstration as he was pleased."

In the party are President and Mrs. McKinley, young William McKinley Barber, the president's nephew; Mrs. McKinley's maid, a steward, Colonel and Mrs. Myron T. Herrick, intimate friends of the president, and Major Webb O. Hayes, son of former President Rutherford B. Hayes.

At Jersey City the party was increased by the addition of Mrs. Garrett A. Hobart, wife of the vice president, and Secretary Parter.

The president went to Montauk at 12 o'clock last night. It had been hoped that the party would be able to take the trip by day, and many requests had been received from people along the route to have the president go through at a time when he might be seen. He will return to this city to-night.

Insurgents Invading Southern Island.

Manila, Sept. 2.—Several shiploads of insurgent troops have invaded the southern islands, with the view of seizing everything possible prior to the settlement of the peace conditions. General Rios, the Spanish commander, with a flotilla of gunboats, is acting energetically, but thte insurgents have captured the outlying islands of Romblon and Palawan, where they found treasure to the amount of $42,000. The prisoners captured have arrived at this place.

Delegates from the Hong Kong insurgent junta are to have an interview with United States Consul Williams to-night, and it is thought that this may possibly result in a settlement of the insurgent question.

Gold Coinage at San Francisco.

San Francisco, Sept. 3.—Daniel Cole has succeeded A. T. Spotts as coiner at the San Francisco mint. During the four years ended August 31, this mint coined $153,697,824, of which more than $125,000,000 was gold of Pacific coast production. The coinage for last month amounted to $8,160,000, breaking all previous records in the United States. September is expected to make a still better showing, as more gold from the Klondike and Australia is expected in the form of nuggets and sovereigns, which will rapidly be converted into United States coin.

Czar's Peace Plan.

Berlin, Sept. 3.—It is the intention of Russia, according to reliable information obtained here, to convene a peace conference a month after the adjournment of the Spanish-American peace conference.

YANKEE'S MEN PARADE

New York Naval Reserves Receive a Rousing Reception.

New York, Sept. 3.—New York turned out in force again yesterday to welcome home the country's returning fighters. This time it was to cheer the gallant New York naval reserves who manned the plucky Yankee and spread terror among the Spaniards in various engagements along the Cuban coast, and the smaller crew on board the old monitor Nahant that waited patiently all summer for some Spaniard to poke his nose into the harbor entrance.

First of the naval reserves to go into active service in the war with Spain, the Yankee's crew returned home yesterday afternoon with their laurels won in the smoke of battle and thousands to cheer them all the way from Cortlandt street ferry to the New Hampshire at the foot of East Twenty-eighth street. Their welcome was enthusiastic all along the line of march and the brown skinned sailor boys showed in their happy faces that they appreciated the pride which the city took in their performance of the arduous duties of men of warsmen.

Flags and bunting flying in honor of the 310 men in line decked the buildings all along the line of march, and the sidewalks under the decorations were densely crowded with spectators who sweltered in the hot sun, but forgot the discomforts of the weather as soon as the first white jacket and scoop hat came into view.

There was no lagging about them, no sunken cheeks and glaring eyes, no tottering and falling out of line, and the tears that welcomed the sick lads of the 71st were absent yesterday.

The parade was only a few minutes passing in front of city hall.

Once past the reviewing stand the line went by fours, column right, into Broadway, and up that street to 4th street, the great crowds all along the line cheering the boys to the echo.

There was another large crowd around the Washington arch, which was reached at 3.40 o'clock.

The line of parade was then up Fifth avenue, and as the boys marched up that street the scenes along Broadway and at City hall were repeated.

Shortly before the line reached Fifth avenue hotel, President McKinley drove down the avenue in a carriage.

Captain Miller caught the President's carriage just below Twenty-third street, and persuaded him to return to the hotel and review the parade.

The reserves then turned into East Twenty-sixth street and went to the New Hampshire.

Gov. Black at Washington.

Washington, Sept. 3.—Governor Black recommended to the war department last night that the Ninth and Fourteenth New York regiments be immediately mustered out. The Eighth has already been ordered mustered out.

The governor arrived here at 3.45 o'clock much worn from his long and hurried trip. He reports the condition of the Eighth New York as being exceedingly pitiable. Three hundred men are on the sick list. The Ninth New York has 170 sick. The remainder of the regiments located in the South are in a fairly good condition and the men are in excellent spirits and would like to be mustered out, but they do not insist upon it.

Irish Yachtsmen Here.

New York, Sept. 3.—Hugh C. Kelly, honorary secretary and treasurer of the Royal Ulster Yacht Club, arrived in this city yesterday on the steamship Britannic from England.

He was accompanied by Hugh McGildowney, William Fife, jr., and Major R. G. Sharman Crawford, who, together with Mr. Kelly, compose the committee appointed by the Irish club to come to this country and settle with a committee of the New York Yacht club the terms of a challenge on behalf of Sir Thomas Lipton for the America's cup.

With the committee came also the Earl of Ava, a member of the Royal Ulster Yacht Club.

Peace Commission Sails Sept. 17.

Washington, Sept. 3.—Secretary Day of the state department, who is now at his home in Canton, Hio, will return to this city next Tuesday for the purpose of conferring with the president regarding the final instructions to the United States members of the peace commission, which is to meet in Paris on October 1.

The United States commissioners will leave for Europe on the steamer sailing from New York on the 17th inst., and it is necessary for them to have all their preliminary arrangements in this country completed before that date.

Express Companies to Pay the Tax.

Chicago, Sept. 3.—At a special conference yesterday of the representatives of the Adams, American and United States express companies, it was decided that the companies would from this date bear the expense of the war tax instead of requiring the public to stamp consignments.

MEXICAN CUSTOM ON GOOD FRIDAY

A Manikin Representing Judas Burned Every Year.

Mrs. Sara Y. Stevenson, in an article in the Century on "Maximilian's Empire," describes a Mexican custom on Good Friday of burning Judas in effigy on the Plaza Mayor. Judas was a manikin made in the shape of the person who happened to be the most unpopular at the time. It was quite admissable to burn Judas under different shapes, and sometimes these summary autos-da-fe were multiplied to suit the occasion and the temper of the people. At the same time, rattles were sold on the streets, and universally bought, alike by children and adults, by rich and poor, to grind the bones of Judas; and the objectionable noise—second in hideousness only to that of our own sending off of firecrackers on the Fourth of July—was religiously kept up all day. In the year of our Lord 1863 Judas was burned in Mexico on the Plaza Mayor unander the shapes of General Forey, Napoleon III., and last, but not least, M. Dubois de Saligny, who especially was roasted with a will amid the wild execrations of the populace.

WATER SUPPLY FAILS

Break in the Pumps Cuts off the Water at Montauk.

MUCH SUFFERING RESULTS

Yesterday Was a Dry Day in Camp Wikoff. Several Transports Arrive With More Troops from Cuba. A Michigan Regiment Leaves for Home. Shafter Has Not Yet Assumed Control.

Camp Wikoff, Montauk Point, Sept. 3.—The water supply at Camp Wikoff has been almost entirely cut off since nine o'clock Thursday night by an accident to the pumping machinery. What water the troops have, and that is not half enough, is brought to them in a wagon. Not a single man had any drink with his food yesterday, except one cup of water, and that scant allowance was doled out at 12 o'clock. Machinists are at work on the pumps. Both large pumps are out of order and the supply of one million gallons per day has been reduced to less than one hundred thousand gallons.

The restaurants have been unable to serve drinks of any kind and the camp bakers are restricted to one-half of the necessary allowance, so that only one-half of the daily output of bread is forthcoming. The men are drinking the water in Fort pond, contrary to orders, but the water is said to be pure yet, and if the machinists finish their work to-day there will be no harm done, the doctors say. If they do not, Colonel Forwood prophesies an increase in sickness.

In the hospitals the lack of water causes no little inconvenience. Water wagons are running but they cannot bring half enough to supply the need. Ice was melted in the ranges for the sick to drink and afterward the water was cooled by being packed in ice.

The officers say positively that the trouble is not with the water supply itself, but with the pumps. Steam is kept up constantly in the pump boilers with the expectation of soon having the pumps in order again.

The transports Nueces with nine companies of the 24th infantry and a detachment of the First Illinois on board, and the Orizaba, with the remainder of the 24th infantry, arrived here yesterday.

The transport City of Washington, which lay in the harbor of Havana on the night of the destruction of the Maine, and her sister ship, City of Berkshire, have also arrived.

The Berkshire left Santiago on August 25, bringingfi 348 convalescents, many of them yellow fever patients from the hospitals at Siboney and Santiago. On the voyage, Surgeon ohnson, Battery B, First artillery, a nurse, McMahon, and a private of Company C, 84th infantry, of the name of Murphy, died. When the Berkshire arrived 175 of her sick were unable to walk.

On board the Orizaba are twenty-four paymasters and clerks, with $1,000,000 in gold for paying off the troops here. The Nueces has on board 685 troops, twenty-eight sick, but no one died. The City of Washington brought only Colonel Humphreys, a private secretary and two negro servants.

Seven hundred and twenty-five men of the 33rd Michigan volunteer infantry and 700 of the 34th Michigan left Camp Wikoff by train yesterday bound for Camp Eaton, Island lake, Mich. The 33rd had 30 sick and the 34th had 40 sick. The patients were provided with beds in cars and at Long Island City were removed in ambulances.

Now that General Shafter has arrived and there are but a few more transports to arrive, Camp Wikoff is settling down somewhat. That does not mean that humdrum routine will alone exist in the big camp, for General Shafter has yet to take the reins, and more changes than General Wheeler has made in his brief administration are expected.

Our Prisoners of War.

Washington, D. C., Sept. 3.—Having arranged for the release and return to Spain of the Spanish sailors captured after the destruction of Cervera's fleet, the Spanish government is now seeking to secure the release of the Spanish soldiers who are still held captives in this country.

There are a few of these confined at Fort McPherson, and our government is entirely willing to be rid of their presence.

Our government having finally consented to release thte sailors upon the sole condition that the Spanish government would transport them home, M. Thiebaut, acting in the interest of the Spanish government, has just made application to the state department for similar treatment in the case of the Spanish soldiers.

The request is now under consideration, and doubtless the request of the applicant will be granted.

German Ships Leave.

Berlin, Sept. 3.—A semi-official note just issued, says:

"A state of peace having been re-established between the United States and Spain, orders have been given that the German naval force at Manila be reduced to one or two ships, which, pending the complete restoration of order in the Philippine islands, will suffice for the protection of German subjects and interests in that region."

Stock Exchange Closed.

New York, Sept. 3.—The governing committee of the New York stock exchange yesterday afternoon voted to close the exchange to-day. This action represented a reconsideration of a previous vote that the exchange should remain open.

It was taken because of an almost unanimous request of the members asking for a reconsideration in view of the hot weather. The London stock exchange is also to be closed to-day. $219,320,372.

Gold Reserve's Highest Point.

Washington, D. C., Sept. 3.—The gold reserve in the United States treasury reached the highest point in its history yesterday, with a total reserve of

SEVEN SUTHERLAND SISTERS

Hair Grower and Scalp Cleaner

For Over 14 Years

these highly meritorious preparations have stood at the head of all hair restoratives. More than 3,000,000 bottles have been used by the American people, and thousands of testimonials bear witness to their excellence, while there were never any complaints when directions were followed.

Ask your druggist about it.

Shoes for Spring.

You'll be buying a new pair of shoes soon. Where are you going to buy them?

The shoe store you want to patronize is the store that gives you the most style, comfort, elegance and durability for the money.

If you'll "shop around" before you buy you'll find that this is the store you're looking for.

Flynn Bros.,

222 West Front St. Plainfield, N. J.

LET US ARM YOU!

It's quite necessary, because while Uncle Sam is settling scores with the Spaniards you're bound to have a little brush at home at the same time, and there's nothing like being ready for emergencies. Until you can sign a perpetual truce with sun, wind and storm, your house and other buildings will need to be fortified with paint, and ours are like a 20-inch chilled steel armor.

NOTICE

to all interested in

Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

DUN'S WEEKLY REPORT

A Month Usually One of the Most Inactive Shows Large Volume of Business

New York, Sept. 3.—The smallest failures ever recorded in any month for five years were those of August. No other month since the monthly reports were commenced by Dun's Review exclusively, has shown defaulted liabilities as small within $1,000,000, and the ratio of such defaults to solvent business, represented by exchanges through all clearing houses, only $108.70 in $100,000, is smaller by 26.5 per cent. than in any previous month, the clearings having been the largest ever known in August, and 23.0 per cent. larger than in 1892.

The enormous volume of business in a month usually one of the most inactive of the year demands attention. Postponement during the months of the war of some contracts and purchases which have now come forward explains part of the increase, and the strong absorption of securities explains part, but there has also been a great decline in the average of prices for all commodities, so that it takes a much larger volume of business in tons or bushels to make up transactions amounting to a million than in 1892. It is therefore strictly true that business is larger than in the very best of all past years, and yet there is every prospect of much further increase.

There is no room to doubt that the wheat crop, even though it may fall a shade below some estimates, will prove the largest ever harvested, and although Beerbohm estimates Europe's crop at 232 million bushels more than the last, that would only be about an average yield, while other evidence is less favorable. Foreign buying has been strong, so that Atlantic exports for the week have been 3,326,878 bushels, against 5,534,758 last year, and Pacific exports 458,881, against 258,651 last year.

Corn has fallen a fraction, later reports indicating a less satisfactory yield, and probably not more than should be consumed at home in enlarging the stock of animals. The advance of a sixteenth in cotton to 5.81 cents has followed a little better milling demand, with rather less favorable reports of probable yield, but the crop is at the worst likely to exceed the world's needs. The New Orleans Cotton Exchange makes the output for the past year 11,199,994 bales, and southern consumption 1,192,621 bales.

Heavy shipments of gold this way, $2,250,000 from Europe, and $3,000,000 from Australia, with marked weakness in sterling exchange, indicate that balances due from Europe can be called as they are wanted. A highly interesting disclosure regarding the course of commercial loans since 1893, given this week, shows changes so great that they merit careful study by business men and bankers.

The improvement in the iron industry has not only continued, but becomes more impressive, because, after enormous buying of materials has satisfied the needs of great consumers for months to come, the demand for products is so great that both materials and products gradually advanced in price.

The shipments of boots and shoes from the East in August have been larger than in any previous year, 8449,402 cases in five weeks, against 445,422 in 1895, when the output to September first had been smaller by 438,000 cases than this year, and the August movement exceeds by 41,000 cases or ten per cent. that of 1892. Most buyers still hold off as much as they can, hoping for low prices, and dealers' stocks are reported low.

Exports have begun to increase, and for the week exceed last year by $1,936,000, or 27 per cent., while imports were smaller than last year by $345,000, or five per cent. In view of the extraordinary magnitude of exports and reduction of imports a year ago, the figures indicate a large balance in favor of this country. Failures for the week have been 171 in the United States against 191 last year, and 22 in Canada against 25 last year.

Mississippi Yellow Fever Cases.

Jackson, Miss., Sept. 3.—Ten new cases of yellow fever have been reported from Orwood. These cases have appeared since the report of the first infection there and are said to be of a mild type. The official report of Inspectors Grant, Dunn and Harlson of the Mississippi board, and Inspector Gill of the Louisiana board of health on the first Orwood case was received yesterday, and unhesitatingly pronounces the infection yellow fever.

Washington, Sept. 3.—The marine hospital service was officially advised of the ten new cases of yellow fever which have been discovered at Orwood, Miss. The officials are at sea as to the origin of the fever there, and have no definite theories to work upon.

The Pana Mine Troubles.

Pana, Ill., Sept. 3.—D. Overholt, president of the mining company which is in opposition to the striking miners here, and his brother Louis, who were abducted by a bend of strikers on Thursday, have been released. The strikers are said to have voted several times to hang the Overholts, but were prevented by their leaders from committing violence. All saloons were closed last night by order of Mayor Penwell.

Rumors of a New Japanese Loan.

Yokohama, Sept. 3.—An agitation is growing out of the state purchase of the four trunk railroads, and reports are revived that the government intends to raise a foreign loan of $80,000,000, in order to complete public works.

Little importance is attached here to the czar's peace note, as it is believed to have been dictated by financial distress.

Big Customs Receipts.

San Francisco, Sept. 3.—The custom house receipts for the port of San Francisco for the month of August amounted to $567,273, the largest for a single month in the records of the department.

Japan's View of the Note.

Yokohama, Sept. 3.—Little importance is attached here to the czar's peace note, as it is believed to have been dictated by financial distress.

AN ALLIANCE FORMED

Report that England and Germany Have Signed a Treaty

WHAT IT WILL AMOUNT TO

Said That Berlin Will Support England at Cairo in Return for a Free Hand in Syria. Circumstantial Rumors. A New Departure in England's Foreign Policy.

London, Sept. 3.—A report is current here that a treaty of alliance between Great Britain and Germany on the lines of the speech of Mr. oseph Chamberlain, the secretary of state for the colonies, was actually completed yesterday.

This is probably an amplification of the gossip relative to the daily visits of Count von Hatzfeldt-Wildenberg, the German ambassador here, to the British foreign office during the past fortnight, which have been attributed to a desire upon the part of Germany and Great Britain to formulate a common policy in regard to Russia and China.

Another explanation of the German ambassador's visits to the foreign office here is that they relate to the mixed tribunals of Egypt, the international agreement on the subject ending in February. Through French and Russian influence the court has always hampered the British plans for the use of the Egyptian savings and the advancement of Egypt. Now, it is said, an agreement has been almost reached by which Germany will support the British views relative to the future composition and powers of thte mixed tribunals.

It is said that as a quid pro quo for Germany's support in Egypt, Great Britain will recognize Germany's claims to utilize Syria as an outlet for her surplus population.

The Pall Mall Gazette this afternoon says it has received from a source in which it has every confidence information showing that the Anglo-German agreement was signed this week by Mr. Balfour, and the German ambassador, in behalf of the respective powers.

Continuing, the Pall Mall Gazette says that while the agreement is restricted, it embraces an offensive and defensive alliance in certain eventualities.

The Pall Mall Gazette adds: "This new and momentous departure in our foreign policy comes as a natural development of the European situation." The paper then quotes the speech which Mr. Joseph Chamberlain, the secretary of state for the colonies, made at Birmingham on May 13 last, bidding for a German alliance, and continues:

"Latterly it has been evident from the tone of the semi-official German press, that the two governments have been drawing closer, and finally there were prolonged conferences between Count Hatzfeldt and Mr. Balfour. The departure of Count Hatzfeldt proves that the object of the consultation has been attained. Besides, Mr. Chamberlain has gone to America, Lord Salisbury is prolonging his absence, and Mr. Balfour leaves for his holidays on Saturday. Evidently the ministers do not expect to have to deal with crucial questions of foreign policy."

Brooke in Charge.

Guayama, Island of Porto Rico, Sept. 2.—Upon General Miles's departure on Thursday General Brooke issued an order assuming command of the troops in this island.

The bridges along the military road are being repaired and General Brooke will start northward on Saturday morning. The march to San uan de Porto Rico will probably consume four days. The general expects to establish his headquarters at Rio Piedras, outside the city, owing to the crowded condition of San uan, which is filled with Spanish troops.

General Brooke will retain active command over the troops left on this side of the island. Colonel Glassford assumes charge of the telegraphic system, with two companies of the signal corps.

Payment of Porto Rico Troops.

Washington, Sept. 3.—Paymaster General Stanton of the army yesterday asked for the detail of Major J. C. Muhlenberg, paymaster, and Majors Fred E. T. ones, H. L. Graat and M. R. Doyon, additional paymasters, to pay the troops in Porto Rico. They will sail from New York on Wednesday next. Major D. W. Arnold, paymaster, has been relieved from duty in Washington and ordered to Camp Meade. The paymasters originally detailed for this duty were taken sick, and the payment of troops in Porto Rico has been delayed, much to their discontent.

Engineer Milligan's Reward.

Washington, Sept. 3.—The assignment of Chief Engineer Milligan of the battleship Oregon to the flagship New York means a special distinction and an increase of $1,200 a year in salary.

The promotion was made in recognition of the officer's marvelous record in bringing the Oregon around the Horn from San Francisco under trying conditions. As chief engineer of a flagship his salary will be $4,000 a year. Milligan was recently ordered to the Brooklyn, but the order has been revoked.

Boston Naval Parade.

Boston, Sept. 3.—The battleship Massachusetts and other war vessels paraded in Boston harbor yesterday amid a great demonstration.

The Massachusetts headed the line, followed by the Machias, Detroit, Castine, Wilmington, Helena, Marietta, Bancroft and Topeka.

Ex-Secretary Bayard's Condition.

Dedham, Mass., Sept. 3.—Ex-Secretary Thomas F. Bayard had a relapse late Thursday night and a consultation of physicians was held, after which Mr. Bayard's physicians remained with him until morning. A second consultation was held yesterday and it was reported that Mr. Bayard was much better, but he was still very ill.

THE QUEBEC CONFERENCE

Abolition of Pelagic Sealing Determined Upon.

Quebec, Sept. 3.—The bonding dispute before the commissioners of the international conference at yesterday's session was the subject of discussion. The delegation from the Boston chamber of commerce has already interviewed the American section on the subject, and a representative of the Canadian Pacific railway, Mr. Tait, has come to Quebec for the same purpose.

Boston and New York are the two American cities through which a $35,000,000 or $45,000,000,000 volume of Canadian trade, imports and exports, annually passes, with profit to the American railroads ramifying from these points to the Canadian boundary, and Boston's interest in the bonding system are identical with those of Canadian shippers.

British Columbia lumbermen have forwarded resolutions to the Canadian commissioners requesting that until a broad measure of reciprocity has been established between the United States and Canada, permitting the free entrance into the United States of all kinds of Canadian lumber and the free admission into Canada of articles affecting the cost of producing lumber, the Dominion government maintain an import duty on lumber products for the protection of west coast lumbermen.

The abolition of pelagic sealing has been determined and the two problems now before the commissioners are:

1. .....Whether to estimate the value of Canadian sealers' outfits and privileges on a basis of profits before the imposition of the Paris regulations or after the restrictions were in force.

2. Whether the Northern Pacific will become a closed sea on the purchase of the Canadian fleet.

According to latest reports nothing will be made public regarding the commissioners' decisions until matters have been referred to the governments of Washington and Ottawa during the adjournment.

Last night the commissioners formally adjourned until the 20th of September, when they will reassemble in Quebec. All the commissioners will return to their homes during the recess.

THE DREYFUS SCANDAL

A Revision of the Case Reported to Have Been Decided on by French Cabinet.

London, Sept. 3.—A dispatch to the Evening Standard from Paris says that the French cabinet has decided upon a revision of the Dreyfus case.

Paris, Sept. 3.—The movement in favor of a revision of the Dreyfus case is growing stronger in the papers which, until now, have been hostile to him. The Matin says:

"The absence of M. Bourgeois, the minister of education, prevented the ministers from coming to a decision yesterday, and another meeting of the council will be held to-day."

It was announced yesterday by the Patrie that several officers of the general staff had decided to resign soon and divulge all they know of the entire Dreyfus affair. One officer declares that war will inevitably follow as a result of the revelations which will be made regarding the machinations of another government.

M. Lasies, a member of the chamber of deputies, had an interview with the minister of war, M. Cavaignac, on the recent developments in the Dreyfus case. The minister reiterated that he was convinced of the guilt of the prisoner; that at the same time he was determined to punish all who had been derelict in their duty. The deputy afterwards declared that so long as M. Cavaignac was minister for war there would be no revision of the case, as in the event of a revision the trial could not again be held behind closed doors, the inquiry would have to be restricted, and it would be impossible to produce publicly some of the documents. Hence the acquittal of Dreyfus must certainly result from a reopening of the case.

General Pellieux has tendered his resignation, but it was withdrawn on the insistence of General Zurlinden.

Praise for Camp Meade.

Washington, D. C., Sept. 3.—Colonel Moore of the quartermaster's department has returned to Washington from Middletown, where he has been in charge of work at Camp Meade. He has made a verbal report to Secretary Alger of the conditions there. He says that the camp is on one of the finest farms in Pennsylvania, on high, rolling ground, from 350 to 400 feet above the Susquehanna river. The water supply is abundant and is obtained from such a source that there can be no danger of pollution. Three artesian wells furnish the supply. The sanitary conditions of the camp are excellent. Colonel Moore also reports that the food is abundant and the troops apparently well satisfied.

President McKinley, when at Camp Meade, told Colonel Moore that he considered the place an ideal camp.

A Camp for Miles' Army.

New York, Sept. 3.—Quartermaster General Kimball has received a cablegram from General Miles requesting that a place be selected for camping 4,600 troops that are now on the way from Porto Rico, somewhere near Brooklyn Heights. Late yesterday afternoon President of Borough Grout received a communication from Colonel Kimball in reference to the matter.

He recommended Forest Park as a good location and the site may be adopted.

To Pay Porto Rico Troops.

Washington, Sept. 3.—The paymaster general of the army has assigned Major Muhlenberg, paymaster, and Majors Fred T. ones, H. L. Grant and M. R. Doyon additional paymasters to pay the Porto Rico troops. They will sail from New York next wednesday. This duty was to be performed by paymasters at Santiago, but they were stricken with fever and ordered to Montauk.

2,276 Spaniards Home.

Santander, Sept. 3.—The steamship Covadonga, with 2,278 soldiers from Santiago on board, arrived here yesterday.

A Fighting Ground.

Referring to the Congressional chances in this State, a Trenton correspondent says this of the Third district:

Monmouth, Middlesex and Somerset comprise the Third district, which is now represented by Benjamin F. Howell, Republican. All are, or used to be, Democratic counties, but, despite that fact, Mr. Howell carried the district twice in succession, the first time by a majority of 3,976, and the second time by 8,221. This last majority seemed phenomenal, indeed, but then the fact must not be lost sight of that at that election the Democrats were completely demoralized all over the State over the financial issue and the district was allowed to go by default. No wonder that the district gave such a big Republican majority, when the State gave McKinley 87,692. At the election for members of the Assembly last year the counties in the district rolled up a combined Democratic majority of about 3,000. It may be seen from that record then that with a good candidate for Congress and the party united the Democrats have a bright prospect of electing a Congressman.

No Daily Press Monday.

In observance of Labor Day Monday, The Daily Press will not be issued. Tuesday's paper will be chock full of all the news between now and then.

Legislative Experiment.

Attorney General Griggs has recently decided that vessels flying the Hawaiian flag do not acquire the American registry under annexation unless by virtue of a special act of congress. The principle at issue, he asserts, has been settled and so declared by the United States supreme court in the case of Florida and those regions of territory acquired from Mexico. In other words, they were rather looked on in the light of property than as an integral portion of the United States. Until made so by formal legislative action, then, none of the laws and institutions of the United States would under this ruling be extended to annexed territory. Tariff laws, navigation laws, question of Chinese immigration and other debatable matters, over which the intelligence of the land is so greatly split in opinion, would not affect Hawaii, Porto Rico or any other island which might become our own by the mere act of annexation.

It is a subject of regret that we could not have such a possession on which to try experiments before finally adopting laws in many instances for the United States. It would be like the testing room of a great factory, or the model loft of a shipyard, or, to use a more vivid and accurate simile, like the vivisection department of a medical college. It would be rather hard lines for the inhabitants of the annexed region thus kept in a condition of political nonage to become the victims of the legislative scalpel. Yet they might glory in being martyrs for the national good if they properly appreciated the supreme honor of adoption by Uncle Sam. The difficulty in making such an experiment useful would be that of finding a region where the general conditions of living are quite similar to those of this country. The inhabitants would probably object strenuously to being used for this purpose, philosophical as it is in theory. It must be admitted that on the whole the scheme is an impracticable one. It is a fascinating thought, however, to have the privilege of wreaking possibly bad laws on others to serve as an object lesson for ourselves.

Bismarck's Germanic Idea.

The Iron Chancellor wrote his own epitaph. He wished to have inscribed on his tomb the simple summary of his career, "A faithful German servant of Emperor William I." It was not as Prussian subject of a Prussian king that his giant energies had wrought such wonders in diplomacy, statecraft and war. His fervent passion of patriotism had long since swollen from the bounds of a petty or local ambition. It was to make a great and united Germany, bound together not only by the formal ties of imperial union, but a federated Germany, with one heart beat of sympathy, working ever on a common line of interest and brotherhood. This was felt by all who knew Bismarck's life best to be the sole political ideal of his great career. One of his eulogists since his death has expressed it in the phrase, "He was the conscience of the German nation." This was the primary cause no doubt of the alienation between the old statesman and the young emperor. William II wished Germany to be an exaggerated Prussia, himself to be the Brandenburger, wearing an imperial tiara. This swelling conceit of Prussianism Bismarck felt to be inconsistent with the central thought of the new imperial bund of north Germany. William has displayed this narrow theory of imperialism in growing measure, and his willingness to insult and belittle the minor states of the empire has often broken bonds, perhaps in the pettiest fashion of all in the late Lippe-Detmold episode. How long the heartiness of German union will endure if such a strain should be continuous is a doubtful question.

An interesting economic sign is perceptible in the action of those cotton spinning masters at Fall River, Mass., who have refused to limit their production in co-operation with others who wish to lessen loss by smaller output. The progressives believe that by fitting their mills with looms of more ingenious pattern they can produce prints and the more costly cloths which their rivals with cruder methods and less skillful operatives cannot make. This is the sound principle of manufacturing—to do that which can be done most effectively under a certain set of conditions, and not to continue in time honored blundering. The conservatives, even of every productive center in the north, where the raw material is far away, will be ultimately driven to that class of products where the chief cost is that of highly skilled labor and the best machinery.

The movement started by the Kansas farmers to present some substantial memorial to Joe Leiter, whose speculation in wheat put so much money in their purses, has an element of humor in it. They can raise big wheat crops, but not crops of "Joe Leiters" so philanthropic as to give millions to the horny handed sons of toil at the expense of his father's millions.

The American society in London protests against the London shopkeepers trying to draw Yankee custom by printing advertisements on the American flag. It is proposed to boycott such desecration. Most of the British shopkeepers show themselves very amenable to the wishes of the committee, however.

Mr. Joseph Hendrix, the president of the bankers' convention, which recently sat at Denver, in his opening address showed himself less an expert in metallurgy than in finance. He said, "We hold now three of the winning cards for commercial greatness—iron, steel and coal." It is supposed by most people that iron and steel are two forms of the same industry when it is referred to as a factor of industrial enterprise. It may be mildly suggested to the New York banker that steel is iron with a little carbon in it.

Dewey's memorial sword, voted by congress, has been chosen in design. It will consist of a blade of damascened steel with a hilt of solid gold, plain but highly traced. The scabbard will be of dark blue damascened metal inset with gold, and its severe treatment will only be adorned by a terminal of two dolphins. Like the man—blade of matchless temper and edge in a sheath of elegant simplicity.

The Filipino dictator and general, Don Emilio Aguinaldo, wears his gold whistle in vain. It is to the piping of General Merritt's whistle that he has now felt himself constrained to trot.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

Hereafter when prisoners are brought before Recorder Long the officer cannot have small offenders railroaded to Somerville unless he has a witness. That rake-off of $3.61 for each prisoner committed is, it seems, too great a temptation for some officers to resist. Recorder Long is to be commended for this decision.—Borough correspondent in Bound Brook *State Centre*.

* * * * *

It is reported that when the Third Regiment at Pompton Lake was being polled as to the desire of being mustered out or not, some of the men refused to vote because "they came out to obey orders" from the U. S. Government. And they were right. For of all the comic opera scenes of this war, few are funnier than this latest Jersey idea of asking men who have enlisted for two years whether or not they would kindly stay or go home to mamma and papa. That may be politics, but it is not soldiering.—*New Brunswick Home News*.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

The workshop of Guiseppo Simincone, an inventor and cabinetmaker, at Vineland, is the attraction for hundreds of visitors, including schemers and agents. Simincone is sure that before another year he will surprise the world with a perpetual motion machine. Simincone has certainly proven himself a genius by making a bureau of 40,775 pieces of wood, and which opens by secret springs.

* * * * *

Warden Underhill, of the county jail in Newark, is in a peculiar fix. Isaac R. Jones was sent to the jail in October for embezzlement and Underhill set him to work painting. The scaffold broke, Jones was hurt by the fall and sued Underhill personally for $10,000 damages. He obtained an award of $5,000, and an appeal was taken, but the decision was affirmed by Judge Child a few days ago. Underhill was defended by County Counsel Munn and the county paid Munn $100 extra for the service, but will not stand for the $5,000, nor will Underhill's bondsmen have to pay it under any construction of the law. He was not sued as Warden Underhill but as a private citizen. He says he has not got $5,000 and does not know where to get it, and his friends say that, perhaps, he will have to take advantage of the insolvency act.

* * * * *

A rusty-looking individual in shabby clothes made a tour of the stores in Dunellen yesterday. He had a list of set phrases which he used, one to suit every shopkeeper he came in contact with. When he entered the jeweler's he claimed to be a watchmaker and to have learned his trade in London. On the strength of that statement he asked for a "couple of cents to get a loaf of bread with." To the grocer the tale was changed a little. There he had been a grocer in a small city, but had lost his all in the financial crisis. To the cigar seller he was a cigarmaker out of work. At each place the man of many employments ended with a request for a few pennies, and was such a slick talker that in almost every case he got it. The last place he visited was the tap-room of a hotel. What occupation he told the man behind the bar he had followed was not learned, but a wag suggested that it must have been that of a bartender.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

The Katherine Rober Company won the favor of the audience in Music Hall last night by reason of the fact that notwithstanding the slimness of the patrons the performance—"She Couldn't Marry Three"—was not slighted in any particular. The piece is familiar to Plainfielders with Lillian Kennedy in the leading role, but Miss Rober proved a clever successor. Tonight "Spain's Surrender" will be produced and it is of thrilling interest. It is a piece written around a number of the most important incidents of the late war. Miss Rober appears in the character of Evangelina Cisnerros, the famous Cuban girl rescued from Spanish imprisonment.

* * * * *

Again we hear the jingle of the "Bunch of Keys." This dainty and tuneful farce has yearly toured the country and never failed to delight the people and compensate the management. Ada Bothner is the star, Teddy Keys (the infant terrible of the hotel). The management announces a lot of new and pretty girls, and up-to-date songs and novelties. The "Bunch of Keys" never gets rusty, and we hope never will. It is the best farce comedy ever written and Hoyt is the best satirist and humorist we have. The company will be at Music Hall next week.

* * * * *

Clifford and Huth, who star this season in "A High Born Lady" have forsaken the vaudeville ranks for the higher walks of the profession with a laudable ambition to reach the topmost round of the ladder. Last season they were the acknowledged feature of Rich & Harris' "Courted Into Court" Company, and profiting by their success with that company have a clever company of well-known artists in a comedy with an interesting plot and amusing complications. Stillman Music Hall, Saturday night, Sept. 10th.

Nathan Lewis, of West Eighth street, leaves tonight for Hoboken to resume his studies at Stevens Institute.

MAKES HAIR GROW. A lady in Maine writes:—"I had a bald place on the side of my head for 20 years. Have used almost everything, but found nothing like
REYNOLD'S PETROLEUM HAIR TONIC.
I now have a soft, white down all over the place." It stimulates healthy action of the scalp, relieves from dandruff, prevents falling out of hair. No disagreeable odor. An elegant hair dressing. Made only by
T. S. ARMSTRONG, THE APOTHECARY.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, Sept. 3.—W. H. Cole's pump is a good friend to the thirsty these days.

Mrs. Clarence Oakley and son Frederick, of New Brunswick, are visiting Mrs. Oakley's parents, Mr. and Mrs. R. J. Swackhamer.

A wandering showman has made Dunellen his headquarters and exhibits what he calls a "big headed" boy.

Miss Vergie Tunison has returned from Glen Gardner, where she has been visiting her mother.

John Fenner and George Craig are going to Stroudsburg, Pa., next Friday for a ten days' vacation.

Miss Alice Jennings, of Warrenville, is visiting her aunt, Mrs. Charles Jennings.

Mrs. Charles Carpenter is entertaining company from Asbury Park.

George Day, proprietor of *The Call*, visited in Plainfield yesterday.

Mrs. Z. Boice, of Plainfield, spent yesterday in town visiting.

Miss Emma Jones, of Finderne, visited friends here today.

NEW MARKET.

(Special Correspondence of the Daily Press.)

New Market, Sept. 3.—Miss Eva Jenkins and a company of young people from Plainfield formed a merry party on the lake last night.

Several of the stores here and in Dunellen will close Labor Day.

PLAINS AND FANWOOD.

(Special Correspondence to The Daily Press.)

Scotch Plains, September 3—Mrs. Stites M. Parse is spending a week with relatives and friends in Newark.

A number of the boys of the village formed a wheeling party Thursday evening and rode out to Mountainside to serenade a newly-married couple. The boys say they received a fine reception and nothing was too good for them.

There will be union services of the Baptist and Methodist churches in the Baptist church tomorrow evening. Rev. Mr. Woodruff will preach.

The Board of Health met in the town rooms Thursday evening. Routine business was transacted.

Rev. J. S. Braker and family, after an absence of nearly two months, are again occupying the parsonage.

Mrs. Cottrell and daughter, of Bergen Point, are visiting Mr. and Mrs. Benjamin Tuzo.

A number of Scotch Plains people attended the clambake at "The Maples" Thursday.

Rev. J. S. Braker led the prayer meeting in the Baptist church last evening.

Ernest Marsh is taking a course of study at the Plainfield Business College.

Twilight Council, Jr. O. U. A. M., meet in their rooms this evening.

Miss Cora Miller is visiting Miss Florence Darby at Alton.

REALTY CHANGES.

Property Transfers in Plainfield Recorded in County Clerk's Office.

The following real estate transfers have been recorded from Plainfield during the past week:

Morris Abrams et ux. to Hannah Linke, lot 53, section A, "Map of William Picken," $1. Mary A. Shaddle et al. to Kolfenden, Shore & Co., Lt'd, Woodland and Highland avenues, 244.71 feet south to Darling, $16,000. The Central New Jersey Land Improvement Co., to Mary Kane, southwesterly side Filmore avenue, 250 feet northwesterly of North avenue, $350. William T. Kirk, sheriff, to Isaac W. Rushmore, Grant avenue and Eighth street, along Grant avenue, 125 feet south, $4,000. Josephine Marsh et al. to Rachel R. Boice et al, southeasterly side West Front street, 195 feet southwesterly from H. C. Compton, $5,000. J. Fred MacDonald et ux. to Mary Kane, southwesterly side Filmore avenue, 250 feet northwesterly of North avenue, $1. Almira P. Eddey to Fred Endress, southeasterly line South avenue, corner Miller, 2,700.

State Fair, Waverly Park, Sept. 5th-9th

JOTTINGS OF THE DAY.

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—You will always find a good variety of school shoes at VanArsdale's.

—The next regular meeting of the Common Council will be held Tuesday evening.

—The regular meeting of Queen City Lodge, I. O. O. F., will be held Monday evening.

—The September meeting of the Plainfield Board of Education will be held Tuesday evening.

—The monthly meeting of the Plainfield Board of Health will be held Tuesday evening.

—The Plainfield Sanitary Company has moved its offices from North avenue to 220 Park avenue.

—The regular meeting of Trinity Commandery, Knights Templar, will be held Monday evening.

—Regular services will be resumed at the Congregational church tomorrow. The pastor has returned from his vacation.

—A horse sale will be held at the Metropolitan Stables on East Second street next Tuesday at 2 p. m. The horses are well-bred roadsters.

—Harper, of 411 Park avenue, is prepared to show you bargains in stationary and school supplies. See advertisement in another column.

—There will be special music at the First Church of Christ Sunday morning. Miss Lillian Zeisz will sing a solo, accompanied by Miss Sheppard.

—The reading room and art gallery of the Public Library will be open during the usual holiday hours, 2 to 6 p. m., Labor Day. There will be no books given out on that day.

—The Saturday evening meeting at the W. C. T. U., which were formerly conducted by Thomas Graham, will be resumed tonight, although Mr. Graham will not be present to lead.

—The annual Golden Rod excursion will go to Glen Island Friday, September 9th. The train leaves Easton, stopping at all stations along the line, leaving Plainfield at 8:05 a. m. For prices of tickets and further information see bill boards.

—Our store will be closed Monday, but Tuesday morning you will find 250 baskets of fancy peaches, for canning, displayed in front of our store. Don't delay too long in coming, as the warm, dry weather will shorten the season very much. Next week will be *canning week*. NEUMAN BROS., grocers.

—Fred Endress is now the proprietor of three meat markets in this city, his latest enterprise being the branch store at 208 Muhlenberg place, which was opened for business today. Mr. Endress' trade will consume more beef than any other buyer will need in town, and therefore buying in large quantities he will be able to give the lowest prices. And his meats are always of the first quality.

Henry Has His Say.

To the Editor of The Daily Press:—In your article about a road in Warren township, known as the Springdale turnpike, in your issue of Sept. 1st, you state fabrications of a diseased mind with the utmost abandon. There was no such contract given out last spring. Nor would the committee pass such a piece of work even if he was as bright as the man who wrote the article. Please to name the contractor who built that mile of road, as the article still leaves the question open whether it is a stone road or not, the committee would like to settle it. The only contract given out on that road is one to cart cracked stone, which was given out to Frank Alberti for 25 cents per ton. The residents along the road volunteered to cart them free in order to get more stone. This is the only contract that the committee know anything of.

W. H. Rogers,
Ch'n of committee.

Contract Filed.

The following contract has been filed in the County Clerk's office during the past week:

Abner M. Wilcox and George J. Tobin, plumbing work, building on north corner Watchung and Woodland avenues, Plainfield, $566.

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Malaria, Chills and Fever. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating Tonics. Price, 50c. For sale by R. J. Shaw. 11 30 eod 1y

Sydney R. Titsworth, of West Fifth street, returns to Alfred University tomorrow evening to resume his studies.

Andrew Wilson, of Mountain avenue, has returned from a short stay at Miss Suzella Honat's in Philadelphia.

Miss Mabelle Force, of Watchung avenue, left for Philadelphia this morning, to visit relatives. She will return Tuesday.

Mr. and Mrs. Jack Bartindale, of New York, have rented a house on East Ninth street, near Third place, and will take possession shortly.

Mrs. C. V. Cadmus, of Newport News, Va., accompanied by her son, Abram, is visiting her sister, Mrs. Andrew Johnson, of Duer street.

Charles E. Horne and son Roland Horne, of Willow avenue, and Donald A. McGee, of Orchard avenue, left yesterday for Beach Haven to spend a week.

Mr. and Mrs. W. F. Williams, of Central avenue, are at Bergen Beach, Long Island, the guests of Mr. and Mrs. W. H. Voorhees, until Monday evening.

James A. Stafford, of Grandview avenue, will return Monday after spending two weeks on the yacht "Teal" cruising with a party in Barnegat Bay.

The marriage of Miss Maude Mosher, of East Fifth street, to George Homan, son of Councilman Homan, will take place at the home of the bride, September 14th, at 7 o'clock.

Mr. and Mrs. T. H. Cuming and children have gone to Asbury Park to remain until Tuesday when the Misses Cuming, who have been staying at the Park for two weeks, will accompany them home.

Rev. Cornelius Schenck, Ph. D., pastor of Trinity Reformed church, has returned from the Catskill Mountains, feeling much improved in health and will meet his congregation tomorrow morning at the usual hour.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness, caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

36 inch Denim.....10c yard
50 inch Furniture covering..23c yard
Ladies fine lisle hose, 50c quality, 29c pair.

Edward White.

A NEW FIELD FOR WOMEN.

It Is in a Big New York Hospital, Where They Remain Until They Marry.

There is a branch of woman's work going on in the big red brick building at Forty-second street and Lexington avenue, New York, which does not figure in the labor statistics, and the big building in which it is done does not have the reputation of being a business building.

The big building is that of the New York Society for the Relief of the Ruptured and Crippled Children, and the girls, most of them in the little rear room, went to the place years ago to be treated and are now at work covering the braces used in the hospital. These are all made in the building, the lower corner front room being occupied by workmen who do the first part of the work.

This is a unique feature of the institution, which works altogether along lines quite different from those of any other place in the country. The little patients who come ther from the poorer parts of the city have frequently to stay years to be treated. They are not like patients who are confined to the bed. They are up and around the rooms, and for them the hospital authorities have arranged a regular scheme of education.

It commences with a kindergarten for the babies, and goes on in classes—necessarily ungraded—until the little ones have received a very fair English education. Then, when they are cured, the parents take them, or, if the parents have died or disappeared during the time, they go to another institution and are further prepared for a life outside, where they can be self supporting.

But occasionally there are cases which require treatment until the children are fully grown, when they will become comparatively well, but with only a limited sphere of work opened for them. Then if the children are girls the institution steps in and fills the gap.

There is a great deal of sewing to be done in a big house filled with little children, and so some of these girls who have been brought up in the place go into the sewing room and mend little frocks and bed linen and get a small salary and have a comfortable home. But others—and that is where the new branch of woman's work comes in—are taken down stairs and taught how to put the padding on the tops of braces, cover them with chamois, and finish them off neatly. They, too, have a salary and a home until—but that comes a little later. There are now seven of these girls in the hospital.

There is one quite young girl there who is a unique feature of the hospital work. She has been cured so thoroughly that she is able to go out to business. The teacher of the regular English branches of the school, who understood stenography and typewriting taught this young girl, and she now has a place down town, and the hospital authorities give her a home. That will be until she has become so expert in her work that she can earn a larger salary and take care of herself entirely. That is a very unusual case.

But the question comes up if the hospital keeps taking as helpers from the ranks of its children and continues to employ them, why, as it increases in years—and it is of a respectable age now—will it not eventually become an old woman's home, with no room for the regular occupants. That question is easily answered:

"But we don't keep the girls," laughs the superintendent of the hospital, "they get married. They form a circle of acquaintances outside the hospital through other workers here, and very soon marry." So they only receive work and a home until they marry, for Cupid and Hymen are not to be kept out by either bars or hospital walls.—New York Times.

How Bees Wax is Made.

One of the most taxing of the bee industry is the making of wax. Bees gorge themselves with honey, then hang themselves up in festoons or curtains to the hive, and remain quiescent for hours; after a time wax scales appear, forced out from the wax pockets. The bees remove these scales with their natural forceps, carry the wax to the mouth, and chew it for a time, thus changing it chemically. Thus it may be seen that wax-making is a great expense to the colony, for it costs not only the time of the workers, but it is estimated that twenty-one pounds of honey are required to make one pound of wax.—Chautauquan.

Old Rhymes.

The old, merry rhyme, "Girls and boys come out to play," is said to date back to the time of Charles II., in whose reign "Lucy Locket lost her pocket" is supposed to have had its origin. "Sing a song of sixpence" is traced back to the sixteenth century. "Pussy cat, pussy cat, where have you been?" is of the Elizabethan period. "Little Jack Horner" is probably as old, and "London bridge is broken down" is of unknown antiquity.

A Magnetic Island.

In the Baltic sea there is an island of Denmark called Bornholm, which consists almost entirely of magnetite. It is much dreaded by navigators, because it renders steering a ship by means of a needle impossible. This influence is felt miles away, and as soon as the island is sighted all mariners of the Baltic turn to light houses, etc., to direct their course.

In England and Wales one person in every 1,236 is blind.

The Smallest Watch.

What is said to be the smallest watch in the world has been on exhibition in a shop window in Berlin. It is the latest triumph in the art of watch-making—that art that has made such a wonderful progress within the past decade. The Lilliputian timepiece was made in Geneva. Its diameter is less than half an inch; its thickness is little more than a tenth of an inch. The entire works of the tiny watch comprise ninety-five individual pieces. After having been wound up with the diminutive key, the watch will run for twenty-eight hours. The most delicate tools and measuring instruments were made specially for its construction. The preliminary work in the making of the watch was very expensive, and the selling price is $1250.

Ready for the Seashore.

One of the problems of the summer is how to dress the children in order to keep them neat looking and at the same time not overburden them with unnecessary clothing.

The dress which has and always will prove most popular for seaside wear is the flannel or serge sailor suit. As these suits are usually made without lining and of the lightest weight material, they are every bit as cool and comfortable as dresses of thinner goods.

A pretty suit of navy blue serge, has the short skirt made with pleats. The sailor blouse is adorned with an immense collar of white pique, while the vest in plastron is of the same material, embroidered with an anchor. Tiny cuffs of white trim the edges of the sleeves.

Use for Old Pillow Covers.

Old linen pillow cases that are worn to the verge, but not over it, of breaking in places, may be slipped out of the linen closet and put aside to be used as bags in which valuable winter garments may be safely put away. Any place that is fretted through should be reinforced with a piece of old material, either cotton or linen, and when the coat or gown is carefully brushed to see that absolutely no moth egg or creature is left in, it may be inserted. The ends of the case are then slipped in the machine and closed tightly. Thus protected, it is safe to keep the garment in bureau drawers, a few pieces of lump camphor being tossed in as an additional safeguard.

When Young People Grow.

The year of greatest growth in boys is the seventeenth; in girls, the fourteenth. While girls reach full height in their fifteenth year, they acquire full weight at the age of twenty. Boys are stronger than girls from birth to the eleventh year; then girls become superior physically to the seventeenth year, when the tables are again turned, and remain so. From November to April children grow very little and gain no weight; from April to July they gain in height, but lose in weight, and from July to November they increase greatly in weight, but not in height.

Creamed Fish.

In creaming fish in the chafing-dish, the plebeian and inexpensive cod becomes as toothsome as salmon or halibut, if properly marinated. This seasoning should be applied half an hour before the fish is to be creamed, and, of course, after it is boiled, the latter should be flaked and carefully freed from bones and skin. To a tablespoonful of olive oil add a half-teaspoonful of onion-juice, the juice of half a lemon, a pinch of salt, a bit of paprica, and celery-salt. Pour this mixture over the fish, turning it with a fork that it may penetrate throughout; then cream as usual.

A New Experiment.

The latest thing to be utilized by the grasping decorator is the ribbed pasteboard similar to that in which bottles are wrapped. This dull, tinted, corrugated surface has attracted their artistic eyes, and they have boldly seized upon it to accomplish some very good effects. As usual, they take the country houses for their daring experiments, because there one expects, or at least forgives any bizarre scheme in the way of decoration. The pasteboard is used in its natural color of a sort of coffee brown, or it is sometimes painted over in a dull red, green, or yellow.

A Chinese Baby Show.

A Chinese baby show was one of the attractions at the mining fair at San Francisco. Two hundred babies of Oriental parentage were displayed, and the sight was unique on this occasion. The little boys had their heads shaven, and the girls had their hair stiffened and decked with fringes of beads and paper flowers. The complete gravity and silence of this array of Celestial infants added to the queerness of the show.

To Frost Currants.

To frost currants, that palatable fruit being at hand now, only very large and perfect clusters should be used. Beat the white of an egg to a stiff froth; dip the clusters in this, and let them lie a moment on a wire sieve to drain before they are lightly rolled in powdered sugar that has been pulverized to the last degree wth a rolling-pin. Spread the sugared bunches on a clean white paper, slipping this on a tin plate to dry in a cool oven.

Teaching Boys to Cook.

The domestic science department of a woman's club has found a class of boys recruited to be instructed in camp cooking exceedingly profitable. The boys are from the families of well-to-do persons, and become remarkably proficient in making coffee, broiling steak, bacon, or fish, tossing together corn-bread, and preparing eggs in various toothsome ways. The idea is a valuable one, now that summer camps for growing lads are popular.

MONEY TO BURN.

What It Costs to Discharge a Mortar Shell.

The new model American mortar battery, as now installed at Sandy Hook, presents many novelties, we might say, in the art of ordnance hitherto unpracticed.

When the sixty mortars are fired at once, as is the design, Sandy Hook will be a new rival to Vesuvius. And as each shot is twelve inches in diameter and weighs half a ton, one can see what an annoying thing it will be to an enemy's fleet to encounter our mortars on a summer's day. These "barkers" are to be put in one circuit and fired from armored turets placed in out-of-the-way localities that command a full view of the appoaches to New York harbor from the sea. And as the channels are spaced off into imaginary squares, the officer, with his plane tables and range finder, simply follows the enemy's boats with his telescope. When the instrument locates the fleet on a certain square the telescope conects a circuit that fires a pit previously ranged on that certain square. As these pits are deep in sand, surrounded by natural scenery, it is hard even for a Sandy Hook officer to go off shore and locate one. The only weak spot is the Atlantic Highlands, from which, if an enemy should capture it, the shelling of the "Hook" could be done. But to take the Highlands would be very difficult.

It is intended that the mortar shells shall be fired into the air at such an angle that they will drop upon the enemy's decks. No ship has yet been built that can resist such an attack.

Curiously enough, after they have been fired, you suddenly see them at a great height, sailing along together like a flock of geese. They as suddenly disappear in midair and strike at your feet almost at the same time. As each discharge costs about $50,000 for the entire sixty pieces, one hour's active work foots up a cost of $1,-000,000, or for a day's work, $10,000,000. One can therefore see that Uncle Sam has powder to burn.—Leslie's Weekly.

TESTING HIS FAITH

The Boy Ate All the Doughnuts He Could Find Room For.

"What's the matter, Johnnie; you seem to be feeling good?" asked one of his father's neighbors.

"Great! We got Christian Science over t' our house," said the boy, as he munched one doughnut and waved a second in the air.

"Christian Science? What do you mean?" inquired the puzzling neighbor.

"It's just immense!" cried the boy. "Best thing that ever happened. It's just the boss, I tell you!"

"I have heard that it sometimes did wonders," observed the neighbor, "but I didn't suppose boys knew much about it. Has it benefited you, Johnnie?"

"Benefited me!" echoed Johnnie. "You just bet it has! It's great! When you're Christian Science, you know, you ain't never sick. Benefited me? I should say it had. I kin slosh around in the snow all day now and eat fourteen doughnuts and ma never says a word, fer I can't be sick—see? I just can't be sick!"—Harper's Bazar.

A Dog Without a Frontal Bone.

The Stockholder tells of a remarkable hairless dog owned by Mrs. Brinsley Sheridan. It possesses not one single hair, and "is about the size of the average baked potato and as hot, for it exists normally at a temperature of 103 degrees. It lives a veiled and shrouded life in a basket wrapped in cotton wool, but when placed upon the ground is as active as a little pink rabbit, pricks its little bald ears, and prances with incredible gaiety." But, though bald, it is hungry, as its fowl bill mounts up to something considerable in the course of a year. But the most curious thing about the creature is the formation of the skull; which is minus the frontal bone, so that the brain is only covered with skin.

Old Abe, The Wisconsin War Eagle.

"Old Abe" is the mascot, who went through the civil war at the head of the Eighth Wisconsin Regiment. Everybody has heard of "Old Abe." Poems and songs have been written in his honor. Anecdotes by the hundred have found their way into print, and his life and adventures form the subject of a book of 120 pages, of which more than 50,000 copies have been sold. He posed for paintings to the most famous artists, and his noble features were embalmed in marble and bronze by sculptors. To-day stuffed, he stands in the war museum at Washington.—New York World.

The Albino—Why is the Living Skeleton so cold and reserved?

The Fiji—Well, you know, it is impossible for him to be very thick with anybody.

ARABIAN WOMEN AND MARRIAGE.

Their Life is Full of Sentiment and Quaint Customs.

Arabians have peculiar ideas on the marriage question. An Arab will invariably offer marriage to his brother's widow. It is considered a sign of respect to the dead brother and the living woman by so doing, as the Semitic tradition in the Hebrew and Christian Scriptures tells us. In an Arab town a statement made before the cadi constitutes all the essential marriage ceremony. In the desert the only necessary function is the slaughtering of a sheep within or before the tent of the bride's father. Arabs not infrequently change and exchange wives, to the high satisfaction of all concerned. If a man is dissatisfied with his wife he may return her to her father, but he must also return her marriage portion in full, and if she be of the Bedouin blood, a she camel must be added to the original dower. Arab wives as a rule are treated with consideration and with no small share of tenderness. In Arabia woman's position is one of dignity, her attitude one of self-respect. Arab men are as full of sentiment as of prowess, and no more ashamed of the one than the other.

In some Arab tribes a man and maiden breaking together before three witnesses a flat, thin cake of almond paste are formally affianced. An Arab has an absolute right to the hand of his girl cousin. He must formally renounce that right before she can marry any one else. When a girl has more than one male cousin, the prior claim is the oldest cousin's, or, in some tribes, that of the oldest unmarried cousin. The man must provide all necessaries for his wife and if she has money or earns any she spends it in dress. If she makes him a skull cap or a handkerchief he must pay for her work.

In the land of Ishmael no honeymoons are ever taken by the bridal couple after the ceremony has been performed. However, it frequently falls to the lot of the bride-elect to make a very trying journey just previous to the marriage. If the is to be married to a man in a neighboring town she goes to him—not he to her, for she is leaving her home and he is not—what more natural than that she should be put to the inconvenience? Besides, it is considered luck for the bride to cover the distance, if there is any, between herself and her future husband. And what a picture she makes as she comes riding proudly her nuptial camel! She rides in a litter, canopied by embroidered, tasseled and tinseled silk or fine cloth. On the canopy is an appropriate text from the Koran, embroidered in gold. The camel wears a proud plume of ostrich feathers. His long neck is dyed deep with brilliant hannah. His face and head and hung with wee mirrors, which flash in the sunlight. His grotesque bulk and his gaunt legs are swathed and hung with shulkaris—strange eastern cloths delight with squares and ovals of looking glass and long, thick stitches of rich silk. Some girl or woman friend rides with the bride, and attendants and protectors precede and follow her. —Springfield Republican.

Their Fixed Tastes.

The circulation and distribution of books during the last century may be illustrated by the following anecdote of the Scilly Islands—there are 365, out of which four or five only are inhabited. The library consisted of two books, a copy of the Bible and the "History of Dr. Faustus." The latter book was handed about from house to house and was dropping to pieces by continual thumbing, until at last little was left either of his wonderful enchantment or of his terrible end.

This being made generally known, a meeting of the inhabitants was called, and it was resolved that as soon as the season permitted any intercourse with Cornwall a fresh supply of books should be sent for. What books, however, were to be ordered? The meeting considered this question very earnestly. At last it was unanimously agreed that the Penzance bookseller should be ordered to send them, at once, one new book, a new copy of "Dr Faustus."

Unintentional Injury.

"Young man," said the Senator to the reporter, "you have done me irreparable harm."

"What have I done?" asked the bewildered reporter.

"I got in largely on a temperance platform, as you may recollect."

"Yes, sir."

"And you speak of me in this morning's paper as 'drinking my coffee with gusto.' It will take me more than a lifetime to get it out of the heads of my constituents that gusto isn't some kind of alcoholic beverage."—Cincinnati Enquirer.

Was Certainly Excusable.

The teacher of a city school recently received the following note explaining the absence of one of the pupils the day before, according to Harper's Round Table: "Please excoose Henny for absents yesterday. Him and me got a chance at a ride to a funeral in a charrige, an' I let him stay at home, as he had never rode in a charrige an' never went to a funeral nor had many other pleasures. So plese excoose."

Ignorant Educator.

Willie—Say, pa; didn't you tell me the other day that it was wrong to strike any one smaller than yourself?

Pa—Yes, Willie; that's what I said.

Willie—Well, I wish you'd write my teacher a note to that effect. I don't think she knows about it.—Chicago News.

Lokal-Nachrichten aus der alten Heimath.

Bayern.

München. Im hiesigen Rangirbahnhofe wurden im Jahre 1897 1,096,089 Waggons, die mit ankommenden Zügen eingelaufen und mit abgehenden Zügen weggelaufen waren, mittelst der vorhandenen 12 Rangirmaschinen sortirt und in die Züge eingereiht; von diesen Waggons blieben 354,868 in den Beladungs- und Entladungshöfen des hiesigen Centralbahnhofes, etwa 700,000 Waggons transitirten über München.—Im Keller einer Brauerei an der Landsbergerstraße wurde ein Arbeiter durch Umstürzen des Kühlapparates erdrückt.

Augsburg. Die hiesige Strafkammer verurtheilte den 17jährigen Brauerssohn Vogt von Burtenbach zu acht Jahren Gefängniß. Der Bursche hatte sein 26 Tage altes uneheliches Kind in der Wohnung von dessen Mutter durch Einflößen von Gift getödtet, um der Sorge für das Kind enthoben zu sein.

Freising. Die beim neunten deutschen Turnfest in Hamburg weilenden Freisinger Turner, die am 26. Juli die Turnfahrt nach Helgoland mitmachten, gaben bei Curhafen in einer gut verkorkten Flasche eine Ansichts-Postkarte den Weilen Preis; diese wurde bei der Entenjagd in den Watten bei Glückstadt, Schleswig Holstein, aufgefunden und an die Adresse des hiesigen Turnvereins gesandt.

Kitzingen. In Fohr ist der weit und breit bekannte Obsthändler Josef Kirch gestorben. Er war dadurch interessant, daß er bis in die 20er Jahre als Mädchen galt. In der Taufe hatte er den Namen Josefine erhalten, hatte dann als Näherin gelernt und trieb einen Obsthandel. Erst in seinem 28. Jahre wurde sein Geschlecht erkannt und er vertauschte seinen Mädchenanzug mit Männerkleidern. Er stellte sich zur Militärmusterung, wurde aber nicht für tauglich befunden. Vor mehreren Wochen fing er an einem Herzleiden zu kränkeln an, dem er erlag.

Kempten. Auf der Mädelegabel, der, südlichsten Warte des geliebten deutschen Vaterlandes, feierten alte und junge Studenten in ernster Stimmung das Andenken des unvergeßlichen Reichskanzlers Fürsten Bismarck und spendeten den Manen des Edelsten der Nation eine stille Libation. Der feierliche Akt wurde in markigen Worten im Fremdenbuche konstatirt.

Nürnberg. Die Kirchenverwaltung beschloß, einen besseren Zugang zum Grabe des in 1528 verstorbenen berühmten Malers und Kupferstechers Oberst Türer auf dem Johanniskirchhofe dadurch zu schaffen, daß die unregelmäßig gelagerten Grabsteine in regelmäßige Reihen gesetzt werden. Das Grab war bislang nur sehr schwer zu finden.

Oberhausen. Anhier verschied nach längerem Leiden der Apotheker Max Hauer, Vorstand des Apotheker-Gremiums von Schwaben und Neuburg. Der Verstorbene war auf dem Gebiete der Schriftexpertise und der photographischen Untersuchung eine Autorität und bei zahlreichen Prozessen als Sachverständiger thätig.

Regensburg. In dem kaum 700 Einwohner zählenden Dorf Wildenranna zerstörte ein Brand 31 Gebäude. Leider kamen zwei Personen bei dem Brande um das Leben.

Starnberg. Vor einiger Zeit ließ sich bei der Station Mühlthal eine unbekannte Frau von einem Eisenbahnzuge überfahren. Bei der Selbstmörderin fand man eine goldene Uhr, Brillantringe und andere werthvolle Gegenstände. Die Nachforschungen ergaben, daß die Selbstmörderin die Privatiere Hartung aus Würzburg war. Die Dame sollte sich damals wegen Hehlerei verantworten, zog es aber vor, den Tod zu suchen.

Aus der Rheinpfalz.

Frankenthal. Das kürzlich hier gestorbene, als Wohlthäterin bekannte Fräulein Amalie Foltz bedachte außer vielen Privaten, Dienstboten u. s. w. auch unsere Stadt in ihrem Testamente. Sie bestimmte ihr schönes Wohnhaus zur Errichtung eines Waisenhauses mit einer Verwaltungssumme von 152,000 Mark. Ferner bedachte sie verschiedene andere gemeinnützige und wohlthätige Anstalten mit einer Gesammtsumme von 106,000 Mark.

Germersheim. Die Kaufmannsfrau Braun ertränkte sich mit ihren beiden Kindern im Rhein. Unglückliche Familienverhältnisse bilden das Motiv.

Pirmasens. Der 30jährige Schuster Kornberger wurde von dem 23jährigen Schuster Albert aus Eifersucht erstochen.

YOU'RE READING THIS?

CERTAINLY!

Well, Mr. Merchant-who-thinks-of-advertising, this is only one of the many corners in THE DAILY PRESS—it isn't the best located one, either; we can give you better—and if this attracts your attention in our endeavor to tell you how good advertising will get you a hearing before the purchasing public, doesn't common sense teach you that if you were having people reading your trade story instead of you're reading our argument about it, that it would be better for your business.

THE DAILY PRESS reaches the purchasing public that makes the profits for the merchant.

We can give you big or little space—but in advertising it is'nt always economy to be sparing in your appropriation.

ORRA'S CASE.

BY M. E. WOOD.

"Do something for this arm; it is scalded." The man sank into the large surgical chair and closed his eyes as though faint. The woman placed dressings and bandages upon the table near him, then ripped out the coat sleeve, cut away the shirt sleeve, and applied something that brought such relief that the man opened his eyes and watched her deftly bandage the injured arm.

"I think I'll sling it; it will not be apt to pain you as much; have you a large handkerchief?"

"Yes," producing one. "Does the scald amount to much?"

"Painful, but not dangerous."

"I am an awful coward about bearing pain."

"Another boiler burst at the mill?" queried the woman.

"We were measuring for new ones when I got this beastly scald."

"I am glad. The old ones were always hurting somebody, and now the mill hands will not have to suffer from your negligence. You are Mr. Harriman?"

"And you are Doctor Owen?"

"Of course. I should not be in the office attending patients if I were not."

"I've been wondering why he did not come in."

"Whom did you think me?"

"Oh, an assistant—his daughter, perhaps."

"I am Doctor Owen's daughter and successor." Her face softened. "Papa was ill a long time, and scarcely able to make his rounds. I went with him and helped him in his work. Afterward I took the State examinations. When he died the people sent for me, and," smilingly, "here I am."

The man was silent a few minutes; then he said,—

"So you wrote me those letters?"

"Did you think me very impertiment?"

"I said, 'Confound that fellow's impudence!' every time I got one of them. You wrote in your last you would like to shake me for my neglect of the mill employees, and now," comically, "I am at your mercy."

"I never ill treat a patient, so you are safe for the present. This object lesson," touching his bandaged arm, "will do more for your men than all my letters."

"So they brought me home from Heidelberg to get this, and to be denied sympathy from my doctor, too."

"We are proverbially hard-hearted, you know."

"You do not look so, Miss Orra, and you are very different from my idea of women doctors."

"What was your idea?"

"Oh, big nose and eye-glasses, loud voice and—and horrible."

"No doubt you thought we smoked and chewed and swore," sarcastically.

"No, not that; but I have an old-fashioned aversion to advanced women."

"I am glad you admit it is old-fashioned. I," emphatically, "have always disliked prigs."

Miss Owen went on refilling bottles and placing them on their shelves. Her eyes were very bright. The patient coughed and placed his feet heavily upon the floor. The woman turned.

"You are angry now, aren't you?" he asked. "I am sorry. I didn't think you would mind what I said. I am willing to take it back. Besides, you are not long-nosed and spectacled," laughing. "Shake hands and make up."

He extended his firm white hand, and compelled by the friendliness of his eyes, she placed hers within it.

"I am so tired of being considered an advanced woman. I have to earn my bread and mamma's too, and this is the only way. Besides, I love medicine and though I say it who shouldn't, I am successful in my practice."

"I take my arm as proof of what you say; it is much easier."

"You must go now. I will give you some pills to put you to sleep if the arm is troublesome to-night, and do not eat a heavy dinner. Good-by."

The man went; he could not do anything else after her dismissal. He walked away thinking about her. She was something new; he had not associated with women during his college life, and had been without women relatives from boyhood. While Orra was not pretty she had a sweet, true face, and—and——

Every day for a week Harriman went to the doctor's office and remained for the entire afternoon, and the two quarreled, and discussed their favorite books, and were chums. Orra liked this breezy fellow with his air of the outside world, and when with him forgot the wooer who had so long before loved and ridden away, leaving her desolate. She could never care for another man; her heart was still with her faithless lover. But she and Philip understood each other; he knew her thoughts from her face, and she could finish his sentences for him, and did when he was not quick enough to finish them first. She went with him to the mill and gave helpful suggestions, and he smiled when he heard one workman call to another,—

"Here's our Miss Orra."

After the visit to the mill, Orra invited Harriman to stay to tea. She said,—

"Mamma will be glad to see you. As she never leaves her rooms, a stranger is a delight to her." She hesitated a moment, then added frankly, "She has rather peculiar ideas, and doesn't know that I am a practising physician. You will never underceive her?"

Without waiting for a reply she led him up a few steps from the office, across a wide hall into a bribht, cheery, homelike room. The pale old lady sitting by the fire put out a weak hand for him to shake.

"Orra has told me about you, and I knew you when you were a little boy and used to pull my Bettie's hair. You were very mischievous, Philip. Have you outgrown your faults?"

"Well, I have not pulled any one's hair lately, but Miss Orra and I have almost come to blows several times."

He looked roguishly at Orra, who smiled in return. She was laying the cloth, bringing in different dishes, and boiling the water for tea in a pretty brass kettle.

"Orra has everything as convenient as she can, so she may be with me as much as possible. Nursing is a miserable occupation; it keeps her away from home. I almost wish I had consented to her practising medicine, but it was so unwomanly that I couldn't endure the thought."

"Mr. Harriman will quite agree with you, mamma; he thinks women doctors are all old maids, with long noses, spectacles and freckles. How is the salad? I pride myself on that."

"Did you make it?"

"Oh, I do all our fancy cooking. Janet is young, and cannot do very much as yet."

"She was hurt in the mill and had nowhere to go. So Orra very foolishly brought her here. We cannot afford to keep two girls. Mary could get work elsewhere, but Janet couldn't. Orra does what she cannot manage—as if she had not enough to do without household duties!"

"Now, mamma, Mr. Harriman will not come to tea again if you talk the servant question to him," Orra broke in. And for the rest of the meal they were merry.

That night, as he walked home, Philip Harriman decided that whether she were new or old, Orra was the one woman for him. She was all that was good and true and tender. Her mother's nagging voice rang in his ears. Poor little girl! How could she bear it all so bravely? When she was his it would be different.

CHAPTER II.

Orra did not go to bed, as she intended after Harriman left her, but sat thinking of the time when her father had been at his desk while she sat at the table with Lyle Artan, his assistant, studying "dry bones" or plates, Lyle explaining everything she could not understand. She was only sixteen then, and he was thirty-five, yet she had loved him. Those two, her father and Lyle, were her world; and he had been gone fourteen years, her father six. She called herself "Daddie's boy" in her baby days, and at the last Doctor Owen had put his weak hand on her head and said,—

"More to me than twenty sons," and Orra was repaid for her lifelong devotion.

The next day Orra received a note from Philip, telling her of his love, and asking if he might come that afternoon for his answer. She wrote "Yes," and went her rounds strangely preoccupied and came home at dinner time, still undecided as to what her answer would be. But she put a few red geranium blossoms in her black dress, and went out to the garden.

It was one of those delicious, summery days in April that sometimes succeed a cold, rainy day. The birds were chirping gaily, and it sounded as though they said "Lyle!" "Lyle!" "Lyle Artan!" and then she heard a step and decided, "I will be his wife and forget."

She turned, with hands outstretched, then paused and let them fall to her side. Lyle Artan stood before her.

"Have you no welcome for me, Orra?" he asked.

"Forgive me and say you are glad to see me after all these years!"

"Fourteen weary wasted years, Lyle. Why did you leave me?"

Her voice sounded hard and far away; she wondered at it in a dim way.

"I was jealous, dear—a fool and blind! I met young Hemslie after I left you here, one day, and he walked to my rooms with me. You had been driving with him in the afternoon——"

"Mamma made me go," interrupted the woman.

"And he said you loved him."

"It was a lie, Lyle! And you believed him?"

"I thought you would not send me away because you pitied me, and knew how great was my love for you. So I said, 'I will not stand between those two; they are young; I will go away and they will be happy.' Last year, in Africa, I heard that he had married and you were free, and I came home to ask you to forgive me and forget the past."

Philip Harriman came through the office into the garden and stood behind them. Orra looked at him, and in a flash read her own heart.

"Oh, Lyle, it is too late!" she cried. "Nothing can ever be as it was. I forgive you, but I shall never be your wife."

"There is another?" he asked, with a yearning look at her white face.

"Yes," she murmured. "I am sorry, Lyle——"

He turned and walked away slowly, like one grown suddenly old. Then Philip came and stood before her, and the light in his eyes was dazzling.

"Orra, my darling, are you going to send me away also?"

"You heard what that man said." Her voice was almost harsh. "I loved him once. Knowing this, do you care to have me for your wife?"

For answer he held out his arms, and with a half sob the new woman crept into them as if they were her only earthly refuge. She had found her own at last.

JUSTIFIABLE DECEIT

"Yes, mother, he will come. Of course he will come!" and the girl turned her drawn and anxious young face toward the cottage door, just as if her blind mother could see the action.

It is probable that the old woman divined the longing glance from the change in the girl's tone, for she, too, half turned toward the door. It was a habit these two women had acquired. They constantly looked toward the door for the arrival of one who never came through the long summer days, through the quiet winter evenings; moreover, they rarely spoke of other things; this arrival was the topic of their lives. And now the old woman's life was drawing to a close, as some lives do, without its object. She herself felt it and her daughter knew it.

He had left them eighteen years before in a fit of passionate resentment against his father, whose only fault had been too great indulgence for the son of his old age. Nothing had been too good for dear Stephen—hardly anything had been good enough. Educated at a charity school himself, the simple old clergyman held the mistaken view that no man can be educated above his station.

Stephen Leach left England, and before he landed in America his father had departed on a longer journey. The never-do-well had the good grace to send back the little sums of money saved by his mother in her widowhood, and gradually his letters ceased. It was known that he was in Chili, and there was war going on there, and yet the good old lady's faith never wavered.

"He will come, Joyce. He will surely come."

And the girl would go to the window and draw aside the curtains, looking down the quiet country road toward the village.

"Yes, mother, he will come," was her usual answer; and one day she gave a little exclamation of surprise and almost of fear.

"Mother," she exclaimed, "there is some one coming along the road."

The old lady was already sitting up in bed, staring with her sightless orbs toward the window.

Thus they waited. The man stopped opposite the cottage, and the two women heard the latch of the gate. Then Joyce, turning, saw that her mother had fainted. But it was only momentary. By the time she reached the bed her mother had recovered consciousness.

"Go," said the old lady, breathlessly, "go and let him in yourself."

Down stairs on the doorstep the girl found a tall man of thirty or thereabouts with a browner face than English suns could account for. He looked down into her eager eyes with a strange, questioning wonder.

"Am I too late?" he asked, in a voice which almost seemed to indicate a hope that it might be so.

"No, Stephen," she answered. "But mother cannot live much longer. You are just in time."

The young man made a hesitating little movement with his right hand and shuffled uneasily on the clean stone step. He was like an actor called suddenly upon the stage, having no knowledge of his part.

When he followed the girl across the threshold of their mother's bedroom the old lady was sitting up in bed holding out trembling hands toward the door.

Here Stephen Leach seemed to know better what to do. He held his mother in his arms while she sobbed and murmured out her joy. He had no words but his arms meant more than his lips could ever have told.

It would seem that the best part of happiness is sharing it with some one else.

"Joyce," continued the old lady, feverishly, "I am not afraid to die now for Stephen is here. Your brother will take care of you, dear, when I am gone."

It was strange that Stephen had not spoken yet, and it was perhaps just as well, because there are occasions in life when men do wisely to keep silent.

"He is strong," the proud mother went on. "I can feel it. His hands are large and steady and quiet, and his arms are big and very hard."

The young man knelt upright and submitted gravely to this maternal inventory.

"Yes," she said, "I knew he would grow to be a big man. His little fingers were so strong—he hurt me some times. What a great mustache. I knew you would become a soldier. And the skin of your face is brown and a little rough. What is this? What is this, Stephen, dear? Is this a wound?"

"Yes," answered the prodigal, speaking for the first time. "This is a sword cut, I got that in the last war. I am a colonel in the Chilian army, or was, before I resigned."

Such was the home-coming of the prodigal. After all he arrived at the right moment in the afternoon, when the house was ready. It sometimes does happen so in real life, and not only in books. There is a great deal that might be altered in this world, but sometimes by a mere chance things come about rightly. And yet there was something wrong, something subtle, which the dying woman's duller senses failed to detect. Her son, her Stephen, was quiet and had not much to say for himself. He apparently had the habit of taking things as they came. There was no enthusiasm, but rather a restraint, in his manner, more especially toward Joyce.

After the first excitement of the return was over it became glaringly apparent that Stephen had just arrived in time. His mother fell into a happy sleep before sunset, and when the active young doctor came a little later in the evening he shook his head.

"Yes," he said. "I see that she is asleep and quiet—too quiet. Some old people have it."

Presently the doctor took his leave. He was a young man engaged in getting together a good practice; and in his own interest he had been forced to give up waiting for his patients to finish dying.

"I am glad you are here," he said to Stephen, who accompanied him to the door. "It would not do for your sister to be alone; this may go on for a couple of days."

It did not go on for a couple of days, but Mrs. Leach lived through that night in the same semi-comatose state. The two watchers sat in her room until supper time, when they left their mother in charge of a hired nurse, whose services Joyce had been forced to seek.

After supper Leach seemed at last to find his tongue, and he talked in his quiet, almost gentle voice, such as some men possess, not about himself or the past, but about Joyce and the future. In a deliberate, business-like way he proceeded to investigate the affairs of the dying woman and the prospects of her daughter; in a word, he asserted his authority as a brother, and Joyce was relieved and happy to obey him.

It is not in times of gayety that friendships are formed, but in sorrow or suspense. During that last evening this brother and sister suddenly became intimate, more so than months of prosperous intercourse could have made them. At ten o'clock Stephen quietly insisted that Joyce should go to bed, while he lay down, all dressed, on the sofa in the dining-room.

"I shall sleep perfectly; it is not the first time I have slept in my clothes," he said simply.

The next morning Mrs. Leach was fully conscious and appeared to be stronger; nevertheless she knew that the end was near. She called her two children to her bedside, and turning her blind eyes toward them, spoke in broken sentences:

"I am ready now—I am ready," she said. "Dear I am going to your father—and . . . thank God I can tell him that I left you together. I always knew Stephen would come back. I found it written everywhere in the Bible—kiss me, dear!"

The man leaned over the bed and kissed her.

"Ah, she sighed, "how I wish I could see you—just once before I die; Joyce!" she added, suddenly turning to her daughter, who stood at the other side of the bed, "tell me what he is like. But I knew . . . I know—I feel it. Listen! He is tall and spare, like his father. His hair is black, like his father's—it was black before he went away. His eyes, I know, were dark—almost black. He is pale—like a Spaniard!"

Joyce looked across the bed with slow horror dawning in her face, looked into a pair of blue eyes beneath tawny hair, cut short, as a soldier's hair should be. She looked upon a man big, broad, fair—English, from crown to toe—and the quiet command of his lips and eyes made her say:

"Yes, mother, yes."

For some moments there was silence. Joyce stood pale and breathless, wondering what this might mean. Then the dying woman spoke again:

"Kiss me," she said, "I—am going. Stephen first; my first born! And now, Joyce . . . and now kiss each other—across the bed! I want to hear it . . . I want . . . to tell . . . your . . . father."

With a last effort she raised her hands, seeking their heads. At first Joyce hesitated, then she leaned forward, and the old woman's chilled fingers pressed their lips together. That was the end.

Half an hour afterward Joyce and this man stood facing each other in the little dining-room. He began his explanation at once.

"Stephen," he said, "was shot—out there—as a traitor. I could not tell her that! I did not mean to do this, but what else could I do?"

He paused, moved toward the door with that strange hesitation which she had noticed on his arrival. At the door he turned to justify himself.

"I still think," he said gravely, "that it was the best thing to do."

"Joyce made no answer. The tears stood in her eyes. There was something very pathetic in the distress of this strong man, facing, at it were, an emergency of which he felt the delicacy to be beyond his cleverness to handle.

"Last night," he went on, "I made all the necessary arrangements for your future—just as Stephen would have made them—as a brother might have done. I . . . He and I were brother officers in a very wild army. Your brother was not a good man. None of us were."

His hand was on the door.

"He asked he to come and tell you," he added. "I shall go back now."

They stood thus, he watching her face with his honest, soft blue eyes, she failing to meet his glance.

"May I come back again?" he asked suddenly.

She gave a little gasp, but made no answer.

"I will come back in six months," he announced quietly, and then closed the door behind him.—Anon., in the Cornhill Magazine.

Her First Impression.

"Oh, do look at that dear little lamb?" said Frances, on seeing a young lamb for the first time in her life.

"Isn't it pretty?" asked mamma.

"Yes; and it is so natural, too. It squeaks just like a top lamb, and has the same sort of wool on its back."

THE LOST GERANIUM.

Mrs. Wigley lived at Jasmine Cottage, which had no jasmine growing over it and did not rightly deserve the name of cottage, seeing that it was one of a long row of houses at the east end of the village. Mrs. Wigley had no back garden whatever, only a tiny piece of ground in front with a wooden paling; and there was not much growing there. But a remarkably fine geranium bearing magnificent trusses of a pale pink tint, stood in a pot on the window sill. This geranium was the pride of Mr. Wigley's simple soul; she took daily delight in it in spite of failing sight, and words of praise from admiring neighbors warmed the cockles of her heart.

Her friend, Mrs. Hubbard, Christian name Eliza, was more eulogistic than all the rest put together, for Mrs. Hubbard was a great gardiner and knew a fine specimen as well as any one and better than most.

She called on a certain Saturday afternoon and paused before entering Jasmine Cottage to inspect her friend's possession. It was in full bloom.

Sarah Wigley was staring out of the window, but failed to recognize her friend; her eyes were contracted to a narrow slit, and she strove her hardest to trace the familiar features, but in vain.

"That there geranium is deliberately wasting itself!" said she.

At this moment Sarah Wigley opened the window and stood revealed—a small, shrunken widow woman, with a pale face and a pair of gentle eyes, sweet in their expression, albeit somewhat dimmed by defective sight.

"Ift it ain't Sara, it's my double."

"You've been looking at my geranium, Eliza," said her friend. "Isn't it a picture?"

Mrs. Hubbard responded heartily; there was much talk about the flower, how fears had been entertained that the blight had got to it, et cetera.

"Go in, my dear," she said to Sarah Wigley; "you will catch your death of cold."

Mrs. Wigley retired. Eliza Hubbard drew the door close. Her face was crimson, her heart beat fast.

"It isn't as though she could see," said she; "she won't even know it is gone, and if she does, what does it signify? What the eye don't see the heart can't grieve for!"

She seemed rather proud of the quotation; of a certainty it had never been used in such a connection before. But pride was replaced by a dull sense of shame as she lifted up the geranium and, hiding it under her shawl, sped home with it.

A few days later Eliza Hubbard called on Sarah Wigley. She peeped in through the window and saw her old friend sitting over the handful of fire, though the evening was sultry, shivering and holding her thin hands to the blaze.

"My gracious!" said she, stepping briskly in, "you ain't cold to-night, are you?"

Sarah Wigley rose stiffly.

"I'm a bit poorly, my dear; I ain't felt myself since my loss. You've heard tell how some tramp or the other made off with my pink geranium, haven't you?"

"I did hear some such tale," said she. "But I don't suppose you grieve much, eh, Sarah? It ain't as if your eyesight was as good as mine. You can't keep looking at the blossoms."

For answer Sarah Wigley burst into a flood of tears.

"I know I am worse than a fool to make a fuss about a geranium plant," said she, "but I suppose I am kind of low in health. Any way, I can't help myself. I ought to be ashamed of myself," said she, "at my time of life not to have faith greater than a grain of mustard seed. Haven't I prayed the good Lord to put it into the heart of that tramp to bring me back my geranium, and who knows that He won't see fit to do it. I'd had that geranium three years, 'Liza, and I'd got to set store on it as though it was a child. I hope you don't think me a weak sort."

Eliza Hubbard cleared her throat.

"No," she said softly. "I don't. I wish I was half as good as you. But I ain't. I yield to temptation right away. I ain't more strength of mind than a baby. I say, Sarah, I wouldn't take on so if I was you. Perhaps—perhaps"—she hesitated and cleared her throat again. "Perhaps you'll get your flower back again, after all."

She leaned forward and kissed her friend's wrinkled cheek. It was an unusual action, but accounted for by the unusual circumstances.

"Good-night, Sarah," said she. "I'd pray again to-night, if I were you, just as you did before."

"Yes," replied Sarah, meekly, "I mean to."

She was cheered by her friend's sympathy; there was a glow at her heart, a ring of confidence in her quavering tones.

The moment she rose the next morning she glanced out of the window. Did her weak eyes deceive her? Was it really the geranium she saw below? She dressed herself hastily and hurried down stairs. Yes, there was no mistake about it; it was her pet flower, in the same pot, with the splotch of red paint on its rim.

"The Lord be praised!" said she hugging it close; "the Lord be praised!"

And Eliza Hubbard, meanwhile, her face red with flame, clasped her hands together and offered her prayer.

"There ain't a meaner sinner on earth than me," she said, "but I never found it out till now." She stooped low and dug up her finest white geranium.

"I'm going round to Sarah's now at once," said she; "and while I'm about it I'll take this other white geranium to her as well. The pink one will look uncommon nice between them two."—Windsor Magazine.

CYCLING COMMENT.

The prizes for the races of the Dewey Bicycle Club at the Crescent Oval this afternoon, have been on exhibition at the jewelry store of J. Hervey Doane, on Park avenue.

Peter Simmonds, Plainfield's crack colored rider, and Eugene Richter, who won the second of Lister's road races, are both entered in the big road race on the Hudson county boulevard Labor Day morning. Simmonds is believed by his friends to be a sure winner. He is in splended form and will finish well up in the lead unless he meets with an accident. Richter has shown plenty of speed and has been training for this race. He will make a good showing.

It was a queer sight yesterday when Joseph A. Haynes, station agent here and one of the oldest wheelmen of Plainfield, appeared on his old "Star." The "Star" was one of the old high wheels which had the small wheel in front and worked with levers attached to her hands instead of pedals. There used to be quite a number here a decade ago when bicycling was in its infancy but they look very strange now. Mr. Haynes owned one many years ago. Then he bought a safety and laid the "Star" aside. It has been stowed away in his attic until a day or two ago when he found it, cleaned it up and brought it out to the light of day once more. Now he is riding about on it recalling his varied experiences of high wheel when they were all the go.

One of the special features of the Grocers' Association excursion will be the five-mile road race which will take place between Boynton Beach and Woodbridge, Monday. The race has been arranged by Harry K. Lister, who now announces the following riders and their handicaps:

Name and Address.	Handicap.
William Dodd, Plainfield	Scratch
Louis May, Elizabeth	"
M. F. Pfier, "	"
Jos. Burke, Plainfield	"
Frank Glaser, Elizabeth	30 seconds
Walter Cuttle, Rahway	30 "
George Apgar, Plainfield	30 "
Yep Sorensen, "	30 "
Wm. Downs, Newark	1 minute
Joe Oliver, "	1 "
George Graves, Elizabeth	1 "
Henry Angerbauer, Plainfield	1 "
M. Owens, "	1 "
M. Burke, "	1 "
Ed Duck, "	2 minutes
A. Marsh, "	2 "

GOLF.

A very convenient way to reach the new golf course of the Hillside Tennis and Golf Club Monday next will be to take one of Capt. Hand's stages. They will run Labor Day on following schedule (route via Park avenue):

Leave Plainfield Railroad station at.	9:15 a. m.
" " " "	10:30 "
" " " "	1:30 p. m.
" " " "	2:00 "
" " " "	2:30 "
Leave Clubhouse	11:30 a. m.
" "	12:30 p. m.
" "	4:30 "
" "	5:30 "
" "	6:30 "

Fare, 15 cents each way.

Monday promises to be a red-letter day in the history of the Hillside Tennis and Golf Club. All the members and their friends have been invited to attend the reception to be given in the afternoon in honor of the opening of the new clubhouse. The following ladies will receive the guests: Mrs. George A. Chapman, Mrs. Albert H. Atterbury, Mrs. George P. Mellick, Mrs. H. M. Stockton, Mrs. Howard C. Tracy and Miss Wood. Access to the grounds will be rendered easy by stages, which will run all day.

DONATIONS AT THE HOSPITAL.

Gifts That Aid to Make Life Brighter for the Patients.

Summons issued—National Bank of New Brunswick, against Charles J. Dorian, on contract, returnable September 9th. VanZandt & Voorhees against Benner, on contract, returnable September 7th. VanZandt & Voorhees against Blackford, on contract, returnable September 7th. VanZandt & Voorhees against Benner, on contract, returnable September 16th. VanZandt & Voorhees against McCarthy, on contract, returnable September 16th. VanZandt & Voorhees against Frazee, on contract, returnable September 7th.

JUSTICE MOSHER.

Summons issued—In the case of Hurd, Gray & Co., against DeMott, on contract, returnable September 12th. J. P. D. Kirch, attorney.

EARLY INTELLIGENCE.

—Walter E. Jenkins the eleven-months'-old son of Walter E. and Annie Jenkins, died at his parents home on West Third street yesterday. The funeral services will be held tomorrow afternoon at 2:30 o'clock.

—One of the pleasantest trips of Labor Day for Plainfielders will be the Central excursion to Mauch Chunk. The train will leave the North Avenue station at 9:28 a. m. There will be a lunch car on the train.

—The Royal Santiago Circle, Mothers of American Protectors, will hold their prayer and praise service Tuesday evening at the home of Mrs. Angleman, 224 East Fourth street. Subject, "How to Obtain New Country and Honor."

—A committee from Flemington visited Westfield recently and inspected the sewer system. They were so pleased with the system and its working that the sewer system at Flemington is to be modeled after the Westfield plan.

R. M. Honeyman, general secretary of the Y. M. C. A. at Somerville, will give a Bible reading at the Washingtonville Memorial chapel Wedneday night.

Rowland Story, of the flagship Brooklyn, who has been visiting his brother, Frank Story, of Powers' pharmacy, has left to visit relatives in Elizabeth. Story has seven days' leave of absence.

The Horse's Eye

Has a glutinous secretion, because his eye, being large and most exposed to dust, the viscid secretion cleanses it more effectually than would a more watery agent, such as that found in the human eye. Did you know that excessive "watering" of your eyes can be stopped with glasses properly adjusted? Collier, 103 Park avenue.

Merchant's Association Excursion.

New York, Sept. 1st—4th. Reduced rates—15 days limit. Consult Lehigh Valley ticket agents for particulars.

RIVERDALES LOST TO DUSKY GIANTS.

Cuban Giants Played and Talked Well.

VISITORS WON BY 8 TO 3.

RIVERDALES DEFEATED WOODBRIDGE IN THE MORNING.

Saturday Afternoon They Were Beaten By Orange A. C.—A Large Crowd Out for the Labor Day Afternoon Game — Hayes Injured — Riverdales Couldn't Bat—The Score in Detail.

One victor and two defeats were the share of the Riverdale Field Club for over the holiday. Saturday afternoon they went to Orange Oval where the Orange A. C. defeated them by a score of 13 to 4. Yesterday morning they carried gloom to the hearts of the Woodbridge rooters by defeating the crack Woodbridge Browns on their own grounds by a score of 11 to 4. In the afteroon, the Riverdales came to Plainfield and met the genuine Cuban Giants at the Cresent Oval, the visitors winning by a score of 8 to 3.

The game of Labor Day morning was a decided surprise to the Brown brothers of the little town of Woodbridge. Of course, their friends explained their defeat by saying that they never saw the Browns put up such a poor game. They made a hard fight, however, but the Riverdales were too much for them. Fred Smith distinguised himself in particular by making a clean hit every time he came to bat.

The score by innings was as follows:

Riverdales	2	2	2	0	4	0	1	0	0	—11
Woodbridge	0	0	2	0	2	0	0	1	1	—5

Batteries, Norton and F. Smith; B. Brown and A. Brown.

By far the largest crowd that ever assembled at the Crescent Oval to witness a baseball game, was present there at the game yesterday afternoon. The fame of the Cuban Giants had preceded them and the people turned out remarkably well considering how distressingly warm it was. The Giants came up to expectations. They played well together, battled like veterans with skill and force, and talked and cut up enough shines to keep the crowd in a roar of laughter most of the time. They were expected to entertain the crowd with something out of the usual run and that was accomplished. The coaching of the dusky players was worth going miles to hear. They yelled, they howled and sounded like a section of pandemonium cut loose. Then they capered about, and performed all sorts of strange antics both on the diamond and off.

George Miller, the big short stop, was a whole circus in himself. He was really funny and his mock politeness to the umpire and to Harry Westervelt when the latter was pitching was ludicrous in the extreme. Jackson, the centre fielder and captain, was the only one of the great original Giants but the entire team had followed in the steps of its predecessors with success.

There was something the matter with the Riverdales. They lacked the snap and vigor of a week ago. They had a hard team to fight and a hot day in which to do it. They made a game attempt to win but it was not to be. Romig was not in uniform and Norton, the great Minneapolis infielder from the Western League, took his place at third. Romig acted very satisfactorily as umpire.

The fun opened at the very start Jackson sent a hot fly to Fred Smith and went out. Then Brown batted safely and reached third on a passed ball. Miller was given his base on balls, and stole second. Then both scored on the pretty double by Penp. Sampson and the other Miller ended the inning with two more outs. The Riverdales went out in one, two, three order.

In the second inning, there were two out and McWinters on first, when Jackson knocked a three-bagger clear over Will Smith's head in centre field. Brown followed with another long hit between centre and left that gave him two bases, McWinters and Jackson having scored.

Fred Smith was hit by a pitched ball when he came up first to bat for the Riverdales. He stole second. Then Hayes made a pretty hit. The coachers told Smith to come home, and as a result he was caught at the plate while Hayes scattered round to second. Will Smith caught the ball on the leg and limped to first. Hardy went out on a fly to left. Then Wood came in with a timely hit on which Hayes scored two bases and Will Smith reached third, coming home after the catcher lost the ball thrown

TOO HOT TOO ATTRACT.

"PEACE JUBILEE" AT CRESCENT OVAL NOT MUCH OF A SUCCESS.

A Couple of Fairly Exciting Bicycle Races — Chasing the Greased Pig, However, was a Very Funny Sight.

A couple of hundred people braved the heat of Saturday afternoon and ventured out to the Cresaent Oval to attend the "Peace Jubilee" of the Dewey Bicycle Club.

There were four colored men who turned out for the foot race. According to the programme, it was a 200-yard dash, but it was thought that a third of a mile run would give the spectators more fun for their money and it did. George Peterson won. Rudolph Connett was second.

Then two colored men and three white riders came out for the five mile bicycle race. The finish was an exciting one. Ray Poole winning from Nick Fifer, of Elizabeth, by a length. Sorensen, third. The time was 14;39 2 5.

There were eight starters in the two-mile, and the weaker riders were given a lead.

Fifer won out from Poole by six inches in a rousing finish. Sorensen was third. The time was 5:31 4-5. Local L. A. W. Consul T. A. Cuming acted as referee of the bicycle races. The judges were Sergeant Kiely, Chauncey F. Stout and Charles B. Morse. Raymond A. McGee acted as timer. Harry K. Lister was starter.

Nobody would climb the greased pole on which the lard lay in great chunks so the pig was brought out and after much delay greased and turned loose. The porker ran between the legs of the spectators who crowded around, upsetting them and causing all kinds of excitement. Finally John Scott caught it by the hind leg. That was counted not fair and after much disputing, the squealing porker was turned loose again. Another exciting race was ended when George Peterson fell on it and hugged the porker to his breast, grease and all. Another heat resulted in a second capture for Peterson who again clasped the pig to his bosom. It was then declared his property and he bore it in triumph off the field.

GALA DAY FOR GERMANS.

VOLKS-FEST A PLEASURABLE AFFAIR AT MOUNTAINSIDE GROVE.

The Day Given Up to the Enjoyment of Games of the Fatherland—Dancing also a Feature—The Prize Winners.

Yesterday was a gala day for the Germans. They gathered together at Mountainside Grove in the afternoon and evening and held one of their old-time entertainments, a Volks-fest, a true festival of the people.

Dancing was a prominent feature, and began early in the afternoon, continuing until the party dispersed late at night.

Games and athletic sports were interspersed, such as vogel stechen for the ladies, target shooting for the men, sack and egg races for the girls, ruuning races, high and broad jumps. In this way there was some amusement for everyone there.

The grove is a delightful place to spend an afternoon and evening in. Refreshments were for sale at the festival and all passed a pleasant day.

The games drew a great deal of attention, and were joined in heartily by all the grown folks as well as the children. The sack race was won by A. Bremmer, who received as his prize a handsoms sweater. Miss May Jan won the egg race, and Miss Bessie Young the top schlagen both prizes were pretty fans. Miss Vogel won the Vogel stecher and Henry Rummel the target shoting. Miss Vogel's prize was a pocketbook, and Rummell received a beer mug.

The committee in charge consisted of M. Menzenbach, W. Gardner, H. Rummel, Charles Myers, Joseph Howard, Alfred Lutman, C. Peterson and C. Carlson.

Their First Dance.

For the first time in the ten years of their organization, the Catholic Benevolent Legion gave a dance last night. It was also the first dance of the season, in T. A. B. Hall, and was well attended. The committee in charge consisted of Andrew Knowland, Henry Lutz, Edward Kelly, Patrick Deiver, Hugh McDonald, John Sullivan, William Burgiss and Thomas Larey. Professor O'Reilly furnished the music.

Stole Tools From a Carpenter.

Three lads 8 years old, living on East Third street, were arrested by Chief Grant Saturday charged with stealing $16 worth of tools belonging to a city carpenter, who was working at the corner of Berckman and Sixth streets. The tools were recovered and the boys were allowed to go.

IN HIS FATHER'S HOME.

ARTHUR JACKSON, A GOVERNMENT EMPLOYE, TAKEN FROM HOSPITAL.

Relatives Advised by Staff That They Will Have to be Responsible for His Future Condition—Has a Bad Fever.

Four weeks ago today Arthur Jackson, a former resident of this city, accompanied by his wife, arrived in Plainfield from Newport News, Va., where Mr. Jackson had been employed on Government work. He was suffering from a malarial fever contracted at Newport News by overwork and coming in contact with sick soldiers. The attending physician at that place advised Jackson to come to Plainfield and expressed the hope that he would soon recover.

Upon his arrival in this city, as recorded at the time in these columns, he was taken to Muhlenberg Hospital for treatment. He did not seem to improve as rapidly as his family and relatives hoped, and last evening he was removed from the hospital to the home of his father, Amos Jackson, 73 Grandview avenue, and Dr. Zeglio was called to treat him.

In removing Jackson from the hospital those who took him were given to understand that they would be directly responsible for the result, that the hospital officials could nor would not be held responsible. Today Jackson seems to be better. He managed to get about five hours sleep last evening, and since he was taken from the hospital he has been rational all of the time. His brother from Bridgeport, Conn., arrived in town yesterday and will remain with him for awhile to do all he can for his brother's recovery, and there seems now to be good prospects of his ultimate recovery.

EXEMPT FIREMEN'S GOOD TIME.

Attended the Firemen's Parade at Bayonne Yesterday.

Twenty-eight of Plainfield's exempt firemen went to Bayonne yesterday, and took part in the monster parade. They were in charge of Chief Doane. At the banquet, which was presided over by past Chief Christie, of Bayonne, speeches were made by Chief Doane, V. W. Nash and Alex. Titsworth. A comical recitation was given by Jack Carney.

The Plainfield people were looked after by William Kerbey and Alexander Gee, members of the committee of arrangements, and who formerly lived here.

James Searing was overcome by the heat just after the march, and had to be doctored with ice and cold water. He recovered very fast, however, and was able to come home with the company.

No. 2 hose cart, drawn by the grey team, was in line, and so were the members of No. 2 Company.

Third Assistant Chief Jennings was presented with a handsome plant that is native in Cuba. The donor was Mr. Riley, who is counted one of the good fellows of Bayonne. The plant will grace the chief's office in the fire department headquarters. Anyone desiring to see it will be welcome to the office.

KNOCKED OUT BY OLD SOL.

A Sick Man Ventured Out and was Prostrated by the Heat.

Patrick Kane, married, of 335 Cottage place, was overcome by the heat Saturday afternoon on East Second street, and had to be helped home by Captain Grant and Patrolman McCue in a carriage.

Kane is a laborer and works for George Tobin, the plumber. He was ill all day Saturday, but ventured out towards night. He got as far as the engine-house on East Second street when he felt so ill that he had to stop and rest for a few moments. After getting his breath Kane started off again, but only got a few hundred feet away before he dropped down at the foot of a tree.

Someone telephoned for Captain Grant, and he came with a carriage and took the man home. Kane was partly unconscious. Dr. Murray was sent for, and said that the man had been overcome by the heat. The physician said that he would get along all right and left him. Today Kane is rapidly getting well.

Darkness Frightened Him.

A loud outcry Sunday night from the flats over M. Abram's shoe store, on West Front street, made the people of the neighborhood think at first that someone was hurt. Investigation showed, however, that it was only Jacob Abrams, the proprietor's young son, who was frightened at being left in the dark.

Death of a Well-Know Host.

A. DeCamp, well-known in Plainfield as a hotelkeeper, for many years at Succasunny, Morris county, died yesterday, after several years' illness of lingering consumption.

—Press want ads bring results.

A YOUTHFUL LIFE SUDDENLY ENDED.

Miss Edith Titsworth Suffered a Fatal Stroke of Apoplexy.

WAS SIXTEEN YEARS OLD.

WAS ENJOYING SOCIABILITY OF FRIENDS WHEN STRICKEN.

Singular Remarks Made by Her Within the Last Few Days Which Now Seem to be Like a Premonition of the Fatal Event—She was About to Enter Pennington Seminary—Of a Happy Nature.

In the death of Miss Edith Titsworth, aged sixteen years, only daughter of Mr. and Mrs. John D. Titsworth, of Madison avenue, a young life has gone out that was full of promise and hope for the future. The end was so sudden that the community can scarcely realize it to be a fact. Miss Titsworth was enjoying the best of health, and while in the company of loving friends she was suddenly taken ill. It was at the home of Miss Mabel Smith, of Westervelt avenue, that she was spending last Saturday evening and having a good time, although she remarked to a friend during the evening that she was going to die soon. The words were lightly thought of. It was about ten o'clock in the evening that Miss Titsworth complained of not feeling well, and remarked that she thought that she would go home. She started to go up the porch steps when she fell on her face. Her friends hastened to her side and carried her into the house. She had no use of her hands for a few minutes, but soon displayed supernatural strength, and it was with difficulty that she was held by her friends. She continued to call for her mother and also said that she could see her sister who died a few years ago.

As quickly as possible Miss Titsworth was removed to her home and Dr. Tomlinson was called. He at once pronounced Miss Titsworth's illness that of apoplexy and was doubtful regarding her recovery. Everything possible was done to save the young life, but all efforts proved unavailing, and Miss Titsworth passed away at 3:15 Sunday morning.

In connection with the death of Miss Titsworth there are many singular coincidents that would appear as though she had a premonition of her death. Only a few days ago she was talking to an aunt, when she remarked, "Would you feel bad if I should die?" The aunt replied, "Why Edith, that would break my heart." The remark she made to Miss Mabel Smith last Saturday evening now has a special significance, and other actions and words are recalled which appear strongly significant.

Miss Titsworth was just preparing to enter Pennington Seminary, and was to have left Plainfield next week for that place. Her hopes of success were high and she was very proud of the fact that she was so soon to enter upon her studies.

Last Saturday she attended service at the Seventh-Day Baptist church, as usual, with her mother. In the afternoon she gathered some choice flowers to take to the hospital. Her mother rather remonstrated with her and said that she ought not to go to the hospital as the weather was so warm. Miss Titsworth asked for permission to do the act of kindness and said, "If you only knew how happy it makes those at the hospital when they receive flowers you would not object." She finally took the flowers and was gratefully thanked for bringing them.

In the evening she attended the social gathering at the home of Miss Smith, as stated, and was in the best of spirits. The sudden death has cast a deep gloom over her many friends, and especially those who were in the party Saturday evening.

Miss Titsworth was born in this city on Madison avenue and attended the public schools and "The Chestnuts," on Seventh street. Her pleasant manner and genial disposition won for her a host of friends who enjoyed her company always. She was a faithful attendant at the Seventh-Day Baptist church and was active in the church in many ways. She was a member of the hospital flower committee and faithfully attended to her duties.

The parents and brothers of the deceased have the entire sympathy of the whole community in their sad hour of bereavement. The funeral services were held from the home on Madison avenue this afternoon at 3 o'clock and interment was in Hillside in the family plot.

—Miss Rocap's selected school will open Thursday September 15th. She gives personal attention to backward pupils.

AN EXCITING RUNAWAY.

TWO HORSES THAT WEREN'T USED TO WORKING AS A TEAM.

New Brunswick Rig Crashed Into and Wrecked—Fractious Steeds Ran Pell-Mell Into Entrance to Press Boiler Room.

An exciting runaway occurred yesterday afternoon on Park avenue, in which Captain Hand's team and a horse and buggy driven by a couple from New Brunswick were mixed up. The only damage done to the rigs was sustained by the buggy, one of the rear wheels being torn off. The advertising stand which has been affixed to the side wall of Armstrongs' pharmacy, was broken to pieces.

The team that caused all the trouble was a pair of odd horses which the Captain does not drive double very often. Yesterday Mr. Hand was running stages to the baseball grounds and on account of the heat decided to change one of the teams about 4:30 o'clock, and to hitch a black and grey horse together.

Captain Hand went in the house after a strap, leaving Anthony Parsons, a colored man, standing at their heads. Two other colored men stood near. The team was not fully harnessed, when suddenly they bounded forward and broke into a mad run towards Front street.

Parsons held on to their heads bravely, until he became in imminent danger of being trampled upon. In front of Justice Nash's office the man and woman were driving slowly along. The man heard the clatter caused by the runaway team coming up behind him, but evidently was not used to horses, for instead of whipping up and turning up the little lane that leads to the city jail, he kept directly in the path until the team came up from behind him, caught one of the buggy wheels, and wrecked it, throwing the occupants out on the hard roadbed.

The team turned at North avenue and made straight for the entrance that leads to The Daily Press boiler room in the basement.

Across the cellarway was stretched a chain which was the only thing that prevented one of the horses from plunging down to the bottom and breaking his legs. As it was one of the heavy iron rods to which one end of the chain was fastened was bent.

Alex. Filmore, who at one time worked for Captain Hand, caught the team just before they reached the sidewalk. But Filmore could not stop them soon enough to prevent this one horse plunging towards the cellarway, or keep him away from the advertising stand, which is owned by J. H. Fawkes, of 74 Henry street, Brooklyn.

The couple in the buggy were helped into Armstrong's pharmacy, but were not injured in the least. The horse was put into a livery stable and what was left of the buggy hauled on to the vacant lot next to Justice Nash's office. The rig belongs to McDead, an undertaker of New Brunswick.

YEP SORENSEN HURT.

After Finishing in a Road Race He Was Thrown and Badly Injured.

The great twenty-five-mile road race of the North Hudson County Cyclers was held on the Hudson County boulevard yesterday morning. The decisions of the officials were generally unsatisfactory. Peter Simmons, of this city, is credited with finishing tenth, while he and his friends say he finished fourth. Yep Sorensen crossed the line right behind him, but was not given a place. Ray Poole started with the 45-second bunch and kept with the scratch men until he fell. During the twenty-five miles, he fell three times but managed to finish fifteenth.

After Sorensen finished, a rider fell in front of him and he was thrown striking his stomach on the shoulder of a bystander. He was carried unconscious into the clubhouse where several physicians worked over him. He was revived and was taken home by rail in the afternoon. Today he is not able to work.

Albertson Has Typhoid Fever.

Abram Albertson, C. C. Cokefair's nephew, who was taken ill a few days after his regiment, the famous Seventy-first Regiment N. Y. Volunteers, reached New York, as told in last week's Press, has a light attack of of typhoid fever. The illness has developed into typhoid, but Dr. Hedges, who is attending him, says that he is getting along nicely.

Carries the Bullet That Wounded Him.

Gershom McPherson, of Cherryville, Hunterdon county, spent yesterday and today at the home of his cousin, Mrs. F. W. Bailey, of 86 Duer street. Mr. McPherson carries a scar made by a bullet that struck him in the shoulder during and engagement in the civil war, and he has the bullet in his possession.

PYTHIANS' FIELD DAY.

THE KNIGHTS PARADED IN JERSEY CITY YESTERDAY.

Plainfield was Well Represented by Members From Local Lodges—Reviewed by City Officials—The Prize Winners.

(Special to The Daily Press.)

Jersey City, September 6 — The Knights of Pythias of New Jersey held their annual field day here yesterday. It is estimated that 2,000 members of the order participated. The procession formed at Hamilton Park, and about every lodge in the State was represented. The order to march was given at 11 o'clock by Grand Marshal John W. Laws. The right of line was held by the representatives of the Grand Lodge and General Rees and staff of the uniform rank. Then followed the First Regiment, uniform rank, Colonel R. F. Shanley in command. In this division were Jersey City Lodge, Hancock Lodge, Rathbone Lodge, Woodland Lodge; then the Second Regiment, uniform rank, followed by Pythagoras Lodge, Lafayette Lodge, in stages; Plato Lodge, of Newark; delegates from the Elizabeth District; Hoboken Lodge and delegations of Newark, Paterson and Plainfield lodges.

The parade passed the City Hall, and was reviewed by Mayor Hoos and a number of city officials, and was dismissed at Oriental Park, where a reception and a picnic were held.

The Pythian flag for the lodge making the finest appearance was presented to Rathbone Lodge, of Jersey City. All of its members wore yachting caps and carried Japanese umbrellas. The flag given by Grand Chancellor Donah for the lodge having the largest percentage of members in line was awarded to Plato Lodge, of Newark. In the competition drill for companies of the uniform rank only two contested. Freehold Company, Captain Enos, won first prize, $100, and Black Prince Company, of Newark, Captain W. H. Denvotti, won the second prize, $60.

PUBLIC SCHOOLS OPEN.

FEWER BOYS AT THE HIGH SCHOOL THIS YEAR THAN LAST.

The Heat and Summer Outings Kept Many Away, But Still There was a Large Attendance—New Teacher at High School.

It was a warm welcome that was given to the young people of Plainfield this morning on their return to school. While there are many who did not put in an appearance today but will come to school on their return from a summer outing and when the backbone of the present hot wave is broken, there was a large attendance throughout all the public schools of the city. It was the opening day in all the schools and, of course, very little was done except to get the pupils arranged in the proper classes and registered.

At the High School there was a large attendance, There are, however, fewer boys there than there was last year. Principal Travell and all his staff of teachers, except Miss S. Lena Bass, were present. Miss Mary Grace Caldwell has gone to Wellesley College and her place has been taken by Miss Peckham, a graduate of Vassar College, who has been teaching at Atlanta, Ga., the two years since her graduation. Miss Bass will return the latter part of the week from her European trip. She spent the summer abroad.

The session began at 9 o'clock and was dismissed before twelve. Tomorrow the regular sessions will begin.

800 WENT TO BOYNTON BEACH.

Two Big Train Loads of Excursionists Went With the Grocers.

Two big trains carried 800 people to Boynton Beach yesterday morning on the excursion of the Grocers' Association. The day was a delightful one at the shore, although rather warm. There were a large number of visitors at that well-known resort and the day passed very pleasantly.

The Grocers' Association gave a five-mile handicap road race in the afternoon under the direction of Harry K. Lister. The other officials were Wm. Waters, Frank Schuck and V. William Nash, Jr. Ed Duck, 2 minutes, won. Michael Burke, 1 min., was ahead, when he fell near the finish. He mounted, however, and came in second. F. Glaser, 30 seconds, of Elizabeth, was third, and Joseph Burke, scratch, fourth. He won the time prize, making the distance in 12:58. Three other riders finished. They were all well bunched.

Chief Doane a Contributor.

Chief T. O. Doane contributed an article to the *Scientific American* last week describing his method of extinguishing fires in coal bunkers.

NEW GOLF COURSE OF HILLSIDE CLUB OPEN.

The Event an Auspicious One for the Members.

START WITH GOOD SCORES.

BRIEF DESCRIPTION OF THE LINKS AND CLUBHOUSE.

A Large Attendance of Society Folks, Who Were Received by a Committee of Women of the Club—Tea Served in the House—The Opening of the Links Creditable to Work of G. A. Chapman.

The members of the famous Hillside Tennis and Golf Club could not have selected a more perfect day for the formal opening of their handsome new club house and grounds than yesterday. It was a trifle warm, but when the club house was reached everyone felt repaid for the effort made to get there for it was certainly one of the coolest places to be found in this vicinity.

All day long the grounds were used by a large majority of the club members and their friends and the course was found to be in good condition. Everyone that played was praiseworthy of C. A. W. Fox, the greenkeeper, who has succeeded in making the course one of delight. The location of the house and grounds is an ideal one in every respect and commands a most pictureseque view from all sides. The house is erected directly on top of a large hill and was planned by A. L. C. Marsh, the architect. It is 67 feet long and 30 feet deep with a veranda 12 feet wide and 41 feet long facing the southeast and one on the northwest side 12 feet wide and 67 feet long.

The entrance hall, which opens on the southeast veranda, gives access to the dining-room, lounging room, ladies' reception room and stairs to the men's locker room in the second story. To the left of the entrance hall is the ladies' reception room 10 x 11 feet, connecting with the ladies' locker room and lavatory. This locker room is provided with 31 lockers.

The lounging room, which is directly back of the entrance hall, is 30 feet long and 18 feet wide. It is provided with wide seats at both ends and a large rough stone fire-place in the centre of the outside wall opposite the entrance hall.

Over the lounging room is located the men's locker room, which is 19 feet wide and 28 feet long and contains 74 lockers. Opening from the men's locker room is the lavatory, containing a large shower bath. The interior of the building is finished throughout in wood stained various colors in the different rooms. The exterior is a modification of the Dutch colonial style.

The course, which was laid out by Thomas Bendalow, the golf expert, comprises 18 holes, aggregating over 5,100 yards. The grounds consist of over 100 acres of rolling country, with numerous natural hazards. The links afford a wide variety of play and are considered to be equal to any in the country. The names of the holes, the par and distances are:

1.	Alpha	5	360
2.	Swamp	6	400
3.	Highlands	5	340
4.	Facilis	3	160
5.	Orchard	4	270
6.	Triplets	3	190
7.	Longfellow	6	440
8.	Shorty	3	150
9.	Midway	4	220
	Out	39	2540
10	Inferno	4	275
11	Trap	3	380
12	Paradise	4	250
13	Water Jump	5	375
14	Barn	2	190
14	Crossroad	6	410
16	Down Grade	3	155
17	Lowland	4	305
18	Home	3	150
	In	38	2490

Total par strokes, 77.
Total length, 5 130 yards.

The attraction at the opening yesterday morning was the Bogie play for club members. There were many players on the course for the first time and some excellent scores were made considering that the grounds are new to every one. The following scores were made:

	Handicap.	
R. M. Shepard	14	3 up
Henry Lowe	18	1 down.
A. A. Tilney	12	2 "
E. T. Wilson	18	3 "
W. L. C. Glenny	18	3 "
Carl Walz	4	4 "

At noon a delightful luncheon was served to the members by Mrs. Fox, who had charge of the restaurant.

The feature of the day was the reception and tea given in the afternoon. It was an auspicious event in every particular and was attended by a large number of Plainfield's society folks, including many official dignitaries in

CONTINUED ON PAGE 8.

THE SICK AT MONTAUK

Detention Hospital Is Now Overcrowded

MANY TROOPS WILL LEAVE

Two Hundred Sick Soldiers Arrive on the Roumania. Dr. Ebert Working Energetically. No Dangerous Discomfort. President McKinley Deeply Affected.

Montauk Point, L. I., Sept. 6.—The arrival of the transport Roumania with 200 sick has overtaxed the capacity of the detention hospital and resulted in the temporary though not great discomfort of the new patients. The hospital has accommodations for 450 men, when each man has a cot, and the tents or wards are not overcrowded. Other wards are now being constructed, but the progress of the work is so slow that none of them is ready for occupation, though the work was begun some time ago. The surgeon-in-chief was not informed of the number of sick he would have to take care of and was taken unprepared when the ambulances began to arrive.

There were then in the hospital about 600 men; that is, 150 more than should have been there. The extra patients were lying in some of the wards into which cots had been crowded. There were cots on hand for more than the Roumania's sick, but there was no place to set them up. So there was nothing for it but to lay mattresses close together on the floors. In this way it was possible to get all the men under cover.

Dr. Ebert, surgeon-in-chief, is a man in whom General Wheeler has a great deal of confidence, and this morning he was working with characteristic energy to make his patients comfortable. He had a number of cots taken out to make room for mattrtesses (one cot takes up nearly as much room as two mattresses), and was looking after the future comfort of the sick in a way that must have startled the officials of the transportation and construction departments. It must not be supposed that, though 250 men were lying on the floor, they were without constant attention and good care. As a matter of fact they do not have much more to suffer than if they were lying in cots. It is not believed that any deaths will result from this alone. The condition, at any rate, is only temporary, and due to the carelessness which left Dr. Ebert in ignorance for many hours of the tax to be put upon his resources, and to the leisurely manner in which work on the detention hospital has been going along.

While the men were being taken from the Roumania to the hospital, two died in the ambulances. Their deaths, however, are not to be charged to the negligence or inefficiency of anyone ashore. The men were Dorgas Broomer, private in Company F, 25th United States infantry, and Albert Pickworth, private in Company C, 23rd Michigan volunteers.

General Wheeler said yesterday that President McKinley was deeply affected by what he saw and heard in the general hospital during his inspection on Saturday, when he reached the car. General Wheeler said, he was on the point of collapse, and when thte train pulled out he was about to lie down. General Wheeler said, also, that the threatened water famine of a few days ago was no longer danger. Engineers are at work to-day sinking the new wells, and the distilling boat Iris is in the harbor prepared to meet an emergency.

Colonel Smart is going on with his investigation into the sanitary condition of the camp. He is proceeding with great care, and examining into every detail that has the promise of bearing fruit.

There are 1,340 sick in the general hospital. The new patients were taken in from the regimental camps. The hospital is not crowded. The deaths reported were: Louis Hitzel, private, Twenty-second United States infantry, Company E; John Brawner, private, Tenth United States infantry, Company A; Burt Brown, private, Seventeenth United States infantry, Company A; Dennis Dixon, private, Ninth cavalry, Troop E; Daniel Dumas, privatet, Ninth infantry, Company C. These deaths are all from typhoid or malarial fever.

THE PRESID NT'S PARTY

t Left the Vice President's Paterson Home Late Last Night.

New York, Sept. 6.—President and Mrs. McKinley, who have been the guests of the vice president at Paterson, N. J., with Mr. and Mrs. Hobart went out for a drive yesterday. They returned to the vice president's residence at 10.30. Mrs. McKinley looked well and it was denied that she had been taken suddenly ill. The party received an enthusiastic reception from the residents of Paterson.

United States Senators Thurston of Nebraska, Foraker of Ohio, and Burrows of Michigan held a conference with President McKinley and Vice President Hobart. Last evening a dinner was given in honor of the president the guests including Captain Hobart Tuttle, a brother-in-law of Mr. Hobart; Attorney General and Mrs. Griggs, and Assistant Secretary Cortelyou.

The president and Mrs. McKinley left for Washington in their special train at 11 o'clock last night.

Miles Due To-Day.

New York, Sept. 6.—General Miles is expected to arrive in New York on the transport Obdam to-day. The Wisconsin volunteers are also on the Obdam.

Besides the Obdam the transport Chester is expected to arrive with Generals Schwan and Haynes and staffs and the Fourth Pennsylvania volunteers on board.

The Obdam and the Chester will be met down the bay by several ferry boats and tugs. The soldiers will be taken off the vessels and landed at the pier nearest their respective railroad stations.

It is not yet known what roads they will go out on.

THE TROOPS AT SAN FRANCISCO

The General Health of the Volunteers Is Good.

San Francisco, Sept. 6.—Two patients in the division hospital have died since Sunday morning, Private Oliver F. Mock, Company D, Fifty-first Iowa, of spinal meningitis, and Jacob Ebert, Company A, Twenty-third infantry of typhoid fever.

Six patients have been taken to the hospital. Of these two are suffering with malarial fever, two with measles and two with mumps. Twenty patients have been dismissed to their quarters and one dismissed as cured. There are now in the hospital fifteen patients; eighty-four are out on furlough, nine are in other hospitals and three are being cared for in private residences.

Colonel Leeper of the Fifty-first Iowa declares that his men are contented in the service, and that they are willing to remain until General Merriam gets back and it is settled whether they are to go to Honolulu. If the regiment is not to be sent away the colonel says he is as anxious as any of his men to return home.

Private Charles B. Anderson, Company L, First Tennessee volunteers, has been acquitted by a court martial for an assault on Daniel Thomas, a negro whom some men of the regiment recently threatened to lynch. Anderson was one of the two men with whom Thomas had a saloon row, which led to the trouble.

FRIGHTFUL WRECK AT COHOES

Montreal Express Train Crashes into an Electric Car Cutting it in Two.

Cohoes, Sept. 6.—A frightful accident has been the experience of Labor day in this city. A trolley laden with thirty-five people was struck by a Delaware and Hudson train, going at full speed, at a grade crossing in this city last night and cut in two.

Ten persons were killed outright. Eight died soon thereafter from the effects of their injuries, and the remainder of the passengers were all injured, some of whom may die.

The accident was one of the most appalling in the history of railroad wrecks. Shortly before eight o'clock a trolley car of the Troy City Railroad Company was struck by the night special of the Delaware and Hudson Railroad at a crossing at the west end of the Hudson River bridge, which connects this city with Lansingburg, and its load of human freight was hurled into the air. Eighteen of the thirty-five passengers are dead and at least ten of the remainder will die.

Cuban Commission Sails.

New York, Sept. 6.—The Resolute sailed from this port for Havana yesterday afternoon bearing the Cuban commission.

Rear Admiral Sampson was the only member of the commission who was recognized and cheered as he went on board. But Major General James F. Wade, Major General Matthew C. Duncan and Lieutenant Colonel John W. Clous, deputy judge advocate general of the army, legal adviser to the commissioners, were on board early, as they supposed thte time for sailing was noon.

Each commissioner had a number of aids and secretaries. General Wade's secretary is Captain W. E. Almy, and his aids are Captain J. B. Foraker, Jr., Major Charles J. Allison and Captain L. C. Griscom. General Butler's staff consists of Captain W. F. Brooks, Lieutenant Alfred Hampton and F. M. Page.

Rear Admiral Sampson has his regular staff with him.

REBELS MASS AROUND MANILA

Aguinaldo, Appears to Be Making Trouble.

Manila, Sept. 5.—The insurgent soldiers in strong force are holding the exact position behind the abandoned American works from which General Greene displaced them before the fall of Manila.

This morning some Tagallos are rebuilding a trench in the vicinity of San Pedro de Malate and Santa Mesa, which were abandoned last week.

While tthe more intelligent natives talk annexation and unruly lieutenants continue to commit depredations within the city, it is clearly the purpose of Aguinaldo to place himself in the same position as was occupied before the American occupation pending the decision of the Paris conference.

Whatever may be the outcome, the rebel leader will continue to insist upon his purpose of a struggle for complete independence, while protesting his friendship for the Americans.

A Home For Poor Soldiers.

Brooklyn, Sept. 6.—Several patriotic citizens in Brooklyn have arranged for a number of soldiers who will return from Porto Rico, Camp Wikoff, Chattanooga and other camps without money or clothing.

The originators of the movement are E. Percival Smith of 405 Carlton avenue, and Dr. Albro Eaton, of 134 Lafayette avenue.

They have secured from Percy Williams, a Brooklyn business man, the use of a six-story building at 558 State street for the purpose.

They have secured promise of medical aid from a number of Brooklyn physicians, and are making efforts to furnish the building and get together a stock of provisions and clothing before the troops begin to arrive after being mustered out.

Grand Army Encampment.

Cincinnati, Sept. 6.—The national encampment of the G. A. R. this week is bringing in excursionists from every direction.

The National Soldiers' Home at Dayton, Ohio, is less than sixty miles distant, and the veterans from that institution are taking active part.

Among the questions being discussed is one to make all engaged in the late Spanish war eligible to membership as comrades in the "old army."

Troops Going to Camp Mead.

Washington, Sept. 6.—The orders issued from the war department have been for the movement of the Two Hundred and First, Two Hundred and Second and Two Hundred and Third regiments of New York infantry from Camp Black to Middletown, Pa. Directions were sent by telegraph to the chief quartermaster for providing transportation for the troops immediately.

KITCHENER'S VICTORY

British General Reports His Loss at Omdurman.

LANCERS' BRAVE CHARGE

Additional Particulars in Regard to the Fighting in the Soudan—Gordon is Avenged and Mahdism is Ended—The Dervishes Fought Fiercely and Lost From Ten to Fifteen Thousand Killed.

London, Sept. 5.—The war office at 4.10 o'clock this morning received a report from the commander of the forces at Omdurman stating that the number of officers and men killed in the fighting which resulted in the victory of the Anglo-Egyptian expedition over the Dervishes was forty-six officers and men killed and 333 wounded.

A special dispatch to the Daily News says that the Lancers, who hacked their way through the Dervish lines in the face of a murderous fire, were entrapped by the nature of the ground. They were advancing in proper formation with scouts thrown out, when they suddenly discovered a force of seven hundred Dervishes in the bushes.

The Lancers charged swiftly at the Dervishes, who fell back upon a still larger force, with the result that the Lancers found themselves exposed to the fire of two thousand men at close quarters.

In the charge they lost two officers and twenty men killed and four officers and twenty-one men wounded.

The few additional particulars of the fighting at Omdurman received here this afternoon show that the only British officers killed were Lieutenant Grenfell of the Twelfth Lanciers and Captain Caldecott of the Royal Warwick regiment. The Anglo-Egyptian casualties are divided as follows: British, killed 25, wounded 104; natives, killed 21, wounded 228. Officers wounded, 21, of which seven were British.

The evening newspapers continue their felicitation upon the victory and declare that Gordon is avenged and Mahdism killed.

The latest reports say that the forces are still in pursuit of the Khalifa.

The report, together with further details contained in last night's London dispatches, follows:

The remnant of the Khalifa's forces has surrendered. I have a very large number of prisoners. Cavalry and gunboats are pursuing the Khalifa and his chiefs. They have only 450 fighting men with them.

I visited Khartoum to-day and found it a complete ruin. The people are delighted. Khartoum is the best position. Omdurman's stench was unbearable, and therefore I have moved to Khorshambat. The wounded are doing well.

The English newspaper correspondents are unanimous in their acknowledgements of the bravery of the Dervishes.

The news of General Kitchener's victory over the Dervishes at Omdurman was received with the greatest satisfaction here, where it is held that England has at last wiped out the stagma attaching to her defeat in the previous expedition to the Soudan.

Early this morning crowds gathered about the statue in Trafalgar square of General Charles (Chinese) Gordon, who was killed at Khartoum on January 26, 1885, after having been besieged in the city by the Dervishes for 337 days.

Some one had placed on the pedestal a placard with tthe inscription, "Avenged at last," and when the people saw it they burst out into loud cheering.

The feature of the battle was a charge of the Lancers on a large body of the enemy who vastly outnumbered them.

The Hon. Hubert Howard, second son of the Earl of Carlisle, who was acting as a war correspondent of the Times, was wounded. The correspondent of the Daily News says that thte Dervish loss was not less than 8,000 killed.

The Marquis of Lansdowne, secretary of state for war, and General Lord Wolseley, the commander-in-chief of the British army, have sent dispatches to General Kitchener, congratulating him upon his victory over the Dervishes. The queen has also sent a direct message to General Kitchener.

The estimates of the number of the Dervishes engaged in the battle vary from thirty thousand to fifty thousand.

With the Khalifa was the harem of Osman Digna. These women escaped. A dispatch to the Daily Telegraph says that the number of Dervishes killed was between ten thousand and fifteen thousand.

Says His Men Will Not Parade.

Camp Wikoff, Sept. 6.—The mustering out of the Rough Riders will probably be completed by the end of the week. The details attending this performance are many. The enlistment papers must be examined, the men must undergo physical inspection and the work of mustering out will have to be pushed to a finish by the end of this week.

Colonel Roosevelt says there will be no parade. He has fallen into line with the suggestion of the war department and has abandoned the idea of marching his men up Broadway. On the day of disbandment he will personally bid adieu to the heroes who fought so well with him, and he may have a banquet arranged in their honor.

Queen Louise Improved.

Copenhagen, Sept. 5.—Queen Louise passed a restless night, but this morning is reported as somewhat better.

Although her majesty has long suffered from a difficulty in breathing, she kept up her daily drive until very recently.

Ex-Secretary Bayard's Condition.

Dedham, Mass., Sept. 6.—It was announced at Kairstein yesterday that the condition of ex-Secretary Thomas F. Bayard was unchanged from that of the last twenty-four hours. The physicians are in constant attendance upon him.

SHANNEBECO

Shoes for Spring.

You'll be buying a new pair of shoes soon. Where are you going to buy them?

The shoe store you want to patronize is the store that gives you the most style, comfort, elegance and durability for the money.

If you'll "shop around" before you buy you'll find that this is the store you're looking for.

Flynn Bros.,

222 West Front St. Plainfield, N. J.

LET US ARM YOU!

It's quite necessary, because while Uncle Sam is settling scores with the Spaniards you're bound to have a little brush at home at the same time, and there's nothing like being ready for emergencies. Until you can sign a perpetual truce with sun, wind and storm, your house and other buildings will need to be fortified with paint, and ours are like a 20-inch chilled steel armor.

NOTICE

to all interested in

Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

PRIZE MONEY MAY REACH A MILLION

That Amount Will Be Distributed Among American Sailors.

Washington, Sept. 6.—At least $1,000,000 prize money will be distributed among American sailors as a result of the war with Spain.

More than one-half of this sum will be paid in accordance with that section of law providing for the payment of a bounty for persons on board vessels of war sunk in action. The rest will be turned into the treasury for distribution by the courts which shall pass upon vessels of the enemy captured by American men of war.

Although not a penny of prize money has yet been turned into the treasury, Judge Advocate General Lemly and his chief clerk, Mr. Hanna, are engaged in considering the various claims for prize money which have been filed by officers and men, and in passing upon the various questions which have arisen in connection with such claims.

From the official report of Admiral Montojo, commanding the Spanish fleet sunk at Manila, there were 1,875 persons on board the ships under his command. The Spanish fleet was of inferior force to the American squadron, and Rear Admiral Dewey's men will therefore get only $100 for each person.

It is estimated that the aggregate amount due the Asiatic fleet as a result of the destruction of the Spanish force, amounts to $187,500, which Congress will be asked to appropriate during the coming session. One twentieth of this sum belongs to Rear Admiral Dewey, as commander-in-chief, and he will, therefore, be $9,375 richer than he was before the war.

Rear Admiral Sampson has realized a snug little fortune as a result of the war. As commander-in-chief of the North Atlantic fleet he will get one-twentieth of every prize taken in North Atlantic waters, and one-twentieth of the head money allowed for the vessels destroyed off Santiago and in Cuban ports. It is estimated that he will finally receive about $40,000 as his share of prize money.

In determining the amount of head money due officers and men it will be necessary for the department to decide whether a vessel destroyed was inferior or superior to her antagonist. If the latter the American ship will be entitled to $200 for each person on board the enemy's vessels. Of course this will swell the amount of prize money due the rear admiral.

It is estimated that, including the Mercedes, sunk by the Massachusetts at the mouth of the harbor of Santiago, there were 2,492 persons on board the Spanish fleet destroyed by Rear Admiral Sampson's fleet, which was superior to the enemy, and the amount of head money due the fleet will consequently aggregate $249,200.

Michael vs. Linton.

Manhattan Beach, Sept. 5.—Fully six thousand people witnessed the bicycle races here yesterday. The chief event was the struggle between the two rivals, Jimmy Michael, the little Welshman, and Tom Linton, the champion middle distance rider of England, in a one hour paced race.

The little wonder was made a favorite in the betting at 100 to 80. Linton had quite a number of followers, as he claimed a few days ago that he was fit to make the race of his life.

Both boys had already won a race from each other, and were bent on distance rider of the world.

winning the title of champion middle The purse was $2,500, of which $1,500 went to the winner.

For three miles Michael's time was 5.04 1-5; Linton's 5.00 3-5.

On the fourth mile Michael broke the world's competition record of 6.46, made by Taylore, he going the distance in 6.44 2-5. Linton also broke this record.

Fifth mile, Michael 3m, 28 3-5s; Linton, 8m, 22 4-5s. This broke the world's competitive record of 8m, 29 1-5s made by Taylore for the same distance.

Michael lost his pace in the sixth mile and Linton gained on him. The cheering that greeted the leader was enthusiastic.

Linton broke the world's record for the sixth and seventh miles. Michael then broke the world's record for eight miles of 13m, 39 4-5s, made by Linton. Michael's time for this distance was 13m, 37 2-5s. The world's record for nine miles, 15m, 22s, made by Linton, was smashed by Michael, who covered the distance in 15m, 19s.

The Pike's Peak Railway.

Colorado Springs, Col., Sept. 6.—The owners of the famous cog road, running up Pike's Peak, have decided to change the motive power from steam to electricity. It is estimated that the cost of making the change will be about $50,000.

Confession.

"I can say for myself that I never have been mean enough to get another woman's cook away from her." "Neither have I; but I must confess that once or twice I have tried to work our cook off on some of my neighobrs."—Boston Traveler.

He Had Tried.

Windrift Wilson—Dat sailor wot I saw tried ter tell me dat de ocean was round an' not level.

Spangled Meed—Guess he never tasted water, er he'd er known it was flat.—New York Press.

The Familiar Results.

"Were there any new points discovered in that investigation?" inquired one politician.

"No," replied the other. "Nothing but the usual crop of interrogation points."—Washington Star.

Appreciates a Joke.

"I suppose the secret of his popularity is that he talks well." "Not at all. The secret of his popularity is that he laughs well."—Chicago Evening Post.

"Grandpa, what is a pacemaker?"

"Well, a peacemaker is a man who jumps in to prevent two other men from fighting, and comes out with more bruises and black eyes than either of them."

HOLLAND HAS A QUEEN

Impressive Ceremonies To-Day In Amsterdam.

THRONGS AT CORONATION

The Long Regency Ends and the Beautiful Maiden Ruler Begins Her Reign. More Than a Week of Mirth and Pleasure for the People to Follow the Coronation. A Brilliant Event, Sketch of the Queen's Life.

Amsterdam, Sept. 6.—Wilhelmina Helena Pauline Maria, great granddaughter of William of Orange, and daughter of William III and Princess Emma, has to-day taken the oath of office and been crowned queen of the Netherlands. The coronation occurred at 10 p. m., in Nieuwe Kirk, a cathedral like place which dates back to the early part of the fifteenth century.

This building is celebrated for its thirty-four altars, its splendid windows, its wonderfully carved pulpit, its famous tombs. Here were crowned the great Prince of Orange and William II and III.

The installation of Queen Wilhelmina was an impressive but simple affair. It was attended by the diplomatic corps and many distinguished foreigners, including several noted east Indian princes and a vast concourse of her subjects.

The young queen was attended to the throne by the court, including the head marshal, the high chamberlain, the chief master of ceremonies, aides-de-camp, and gentlemen and ladies in waiting.

She wore the royal purple and carried the golden sceptre of power. Before ascending the throne Queen Wilhelmina took the following solemn oath of office:

"I swear to the Dutch people that I will observe and always maintain the constitution. I swear that I will defend and guard with all my power the independence and the territory of the empire, that I will protect public and private liberty, and the rights of all my subjects, and that I will use every means confided to me by law to foster and uphold the national and individual well being, as a good queen should do. And may God help me."

QUEEN WILHELMINA

The president and members then took the oath of fealty to the queen and the ceremony was over. To-night there will be grand displays of fireworks, illuminations of streets and canals and a general time of rejoicing. For a whole week the merry making and pleasures will go on in this staid old town of Amsterdam and the slow-paced, honest people of this wonderful country are not likely soon to forget the crowning of the maiden queen.

Wilhelmina Helena Pauline Maria, queen of Holland, was born on August 31, 1880, and according to the law of her country the sovereign comes of age at 18.

The young queen is the daughter of the late King William III, and of his second wife, Princess Emma, daughter of Prince George Victor of Waldeck. She succeeded to the throne on the death of her father, November 23, 1890, when she was but ten years old. Since then her mother has been acting as queen regent.

The little queen's mother was but a year older than her daughter is now when she was called to the throne, for she was only nineteen when she was married to William III.

He was then an old man. His first wife was Sophia, daughter of the King of Wurtemburg, whom he married in 1839, when still the prince of Orange. The princess was a woman of rather strong will, and from all the stories that have come down to us, her royal consort needed just such a woman to look after him. He was not particular about what he did and his carryings on were the talk of Europe for many years. She managed to keep him within some sort of bounds for a few years until his father died and he became the king, with a fortune of 100,000,000 florins to squander. The money had more effect on him than the will power of his consort, and even before her death he was a great admirer of the stage.

When he was 62 years old, however, he really fell in love. The object of his affections was Princess Helen of Waldeck-Pyrmont, now the widowed Duchess of Albany. She was then but 22 years old, and the suit of her ancient lover met with a very cold reception. The king was much mortified, but one day he heard her sister Emma remark to her that she herself would never have refused to be a queen, whereupon the king switched around and fell in love with Emma.

William had two sons by his first wife. The elder died after a career of dissipation in Paris, and the other was afflicted with an incurable spine disease, and so was unfit for the throne.

The queen regent devoted all her energies to the education of her daughter. "I intend to make her something better than a strong woman," she said. "I intend to make her a king."

She has certainly made her daughter a strong, self-reliant and well educated and progressive young person.

THE DREYFUS AFFAIR

The Search For A New Minister of War.

Paris, Sept. 6.—Interviews with the premier, M. Henri Brisson, and the ex-minister of war, M. Godefroy Cavaignac, who resigned his portfolio on Saturday, on the subject of the political situation in France as it has been affected by the recent developments in the Dreyfus case, are printed in the Echo des Paris. M. Brisson is reported as having said that all the members of the ministry are convinced of the guilt of Captain Dreyfus, but that the government must consider thte change that has come over public opinion since the suicide last week of Lieutenant Colonel Henry. M. Brisson expressed the view that it is the duty of the government to en dthe excitement that is paralyzing the business interests of Paris and of the country.

M. Cavaignac said that it would be a serious mistake, if not a supreme act of folly, on the part of the government to persist in its present course, and that he was not willing to participate in such a policy. "You will see," said M. Cavaignac, "in what a condition the country will be after a new trial."

The newspapers of Paris point out that M. Cavaignac's resignation of the war portfolio has produced a painful impression in political circles, which, while recognizing the fact that the innocence of Captain Dreyfus has not yet been proved, takes the ground that a new trial of the charges against the prisoner has become necessary.

It is said in some generally well informed quarters that the premier, M. Brisson, will assume the war portfolio, relinquishing that of the interior, that he holds in addition to the presidency of the council, to M. Vallee. In other equally well informed circles it is said that General Zurlinden, who was a member of the Ribot cabinet, has accepted the ministry of war.

When the cabinet met yesterday the minister of justice, M. Ferdinand Sarrien, informed his colleagues of the receipt of Mme. Dreyfus's request for the revision of the verdict against her husband. M. Sarrien promised to give a statement of the result of his examination into the matter at a meeting of the cabinet to be convened after the minister of war shall have been appointed.

Mr. Gladstone's Will.

London, Sept. 6.—The will of the late Right Hon. William E. Gladstone has been probated. It shows that his personal estate was valued at $59,506 pounds. His will was written by himself in an ordinary memorandum book. It is a document of about two thousand words, and is a remarkable specimen of penmanship. The second clause of the will has reference to the funeral arrangements and says:

"Commending myself to the infinite mercies of God in the incarnate Son as my only and sufficient hope, I leave the particulars of my burial to my executors, specifying only that they be very simple and private, unless there be conclusive reasons to the contrary. And I desire to be buried where my wife may also lie. On no account shall a laudatory inscription be placed over me."

After appointing his sons as executors, the will charges the future possessor of Hawarden to remember that, as the head of the family, it will be his duty to extend good offices to other members thereof according to his ability and their manifest needs and merits. The rest of the document leaves souvenirs to servants, and bequeaths to his grandson, William, as heirloom, all patents of crown offices held by the testator and books and prints presented to him by the queen, letters from the queen, etc.

The will bears the date of November 29, 1896.

Disbanding the Auxiliary Navy.

Norfolk, Va., Sept. 6.—The work of disbanding that part of the auxiliary navy which is in these waters has begun. The Suwanee was put out of commission yesterday, and the Buccaneer sailed from Hampton Roads for Boston to go out of service. The America will go out of commission on Wednesday, and the Sciendia, the first of the colliers, it is expected will be dispensed with this week. These vessels are stripped, their war color taken off and they are sold to their former owners or to the highest bidder. The revenue cutters here have nearly all been relieved of their armament and are about ready to return to their stations.

Spaniards Leave Annapolis.

Annapolis, Sept. 6.—Admiral Cervera and the other Spanish officers who have been held here, left yesterday for Portsmouth, N. H., whence they will go to Spain. They were accompanied to the depot by Admiral McNair.

Admiral Cervera will be at the United States Naval hospital at Norfolk to-day.

He goes there to arrange for the transportation to Spain of the forty-four wounded Spanish wounded who have been under treatment and are sufficiently recovered to permit their removal.

Miss Gould's Offer.

New York, Sept. 6.—Miss Helen Gould who has done so much to relieve the distress and add to the comfort of the sick and wounded soldiers, is to crown her work of mercy and patriotism by caring personally for some of the soldiers now at Camp Wikoff.

It was announced yesterday that she would take twenty of the sick men to her magnificent home at Irvington-on-the Hudson, and provide them with medical care and nurses.

She will assume supervision of all of the arrangements and pay daily visits to the poor fellows until they become well enough to care for themselves.

Gen. Shafter Ill.

Montauk, L. I., Sept. 6.—General Shafter will assume command of Camp Wikoff to-day, and General Wheeler will supersede General Young in command of the cavalry. General Shafter and four of his staff officers are ill with malarial fever. The officers are Major Noble, Major Taylor and Colonels Durbee and Plummer.

The Japan Cable Open.

New York, Sept. 6.—The Commercial Cable Company has issued the following notice:

"Messages for Japan routed by way of Northern now accepted without restriction."

The "Ex" Left Off.

Through an unfortunate inadvertinence the prefix "ex" was left off the word collector in the report of the Borough Council proceedings printed in last Saturday's Press and as a result the present incumbent of the Collector's office was put in an embarrassing position. In the business incident to the settling of the former collector's accounts it was stated by the taxation committee that they were going over the ex-collector's books in which they found many matters that needed attention, but the word collector found its way into print without the "ex." Those who were not thoroughly informed as to municpal matters in the borough doubtless concluded that it was Collector Brown's books that were being investigated. But such was not the case. The books referred to were those kept by former Collector Spencer. Mr. Brown's accounts are not under any investigation.

The Literary Impulse.

The desire to write is one of the mental diseases which numerous young men and women of good intelligence and education are certain to pass through in their ambition to attain an ideal a little higher than the immediate status. In spite of the experience of others, who have tried and failed, hope whispers to each aspirant of an exceptional career. The multiplication of newspapers of course offers a seeming gateway whereby success is made easier. In a measure the promise is not fallacious. Journalism indeed gives opportunity to many for the beginning of a career which otherwise would be attended with vastly more difficulty. For men and women of great talent and industry it has considerable rewards of money and reputation in store. But these, too, are only the exceptions, for journalism, like other intellectual professions, is greatly overcrowded. Every large city has scores of able and experienced men whose pens find only scanty and casual employment.

If this is the case in journalism, the conditions of which present the minor difficulty, the situation is still more intractable in the higher walks of literature, where the outlet is far more restricted, the tests of excellence in the exercise of the purely literary gift more rigid. It can be truthfully said that almost any other profession offers better ultimate hope of achievement and happiness than does the medium of letters. Even those who meet with creditable success are contented with returns which a relative rank in half a dozen other pursuits involving parallel ability and the same industry would greatly overstep. The most discouraging fact, too, in the writing profession is that even distinguished men are obliged to depend for the more certain substance of their income on the work for which they care least, but for which there is a larger market demand. In a recently published letter of Robert Southey, a writer of eminent talent and accomplishments if not of genius, there is a melancholy confession. In discussing the sources of his income he says, "Perhaps the average may be fair at last, but it is injurious as well as ridiculous that I shall derive my main support from what other persons might do as well and what might never be done at all, while for works of permanent value and great labor, for which peculiar knowledge, peculiar talents and peculiar industry are required, the profit I obtain would scarcely exceed and perhaps not amount to the expenses of the documents."

The way of the writer who has no other resources than his pen is for the most part a "via dolorosa." The wise advice is always, "Don't." It is the inexorable law of nature that innumerable experiments and struggles are necessary for the emergence of the few. To be one of that few seems sufficient lure to risk remaining one of the unsuccessful many. So it will probably be till the end of time. It is the thrift of destiny.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

When the time comes to elect a Senator in Union county, provided Senator Voorhees is nominated for Governor, there will be no legal hitch in the way of his acceptance or the validity of the nomination or election of his success. The *Paterson Press* and the *State Gazette* are both wrong in their assumption that there will be two Senators from Union county in the event of Voorhees' election as Governor before his resignation as Senator. A Senator is not such in fact until the Senate passes upon his election and he takes the oath of office. This rule applies likewise to the Governor-elect. If the present Senator is elected the Governor, and resigns as Senator on January 1st, there will be a period of about twenty days before the Legislature convenes, in which Union county will have no Senator, but at no time can Union have two Senators—an impossibility under the constitution and the ordinary rules of the Senate itself. Governor Voorhees could easily relieve the apprehensions of his friends and put and end to the prattle of enemies by resigning as Senator when he accepts the nomination for Governor.—*New York Press.*

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

Last week's edition of *Harper's Bazar* has a fine picture of Miss Julia E. Bulkley, dean of the Womens' College, University of Chicago. Miss Bulkley's picture is taken at her best and she wears the scholarly cap and gown. The accompanying sketch speaks of the high office Miss Bulkley holds in being dean of women in a seat of learning whose crowning glory is the fact that it makes not the slightest difference whether the student is a man or woman, all privileges are open to both alike. Miss Bulkley is known to many here as principal of the High School for many years before she was called to her present position in Chicago.

* * * * *

A North Plainfield correspondent contributes this incident to the Bound Brook *State Centre.*

Doorkeeper of the Borough Senate Fred N. Brown, while entertaining an out-of-town friend recently, after perambulating him up and down the Borough Bowery, (Somerset street) concluded to show his guest the Council chamber and the Governor's room, over Powers' drug store. Procuring a large bunch of keys from Delinquent Tax Collector Rowley he led the way to entrance No. 1, which unlocked all right, but when they got inside the Council chamber Brown's recollectory gears got punctured and he closed the door with the key hanging on the outside—a sure enough dilemma, of course. The friend wanted to take a certain train for home, so he slid down an awning and dropped to the street after a locksmith had spent half an hour trying to open the door.

Brown would have been there yet if it were not for his making so much noise. The locksmith several times refused to continue his work unless he kept quiet, but Brown couldn't do that. That night Brown ate his supper at 9 o'clock, after spending five hours in the Council chamber. Neither he nor his friend saw the Governor's room and it cost Brown 75 cents for the locksmith. That he did not mind so much, his great trouble being that some newspaper tramp would hear of and publish the event. Poor "Fiddler!" He'll find his reward some day by and by, in San Domingo, perhaps.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

Some fifteen years ago farce comedy entered the amusement arena and metamorphically knocked out the serious drama. It was not surprising, for it was pleasure pure and simple; music, wit, dancing, dainty hose, pretty faces, and a breezy story, was a combination no one could resist even were he a good Sir Anthony. Like the bicycle it took a season or two to land with both feet, but once perfected it became a power and stayed. The first of the great farce comedies was the "Bunch of Keys" and it was the foundation stone of the structure, which made Chas. Hoyt the most famous playwright of America, a millionaire and a Congressman. Strange to say it has outlived a dozen subsequent works. It has made more money than any three of Hoyt's plays and year after year swings around the country delighting countless thousands who flock to seek a few hours of unbroken merriment. Manager Bothner still directs the enterprise and after its annual polishing up will present a splendid company headed by the charming soubrette Ada Bothner, at Music Hall, Thursday night.

* * * * *

Clifford and Huth will make their first appearance as stars in Plainfield Saturday night, at Music Hall, in Herbert Hall Winslow's three-act comedy "A High Born Lady." The stars are well known as having made a great success in Keith's Theatres and last season in Rich and Harris' "Courted into Court" company. The humor of the play is rollicking, healthy and catching and creates a gennine and continuous fusilade of laughter. The nnmber of ludicrous situations that are crowded into it are something wonderful and afford ample scope for the company to develop their talents as merry-makers.

* * * * *

Imre Kiralfy's great Naval Show, with real warships on a small scale performing their evolutions on real water, is creating a most favorable impression in the Madison Square Garden, New York, where daring deeds in mimic warfare are performed each night. There is noise galore and smoke to spare. Hobson's corking performance at the harbor of Santiago brings out the most enthusiasm, but the whole spectacle is as entertaining as it is novel.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Wm. Richards, of Somerville, was the guest of Plainfield friends yesterday.

Miss Mills, of East Fifth street, has returned from a visit with New York State friends.

George W. Melick, of Morristown, spent Labor Day with Mr. and Mrs. A. E. Bushnell.

Miss Minnie Bicknell, of Washingtonville, is spending two weeks in New London, Conn., with relatives.

City Clerk J. T. MacMurray and wife, of East Front street, have returned from a stay at Asbury Park.

Mrs. Noe, of East Sixth street, has opened a boarding house on LaGrande avenue, near Watchung avenue.

Carroll L. Runyon, of East Ninth street, returned this morning after visiting relatives at Rockville Centre, Conn.

James A. Stafford, of Grandview avenue, returned yesterday after a cruise on the yacht "Teal" in Barnegat Bay.

Miss Euphemia Johnston, of New York, will be the guest this week of Miss Edith L. Pruden, of East Second street.

Benj. A. Polak, of New York, spent Saturday, Sunday and Labor Day with Mr. and Mrs. M. Leichtentritt, of Central avenue.

Charles Conover and family and Mrs. VanNest, of Elmwood place, are spending a few days with relatives at High Bridge.

Former Judge W. R. Codington and family, of Sandford avenue, who have been sojourning at Asbury Park, have returned home.

Roundsman Flynn is now doing day duty, and when Roundsman Frederickson returns from his vacation he will go on night duty.

Chief Grant took a day off yesterday and spent it at Lake Hopatcong. He will also spend one day this week at the Waverly Fair.

Mrs. K. T. Hunt, of the Jackson building, has returned from Asbury Park and the country, where she has been spending the summer.

Mr. and Mrs. Samuel Gibson, of Paterson, have returned home after a visit at the home of Mrs. Charlotte DeMeza, of West Second street.

Howard Lewis, of Alfred University, has returned to college after visiting at the home of Mrs. George H. Babcock, of West Eighth street.

A solo, "Jerusalem," by Adam, was very sweetly sung by Miss Krymer during the offertory in Trinity Reformed church Sunday morning.

Rev. Dr. D. J. Yerkes, of West Seventh street, will return from Saratoga this week and will conduct the prayer meeting at the First Baptist church tomorrow evening.

Rev. James M. Whiton, D. D., of New York, a brother of John Whiton, of Central avenue, preached two very interesting sermons at the First Baptist church Sunday.

Albert B. Meredith, science instructor at the Plainfield High School, has returned to his duties from Boston where he has been spending the last few weeks of his summer vacation.

Walter Clifford Dobbins, one of the genial news-gathers on the staff of The Daily Press, has returned to his journalistic duties after spending a week amid the delights and pleasures of Asbury Park with his wife. Brother Dobbins is brown as a berry as a result of his sojourn at the seaside and returns to work greatly refreshed and invigorated.

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Malaria, Chills and Fever. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating Tonics. Price, 50c. For sale by R. J. Shaw. 11 30 eod 1y

Elevator For Sale!

A first-class freight elevator for sale. Good as new and will be sold cheap for want of use.

MAKES HAIR GROW. A lady in Maine writes:—"I had a bald place on the side of my head for 20 years. Have used almost everything, but found nothing like
REYNOLD'S PETROLEUM HAIR TONIC.
I now have a soft, white down all over the place." It stimulates healthy action of the scalp, relieves from dandruff, prevents falling out of hair. No disagreeable odor. An elegant hair dressing. Made only by
T. S. ARMSTRONG, THE APOTHECARY.

BOEHM'S.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, Sept. 6.—Clarence Tucker, who has been visiting Mr. and Mrs. R. J. Swackhamer, has returned to his home in Mass.

The Misses Alice and Emma Hayden, of Albany, who have been guests at the home of Mr. and Mrs. George Coriell, have returned home.

It is now said that the street cars will be running through here in two weeks. This comes from Mayor Silas Drake, of Lincoln.

Rev. E. S. Jamison has returned from his vacation and preached two sermons Sunday in the Methodist church.

Mr. and Mrs. Harry Lane, who has been visiting relatives in town, have returned to their home in Yonkers, N. Y.

Miss Fannie Smith has returned from Basking Ridge, where she has been visiting for the past three weeks.

While North avenue is in such poor condition for wheeling, bicycle riders are taking the sidewalk.

Mrs. Edward Ayres and children, of Glen Gardner, have been visiting relatives in town.

Miss Julia Dodwell has returned from Asbury Park, where she went on a visit.

Mrs. C. B. Jennings and children, of New York, are visiting Mrs. George Huff.

William H. Terry spent Saturday calling on friends in Brooklyn.

Mrs. Charles Bowers is entertaining company from Bayonne.

Miss Benton spent Saturday calling on Plainfield friends.

S. O. Sutton has returned from a visit in Trenton.

Postmaster Coriell was in New York Saturday.

NEW MARKET.

(Special Correspondence of the Daily Press.)

New Market, September 6.—Rev. Mr. Peterson, of the Seventh-Day Paptits church, is expected home this week and will occupy his pulpit next Sabbath morning.

Miss Alice VanDoren who has been visiting in town, has returned to her home in Trenton.

Miss Sarah Day has returned from a visit in Elizabeth.

'PLAINS AND FANWOOD.

(Special Correspondence to The Daily Press.)

Roger Haskard, while practising over the Mountain avenue course Saturday night, met with an accident which will keep him out of the five-mile race on the 17th. While riding at a fast gait the handle bars on his wheel broke and he was thrown against a tree fracturing two bones in his wrist and bruising himself quite badly. This is the third accident the boys have had practising over the course at night.

Scotch Plains had no attractions for Labor Day, so a great many people spent the day out of town, some going to Boynton Beach others to the races of the Hudson County Wheelmen and some to the ball games in Plainfield. Altogether the town was very quiet for a holiday.

Mrs. Nathan Marsh is very ill at her home on Westfield avenue and on account of her advanced age small hopes are entertained for her recovery. Mrs. Marsh is one of the oldest residents of the village and recently celebrated her 81st birthday.

Thomas Emery was quite badly bitten on the hand, Sunday, by a dog owned by Jacob Sell. The wound was cauterized as soon as possible by Dr. Westcott and it is healing nicely.

Rev. Mr. Woodruff preached to a large congregation at the union service held in the Baptist church Sunday evening.

Mr. and Mrs. George E. Hall and family, of Fanwood, have returned from a month's vacation spent in the West.

Mr. and Mrs. Wm. B. Noble are rejoicing over the arrival of a young son who came Monday morning.

John R. Haskard and family, of Plainfield, spent Sunday with his mother.

Miss Minnie Hosinger spent Sunday with friends in Brooklyn.

WESTFIELD.

(Special Correspondence of The Daily Press.)

Westfield, Sept. 6.—Albert Tompkins, of Union street, fell from his wheel while scorching Saturday morning. His arm was broken in three places. His injuries were attended to by Dr. R. R. Sinclair, and today Tompkins is on a fair road to recover.

The members of Westfield Hook and Ladder Company, No. 1, with their apparatus, were photographed while standing in front of the fire house on North avenue yesterday morning. A large picture will be made, placed in a gilt frame and hung in the company's meeting room.

The people of Westfield were greatly disappointed in not being able to see a ball game here yesterday. The town was very quiet all day. Many people went to Cranford to witness the ball game between the Cranfords and the famous O. N. T. team, of Newark.

Dr. H. H. Slade and family, of the Boulevard, have gone to Kole, Japan, where they will live hereafter.

WASHINGTONVILLE

(Special Correspondence of The Press.)

Washingtonville, Sept. 6.—Robert Clark, Jr., has been ill for several days with an acute attack of hay fever.

Charles Miles, son of Florist Miles, is laid up as the result of an accident last Tuesday night. He returned home during the evening and went to the greenhouse to look at the heating apparatus. Finding the house too warm, he attempted to raise a window. In doing so, he stepped on a long rusty wire nail which entered the bottom of his foot and passed directly through it coming out in the top. He lifted his foot off the nail and went to the house immediately where the wound was dressed. He is still confined to his room, however, as a result of it.

Builder Herman has been served with a notice from the North Plainfield Township Committee that he must put a flood-gate in the new dam he is constructing in the gap.

Edward O. Clark has given up his position in Newark and will return to the New York University Law School this fall.

Mrs. Morton, of Newark, has been a guest at the home of Robert Clark, Jr.

PARTICULAR MENTION.

A. W. Day, of Madison avenue, has been spending a few days on Long Island.

Miss Mildred Ulrich, of East Fifth street, has returned from a visit at Raritan.

Miss Garey, of East Front street, has returned from her annual outing at the seashore.

Miss Jessie Burt, of West Seventh street, has been spending a few days at Ocean Grove.

The Misses Davis, of Park avenue, have returned after visiting relatives at Wilmington, Del.

Miss Ethel Horton, of Brooklyn, is the guest of the Misses Buckle, of Westervelt avenue.

Paul Bechet, of New Orleans, is spending the month of September with Plainfield friends.

Henry VanMiddlesworth and family, of Elmwood place, are enjoying a few days recreation in Brooklyn.

Miss M. G. Morse, of Franklin place, has returned after a visit with Miss Edna Howell, at Chester, Pa.

Mr. and Mrs. Robert Clark, of Washintonville, are at The Windsor, Asbury Park, endeavoring to break up an aggravated attack of hay fever with Mr. Clark.

Roundsman Frederickson and Patrolman Flanagan are now enjoying their annual vacation. The latter started last Saturday, and the former will return to duty sometime this week.

Clarence Demarest, of Troop L, New York cavalry, was home from Camp Wikoff Saturday night on a short furlough to visit his parents, Mr. and Mrs. H. M. Demarest, of Park avenue.

Miss Florence Hawkins, of LaGrande avenue, is detained at her home suffering with heat prostration. Her condition has been quite critical, but she now seems to be slowly improving.

Rev. George Hauser, of Duer street, who has been sojourning in Germany for several weeks past, is expected to return home today. Mrs. Hauser and her family will go to New York to meet Mr. Hauser.

State Fair, Waverly Park, Sept. 5th-9th
Reduced rates via Lehigh Valley.
c 1-8 p 1-3-6 7

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way.

George Sisco, of Morristown, was the guest of Plainfield friends yesterday.

J. B. Coward and family, of East Front street, are stopping at Asbury Park.

Nelson VanWinkle, of Central avenue, is spending his vacation at Ocean Grove.

Miss Maude VanDyke, of East Front street, is visiting relatives at Liberty Corner.

Sydney R. Titsworth, of West Fifth street, has returned to his studies at Alfred University.

Rev. C. E. Herring, of Watchung avenue, is expected home soon from his European trip.

Miss Mazie Gray, of Elmwood place, has returned from a visit with relatives at Elizabeth.

George Randolph, of New York, spent Sunday and yesterday with Plainfield relatives.

Mr. and Mrs. Amos Gray, of Elmwood place, entertained relatives from Elizabeth over Sunday.

Mrs. Hand and daughtes, of Elmwood place, returned Sunday from a pleasant stay in the country.

Rev. J. W. Richardson and family, of Prospect avenue, have returned from their summer vacation.

Walter Gibson, of Passaic, spent yesterday and Sunday with his mother on West Second street.

Mr. and Mrs. Wallace W. Coriell, of West Front street, have returned from their summer outing at the seashore.

Benjamin O. Bowers, Jr., of Franklin place, has returned, after spending a few days with his parents at Asbury Park.

Rev. and Mrs. W. C. O'Donnell, of Franklin place, have returned, after spending their vacation at Asbury Park.

Stanley V. Krom, of Jersey City, spent yesterday with his parents, Mr. and Mrs. S. R. Krom, of Madison avenue.

Miss Mary VanEps, of East Front street, is anticipating a visit from her cousin, Miss Edith Young, of Orange.

Mrs. J. and Miss Vetterlein, of Duer street, have returned from Asbury Park, where they have been spending a few weeks.

Miss Josie W. Martin, of Chatham street, has returned from a two weeks' visit with her sister, Mrs. Robert Binning, of Third avenue, New York.

Mrs. John Clapp and her daughter, Miss Edith Clapp, of Mercer avenue, have returned after spending the summer at Martha's Vineyard and other popular resorts.

Rev. J. W. Richardson and family, of Prospect avenue, have returned from their vacation. Mr. Richardson occuped his pulpit in the Park Avenue Baptist church Sunday for the first time in two months.

Yesterday morning Commander W. C. Smith, Comrade E. C. Morse, Mrs. Morse and Mrs. Walter Walker left for Cincinnati to attend the annual convention of the National G. A. R. and Woman's Relief Corps.

J. H. Whitnack, of the postoffice staff, accompanied by his wife, started Saturday morning on a driving trip, planning to spend a week's vacation driving through the western and nothern part of the State.

Robert Binning, formerly of this city, but now of New York, sailed Sunday for Europe, where he will spend several weeks with his parents. During his absence Mrs. Binning is visiting at the home of her mother, Mrs. Elijah Stites, of Chatham street.

John Gaffney, of Somerville, formerly night operator at the North Avenue station, worked last Sunday in his former position and relieved Manager Manager Schermerhorn. Mr. Gaffney expects to return to his old position next month. During his absence he has been employed in the office of the train dispatcher at Jersey City.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness, caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular; free.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—For breakfast at this season use Rogers' seafood. First delivery at 5 a. m.

—The arch over the pulpit in the Park Avenue Baptist church has been tinted in several colors.

—The Misses Marsh, of 915 Madison avenue, will resume their classes in piano and Clavier instruction September 15th.

—The regular meeting of the City Council will be held this evening, when important business will be considered.

—A number of noted improvements are being made at the Mt. Olive Baptist church, including painting and papering the interior.

—The quarterly meeting of the Woman's Foreign Missionary Society of the First Baptist church will be held tomorrow afternoon at 4 o'clock.

—All of the city and borough public school teachers have returned from their vacation and are now prepared to enter upon their fall and winter duties.

—In a short time the choir of the First Baptist church will again resume work at the church after having enjoyed a vacation during the summer weather.

—Plainfield was visited yesterday and Sunday by a number of soldier and sailor boys and in every case a hearty welcome was accorded the boys in blue.

—Just received, by Neuman Bros., 50 baskets Bartlett pears, for canning. The fruit is fine and the prices low. Don't delay your canning, the dry weather will make the season a short one.

—Go to Glen Island with the Golden Rod excursion Friday, September 9th. Magnificent sail up the East river. Genuine Rhode Island clambake at 12:30 p. m. Allowing six hours to enjoy the delights of Glen Island.

—At White's they will put on sale today the balance of their immense purchase of fine shirt waists. They have sold during the past ten days over fifteen hundred waists and still have over one thousand to sell. A good assortment to select from.

—Charles H. Hand has recently become the owner of two fine dwelling houses in Asbury Park, and in order to turn them into cash he has decided to sell them at public auction next Tuesday afternoon, Sept. 13th. Plainfield people desirous of owning real estate in Asbury Park will do well to attend this sale.

36 inch Denim.....10c yard
50 inch Furniture covering..23c yard
Ladies fine lisle hose, 50c quality, 29c pair.

Edward White.

THE OVERSKIRT REVIVED.

Close Fitting Bodices Liable to Supersede the Blouse Effect.

(By special arrangement with the N.Y. Sun.)

The overskirt has again appeared in both pointed and rounded shape, and now and then a short, round apron, all laid in upturned plaits, as it was made years ago.

Old fashions are revived again and again, but never without some pretty changes, which make them seem quite new; so the modern overskirt will be built, no doubt, on more artistic lines than anything we have ever had before.

The most attractive models so far are the close fitting apron shapes, longer in front than at the back, where they fasten with hooks concealed by tiny bows of velvet ribbon with a fancy buckle in the center. Then there is the long apron, reaching almost to the hem of the skirt in front and back, and winding up shorter at the side. The pepium overdress falls in two points at either side, and like the others, fits very closely around the hips.

The possible chance that the blouse bodice is to be superseded by the tight fitting coat waist is something to be regretted; but as the blouse effects are so popular it is not probable that they will be given up very willingly or promptly. Yet there is every prospect that the close fitting coat-shaped bodice will be one of the distinguishing features of our winter gowns.

The only apparent change in sleeves is the tendency to make them smaller, lowering the shoulder seam at the same time to a point of discomfort, which is not a pleasing prospect after so many years of loose, comfortable sleeves and short shoulder seams. A triple collar widening out over the top of the sleeves from a point in front is the new feature of one pretty foulard gown, and it produces the long shoulder effect without lengthening the seam underneath. Each collar falls a little lower than the one above, and is trimmed on the edge with a frilling of ribbon. The effect is not unlike a fichu, except that the collar ends at the bust.

There are some slight differences in the skirts which have appeared lately that may turn the tide which has already set in toward more scant effects. This new model is clinging enough around the hips, but the deep circular flounce is wider than ever at the bottom, where it is scalloped. A fan like flare is the effect which seems to be desired, and to accomplish this a knee deep flounce of accordeon plaited silk is sometimes added underneath the foundation skirt, so that at the bottom there is the appearance of three instead of the usual two skirts.

THE AMERICAN SAILOR OF TO-DAY.

The Black Sheep of the Family No Longer Eligible in the Navy.

Jacky, who used to be more sailor than gunner, is now more gunner than sailor. Just in proportion as he has ceased to be a part of the great engine on which he lives, so he has come more and more into the control of it. And as the cardinal purpose of a warship is to hit things with her projectiles, Jacky has become a specialist in getting that work out of her. He does it in two places—at the guns and at the engines. Correctly pointed guns are of no use unless the platform on which they rest is put in proper relation to the thing to be hit, and kept there; equally it is useless to get the ship into proper place unless the guns are correctly pointed. Men who can do either of these things must have natural capacities, and be susceptible to education, and only men of this sort are eligible for our navy.

Accordingly the "beach-comber," or the "rock-scorpion," or any other variety of that ruck of marine refuse which drifts around the great maritime ports and ships in any craft where grub is plenty and work light, no longer slings his hammock on Uncle Sam's berth deck, as he used to do to the shame of the service in years gone by. Nor can the tramp, nor the jail bird, nor even the incorrigible black sheep of the family thus be provided for to the relief of constables and long suffering relatives. No man or boy can now pass a United States naval recruiting officer unless he is clean, healthy, honest, young, strong and intelligent; nor can he afterward get that advancement, which is certainly open to him without fear or favor, unless he continues to show aptitude and ability.—Park Benjamin in Independence.

ASKED FOR A SHIRT, GOT A WIFE.

An Incident of the Civil War—A Kind Act Reaps Its Reward.

The following is given because of the valuable suggestion it may contain for our young soldiers. It is the story of a clean shirt and how it gained one man a good wife.

During the civil war there was a young lady in Georgetown who found it in her power to do a great deal for the Confederate soldiers confined in prison at Washington. Young, beautiful, cultured, of a wealthy and prominent family, she was frequently allowed admission to the prison, whither she always took her maid with a well stocked basket of good things for the poor boys behind the bars. One day, as she was passing through a group of men in the common prison, she stopped and said to them:

"If there is anything that you would like to have that I can bring you, won't you let me know? I shall be very glad."

One man stepped forward promptly. Bowing most courteously, he said:

"If you will be so kind, I would like very much to have a clean shirt."

He was a young lieutenant from Louisiana, one of the handsomest and most elegant men I ever met, and when that young lady looked up into his brown eyes she found it in her heart to give him much more than a clean shirt, for she married him as soon as the war was over.—Philadelphia Times.

An Opportunity Seized.

A certain little girl living not far from New York, has always had impressed on her youthful mind—sometimes at the cost of rather painful experiences—that it is wrong to cry. She had become firmly convinced that this was a rule without exceptions, when suddenly an exception presented itself. The little girl was astonished, but rose nobly to the occasion, and this is the story thereof as told by a friend of the family:

The little girl's baby brother died, and the friend, meeting her soon afterward, sympathized with her regarding the loss.

"Yes," said the child, "and when he died, papa cried and mamma cried. Then I cried a little, too. Mamma said it was right for me to cry this time, because my little brother was dead, so I cried harder and harder; why"—with great earnestness—"I just cried to beat the band!"

Shipping Molten Iron by Rail.

Shipping molten iron by rail is a daily stroke of economy to be witnessed at Duquesne, Pa. The molten iron as it is tapped from the furnaces runs into an immense mixing ladle having a capacity of 250 tons, and from this it is poured into the 20-ton ladle cars, the ladles being made of sheet steel or iron, with a lining of refractory material. The cars are then hauled by a locomotive to the steel works, where the direct conversion of the molten iron into open-earth steel is made, avoiding all the expense of casting the metal into pigs and cooling, handling, reloading, reheating and remelting the pig metal.—New York Commercial.

Excellent Effect.

"I suppose, Henry," said the old gentleman to the new son-in-law, "that you are aware the check for $5,900 I put among your wedding presents was merely for effect?"

"Oh, yes, sir," responded the cheerful Henry, "and the effect was excellent. The bank cashed it this morning without a word."—Harlem Life.

A Chance for All.

Mrs. Grab—Are you going to have your darter take music lessons?

Mrs. Gadd—N-o, I guess not. She hain't no ear for music.

Mrs. Gabb—Well, I wouldn't be discouraged at that; mebbe she might learn to play classic, anyhow.—New York Weekly.

SMOCK MARRIAGES.

Instances in Maine of a Custom That Prevailed in England a Century Ago.

A Bangor lawyer attending court in the ancient town of Wiscasset went rummaging recently in the colonial court records of the place, and in the course of his reading ran across the official registration of a "smock marriage." Not knowing what sort of marriage that was he looked further, and got considerable light upon a custom that prevailed in England a century or two ago, and also to some extent in the American colonies.

Smock marriages were weddings where the bride appeared dressed in a white sheet or chemise. The reason of such a garb was the belief that if a man married a woman who was in debt he would be held libie for her indebtedness if he received her with any of her property; and, also, that if a woman married a man who was in debt his creditors could not take her property to satisfy their claims if he received nothing from her. In England says an antiquarian, there was at least one case where the bride was clothed puris naturalibus while the ceremony was being performed in the great church at Birmingham. The minister at first refused to perform the ceremony, but finding nothing in the rubric that would excuse him he married the pair.

To carry out the law fully, as the people understood it, the ceremony should always have been performed as it was in the Birmingham church. But modesty forbidding, various expediments were used to accomplish the desired purpose and yet aviod the undesirable features. Sometimes the bride stood in a closet and put her hand through a hole in the door; sometimes she stood behind a cloth screen and put her hand out at one side; again, she wound about her a white sheet furnished for the purpose by the bridegroom, and sometimes she stood in her chemise, or smock. Eventually, in Essex county at least, all immodesty was avoided by the bridegroom's furnishing to the bride all the clothes she wore, retaining title to the same in himself. This he did in the presence of witnesses, that he might prove the fact in case he was sued for any debts she might have contracted.

It is thought that during the reign of George III. there were many smock marriages in Maine, then a part of the province of Massachusetts Bay—chiefly in the Lincoln and York counties, or in the territory which is now so known. There is nothing to show that the practice outlived the Revolution. In Maine, up to 1852, a husband was liable for debts of his wife contracted before marriage, and no subterfuge as the smock marriage could relieve him.—New York Sun.

ALL OUR CHALK FROM ENGLAND.

Used Very Largely in the Manufacture of Rubber Goods.

One of the few exclusively important imported British products used in our country is chalk. It comes from the banks of the River Thames, being obtainable nowhere else in large quantities. In its crude form, remarkable flint fossils are sometimes found, usually the remains of fish. The process of manufacture from the natural state to that of a form when it can be utilized is simple. When received at the mill the chalk is put into great machines and ground in water, then floated off into vats of water, where all the impurities and foreign substances are precipitated, the water being afterward drawn off by a series of filtering operations, and the soft residum dried by steam heat and exposure to the air; the substance is then reduced to a powder of different degrees of fineness by grinding in burr mills and belting, when it is ready to be packed in barrels and shipped for use, among the largest consumers being the rubber goods manufacturers; rubber, in its crude state, being sticky, unmanageable and available only for very simple purposes, becomes vulcanized and hardened by adding to it chalk while it is hot, thus rendering it suitable for the various uses to which it is put. As is also well known, a large quantity of chalk is employed in the preparation of paint and putty, being termed whiting when in this form.

BEECHER'S QUICK REPARTEE.

The Baptist Preacher Didn't Succeed in Downing Him.

When Henry Ward Beecher was in Indianapolis, there was a store where the different ministers used to drop in to hear the news and to try each other's metal with a joke. No matter how sharp the hit was, it was always given and taken in a friendly spirit.

On one occasion, Mr. Beecher, while riding to one of the stations of his mission, was thrown over his horse's head in crossing a river, and was thoroughly soaked. The incident, of course, furnished talk for the habitues of the store; and, when he made his appearance the next day, he was greeted by his good friend, the Baptist minister,—"Oh, ho, Beecher; glad to see you. I thought you'd have to come into our ways at last. You've been immersed, I hear; you are as good as any of us now." A general laugh followed this sally. "Poh, poh!" was the ready response, "my immersion was a different thing from that of your converts; you see, I was immersed by a horse, not by an ass." A chorus proclaimed that Beecher had got the best of the joke after all.

The Methodist preacher once said to him: "Well, now, Brother Beecher, what have you against Methodist doctrines?"

"Nothing, only that your converts will practice them."

"Practice them?"

"Yes; you preach falling from grace, and your converts are always doing it with a vengeance."—Success.

SLEEP AND DREAMS.

How Agassiz Worked Out a Scientific Problem.

Agassiz was studying a fossil fish in the Jardin des Plantes, says W. J. Stillman in London Spectator, but had never been able to determine the species to his satisfaction. After a time he dreamed that he caught the very fish, and without difficulty determined the question, thinking, as he woke from the dream that he would now have no difficulty. But on returning to the fossil, something in the dream had escaped him, and he could no more determine the species than before. The next night he had the same dream, and again forgot the essential point. He then determined to take a pencil and paper with him to bed, and make his note as soon as he awoke. The dream came the third time, but to his surprise on fully awakening he found the drawing made and lying on the table at his bedside, with three bones displayed in it which were not visible in the fossil, and which solved the problem. On returning to the Jardin des Plantes he obtained permission of his friend, the director, to chip away a scale of stone which lay on the spot where the bones were in the drawing, and found them there as his drawing had given them. It is thirty years since Agassiz told me the incident, but those who have access to his history of the North American fishes will be able to read it in his own words in the introduction, and correct my version if my memory has in any detail failed me.

PILING ON THE AGONY.

Brilliant Oratorical Powers of the Man with a Show.

When a man begins to brag he must be very careful to keep track of what he says. An amusing instance of the results of not doing so was shown in the case of the manager of a music hall in the north of England, who, although a most illiterate man, prided himself not a little on his brilliant oratorical powers, and made it a practice in the course of the programme every Saturday night to announce the leading items of the forthcoming week's entertainment. One evening he finished his weekly speech in the following remarkable terms:

"Last, but not least, ladies and gentlemen, allow me to inform you that at an enormous expense I have exclusively engaged the marvelous Bromdee brothers, the world-famed acrobats, to appear here in their celebrated entertainment for six nights, commencing Monday next. Understand, ladies and gentlemen, the Bromdee brothers, the champion acrobats of the world."

Here he paused for a moment to regain his breath, and then proudly continued:

"Yes; and what's more, on Monday week we've got a troupe coming what can knock 'em into a cocked hat!"—Harper's Round Table.

MUSIC IN A TOMB.

Favorite Airs of a Deceased Husband Played Daily in a Vault.

A gentleman who died some time ago, was passionately fond of music. Long ago he requested that, whichever of the two departed first, the survivor should honor the memory of the deceased by having a music box or some similar instrument placed in the sepulcher and played at frequent intervals.

The sexton at the cemetery agreed to allow the widow to place a small oak table at the head of the casket, on which were a handsome music box and a vase of flowers. She visits the cemetery daily, rain or shine, and pays musical reverence to the memory of the deceased. While the favorite airs of sacred melody are being rendered she calmly sits on the casket close to the vase and lovingly communes with the spirit of the deceased. More than 200 bodies are stored in the big vault, and as the silence is so dense that a heartbeat almost creates an echo, the impressive but weird notes of the music floating over the caskets and emerging through the iron-grated doors fairly border on the supernatural—Pittsburg Dispatch.

TRADEMARKS FOR THE ORIENT.

Why Merchants Should Study the Chinese Superstitions.

United States Consul Gracey, at Foo-Chow, China, has made a report to the State Department upon labels and tradmarks in that country, with the purpose of showing American merchants how important are such matters in their trade with China. He says that the sale of American or foreign goods in China is often crippled by having some label or trademark which is offensive to the Chinese. Many colors have peculiar recognition by the people; some offend their tastes and others their superstitions. Some are all right on some kind of goods and all wrong on others. The Chinese will often buy biscuits, needles, thread, matches, soap, medicine, scents, sweets, etc., for the sake of getting a lucky label. Some colors and combinations of colors are to the Chinese unlucky.—Chicago Inter-Ocean.

Beyond His Knowledge.

"Do you really mean to stand by what you say about retiring from public life?" inquired the intimate friend just before an election.

"How do I know?" responded the politician. "I'm no prophet."—Washington Star.

Only the Ring.

Mother—What was going on in the parlor last night, Madge?

Madge (shyly)—Only the engagement ring, ma.—Brooklyn Life.

Lokal-Nachrichten aus der alten Heimath.

Württemberg.

Stuttgart. Mit dem Bau eines neuen Theaters auf dem Paul Kolb'schen Terrain ist begonnen worden. Die Façade erhält eine reiche künstlerische Ausschmückung im Rokokostil. Gegen 2000 Personen werden in dem Theater, das vorwiegend als Varietetheater dienen soll, Platz finden.—Da die vom Oberbürgermeister angeregte Kollektivbetheiligung der größeren deutschen Städte an der Pariser Weltausstellung nicht zu Stande gekommen ist, hat der Gemeinderath auf Anregung des Deutschen Ingenieurvereins die Betheiligung Stuttgarts beschlossen. Man will das Modell des Schwabstraßentunnels, sowie die Pläne über die Versorgung Stuttgarts mit elektrischer Energie u. s. w. in Paris zeigen.

Besenfeld. Ein verheiratheter Säger, Vater von acht Kindern, ging in den Wald, um in einer Haselnußhecke einige Stecken zu schneiden. Plötzlich krachte ein Schuß und der Säger erhielt eine ganze Schrotladung in den Oberarm. Der Schütze ging auf den Getroffenen zu, wohl in der Meinung, auf ein Wild geschossen zu haben, suchte aber, nachdem er die Klagerufe des Getroffenen vernahm, sofort das Weite. Der Säger wurde sofort in die Klinik nach Tübingen überführt. Der Schütze konnte nicht ermittelt werden.

Cannstatt. Vor einigen Tagen verlor ein Stuttgarter 38,000 Mark in Werthpapieren. Ein in Berg beschäftigter Eisengießer fand das Packet und lieferte es an den Eigenthümer ab. Hierfür erhielt der ehrliche Mann 550 Mark Finderlohn. Das so unverhofft erworbene Geld wurde von dem Arbeiter sofort auf die Sparkasse getragen.

Geislingen. Zum Nachfolger des kürzlich verstorbenen Reichsschullehrers Betz in Kamerun ist vom Auswärtigen Amte in Berlin der Unterlehrer Fischer an der hiesigen evangelischen Volksschule ernannt worden. Fischer reiste mit dem Woermanndampfer von Hamburg nach seinem Bestimmungsorte ab.

Hall. Der wegen Verdachts, den Mord an Forstwart Schmauder begangen zu haben, inhaftirte Felix Jakob von Bernhardsmühle hat ein umfassendes Geständniß abgelegt.

Baden.

Karlsruhe. In der Bürgerausschußsitzung widmete Oberbürgermeister Schnetzler dem Fürsten Bismarck einen tief empfundenen Nachruf. Zur ehrenden Erinnerung an den großen Ehrenbürger unserer Stadt erhob sich die Versammlung von den Sitzen; die Sozialdemokraten blieben sitzen.

Bruchsal. Den Jahresberichten der hiesigen höheren Lehranstalten, Gymnasium und Realschule, ist zu entnehmen, daß ersteres im ablaufenden Schuljahre von 200, letztere von 251 Schülern besucht war, welche Schülerzahl sich auf 191 beziehungsweise 223 am Ende des Schuljahres reduzirte. Der Konfession nach waren an ersterer Anstalt zu Beginn des Schuljahres 110 Katholiken und 61 Protestanten sowie 29 Israeliten, an letzterer 160 Katholiken, 54 Protestanten und 37 Israeliten.

Konstanz. Der Schöpfer der Blumenpracht auf der Mainau, der großherzogliche Garteninspektor Eberling, ist gestorben.

Lahr. Der zur Zeit gegen 400 Mitglieder zählende Verein „Liederkranz" beging unter der Leitung seines tüchtigen Dirigenten, Musikdirektor Berni, sein 60jähriges Stiftungsfest.

Pforzheim. Der spanisch-amerikanische Krieg hat vielen Industriebezirken argen Schaden gebracht; die Verluste, welche Pforzheim allein erlitten, dürften Millionen betragen, denn das Geschäft nach Kuba stockte vollständig.

Elsaß-Lothringen.

Straßburg. An der hiesigen Universität wurde eine seltene Promotion vollzogen. Auf Grund von Dissertation und Prüfung erwarb nämlich die Würde eines Doctor philosophiae der Oberst a. D. Kaufmann, der frühere Kommandeur des Fußartillerie-Regiments Nr. 11 in Thorn, der im Jahre 1895 als Inspekteur der 3. Artilleriedepot-Inspektion in Köln seinen Abschied nahm.

Markirch. Die Bergleute Gerard und Dickelmann waren in dem am Eingang des Tiefenstollen gelegenen Holzgebäude damit beschäftigt, naß gewordene Dynamitpatronen am geheizten Ofen zu trocknen. Mit einem Male erfolgte eine starke Explosion, und das Gebäude flog in die Luft. Die beiden Arbeiter kamen dabei um ihr junges Leben.

Luxemburg.

Luxemburg. Hier tagte der zweite internationale Touristen-Kongreß. Zu demselben waren 35, zum Theil von ihren Damen begleitete Vertreter von 17 radfahrerischen Vereinigungen aus aller Herren Länder erschienen. An den Kongreß schlossen sich Festlichkeiten und Ausflüge, die bei den Theilnehmern die Gastfreundschaft der Luxemburger und die landschaftlichen Schönheiten unseres Landes und ihrer Hauptstadt in das beste Licht setzten. Für das touristisch noch viel zu wenig bekannte Luxemburg wird der Kongreß nicht ohne wohlthätige Folgen bleiben.

YOU'RE READING THIS?

CERTAINLY!

Well, Mr. Merchant-who-thinks-of-advertising, this is only one of the many corners in THE DAILY PRESS—it isn't the best located one, either; we can give you better—and if this attracts your attention in our endeavor to tell you how good advertising will get you a hearing before the purchasing public, doesn't common sense teach you that if you were having people reading your trade story instead of you're reading our argument about it, that it would be better for your business. THE DAILY PRESS reaches the purchasing public that makes the profits for the merchant.

We can give you big or little space—but in advertising it isn't always economy to be sparing in your appropriation.

There are Others.

Plenty of Them, But so Different. Local Proof is What Plainfield People Want.

There are a great many of them.
Every paper has its share.
Statements hard to believe, harder to prove.
Statements from far away places.
What people say in Maine.
Public expression from California.
Oftimes good indorsement there.
But of little service here at home.
Plainfield people want local proof.
The sayings of neighbors, friends and citizens.
Home indorsement counts.
It disarms the skeptic, is beyond dispute.

This is the backing that stands behind every box of Doan's Kidney Pills; here is a case of it:

Mrs. M. A. Hall, of 219 Prescott place, says: "Doan's Kidney Pills without exception are the best medicine I ever used. My kidneys troubled me for several years with dull, aching pain across my back and at times extending to my hips. I was compelled to lie in just one position at night, stooping, lifting or bending forward aggravated the pains. I was also subject to severe headaches and was more or less nervous. A kidney weakness which was very distressing as well as inconvenient also existed and though I used different remedies that were recommended to me I obtained little if any benefit. I saw Doan's Kidney Pills highly endorsed in our daily paper and procured a box at L. W. Randolph's drug store. It was not long before I felt great relief and I was surprised how quickly the pain in my back disappeared. I am entirely free from it now and my other troubles were benefitted greatly. I consider Doan's Kidney Pills a reliable medicine and in my case they accomplished all that is claimed for them."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U.S. Remember the name Doan's and take no substitute.

the remainder being divided among the other European nations. The canal tolls at this time were nine francs a ton for laden passenger or cargo vessels and for ships of war: six francs fifty centimes a ton for ships in ballast and without passengers; ten francs for each adult passenger and five francs for each child. Mail steamers and warships are generally able to secure some reductions from these rates. By a convention signed on October 29, 1888, the Suez canal was exempted from blockade. It was agreed that it should be neutral at all times, and that no part of it should be fortified. Vessels of all nations, whether armed or not, and whether belonging to nations at peace or war, are allowed to pass through it.

There are quarantine regulations which compel every vessel entering the canal to be medically inspected.

In the last few years the entire length of the canal has been lighted by electricity, so that vessels can proceed as well by night as by day. Formerly no passage was allowed after sunset.

The cost of constructing the canal, including the fine harbors at Suez and Port Said, is said to have been about $100,000,000. Although built by French capital, it has passed more and more into the financial control and political protection of Great Britain, which owns a large part of the stock of the company.—New York Tribune.

AMERICAN PRESIDENT'S FLAG.

Can Our Chief Executive Leave the Country During His Term?

"The president's flag which has been designed for President McKinley is not exactly a new thing," remarked an ordnance officer of the army, "though it is new as far as the idea of a general flag is concerned. The navy got up a president's flag for President Arthur, but he used it but once. He wanted to take an ocean trip up to New York on the presidential yacht, the Dispatch, and the question was raised that under the provisions of the constitution he could not do so, for the reason that the constitution forbids the president leaving the United States while he is president. It was urged on him that if he flew a presidential flag on the Dispatch he would be in the United States, in a legal sense; that is, he would not violate the constitutional provision while sailing under it, even if he did go out on the ocean. General Arthur, who was a lawyer himself, was not exactly wedded to the idea, but he let the opinions of others prevail and he made one trip, but that was all that he would make. Since then the presidential flag has never been used, and I am not exactly clear what has become of it. I am very clear, however, in the opinion that no president will ever make an ocean trip under it, unless there is some change made in that particular provision of the constitution, which is not very likely to happen.

"While at Newport President Arthur had a talk with Justice Miller, then of the United States supreme court, and Jeremiah Black of Pennsylvania, who was one of the leading constitutional lawyers of the country. They both told him that it mattered not what kind of a flag he flew, or who made it, it was a dangerous proceeding in every particular, and it would be better that it should not be repeated. That settled the presidential flag as far as ocean trips were concerned. During the same evening Jeremiah Black told President Arthur that Andrew Johnson, when he was president, once consulted him on a question which involved the same principle. It appears that President Johnson, during a visit to Niagara Falls, took a carriage ride, and without thinking much where the driver was taking him, found himself on the Canadian side of the river. He remained there but a few minutes, returning immediately to the American side. A paragraph got into the newspapers of the ride, which annoyed the president so much that he personally requested a number of newspaper writers to refrain from mentioning it. The result of this was that there was but little publicity ever given to the incident, though I recently conversed with a newspaper man who saw President Johnson on Canadian soil, but who, at his solicitation, never made any publication of the matter. Judge Black told President Arthur that he had to tell President Johnson that, although he did it unwittingly, he had violated the constitution, and that a departure of one foot from the American shore, under a flag or not, was as much violation as ten or more leagues out to sea."—Washington Star.

From His Point of View.

"Every man is likely to make mistakes in public as in private life," said the charitable man.

"Yes," answered Senator Sorghum. "But there are some mistakes for which there is no excuse."

"For example?"

"Well, about the worst is owning up after you have made one."—Washington Star.

THE REASON HE VOLUNTEERED.

Biggs—What made Scrapper go to war?

Diggs—He said he wanted to get in a fight where he didn't stand a chance of being arrested.

DR. ERNEST VON SCHWENINGER.

The Wily Physician Who Was Able to Make Bismarck Take Medicine.

Dr. Ernest Von Schweninger, the physician of Prince Bismarck, is the only doctor who was ever able to induce the iron chancellor to take medicine. But Dr. Schweninger is a remarkable man. He got his pathology, anatomy and physiology in Munich, and it was in that city he began his medical career at 30 years of age. It was soon afterward that he met the family of Bismarck, and his amazing success with its members gave him at once a great reputation and a very large practice. He has rather original ideas of medi-

DR. ERNEST VON SCHWENINGER.

cine, and stands for reform in the practice. He is also a great dress reformer, believes in wearing the hair long and denounces corsets. He treats the sultan of Turkey by telegraph, and Baron Rothschild often consults him. Even Li Hung Chang has found him an excellent adviser. His greatest fame rests on the fact, rare in medicine, that his patients always get well. He holds a professorship in the University of Berlin, but his colleagues, Koch, Virchow, Treitscheke and Dubois-Raymond, do not like him, nor does he like them. The doctor has a striking appearance. His nose is straight, his skin bronzed, and his figure athletic. It is said that Bismarck said that the doctor "is the only man whose will is as strong as or even stronger than my own." That is why, perhaps, the man of blood and iron consented to take Dr. Schweninger's pills.—Chicago Times-Herald.

THE DIVERS OF WARSHIPS.

A Very Necessary Adjunct to the Modern Man-of-War.

If Paul Jones in ghostly guise wanders around the warships of our new navy he must see many surprising accessories to the fighting and working forces as organized in his day. One novel and necessary addition to the crew of a warship of the present time is the submarine diver. The importance of this individual to the welfare of a warship has been amply shown during the recent operations against the Spanish fleets. Speed has been the most important point in the manoeuvring during the opening events of the war, and this has rendered it necessary for our ships to be in the best possible trim for fast work, as, owing to the lack of drydocks to enable us to clean the foul bottoms of our vessels when they come off a long voyage, it has been necessary to send divers down to do the work as best they could.

It has not been done well, but it has been the best kind of substitute that could be found for the proper article. The submarine divers are able only to scrape away the barnacles and seaweed, and even then they are so handicapped by the heaviness and unhandiness of their dress that it is impossible to do the work in any but a clumsy and incomplete way.

But, good or bad, the diver has become a necessary part of the ship's crew. Many warships carry one or more trained divers. He must be possessed of an exceptionally strong constitution, and above all without the slightest tendency to any heart trouble.

To Remember Faces.

To remember a face, as a person is called, the rule is not difficult to follow; pick out some feature or peculiarity by which you can distinguish that face or person from all other faces or persons, and associate the name with that feature or peculiarity. No two countenances or figures are alike, and it is by noting how they differ one from another that you will remember them.

In explaining his remarkable memory for faces, Speaker Reed once said to a reporter that he never looked a man in the face that some striking peculiarity, a line, a wrinkle, an expression about the eye, the set of the lips, the shape of the nose, something set that man's face down in his mind eradically and distinguished from the rest of mankind—so that when a man approached him he would think: "Here comes that man Robinson, whose right pupil is bigger than his left," or "this is Thompson, whose nose is so crooked."—Self Culture.

Coloring Leather by Electricity.

A clever adaptation of the principle of cataphoresis, by which medicines are driven through the skin to any part within the body by means of electrical currents, has been made in the decoration of leather. The zinc covered table on which the hide or skin is placed forms the positive pole for the generation of current. The fluid dyeing material is poured on this table, and the negative pole is then connected to the leather. The current stamps the required design on the immediate surface of the leather and carries the coloring matter within. Patterns may be made on the leather by covering it with an ordinary stencil system and connecting the plates to the negative pole.—St. Louis Globe-Democrat.

IN THE SUEZ CANAL.

HOW THE SHIPS ARE SENT THROUGH THE GREAT WATERWAY.

A Simple System of Signalling—The Entire Length Lighted by Electricity—During Peace or War All Vessels Allowed to Pass.

Among the great canals of the world the one through the Isthmus of Suez stands absolutely alone as the example of a certain type of construction. While it is a magnificent piece of engineering work, it seems almost an error to call it canal, since it has no locks, gates, reservoirs or pumping engines—in short, it has nothing in common with other canals except that it affords a short cut for vessels passing from one body of water to another. It is an artificial strait connecting the Mediterranean and Red seas, and because these two seas are on nearly the same level the particular kind of construction of the Suez canal became possible.

The entire length of the canal is eighty-eight geographical, or about one hundred statute miles. Of these eighty-eight geographical miles, sixty-six are actual canal, having been formed by cuttings; fourteen miles consist of dredging through the various lakes which lay in the path of the work, and eight miles required no labor at all, since the natural deepth was at first twenty-six feet, but the canal was widened and deepened about ten years ago so that now vessels of twenty-six feet draught can pass through it easily, with something to spare. The surface width is 325 feet for most of the way, but in the deeper cuttings this width decreases to 196 feet. The lakes which the canal traverses—Lake Menzaleh, next to the Mediterranean; Lake Timsah, about half way across, and the Great Bitter lakes, near the Red sea—were merely dry depressions before the cutting of the canal, but the inflow of water at once converted them into large inland lakes.

Everything along the entire length of the canal is controlled from the main office, in a place locally known as Terreplein, a part of the old town of Suez. No such name as Terreplein appears on most maps of the canal, but to those who live in Suez, the made land, the filled up marshes and the chains of islands which project into the gulf nearly two miles from the main part of the city are known not by their official names, as Port Tewfik or Port Ibrahim, but as Terreplein.

In the large office at Terreplein there is almost perfect silence, though the employes are working steadily, each at his especial task. Sometimes there are as many as forty ships in the canal at one time, and the slightest mistake in signalling between the stations might lead to serious consequences. All these vessels, whether they are in the narrowest cutting, whether they are moving along at full steam through the 23 miles of deep water in the Great Bitter lakes, or whether they are leaving the canal at Port Said, are under the direction of the man who sits at his desk in the office at Terreplein.

The method of working the canal is ingenious, yet comparatively simple. At one side of the room against the wall, is a narrow shelf, along which runs a groove. At intervals this groove has deep recesses, which in two places are much larger than they are elsewhere. The groove represents the canal and the recesses the sidings, the two large ones being the Great Bitter lakes and Lake Timsah. When a vessel has been signalled and is about to enter the canal—at the Suez end, for example—a toy boat or model, about four inches long, is chosen to represent her. A group of these little models stands ready near the model canal, and each one is furnished with a flag to denote its nationality. The English flag is naturally the predominating ensign though all countries are provided for. As the real steamer approaches and her name becomes known, it is written on a slip of paper and placed on the toy boat.

The number of ships actually in the canal can thus be seen at a glance and also the exact positions in which they are situated for, as the telegraphic signals give notice of each vessel's progress, her toy representative is moved along, placed in a siding, or shown crossing one of the lakes.

Signals are sent from this office to the various "gares" or stations, naming the siding at which each ship must stop and wait to let another pass it. The official on duty moves the models according to his dispatches, and when two vessels going in opposite directions are both nearing the same siding, he warns their pilots by means of the signal balls and flags at each station, which he controls from the office, and indicates which of the two is to give way to the other.

The arrangement, except in the case of occasional accidents, works perfectly. The clerk can tell in a moment the name, nationality, tonnage, draught and precise position of every ship in the canal; he knows who her pilot is, how fast she is moving, her breadth of beam and various other details, and he has absolute control of her every movement. Most of the Suez pilots are of Greek origin, though Englishmen and men of other nationalities are occasionally met. The pilot's chief duty is to prescribe the rate of speed, as the officers of a vessel would have really no difficulty in taking her through the canal without guidance. In the narrow cuts the speed is limited to six miles an hour, but vessels may proceed much faster in the lake sections. Two pilots are always employed, for one goes off and a second goes on at Ismailia, on Lake Timsah.

The average time of transit for the 3,409 ships which passed through the canal in the year ending in June, 1897, was 15 hours and 53 minutes. About two-thirds of these ships were English,

GOLF.

Last Saturday afternoon on the links of the Hillside Tennis and Golf Club play for the Fisk cup was continued with considerable interest. Olaf Saugstad and Dr. Ard broke even and six more holes were played, when the former made three points. Dr. Ard made two points, while Walz made one point. The original scores are as follows:

	Gross.	Handicap.	Net.
Walz	107	14	93
Saugstad	96	8	88
Glenny	95	scratch	95
Ard	102	14	88

There was no formal opening of the Park Golf Club grounds yesterday, but during the day many of the members availed themselves of the opportunity to play on the course. Among those who played were E.T. Douglass, George T. Rogers, H. D. Hibbard, F. W. Iredelle, Mr. Crowe, Samuel Townsend, Wm. L. Saunders, of the borough; George Doubleday, Henry Brewster and Roy Brewster, of New York. The course is in fine condition and from now on there will be play on the course, and in the near future arrangements will probably be made for an opening of the course.

ROD AND GUN.

Cut His Hand With an Ice Pick.

C. A. W. Fox, the green-keeper of the Hillside Tennis and Golf Club grounds, met with a painful accident yesterday afternoon at the clubhouse. He was using an ice pick and cut a large piece of ice, when the sharp instrument slipped and struck his left hand. The teeth entered the flesh for a considerable depth and caused Mr. Fox much pain. He went to the home of Dr. Hedges and had the wound attended to, and although he does not now the use of the hand it will only be a few days before the injury will be well.

Republican Primaries Next Monday.
(Special To The Daily Press.)

Elizabeth, Sept. 6.—The Republican county executive committee met here Saturday evening and decided upon Monday evening, September 19th, as the time for holding primaries throughout the county to elect delegates to attend the State convention. It is fully expected that Plainfield will be entitled to two delegates from each ward and Assemblyman Roger F. Murray will make an effort to see that Plainfield has such a representation.

News Correspondent Overcome by Heat.
(Special to The Daily Press.)

Dunellen, Sept. 6.—Miss Minnie VanMiddlesworth, the correspondent for the Plainfield News, was overcome by the heat Sunday, while in church, and had to be taken home. She is under the treatment of a physician at present, but seems to be getting on nicely. The first signs of her illness were noticed during service. She suddenly burst out in a hearty laugh, and kept this up for several minutes. Her mind is still unbalanced, but no serious results are expected.

Couldn't Survive the Operation.

William Roberts, aged 80 years, a life-long resident of Martinsville, where he followed the life of a farmer, died at the hospital last Sunday evening as the result of an operation performed for a disease of long standing. Mr. Roberts was at the hospital only a week and the physicians in charge deemed it wise to perform the operation, and thus take the opportunity of saving his life. The body has been taken to Martinsville for interment. Two daughters survive the deceased.

Taken to the Hospital.

Rev. H. H. F. Schnellendreussler, of Milton place, who has been suffering with gastritis and hiccoughs, was this morning taken to Muhlenberg Hospital for treatment. The hiccoughs have almost ceased and only occur occasionally. Other complications have set in which require close attention and good nursing, which he will receive at the hospital.

Cake of Ice Dropped on His Foot.

John Kriney, an employe of Hetfield & Gallup, ice dealers, met with a slight accident last Saturday afternoon while at work at the ice houses on West Front street. A large cake of ice dropped on his foot, causing him much pain and trouble in walking. He has, however, partially recovered from the effects of the accident and is again able to work.

Dr. Lewis Not Sunstruck.

An article was published in the New York Herald this morning stating that Rev. Dr. A. H. Lewis, who is now at Milton, Wis., was sunstruck and that he is not expected to live. There is absolutely no truth in the statement. Dr. Lewis is well and has suffered no illness during his absence.

Light Attack of Yellow Fever.

Daniel C. Main, still in Cuba, is recovering from the yellow fever. The attack, though brief, was severe, and leaves him very weak.

—Van Emburgh will sell to-night "only" from 7 to 8.30 o'clock. Japanned Coal Scuttles for 9c each.

THE RIVERDALES LOST.

CONTINUED FROM PAGE 1.

to catch Hayes. Westervelt ended the inning.

In the beginning of the third inning, Hayes came to grief. An error by Westervelt, a hit and two stolen bases gave the Giants one run and Watkins on third. Westervelt misunderstood Hayes' signal and sent the wrong curve. The ball struck on Hayes' right thumb, splitting it open for its entire length and breaking the bone. Watkins scored. Hayes was hurried to the dressing room, where Dr. Zeglio dressed the wound. Then Fred Smith went behind the bat, Hardy going to second and Bert Timpson taking Hardy's place at left.

Westervelt and Hayes had already struck out one man that inning and Westervelt and Smith put out the other two in the same manner. Smith caught well, his only bad play being a wild throw to second. Miller tried to rattle him, but Fred was not that kind.

The Cuban Giants scored one more run in the fourth inning on Smith's wild throw, an error by Hardy and a base on balls. That ended their fun until the ninth when a dropped fly by Will Smith and a clean hit sent one of their runners around the circuit of the bases.

Despite their best efforts, the Riverdales failed to score until the eighth. Their batting was not timely and the colored men found their flies and grounders easy. Then Fred Smith reached first on a grounder too warm for Miller to hold very long. He stole second and went to third on a sacrifice by his brother. Miller's error of Wood's grounder allowed Smith to score.

The individual scores were as follows:

RIVERDALE F. C.

NEW GOLF COURSE OPEN.

CONTINUED FROM PAGE 1.

local life.

Under the direction of the lady members of the club the pretty club was most artistically decorated with flowers and ferns. The picture was certainly one to be admired by all. At the reception Mrs. A. H. Atterbury received and she was assisted by Mrs. H. C. Tracy, Mrs. H. M. Stockton, Miss Wood and Mrs. G. P. Mellick.

Ice cream and dainty cakes were served and a social chat was enjoyed by those present. During this part of the event many golf lovers remained on the course and endeavored to learn as well as possible all that they could about the new grounds. During the afternoon Morris Dumont made a score of 85 and Frank Talmage made the course in 90.

The opening, it can truly be said, was a success from every standpoint and the members of the club are highly pleased in consequence. To G. A. Chapman is due a great deal of credit for the club's new quarters. As president of the club he has worked faithfully and hard to make golf a success in Plainfield and he is now enjoying the result of his labors. The club's officers are:

President, G. A. Chapman; vice-president, A. A. Atterbury; treasurer, Josiah Browne; secretary, John Doull Miller; secretary for golf, William T. Kaufman; board of trustees, A. H. Atterbury, Josiah Browne, James P. Murray, G. A. Chapman, W. T. Kaufman, John Doull Miller, Howard W. Beebe, George P. Mellick, Sylvanus L. Schoonmaker; house committee, George P. Mellick (chairman), Mrs. Howard C. Tracy, Miss Wood, Howard Huntington, James P. Murray; golf committee, William T. Kaufman (chairman), Frank C. Ard, Howard W. Beebe, Sylvanus L. Schoonmaker and Frederick W. Walz.

The club has 209 active members, 3 honorary, 4 non-resident members and 155 associate members. From now on there will be play every week on the course and golf may now be called a grand success in this city.

Rev. Dr. D. J. Yerkes, of West Seventh street, returned last evening from his sojourn at Saratoga.

EARLY INTELLIGENCE.

—VanEmburgh & Son will have their place of business open every evening from this date on.

—Of the many residences in the borough decorated with "Old Glory" yesterday, none looked more patriotic than that of A. J. Leader, corner of Duer street and Mercr avenue.

—Doane & Edsall are showing an unusually large assortment of school shoes at remarkably low prices. The school boy and girl can see something that will be of interest to them by looking in the front show window.

PARTICULAR MENTION.

Arthur G. Kerr, of Central avenue, will sail for Porto Rico, Cuba, Thursday next, on the steamship Philadelphia.

Mrs. Willard Ross and daughter, Helen, left Sunday for Cincinnati, where they will visit Mrs. Ross' parents.

Among the many Plainfield people who spent Labor Day at the Mountain Park Inn, were Mr. and Mrs. Andrew Vanderbeek of Second place.

Mr. and Mrs. Joseph Sattels, of East Sixth street, are at Island Heights, Ocean County, for a week or two, and today Mr. Sattels' partner, ex-Freeholder Andrew Vanderbeek, joins Mr. Sattels for a couple of days' fishing.

Primitive House Lighting.

The first and most natural way of lighting the houses of the colonists was found in the fat pitch pine, which was plentiful everywhere; but as soon as domestic animals increased candles were made, and the manufacture of the winter supply became the special autumnal duty of the thrifty housewife. Great kettles were hung over the kitchen fire and filled with hot water and melted tallow. At the cooler end of the kitchen two long poles were placed from chair back to chair back. Across these poles, like the rounds of a ladder, were placed shorter sticks, called candle rods. To each candle rod were tied about a dozen straight candle wicks. The wicks were dipped again and again in regular order, in the melted tallow, the succession of dippings giving each candle time to cool. Each grew slowly in size till all were finished. Deer suet was used as well as beef tallow and mutton tallow. Wax candles were made by pressing bits of half-melted wax around a wick.—Chautauquan.

His Attentive Audience.

A well-known novelist delivered a lecture recently in a New Jersey town not far from this city, in which he read selections from his own works. His reputation and the society that engaged him brought together an audience composed of the best people of the neighborhood. After the lecture, when people met, it was the proper thing for one to ask the other:

"Were you at the lecture?" and the answer in every case was:

"Oh, yes! I was there, but I didn't hear a word. Did you hear the lecture?"

"Well, no! I was there but I couldn't hear, either."

A friend who met the novelist a few days after his visit to the suburban town asked him what kind of audience he had and how he liked the town.

"It's a fine place," was the reply, "and I had the most attentive audience that I have ever spoken to. No one made a sound, and I didn't have to raise my voice above a whisper."

The Custom in Mexico.

Many amusing situations arise in Mexico on account of the graceful custom of remarking whenever any belongings are praised or admired: "It is yours, senor!" Of course, this is mere petty politeness, which is not supposed to be taken advantage of, but an American visitor who chanced to admire a cask of fine wine carried it away upon the remark of the clerk that "it was his," and the unfortunate clerk had to repay his employers. An American woman was elated over a piece of rare lace she had immediately accepted upon hearing the words, "It is yours," from the Mexican owner, and it took the intervention of interpreters to obtain the restoration of the lace and soothe the wounded feelings. —Kansas City Times.

Worse Than Cabbage.

Tipser—Do you believe this Pennsylvania tobacco is made of cabbage leaves?

Vesey—No, it is made of something worse than that.

Tipser—What?

Vesey—Pennsylvania tobacco.—New York Journal.

Getting Shaky.

Traveller—Do the trains for Waxtonbury leave this station?

Railroad Attache—They always have up to date; but the thing is getting pretty shaky, and it wouldn't be strange some day to see one of the trains carrying it off.—Boston Transcript.

Unscientific.

First Arctic Explorer—"I have always considered Columbus a somewhat over-estimated man." Second Arctic Explorer—"Why?" First Arctic Explorer—"He discovered America the first time he went to look for it."—Puck.

DIPHTHERIA IN THE BOROUGH.

Two Cases Said to Have Been Located—The Houses Quarantined.

The Borough Board of Health at present is experiencing some trouble through two cases of diptheria that had developed within a short time in the northeastern part of the borough, but within a few days two more cases were discovered. It seems as though an effort was made to keep the knowledge of the cases quiet and away from the board. The cases were located, however, and another physician was sent to the house to investigate. A diagnosis was made and two cases of diptheria were found. The result was submitted to State authorities and they also decided that diptheria was evident. The houses have been quarantined by the borough authorities.

Attention Housewives.

We are of the opinion that after this week peaches will be considerable higher in price and possibly scarce. This is the week to do your *canning* and we have an elegant assortment to choose from. Call and see our fruit and we are sure to get your order.

NEUMAN BROS., grocers.

O'Neill's.

Sixth Ave., 20th to 21st St.
New York.

Our Suit Department is showing some nobby styles for early Fall wear. We want our friends in Plainfield to pass judgement upon them.

To round up the next few days with record-breaking figures we've pared the prices on these suits down almost to the quick, so as to make the early buying easy. The range of prices runs from

$18 to $33

but we can't make types tell one-half the loveliness that's crowded into them. It discounts words by just so much as the complete show later on will discount the present.

If you can't come in person send for our magnificent new Fall catalogue, just published. It tells about and illustrates the kind of goods we sell.

We are doing a wonderful business through our "Mail Order Department" simply because we give the customer who orders by mail the same advantages as if they were here in person. Try us.

We deliver all purchases, excepting bicycles and sewing machines, free to any railroad station within 100 miles of New York.

H. O'NEILL & CO.

Mid-Summer Clearance.

The enemy of the shoe trade is the carrying over of stock from year to year until it gets clear off style. It deceives customers. It disgusts clerks. It turns profit into loss. Hence goods of summer fashion are to go before August 31st. We'd rather have the cash than to carry over the goods, besides we want the room for fall stock.

Every man, woman and child can be interested in this sale, as shoes for everybody is our business.

SALARY QUESTION IN COMMON COUNCIL.

Members Cannot Agree About Pay of 1st Assistant Chief.

MATTER FINALLY REFERRED

COUNCILMAN HETFIELD WANTED TO FIX IT AT $100.

Councilman Runyon Quoted Corporation Counsel Marsh as Saying That a Salary of a City Official Could Not Be Changed During His Term—Councilman Barrows Advises to Go Slow.

The city fathers had no desire to linger long at the special meeting held last evening, for the oppressively hot weather had its effect. Strange enough, all of the members were present, and it was a few minutes past 8 o'clock when President Baker called the meeting to order. The chief topic of interest discussed was the question fixing the salary of First Assistant Chief J. W. Murray, Jr., of the fire department, which matter was laid on the table at the last meeting. Mr. Hetfield called the matter up last evening and moved that the salary be fixed at $100 a year.

Mr. Runyon took exception to the motion and stated that the corporation counsel had informed him that the Council had no right to change an official's salary during the term.

To this statement Mr. Hetfield objected and expressed an opinion that he thought it very strange if the salary could not be changed. The salary of the second assistant was changed and why not change that of the first assistant.

Mr. Barrows made a few remarks on the subject, and thought that it would be wise to have the matter referred to the fire and building committee. He said that there had been too much similar trouble of late in determining just what rights the city has. He said it seemed to be a question as to what streets the city own, or whether the Council has a right to govern the city. His opinion was that it is better to go slow and act right.

Mr. Hetfield stated further that if the Council elects a man to an office they certainly have the right to fix his salary.

Mr. Buckle coincided with Mr. Hetfield as did also some of the other members, but the matter was finally referred to the fire and building committee and a report from them will be received at the next meeting.

The minor business of the evening did not consume much time and it was quickly transacted. Mrs. Franklin P. Chase, of East Front street, asked the Council to lay a crosswalk on the above street at the head of Westervelt avenue. The matter was referred with power. The Plainfield Electric Light Company informed the Council that new lights have been located as ordered. Assessor J. A. Hubbard, in a communication, informed the Council that he believed the tax of $3.30 for 1894 on a Jefferson avenue property was an error. The matter was referred for investigation. The report of the sewage assessment commissioners was received and laid on the table.

Street Commissioner Gavett reported the granting of nine sewer permits, and the same number of building permits were reported by Building Inspector T. O. Doane.

Mr. VanHerwerden offered a resolution providing for the borrowing of $5,000 on account of general fund and $1,000 on account of fire fund, in anticipation of taxes.

The city now has the use of eleven free telephones and it is entitled to twelve. In view of this fact Mr. Andrews has been anxious to have a telephone placed in the City Industrial Home. The necessary steps were taken at the meeting last evening and a 'phone will be located as desired.

Mr. Barrows offered a resolution which provide for the enforcement of the ordinance compelling property-owners to curb their property. The resolution includes a small number of properties, but was amended before adoption, to exclude the property at the corner of Westervelt avenue and East Front street. This action was taken owing to the fact that the owners are in France and no one at present occupies the property.

An effort was made to adjourn the meeting to Thursday evening, September 22d, but this was found to be illegal, and Mr. Barrows requested President Baker to call a special meeting. The date will probable be September 22d. After Mr. Runyon offered a motion that the amended building ordinance be adopted on third reading, the meeting adjourned.

Rev. Mr. Caldwell, of Camden, is visiting Thomas Quinn, of Avon Park.

HIS CLOTHES NOT STOLEN

BALDWIN BOY WAS VICTIM OF HIS OWN MISTAKE.

In Returning to a Bath-house at Boynton Beach He Got Into the Wrong One—Preferred $12 to Clothes.

(Special to The Daily Press.)

Boynton Beach, Sept. 7.—Walter Baldwin, the Plainfield boy who alleged that his clothes were stolen from one of the bath houses here on Labor Day and whom Mr. Boynton reimbursed $12 for the reported loss, was not the victim of a thief but of this own misake. After leaving the water he entered the wrong bath-house, the key he had fitting two different locks. When he found that his clothes were not in the house he entered, he concluded that they must be stolen. At the time it was not thought of to search any other bath-houses to try to find them.

Yesterday morning when the bath-houses were being cleaned up workmen found the missing clothes in the bath house just as the young man had left them when he went into the water. E. H. Boynton, son of the proprietor, at once done the clothes up in a bundle and went to Plainfield. He visited the Baldwin family and explained the circumstances of how the boy had missed the clothes solely through his own error. He asked for the return of the $12, offering the missing clothes in place of it.

Much to his surprise, however, the young man's folks refused to return the $12. They evidently figured that the money was worth considerable more than the clothes that their son had lost. Mr. Boynton found it impossible to persuade the Baldwins that they had no right to keep the money, but inasmuch as they declined to return the cash he refused to return the clothes. He brought the bundle back last night, and the apparel will probably be given to some poor person in this vicinity.

EVADES A PUBLIC INSTITUTION.

A Young Lad Runs Away From His Mother in Dunellen.

(Special to The Daily Press.)

Dunellen, N. J., September 7.—A good-sized crowd turned out yesterday morning to search for Omelia, the thirteen-year-old son of Mrs. Pyquetle, who had run away from his mother Monday night to escape being placed in a home in Hopewell, N. J.

Mrs. Pyquetle's husband, who was a car sweeper, was killed in the spring, leaving a widow and five little children. The widow is employed in one of the cottages at Mountain Park and has found places in the home for all of her children except this one, the oldest.

Monday she made arrangements to have Omelia sent away, but when night came the boy was gone. She followed him yesterday morning, but when his mother came in sight, Omelia disappeared, and kept out of sight until she had given up the search. It is thought that he has found a refuge for a few days with some old friends, and will make his appearance again as soon as his mother goes back to her place.

PADDEL HEARD FROM.

But the News is Too Old Now to Result in His Capture.

Justice Mosher has received word concerning the movements of George Paddel, the machinist-boarder whom Mrs. Lizzie McLean, of West Fourth street, accuses of leaving town a week ago Sunday with some wearing apparel and jewelry belonging to her husband and herself.

Paddel has a sister-in-law, Mrs. Minnie Paddel, who lives at Elizabethport. A friend from this city called on her last week, and showed her a copy of The Press telling about the charge made in the court against him. Yesterday Justice Mosher received a letter from Mrs. Paddel asking if the story was true. She said in her letter that her brother-in-law came to see her Sunday, August 28th, the day he disappeared from here, and spent several days with her. Wednesday he went away, and she does not know where he went.

Fingers Crushed In a Wringer.

Walter McKinley, a young son of William McKinley, of West Front street, was playing around a tub of wet clothes which his mother was washing yesterday. The little fellow thrust one hand through the wringer and the full set of fingers were drawn through before his mother understood what the matter was and stopped her work. A physician said the fingers were badly crushed but were not broken.

Called Bad Names.

Charles Saueracker was accused of calling Michael Doyle bad names. The case will be thoroughly ventilated in the City Court Saturday morning.

—Press want ads bring results.

SPANISH IS TABOOED IN PLACE OF GERMAN.

Language of Dons Wont Be Taught Right Away.

GERMAN TOO IMPORTANT.

MR. LOUNSBURY'S PROPOSITION NOT FAVORABLY RECEIVED.

He Wanted the Board of Education to Substitute Spanish for German in the Public Schools, But Superintendent Maxson and Others Opposed It—Subject of Playgrounds Also Discussed.

The meeting of the Board of Education last night was mainly devoted to paying bills. August is generally the heaviest month of the year, as bills for repairs and for coal come in to be acted upon at the September meeting. The bills approved and ordered paid last night aggregated a snug sum.

The entire Board was present at this meeting.

The ex-collector reported that taxes to the amount of $552.57 had been collected during the past month with interest, $16.27, making a total of $598.84, which had been deposited to the credit of the Board.

The teachers' committee reported that two new teachers, Miss Helen W. Peckam and Miss Cora Perry, had been secured, Miss Peckam to teach in the High School and Miss Perry in the Irving. This report was accepted.

A communication was read from H. P. Reynolds, of the managing committee of Muhlenberg Hospital, in which a request was made for three or four old settees to use in the reception room at the hospital or in other parts of the building. It was voted to permit Mr. Reynolds to pick out as many old settees from the cellar as he needed.

A. C. Rogers wanted to rent the Rogers' school building on West Fifth street, which the Board lease and do not use. Mr. Rogers stated that he wanted to open a real estate and architect's office. The matter was left with the committee on buildings with power to act.

Mr. Lounsbury suggested that Spanish be taught in the schools, if necessary, in place of German. Mr. Abbott thought that German was necessary, especially for those pupils who go to college. Superintendent Maxson was opposed to substituting Spanish in place of any other language taught, but the subject did not reach a vote.

Mr. Lovell spoke and said that suitable playgrounds for the pupils, with instructors who would see that they played properly and engaged in games that were moral as well as healthful, were more necessary in his mind. This, too, was dropped, and the Board went into executive session.

AWED BY THE REVOLVER.

Charles Bock Delivers an Italian Into the Hands of the Police.

"Me bad man," exclaimed the Italian ragpicker as he lifted the iron poker high in air. It was yesterday evening and Charles Bock, of Somerset street, had seen the Italian picking up all sorts of things about the yard. For the time being Italy was victorious. Then the representative of America went into the house and secured his revolver. The tables were soon turned.

With one eye on the muzzle of the revolver, the native of sunny Italy marched up the street until they found a policeman. Then the ragpicker was turned over to him.

This morning the man who had the poker, Dominico White, and his partner, Lawrence Lingro, were arraigned before City Judge DeMeza. White was fined $8 and the other man ordered out of town.

CARS RUNNING BY SATURDAY?

A Question as to Time Brunswick Company Will Open Dunellen Extension.

(Special to The Daily Press.)

Dunellen, Sept. 7.—According to good authority the street railway company will be running cars through here by Saturday. The trouble seems to be at Bound Brook, in crossing a bridge which divides two townships, and is controlled in part by each. But Mayor Silas Drake, of Lincoln, says the cars will be running through that place and to Dunellen in a few days.

The bridge over the brook between here and Lincoln, is nearly finished; the poles are almost all up, and the track about completed.

Pity For a Man From Elizabeth Street.

Philip Glennon, of Elizabeth street, had been drunk. That was all the police could say against him this morning when he was haled before the City Judge. As a result, sentence was suspended.

ICE NOW MORE COSTLY.

THE LOCAL DEALERS INCREASE THE PRICE TEN CENTS A HUNDRED.

Excessively Hot Weather Has Caused Extraordinary Consumption and Has Brought the Supply to a Low Point.

The price of ice is on the rise. The first step was taken September 1st, and unless cool weather comes soon, and comes to stay, the local dealers may be obliged to put it up again.

As a well-known ice dealer told a representative of The Press yesterday, that double the quantity of ice has been consumed here this summer as compared with last summer or any previous seasons. The extremely hot weather and the prolonged spell of constant heat are to blame for it. There are four great wholesale ice dealers in the northern part of this State upon whom the local dealers depend for their stock, the Hopatcong Ice Company, at Lake Hopatcong, the Mt. Pocono Company, the Goldsborough Company and the Greenwood Lake Company.

The Hopatcong Ice Company are about sold out and the other three so near so that it is only a question of a few days before they will have exhausted their supply.

This week ice has gone up from 10 cents a hundred wholesale to 20 cents; and from 20 cents retail to 35 cents. The dealers even now say that they are selling the ice for just what it costs them to place it in the refrigerators at 35 cents a hundred, and that before they were losing money.

The mild, open winters have made the ice harvests light, and even now much of the ice used here, it is said, comes from Maine. The dealers also say that several big dealers are holding back their stock waiting for a higher price. But, even at 35 cents a hundred, consumers ought not to complain, especially now that it is so late in the season and ice has been so cheap all through the summer.

STATE FAIR AT WAVERLY.

"Politicians' Day," It is Expected, Will Attract at Least 30,000 Visitors.

One of the features at the Waverly Fair yesterday was the horse show in the track enclosure. The exhibition horses were brought out in the morning, put through their paces, and then the prizes were awarded by the judges. Contrary to the usual custom, the judging of exhibits in the other departments was deferred until today, which will be another "farmers' day."

"Politicians' day" will be observed tomorrow. It is usually the big day of the week. All the public men and office holders in New Jersey, Republican and Democratic town, city, State and some of the National leaders, will be there, and the usual reception will be given to the Chief Executive of the State in the big tent on Governors' Hill. It is expected that at least 30,000 visitors will pass through the gates.

AN UNRULY TONGUE.

Mrs. Bridget Dake Gave Various City Dignitaries a Piece of Her Mind.

An unruly tongue nearly made trouble for Mrs. Bridget Dake in the City Court this morning. The worst of it was that it belonged to her. It first got her into trouble with Patrolman Myers Sunday afternoon and he was finally constrained to bring her down to the city jail. Then she opened fire on the Chief. This morning, after City Judge DeMeza had suspended sentence on her, she let go at the Judge and was suddenly landed in a cell. Her two children wept and Rev. G. Kennedy Newell made a successful plea for her. She was released again in the charge of the clergyman who persuaded her to keep silent.

Underwent an Operation.

Word has been received in this city that E. E. Marshall is now ill at Niagara Falls, after having undergone an operation for appendicitis. Mr. and Mrs. Marshall left for Niagara Falls Saturday partly for pleasure and partly for the benefit of Mr. Marshall's health. Yesterday, Mr. Marshall was compelled to undergo the operation. No news has been received as to his exact condition.

Collision Brings a Lawsuit.

George Rhyno, of Piscataway, has brought suit in Justice Mosher's court against a Mr. McCarthy, in tort, for $200 damages. Several weeks ago there was a collision on the railroad crossing at Samptown between these two. Rhyno claims that McCarthy was to blame, and has brought the suit for damages.

An Approaching Marriage.

Mr. and Mrs. Robert Hangliter, of Monroe avenue, have issued invitations for the marriage of their daughter, Miss Annie Hangliter to Adam Angerbauer, of East Third street. The ceremony will be performed at Hope chapel Thursday evening, September 22d, at 7:30.

BICYCLE SCORCHER'S HEAD WAS CUT OPEN

Riding at a Fast Pace Ran Into a Vehicle.

AMBULANCE CALLED OUT.

CHARLES T. WOOLSTON, THE VICTIM, ON WRONG SIDE OF ROAD.

Accident Occurred Near Avon Park—Woolston Rode Pell-Mell Into the Shafts of the Approaching Wagon—Severe Scalp Wounds From Which Blood Flowed Freely—26 Stitches.

A wheelman scorching, a wagon rattling along the road at a fast pace, a collision, and the bicyclist lying along the roadside dangerously wounded, caused excitement enough at Avon Park last night. The young man who was hurt was Charles T. Woolson, son of Councilman Woolston of the borough, and when the accident happened he was scorching along Park avenue towards home in company with eight other companions.

When near Michael Quinn's place, the bunch of bicyclists met a buggy. Woolston, who was ahead, rode directly towards the rig. His head was down, and one of the shafts came in direct contact with his skull, making two long scalp wounds, seven or eight inches in length, and cutting up his face and neck.

When the accident occurred Woolston was about a quarter of a mile ahead of the others. As those going at the slower pace neared the scene of the accident they passed the rig that was collided with, and a woman was seen to thrown a bicycle out of the wagon into the road. The rig did not stop. It is supposed when Woolston struck the wagon the force was enough to throw the machine into the vehicle. A few feet further on Woolston was found lying in the roadway.

His companions picked young Woolston up and carried him to Quinn's house and laid him on the piazza. He was conscious, and one of the wheelmen was despatched to town for a physician. Dr. Endicott was at home and went out there at once. In dressing the scalp wounds it was necessary to take twenty-six stitches. The cuts in the head were so deep as to expose the bone.

Dr. Endicott sent for the ambulance and had Woolston removed to his home. The accident occurred at 9:30 o'clock, but it was not until 1:30 o'clock that Woolston was fit to be moved.

When the young man was picked up his head and neck were covered with blood and it was almost impossible to tell where the cuts or wounds were. At this time it is impossible to tell whether the injuries will result disastrously or not.

THE PIANO SOLD.

Richard Menzel Claimed it But Did Not Offer Any Proof.

When the goods of the departed A. D. Warde, late proprietor of the New Jersey Military Academy, were sold at public auction August 24th, at the Arlington Hotel on Somerset street, among the effects was a Mahogony Baby Grand piano, which at the time of sale was claimed as the property of Richard Menzel by notice in writing served upon Constables VanHorn and Pangborn, who were conducting the sale. The other goods were sold but the sale of the piano was adjourned until September 6th, at 2 p. m., in order to give the claimant an opportunity to prove his right of property. As nothing was done by Menzel in the way of proving property, the piano was sold yesterday afternoon by Constable VanHorn at public auction to the highest bidder, W. R. Brokaw, the East Front street piano dealer.

IMPROVING ROCKVIEW AVENUE.

Roadway Belng Macadamized in the Middle of the Street Only.

A decided improvement is being made in the borough in the macadamizing of Rockview avenue, from Rockview terrace to West End avenue. That section of Washington Park has been built up recently with a number of handsome residences which add greatly to the beauty of the place. The only drawback was the very poor condition of the roadway. Now, however, the street is being regularly macadamized under the direction of Borough Engineer Frank J. Hubbard. The borough will stand half the expense and the property-owners the rest. The macadam portion will be sixteen feet wide, leaving a dirt driveway on either hand, according to the wishes of the property-owners who want the dirt driveway for summer time and the permanent pavement for other times.

TAX RATE IN SOMERSET.

COUNTY BOARD OF ASSESSORS WENT OVER ASSESSMENTS.

Longest Session on Record—Increase of One Per Cent. in School and Three and a Half in the County Tax Rate.

(Special to The Daily Press.)

Somerville, Sept. 7—The longest session of the Somerset County Board of Assessors on record was held yesterday in the courthouse. The Board convened at 10 o'clock in the morning and it was 6:30 in the evening when the work was concluded. The Board found everything correct except a case in one district where the assessor neglected to take the proper affidavit where a property owner claimed reduction for a debt which he owed. The amount of the deduction was added to the assessor's tax duplicate.

There is an increase of 1 per cent. in the State school tax, and an increase of 3½ per cent. in the county tax, making the county tax rate for the coming year 2.54 and the State school tax rate 2 27, with a small fraction over on each rate.

The North Plainfield tax rate would be lower for the coming year if it was not for the increase mentioned above. The increase brings the borough rate up to about what it was last year.

The Board of Freeholders appointed a committee to investigate the methods of taxing in some districts and the Board of Assessors passed a resolution allowing that committee to be present at the meeting yesterday.

Not once during the session was the North Plainfield assessment questioned, neither were any questions asked concerning the assessment. Below will be found the total amount assessed throughout the county, together with the county and school amounts:

	Total.	School.	County.
Bedminster	11,912.85	3,252.32	6,495.20
Bernards	25,009.85	6,827.97	13,636.03
Branchburg	7,932.75	2,165.72	4,325.13
Bridgewater	49,239.45	13,442.91	26,846.62
B. Brook Bor.	10,818.85	2,953.75	5,898.71
Franklin	22,319.45	6,093.43	12,169.12
Hillsborough	16,490.98	4,502.20	8,991.31
Montgomery	8,646.16	2,360.48	4,714.12
Millstone Bor.	855.10	233.45	466.22
North Plainfield	2,738.00	747.52	1,492.83
N. P. Borough	22,869.25	6,243.53	13,468 89
Rockyhill Bor.	1,149.50	313.84	626.74
Warren	3,428.05	935.92	1,869.08
Total	183,410.24	50,072.94	100,000.00

SHORT BUT DISASTROUS RUNAWAY.

Coachman Left the Horse Untied and the Wagon Was Wrecked.

A runaway of short duration but attended with disastrous results to the vehicle occurred at Netherwood this morning. The coachman, who is employed by Mr. Eagan, of Terrill road, started out this morning with a spirited horse harnessed to a fancy rubber-tire road wagon.

At Robert Guttridge's store, at Netherwood, the coachman left the horse untied while he went into the store. The horse became frightened at a passing coal train and ran away.

The animal only got as far as the corner of South avenue and Belvidere avenue where the road wagon collided with a tree and was completely wrecked. Before the horse could run again William McDonough, of South avenue, ran up and caught him. During the short run the horse almost ran over a woman who was hurrying to catch a trolley car.

VARIAN-ARNOLD NUPTIALS.

Were Married in Opposition to Desire of Bride's Parents.

Announcement is made of the marriage of Miss Minnie Arnold, of Manning avenue, to Clarence Varian, of East Fifth street. The ceremony was performed last Monday in New York by Rev. H. G. Taylor, D. D., and was in opposition to the wish of the bride's parents who would not give their consent. The bride spoke to her father a few days before the marriage concerning the affair, but did not get his consent. The only objection offered by the parents was that the bride and groom are cousins. Mr. and Mrs. Varian will probably take up their residence in this city in the near future.

Returns to His Family.

(Special to The Daily Press.)

Dunellen, Sept. 7.—Elston Lowrie, formerly editor of the Dunellen *Call* and secretary of the Board of Education of that place, who suddenly and mysteriously disappeared one night about a year ago, leaving his wife and children to care for themselves, returned home Sunday night and asked the forgiveness of his wife. He spent Labor Day with his family and left early yesterday morning for New York State, where he is employed.

Overcome by the Heat.

Among those who were overcome by the heat at the firemen's parade at Bayonne Labor Day was Nathan Guttman, leader of the Plainfield Band. He was taken to the hospital in an ambulance, but recovered sufficiently later on so as to be able to return home.

BENZOL FUMES KILL A PLAINFIELD BOY.

Was Overpowered in a Camden Chemical Works.

TANK'S SUDDEN OVERFLOW.

GEORGE ECKHART ONE OF THE UNFORTUNATE VICTIMS.

Employes Sprang for the Stairways, but Fell in Their Tracks — Courageous Efforts to Rescue Them—Two Other Men Besides Eckhart Also Killed—Relatives Notified That He was Ill.

(Special to The Daily Press.)

Philadelphia, September 7—Fumes from an overflowing tank of benzol at the Crown Manufacturing Company's chemical works, Seventeenth and Stevens streets, Stockton, a suburb of Camden, carried death to George Eckhart, formerly of North Plainfield, but of late an employe at the works, and two other employes, yesterday afternoon. The company produces flavoring extracts, using benzol as a basic principle for many of them.

Eckhart, together with two other employes, was at work in the crystalizing department. At the tank were several employes watching the boiling mass. The tank is charged by hand, and the temperature is kept down with ice to prevent too rapid volatilization. Suddenly one of the employes standing near the tank saw the wooden lid of the tank raise, and some of the benzol flow over the sides. The stifling fumes instantly filled the atmosphere, and wafted by a southern breeze through the windows, caught the four employes in the little room. The employes made attempts to get out of the room by a pair of stairs. Eckhart turned in an opposite direction and tried to get out by a pair of stairs in another corner. All three employes fell unconscious before they had traversed half the distance, and they died in a few minutes. All attempts to resuscitate proved fruitless.

County Physician Jones viewed the bodies last evening and ordered Coroner Lippincott to hold an inquest.

George Eckhart was well known in this city and vicinity. He was born here and when he was fourteen months old his parents died. He was then taken by his aunt, Mrs. Clare, of Jackson avenue, who brought him up and educated him. He was a person that everybody admired for his many excellent qualities. When he became old enough he sought employment of various kinds. He was employed by Seely Edsall, and for a long time was in the employ of Wikoff & Stiglitz. Later he associated himself with a local milk dealer, where he worked for sometime. After he gave up that position he went to Philadelphia to secure work. He remained with relatives during the time, and after awhile he secured employment with the Crown Manufacturing Company. He frequently wrote to his aunt telling her how nicely he was getting along, and he was much encouraged. He was a Christian young man and while in this city he attended faithfully the Park Avenue Baptist church where he was an active member.

A Daily Press representative called at the home of Mrs. Clare, on Jackson avenue, this morning, and learned that she had received a telegram telling her that George was seriously injured and to send a physician. That is all that she knew of the affair and she did not know that he was dead. Miss Clare informed the reporter that nearly all day yesterday there appeared to her a heavy cloud that seemed to cast a gloom over her mind. She had strong feelings that something serious had happened.

No doubt arrangements will be made to have the body brought to Plainfield for interment.

City in a Healthy Condition.

Owing to the absence of several members of the Board of Health no meeting was held last night. The Inspector reports the town entirely free from contagious disease since the first of the month, and otherwise the sanitary condition of the city is excellent.

All the Offenders Didn't Appear.

The trial of Mrs. Cahill and Mr. and Mrs. Hunhan was to come up in the City Court this morning. Mrs. Cahill was the only one to appear and the case was laid over until tomorrow, the police being instructed to bring the other offenders without fail.

—A good attendance of past chancellors is wanted at the meeting of Unity Lodge, No. 102, K. of P., tonight, for the purpose of nominating grand officers.

PEACE POINTS ARGUED

Filling the Vacant Place on the Peace Commission.

SPAIN'S REQUEST DENIED

A Request from Spain for Leave to Send a Fleet to Patrol the Philippines—Hospital Accommodations Here for Sick Soldiers—Officers Marked for Retirement—The President Will Inspect Camps.

Washington, Sept. 7.—The president's return was celebrated yesterday by a gathering at the White House of the few cabinet officers who are in the city and the acting heads of those departments which are without their cabinet chiefs. Acting Secretary Allen of the navy department and Acting Secretary Moore of the state department were among the earliest callers.

One of the subjects before the cabinet meeting was the withdrawal of Associate Judge White of the supreme court from the peace commission, and the appointment of his successor. It is understood that the president has the man already selected and invited, and is only waiting to hear finally from him.

Another subject which demanded the president's immediate attention was a request from the Spanish government for permission to send a fleet of warships to the Philippine islands to patrol those parts of the coast which are not under control of the United States, to hold the troublesome insurgents in check. It was represented to the president that he could permit this on condition that the ships be confined to police duty, etc., as the terms of the protocol limit our occupancy and control to Manila and its neighborhood, and recognize even this as only contingently permanent.

The cabinet decided adversely to Spain's request, although it appears at a first glance that this refusal on our part would give Spain a right to hold us responsible for any outrages committed by the rebel barbarians. The president concluded that it would not, as the Spanish civil authorities on the islands have the same liberty of action now as ever, and can suppress violence as well to-day as before the war began.

Arrangements have been made for hospital accommodations in and near New York city for seven hundred sick soldiers, who are expected to arrive from Porto Rico. This number can be provided for easily in the city and government hospitals. The matter is in general charge of General Gillespie, commanding the department of the East, and the details of hospital arrangements will be carried out by Major Appel of the medical department.

A determined effort is being made to retire a large number of army officers who have been on sick leave and who have taken no part in the hostilities. These officers naturally object to retirement, and have been securing extensions of sick leave in the hope that they will sufficiently regain their health to be assigned to duty. This practice was tolerated during the long period of peace which preceded the Spanish war, but with the close of that war many officers are deserving of promotion, and Secretary Alger is inclined to remove the obstacles to the advancement of those who he thinks have earned reward.

Senators Allen and Thurston of Nebraska visited the war department yesterday to invite the secretary of war to make a trip to the Omaha exposition. The secretary assured the senators he should enjoy visiting the exposition above all things, but that circumstances had forced upon him another occupation for his time. He intended, he said, as soon as certain pressing business was off his hands, to go upon a systematic tour of the military hospitals, in order to be able to refute, from the testimony of his own eyes, the slanders which a mawkish public sentimentality and a malicious, mendacious press had combined to circulate.

The president also is going to make a tour. He will visit a number of the camps, perhaps all of those still occupied by United States volunteer troops, and see for himself how the soldiers are cared for. This is a reason offered for his making no move toward an investigation of the war scandals.

Empire State's Valuation.

Albany, Sept. 7.—The state board of equalization, comprising the elective state officers, the lieutenant governor and the speaker of the assembly, met yesterday and adopted the equalization table for 1898, based on the assessed valuations of real estate in each county for 1897.

The assessed value of real and personal property taxable locally for all purposes in the state for 1897 shows a net gain over the assessments of 1896 of $391,625,325, the increase in real property assessment being over $300,000,000.

This enormous increase in the real assessment throughout the state necessitated a considerable change in the list of percentages, upon which the table of equalization is based.

The total assessed value of real property in the state is $4,349,801,526, and of personal property $548,909,493.

Compared with the preceding year, the assessed value of personal property increased about $84,000,000.

The assessed value of real estate in New York county is $1,787,066,091, and of personal property $301,664,741.

Brooklyn Heroes on the Way.

Brooklyn, Sept. 7.—Brooklyn's gallant cavalrymen, the heroes of Porto Rico, are on their way home to meet the reception Brooklyn is eagerly waiting to give to them.

Troop C left Porto Rico Saturday morning at 5 o'clock. They are due here Saturday.

Majority for Afrikander Bund.

Cape Town, Sept. 7.—The government victory at the polls in Mitenhage practically ends the elections, which have resulted in the return to the assembly of forty members of the Afrikander bund and 37 Progressives.

Trials of America's Cup Yacht Races.

New York, Sept. 7.—All the conditions for the next series of yacht races for the America's cup were agreed upon yesterday at a special meeting held in the New York Yacht Club house, No. 67 Madison avenue. The meeting was called at 10.30 o'clock, and at noon adjourned until late in the afternoon, when the conditions were ratified and the challenge signed.

The conditions, as drawn up, are for five matches, to be sailed outside of Sandy Hook, the winner of three to be declared the victor. The course for the first day will be thirty miles to windward and leeward and triangular ten miles to a leg for the second. These will be repeated until a sufficient number of races have been sailed. The one gun fire will prevail; that is, there will be no preparatory signal. The Newport course, which it was hinted was desirable to the challenger, the Royal Ulster Yacht Club, was in no way discussed.

The races will be sailed next September, and the Shamrock, the challenging craft of Sir Thomas Lipton, will have to meet either the new boat the Hereschoffs are to build for J. Pierpont Morgan, the Defender or the Vigilant. The Jubilee, which is in the 80-foot class, is out of the question in the trial races.

Candia Bombarded.

Canea, Island of Crete, Sept. 7.—Candia is being bombarded.

The British troops, which have been acting as police since the Greek war, are fighting the Mussulmans. Riots are in progress and fires have broken out in various parts of the city.

The Mussulmans started the disturbances. Crowds of them, supposedly unarmed, assembled in the principal square of the city to protest against the favoritism which they allege the powers are showing to the Christians. They threaten to burn the houses and destroy the property of the Christians unless the state of affairs complained of is remedied. The Turkish governor offered to help the British.

London, Sept. 7.—The advices from Canea were received this evening from a correspondent there, who also cabled that he feared for the safety of his colleagues at Candia, as he was unable to communicate with them.

The fact that no dispatches were received from Candia after the bombardment began seems to indicate that the situation there is serious.

Gray for Peace Commissioner.

Washington, Sept. 7.—Senator Gray of Delaware will in all probability be the fifth member of the peace commission, in place of Justice White. This seems to have been determined yesterday. The president sent for Senator Gray and had a conference with him, during which he offered the senator the position. Mr. Gray said he would consider the matter and give a definite reply to-day. It is considered certain, however, that he will accept. This will complete the commission. He is now a member of the Candian commission.

Vermont Republicans Win.

White River Junction, Vt., Sept. 7.—In the regular biennial Vermont election yesterday the Republicans elected their state ticket, as follows:

Governor—Edward C. Smith, St. Albans.

Lieutenant Governor—Gerry C. Bates of St. Johnsbury.

Treasurer—J. L. Bacon, Hartford.

Secretary of State—F. A. Howland, Montpelier.

Auditor of Accounts—O. M. Barber, Arlington.

Members of Congress were elected as follows:

First District—H. Henry Powers Morristown.

Second District—William W. Grout, Kirby.

The state Senate and House of Representatives will be overwhelmingly Republican.

PRINCE OF WALES' DINNER TABLE.

Simplicity and Good Taste Displayed in All Its Appointments.

Good taste reigns over all the arrangements. Thus, the tablecloths are severely plain, though of the finest quality, and simply worked with the royal arms—the rose, the thistle and the shamrock—while the table napkins are invariably folded into a small square to hold the bread, and never in the fancy shapes in vogue elsewhere. To each guest two forks, and no more, are provided, and these are placed prongs downward. In addition there are one large tablespoon and one large knife, for in no circumstances are two knives together given to any guest. A great many reasons have been assigned for this rule, but apparently no one has summoned up the courage to ask the royal host and hostess. It has been asserted that his Royal Highness has the old-fashioned dislike to seeing knives inadvertently crossed. Small water bottles are used, but the princess holds to the Hanoverian habit of never having finger bowls. At Marlborough House dinner begins at 8.45, and is never allowed to last much more than an hour. Occasionally during dinner soft music is played. The menu is always served a la Russe—that is to say, nothing is carved in the dining-room.

Wire Mats by the Foot or Yard.

Among the curious things to be seen in the hardware stores nowadays are woven wire door mats for sale by the yard, foot, or inch. It is only a few years since the manufacture of the woven wire mat was begun, but these mats have proved so effective as dirt catchers and so light and easily cleaned that their use has spread very rapidly. During the earlier years of their manufacture each mat was woven and finished separately. Now some of the manufacturers are weaving them in lengths of fifty feet, and in such a way that they will not ravel when they are cut. The mats are woven in different widths and done up in rolls like carpet.—New York Sun.

BIG SHIPS FOR DEWEY

Navy Department Considering the Sending oi Ships to Manila

ORDERS NOT YET ISSUED

It May Be Two Months Before Any of the Big Ships on This Coast Can Be Sent to the Pacific. The Oregon Not Likely to Go Anyway. Spain Wants to Send Some.

Washington, Sept. 7.—The navy department is considering the advisability of sending more ships to Manila to take the places of some of those now in Admiral Dewey's command which are badly in need of an overhauling through the long stay in the far East. It has been the intention of the department ever since the surrender of Santiago to send ships of Admiral Sampson's fleet to Manila. The original idea was to augment Dewey's squadron by several battleships and perhaps one armored cruiser. This, however, was before the Spanish overtures for peace were made, and the Philippines question threatened to be complicated by European interference.

Recent events have brought the government to the conclusion that while the situation is not so serious it would be well to have a few seagoing armored vessels at Manila, and careful consideration is now being given to the subject.

No orders to ships have been issued, nor has any preparation for sending vessels on the long voyage been begun.

The battleship Oregon, which was originally intended for the Philippines, will probably be retained on the Atlantic coast. As for the Iowa, orders have been issued to the commandant of the Brooklyn navy yard to have her ready for service by September 18, but she will not then be in the condition that would justify the government in sending her abroad.

It will take at least a month's additional time to get her in shape for continued active service. Nearly all her boats have been lost, her machinery needs overhauling, and altogether she will be far from available for a long cruise when the repairs are completed on September 18. As matters stand it may be two months before any of the big ships now on the eastern coast can start out to augment Dewey's squadron.

Madrid, Sept. 7.—The cabinet council has decided to ask the United States to consent to Spain's sending warships to the Philippines to protect the coast towns against the insurgents.

PAY FOR PORTO RICO TROOPS.

Hundreds of Thousands of Dollars Taken from the Sub-Treasury.

New York, Sept. 7.—Several hundred idlers gathered at the Pine street entrance to the sub-treasury yesterday, while half a score of sturdy volunteers under the supervision of Major J. C. Muhlenberg, paymaster in the United States army, piled an express wagon with a dozen small safes, each containing a goodly sum of Uncle Sam's currency.

Altogether the twelve safes contained gold and silver as well as minor coin to the amount of $700,000. The money goes to Ponce, Porto Rico, on the steamer Yucatan, which leaves this port to-day, and upon arriving there Major Muhlenberg will commence the work of paying the United States troops remaining on the island.

NEW JERSEY VOLUNTEERS.

When the Second Regiment is Expected at Camp Voorhees.

Sea Girt, N. J., Sept. 7.—Gov. Voorhees, who spent the night in camp, returned to Elizabeth yesterday. Before leaving he said that he had telegraphed Colonel Hine of the Second regiment for information regarding the time when the command would leave Pablo Beach for Camp Voorhees, but had received no reply. It is believed however, that the regiment will arrive here about Thursday. Governor Voorhees also said:

The camp is in readiness for the coming of the Second regiment. This morning the tents occupied by the First battalion of the Fourth regiment were moved to the extreme left of the camp in order to make room for the newcomers.

Bridge Plunges 60 Feet

Hogansburg, N. Y., Sept. 7.—At about noon yesterday two south spans of the International bridge of the New York and Ottawa Railroad, now under construction across the St. Lawrence river, about three miles above St. Regis Indian village, fell without warning while about sixty men were at work on the bridge. All were thrown into the river, some sixty feet below.

Thirty-three were picked up and taken to Cornwall hospital. Eighteen of these died afterward. About twenty-seven are now missing.

The bridge consists of three spans, of which two were completed, and the third was nearly finished when the south pier gave way at its foundation, causing both spans to fall, taking its load of human freight with it.

Schley Reaches San Juan.

San Juan de Porto Rico, Sept. 6.—The United States transport Seneca, carrying Rear Admiral W. S. Schley and Brigadier General W. W. Gordon of the Porto Rico military commission, arrived off the harbor last night, but did not enter until this morning.

The cruiser New Orleans, which is lying in the harbor, fired an admiral's salute of thirteen guns. The Spanish gunboat Isabel Segunda responded with thirteen guns, whereupon the New Orleans set the Spanish flag at the peak and saluted it with thirteen guns.

Egan is Sword Bearer.

Dublin, Sept. 7.—James F. Egan, who was released from Portland prison in January, 1893, after serving ten years of a twenty year sentence for treason-felony, was elected sword bearer of the city of Dublin yesterday. Since his release from prison Egan has lived in New York.

Shoes for Spring.

You'll be buying a new pair of shoes soon. Where are you going to buy them?

The shoe store you want to patronize is the store that gives you the most style, comfort, elegance and durability for the money.

If you'll "shop around" before you buy you'll find that this is the store you're looking for.

Flynn Bros.,

222 West Front St. Plainfield, N. J.

LET US ARM YOU!

It's quite necessary, because while Uncle Sam is settling scores with the Spaniards you're bound to have a little brush at home at the same time, and there's nothing like being ready for emergencies. Until you can sign a perpetual truce with sun, wind and storm, your house and other buildings will need to be fortified with paint, and ours are like a 20-inch chilled steel armor.

NOTICE

to all interested in

Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

WHOLESOME ADVICE.

For People Whose Stomachs are Weak and Digestion Poor.

Dr. Harlandson, whose opinion in diseases is worthy of attention, says when a man or woman comes to me complaining of indigestion, loss of appetite, sour stomach, belching, sour watery-risings, headaches, sleeplessness, lack of ambition and a general run down nervous condition I advise them to take after each meal one or two of Stuart's Dyspepsia Tablets, allowing the tablet to dissolve in the mouth, and thus mingle with the food eaten. The result is that the food is speedily digested before it has time to sour and ferment. These tablets will digest food anyway whether the stomach wants to or not, because they contain harmless digestive principles, vegetable essences, pepsin and Golden Seal which supply just what the weak stomach lacks.

I have advised the tablets with great success, both in curing indigestion and to build up the tissues, increase flesh in thin nervous patients, whose real trouble was dyspepsia and as soon as the stomach was put to rights they did not know what sickness was.

A fifty cent package of Stuart's Dyspepsia Tablets can be bought at any drug store, and as they are not a secret patent medicine, they can be used as often as desired with full assurance that they contain nothing harmful in the slightest degree; on the contrary, anyone whose stomach is at all deranged will find great benefit from the use of Stuart's Dyspepsia Tablets. They will cure any form of stomach weakness or disease except cancer of the stomach. Full sized package at druggists 50c or $1.00 or by mail from Stuart Co., Marshall, Mich. 9-7-9

STERNBERG VISITS MONTAUK.

Surgeon-General Thinks Wikoff an Ideal Camp.

Camp Wikoff, Montauk Point, Sept. 7.—Surgeon General Sternberg of the regular army was in camp yesterday making a personal inspection of the hospitals and sanitary conditions. In speaking of the results of his investigation General Sternberg said:

"I am gratified to find Camp Wikoff in such excellent condition. I had been led to believe that it was otherwise, but I can now report, after a thorough examination, that this is an ideal camp in every particular. As to the general hospital, we have here the finest field hospital ever constructed in the history of the world. No better site for this camp could have been found on the whole Atlantic coast. We have a deep harbor, 5,000 turf covered acres, fine air, good water, a railroad to keep us supplied with necessaries, and we are isolated so far from towns and cities that we are not continually overrun by peddlers and sightseers. I find the general condition of the men to be very good. The sick are receiving the best medical attention. Most of the suffering was from malarial fever but that was unavoidable. Men cannot be exposed to the great hardships of war, the digging up of the soil for trenches, and lying there without many contracting malarial fever.

"I find some typhoid fever here, but not a great deal. As to an epidemic of typhoid there is no danger of that. When Dr. Senn was quoted as having said that this would be a pest hole of typhoid in a month, it was because he was misunderstood. He said what any other physician would say, that typhoid would result if the proper sanitary precautions were not taken. What Dr. Senn said was meant to be a warning. There is absolutely no indication that there will be any trouble here. I find sufficient sinks throughout the camp and they are being properly attended to. An abundance of quick lime is being used and I have just ordered 1,000 more barrels. The water supply is entirely satisfactory.

"Orders have been issued to regimental commanders to give furloughs freely to all the sick and convalescents under them. Men can now receive furloughs from their regimental surgeon direct without applying at the hospital."

This is said to be one of the results of the president's visit. About five hundred men will be leaving daily hereafter.

Orders have been received from the secretary of war to send the regulars of the Fifth army corps composing General Shafter's command back to their posts. It is estimated that within two weeks all but two divisions will have left, and these will be retained here indefinitely.

General Shafter has assumed command though much of the detail work will continue to be done by Generals Wheeler and Young.

General Shafter's headquarters will be in a comfortably furnished cottage on the bluff overlooking the shore near the signal station. The cottage is now being overhauled, and telegraph lines are being put in the cottage formerly occupied by the Montauk Club.

ASKS FOR A PARADE.

Van Wyck Requests the President to Let New Yorkers See the Soldiers.

New York, Sept. 7.—Mayor Van Wyck has sent the following dispatch to President McKinley:

New York, Sept. 7.

Hon. William McKinley, President of the United Statets, Washington, D. C.:

The people of the city of New York are sincerely desirous of witnessing a review of the United States soldiers, regulars and volunteers, before they are disbanded or distributed, and they earnestly hope and respectfully request that you will exercise your authority to give them an opportunity to see the troops and show their appreciation of the services which the soldiers have rendered to the country.

A committee of citizens has this day been appointed to take action in this matter and the people of this city are ready to act at once.

ROBERT A. VAN WYCK.

The committee of one hundred which will have the great peace jubilee in hand was named last night.

The Bond Subscriptions.

Washington, September 7.—The prospect now is that the subscribers to $4,500 worth of the new war bonds to the number of eleven hundred or so will receive allotments; in other words the aggregate of the bids thrown out for nonconformity with the department's regulations will reach about $5,000,000 worth, and the volume of bonds which would have gone to these subscribers will be turned over to the persons whose names stand at the head of the list of bidders still unsatisfied.

The chief offenders in New York are the subscribers through the North American Trust Company. It is not known that the officers of the company were active participants in the business.

Judge White Declines.

Washington, Sept. 7.—There is no longer a reasonable doubt that Judge White has decided to decline the appointment of peace commissioner, and that he refrains from making public announcement of his purpose at the request of the president. It is intimated that a very early announcement may be looked for, as there is reason to believe that the president has already made a tender of the commissionership, and is now awaiting an acceptance before making public that fact. Arrangements for the departure of the commission on the 17th inst., from New York are being pushed.

The Number Killed.

Washington, Sept. 7.—The official records of the war department, as far as completed, show that there were 33 officers and 231 enlisted men of the army, 264 in all, killed in battle during the war with Spain.

These casualties include all the lives lost by the army in the battles in the Philippines as well as those in Cuba and Porto Rico.

Khalifa Has 3,000 Men.

London, Sept. 7.—A dispatch to the Central News from Omdurman says the Khalifa in his flight took 3,000 men with him.

ENGLISH-GERMAN BOND

Terms of Agreement Between the Two Great Powers.

SOME AFRICAN QUESTIONS

Transvaal Shut Off From the Sea—British Control of Delagoa Bay—German Recognition of English Rights in Egypt—Territorial Compensation Granted to Germany—A Rumored Railway Bargain in China.

London, Sept. 7.—Scraps of information have leaked out during the last few days regarding the Anglo-German agreement, and the main features of it are as follows:

The first point of agreement is that Germany and England have come to a complete understanding on all African questions.

American interests are closely affected thereby. In February, 1895, Germany, through Baron Marschall and Count Hatzfeldt, made a formal claim upon Lord Kimberley, then British foreign secretary, for the maintenance of the status quo in South Africa, the especial object being to protect the Transvaal from British control.

Germany now withdraws absolutely from that claim, and leaves Great Britain a completely free hand in South Africa. The German and British ministries further agree to give a joint government guarantee of a loan to Portugal to enable her to meet the award of the Swiss arbitrators regarding the Delagoa Railway. Arbitration is to decide the amount of compensation due from the Portuguese government to the McMurdo concessionaries of the Delagoa Railway.

The concessionaries being largely American, the United States and British governments have long been jointly pressing for this compensation. The amount of the arbitrator's award is not yet known, but the actual announcement has been delayed only until Portugal should be placed in a monetary position to meet the claim. The Anglo-German guarantee of a Portuguese loan now secures this. The Transvaal, therefore, becomes an enclave, and Kruger loses his only chance of an independent outlet to the sea.

The new Anglo-German agreement further provides that all steps necessary for England's acquisition by amicable arrangement with Portugal of part or all of Mozambique shall receive the assent of Germany. Germany also agrees to recognize the permanence of the British occupation of Egypt when next year England will ask Europe for a curtailment of the jurisdiction of the mixed tribunals.

As a quid pro quo Germany secures a settlement of the frontier in Togoland. The neutral zone called Dagombaland between Ashantiland and Togoland is to be divided, giving Germany the bulk of the zone. The river White Volta is, as far as possible, to become the dividing line between the German and British sections. As a further quid pro quo the British ministry agree to assent, under certain conditions, to the arrangement which the German emperor expects to make with the sultan during his approaching visit to the Holy Land, and to facilitate German colonization of Asia Minor.

These are the important features of the new Anglo-German agreement, some of which must be made public when the Portuguese loan is announced. But behind this understanding, of which the public soon will have official information, there is believed to be a secret agreement giving Germany more in the nature of a quid pro quo.

The statement is published here today that England and Germany have also agreed upon the joint creation of a railway through the German sphere of Shantung in China to the British sphere of the Yangtse valley, but such co-operation has long been in the minds of British ministers.

Coronation Week in Holland.

Amsterdam, Sept. 7.—To-day is set apart for historical pageants and open air plays in the grounds at the back of the State Museum. These celebrations, at which the queen will be present, will comprise a procession, illustrating three periods of Dutch history, and introducing famous rulers, statesmen, painters, authors, and other national heroes. A reception at the palace will take place in the afternoon and in the evening the principal quarters of the city will again be visited, after which the queen will drive to a great water carnival and display of fireworks—organized by the province of North Holland.

The jewels worn by the young queen at yesterday's coronation were part of those stolen in Brussels on September 9, 1829. Some of them were recovered by the police of New York a year later through information which a Frenchman named Roumage gave to the Dutch minister at Washington.

President Back Again.

Washington, Sept. 7.—The train bearing the president and Mrs. McKinley and their party reached thte Pennsylvania railroad station at 7.30 a. m. yesterday. The carriage from the White House met them and the president and Mrs. McKinley were driven directly there.

Both expressed themselves as being greatly pleased with their short outing.

Czar's Peace Conference.

Copenhagen, Sept. 7.—The Journal Politikin says the government has decided to send delegates to the peace conference which Russia wishes to assemble at the end of the present year or early next year.

French Coast Defences.

Paris, Sept. 7.—The cabinet council at yesterday's meeting examined the matter of imperfections in the shore, sea and channel defences, and also discussed the question of improvements in the fleet.

Appointed Acting Military Governor.

Paris, Sept. 7.—General Borins has been appointed acting military governor of Paris in succession of General Zurlinden, who has accepted the portfolio of minister of war.

THE KLONDIKE GOLD FIELDS.

Placer Diggings Nearly Exhausted—No Gold-Bearing Quartz.

San Francisco, Sept. 7.—Capt. John McCafferty, ex-collector of customs for Alaska, and a mining engineer by profession, has arrived here from Dawson City. His summing up of his experiences is that the gold placer diggings of the Yukon district are short lived, and that there are no true fissure veins in that territory, because the country is much broken and because the geological indications are such as to warrant the conviction that there is no gold bearing quartz. Large broken "deposits" of gold may be found there, but they will be of the nature of pockets and will not last.

The most surprising opinion expressed by him is that the placer diggings are on the point of being worked out, and that many have barely paid expenses.

The steamer Portland has arrived from St. Michael with treasure estimated at from one million and a half to two million dollars. She brought down a large number of passengers, most of whom were carpenters, who had been employed at St. Michael in putting together several boats. There were also thirty-five or forty miners on board, nearly all being well supplied with gold dust and nuggets.

A dispatch from Seattle says: "Colonel McCook, United States consul at Dawson, has had a slight difficulty with a Dominion official already, yet he has been at Dawson but a few weeks. As a result, he was compelled to remove the United States flag from the store of the Alaska Commercial Company at Dawson, and allow a Dominion customs officer, Davis, to hoist the British ensign. The American coat of arms was removed from the door and Colonel McCook sought another office."

THE CHESTER FROM PORTO RICO.

Arrives in New York With 1,200 Officers and Men.

New York, Sept. 7.—The United States transport Chester, Capt. Dann, arrived yesterday afternoon from Ponce, P. R., from which port she sailed last Thursday, September 1, at 4.15 p. m. She brought about sixty officers and civilians, and 1,150 men, making a total of 1,210, consisting of Brigadier General Schwan and staff, Brigadier General Haines and staff and the Fourth Pennsylvania volunteers.

Among the civilians were Perry M. de Leon, United States consul at Ecuador, and a son of Secretary of State Palmer. The transport experienced fine weather throughout the voyage.

The general health of the troops is excellent and the men were in the best of spirits on reaching port.

There was one death on board during the voyage, Captain M. H. Smith, Company K, Fourth Pennsylvania, who died at 10 p. m. Sunday night of malarial fever. The body was placed in a metallic casket and brought to port for burial. Captain Smith was a native of Columbia, Pa., and was 38 years of age.

Six men were in the ship hospital, five suffering with typhoid fever and the other ill with malaria. After a brief inspection at quarantine, the transport proceeded to Jersey City, where she will land her troops.

The Chester, as she steamed up the bay, was greeted by passing craft, the troops returning the greeting with cheers.

The Chester left Ponce three hours after the departure of the transport Obdam, on board of which General Miles and Staff embarked. Nothing was seen of the latter during the voyage.

Revision Seems Assured.

Paris, Sept. 7.—The Figaro says that General Saussier refused to accept the war portfolio because he had been connected, as military governor of Paris, with the Dreyfus case, and he therefore considered that he should leave to another the settlement of this matter.

The newspapers confirm the report that the acceptance by General Zurlinthe ministry of war, was due to President Faure's insistence.

Some of the papers praise his acceptance of the office under the existing difficulties of the situation, and attack M. Cavaignac, the late minister of war, declaring that his action in resigning was tactless and illogical.

The newspapers regard the revision of the Dreyfus case as being assured, saying that the prisoner's counsel will now make strenuous efforts to secure a public retrial.

The Matin says that Colonel Picquart yesterday signed a demand for the provisional liberation of Dreyfus.

Whaling Fleet Lost.

San Francisco, Sept. 7.—A special to the Examiner from Seattle says the news of disaster to the Arctic whaling fleet came in the following letter from Captain J. C. Downing of the Wolcott to Austin Claiborne, the local agent of the Pacific Steam Whaling Company:

Juneau, August 20.

I arrived from the westward this evening. The latest from the Arctic is that all the vessels that were caught in the ice were lost. Mason (captain of the Jeannie) is crazy. I obtained the above information from Captain Ned Lennon, pilot of the gunboat Wheeling.

J. C. DOWNING.

This letter came via the steamship Alki, which has arrived from Juneau.

Battle of the Flowers.

Saratoga, Sept. 7.—Fully one hundred thousand people yesterday afternoon witnessed the parade and the battle of flowers of the annual fete given under the auspices of the Saratoga Floral Association.

It was fully twice as large as that of last year. The floats included allegorical and historical subjects, in which the hotels and cottages were entered.

Gen. Pando Departs.

New York, Sept. 7.—Gen. Luis Manuel de Pando, the Spanish officer, who arrived in this city Sunday, and who has been stopping at the Hotel America, Fifteenth street and Irving Place, has taken passage for Europe.

Captain Contao of the Infanta Maria Teresa, is still at the Hotel Martin.

COMING EVENTS.

September 11—Rev. Chas. Mohammed, a convert from Mohammedanism, from Tangier, Morocco, North Africa, will tell of the manners and customs of his people at the Y. M. C. A., at 4:15 p. m. Lemonade and fans.

Hot Shot For Freeholders.

The Cranford Chronicle, which has been the principal newspaper opponent of the county trolley scheme, and whose editor, J. Alfred Potter, can be very saucy at times, but always gracefully, has the following to say about the action of the Board of Freeholders in claiming Richmond street as a county road:

Only a few weeks ago, the Union County Board of Freeholders, by resolution, adopted Richmond street in Plainfield as a county road, in order to include it in a route over which a trolley franchise was to be sold to an Elizabeth corporation owned by John Kean.

The city of Plainfield, which had paved and otherwise improved this street, was not even consulted in the matter. On the contrary, the county authorities, through their attorney, had the nerve subsequently to warn the City Council not to grant a franchise to the Plainfield Street Railway Company, which had applied and offered to pay the city liberally for the privilege of extending its lines through Richmond street to Scotch Plains.

Such rough-shod riding over the taxpayers' rights is common enough in the Elizabeth end of the county. But in Plainfield, the iron heel of John Kean does not bear so heavily on the peoples' necks. We shall be surprised if the public-spirited City Council does not resist and defeat the grab.

The Personal Column.

The New Brunswick newspapers are indulging in a lively discussion, with a wealth of statistics, to show their superior claims in the publication of personal items. Each one claims the distinction of inaugurating the feature of recording the personal movements of the townspeople and visitors, and seems to take great glory in the claim. If the truth was known, however, they would have to credit The Daily Press with the original idea of publishing personals so fully. As a matter of fact, for several years the personal columns of The Daily Press has been one of its best and most popular features. The record of the movements of those who come and go from Plainfield has always been a matter for special enterprise on the part of the reporters of The Daily Press.

The Dreyfus Scandal.

No disgrace more ignoble in her history has ever attached to the French name than that involved in the Dreyfus scandal. It was sufficiently palpable at the time of the trial to those who followed the case that the unfortunate victim of anti-Semitic prejudice and of the spirit of militarism was condemned on evidence which in England or America would have been hooted out of court. But it was felt that there were mysteries in the case which made the guilt of Dreyfus possible. In view of the methods of French courts, both civil and military, which give the prisoner the least possible chance to prove his innocence, a certain condonation was allowed to a verdict that chained the poor wretch, like Prometheus, to a barren rock. Further light filtered gradually on the facts, making his guilt still more questionable. Later followed the Zola and the Picquart episodes, proving that the French government was so far at the mercy of military dictation that it preferred to do flagrant wrong with its eyes open to the risk of offending its uniformed oligarchy. The spirit which dominated the treatment of these two men was more odious even than the tyranny which had organized the conviction of Dreyfus. It was the malignant bitterness which turned what might have been an honest mistake into a fixed determination to subvert all the principles of civil liberty and justice. So blinded, too, was public opinion in its rage that none but a few resolute spirits dared to lift a voice of protest. It raised the query, "Is the modern Gallic mind so blind in its perversity once its national animosity is aroused as to be impenetrable to every ray of justice?" Certainly the whole history of the monstrous affair in its various phases up to that time would indicate this.

The French government has been given another opportunity to show that it is not beyond repentance and reclamation. New evidence practically nullifies not only the conviction of Emile Zola and justifies Colonel Picquart, but knocks away the most substantial prop of the incriminatory evidence against Dreyfus. Colonel Henry, a French military official of the war bureau, has been led to confess that a letter which was the very cornerstone of the professed belief of the justice of the Dreyfus conviction, was his own forgery, deliberate and cold blooded. He was arrested and at the earliest practicable date committed suicide. No amount of punishment of those primarily responsible for the Dreyfus wrong will expiate that unless the Faure administration makes the most profuse amends. A seat on the stool of repentance and the cry of "Peccavi!" will alone satisfy the world that there is still latent in France any sense of righteousness.

The coronation of Queen Wilhelmina, the charming young queen of Holland, at the Nieuwe kerk of Amsterdam, the Westminster of the Dutch kingdom (one had almost written the Dutch republic, remembering the splendid career of the Dutch under that form of government), on Sept. 6, was an auspicious occasion. The placid and sluggish Hollander might well find excuse for an unwonted enthusiasm in the accession of a beautiful and high minded girl. Wilhelmina comes of that heroic Orange blood which has furnished a shining muster roll of great statesmen, warriors and patriots to the Netherlands. Since the age of William the Silent no European family has been starred with such an array of celebrities as this princely house. The young queen will probably have no occasion to display the more striking qualities of her ancestors, but it is a fact endearing to the Dutchman's heart that she inherits her dignity from such forbears.

The resignation of "Farmer" Dunn from the business of weather forecasting in New York city under Uncle Sam's orders has cost that individual about $3,000 a year in extra expense. The Manhattan Life Insurance company built the admirable weather observatory on the top of their skyscraper according to Dunn's plans and gave the use of it to government free of charge, but the condition was made that "Farmer" Dunn should use it, and he alone. Now the company asks for a big rent or the prompt vacation of the quarters. Rumor has whispered that The World's enterprizing Pulitzer will install Dunn there again as weather seer. It would be a characteristic stroke of modern newspaper enterprise.

The trade which Emperor Wilhelm learned as a child, in accordance with the custom of some royal families, was printing. He has not been true to the affiliation in his willingness to choke the press, nor has it yet been announced that he has applied for position of first proofreader on Bismarck's memoirs. He would probably accept the place without pay.

The diet of the Greater Republic of Central America is said to be gravely pondering the question why the United States proposes to build the Nicaragua canal. Of course it has no other reason than to gobble up Nicaragua and to rule all Central America with a rod of iron.

Promoter Hooley's bridges to wealth seem to have been built on very rotten peers.

MISS WHEELER, ANGEL OF MERCY.

Miss Annie Wheeler, who has devoted so much of her time and energy to nursing the sick soldiers at Camp Wikoff, Montauk Point, is the brave daughter of a gallant soldier, Major General Joseph Wheeler, who so materially assisted in the capture of Santiago.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

Hoyt's "A Bunch of Keys" will hold the stage at Music Hall Thursday night. "A Bunch of Keys" is one of the best musical skits ever presented to the public. It has an amusing story, is full of wit and music and Manager Bothner each season selects the cleverest comedians and prettiest bunch of girls that the Rialto can furnish. It is just the kind of show to drive away dull care.

* * * * *

The musical farce comedy, "A High Born Lady," by Herbert Hall Winslow, will be presented by Clifford and Huth with a strong supporting company at Stillman Music Hall, Saturday night, September 10th. The humor of this piece, which was written especially for the stars, is healthy, catching and continuous. The situations show an unusual amount of constructive genius in the playwright and are ludicrous in the extreme. The company are admirably adapted to their different assignments and the able leadership of Clifford & Huth make the performance go with a vim and dash that is irresistable.

PARTICULAR MENTION.

Miss Maud Benton, of New York, is visiting Miss May Stelle, of this city.

Mr. and Mrs. Harold Tomlinson, of the borough, will return from Asbury Park in a few days.

Miss Mary Pizee, of Elizabeth, has been visiting Harry Dennis and children, of Watchung avenue.

George Lewis, Jr., of Somerset street, is spending a few days with Miss Mabel Walker, of Greenbrook.

Robert Schreiner and Bertram Schreiner, of this city, who have been spending their vacation at Cape May, will return home this week.

Alex. Frazee, of this city, has returned home after spending the summer at the home of Mrs. Irving Beetham, of Greenbrook.

H. C. Suydam and wife have returned from a ten days' trip in the White Mountains. The weather up there was compairitively cool during the time they were there.

Alonzo Titsworth, formerly of this city, but now of Boston, was summoned to Plainfield a few days ago on account of the death of his sister, Miss Edith Titsworth, and attended the funeral services yesterday.

EARLY INTELLIGENCE.

—Fit your children out in school shoes at Willett's. Their steel shoe is a leader.

—The Aetna Accident Insurance Company paid the following claims in Plainfield during August through their agent W. V. Mundy: David W. Rogers, $150; J. Angleman, $18; J. Morton, $12.

—Neuman Bros., the grocers, will recive 150 baskets of choice canning peaches tomorrow morning. Prices to suit all. Also a large shipment of Barlett pears. Don't neglect your canning much longer, or fruit will be scarce and prices high.

—The cheapest and best excursion that Plainfielders will have had the chance of enjoying this season is offered by the Central Railroad next Saturday, when they will run an excursion to Lake Hopatcong, with the fare $1 for the round trip from Plainfield.

—A team belonging to Theo. Glazer, of Grant avenue, started to run away on Somerset street Monday morning. One of the horses slipped his halter and they started down the street on a gallop when two passing men ran out and stopped their career before it had hardly begun.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused atthe Supper Table atYour Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, Sept. 7.—School opened here yesterday with a good attendance. Two new teachers have been secured and took their places yesterday, Miss Wilgus, of Red Bank, who will teach music and drawing, and Miss Weatherwack, who has charge of the grammer department.

Mr. and Mrs. Samuel Paxson have returned to their home at Mauch Chunk, Pa., after spending several weeks with their daughter, Mrs. John LaBar.

John and George Huff took a party of about fifteen women and children, members of the Huff family, to picnic Monday by the brook.

Irving Fenner, who has been visiting his sister, Mrs. Harry Swackhamer, has returned to his home in Pluckamin.

Elston Lowrie, who has been out of town for some time, has returned home. He has been visiting in Philadelphia.

Miss Minnie VanMiddlesworth, who was prostrated by the heat, is recovering. Dr. Brakeley has the case in charge.

Miss Gertrude Carroll has returned to her home in Bayonne after a visit with her aunt, Mrs. Edward Williams.

The Misses Barons, of Washington avenue, entertained out-of-town friends Monday.

Miss VanMiddlesworth, of Plainfield, spent Monday with Mrs. Harry Swackhamer.

Frank Bowyer, of New York, spent Sunday with his mother, Mrs. C. M. Bowyer.

Charles Rugg and wife, of Plainfield, visited relatives in town Labor Day.

Mrs. Ayres, of New York, is a guest of her sister, Mrs. Jeremiah Dunham.

Mr. and Mrs. Charles Carpenter spent Monday at Lake Hopatcong.

Miss Ella Boice is visiting Miss Lizzie DeMott, of Gladstone, N. J.

G. R. Crandall, the jeweler, has added a line of spectacles recently.

Mrs. J. G. Taylor has been entertaining company from New York.

William H. Hamilton and family spent yesterday at Asbury Park.

Wilson Fredericks spent Sunday and Monday at Barnegat.

Miss Lena Maire visited in Plainfield yesterday.

John Fenner spent Labor Day out of town.

NEW MARKET.

(Special Correspondence of the Daily Press.)

New Market, Sept. 7—A quiet marriage was performed Friday evening at the parsonage of the First Baptist church, when Rev. Frank Fletcher joined in matrimony Miss Adele Herlich to Charles T. Rogers. Both young people live here and have been neighbors. The groom is in the livery business in Dunellen.

The public schools, which opened today, were very well attended and the principal feels confident of a good year.

Charles Vail caught six fine bass in the lake Labor Day.

PLAINS AND FANWOOD.

(Special Correspondence to The Daily Press.)

Scotch Plains, Sept. 6.—Mr. and Mrs. Frank Putnam and family, of Plainfield, spent Sunday and Monday with Mrs. Putnam's parents, Mr. and Mrs. A. L. Frentz.

The Italian inhabitants were aroused Sunday by the report that one of their number, who had been borrowing money from everyone who would lend it, was about to sail for Italy Monday. Several of the victimized friends went to New York Monday morning to see if he set sail, and promised to make it warm for him if they caught him.

The Township Committee met in the town rooms last evening to receive claims for damage done by dogs in the township during the past year.

John Schmidt and George MacCauley, stationed at Fort Slocum, enjoyed a 48-hour furlough Wednesday and Thursday, and visited friends in town.

The Board of Education met in the school parlors Tuesday evening. The business related to the school opening, Monday morning, Sept. 12th.

Arthur Haskard, who has been enjoying a two weeks' vacation, returned to his duties in New York Tuesday.

Mr. and Mrs. Edward Field and family, of Orange, are visiting Mr. Field's parents, Mr. and Mrs. Samuel Field.

Alexander and George Archibald, of Westfield, spent Sunday with their parents, Mr. and Mrs. John Archibald.

Miss Hattie Wilcox, of Brooklyn, spent the two days' vacation with her mother, Mrs. Nancy Wilcox.

George L. Dunn and Edward Johnston spent Labor Day at the Passaic river fishing for bass.

Mrs. Joseph Mercier has been entertaining her cousin from Elizabeth for several days.

Mrs. George Smith and family, of Port Richmond, are visiting Mrs. Geo. H. Lyons.

Edward Dorwarth, of New York, spent Sunday and Monday with his family.

Alex. Wilson, of New York, is spending a few days with Dr. J. H. Parks.

Miss Bessie Ranson, of Plainfield, spent Monday with friends in town.

Phillip Radin spent Sunday with his daughter in Plainfield.

WESTFIELD.

(Special Correspondence of The Daily Press.)

Westfield, Sept. 7.—Last evening about 7 o'clock Thomas Tolison, a driver of a hack, and Charles Wesp were racing their horses on Mountain avenue when Tolison ran into a light racing cart driven by William A. Brown. Mr. Brown was thrown to the road but he hung fast to the lines and although badly bruised managed to stop his horse before much damage had been done.

The regular monthly meeting of the Board of Education was held last evening in the Prospect Street School building. County Superintendent Holmes was present, but took no part in the meeting. The committee on supplies was instructed to purchase a new flag 40 by 30 feet to place on the Lincoln School building and the president and district clerk was empowered to discount a three months' note for $1,500 to meet the expenses.

The public schools reopened today with a large attendance. There are 810 children of school age in the township and fully 700 of them are in attendance at the schools. A room has been rented on Summit avenue and 80 desks will be put in for the use of the kindergarten department.

State Fair, Waverly Park, Sept. 5th-9th

Mr. and Mrs. Charles Hummer, of Linden avenue, are spending a few days at Sunnyside, Hunterdon county. They will return next Thursday.

Letter-carrier Edward Hann, of Somerset street, left yesterday for Hunterdon county where he will spend the remaining part of his vacation.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness, caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular; free.

Ladies fine lisle hose, 50c quality, 29c pair.

Edward White.

THE CAPTAIN'S ECONMOICAL WIFE.

Toppled the Other Way and Put the Bone in Place

In a Massachusetts seaport town there is a retired sea captain who makes a frequent boast that he has the "smartest woman along shore." New instances of her enterprise are constantly coming to notice. The last one refers to an exploit by which she saved herself a doctor's bill. The captain tells the story with great relish.

"She's getting pretty heavy," he begins, "and now and again she'll miss her footing. Well, not many months ago she missed it on our stairs and fell all in a heap down three steps on to her side.

"When I got to her, she said, just as brisk as usual: "Don't ask me if I've hurt myself, Cap'n, for of course I have. I reckon I've unjointed a bone in my left leg, falling on it. Now don't try to pull me up. Let me scramble round a minute, and you go for the doctor.'

"Well, the doctor's our next neighbor, so it didn't take long to get him. He looked her over, and said there was a bone somewheres round her left hip that was out of kilter.

"At that mother rose right up on her feet and toppled over the opposite way from what she'd fallen downstairs, and we heard a kind of a crack.

"She looked up at the doctor with her mouth kind of whitish, but the same old twinkle in her eyes, and she says: 'I believe I've set that bone myself, doctor,' and she had!"—Youth's Companion.

FRIENDLY WITH THE DOGS.

The Rats Knew Their Protectors and Wouldn't Eat Without Them.

A gentleman who lived some years since in Renfrewshire was accustomed, after his shooting excursions, to feed his dogs in their kennels, the food being placed in a long trough. On one occasion, when he had attended to them as usual, he looked into the kennel through a hole in the door, and was somewhat astonished, not at perceiving a number of rats there, but at seeing them in the trough, quietly and fearlessly partaking of the bread and milk with the dogs, which seemed to pay no attention to them whatever. He was determined to destroy the rats, and the next day he placed the trough in such a position that a gun pointed through the hole would rake it from one end to the other.

At the usual hour the food was placed as a lure, and the dogs were kept out, but the plan did not succeed. The plotter against the rats could observe the head of one of them—old and sagacious—peering out at hole after hole, and from under the manger for the purpose of reconnoitreing, but none of them descended. Having waited to no purpose for half an hour he let in the dogs, and in a few minutes the rats were again feeding in perfect harmony. They seemed to be aware that their safety was connected with the presence of the dogs.

Slang Puzzled Him.

Edouard Remenyi, the great violinist, who recently died, used to say that some of the hardest studying he ever did in his life began after an experience he had in Detroit.

"On my first tour of this country," he delighted in telling, "I worked unceasingly to acquire a knowledge of the language and got on fairly well. But the slang that I found so prevalent baffled me more than anything else. I gave a performance in Detroit one night and met with a reception that warmed my heart toward her people. Among other things, this appeared in one of the papers next morning: "Here an ugly, little, bow-legged chap, whose clothes hung loosely about his ungainly person, waddled to the footlights. But, sakes alive! how he did play the fiddle!'

"Now, I couldn't make out what that 'sakes alive' meant, so I timidly approached a gentlemanly citizen, told him of my inability to grasp the meaning of the slang, and asked him if the expression was intended to be complimentary.

"He kindly read it and replied: 'Well, I should snicker.'

"I was more bewildered than ever, and from that time on made the study of slang one of my chief occupations."—Detroit Free Press.

WIT AND HUMOR.

"Did she break down when you told her you were going abroad?"

"Naw. I think she felt like doing one, though."—Indianapolis Journal.

"I spent $100 on my silver wedding present to my wife."

"What is it?"

"I don't know; she hasn't got through exchanging it yet."—Chicago Record.

"Mike," said Plodding Pete, "how is it dat some o' dese people kin work day after day an' never seem to feel it?"

"Well," replied Meandering Mike, reflectively, "I s'pose dey is started in young an' gets to be immunes."—Washington Star.

"Do you understand women?"

"Yes, I understand them well enough to know that I can't understand them at all."—Chicago Record.

"Hark! Somebody is playing a delightful bit from Wagner."

"Oh, no; that's only James shovelling coal in the cellar."

"You called on Miss Spritely the other evening? Didn't you find her charming in conversation?"

"I found her charming in monologue. We didn't succeed in holding any conversation."—Chicago Tribune.

It is better to discover where an enemy is than where he was.

AMATEURES AT REPAIRING CLOCKS.

A Man's Experience With an Eight-day Timekeeper.

"Watch repairers have a horror of touching a clock that has been tinkered by amateurs," explained a watch repairer to a Star reporter, "and they would rather get out of such a job if they can do so, for the loss of one of the smallest parts means considerable work to reproduce it, and much more work than the general customer expects or wants to pay for. They try to get rid of such a job when they can, for in nine cases out of ten the result is not entirely satisfactory. People who have a good clock, unless they know something about the way clocks are made and how they should be taken apart, will do the wise thing to let it alone when it gets out of order. Experimenting with it often means the ruin of the clock. It is absolutely dangerous to try to unwind a main spring, as men have discovered for themselves, unless the proper tools are handy. Now a clock repairer has a contrivance known as a spring controller, which grasps the spring and holds it while being taken out or being put into the clock, so that there is no danger. The spring for an eight-day clock is often two yards long, and when suddenly let free it flies out with nearly the force of a charge of shot from a gun. Some time ago an officer of the signal corps thought he would tinker his clock. He did tinker it, and in taking out the main spring it got away from him. In its flight it took off a $5 lamp from a parlor table and crashed in the glass of a $20 mantel mirror, besides doing other damage. The $4 clock cost him in damage exactly $25 besides cutting his hand seriously."—Washington Star.

Taxed Worse Than We Are.

In the Philippine islands all males over twenty-one years of age must pay a poll tax that equals about four pounds of our money, and the women must pay three pounds. A man must pay a license to sell cocoanuts from his own trees or indigo of his own raising. Every article of furniture that costs half a sovereign is taxed. The curtain never goes up at the theatre unless $2 is paid to the government, and for every act of slaughtering his own animals, clipping his own sheep or felling his own trees, the Philippine farmer must pay a fee to the government. There is exacted government tribute for getting married and for being buried, and at every step and turn of his life the tax collector holds out his hand to him, and it is not a demand that can be refused. No wonder Spain wishes to keep a possession that yields such a return; no wonder also, that the last sixty years have developed seventeen rebellions in the Philippines.—London Tid Bits.

Our Distinguished Cody.

The wife of a London embassy attache enjoys relating the following experience: "During the time when Colonel Cody was making his triumphant tour of Europe she was one night seated at a banquet next to the Belgian consul. Early in the course of conversation he asked: "Madame, you haf undoubtedly been to see ze gr-rand Bouf-falo-beel?' Puzzled by the apparently unfamiliar name, she said: 'Pardon me, but whom did you mean?' 'Vy, Bouf-falo-beel, ze famous Bouf-falo-beel, zat gr-reat countryman of yours. You must know heem.' It was only after some thought, says the lady, that she recognized the well known showman's name in this disguise, and comprehended that the good Belgian thought him one of America's most eminent names, to be mentioned in the same breath with Washington and Lincoln—Detroit Free Press.

Odd Curative Treatment.

A Transvaal doctor is credited with the discovery of a new curative treatment. He asserts that he can cure persons of small pox, fevers, diphtheria and many other maladies by simply wrapping them in milk sheets. The patient is laid on a mattress covered with blankets, and is placed in a sheet just large enough to envelop the body. The sheet has been saturated in a pint and a half of warm milk, and is applied to the body without wringing. After lying still for an hour thus swathed, the patient is sponged with warm water, or put into a warm bath for a few minutes to remove the milk. The treatment is based on the germ absorbing power of milk, and the idea of it is said to have been suggested by the fact that milk absorbs poisonous germs from a bucket in which it has been standing.—St. Louis Globe-Democrat.

The Prince of Wales' Joke

A good story is told about the prince and is well vouched for. In the eighties, when the Radicals were more than ever, clamorous and active, a young lord said to him:

"Sir, have you ever thought of the possibility of this becoming a republic, and your losing your title and income?"

"Yes, I have," said the prince.

"And have you thought of what you would do?" the young lord persisted.

"Why, yes," said the prince, "there would always be a chance to lecture in America."—Providence Journal.

Reason Enough.

"No, George, don't ask me. I can't go down the fire-escape with all those people looking."

"You must. You'll be burned to death if you stay here."

"I can't help it, George. I wouldn't go down that ladder for all the world. These shoes I have on are two sizes too big for me!"—Cleveland Plain Dealer.

LONG-DISTANCE FIGHTING.

Impossible to Tell Infantry from Cavalry at 2,000 Yards.

"Unless they have had experience," remarked an army officer, "people are very liable to have a very imperfect idea as to distances in army field operations, and as a result they get things terribly mixed. When they read that armies are engaging with each other at 2,000 yards between them, they may think that they can see each other, but the reality is far different. At that distance, to the naked eye, a man or a horse does not look anything larger than a speck. It is impossible to distinguish at that distance between a man and a horse, and at 800 yards less, 1,200 yards, especially where there is any dust, it requires the best kind of eyes to tell infantry from cavalry. At 900 yards the movements become clearer, though it is not until they get within 750 yards of each other that the heads of the columns can be made out with anything like certainty.

"Infantry can be seen in the sunlight much easier than cavalry or artillery for the reason that less dust is raised. Besides that, infantry can be distinguished by the glitter of their muskets. At 2,000 yards, however, everything is unsatisfactory, even with the aid of field glasses, for a marching column in dry weather raises a great deal of dust. At our recent engagements at Santiago the heavy rains of course kept down the dust, but the falling rain shut out from view the opposing forces as effectually as would the dust. Even a glass would not penetrate it.

"There is no doubt that the rifles of the present day do service at a much greater distance than those formerly used, but no general is going to waste ammunition at a greater distance than his men can see to properly use it. Any first class arm will shoot and do good service at a greater distance than men can clearly see, but the chances are that no battles will be fought at such distances.—Washington Star.

A STRANGE LAKE OF DARK FLUID

California's Most Unnatural Natural Curiosity.

Without doubt the mose remarkable body of water in the world lies in the vicinity of the Colorado river, in southern California. In this region of ugly volcanoes, desolate wastes and slimy swamps, the strangest phenonemon of all is what the naturalists call a "lake of ink." No other description fits so well.

The strange black fluid that forms the lake bears no resemblance to water. It must some day have been a "lake of fire," and even now it tallies exactly with the familiar description of the infernal regions. Thick and vicious and foul smelling, it seems altogether unfit that it should deface the surface of the earth.

The pool of ink is situated about half a mile from a volcano. It is about an acre in area. The surface is coated with gray ashes from the volcanoes to the thickness of about six inches, thus concealing its real nature. A traveler not prepared to avoid its treacherous depths might easily walk into it.

Experiment has proved that the black fluid of the lake is not poisonous. It acts as a dye, and cotton goods soaked in it keep their color for months, even when exposed to the sun. They also acquire a stiffness similar to that produced by weak starch. The fluid has been analyzed, but its component parts have not been made known. As to the nature of the supply of the lake nothing definite has been ascertained. It is undoubtedly of volcanic origin, but nothing more definite is known.—Salt Lake Herald.

CHRONOGRAPH WATCHES.

They Are Used by Nurses as Well as Sportsmen and Are About Perfect.

The properly equipped trained nurse, whether at the seat of war wearing the badge of the Red Cross or waiting upon the afflicted at home, carries a chronograph watch; not the large, split-second timing piece associated with the sports of the turf and field, but a handsome little single chronograph, cased like other gold watches designed for women's use. These watches are especially made to enable trained nurses to take accurately the pulse of their patients. The moment the pulse has been taken the large sweep second hand can be instantly stopped by a slight pressure upon the stem of the watch; if there is fluctuation in the pulse, the second hand can be thrown quickly back to the starting point and the pulse taken over again without in any way interfering with the other mechanism of the watch. So much depends upon accurate knowledge of the pulse that these chronographs are an invaluable auxiliary in the work of the sickroom. While these watches are an entirely recent idea, many physicians and surgeons carry regular chronographs for the the same purpose. The watches for nurses sell at $50; those for physicians range from $100 upward.—New York Sun.

The Migration of Butterflies.

One of the most beautiful sights in the world is the annual migration of butterflies across the Isthmus of Panama. Where they come from or whither they go, no one knows, and though many distinguished naturalists have attempted to solve the problem, it is still as strange a mystery as it was to the first European traveller who observed it. Toward the end of June a few scattered specimens are discovered flitting out to sea, and as the days go by the number increases, until about July 14 or 15 the sky is occasionally almost obscured by myriads of these frail insects.—Indianapolis News.

Lokal-Nachrichten aus der alten Heimath.

Oesterreich.

Wien. Der Erzbischof Angerer ist gestorben.—Zwischen Baumgarten und Hütteldorf fuhr ein Personenzug in einen vorausfahrenden anderen Zug. Hierbei wurden zehn Passagiere und sieben Bahnbedienstete leicht verletzt und mehrere Wagen beschädigt.—Jüngst haben der Rittmeister Baron Forgatsch und Hans Angeli, Mitglied des Ersten Wiener Amateur-Schwimm-Klubs, die Donaustrecke von Wien nach Preßburg, die 61 Kilometer lang ist, in sieben Stunden schwimmend zurückgelegt. Die Tour wurde ohne Unterbrechung geschwommen, wobei die beiden Herren, da kein Boot mitfuhr, weder Speisen noch Trank zu sich nehmen konnten. Zum Transport der Kleider wurde der von Angeli erfundene Schwimmsack benützt, der sich auch diesmal trefflich bewährte. Dieser Schwimmsack wird mit Gurten am Rücken des Schwimmers derart befestigt, daß er diesen in keiner Weise behindert.

Budapest. Das Städtchen Großbossany ist vollständig niedergebrannt. Acht Kinder fanden den Flammentod.

Cilli. Bei der Fahnenweihe eines slovenischen Gesangvereins kam es zu einem Renkontre zwischen Slovenen und Deutschen, und zwar war die Provokation von den ersteren ausgegangen. Zahlreiche Verhaftungen wurden vorgenommen.

Graz. Während des bosnischen Feldzuges im Jahre 1878 erhielt der Keuschler Salmhofer von Waltersdorf, der damals als Jäger im 27. Bataillon diente, auf einem Patrouillengange einen Schuß in den Rücken. Die Kugel konnte nicht entfernt werden. Vor fünf Jahren begann die Wunde wieder zu eitern, und letzthin erlag der Mann seiner Verwundung.

Hermannstadt. Das Militärgericht hat den Hauptmann Alexander Ritter von Wasserthal, der den Oberlieutenant Garibaldi in kompromittirender Situation mit seiner Frau traf und auf der Stelle mit seinem Degen niederstach, von der Anklage des Mordes freigesprochen.

Innsbruck. Im Monat Juli sind hier 17,156 Fremde angemeldet worden; darunter befanden sich 4897 aus Oesterreich, 9427 aus dem Deutschen Reiche, 334 aus Frankreich, 163 aus Italien, 585 aus England, 275 aus Rußland und 301 aus Nordamerika. Im gleichen Monat des Vorjahres betrug die Zahl der Fremden 12,265.

Lemberg. In Przychody wurde der Gastwirth Haber sammt seiner Familie, zusammen fünf Personen, meuchlerisch ermordet. Drei der That verdächtige Individuen wurden verhaftet.

Olmütz. In der Wallfahrtskirche auf dem Heiligenberg entstand in Folge falschen Feueralarms eine furchtbare Panik. Alles stürzte nach den Ausgängen zu und in dem entsetzlichen Gedränge wurden viele Personen mehr oder weniger schwer verletzt. Ein Kind wurde erdrückt.

Salzburg. Die deutschgesinnten Vereine unserer Stadt veranstalteten im Kurhause eine große Bismarck-Trauerfeier.

Schweiz.

Bern. Der Bundesrath ertheilte der Jura-Simplonbahn die Bewilligung zum Beginn der Bauarbeiten des Jura-Simplontunnels. Der Bau wird sofort von beiden Seiten aus in Angriff genommen.—Das Hotel auf der Schynigen-Platte ist total abgebrannt. Ursache soll ein schadhaftes Kamin gewesen sein.

Luzern. Die Zeit der Abstürze in den Schweizer Alpen ist wieder da. In einer der letzten Wochen erlitten nicht weniger als acht Touristen tödtliche Unfälle.—Die Gemeinde Sursee beschloß den Bau eines Elektrizitätswerkes im Kostenvoranschlage von 180,000 Francs.

Glarus. Unsere Berge erhalten täglich zahlreichen Besuch. Auf dem Glärnisch waren jüngst 30 Touristen beisammen; auch im Tödigebiet ist überall reges Leben. Die Fridolinshütte, die Claridenhütte und die nunmehr neu restaurirte Grünhornhütte werden häufig in Anspruch genommen. Auch die Kuranstalten unseres Landes sind gut frequentirt. Der Weg auf den Rautispitz ist nunmehr vom Bahnhof in Näfels weg bis auf die Höhe mit rothen Wegmarkirungen versehen worden, so daß ein Tourist kaum fehlgehen kann.

Graubünden. Auf dem Platze der neulich explodirten Pulverfabrik bei Chur arbeiteten zwei Zimmerleute. Beim Nägeleinschlagen bedienten sie sich eiserner Hämmer statt kupferner, wie die Vorschrift geboten hätte. Es entzündete sich der noch vorhandene Pulverstaub und eine zweite Explosion entstand, wodurch die beiden Männer schwer verletzt wurden.—In Schuls-Tarasp logiren in den verschiedenen Hotels über 1100 Gäste; das Hauptkontingent stellt Deutschland. Bis zum 4. August betrug die Frequenz 2523 Fremde.—In Truns richtete ein Erdschlipf großen Schaden an. Bei Surdein und Curschera wurden die Rheinbrücken weggerissen.

Aargau. Eine englisch-amerikanische Gesellschaft beabsichtigt, in Rheinfelden eine weitere elektrochemische Fabrik zu bauen mit einem Kraftbedarf von 2500 Pferdekräften.

YOU'RE READING THIS?

CERTAINLY!

Well, Mr. Merchant-who-thinks-of-advertising, this is only one of the many corners in THE DAILY PRESS—it isn't the best located one, either; we can give you better—and if this attracts your attention in our endeavor to tell you how good advertising will get you a hearing before the purchasing public, doesn't common sense teach you that if you were having people reading your trade story instead of you're reading our argument about it, that it would be better for your business. THE DAILY PRESS reaches the purchasing public that makes the profits for the merchant.

We can give you big or little space—but in advertising it is'nt always economy to be sparing in your appropriation.

CHAPTER I.

"Her ladyship would like to see you Miss Evangeline."

"Very well, Mary. Does she want me at once?"

"I believe so, miss," answered the servant who had tapped at her door with her aunt's message. "I believe it is about Sir Roydon. I took up a foreign-looking letter to her ladyship about ten minutes ago, and she sent for you as soon as she had read it."

"A letter from Sir Roy? Then I will go at once," said Evangeline, hastening out of her dressing-room and along the old-fashioned oak-pannelled corridor that led to Lady Garth's bedroom.

As usual, her aunt was breakfasting in her room and sat, in her dainty dressing-gown of blue silk trimmed with ecru lace, at a little Japanese table by the window, which commanded a fine view of the terraces and grounds in front of the house. The window was open this morning, and, as Evangeline entered, a draught of air rustled the flimsy closely-written sheets of a letter that her ladyship held in her hand. It was the draught which drew her attention to the entrance of her niece, for the door made no sound in opening.

As the elderly lady raised her head a momentary smile brightened up her thin, aristocratic-looking face, making it look less cold than usual.

"Such sad news from Roy, dear!" she said, when Evengeline had bent down to kiss her thin cheek affectionately. "I always said that something dreadful would result from his strange democratic ideas. If he had only been content to lead the life of a country gentleman at home, this would never have happened!"

"What is it, auntie dear?" said Evangeline, her sweet beautiful face, which always wore a sad expression, clouding with anxiety. "Is Roy in trouble?"

Lady Garth answered with a touch of indignation in her voice.

IS ROY IN TROUBLE?

"I do not know what you mean by 'in trouble,' Evangeline."

The girl laughed lightly. She was the one person besides Lady Garth's son, Sir Roydon himself, who was not awed by her ladyship.

"I was not asking, of course, auntie whether Roy has brought trouble upon himself. I though he might have been arrested as a spy or something."

Lady Garth raised her gold eyeglasses to her aristocratic aquiline nose and regarded the girl with an air of stately severity.

"Such a thing might happen in Europe my dear, but scarcely in the United States."

"I suppose not. But if anything has really happened to Roy, I do not think I deserve to be kept in suspense so long."

"Something very serious has happened!" said her ladyship, still severely, although her niece had thrown her arm coaxingly around her neck.

"What—he has not got married surely?" questioned Evangeline innocently; and at this suggestion her ladyship's face clouded more than before.

"He has been thrown from his horse and broken his leg," she said abruptly and the girl's beautiful eyes were instanly filled with concern.

"Oh, poor boy! How terrible! Is he very much injured? When was it auntie, and where? You must let me read the letter."

She held out her hand as she spoke for Sir Roydon Garth's letters, whether addressed to his mother or to his cousin, were considered common property at Delverton Hall. But, rather to the girl's surprise, the old lady drew the flimsy sheets away from her and began to describe how the accident had happened. It seemed that the young Baronet, who had been sent out by an English company to report upon some mining properties in North California, had been thrown from his horse on his way back to San Francisco.

"The worst of it is," went on her ladyship, "that Deadman's Gulch—what a terrible name for a place!—where the accident occurred, is miles and miles from a town or a doctor. The wonder is that the poor boy was not left where he fell."

"And who found him?" said Evangeline, breathlessly.

"Luckily an old man and his son lived quite near—the only house for miles and miles. Roy calls them 'squatters,' whatever that may mean. The old man found my poor boy insensible, and managed to get him upon his horse, which had not run away, took him to his house—a sort of wooden hut—and contrived to set his leg very cleverly, Roy says. He writes cheerfully; but I am afraid it has been a terrible experience. However, it is only what I expected would happen through Roy's obstinacy——"

Evangeline interrupted her.

"Is Roy getting better, auntie? How long ago was it?"

Lady Garth adjusted her gold eyeglasses again, and referred to the letter.

"This was written a fortnight after the accident, and the letter must have taken nearly a month, I suppose, getting here."

"And he has nobody to nurse or wait upon him except those two rough men?" exclaimed the girl.

Lady Garth made no direct answer to the question.

"I knew something terrible would happen," repeated her ladyship, who had never become reconciled to the idea of her son's adopting a profession with the object of making money; "I knew something frightful would result from Roy's forgetting his position in the way he has done!"

"But, my dear auntie," said her niece, who was never tired of championing her absent cousin, "the accident might have happened just as easily in England, if Roy had remained at home doing nothing. Why, only last week Captain Learoyd broke his leg, and his collar-bone as well, hunting in Delverton Hollow."

"At home, Roy would have received proper medical attention," said Lady Garth, removing her gold eye-glasses to wipe the tears from her eyes. "I do not know what will happen to my poor boy out in that terrible wilderness."

Evangeline rose to stroke the old lady's white hair soothingly.

"Roy is all right, auntie," she said, with conviction in her tone, "or else we should have received a telegram. If you like, I will wire to the address of these squatters and ask. And, if Roy is not really better, I will go out there and nurse him."

"Thank you, dear."

"And, as for wishing that Roy had remained at home," the girl went on enthusiastically—"I think it was ever so much nobler of him to do as he has done than to remain idle, struggling to keep up a position on insufficient means, just because he happens to have a title and an estate."

The aristocratic old lady shrugged her shoulders.

"But, my dear, a mining expert and engineer! For six centuries none of the Garths have been mining experts. It is almost like a trade."

"I suppose Roy is the first Garth who has been clever enough, auntie," Evangeline laughed. "I wish, of course, that he had chosen something that would not take him away from England so often; and I should have been glad if he had accepted half the money when I asked him. Really, it was his by right. I do not see why I should have all the family money, just because our grandfather was an irascible old gentleman, who had the bad taste to quarrel with his eldest son and make a favorite of his second. The money ought to have gone with the title and estate; and I think Roy was foolish to let a wicked and unjust will stand in the way of its doing so—although, of course, I admire him all the more for his decision to earn his own living. You ought to be prouder of him for it, auntie——"

Lady Garth interrupted her.

"You know it was impossible for my son to avail himself of your Quixotic generosity, Evangeline. There is only one way in which the Garth estates can be united again."

The old lady looked meaningly at the beautiful girl by her side, and an expression of weariness or annoyance passed across Evangeline Garth's face. She answered with a laugh, however, and bent down to kiss her ladyship's upturned face.

"You are a foolish darling!" she said. "Even if I were in love with Roy, I could not make him love me or ask him to marry me—could I, auntie?"

Lady Garth was stroking the shapely hand laid upon her shoulder.

"I am quite sure that Roy cares for you, dear—how could he help it?—and I am equally sure that his foolish pride will stand in the way of his telling you so, unless you help him."

"And I am just as convinced that Roy does not care for me like that, auntie, and, if he did, that I do not care for him in the same way, although, of course, I am very fond of him."

Her ladyship shrugged her shoulders slightly, as though the shapely hand were too heavy for her.

"Girls are very different from what they were in my young days," she said coldly—"they make such a study of their emotions! When I was a girl it was sufficient for a young lady to know that a young fellow loved her; and, if he was handsome and in the same sphere of society as herself, she naturally loved him in return, without waiting for some sort of miraculous sensation that the young ladies of the present day seem to expect before they will condescend to consider themselves in love."

"And, if the young man was not in the proper sphere of society, the girl was not in love, I suppose?" said Evangeline with a smile, that relieved for a moment only, the usual sadness of her beautiful face.

Her ladyship took the question quite seriously.

"That would depend a great deal upon the young lady's character. The majority of girls in those days, I am glad to say—at any rate, among my own acquaintances—had a sufficiently clear idea of what was due to their position and their relatives to love wisely."

She started when Evangeline answered—

"A love that loves 'wisely' does not seem to me to be love at all."

"My dear, you have strange notions," Lady Garth said, with a slight shudder.

"But you still think that I am an ideal wife for Roy!" laughed the girl. And Lady Garth answered very earnestly—

"My dear girl, if I knew that you were betrothed, I should be perfectly happy. I have never metnioned it to a soul before—it would be doing my son an injustice, no doubt—but I am suffering from a constant anxiety about Royden. He is so full of Quixotic modern notions that I am always expecting him to marry foolishly. If I only knew that you two were engaged, all my anxiety would be at an end."

"What a pity I cannot make Roy marry me!" said the girl, with another smile. "You talk as though it were Leap-Year, auntie." Then, before her ladyship had time to reply, she went on more seriously, "I will promise you this, dear, that if ever I love a man, whoever it is, and am quite sure that he loves me, I shall not let my money or his pride stand in the way of our happiness. If I think that the fact of my wealth prevents his asking a certain question, I shall not hesitate to ask it myself. Now let us talk about the telegram that we shall send to California."

Lady Garth had to be content with her niece's rather alarming declaration, and did not press her point any farther, although the marriage she projected between her son and Evangeline, which would unite once more the title and wealth of the Garths, was one very dear to her heart.

The position just then was a rather curious one, for, although Delverton Hall and the beautiful grounds which surrounded it were the property of the absent Sir Roydon Garth, and his mother ruled there as mistress, still, all the estates surrounding it, which had come to the Garths by marriage and were unentailed, belonged to the orphan niece, who had lived all her life in its shelter. Lady Garth's husband, the late baronet, had offended his father by his opposition when the old gentleman thought of contracting a second marriage with his cook. The old baronet happened to die before the projected alliance came off; nevertheless he did not pass away before he had made the change in his will which left to his heir nothing but the title and the entailed portion of the Garth estates, which he could not bequeath to his second son, the father of Evangeline. Young Tom Garth did not live long to enjoy his prosperity. He was killed in the hunting field a week after the death of his father, and a few months before the birth of his only child, Evangeline, whose mother, dying in giving her birth, left her to the care of her relatives, to whom the wealth that became hers should have belonged. It certainly seemed, therefore, when Evangeline grew up a beautiful woman side by side with her cousin, that a way had been opened by Providence for the reunion of the Garth title and wealth.

Lady Garth was to be pardoned for setting her heart upon the alliance of the two young people, and for being rendered rather uneasy by a passage in her son's letter from California, which she had thought better not to read to her niece. If, however, her ladyship had intended to keep that paragraph of the letter from Evangeline, she ought to have taken greater care of the closely-written sheets which had brought such consternation into the household.

When the heiress left the room to prepare the telegram which she intended to send to Deadman's Gulch, her aunt retired to her own well-appointed dressing-room, leaving the letter lying upon the little Japanese table by the window. The composition of the telegram took some time, and, when Evangeline returned to Lady Garth's room to submit it to her before sending it off, she found it empty. Her ladyship had gone downstairs.

As the girl was about to leave the room, her attention was attracted by rustling paper, and she walked across the room, and, as a matter of course, took up Roy's letter. She had quite forgotten her aunt's little action, which for a moment had made her suspect that she wished to keep the letter in her own hands; but she had been so used to considering her cousin's letters common property that, even when she read this one through and reached the paragraph which her ladyship had not mentioned to her, it did not occur to her that the item of information had been intentionally concealed from her. With the letter in her hand, she ran down-stairs, quite excited, to her aunt.

"Why, auntie," she burst out impetuously, as she entered the morning-room, "you never told me a word about the girl who is nursing Roy! It is much better than having only two rough men to look after him; and it sounds as though she must be very nice! What a quaint name, too—'Lilac Marvel.' I feel fond of her already, from this bit of description Roy gives of her."

Lady Garth's pale face flushed a little, a most unusual thing for her ladyship—and for a moment she actually looked disconcerted, which was more unusual still. She had been watering her favorite ferns with a diminutive watering-can, and laid it down to adjust her eye-glasses and stare at the animated face, which contrasted so strangely with her own cold, haughty one, before replying—

"Whatever is it you are chattering about, child? You quite startled me, running into the room in so hoydenish a fashion."

"I am very sorry, auntie, if I startled you," said Evangeline, with ready penitence; "I am afraid I shall never learn to be dignified while I am excited. And this really sounds exciting! Roy is not easily attracted by women, you know, dear, and he writes so enthusiastically about this little Californian girl that I should not be a bit surprised if he brought her home as his wife."

"Evangeline!"

The exclamation expressed such horror-struck surprise and indignation that even Miss Garth was startled and subdued by it. She stood silent and a little abashed, while her aunt continued, in her most icy and dignified manner—

"Evangeline, I do not think you quite realize what you are saying. The idea of a Garth, the head of this house, bringing home as mistress of the Hall a young person such as Sir Royden describes in his letter, the adopted child of a—what is the terrible term?—a 'squatter,' without a family, without education, is a subject on which even jesting is in very bad taste. I am sure that Roydon has too much discrimination as to what is due to me and to society to dream of such a thing. When I spoke of my fear that he might make a mesalliance, I simply meant that he might possibly choose a lady of good standing and refinement in England, but one whose family and fortune were not such as a Garth has a right to expect. But a girl with no family or fortune at all! It is out of all question, and I am surprised that you should have jested on such a matter—to me, at any rate, Evangeline!"

"But Roy says in his letter, auntie, that Lilac has the spirit of true refinement. A refinement that can exist among such rough surroundings must be the mark of a true lady, and worth a hundred times more than the veneer of polish that any girl can get here, simply through her training and associations. Now, if I had lived in a place such as Roy describes, I am quite sure that I should have grown up a savage, and not a dream of sweet feminine loveliness like this little girl amid the wilds."

For the only time in Evangeline's remembrance Lady Garth lost her temper, and, after staring at the girl with an angry flush on her face, she turned abruptly and left the room.

Her niece was sorry that she had vexed her, but she could not blame herself for defending an absent girl, for whom she believed her cousin had already conceived an affection. How was it possible that he could help loving one so sweet and unsophisticated as the girl he had described in his letter, thrown together as they had been by the Baronet's accident in the solitude of a thinly-populated part of California. It was almost certain that the lonely girl who had spent her life among uncongenial companions would lose her heart to the handsome young English gentleman whom chance had

THE GIRL GAZED AT THE FACE.

delivered into her care. How could she help it, when Sir Roy, with his refinement and chivalry, must be so different from the rough men with whom she had been brought in contact?

"I think it is just as easy nowadays for a girl to fall in love as ever it was in Aunt Gwendoline's young days," said Evangeline to herself, with a sigh; "but girls are not wise enough now to always love the right person." There was a far-away look in her beautiful eyes as she murmured to herself this record of her own experience, and the look of sadness that always seemed to cloud them deepened. "If Lilac has given her heart to Roy, I hope he will make her mistress of Delverton Hall," she went on meditatively, "in spite of Aunt Gwen and her aristocratic ideas; for, dear me, it is very hard for a girl to give her love unasked!" and Evangeline sighed more deeply than before.

Rousing herself with an effort from the reverie into which she had fallen in thinking of her cousin's American nurse, Evangeline walked slowly upstairs to her room to put on her big straw hat and gloves, preparatory to going down to the village telegraph-office with the message she had prepared to send across the sea to Sir Roy. But, in the act of drawing on her gauntlet gloves, the far-away look came back into her eyes, and the reverie returned. With a hasty glance at the door to see that she had closed it behind her, she put down her hat and opened a drawer of the old carved escritoire in her room. Right at the bottom of the drawer, under a heap of papers, she came to a photograph, which showed the dark handsome face of a young man about twenty, with a moustache that even in the photograph looked black and silken. The girl gazed at the face for a few moments in silence, then replaced the portrait carefully in the drawer. There were tears in her eyes as she did so. Wiping them away quickly, and hastily putting on her hat, she ran down the broad staircase that led to the hall.

With her mind full of the message which she was about to despatch, she was surprised to see a messenger from the post-office, with a telegram in his hand, standing at the open door, and her thoughts flew at once to Sir Roy. She hurriedly took the envelope from the boy and glanced at the address. It was addressed to her aunt, and Evangeline hesitated to open it. If it concerned only private business of Lady Garth's, her ladyship would be more angry than ever if she heard that her niece had opened the envelope without her permission. But, if, as she could not help feeling, the telegram contained bad news of Roy, it was highly advisable that she should learn it first, and thus be able to break it gently to the young Baronet's mother, rather than that her aunt should learn the bad news direct from a curt telegraphic message.

The boy who had brought the telegram enabled her to make up her mind how to act.

"It is a telegram from abroad, miss," he said, as she stood hesitating in the hall with the envelope in her hand; and then the girl doubted no longer that the missive contained news of Sir Roy, and, with trembling fingers, she tore open the flimsy covering.

It was a great relief to her to catch sight of her cousin's name on the enclosed sheet as the sender of the message. It was something to know that he was not dead. But Evangeline still feared something terrible.

The boy, who still remained at the open door, watched her face and wondered how long she would remain with her strangely-concentrated gaze fixed upon the sheet; and, when she did at length look up again and became conscious of his presence, he was uncomfortably surprised to be dismissed with only a word, for Miss Garth's generosity was proverbial in the village, and he had been counting on a largess. On this particular occasion Miss Garth's thoughts were too much occupied by the startling news she had received from San Francisco to allow her to think of rewarding the messenger who had brought it. As Evangeline proceeded on her way to break the news to Lady Garth, she murmured to herself—

"Poor auntie—and poor Lilac Marvel!"

[TO BE CONTINUED.]

A QUEEN'S TRIBUTE TO A SERVANT.

Inscription Placed on the Tombstone of Her Dead Domestic.

Queen Victoria has paid a touching tribute to her old servant. The queen has placed on the grave of the late Mrs. McDonald, in Crathie churchyard, a tombstone consisting of two handsome blocks of red Peterhead granite, on the top of which is carved an interlaced Celtic cross. The following inscription is cut in raised polished letters:

"This stone is placed by Queen Victoria in grateful and affectionate remembrance of Annie McDonald, daughter of William Mitchell of Clachanturn and widow of John McDonald. She was in the queen's service for forty-one years, and during thirty-one years was wardrobe maid and the faithful servant and devoted friend to the queen, by whom her loss is deeply deplored. She was born at Carn-na-Cuimhne, Jan. 3, 1832, and died at Clachanturn, July 4, 1897, beloved and mourned by all who knew her. 'Let her own works praise her.' Proverbs, xxxvi, 31. 'Nothing in my hand I bring; simply to Thy cross I cling.'"—Chicago Times-Herald.

Liquid Palace in Paris.

One of the most novel and attractive features of the Paris Exposition in 1900 will be a palace constructed entirely of glass, over which will fall cascades of water from hundreds of jets. The building will rival the famous Crystal Palace of London, and will cover an area of 6,000 square yards.

It will be shaped somewhat like the minaret-topped structures of Oriental cities. On each corner of the structure there will be crystal towers and in the middle a minaret of most elaborate design. Lines of pipes will be run wherever possible without interfering with the beauty of the building. Fountains and jets of water will be placed at every point of the building so that it will be literally covered with graceful showers of spray.—New York World.

He Used a Four-Tined Fork.

An old Washington lady used to tell with delight of an occasion on which she went, with a kinswoman, to dine with Mr. and Mrs. John Quincy Adams. The table was beautifully set in the fashion of the times, and at Mr. Adams's place lay a four-tined silver fork. The other persons at table had merely the two-pronged fork then in use. Mrs. Adams apologized for her husband's little eccentricity, saying that in his long sojourn in France he had acquired the habit of eating with his fork—a habit of which he had been unable to break, himself. "And, my dear," the old lady used to say, with a twinkle in her eye, "the elegant Mrs. Adams and the rest of us ate with a knife."

CURRENT BASEBALL NEWS IN AND AROUND PLAINFIELD.

Bits of Information and Comment Gleaned From the Great National Game —Latest Scores of the League Teams

Hayes, the plucky catcher of the Riverdale Field Club, will not be able to catch for several weeks as a result of the accident he met with in Monday afternoon's game. It is probable that Fred Smith, the great Princeton second baseman, will fill the position behind the bat as he did Monday morning and part of the afternoon after Hayes was injured. Smith is one of the best players on the team and he makes an excellent catcher. He hasn't done much in that line of late, but he and Westervelt make a very strong combination. Hardy is a good infielder and may be retained in Smith's old position, or else Arthur Lederer may be called on to try his old position before he leaves for college.

GOLF.

There will be several events of interest on the Hillside Tennis and Golf Club grounds next Saturday.

The members of the Hillside Tennis and Golf Club have adopted a very neat and attractive coat to wear about the clubhouse and grounds. It is of flannel and a pretty shade of red.

A telephone has been placed in the house on the Hillside Tennis and Golf Club grounds occupied by C. A. W. Fox, the greenkeeper, and another 'phone will be placed in the new clubhouse.

Thomas Bendalow, the golf expert, attended the opening of the Hillside Tennis and Golf Club grounds last Monday and went over the course with Dr. F. C. Ard. He expressed himself as being highly pleased with the course.

There was one thing that proved a source of annoyance to those who attended the opening of the new grounds of the Hillside Tennis and Golf Club last Monday, and that was the great amount of dust encountered in reaching the grounds after turning off Park avenue. There ought to be some method of obviating this difficulty.

CYCLING COMMENT.

Miss Wilkins, of East Fifth street, is riding a new wheel.

Miss Eva Wilkins, of East Fifth street, and Irving W. Bininger went Monday by wheel to Sewaren.

Everybody who saw Peter Simmons in the Labor Day race on the Hudson county boulevard, has commented on the great race he rode. He started with the 1:30 bunch and traveled right through the great procession of riders until he had almost reached the front. There were over a score of riders in the front bunch and Simmons took a good position there. He is certain that he finished fourth, but the official notice make him tenth.

AMONG THE STEPPERS.

Adam C. Blair, the liveryman, has purchased a trotter from Frank Day.

FATHERS THE INTERVIEW.

Gen. Miles Sticks to Charges Against Alger Made in Kansas City Star.

(Special to The Daily Press.)

New York, September 7—Gen. Nelson A. Miles has returned from his conquest of Porto Rico.

During his absence in Porto Rico the Commanding General of the Army was reported to have made serious charges against the Secretary of War, Gen. Alger, and Adjt.-Gen. Corbin.

The General today declared that the interview with him published in the *Kansas City Star* was in the main correct. He refused to retract the most serious allegations made against the War Department. A few minor points of the reported interview, he said, were incorrectly stated, but on the whole he fathered the statements.

THE COURTS.

JUSTICE MOFFETT.

Judgment rendered—In the case of Linke against Knewland; VanZandt & Voorhees against Benner; VanZandt & Voorhees against Blackford, for full amount of the claims and costs.

Adjourned—The case of VanZandt & Voorhees against Fritz, for one week.

JUSTICE NASH.

Adjourned—The case of Vail against Randolph, for one month.

JUSTICE MOSHER.

Adjourned — The case of Schorb against Kane, for two weeks.

Russell E. Johnson Married.

The marriage of Miss Mabel Young, of Newark, to Russell E. Johnson, son of A. W. Johnson, of Duer street, is announced. The ceremony was performed in New York Saturday, August 13th. The young couple are residing at the home of the bride's parents. The groom is employed in the bonded warehouse of his uncle, Charles Johnson, Front street, New York. He was formerly a compositor on the *News* in this city.

Grandson of W. L. Smalley Married.

Miss Helen G. Bell and William F. Cadmus, both of New York city, were married by Rev. M. Forbs, of the First Presbyterian church on Twenty-ninth street, that city, Saturday afternoon at 5 o'clock. The groom is a grandson of Mr. and Mrs. W. L. Smalley, of Craig place, and formerly lived with them. The couple spent Sunday here with the groom's grandparents.

James Bailey, Chief Doane's driver, has been granted a ten days' vacation, and he and Mrs. Bailey, accompanied by Herbert Randolph, have gone to Atlantic City.

Isaac L. Miller and Brockholst R. Miller, of Watchung avenue, have returned from their vacation at the Sullivan County Club. Mrs. Miller and Miss Hanna W. Miller will probably be home in the next ten days.

TRIBUTE OF THE LIVING.

FUNERAL SERVICES OVER THE REMAINS OF MISS TITSWORTH.

The Lifeless Body Gowned in a Favorite Dress and Looked Very Natural—Many Floral Gifts—A Large Attendance.

Sad, indeed, was the home of Mr. and Mrs. John D. Titsworth, of Madson avenue, yesterday afternoon, when the funeral services of their only daughter were held. The sadness experienced by the bereaved ones was shared by everyone present. The service was largely attended, especially by a large number of young people present, all personal friends of the deceased.

The lifeless young body rested in the front room in an open ashes of-rose casket, while surrounding it was the choicest of roses. Miss Titsworth was gowned in a favorite dress of pink and she looked as natural as when she was enjoying life and health. The display of floral tributes were beautiful and very touching. One large pillow of roses near the head of the casket bore the inscription "Our loved companion." This was from the departed's young friends who were with her last Saturday evening at the home of Miss Smith on Westervelt avenue. Another pillow of roses, bearing the inscription "Our darling," was from the family. There were numerous other large and small floral tributes that testified strongly to the esteem and admiration for the departed.

At the beginning of the services a quartette, consisting of Mr. and Mrs. David E. Titsworth, and Mrs. William Hubbard and Elmer E. Runyon, sang very sweetly "Now the Day is Over," and during the services "We Shall Meet," and "Sometime We Shall Understand," was also sung with effect.

The services were in charge of Rev. Dr. Main, pastor of the Seventh-Day Baptist church, assisted by Rev. Chas. L. Goodrich, pastor of the Congregational church. Dr. Main read the Scripture lesson and made a few remarks. He dwelt upon the necessity of looking to Christ in the hour of sadness and in trusting Him when the burdens and sorrows come. He paid a high tribute to the departed and spoke of her many excellent qualities. He also spoke words of comfort and consolation to the bereaved ones, and told them to look to Christ for help and strength. This speaker's remarks were very helpful and full of tenderness and sympathy.

The next speaker was Rev. Mr. Goodrich. His remarks were based on the text "Weep Not, Your Daughter is Not Dead," the words spoken by Christ when upon earth. He said that he rejoiced to know that Christ's saying was true today, that the young friend just departed had entered into a fullness of Christ's joy and was resting from all pain and sorrow. His words regarding the life of Miss Titsworth reached the hearts of all present and was a valued tribute to the one who had been taken away early in life. Mr. Goodrich closed his remarks by offering a prayer full of consolation to the bereaved ones.

Those present were then given an opportunity of taking a last look upon the form of one whom they had learned to love and admire. The interment was in the family plot in Hillside cemetery. Those who acted as bearers were Thomas U. Smith, Frederick Hillman, James Taylor, Lester Walton, Roy Phillips, Harold Davis.

—Children's shoes for school or play; shoes with service in them. Boy's shoes that look like dad's, etc., can be found always at VanArsdale's at correct prices.

—W. B. Woodruff, of Westfield, will give a Bible reading on Joseph before the Christian and Missionary Alliance in the rooms of the W. C. T. U. Thursday evening at 7:45 o'clock.

—Elaborate preparations are being made by W. S. Emery, proprietor of Emery's Hotel, Scotch Plains, for a clambake that he will give on the night of Tuesday, September 27. It's going to be a real old-fashioned Rhode Island clambake for both ladies and gentlemen. One of the attractions will be Drake's Band, of Elizabeth.

Chance to Consult Prof. Wightman.

Prof. Wightman, of the North Plainfield Public High School, will be at the school Saturday, September 10th, and Monday, September 12th, to consult with parents, teachers and new pupils, or those having conditions. Those wishing typewriting, stenography or other commercial or special subjects should arrange at once.

Sunday-school Convention.

The thirty-fourth annual convention of the Middlesex County Sunday-school Association will be held tomorrow morning, afternoon and evening in the New Market Seventh-Day Baptist church.

Discharged From the Hospital.

A. J. Grollschmith, of East Front street, who was injured two weeks ago in a runaway accident, was discharged cured from the hospital this afternoon.

A baby daughter has arrived at the home of Mr. and Mrs. W. C. Smith, Jr., of Watchung avenue.

BRAZIL'S COMMERCE.

The Average American Overlooks the Opportunities That Lie at His Threshold.

While seeking in the Far East for consumers of his surplus products of farm and factory, the average American overlooks the opportunities open to his enterprise and sagacity in a continent which lies, comparatively speaking, at the threshold of his factory and the gateway of his farm. At the same time, he fails utterly to realize that the United States the chief consumer of South American products is paying, by way of exchange, a vast tribute to Europe, not merly on what is taken from her nearest and most natural market for her own products, but on all she sells there. If intelligently utilized, not only would the semi-home markets of South America save to the American consumer what he now pays in exchange to his more enterprising European competitor, who has forestalled him in the exploration and development of the vast resources of the southern republics, but they would in time turn the overwhelmingly adverse balance of trade to the credit of the United States.

To-day the leading commercial city of Brazil, Rio de Janeiro, with a population of nearly 750,000 souls, contains but one strictly American mercantile house supported by any considerable amount of capital. In the entire republic, with a population of 16,000,000, only two such houses exist. The American colony, registered, numbers probably 1,500, embracing a few coffee buyers, agents only, farmers, clerks, mechanics, dentists, and other professional men scattered over the country; while the British, French, German, Portugese and Spanish colonies number respectively, in the order named, many thousand inhabitants, representing hundreds of millions of dollars placed in mercantile, banking, mining, transportation, and other pursuits, which yield remunerative dividends.

It is obvious that a large number of energetic and intelligent Americans engaged in industrial pursuits in Brazil would have an enormous influence in developing the natural resources, and, consequently, in increasing the purchasing power of the country.

HOW MICA IS OBTAINED.

The Process is Described as the Poetry of Mining.

The mica trade is controlled practically by three or four large concerns in New York, Chicago and Boston. These houses have an agent who buys for cash whatever mica is brought in by the miners. They control the market and fix the prices to be paid to the miner, as well as the prices for which it is sold in the markets.

Mica, it need hardly be said, is a very valuable, almost precious, mineral, as those who are obliged to buy a small strip for their stove doors will testify. A package worth hundreds of dollars can be carried in a basket slung over the arm, or in a pair of saddlebags on horseback. When prepared for the market the solid block, as taken from the mine, is split into sheets. These are cut into squares or rectangles of almost every possible size, from 2x2 inches up to 8x10 inches, and sometimes even larger. There are no less than 183 regular sizes kept in stock by dealers.

The mining of mica is the poetry of mining. It is impossible to conceive of a more exciting and fascinating employment. The vein of mica-bearing quartz, lying between rocks of different formation, has been found. The cap rock has been blasted away. Little "nigger-heads"—small lumps of crumbling mica mixed with slate and other rock—are growing plentiful. The rock is carefully examined by the experienced miner, and all indications are that mica will soon be found. A blast is made. The rock and debris are cleared away, and there in the bottom is a block of the precious stuff, a ragged corner showing itself black and glittering in the white quartz in which it is imbedded. With the tips of the fingers the miner gently and affectionately brushes away the dirt and small stones which partly covers it. Its thickness is carefully noted, its position in the rock is learnedly discussed, and many a speculation indulged in as to its size and quality. The hole is quickly drilled, the small blast is made, just loosening the rock, and all eagerly crowd around as one of the men with his pick pulls away the broken stone. There it lies, a black, glittering mass, nine or ten inches across its face, three or four inches thick, and irregular in shape, as all blocks of mica are. A good-sized block, and, if solid and of a perfect cleavage, will be worth several dollars. The excitement is not allayed, however, and will not be until the block is split open and we know how it looks on the inside. It is a very bad thing to split open a block at the mine, and contrary to all rules, for there is danger that the fine, polished faces will be scratched.—Goodey's Magazine.

The Usual Progress.

Wheeler—I wonder what has become of Walker; I haven't seen him for a week.

Ryder—I saw his wife yesterday. She said he was learning to ride a wheel.

Wheeler—How's he getting along?

Ryder—On crutches, I believe.—Chicago News.

A New Kind of Trolley.

Who would have thought ten years ago that the following little conversation would occur in 1898?

"Mama, Mama," said four-year-old Dotty, as a tired pair of horses lazily dragged a street car along an unfamiliar avenue, "there's a new kind of twollie car as have to have horses."—Electrical Review.

UNION COUNTY JURORS DRAWN.

Panel Selected for the October Term of the Circuit Court.

BICYCLE RACING ON CRESCENT OVAL AGAIN.

An Attractive Programme Arranged for Next Saturday.

R. C. WOOD THE PROMOTER.

A GOOD BASEBALL GAME WILL ALSO BE A FEATURE

The Races are Open to any Riders Within 100 Miles of Plainfield, but are Designed Especially for the Local Racers to Show What They Can Do—Harry Lister in Charge of the Entries.

Plainfield has at last found somebody who is bound to give her citizens a good time. Robert C. Wood, of the Riverdale Field Club, rejuvenated baseball here with very difficult obstacles to overcome. While the game has not yet attained the popularity it once held, it has made remarkable gains during the few weeks that the Riverdales have been the drawing card at the Crescent Oval. Now Mr. Wood has gone out on a new tack to court popular favor. He is going to revive bicycle racing on the Crescent Oval. While the Crescent Wheelmen collapsed in their efforts to do just that same thing, Mr. Wood is not a whit discouraged. He thinks it can be done and he is going to make a good attempt at it anyway.

Saturday afternoon will see a new departure at the Crescent Oval. The baseball game will go on as usual at the regular time, but Manager Wood has arranged something new for the entertainment of his patrons. He is going to try mighty hard to boom outdoor sports at the Crescent Oval, and the new plan certainly is an attractive one for lovers of outdoor sports. Previous to the baseball game, a regular bicycle race meet will be held, duly sanctioned by the L. A. W. There will be three events, a one-mile open, a two-mile scratch and a five-mile handicap. They will be for amateur riders only.

The remarkable part of it is that both bicycling and baseball will come under the same head. The patrons will pay one admission and be entitled to witness both races and baseball. It is something new, and Mr. Wood is in hopes that the Plainfielders will like it. It was done for their edification and they ought to appreciate it.

The races are being gotten up for Mr. Wood by Harry K. Lister, who is receiving all the entries. There is every prospect that the meet will be a successful one. While it is open to any rider within a hundred miles of Plainfield, it was designed more especially to get the local riders together and settle the often disputed question of superiority.

The prizes are good ones. In the one-mile open they are a silver watch, a solid gold stick pin and a pair of gold link cuff buttons, for first, second and third respectively. A silver fruit dish, a kodak and a racing saddle will be awarded in the two-mile. The prizes in the five-mile handicap will be a gold watch, a set of silver spoons and a racing suit.

The races are set to begin at 2 o'clock. The admission will be 25 cents, with 10 cents extra for the grandstand, while the ladies will continue to be admitted free. Wheels will be checked for the patrons without charge.

SPEAKER FROM A STRANGE LAND.

A Converted Pagan to Address Y. M. C. A. Meeting Sunday Afternoon.

The Sunday afternoon meeting at the Y. M. C. A. next Sunday will be out of the ordinary line. Charles Mohammed, a former Mohammedan but now a Christian, will tell of his country and its customs.

Mr. Mohammed comes highly recommended and no doubt his talk will be highly interesting. The Y. M. C. A. hall is a cool one, and with the help of fans and lemonade everyone who attends will be made comfortable. In addition to the address there will be vocal and instrumental music.

The young man is a native of Tangiers, Morocco, and has just graduated from a Baptist theological seminary in this country. He is just about to go back to his native country as a missionary.

Park Avenue Asphalt.

If possible the City Council will endeavor to have Park avenue asphalted this year. To do this there is much that has to be done. The laws affecting such work have to be examined, and those petitioning to have the street asphalted will have to signify their desire to pay their proportionate share for the work. It is the desire of the Council to do the work if possible.

—Don't delay your canning another day. Neuman Brothers have the fruit *now*, but it won't last long.

THE ELECTION OFFICERS

MEN WHO WILL CONDUCT THE BALLOTING THIS ELECTION.

County Board of Elections Confirm the Nominations of the Executive Committees of Both Political Parties.

(Special To The Daily Press.)

Elizabeth, Sept. 8.—The county board of elections has for confirmation the nominations of the executive committees of the Republican and Democratic parties, and yesterday named the election boards for the various districts in the county. Under the new law these officers must qualify, a series of questions having been submitted to them. If the answers are satisfactory the county board will make the appointments and issue commissions. The men who have been named for confirmation in Plainfield and vicinity are as follows:

DEMOCRATS.

Plainfield—

First Ward—First district, John Rafferty, Michael DeCourcy; Second district, John Angleman, William L. Gloak.

Second Ward—First district, Frank Vosseller, Joseph G. Miller; Second district, Alfred Cocks, James B. Guttridge.

Third Ward—First district, Joseph Sheppard, Frank McInerney; Second district, John Moran, Charles McCarthy.

Fourth Ward—First district, M. R. Flynn, James H. Searing; Second district, Clinton Shannon, James Kane; Third district, James R. Phillips, Timothy McCarthy.

Fanwood Borough — George F. Carter, John L. Jones, Jr.

Fanwood Township—Clarence Lambert, John Radin.

Westfield—First district, F. R. Pennington, Thomas O'Neill; Second district, L. C. Thies, J. H. Lambert.

REPUBLICANS.

Plainfield—

First Ward—First district, George W. Moore, John H. Tier, Jr.; Second district, Guillermo Thorn, B. T. Barnes.

Second Ward—First district, Armstrong Mulford, J. Hervey Doane; Second district, William Spangenburg, Charles W. Smith.

Third Ward—First district, B. F. Corieli, J. Casper Kirkner; Second district, Albert I. Littell, J. Smith Garretson.

Fourth Ward—First district, Alexander Titsworth, William Newman; Second district, Abraham Angleman, James Huntington; Third district, William A. Westphal, James B. Martin,

Fanwood Township — George H. Johnston, James Goodman.

Fanwood Borough—Henry Kyte, Louis E. Kennedy.

Westfield Township—First district, Charles E. Reese, George W. Cox; Second district, Charles E. Smith, Howard Manning.

Resigned Her Office.

At the meeting of Iona Council, Degree of Pocohontas, last night, Mrs. Frederick Westphal resigned as Pocohontas, and Mrs. Emma Angleman was elected to fill her place. Mrs. A. Horton was made Wenonah, to fill the vacancy caused by Mrs. Angleman's removal. The installation was done by District Deputy Mrs. Eliza Radin.

A Very Sick Woman.

The condition of Mrs. H. S. Hall, of East Fifth street, has become so serious that the family physician, Dr. Matson, of Brooklyn, was called in Tuesday to consult with Dr. Clawson, the attending physician. Hopes of Mrs. Hall's recovery are still entertained.

And Boynton Beach is Temperance.

A party of men, who went to Boynton Beach Monday on the grocers' excursion, were out rowing in a boat, and claim to have seen a shark just inside the bay. Only the head was visible, so no accurate estimate could be made of the creature's length.

To be a Red Cross Nurse.

Miss Nellie Taylor, of West Seventh street, who graduated this summer from the Boston Hospital as a trained nurse, has gone to New York from where she will soon be sent to one of the field hospitals of the National Red Cross Society as a nurse.

Crack Shots to Meet.

Saturday afternoon A. I. Smalley and John D. Kirch, both of North Plainfield, will shoot a match at fifty clay birds for $50 a side. The match is to take place on the Eureka grounds.

To Hold Charter Open.

Watchung Lodge, I. O. F., met last night in Red Men's Hall, and received four propositions. It was decided to hold the charter open until the next meeting.

Charles T. Woolston Better.

Charles T. Woolston, who was injured Tuesday night by colliding with a buggy on Park avenue, passed a good night and seems to be better.

A PATH OF WRECKS IN STORM'S WAKE.

Elements of the Air Combine to End the Heated Spell in a Very Spiteful and Disastrous Manner.

The Storm Was But of Short Duration, But While it Lasted it Was of Terrific Force and Did a Vast Amount of Damage Throughout This Section—Frail Objects Were Sent Flying in All Directions—Lights Put Out and Streets Blocked—Persons Shocked.

The fierce heat of the past ten days broke in a spiteful manner yesterday afternoon at 3 o'clock, when the forces of wind, rain, electricity and hail, combined for fifteen minutes to make one of the most terrific storms witnessed in this section in many a day.

The sky clouded up quickly and a few heavy gusts of wind preceded the rainfall, which seemed to come as if from a cloudburst. The wind was soon blowing a gale somewhere about sixty miles an hour. The force of the wind was powerful enough to separate the tiny rain drops into still smaller particles of mist, which was whirled and eddied around corners and across streets in sheets that at times looked like driven snow. Sharp lightning and terrific peals of thunder gave a spectacular effect to the storm and frightened many timid people. For a few seconds hail fell with stinging force in some sections of the city.

The wind twisted and tore frail objects from their fastenings and sent them flying in all directions, while more substantial articles were also demolished.

The small streams that have run almost dry during the hot spell of weather were quickly turned into turbulent streams, and the roily water swept the banks of the channel of everything that was not securely fastened. Street gutters were turned into little rivers and emptied their contents into the sewers until they became clogged or else filled the declivities under the railroad bridges to such a depth that travel was obliged to be suspended for the time being.

The loss to farmers in this vicinity was quite heavy, as all standing crops of fruit and grain were more or less damaged by the wind and rain.

On West Second street, in front of Trinity Reformed church, an unused gaslight post together with the glass globe and frame was completely wrecked.

A young shade tree in front of Mrs. Mary L. Force's property, corner of Watchung avenue and East Second street, was broken off near the ground. On Third place, in front of Mrs. R. M. Stover's residence, a tree was taken up by the roots and laid across the street, and the entire top was taken off a tree on Second place. A tree standing in front of the home of Rev. J. W. Richardson was split in half, as was also another tree in the rear of the Park Avenue Baptist church. On Park avenue a number of trees went down in the storm. Near Cedar brook a large tree blocked Park avenue for a long time and people were obliged to go across lots. A tree in front of H. D. Haven's house, on the same avenue, was split in half, and another tree in front of Mr. Finch's house was treated likewise. A shade tree in front of Dr. Taylor's home on Park avenue was completely ruined. At the corner of Sixth street and Central avenue, and on East Sixth street, between Park avenue and Sycamore avenue, trees were destroyed.

One place that shows the effect of the storm is the city park. While no trees were blown over nearly everyone of them was stripped of their branches and leaves. The park, so far as trees go, is a total wreck, and it looks as though a cyclone had struck it.

A very disastrous result of the storm occurred at the home of Mahlon Vail on Park avenue. His large barn was struck by lightning, and was not only destroyed and its contents, but a horse and cow were also killed. Mr. Vail in trying to save some of his property narrowly escaped being killed.

At South Plainfield a new house in course of construction was blown down and completely wrecked. Another new house was wrecked on Spooner avenue which was owned by Herman Hansen. The storm played with it like a toy and left most of it like kindling wood.

A result of the storm was the injuries received by Wesley Brokaw and his sister, Miss Brokaw, of West Front street. They were talking over a telephone to each other when a heavy flash of lightning affected the wire. Miss Brokaw's right arm received a shock and it was sometime before she had use of it. Her right ear was burned, as was also the right ear of Mr. Brokaw. The injuries are not considered serious.

In the vicinity of the Crescent Avenue Presbyterian church the storm played great havoc with trees and wires. The streets in that locality were strewn and in some cases blocked with debris. It kept the city employes busy clearing away the obstructions and making travel possible.

On Franklin place several electric light wires were dangling in the street and several narrow escapes from shock were reported.

All during the evening the Plainfield electric light station was besieged with callers, both in person and by telephone, who either had no light in their homes or on their street. The employes of the light company were kept busy all night getting their wires straightened out.

The New York and New Jersey Telephone Company suffered great loss both in this city and vicinity. There were nearly 150 telephones out of order, and those who could use their 'phones kept the operators at "Central" busy answering all sorts of questions.

The cupola on the western corner of the First Baptist church was blown down, and fell with a crash during the height of the storm. In its fall it carried off a quantity of slate, and broke away the cornice from the roof over the side door. The cupola was about ten feet high, and was broken so in the fall that it cannot be placed in position again.

A large flag stone in front of Krietling's barber shop, on West Front street, was washed away from its position and carried out into the gutter.

The tin on the roof of Adam Blair's livery stable on West Sixth street was torn off by the wind and neatly rolled up and blown to one side.

Lightning struck the weather vane on J. Fred MacDonald's grocery store on East Front street. A flag was flying from the pole and this the bolt cut off from the pole by the halyards, and the flag blown down and lodged in the trolley wires on Watchung avenue.

The western end of Rheaume's lumber shed was blown away completely. A great opening was left, exposing the interior to view. The lumber contained inside the shed, and the flying pieces of planks, which were ripped off, went in all directions.

At Dunellen and New Market the storm did considerable damage, tearing up trees by the roots, breaking off branches, and strewing debris all around the yards and streets. The Larabee house, on the road between Dunellen and New Market, came near being destroyed by a gigantic tree which was blown over along side of it. In its fall the tree just missed the house, but one of its branches ripped away a good-sized piece of the gutter. A tree standing in front of James Wilson's house was struck by lightning. A colored family by the name of Lisbon, living next door, say that their house was badly shaken by the shock. An immense pine tree in Adam Dealaman's yard fell in the terrific wind. Some of the roots just grazed the windows, but did no damage. The aspect of the village today is much changed. Limbs of trees are lying all around, the streets are untidy and covered with masses of mud and stones, and every here and there is a fine tree, either in some one's yard or just outside in the street, lying prostrate. It will take several days to clear up the debris.

Street Commissioner Gavett was down-town in his office very late last night receiving reports from his men and from the police, and sending his men out to clear away the limbs when possible, and in the other cases to put lanterns out to warn pedestrians and drivers. The street commissioner had two gangs of men at work all through the early evening. One gang stayed out until 1 o'clock, and the other until 2 o'clock. Even then they had not begun to clear the streets satisfactorily, and will need two or three days work on them before they will be in as good condition as they were before.

The street lights in all directions were out last night, and many of the streets were in darkness. Wires were down in a few cases, but the linemen were put to work as soon as the storm was over, to replace the wires, make the connections perfect, and by midnight most of the circuits were complete again, and the lights burning once more. The fire alarm wires were not broken, but all last evening and a part of this morning tests were given the apparatus so as to be sure that the wires were all right.

A large tree was blown down on the corner of Watchung avenue and East Sixth street, and blocks the road. Another one fell between Sycamore street and Park avenue on East Sixth street.

A piece of hard luck befell the Plainfield Ice and Cold Storage Company. Their large ice house at Washingtonville, which was in the course of erection, was blown down and is a total wreck. The loss is estimated at $1,500. The building was 75x150 feet and the roof had not yet been put on. When the wind struck the house part of it was carried out into the roadway, narrowly missing Mrs. DeHass, who was driving past. Part of the building was left standing, but that part is so twisted and blown out of shape that everything will have to be taken down and rebuilt again.

On Craig place, near the Thorn building a large tree was uprooted and blown over, and on Elmwood place, in front of Mr. VanMiddlesworth's home, another large tree was blown over and nothing but the trunk was left standing. At the corner of East Front street and Watchung avenue a tree was blown over on J. Fred MacDonald's home. Other trees were uprooted on Liberty street and West Front street, doing more or less damage. On Liberty street a mattress was carried out of a room and traveled for a considerable distance.

Another result of the storm was the wrecking of J. F. McIntyre's windmill on North avenue. This hugh piece of machinery was tossed about like a piece of kindling wood and totally wrecked. Across the avenue the wind completely demolished a large brick chimney on the North Avenue railroad station, but fortunately no one was injured.

A large sign was torn from in front of F. W. Dunn's grocery store on North avenue and carried into the street. Other signs about town also suffered considerably from the storm.

Under the Park avenue railroad bridge the water was high, as usual, and traveling was impeded. In many other parts of the city high water stopped travel for a time.

During the heavy blow panes of glass were broken in the trolley cars, passengers became frightened and screamed, while there was little chance of escape from a severe drenching from the rain.

Both the city and borough fire alarms were blown, but this was due to a break in the wires.

Another result on North avenue was the carrying of a large American flag from Dan Robert's livery stable by the wind through North avenue to the railroad station.

William Sebring, of LaGrande avenue, has just spent about $100 on his lawn this spring, grading it, seeding it and setting out shade trees. Yesterday afternoon the wind blew over one of four fine young trees which Mr. Sebring had set out in front of his place, destroying the beauty of his lawn. Mr. Sebring will have the tree replaced.

One of the delivery horses of Neuman Brothers stepped on a live electric wire lying in the roadway at the corner of Madison avenue and Sixth street shortly after the storm and was knocked down. The injuries were not serious, however.

A young woman, a relative of DeWitt Frazee, of South avenue, and employed in the clothing factory on West Front street, became frightened during the storm and was taken with convulsions. She was taken care of by her friends and after the storm removed to her home in the ambulance, where she is doing well. Dr. Pittis was called and is in attendance.

A French woman, living in the West End, was seized with fright while walking along Clinton avenue near Green brook, during the storm and she was taken into the house of A. J. Brunson. It was thought that the woman was struck by lightning, but an examination did not disclose such a fact. The woman suffered greatly from convulsions. She was later taken to the hospital in the ambulance and seems to be doing well. No serious results are appre-

WENT CRAZY FROM HEAT.

RACED ALONG RAILROAD TRACKS ALMOST NUDE.

Train was Coming and He Refused to Stir from His Position—A Heroic Signal Stopped the Train in Time.

(Special to The Daily Press.)

Stelton, September 8.—Walter Dennis, colored, nineteen years old, who lived here, died yesterday after having gone stark mad from the effects of the excessive heat the last few days. He was prostrated last Saturday afternoon while working in a field. Tuesday afternoon his mind became unbalanced and while his mother, who was alone in the house with him, was absent from his bedroom, he got out of bed. On her return his mother tried to persuade him to return to the bed, but he tried to get down the stairs leading to the first floor.

Mrs. Dennis rushed down stairs to lock the outside doors, and then the crazy boy jumped out of the second story window. He ran across the yard to the tracks of the Pennsylvania railroad with only his shirt on. His mother ran after him and caught him. Both mother and son fell on the tracks, the latter holding his mother in a tight grasp and refusing to stir from the spot, though a train could be heard coming towards them a short distance away.

Mrs. John Long, a neighbor, saw the predicament Mrs. Dennis was in and she hurried to her aid. Before she could get to the struggling couple Mrs. Dennis had unbuttoned her waist with great presence of mind and slipped out of it, leaving the enraged son holding it tight in his hands. He refused to stir from the position on the tracks, though the train was rapidly nearing.

Taking in the situation at a glance, Mrs. Long hastily divested herself of a red petticoat which she wore and waved it frantically over her head. The engineer saw the signal and stopped the train a short distance away. After several minutes of persuasion the demented boy was induced to leave the tracks. He collapsed a minute after and became unconscious. He was carried home and died yesterday afternoon.

KEAN'S COUNTY TROLLEY PLAN.

Public Meeting Called to Give Objectors a Chance to Be Heard.

(Special to The Daily Press.)

Elizabeth, September 8.—The Elizabeth City Street Railroad Company Tuesday night petitioned the City Council for a franchise to change the motive power of the East Jersey street line from horse power to the overhead trolley system. The petition was referred to the street committee. A communication was received from residents along the line asking the Council to force the company to pave the route of two miles with asphalt from curb to curb.

A public meeting will be called for the evening of September 27th, when all objections to the granting of the franchise will be heard.

The line will connect or be continuous with the trolley line from Elizabeth to Plainfield, the franchise for which was sold by the Union County Board of Freeholders to John Kean for $250,000.

Want the Street Macadamized.

Jeremiah VanWinkle, of West Fourth street, is obtaining signatures to a petition to have West Fourth street, from New to Liberty streets, macadamized. The property holders have agreed to pay for the work themselves, and all except three have affixed their names to the petition. The petition will be presented to the street committee at their meeting tonight.

Manhattan Hotel Sold.

Former Marshal William N. Pangborn, of the borough, has sold the Manhattan Hotel property on Somerset street for the owner, Mrs. Hannah Linke, to John H. Gracely, who now conducts the hotel at that place. The price paid was $7,000.

Appointment Not Made.

Contrary to expectation the appointment of a person to fill the vacancy on the City Board of Health was not made at the meeting of the City Council Tuesday evening. This is the vacancy caused by the resignation of A. J. Gavett.

Mr. Howatt Has a Fall.

William Howatt, of West Second street, stumbled last night in the dark and fell. Mr. Howatt is old and quite feeble and feels the effects of his fall very much.

Former Mayor B. A. Hégeman, Jr., and family, of Washington Park, returned last evening from Camp Wolfboro, N. H., and they were welcomed by a host of friends. During Mr. Hegeman's absence he and his son made a great record with fish and line.

LOST, STRAYED OR STOLEN—A LICENSE.

Mike Watson Thinks the City Officials Deceived Him

ODD MUNICIPAL PROBLEM.

HE WILL ASK TO HAVE HIS BOND CANCELLED BY THE CITY.

Watson Closed Up His Grant Avenue Place and Agreed to Keep it Orderly With the Understanding That He Was to be Granted a License—License Failed to Materialize.

The familiar and well known Michael Watson, who has figured so many times in the City Court as a violator of the ordinance regulating the sale of liquor, is just now figuring with the city officials in a little different role.

It seems that Watson was promised a liquor license if he would close up his place on Grant avenue and would not dispense liquors until he received his license. For the faithful performance of all the agreements he gave a bond to the city. It was understood, however, that he was to receive a license from the Council, but there now seems to be a hitch somewhere. The matter for sometime has been in the hands of the city officials, but nothing has been done. Watson fully expected that he would receive his license last Tuesday evening, but no action was taken in the matter.

Watson is now beginning to get tired of his bargain, and his bondsman has a desire of being released from the bond which Watson furnished.

It is said that Watson promised not to sell any liquors in the Grant avenue place, but he has since established a place near what is known as "Guinee Egg," and is conducting it himself. This place is located near the city limits in the vicinity of Clinton avenue.

It was through friends that he was persuaded to close up his Grant avenue place and give a bond not to sell liquor, and they assured him that he would receive a license in due time. Their idea in getting him to act thusly was so that they could show to the Council that he was a man of his word and would respect the city ordinances. The result seems to be far from satisfactory and the outcome will be watched with considerable interest by those who know of the circumstances. It is known, however, that there are certain Councilmen who will not vote to give Watson a license, simply because he stands as a violator of the law, and some even contend that the Council cannot grant him a license on that account.

TO CRUISE OFF BARNEGAT.

The Party on the Yacht Teal Receives a New Recruit.

The cruise of the yacht Teal this summer has been a very eventful one. The party of young men from this city who are aboard the yacht have enjoyed all the delights that Barnegat Bay and Little Egg Harbor afford. Monday, James A. Stafford, of Grandview avenue, and Henry Baldwin Drake, of Duer street, returned from the cruise. Stafford had been there two weeks and Drake a week. Walter B. Rittenhouse, of East Sixth street, and Geo. A. Horne, of Willow avenue, are still there. Yesterday Charles Burdette Morse, of Franklin Place, a member of the repertorial staff of The Daily Press, left for Beach Haven, where he will join the party on board the Teal. He will return with them to Bay Head next week, when the cruise will come to an end.

Question About Heating and Ventilating.

The foundation for the new borough public school is now laid, but there is a temporary delay in the work owing to the fact that the Board of Education has not yet decided about the heating and ventilation of the building. Members of the Board have been visiting other schools and have been getting pointers on heating and ventilation. The plans call for steam heat, but there seems to be a difference of opinion as to whether that system is advisable.

Street Improvements to be Considered.

At the special meeting, which will be held probably Thursday evening, September 22d, several matters of importance will be considered if they can be arranged in time. One of the principal matters is the macadamizing of streets.

Underground Electric Wires.

The Plainfield Electric Light Company have made arrangements to have their wires placed underground, according to an ordinance adopted by the City Council, and work will be started very soon.

GEN. MILES ARRIVES

Commander of the Army Retracts Nothing.

HE MAKES A STATEMENT

When Shafter Cabled that He Thought of Falling Back Miles Decided to Go to His Assistance. A Carefully Prepared Statement Accounting for Every Move He Made.

New York, Sept. 8.—Major General Nelson A. Miles does not deny the main portion of the Kansas City Star interview, in which he criticised Secretary of War Alger. He came into port yesterday on the transport Obdam with his staff and 800 men of the Second Wisconsin.

The Obdam after a short stay at anchor in the upper bay off Liberty island, went to the Erie docks at Weehawken, where the troops were embarked in cars and started home. There was no sickness during the trip from Ponce.

General Miles, with his staff, Lieutenant Colonel Leggett, Lieutenant Hull, Mrs. Miles, Miss Miles and Miss Keeler, the latter a nurse, left the Obdam at 12.30 and crossed the river to the foot of west twenty-fourth street on the army boat General Meigs. The party were immediately driven to the Waldorf.

On the way over the river on the Meigs General Miles was asked if he cared to say anything relative to his criticisms of Secretary Alger, and particularly the interview printed in the Kansas City Star. His eyes flashed a second or so, clearly indicating that he has come back here determined to stand by his guns, but what his look failed to betray his reply conveyed.

"That article was, in the main, correct," he said. "A few things were added, but I cannot say that they materially affected the condition of affairs. I do not wish in the slightest to withdraw anything I said then or since. I was not angry when I made the statement. I am not angry now. What I said then I believe now. But that is enough on that subject for the time.

"I am going to Washington to-morrow morning, to report the condition of the army in Porto Rico. There are about five thousand men here, or on their way here, and twelve thousand troops on the island. The Chester and the Obdam will be followed by the Concho, Alamo, Mississippi and Wichita. I was very much impressed with Porto Rico. It is a great, rich country, and there is very little sickness there."

GEN. MILES.

General Miles handed to the newspaper reporters the statement printed below, which was prepared by himself. It will be noticed that throughout the statement he speaks of himself in the third person. This is the statement:

"While at Porto Rico and during the voyage returning on the Obdam I learned the following facts concerning the Cuban and Porto Rican expeditions: In the first place, let me say that the war has closed after being conducted largely as General Miles stated publicly at the beginning of the war that it could be. The statement was publicly made, and a general order was issued by him, as commander of the American army, in which the plan that he has striven to pursue was foreshadowed, namely, seeking to accomplish results with the least possible loss of life. In an interview in the latter part of May he said:

"'The United States government is too strong, too great and too powerful to commit any foolish act in connection with the proposed invasion of Cuba.'

No Needless Sacrifice.

"Referring to the proposed rush to the fever stricken city of Havana, he said:

"'No officer is fit to command troops who, from any motive whatever, would needlessly risk the life of a single soldier, either from disease or the bullets of the enemy. I have never sacrificed the lives of men under my command, and do not propose to subject them to any unnecessary risks in the present campaign.'

"In the order issued to the army at an early date he directed that:

"'Every officer, of whatever grade, will, so far as may be in his power, guard and preserve the health and welfare of those under his charge. He must labor diligently and zealously to perfect himself and his subordinates in military drill, instruction and discipline, and above all he must constantly endeavor by precept and example to maintain the highest character, to foster and stimulate that true soldierly spirit and patriotic devotion to duty which must characterize an effective army.'

"The principles thus enunciated have been zealously observed from the first. Owing to the fact that the season suited for campaigning in Cuba had been exhausted in debates and delay in Congress and in necessary preparations, General Miles was opposed to rushing an ill prepared, undisciplined and unequipped army in a movement against the capital of Cuba, defended by 100,000 trained Spanish troops, and in this position he stood practically alone for several weeks. Havana, Matanzas, Santiago and a few other points were down on his military map as hotbeds of disease, destructive to an army, and places to be avoided, especially during the sickly season. When finally called upon to submit a plan of attack he did so and put it in writing.

"On the third day of July General Shafter telegraphed that his losses had been greatly under estimated; that he met with stronger resistance than he anticipated, and that he was seriously considering the advisability of falling back to a position five miles to the rear, and that he had been unable to be up during the heat for four days. Under such circumstances General Miles telegraphed General Shafter that he would be with him within a week with strong reinforcements, of course taking the troops prepared for the second expedition, which had been ordered by the president to operate against the enemy in Cuba as well as in Porto Rico. These reinforcements were pushed rapidly forward, and some of them arrived in advance of the commanding general and were put in position in the trenches around Santiago.

Went With Full Powers.

"Under verbal instructions of the president, General Miles was directed to go wherever he deemed his presence was required, and that he should give such directions as in his opinion were best for the army and for the government. These were the circumstances under which General Miles left Washington, arriving at Santiago July 11, not as a private individual, nor as a visitor. Any pretence that he went there disrobed of his authority or official capacity is too childish to be considered by sensible men. From the moment he arrived at Santiago he was responsible for what might occur. He arrived there with the Yale, Columbia and Rita, loaded with infantry, and three ships loaded with artillery, besides those already disembarked.

"He designed to disembark the troops and artillery named on the west side of Santiago, as was understood before leaving Washington, and before he went ashore he made the necessary arrangements accordingly. He then proceeded to the front and after consulting with General Shafter, a note was sent to the Spanish commander by General Shafter saying that the commanding general of the United States army had arrived in his camp with strong reinforcements and would meet him between the lines at any hour agreeable to him.

"The reply of the Spanish commander was that he would meet him at 12 o'clock the next morning.

On returning from this conference a dispatch was received by Gen. Miles from Washington, as follows:

Washington, July 13, 1898.

Major General Miles:

You may accept surrender by granting parole to officers and men, the officers retaining their side arms, and officers and men after parole, to be permitted to return to Spain, the United States assisting. If not accepted, then assault, unless in your judgment an assault would fail. Consult with Sampson and pursue such course as to the assault as you jointly agree upon. Matter should be settled promptly.

R. A. ALGER,
Secretary of War.

Left the Honors to Shafter.

"This does not look as if Gen. Miles was there as a visitor. He was charged with the responsibility of ordering an assault upon the entrenchments and fortifications of an army, which, if successful, would have cost at least five thousand lives; or of withholding the assault if in his judgment such assault would fail. No greater discretion was ever given to any general commanding an army, and what is more, as will be observed, he was authorized to accept the surrender, which in the interest of his subordinates he generously declined to do, and went away, leaving all the honor to his next in rank, General Shafter.

"At the meeting on the following day General Toral stated that he was prepared to surrender with the approval of the captain general of Cuba, but it would require a little time to have his acts confirmed by the home government.

"The place of landing the Porto Rican expedition had been so thoroughly advertised in communications sent over the French cable, and in the newspapers of our own country and telegraphed to Madrid, and from there to San Juan, that not having received the necessary appliances with which to disembark, he decided after leaving the Windward Passage to change his course and land on the south side of Porto Rico, where tthe Spaniards were the least prepared and the least expecting to receive him, and where he knew that the disembarkation of troops and supplies could be most easily effected. From the time of that disembarkation, during the following sixteen days of campaign, he kept the Spaniards guessing what the next move would be.

When they withdrew along the line of the great military road between Ponce and San Juan, they destroyed the bridges, obstructed the roads and fortified strong positions in the mountain passage, and then were surprised to find that one column of his army was sweeping around the west end of the island, capturing the principal cities and towns, while another had passed over the mountains on a trail which the Spaniards had supposed impassable, and therefore had not fortified or guarded it, and the first they knew of the march of the American army was the appearance of a strong brigade within 20 miles of the northern coast at the terminus of the railroad connecting San Juan with Arecibo.

"The island of Porto Rico was fairly won by the right of conquest, and became a part of the United States. The sentiment of the people was in no sense outraged by the invaders, but on the contrary was successfully propitiated. A people who have endured the severity of Spanish rule for four centuries hail with joy the protection of the great republic."

Chamberlain Here.

New York, Sept. 8.—The Hon. Joseph Chamberlain, colonial secretary of Great Britain, who arrived yesterday on the Majestic, said with reference to the European situation:

"There is an alliance between England and Germany, but not one which is at all detrimental to America.

"I know that 999 Englishmen out of 1,000 wish an alliance between England and the United States. I think that the czar is sincere in his peace proposals."

Mr. Chamberlain went to Boston last evening and from there will go west.

POLAVIEJA'S REBELLION.

He Issues a Manifesto Calling for the Decentralization of the Government.

Madrid, Sept. 8.—General Polavieja, the former captain general of the Philippines, has issued a manifesto, in which he says that while he was never a politician, he "cannot any longer hearken to the sorrows of my country without protesting."

Continuing, the general asserts that he has received numerous calls to place himself at the head of a neutral party, and he adds, "the parties which have hitherto governed Spain are rotten and the principal cause of the country's troubles."

Therefore, according to Gen. Polavieja, political reorganization is absolutely necessary, "as is also the truth concerning our finances, so that the state's creditors may know the measures Spain has proposed in order to meet her engagements."

In conclusion, General Polavieja advocates "the decentralization of the government, without, however, impairing national unity."

General Corroa, the minister for war, has prohibited the publication of General Polavieja's manifesto.

10,800 DERVISHES KILLED

Report that Only 250 Escaped Out of 11,000.

London, Sept. 8.—The war office has received the following dispatch from General Sir Herbert Kitchener, the commander of the Anglo-Egyptian expedition in the Soudan:

"The Khalifa is moving with the speed of the wind. Some of his wives were dropped on the road in his retreat. One hundred camels that had been arranged to assist him in his flight have been captured.

"Our officers have counted 10,800 dead Dervishes. The wounded are estimated at 16,000. We have between 3,000 and 4,000 prisoners.

"A gunboat has been dispatched up the Blue Nile to tranquilize the districts along that river. The Dervishes are reported to be looting. Numbers of people are coming in from the surrounding country. Five hundred Arabs, with camels, are chasing the Khalifa."

KITCHENER'S NARROW ESCAPE

Was Standing Near Khalifa's House When It Was Being Bombarded.

London, Sept. 8.—The war correspondent of the Daily Telegraph at Omdurman says:

"After the entry of the troops into the Dervish capital it was found necessary to further bombard the Khalifa's house. General Kitchener and his staff were standing in the vicinity and narrowly escaped being killed by the shells.

"I estimate the enemy's killed at more than 15,000."

A special dispatch from Omdurma says:

"The finest display of heroism on the Dervish side was made by the Khalifa's brother, Yantub, with his adherents, who, utterly regardless of our terrible fire, made a superb attempt to retrieve the day's fortunes. Though far from asking quarter, they simply hugged death. Yantub died in the presence of his old enemy, Slatin Pasha."

President Plans to Travel.

Washington, Sept. 8.—A delegation from Chicago, consisting of President Harper of the Chicago University, Judge John Barton Payne, J. F. Wallace and J. W. Ela, called at the White House yesterday. Their mission was to invite the president to the peace jubilee to be held in that city on October 18 and 19.

Mr. McKinley accepted the invitation and will stop there on his way back from the Omaha exposition, which he will visit on October 10th, 11th and 12th.

The Japanese Minister to Retire.

Washington, Sept. 8.—The Japanese minister, Mr. Toru Hoshi, has been elected to the Japanese parliament and as a result will retire from the post at Washington, the present indications being that his successor will be Mr. Hatoyama, a leading member of Count Okuma's party, a prominent lawyer of Tokio, and a man well versed in American affairs, being a graduate of Yale College.

A Rush for Government Land.

San Francisco, Sept. 8.—There is a great rush at the local land office to place filings upon about one million acres of land thrown open to settlement through the decision recently made in the overlapping land grant cases. The land extends from Passadena to Tehachapi Pass. Places in the line have been sold for large sums. The line has been forming since Saturday.

REJUVENATED AT 87.

An Alabama Woman's Gray Hair Turns Black and Wrinkles Disappear.

Limestone county, Alabama, has an interesting phenomenon. Mrs. Polly Emry, aged 87 years, a white woman of a highly respectable family, appears to have fallen heir to another maidenhood. For a quarter of a centurary she has been an old woman, with white hair and no teeth, and the weight of years was apparent in her wrinkled face and enfeebled movements. Twenty-seven years ago her oldest brother, who was a dentist, extracted every tooth from her mouth.

About a year ago her health commenced to materially improve. Her strength rapidly returned, her figure became more erect, her eyes brighter, her movements more elastic. Her hair also became perceptibly darker. Her gums commenced to swell and finally new teeth appeared. The change in a year is said to be astonishing. Her hair is now black. She has a new and substantial set of teeth as white and strong as a maiden's. Her vitality is greatly increased; her strength has returned and her appearance is said to suggest her age as forty instead of more than twice that number of years. She is a woman of refinement and of admirable qualities, and her apparent new lease on life is a subject of sincere congratulation among her neighbors. —Atlanta Constitution.

HAHNE & CO. NEWARK, N.J.

Seven Acres of Goods.

ALL THE NEW

Ideas, Fancies, Styles, and Conceits In Women's Dress Wear, Men's and Boys' Clothing. Furniture, Carpets, upholsteries and all other fall and winter supplies for the home, are here in greater variety and at lower prices than elsewhere.

FREE deliveries at all New Jersey railroad stations. No extra charge for packing.

Hahne & Co., Newark, N.J.

Shoes for Spring.

You'll be buying a new pair of shoes soon. Where are you going to buy them?

The shoe store you want to patronize is the store that gives you the most style, comfort, elegance and durability for the money.

If you'll "shop around" before you buy you'll find that this is the store you're looking for.

Flynn Bros.,
222 West Front St. Plainfield, N. J.

LET US ARM YOU!

It's quite necessary, because while Uncle Sam is settling scores with the Spaniards you're bound to have a little brush at home at the same time, and there's nothing like being ready for emergencies. Until you can sign a perpetual truce with sun, wind and storm, your house and other buildings will need to be fortified with paint, and ours are like a 20-inch chilled steel armor.

NOTICE
to all interested in
Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

SERIOUS POLITICAL RIOT

Fatal Row Between Factions in Colorado.

SILVER ADVOCATES FIGHT

Two Branches of the Silver Republicans Fight for Possession of a Meeting Place in Colorado Springs. One Man Killed and Another Wounded Place Guarded by Police.

Colorado Springs Sept. 8.—Chas. Harris of Denver is dead and another man whose name is unknown, is wounded as the result of a fight over possession of the Opera House here between two factions of silver Republicans for the use of the state convention of that party. Several days ago, when the Opera House was rented by State Chairman Broad, but on Sunday he learned that the Teller faction of the party had secured the house, and he made a hurried trip to this city from Denver to learn the facts and again secure the house. In this he failed and Tuesday night the building was guarded by men representing the Teller faction.

Senator Wolcott has taken an active interest in the matter, and is said to have sent men here from Denver to support the Broad faction, it being openly charged that Broad had formed a coalition with Wolcott with the purpose of turning the silver Republican party of the state over to Wolcott.

A riot occurred in the Opera House at four o'clock yesterday morning between twenty-two men, representing the Teller faction, on one side, and Sheriff Boynton, Chief of Police Gathright and about seventy-five men, representing the Wolcott-Stevens faction, on the other.

A man supposed to be Charles Harris of Denver, was killed, being shot through the abdomen, and an unknown man was seriously injured. The Opera House is in possession of the police and deputy sheriffs. No one is allowed near the doors.

At 1 o'clock the Wolcott-Stevens faction applied to Judge Lunt for a writ of mandamus compelling Chairman Blood, who was in possession of the Opera House, to turn the building over to Chairman Broad. The writ was refused.

"At 4.10 o'clock yesterday morning," said ex-Mayor Plumb, "we were inside the Opera House. There were twenty-two of us. Suddenly a fusilade of shots was fired through both front and side doors.

"Then, in a second, the doors were burst open, and in rushed seventy-five to a hundred men. There was constant firing in all parts of the hall, we replying as best we could. I saw one man fall, shot through the body. They carried him to the balcony and laid him down and he died a few minutes afterward. The man was a stranger here. Another man was injured. We were forced out of the building. Sheriff Boynton and Chief of Police Gathright were in the front ranks."

The police and sheriff's officers declare that the attack was made entirely by men brought by the Wolcott-Stevens faction from Denver. They say they only rushed in after the attack began. It is a peculiar fact, however, that they were all on hand. An attack was made on the building from front and back.

The sheriff says they discovered a whole arsenal in the building. The police took all the guns in charge.

MAKING DYNAMITE GUNS.

Scruples of a Firm Against Manufacturing War Material.

Scranton, Pa., Sept. 8.—The Dickson Manufacturing Company of this city has begun work on pneumatic dynamite guns for the Atlantic coast. These guns are fifty feet long and fifteen inches in diameter. There are not many shops in the country capable of handling the job without making extensive improvements and additions to their machinery.

One of the firms that could have done the work and which was invited by the government to bid for the contract, refused to have anything whatever to do with the job, having conscientious scruples against manufacturing war material. It is the Lukens Iron and Steel Company of Coatesville, Chester county. It is supposed that the company is controlled by Quakers.

The End of Camp Black.

Hempstead, Sept. 8.—The Two Hundred and First regiment has but one more day to remain at Hempstead, if the plans for their departure are not changed again. According to the latest arrangement the regiment will break camp on Friday and start for Camp Meade, Penn. The Two Hundred and Third is announced to follow on Sunday, and the Two Hundred and Second may go on Tuesday. The three batteries of light artillery are expecting marching orders, and then Camp Black will be a thing of the past.

Contracts for Navy Shells.

Washington, Sept. 8.—The contracts for navy shells have been awarded to the American Ordnance Company of Bridgeport, Conn., for one-pounder shell, and to C. M. Broderick of Hartford for six-pounder shell.

An Ohio concern will probably secure the contract for three-pounder shells, as soon as the navy department ascertains what are the facilities of the plant.

Spaniards Coming to New York.

Norfolk, Va., Sept. 8.—Arrangements have been perfected for the transporting of forty-four Spaniards from the naval hospital here to New York. They left on the Old Dominion liner Old Dominion last night, and are due in New York at five o'clock this afternoon. On Saturday they will sail for Spain on the City of Rome.

Gov. Mount Better.

Indianapolis, Sept. 8.—Governor Jas. A. Mount, who was seized on Tuesday with what is believed to have been a slight stroke of paralysis, is somewhat better. His physicians say that quiet and rest may cure him.

MASSACRE OF CHRISTIANS

British Officers Count the Slain, 16,000 Wounded and 3,000 Prisoners.

London, Sept. 8.—Dispatches received here from Athens represent that fierce fighting was renewed at Candia, Crete, yesterday, the Ottoman troops participating. The Mussulmans are in possession of the town and are beginning a general massacre of the Christians.

These statements cannot be confirmed and their accuracy is doubtful.

The Standard's correspondent, who is aboard the British warship Camperdown, at Candia, telegraphing this evening, makes no mention of the reports contained in the Athens dispatches, but he confirms the worst reports of Tuesday's outbreak. He says that the attack by the Mussulmans on a small detachment of British soldiers and sailors, was virtually a massacre. A thousand Mussulmans fired volleys into the British, killing seventeen and wounding forty and probably more. The remnant held their position near the custom house for five hours under a terrific fusillade from the neighboring windows and ramparts.

The British, Italian and French reinforcements are landing with difficulty owing to the roughness of the sea.

The Cretan Christians are assembling outside the cordon, threatening to rush the town and avenge their coreligionists.

The refugees on the Camperdown assert that there has been a great massacre of Christians, and that only 250 escaped out of more than 4,000.

The St. James Gazette says the report of the murder of the British vice consul at Candia, Crete, is confirmed by a telegram received by the government.

The telegram has not been made public, but the Gazette asserts that it confirms in the main the reports of the riots in Candia received last night. The British vice consul wasburned to death in the home of Sir A. Billotti, the British consul for Crete.

A dispatch received here from Canea, Crete, says that in the fire which was started by the riotous Mussulmans in Candia last night the British, German and American consulates were destroyed.

ONE HUNDRED THOUSAND MEN

The President Announces that No State Can Have All Its Troops Mustered Out.

Washington, Sept. 8.—The following statement has been issued from the war department:

"In response to the request of the governors of some of the states for the muster out of their entire volunteer force, the president replied in substance as follows:

"'Answering your telegraphic request for the muster out of your regiments, I have already directed that one hundred thousand of the volunteers shall be mustered ont of the service. This because in my judgment that number can be spared. About one hundred thousand will remain, as the government now requires in Cuba, Porto Rico and the Philippines, a larger army than the regular military establishment affords. The muster out, like the muster in, will be as nearly as possible according to the population of the several states. The suggestion to muster out all the volunteers from your state cannot, therefore, be entertained. The secretary of war has already inquired of the governors of the several states what regiments in their judgment can with the least inconvenience remain in the service. Their advices will, so far as consistent with the public interests, be complied with.'"

THE DREYFUS SCANDAL.

The French Cabinet Said to Have Determined Upon a Revision of His Case.

Paris, Sept. 8.—The Figaro yesterday said that the cabinet council just held unanimously agreed upon a revision of the Dreyfus case, and directed the minister of justice, M. Sarrien, to take the necessary steps to carry out this decision.

The Matin yesterday announced the discovery of facts implicating the officers of the general staff, adding that General Zurlinden, the new minister for war, reported the matter to the council and urged the necessity of reforming the intelligence department of the war office, whereupon he was directed to elaborate a project separating the duties of the general staff from those of the intelligence department.

LI HUNG CHANG DEPOSED.

Great Chinaman Dismissed at England's Demand.

Pekin, Sept. 8.—Li Hung Chang has been dismissed from power. It is presumed this was done in accordance with the demand which, it was rumored, the British minister here, Sir Claude Macdonald, was instructed to make on account of the alleged general partiality of the great Chinaman to Russia, culminating in Great Britain being deprived of a railroad contract by giving the Russo-Chinese Bank financial control of the road.

Schley Calls on Macias.

San Juan, Porto Rico, Sept. 8.—Admiral Schley and General Gordon came ashore from the cruiser New Orleans, the admiral's flagship, at one o'clock yesterday afternoon and walked together from the wharf to the Hotel Inglaterra.

They were accompanied by their respective staffs and followed by a great crowd. They remained at the hotel, awaiting the arrival of Gen. Brooke, who came by train from Rio Piedras, and arriving shortly before four o'clock.

Admiral Cervera in Washington.

Washington, Sept. 8.—Admiral Cervera, his son, Lieutenant Angelo Cervera, and Lieutenant Gomez Imaz, arrived here yesterday from Norfolk and called at the navy department. In the absence of Secretary Long, the admiral and his two companions paid their respects to Assistant Secretary Allen, and to him expressed thanks and gratitude for the kindly treatment accorded them while prisoners of the United States. The party remained but a few moments.

Miss Leiter to Name the Illinois.

Chicago, Sept. 8.—Governor Tanner has selected Miss Daisy Leiter, daughter of Levi Z. Leiter of this city, to name the battleship Illinois, which will be launched at Newport News during the latter part of this month.

A TRANSPORT FLEET

New Branch of Army Service to Be Established.

THE FINEST IN THE WORLD

Fourteen of the Recently Acquired Troopships Will Be Retained in the Service of the War Department and Will Be Thoroughly Fitted up. Board to Supervise the Matter.

Washington, Sept. 8.—A result of the war will be the establishment of a permanent fleet of army transport vessels on Atlantic and Pacific. To this end and for the purpose of administering the affairs of this new branch of the military service, a transportation bureau of the quartermaster's department will be established.

Colonel Frank Hecker of the quartermaster's department has been designated to act as chief of the new bureau for the present.

Twenty-five of the ships chartered by the war department for transport purposes have been returned to their owners, and others will be given up as soon as they can be spared. Fourteen of the best ships purchased outright by the war department immediately prior to or in the course of the war, will be permanently retained in the service of the government. These ships will be thoroughly overhauled and remodelled, making them the finest troopships in the world.

Conditions on board ship which necessitated discomfort or suffering on the army transports during the war will be eliminated. Bath rooms and special cook galleys will be provided and berths in well ventilated apartments will be constructed.

A board of officers consisting of a quartermaster, a commissary, a medical officer and a representative of the infantry, cavalry and artillery arms will be appointed to consider the whole matter.

Means will be devised for avoiding in future the friction and disagreements which have existed between the quartermasters and the mates in loading ships and between the commissaries and the stewards in the subsistence supplies.

The need of a permanent fleet of troopships has long been evident to the military officers of the government. Many naval officers believe that the navy should have charge of the transporting of the troops by water, but the government's plan now is to keep the whole matter within the charge of the army administration.

As the government owns very few transports on the Pacific, it is probable that some of the ships on this coast will be sent around to San Francisco as soon as the whole fleet shall have been put in good condition

WORK ON SPANISH WAR SHIPS.

Expectation that the Colon and the Teresa Will Be Floated.

Norfolk, Va., Sept. 8.—Notwithstanding the report that Lieutenant Hobson had been ordered to abandon the attempt to save the Spanish cruiser Cristobal Colon, ashore at Santiago, the work is still going on, with the prospects good for saving three ships. Captain Henry Seymour of the Merritt Wrecking Company's office here this morning received a letter from Captain Charles Nelson, in charge of the divers, dated August 13, which said that they had placed pontoons under the Colon, and with favorable weather they would float her, as well as the Teresa, and lays broadside on the beach.

CaptainNelson says the Oquendo and Viscaya are total wrecks, and the Merrimac, sunk by Hobson, would have to be blown up.

Labor Measures in Germany.

Berlin, Sept. 8.—Emperor William of Germany, it is announced in a dispatch from Oeynhausen, speaking at a banquet there Tuesday evening, and referring to the prosperous agriculture and industry of Westphalia, touched significantly upon the labor bill to be submitted to the reichstag during the present year. He said it would provide for the imprisonment at hard labor of anyone seeking to prevent workmen who were willing to work from pursuing their vocation, and would also provide for the punishment of those who even incited them to strike. He also expressed the hope that the representatives of the people would support his efforts to protect national labor.

The Steamer Oceanic Disabled.

Halifax, N. S., Sept. 8.—The steamer British queen arrived yesterday with the Oceanic in tow. The former is from Liverpool bound for New York. The Oceanic is from Sunderland in ballast for Hampton Roads.

The Oceanic was picked up by the British Queen 350 miles from Halifax, with her high pressure cylinder defective. The bottom was broken out of the cylinder rod and the piston was broken and the cross head of the connecting rod gone. The accident happened last Saturday morning when two weeks out from Sunderland.

83 Die on a Transport.

Santander, Spain, Sept. 8.—The Spanish transport Satrustoqui has arrived here from Santiago de Cuba. There were eighty-three deaths on board of her during the voyage.

General Linares, the former commander of the Spanish forces at Santiago de Cuba, who, on account of a severe wound, was succeeded by General Toral, was a passenger on board the Satrustoqui. He is recovering.

Gen. Wheeler's Son Drowned.

Camp Wikoff, Sept. 8.—Thomas H. Wheeler, son of General Joseph Wheeler, and Second Lieutenant Newton D. Kirkpatrick, First cavalry, were drowned while bathing here yesterday afternoon. Young Wheeler was a naval cadet in his second year. He was 17 years of age, was a fine young fellow and had made a host of friends.

Sept. 8, 2 a. m.—The bodies of the two drowned men were found at 1.30 o'clock this morning. They had been washed upon the beach near where the accident happened.

COMING EVENTS.

September 11—Rev. Chas. Mohammed, a convert from Mohammedanism, from Tangier, Morocco, North Africa, will tell of the manners and customs of his people at the Y. M. C. A., at 4:15 p. m. Lemonade and fans.

Business Weather.

After sweltering in such heat as has prevailed during the last ten days, when all life lolled and wilted under a broiling hot sun and in a humid atmosphere, the present temperature comes as the most pleasant weather change of the present year.

The days of crisp, cool weather are rapidly approaching and it will not be long before light overcoats and wraps will be the vogue with the people who for sometime past have been studying the art of dressing in the coolest fabrics consistent with exacting tastes of modern society.

Business will then, in the parlance of the commercial world, commence to pick up. It cannot come too quick. One of the surest ways to help it along is advertising. And The Daily Press is the paper that offers good investment in that direction.

Our Serial.

"A California Girl" is the title of the latest serial story which The Daily Press offers to its readers. The first chapters of the story were printed yesterday. "A California Girl" has a fascinating sound about it, and the story itself will be found just as intensely interesting as the title is fascinating. It is the story of a smart young girl who is full of vim and ambition and whose episodes in life are thrilling and interesting at every point. The story fits in very nicely with the reputation of The Daily Press for being an up-to-date paper in all departments.

Difficulties of Sanitation.

Sir Grainger Stewart, in his recent speech at Edinburgh before the British Medical association, of which he is the president of the year, made some suggestive remarks about the obstacles inherent in the modern democratic tendencies of society which prevent effective public sanitation. He cited the opposition of the lower classes to submit to vaccination and the sporadic outbreaks of smallpox in the most unexpected places. Yet in Germany, specially in the army, the disease had been almost totally stamped out. So, too, the working people throughout England could be forced only with the most extreme vigilance to destroy bedding, clothing, etc., in cases of typhoid and typhus fevers, diphtheria and certain other infectious or contagious diseases. He attributed it to the unwillingness of ignorant people full of the instinct of individual freedom to be driven to measures of which they did not fully appreciate the value—in a word, to be compelled to their own good. That had always been one crying feature which opposed the efficiency of health board work.

Such swinish resistance to public sanitation is not infrequent of course in the larger American cities which have a population of miscellaneous origin. Our immigrants from southern and eastern Europe are notable examples of this stupid attitude toward the laws of health as enforced for municipal safety. But there is this to be said for the health boards of most American cities, they administer the laws relating to such nations as well as make them with a very remarkable degree of energy and wisdom. Many of our cities are certainly not shining models of municipal purity, but it is a recognized fact that the health departments of such communities are always vastly above the level of the other city bureaus. Perhaps the very knowledge of the serious obstacles in the path inspires them to that zeal and vigilance which enable them to overcome. This characteristic of American sanitary methods induces one to believe that when they are applied to the problems of yellow fever involved in the Spanish habits of such pest centers as Havana and Santiago they will achieve a miracle in a very short time.

NICHOLAS II, CZAR OF ALL THE RUSSIAS.

The Czar is the most prominent sovereign in Europe at the present time because of his recent extraordinary proposal that the great powers of the earth should make peace certain by a general disarmament.

Bird Murder and Women's Hats.

In spite of the crusade that humane and sensible persons have been waging for years against what has sometimes been dubbed "murderous millinery," the ceaseless destruction of birds of all distinction goes on unchecked. The gradual diminution of song birds and others of great service to the farmer has been widely recognized. Massachusetts indeed has passed a law punishing the shooting or trapping of other than game birds with a heavy fine. But, in spite of all attempts to lessen the murderous tribute exacted by fashion and feminine vanity, the war against the feathered tribes proceeds more remorselessly than ever before. This is true abroad as well as in America. Not long ago a London auction room sold a single consignment of nearly 500,000 birds, which had been gathered from different parts of the world. A late fashionable item in a Paris paper announces that "birds are worn more than ever and blouses made entirely of feathers are coming into fashion." Wings no longer suffice, but women carry on their pretty but cruel and thoughtless heads whole charnel houses of beaks and claws and bones and feathers and glass eyes. Fashion never yet demanded a more wicked and absurd sacrifice on its altar, always smoking for fresh prey. All the considerations involved in the question—its wastefulness in the economy of nature, the evil and cruelty involved, the injury done indirectly to the interest of the farmer, the blow struck at the esthetic enjoyment of country life—have been frequently presented, and yet feather brains will insist on wearing feathered hats.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

It is to be hoped that the Brunswick Traction Company and the Plainfield Street Railway Company will adjust their differences relative to the Dunellen line, and hasten the happy day when the New Brunswick line will be running through Bound Brook, on to Dunellen and right into Plainfield.—*New Brunswick Times.*

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

Acting-Governor Voorhees and Senator William D. Daly were in Jersey City yesterday. They visited the sick soldiers, and the Acting-Governor and the Senator cheered them with words of comfort.

The man who hopes to be the Republican nominee for Governor and the one who aspires to the same nomination from the Democrats then linked arms and crossed over in the same ferryboat to New York.

Senator Daly, when accosted by a reporter, had the appearance of a man who has just been told something which pleased him greatly.

"Any politics in it, Senator?"

"No, sir. The Acting-Governor and I are the best of friends. He hopes to get the nomination from his party, and I think I am pretty sure of it from mine. If both of us are so fortunate I will be pleased, and I think it will be a good fight, with myself returned as the winner."

* * * * *

A Non-Treating Club has just been formed in Chicago, the members of which pledge themselves not to treat anybody. "In a short time," says *The Chicago Tribune*, "chapters will exist in every large city from Maine to California. Five thousand buttons and cards were issued the first few days, ten thousand more buttons have been ordered and the demand at present is greater than the supply. The organizers and promoters of the club are some of the general and traveling passenger agents located at Chicago, the chief among them being Elliott T. Monett, general western passenger agent of the New York, Ontario and Western Railroad and president of the American Association of Traveling Passenger Agents." "The treating business," says Mr. Monett, "has got to stop. The men of our profession know every Tom, Dick and Harry from the Atlantic to the Pacific. We go into a place to get a drink. Before we can leave we have had half a dozen or more drinks that we either have had to take as a treat or pay for others. It has got to be such a nuisance that a remedy had to be found, and from the immense popularity of our scheme I believe we have struck the right thing."

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

Hoyt's "A Bunch of Keys" will be seen at Music Hall tonight. Ada Bothner, the star of the company, is one of the most popular soubrettes on the American stage, she can sing better than most women can dance, she is a better dancer than most women who can sing. She is an acknowledged actress and her great versatility is admitted by all the leading critics, she possesses that indescribable magnetism which makes the audience feel as if she was akin to them and they are proud of her. Manager Bothner has surrounded her with one of the strongest companies of singers and comedians ever seen in one company and she gives them a chance to show what they can do, and in "The Bunch of Keys" the audience get full value for their money, as it is the funniest, cleanest, brightest and best farce comedy on the road. The story is cleverly told, the climaxes sensational, and the dialogue is pointed and beautifully expressed.

* * * * *

"A High Born Lady" is the title of the farce in which the well-known comedy duo, Clifford and Huth, make their initial bow to the public at Music Hall Saturday night. A plot of absorbing interest with amusing complications, a strong, well balanced company of goodly members, entrancing music, creative comedians, and up-to-date specialties combine to make a performance of merit.

Among the company are many well-known favorites, namely: Fisher and Carroll, Sam J. Adams, Bijou Russell, the Royal Sextette, and a chorus of operatic vocalists, selected for their special fitness for the parts assigned them.

Herbert Hall Winslow, author of "A High Born Lady," is a most successful dramatist, and in this case has fairly outdone all previous efforts by producing a sparkling effervescent comedy full of bright lines and originality.

* * * * *

The second season of "At Piney Ridge" promises better than its first tour. This powerful and truthful play seems to have a firm hold on popular favor for its continued success is a sure verdict of positive merit. The coming engagement in this city at Stillman Music Hall will present David Higgins as Jack Rose, supported by a fine company.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, Sept. 8.—Surveyors have been busy during the past few days surveying Adam Dealman's curb line, and also some others. William Gallagher has all along claimed that his grade line was not right, and says that the grade as established by the railroad company is too high. It is thought that these differences will be adjusted without trouble.

Mr. and Mrs. W. H. Milliken have returned to New York after spending a few days with Mr. Milliken's mother, Mrs. Elias Milliken.

Mrs. Walter Hunt and children, have returened to their home in Philadelphia afrer spending a month with Mrs. Samuel Merrill.

Miss Minnie Hunt has returned from Somerville where she has been visiting her cousins, the Misses Sculley.

Master Roland Robin McElvare and Master George McElvare are quite expert in the use of their new Crescent wheels.

Mrs. Jennie Smalley, of Plainfield, spent yesterday with her grandparents, Mr. and Mrs. John Runyon.

The Misses Doty, of Greenbrook, have returned from Pluckamin where they have been spending the summer.

Miss Minnie VanMiddlesworth, who is ill on account of the heat, is no better.

Mrs. Edward Teal and Mrs. W. H. Hamilton spent yesterday in New York.

John Kennedy and family spent Monday with relatives at Annandale.

Miss Helen Foster, of Poughkeepsie, has been visiting Miss Emma Craig.

Mrs. C. M. Bowyer spent yesterday with friends in New York.

John Milliken is back from a visit with Trenton friends.

'PLAINS AND FANWOOD.

(Special Correspondence to The Daily Press.)

Scotch Plains, September 8—Mr. and Mrs. Virtue, who have been spending the summer at Mrs. Hosinger's, returned to their home in Newark Wednesday.

The heavy shower of yesterday afternoon did quite some damage to the shade trees along the sidewalks through town, breaking the tops off several. No damage has been reported to any buildings in the village.

There were no claims for damage done by dogs in the township presented at the Township Committee meeting Tuesday evening. This is something unusual for Scotch Plains.

The condition of Mrs. Nathan Marsh, who is very ill at her home, remains about the same and fears are entertained of her recovery.

Mr. and Mrs. Corey Johnson and daughter, Miss May, have returned from a month's stay with relatives in New York State.

James Johnston and Alexander MacCauley have been drawn as jurymen for the October term of court.

Scotch Plains was about in total darkness last evening, owing to a break in the electric light circuit.

Miss Lillian Gibbs has returned to her duties in Plainfield, after enjoying a ten days' vacation.

E. L. Hand attended the Waverly Fair Wednesday. Several from town are attending today.

Mose Terrell, of Plainfield, visited friends in town Wednesday evening.

Goodwill Lodge, No. 101, K. of P., meet in their rooms this evening.

Orman Noble is seriously ill at his home on Westfield avenue.

WESTFIELD.

(Special Correspondence of The Daily Press.)

Westfield, Sept. 8—A thunder storm which did a great deal of damage in this vicinity came yesterday afternoon. The heavy wind which accompanied the rain blew the large smokestack at Hargrave & Miller's factory down, and a part of the roof at the C. and O. works was blown off. A freight car which stood on a side track near the latter factory was started by the wind and blown on to the main track, but luckily was discovered and brought back before a train came by. The lightning struck the house occupied by Robt. Woodruff at the corner of North avenue and Elmer street, knocking the chimney off, but the building did not catch fire. A large number of fences and trees were blown down and flags were torn to threads. The electric light wires were down and the town was in darkness last night. The telephone and telegraph wires were also of no use, and for the first time in many years the town was by itself, with no outside communication.

A number of valuable carrier pigeons belonging to George Peek have been shot during the past few days, and Mr. Peek wishes to call the attention of the party to the fact that there is a fine of $50 for this offence.

Mrs. Dunder, of Branch Mills, was bitten by a mad dog while walking to her home from Springfield Monday. Mrs. Dunder, although not badly bitten, was frightened and is now confined to her home.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness, caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular; free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

Miss Phillips, of Madison avenue, is visiting in Baltimore.

M. M. Wiegand has moved from 510 Madison avenue to 21 Sandford avenue.

Miss Florence Dodge, of New York, is the guest of Plainfield relatives for a time.

Mrs. Harry M. Stockton, of Central avenue, is visiting friends in Philadelphia.

William Speer, of New York, was the guest of friends in Plainfield yesterday.

Walter L. Long and George Dufford will leave today for Whitehouse on a week's hunting trip.

A. H. Atterbury, of West Seventh street, has returned from a business trip to Philadelphia.

Philip, son of P. P. VanArsdale, of 301 East Front street, is quite ill with an attack of intermittent fever.

The condition of Mrs. Harry Hall, of Fourth street, is very critical, and a physician has been called in consultation.

Mr. and Mrs. J. W. Dobbins, Mr. and Mrs. Francis Dobbins, Mr. and Mrs. Charles W. Dobbins, of Newark, are guests today at the home of Mr. and Mrs M. C. Dobbins, of Elmwood place. In a short time they will leave for California, where they will remain for sometime with relatives.

Library Matters.

The regular meeting of the board of directors of the Plainfield Public Library was held last Tuesday evening, with Messrs. Tyler, Larrabee, Dumont, Tracy and Stillman present. The librarian's report for August was read and on motion ordered approved and filed. The bills incurred for the Babcock Scientific Library were ordered paid from the Babcock fund. The secretary was directed to extend to Mrs. David M. Demarest the thanks of the board for valuable gifts to the library of twenty-five volumes and to the art collection of a fine specimen of brain coral. The usual budget of bills was presented and were ordered paid from the general fund.

Somerset County Fair Next Week.

Don't forget that the only and original Somerset county fair will be held next week, Sept. 13th, 14th and 15th. New Jersey only supports one of the old-fashioned county fairs our fathers used to attend, and that is the one at Somerville. It has the same old fat ox, big rooster, mammoth pumpkin, bedquilt, composed of 'steen thousand pieces, and visitors are allowed to eat peanuts on the grounds. You get all these sights and privileges for the small sum of 25 cents.

Borough School Opens Tuesday Next.

The Borough Public School will reopen Tuesday, September 13th. The enrollment this year is greatly increased from that of last year.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way.

Miss Julia Belknap, of College place, is home on a vacation.

Mrs. A. D. Pope, of Lincoln place, is confined to her home by a slight illness.

Miss Helen Wagner, of West Fourth street, is entertaining a friend from Newark.

Assessor Elston French, of the borough, was in Somerville yesterday on business.

Miss Sadie Blimm, of Somerset street, is entertaining company from New York.

James Taylor and Homer Smith, of this city, have returned from a stay at Asbury Park.

S. F. Kimball and family, of Madison avenue, have returned from their summer outing.

Borough Councilman Burtis has about recovered from a severe affection of the eyes.

Mrs. Frank L. Swackhamer left this morning to join her husband at Kansas City, Mo.

F. C. Abbott and family, of Central avenue, are home after a summer spent in the north.

Percy Hand, of West Seventh street, has accepted a position with G. W. V. Moy, the druggist.

Clarence VanDeventer, of Fifth street, has returned from a trip through New York State.

Mrs. Charles A. Reed and family, of Washington Park, will return from Belmar about October 1st.

Rev. Milton A. Craft, of Trenton, is spending his vacation with H. J. Storrs, of Kensington avenue.

Mr. Harger and family have moved from Crescent avenue to J. W. Murray's house on West Seventh street.

The Misses Cuming, of Putnam avenue, have returned from Asbury Park, where they have been summering.

Dr. Frank S. Wells, of Sherman avenue, has returned from Belmar, where he has been spending the summer.

Lester R. Walton, of Craig place, has returned from Freeport, L. I., where he has been spending the summer.

Julius Savage and Miss Anna Savage, of Brooklyn, are spending their vacation with borough relatives and friends.

Rev. Dr. W. R. Richards and family, of East Front street, have returned from their outing in Massachusetts.

Mr. and Mrs. Caspar Waglow, of this city, who have been enjoying their vacation at Asbury Park, have returned home.

F. H. Martin, of West Front street, will go to Pompton Plains in a few days and hold services among the soldier boys there.

T. F. VanHorn and son, of 114 Grove street, left yesterday for Delaware Water Gap, where they will remain for a couple of weeks.

Frank Vosseller, of this city, who underwent an operation recently for a fistula, is improving nicely, and is now able to sit up every day.

William D. Murray, of West Ninth street, has been attending the meeting of the international committee of the Y. M. C. A. at Asbury Park.

Mrs. Carman and her daughter, Miss Amanda Carman, of Elmwood place, have returned from their summer outing at Avon-by-the-Sea.

Mr. and Mrs. L. W. Randolph, of Washington Park, will leave the city during this month to enjoy their annual vacation in the mountains.

John B. Mottley, of Richmond street, has gone to Monticello, Sullivan county, N. Y., for five or six weeks for the good of his health.

Miss Lizzie Dunlap and her sister, Mrs. Pangborn, of East Fifth street, left town yesterday for the country, where they will remain for a time.

Mrs. W. C. O'Donnell and her mother, Mrs. B. O. Bowers, of this city, who have been stopping at Asbury Park, have returned home.

C. L. Bloxham, of Armstrong's pharmacy, is away on a two weeks' vacation. He will visit Canada and other points north during his absence.

Edward Neilen and Miss Nora Thomson, of Jersey City, returned home Monday evening after spending Sunday and Monday with Mr. and Mrs. John Kelly, of New street.

Rev. Mr. Chambers, of West Front street, will preach at Warren chapel next Sunday morning and evening. The following Sunday the pastor, Rev. J. O. McKelvey, will be at home.

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Malaria, Chills and Fever. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating Tonics. Price, 50c. For sale by R. J. Shaw. 11 30 eod 1y

—Peaches, Bartlett pears, tomatoes, melons, corn, etc., full supply at Neuman Bros., the grocers.

—Rev. T. F. Chambers will teach the Berean Bible class at Warren chapel Sunday afternoon.

—The first fall meeting of the Ladies' Aid Society of Hope chapel is being held this afternoon.

—The sidewalk on West Front street, in front of Krietling's barber shop, is being reset to grade.

—A concert by Edison's graphaphone will be given in the First Church of Christ next Monday.

—Rev. Dr. D. J. Yerkes will occupy the pulpit of the First Baptist church next Sunday morning and evening.

—The Bard Cycle Company have been putting in new shelving on which to show some of their new goods.

—There will be a meeting of Plainfield Council, No. 711, on the evening of Monday, September 12th. A full attendance is desired.

—There will be a meeting of the Borough Board of Education next Monday evening, when matters pertaining to the new schoolhouse will be considered.

—During the absence of Recorder Long from the borough Mayor Wilson will try all cases, but as yet no one has appeared before His Honor, and perhaps they don't care to.

—Tomorrow the Golden Rod Excursion will go to Glen Island. Train leaves Plainfield at 8:05 a. m. Tickets for round trip $1.50; children $1.13. Everything has been done to make this the most enjoyable excursion of the season.

—Armstrong, the druggist, has secured a great bargain, which he proposes to divide with his customers and friends. A box of first-class toilet soap, sold everywhere for 25 cents, he is selling for 15 cents. It only needs to be seen and you buy it. The supply won't last long, so go early.

Central Railroad of N. J.

will run a

Low Rate One Day Excursion to

Lake Hopatcong

Saturday, Sept. 10, 1898.

For this occasion special excursion tickets from Plainfield will be sold, good to go on special train leaving at 9:08 a. m. Sept. 10th and to return on special train same day, leaving Lake Hopatcong at 5:30 p. m., or by any regular train Sept. 11th or 12th.

FARE FOR THE ROUND TRIP:

973 ADULTS, $1.00; CHILDREN, 75c.

50 inch Furniture covering..23c yard
Ladies fine lisle hose, 50c quality, 29c pair.

Edward White.

WHAT WOMEN LIKE TO WEAR.

An Evening Gown Proves Restful after a Tiresome Day of Shopping.

There is much to be said in favor of the evening gown, be it simple or elaborate, and in it many a woman has found the long sought fountain of eternal youth. The evening gown influences character; not only the character of her who wears it, but also that of mankind. Nothing else rests a woman, after a day spent in doing things either for the sake of duty or pleasure, like donning a dress entirely different from that which she doffs.

Is it small wonder, then, that the really smart woman forms the habit of wearing an evening gown 365 evenings in a year, whether she is going to an elaborate dinner, a magnificent reception or ball, or whether she intends to spend a quiet evening in her own quiet home?

Silk muslin, mousseline de sole, crepe de chine, and silk velling make very smart evening gowns, and are the materials used by those who seek grace and simplicity rather than magnificence.

As to color, yellow and pink continue to be much in favor, but white in thick and thin goods holds the supremacy for evening wear.

The newest evening gowns are made very long, long enough to have a decided demi-train in the back, though it is not rounded to a point after the fashion of the old demi-train. The skirt is also cut to hang on the floor from one to three inches on the sides and in front. Of course every skirt is flounced in one way or another, the attached flounce being the most popular style.

It is often said that woman can never strike a happy medium, that she is either at one extreme or the other. This certainly applies to her sleeves in the evening gown of the day. She either wears absolutely no sleeves at all or else makes them so long that they almost hide the tips of her fingers.

Taffeta silk has taken a new lease of the affections of femininity for evening wear, and certainly no other material combines prettiness, daintiness and durability more successfully. Many of the taffeta skirts are made without lining, but in this case are worn over a very elaboate silk petticoat fitted and made after the fashion of a dress skirt.

Crepe de chine is not a new material, but it lends itself to great variety, so far as drapery and embellishments go, and is as good for midwinter as midsummer wear.

"So you aren't going to war?"
"Nope."
"Why not?"
"I haven't any girl to leave behind me."—Syracuse Herald.

AMENITIES OF WAR.

THE UNITED STATES MAKES A RECORD FOR HUMANITY.

Diplomacy of the Highest Order Has Marked the Acts of This Government. As Soon as the Enemy Were Disarmed They Became Our Wards.

The New York Mail and Express justly says that the war with Spain is unique in the scrupulousness with which the United States has observed not only the rules but also what might be called the amenities of modern war. It will be remembered that at the outbreak of the war grave fears were expressed that complications with neutral nations would inevitably arise and the commerce of the world be seriously disturbed. Neither the United States nor Spain was a party signatory to the declaration of Paris, and foreign journals predicted trouble from the exercise of the right of search, the possible issue of letters of marque and the endless disputation over what articles may be contraband of war.

Yet all that solicitude proved to be entirely superfluous. One of President McKinley's first acts after a state of war was officially recognized war to promulgate a code to govern the conduct of the war, which went far beyond the Paris agreement in the consideration manifested for neutral interests. There has been no privateering and no searching. The commerce of the world has gone on almost as in times of profound peace. Prizes have been captured and condemned, but so careful has the administration been to avoid any controversy with a neutral nation, that whenever there was the slightest question as to the ownership of vessel or cargo, or as to the propriety of the capture, the prize has been promptly released. So far as our recollection serves, not one protest has been lodged with the state department on the part of any foreign power based upon the capture of prizes by our navy.

Our relations with European nations, in spite of the ominous rumblings in foreign courts at the outbreak of hostilities, have been perceptibly improved rather than imperilled. Great Britain has lost no opportunity to display her friendship, and its apparent disinterestedness has done much to allay the sentiments of suspicion which were almost traditional on this side of the Atlantic. France has taken great pains to officially repudiate the expressions of ill will voiced by the French press in the early weeks of the war, and the services of her distinguished ambassador, M. Cambon, undoubtedly did much to bring Spain to realize the futility of a prolongation of the struggle, or of making impossible demands in her plea of peace. Russia has strictly maintained a friendly neutrality, and Italy was the first to congratulate us on our victory. Germany alone has, all through the war, maintained an attitude of surliness and shown an apparent desire to derive some benefit or other from the contest, but so far as known her curious actions at different stages have evoked no formal protest or demand for explanations. Probably a charitable construction has been put upon all Germany's churlish performances because of her lack of national good breeding and a defective apprehension of the delicate duties which modern international law makes it incumbent upon every spectator of a struggle between nations to scrupulously observe.

A new standard, too, has been set in the methods of waging and of concluding a war. Not only has there been no deviation on the part of the United States from the best usages of civilized warfare, but our soldiers and sailors have "fought fair," and there have been no cruelties practiced upon the enemy. Unnecessary bloodshed has been avoided, and prisoners have been treated with unvarying kindness and consideration. On both sides there has been an ungrudging recognition of the gallantry of the enemy, and a due observance of the courtesies which brave men always respect and observe. Nor, we believe, does there exist that national rancor between the belligerents which a long and fierce contest between hereditary enemies so often engenders, embittering their mutual relations for years to come. France will never forget Sedan, nor Ireland the Boyne. It took a generation and the unifying force of this war itself to completely erase the Mason and Dixon line from our home map. But, on the part of this nation, at least, there is no bitterness of enmity harbored against Spain, and when the treaty is signed we believe Minister Woodford will be received at Madrid with every manifestation of friendliness just as Spain's new representative will be welcomed at Washington.

Not only has the soldiery of the republic shown a humanity and courtesy hitherto unknown in warfare, but in gathering the legitimate fruits of victory there has been nothing of the ruthless demand for the pound of flesh. "Vae victis" has lost its efficacy as a proverb. There has been no sacking of cities, no needless destruction of property, no cruelties or tortures for the captured and no exaction of a cash indemnity. When in future days the philosophical student of history studies the inception, progress and settlement of the war of 1898, Grotius and Vattel will appear to him almost in the light of barbarians.

Didn't Expect a Short War.

"Of course George will be home in a few weeks."

"Yes, I suppose he will. And, dear, dear, I had so confidently counted on a two years' engagement!"—Cleveland Leader.

TURNS WHITE WHEN SNOW FLIES.

Nature Lends the Ermine a Color for Protection.

Its beautiful fur is not the only peculiar thing about the little animal called the ermine. It is a full fledged hypnotist. Trappers and travellers relate many interesting tales of the power the ermine has of attracting other animals. It has a strong fascination over rabbits in particular. The rabbit seems to realize this instinctively, but once the ermine catches his eye he begins to whirl rapidly around and round in an ever narrowing circle, the ermine meanwhile turning as on a pivot and holding him and drawing him as with an invisible chain.

To see the ermine in the summer time you would never think it the same animal that furnishes such rich, beautiful fur for my lady's collar and the judge's robe. During the warm months it is brown, and not an especially beautiful shade of brown at that, but when winter comes, then witness the transformation! The creature sports around in a coat of white, the only bit of color it deigns to retain being a dash of black on the tip of its tail. In making furs from the skin of the ermine, these black tips are made to accentuate the whiteness by arranging them through the fur in a becoming and artistic pattern.

Plants and Air.

Flowerless plants, in bedrooms, far from being hurtful, are beneficial, inasmuch as they exhale a certain amount of ozone and vapour, which maintain a healthy dampness in the air, and besides that are destructive of the microbes which promote consumptive tendencies in human beings. It is only flowers, and not plants which bear them, that do the damage. Ferns are innocuous; roses and sunflowers are pernicious, while they are in bloom; indeed, flowering plants, as well as ripening fruit, should never be allowed in a room where any one is sleeping.

For worms, which destroy house plants, place a number of sulphur matches in the flower-pots, with their heads downwards; it is an excellent remedy.

Fresh air is a great disinfecting agent in nature, tending constantly to dilute and remove all pernicious emanations from whatever source; and in proportion as we confine or restrain it, do we foster and propagate disease.

Surgical Wit.

Al Boardman of Minneapolis was in Sioux City recently. He told a new story illustrating the envious rivalry between his town and St. Paul:

An Irishman from St. Paul got hurt over at Minneapolis and was taken to one of the hospitals. His injuries were painful but not dangerous. However, he felt sure that he would not survive, and he constantly wailed to his surgeon:

"Och, docthor, do somethin' for me quick. I'm dyin'. I know I am. I'll never see St. Paul alive."

"See St. Paul alive?" blurted out the surgeon. "You'll die of old age before anybody ever sees St. Paul alive."

And it made that Irishman so mad he wanted to thrash the doctor, and nobody heard any more wailing from him, but he got out of the hospital at the earliest possible day.

The Real Meaning.

Little Harry—Papa, what does "Cuba libre" mean any way?

Papa—It means "Give us the offices or something equally as good."—Cleveland Leader.

Not Entirely Filling.

First Member Musical Committee—Does the new soprano's voice fill the church?

Second Member—Hardly. The ushers tell me there are always vacant seats in the gallery.—Detroit Journal.

The Missionary's Secret.

The Scoffer—Why do you missionaries make such great efforts to train the heathen to wearing clothes? Are dresses and bonnets a necessary part of religion?

The Missionary—No; but nothing makes a woman come to church regularly so well as knowing that the other women will be there in new bonnets.—Cincinnati Enquirer.

One Good Result.

"The war has developed John's memory wonderfully."

"In what way?"

"He can sing four lines of 'The Star Spangled Banner' almost correctly."—Cleveland Leader.

YEARS AND YEARS.

Harry—I don't see why our engagement is broken. Your father said postponed.

Virgie—Yes, until you arrived at years of discretion; and you know what that means, Harry!

Lokal-Nachrichten aus der alten Heimath.

Preußen.

Provinz Brandenburg.

Berlin. Der Bureauvorsteher Buchmann, welcher einem hiesigen Rechtsanwalt mit circa 4000 Mark durchgegangen war, hat sich unter Rückgabe des veruntreuten Betrages der Kriminalpolizei selbst gestellt und ist in Haft genommen worden.—Hier wurde die unverehelichte 79jährige Amalie Weinkauf in ihrer Wohnung Koppenstraße 74 todt aufgefunden, anscheinend erwürgt. Als muthmaßlicher Thäter ist der Tischler Franz Golcher festgenommen.—In Folge eines Ringkampfes gestorben ist der Garde-Kürassier Müller, der in der Kaserne mit seinem guten Freunde, dem Gefreiten Türkenbeutel, seine Kräfte messen wollte. Müller empfing von seinem Gegner einen so wuchtigen Stoß, daß er gegen einen Schrank geschleudert wurde. Der Kürassier, der bei dem Anprall einen Schlag gegen die Schläfe erhalten hatte, brach zusammen und verstarb alsbald unter den Händen des Arztes.

Kottbus. Ein gewaltiges Unwetter suchte Kottbus und Umgegend heim. Mehrere Personen wurden vom Blitz erschlagen. Viele Fabriken und Häuser sind durch Blitzschläge und Wirbelwind zerstört.

Zehdenick. In der Watt'schen Akkumulatorenfabrik brach neulich Abends Feuer aus, welches trotz angestrengtester Thätigkeit der freiwilligen Feuerwehr das eine, der Akkumulatorenfabrikation dienende Gebäude bis auf die Umfassungswände vollständig zerstörte. Die anderen Gebäude konnten gerettet werden.

Provinz Hannover.

Hannover. Gegen den flüchtigen Bürgervorsteher Weingroßhändler Litz ist wegen wiederholter schwerer Urkundenfälschung vom Staatsanwalt der Haftbefehl erlassen.

Papenburg. Der Minister für öffentliche Bauten hat dem Bauunternehmer Schumacher-Leer, Erbauer des Kaiser Wilhelm-Denkmals auf dem Wittekindsberg bei Minden i. W., den Zuschlag zur Ausführung der für hiesige Stadt bestimmten großen Seeschleuse ertheilt. Bei dem stattgehabten Submissionsverfahren blieb Schuhmacher mit über 100,000 Mark unter dem Kostenanschlag, welcher 750,000 Mark betrug. Die Gesammtkosten der umfangreichen Hafen- und Seeschleusenanlagen belaufen sich auf 1,250,000 Mark, zu welchem Betrag die Staatsregierung 750,000 Mark a fonds perdu beisteuert.

Provinz Hessen-Nassau.

Kassel. Hier wurde kürzlich der 13. deutsche Schneidertag abgehalten. Nach dem Geschäftsbericht für die beiden letzten Jahre hat der Verband eine Zunahme von 13 Innungen zu verzeichnen, so daß derselbe jetzt aus 308 Innungen mit 10,666 Einzelmitgliedern besteht.

Marburg. Ein Sohn des Geheimraths Professor Mooren in Düsseldorf rettete in Wehrda einen Knaben, der in die Lahn gefallen war, mit Hilfe anderer Leute, sank aber dann, da er zu erhitzt in's Wasser gesprungen war, in Folge eines Schlaganfalles unter und ertrank.

Provinz Pommern.

Stettin. Eine interessante Arbeit wird gegenwärtig auf der Werft des Vulcan ausgeführt. Es gilt, den Bremer Lloyddampfer „Spree" aus einem Einschrauber in einen Zweischrauber umzubauen und gleichzeitig den Dampfer um 70 Fuß zu verlängern. Seit einigen Wochen befindet sich die „Spree" in dem neuen großen Dock des Vulcan. Die Trennung des Schiffskörpers durch Entnietung ist bereits vorzüglich gelungen. Durch den Ausbau der „Spree" wird der Lloyd ein sehr großes Auswandererschiff erhalten.

Treptow a. d. R. Dieser Tage wurde der Hilfspolizeibeamte Schuhmachermeister Schmidt bei Ausübung seines Amtes erschlagen. Neun Tumultuanten wurden verhaftet; dieselben wurden auf dem Transport von dem Publikum fast gelyncht.

Provinz Posen.

Posen. Ein Grenzkosak erschoß bei Boguslaw, im Kreise Pleschen, einen auf preußisches Gebiet geflüchteten Russen. Die Beunruhigung der Grenzbevölkerung wegen der allzuscharfen Waffenvorschriften für die Grenzwache wächst.

Wreschen. Ein sogenannter Grünenthal'scher 1000-Markschein ist im Verkehr hierher gelangt. In diesen Tagen hatte der Rendant Wolff für die dortige israelitische Gemeinde bei der Landes-Hauptbank in Posen eine Summe einzuzahlen und benutzte dazu einen 1000-Markschein. Dieser ist als vom Oberfaktor Grünenthal herrührend erkannt, aber unbeanstandet in Zahlung genommen worden.

THE CRESCENT HOTEL.,

E. S. F. RANDOLPH,
DRUGGIST,
Cor. Liberty and Fourth Sts. Telephone 781.
PRESCRIPTIONS FILLED DAY OR NIGHT.

There are Others.

Plenty of Them, But so Different. Local Proof is What Plainfield People Want.

There are a great many of them.
Every paper has its share.
Statements hard to believe, harder to prove.
Statements from far away places.
What people say in Maine,
Public expression from California,
Oftimes good indorsement there.
But of little service here at home.
Plainfield people want local proof.
The sayings of neighbors, friends and citizens.
Home indorsement counts.
It disarms the skeptic, is beyond dispute.

This is the backing that stands behind every box of Doan's Kidney Pills; here is a case of it:

Mrs. M. A. Hall, of 219 Prescott place, says: "Doan's Kidney Pills without exception are the best medicine I ever used. My kidneys troubled me for several years with dull, aching pain across my back and at times extending to my hips. I was compelled to lie in just one position at night, stooping, lifting or bending forward aggravated the pains. I was also subject to severe headaches and was more or less nervous. A kidney weakness which was very distressing as well as inconvenient also existed and though I used different remedies that were recommended to me I obtained little if any benefit. I saw Doan's Kidney Pills highly endorsed in our daily paper and procured a box at L. W. Randolph's drug store. It was not long before I felt great relief and I was surprised how quickly the pain in my back disappeared. I am entirely free from it now and my other troubles were benefitted greatly. I consider Doan's Kidney Pills a reliable medicine and in my case they accomplished all that is claimed for them."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U.S. Remember the name Doan's and take no substitute.

"everybody's store"

—"everybody's" a big word—but our store's a big store. For nigh two generations we've been used by the people—there welfare's been ours. If you've a great fat pocketbook, we'll give you best values for least money—if you've nothing in your purse we'll do just the same, and make payment terms where you won't feel 'em!

COME—no matter HOW you're fixed—FALL lines are all in.

$25 Bedroom Suits, at $14.95
$15 and $16 ones for $10.95
—only a taste of what's being done in this one line—no Autum stock ever matched it.

New invoices—$8.50 Hair Mattresses, $6.75.
$3 Excelsior Mattresses, $1.85.
65c.—Feather Pillows.
$1.19 for $2.00 Woven Wire Springs.

Carpet News?—simply this: Prices for next week will be at lowest point we've known for years—yet 'tis all bright Fall stock—65c. Ingrains at 29c.—90c. Brussels at 65c.—$1.25 Moquettes at 90c.—15 other weaves.

Mattings 10c. a yard that should be far more. 50 bright, pretty colors and effects—no odd rolls among 'em—all new.

$4.98 "Monarch" Vapor Stoves
2-hole, high—all the others to go at same liberal price-drops.
"Blue Flame Wickless Oil Stoves"—all sizes left at cost.

$5.37—figured velour couches like cut—you know 'tis an $8.00 make. Fully 40 other sorts.

All Refrigerators we have left at nearly your own price. Call if you'r doubtful.

75c. A WEEK WILL DO IF CASH IS SHORT.

YOU'RE READING THIS?

CERTAINLY!

Well, Mr. Merchant-who-thinks-of-advertising, this is only one of the many corners in THE DAILY PRESS—it isn't the best located one, either; we can give you better—and if this attracts your attention in our endeavor to tell you how good advertising will get you a hearing before the purchasing public, doesn't common sense teach you that if you were having people reading your trade story instead of you're reading our argument about it, that it would be better for your business.

THE DAILY PRESS reaches the purchasing public that makes the profits for the merchant.

We can give you big or little space—but in advertising it is'nt always economy to be sparing in your appropriation.

(CONTINUED.)

CHAPTER II.

Three days earlier than that on which Evangeline had opened the telegram addressed to Lady Garth, in one of the best rooms in the "Golden Hotel," in the "Queen City" of Western North America, an elderly English gentleman of military appearance strode backwards and forwards excitedly, looking every few minutes at the golden chronometer which he held in the palm of his right hand. With the fingers of his left he was nervously twirling the pointed ends of his iron-gray moustache; and every time that he reached the end of the room where there was a window, he stopped for a few moments to look down at the street crowded with pedestrians below him, as if looking for some face that was familiar to him. Then, when his scrutiny was unrewarded, he would march with a quick military step, like a soldier on sentry-duty, back across the thickly-carpeted floor, muttering angrily to himself.

"Five-and-twenty minutes," he said, as he glanced at his chronometer for the hundredth time, "and goodness knows how much more before I came in! What can have become of the girl? In five minutes more, if she does not return, I shall have to think of communicating with the police."

He continued his sentry-walk across the room until the five minutes had elapsed, and then, crossing to the bell-push, he pressed it vigorously.

"Do you mean to tell me," he demanded of the waiter who answered his summons, "that nobody saw Miss Emmott leave the hotel?"

The man stammered nervously as the Englishman glared at him.

"I have been inquiring, sir, and I find that one of the chambermaids noticed the young lady going down the stairs, dressed for going out, not many minutes before you came in, sir."

"She did, did she?" burst out the Englishman explosively. "Then why, in the name of goodness, did you not come and tell me?"

"Indeed there was nothing to tell, sir! The young lady did not leave any message or say where she was going."

"Did not this girl, this chambermaid, ask her?"

The man ventured on a timid smile, which disappeared quickly as he caught the eyes of the questioner fixed upon him.

"None of the servants in the establishment would venture to take a liberty like that, sir. The young lady naturally thought——"

"What young lady? My daughter?"

"No, sir—the chambermaid. She naturally thought that Miss Emmott had recovered from her headache, and was going out to join you somewhere. But here"—and the man looked back over his shoulder, as footsteps were heard ascending the stairs just outside the door of the apartment—"here is the young lady herself, Major Emmott!"

"Thank goodness!" Then you can go, sir!" thundered the choleric old gentleman; and, with pleased alacrity, the waiter disappeared as the Major's daughter entered the room.

Miss Sabina Emmott presented a striking contrast to her father, who had crossed to the opposite side of the room and stood with legs wide apart and the chronometer in his hand to receive, in a becomingly severe and judicial manner, the daughter who had caused him so much anxiety. The Major was tall and commanding-looking, and his ruddy face, redder than usual on account of his anger, contrasted pleasantly with his short iron-gray hair; while the girl's face was of a creamy whiteness, and she was so petite that a casual observer might have been pardoned for taking her for a girl of twelve, instead of a woman of twenty. She would have looked even smaller had not her figure been so exquisitely proportioend. With a delicate but rather sharp-featured face and little bead-like black eyes, her appearance was strangely suggestive of a bird's; and the likeness was increased by the rapid bird-like movements of her head when she spoke.

"Oh, have you got back, papa?" she said, as she drew off her gloves with an air of unconcern. "I thought I should be sure to be back first."

Her remark was followed by complete silence. Miss Sabina did not seem to notice it.

"Well, I am surprised you do not ask me where I have been, papa," she said very innocently, after a long depressing pause, during which the Major had continued to glare across the room at his daughter's apparently unconscious face.

"I am willing to hear anything you have to say in explanation of your shameful conduct, miss!" said the Major fiercely; and then the bird-like eyes were raised in innocent astonishment to his face.

"Shameful conduct! What do you mean, papa?"

The Major looked as black as thunder.

"I mean what I say, miss—shameful conduct! You induce me, by pretending you have a headache, to leave you alone here; and the minute my back is turned you make use of the opportunity to go out without an escort into the streets of a perfectly strange city, and gad about as I blush to think of a child of mine doing. You leave no word to explain where you have gone, and allow your poor father to become a prey to the most terrible anxiety; and, when you reappear, you have the callous audacity to confess that you expected to return before me, and so escape detection!"

It was Miss Sabina's turn to look indignant and dignified as was possible to such a diminutive person.

"I am surprised that you can think such horrible things of me!" she said, in a deeply-grieved tone. "I am sorry if you have been anxious; but you ought to know that your daughter would not be guilty of conduct that did not become a well-brought-up young lady." She had taken off her toque as she spoke, and her coils of dark hair, becoming disarranged in the process, now gave her the appearance of a bird with ruffled plumage. "If I had the pride of the Emmotts, from which Providence has fortunately saved me," she went on in the same hurt tone, "I should refuse to explain what really happened; but I will waive pride, and tell you exactly how it was, papa. My headache was of course very painful; but about half an hour after you went out it suddenly ceased, and I came down to this room and was amusing myself by looking out of the window, when I caught sight of a gentleman whom I thought I recognized entering the large jeweler's shop across the road, so I thought you would not mind, dear papa, if I ran over to speak to him. I just ran upstairs to put on my things, and was ready to cross the road and speak to him by the time that he came out."

"And you mean to stand there and tell me that a daughter of mine has acted in so shameless and unseemly a way?"

"It was a gentleman to whom we were introduced in London, papa," protested the bird-like girl in mild self-defense; but the Major was purple with rage.

"To think that a daughter of mine should act in such a manner!" he kept muttering. "Sabina, I am ashamed of you!"

Sabina stood still, with downcast eyes and clasped hands, a picture of meek but injured innocence.

"But, papa, dear, I did not think you would like us to miss the chance of seeing Sir Roydon Garth," she said plaintively; and, as she uttered the words an instantaneous change care over the angry Major.

"Sir Roydon Garth in 'Frisco!" he exclaimed, his anger vanishing, and a warm interest taking its place. "Why did you not tell me when you came that you had seen the Baronet? I certainly should not have liked to miss meeting him. Why did you let me think that you had been doing something foolish.

"I thought that you knew you daughter well enough to trust her papa!"

"Yes—I ought to have known it. And did you manage to speak to Garth, my child? And is he coming here? I would be very pleasant if we could travel home together. Did you ask him anything about his return?"

"No, papa; I thought it would be better to leave that to you when you saw Sir Roydon."

"Certainly, my love! I am very pleased with your discretion. Did you find out what Garth is doing in America?"

"Yes; and his news is quite romantic. He has been surveying or something up in the North, and had an accident at a place called 'Deadman' Gulch.' He broke his leg. He has been living with some rough farmer there, and came down to 'Frisco to get some money, so that he can go back and make them a present. When he was found after the accident, all his money had been stolen; but they left him his papers, including a credit note; and now he is going back to this Deadman's Gulch, which is two or three hundred miles up the country on purpose to reward his rescuers. Is he not Quixotically generous? I should risk sending the money by post."

"'Deadman's Gulch!' Is not that the place they were speaking of at the table-d'hote last night," said the Major thoughtfully—"a place with an even worse reputation than most of the outlying settlements in this part of America? I believe it was. I sincerely hope not, if Garth is going back there with money in his possession."

[TO BE CONTINUED]

I THOUGHT I SHOULD BE BACK FIRST.

The girl did not even glance at the red, excited face of the Major, as he stood surveying her with an expression of judicial severity, though the bright bead-like eyes glanced quickly around the room.

THE GERMAN CENTER

VISIT OF ITS LEADER, HERR LIEBER, TO THE UNITED STATES.

He Will Attend the German-American Catholic Verein's Annual Convention. Sketch of the Parliamentary Party of Which He Is the Head.

For his own merits and work and for the distinction that attaches to him as a leader of the Centrists, the German Catholic representatives in the reichstag, Herr Lieber, who has come to the United States in fulfillment of a promise made to our German-American Catholic societies earlier in the year, is assured of a warm welcome in Columbus, O., and that welcome will be extended to him not alone by German speaking Catholics, but by all their American coreligionists, who have a lively appreciation of the splendid achievements of the political party of which Herr Lieber is the recognized head. It is something of a coincidence that Herr Lieber comes to the United States at the time when the man whom the Center fought was summoned to the other world, but the German Catholic leader had embarked on the other side of the Atlantic before Bismarck's death occurred. He comes at a time, too, when the Center has just won a notable victory, by not only holding in the last general elections its former strength, but by increasing that strength and thus contradicting the predictions that it would not be as influential in the next reichstag as in former ones.

The German parliamentary party, of which Herr Lieber is the leader, first came into prominence in the early seventies, when Bismarck and Dr. Falk were engaged in enforcing the Kulturkampf and the infamous May laws. It took the name of Centrum, or Center, because it stood midway between the Prussian Junkers, who regarded the imperial government as divinely ordained, and the Liberals, who voted with it on government measures, but gave it no support when Catholic issues were the subject of debate. The first leader and one of the finest characters in the Center was the lamented Herman von Malinckrodt, whose early death deprived him of the satisfaction of seeing the Center win the glorious victories it was destined to achieve. Luckily for the Centrists, they had to succeed him Ludwig von Windthorst, the "Pearl of Meppen," under whose leadership the Center grew rapidly in strength and influence and scored victory after victory over the government until it compelled the resignation of Dr. Falk, caused the virtual abrogation the Kulturkampf and made it necessary for Bismarck to journey to Canossa.

When Herr Lieber succeeded to the place whence death removed Herr Windthorst in 1891, the Kulturkampf and the May laws had been virtually repealed. The sees that had been made vacant by the expulsion of their incumbents were again filled, the expatriated parish priests had been allowed to return to their flocks, and the edicts against the religious orders had been recalled, save the one banishing the Jesuits. Friendly relations had been restored between Rome and Berlin, the pope had arbitrated a dispute between Germany and Spain, and Bismarck had accepted a decoration from the hands of Leo XIII. Twice since Herr Lieber's accession to the leadership of the Center has the reichstag declared itself in favor of repealing the law which forbade the Jesuits to remain in Germany, but each time the Lutheran majority in the landtag refused to sanction such repeal. The Centrists show no signs of abating their demands in this matter.

They are determined that the last vestige of the infamous May laws shall be wiped out, and with the increased strength which they will wield in the next reichstag it is by no means improbable that Herr Lieber will have the satisfaction of completing the victory which his predecessor so nearly achieved by compelling the government to revoke the law against the Jesuits. He is the leader of a party which represents nearly 20,000,000 of Catholics, of whom 11,000,000 dwell in Prussia. The principal object of his present visit to the United States is to attend the annual convention of the German-American Catholic vereins, which bodies met in Columbus, O., last year, and the probabilities are that he will make an interesting address before the coming convention.

When Herr Lieber visited the United States ten years ago, he journeyed to Ohio to see the nephew of his distinguished predecessor, Mgr. Windthorst, who then held the pastorate of St. Peter's church, Chillicothe, and en route he stopped off at Columbus to be the guest of his friend, Mgr. Jessing of the Josephinum.—Catholic Columbian.

Santiago Cathedral.

The vastness and richness of the Santiago cathedral appear to impress the Americans now in that city who visit that sacred edifice. Naturally, as it is the cathedral church of Cuba's most ancient diocese, the place of worship is both large and rich, says the St. Louis Republic. As is the case in all or nearly all Spanish-American cities, it occupies a commanding site in the town and fills one side of the principal square with its broad front. The present Santiago cathedral is a comparatively modern edifice, for it was built in the second decade of the present century to replace a former cathedral that was badly injured by an earthquake shook. It has suffered somewhat itself from a similar cause, but it is nevertheless a stately and handsome church.

Oblate Priests For the Klondike.

Bishop Grouard, vicar apostolic of Athabasca, McKenzie, who is a member of the Oblate missionaries, announces that he has sent four priests and two brothers to the Klondike to take spiritual charge of that region. The Jesuits will withdraw to the American side of the line.—Exchange.

FRANCIS THE TEARFUL.

He Is Patron Saint to the Capital of the Philippines.

The patron saint of the city of Manila generally is St. Francis the Tearful—San Francisco de las Lagrimas. According to the legend, an image of this saint in the house of a native at Dilao, near the capital, was on one occasion, when the city was in danger, seen to weep so copiously "that many cloths were moistened," while, with outspread hands, it for three hours' space be sought God's pity on Manila. As soon as this miracle was made publicly known, the saint was with one accord declared the protector of the city, and his image removed to the Franciscan church within the walls, where it has since remained. The aniversary of this saint is naturally a general holiday. Toward sunset thousands of vehicles issue from the streets of Binondo, Tondo and the other suburbs and cross the bridges to the wide boulevard which encircles three sides of the fortifications, terminating at the mouth of the river Pasig.

Elegant victorias and landaus, drawn by a pair of stout ponies, are filled with mantilla veiled Spanish beauties and bejeweled mestizas. Light carromattas and calesas are brilliant with the trailing sayas of their dusky Tagal occupants. Every available wheeled vehicle indeed in the city has been requisitioned to swell the stream of traffic flowing seaward. Military bands discourse operatic music, and greetings are interchanged while the manilenas inhale the refreshing sea breezes blowing in from the bay. Ocean steamers lie out in the anchorage, outlined in shadow on the smooth waters, while the setting sun, disappearing behind the grand mountain mass of Mariveles, throws its dark serrated summits into clear relief against the glowing western clouds. The eye, dazzled by this blaze of natural splendor, turns for relief to the moss grown, mellow toned walls of the city—a city belonging in appearance to another age, with its moat, drawbridges and old bronze cannon bristling on the ramparts from which now thunders forth the sunset gun. Every rein is tightened, every hat lifted in salutation to the angelus, which simultaneously sounds from every convent and church in the city. The short succeeding twilight passes, the carriage lamps twinkle as far as the eye can reach, and the gay throng again wends its way homeward.—Nineteenth Century.

MISSIONARIES IN CHINA.

Jesuits' Desperate Engagements With Brigands at the Ma-Chia-Ching Mission.

In a report by Mr. S. F. Mayers, issued by the foreign office in London, the writer, who is of the British consular service in China, says: "The mission station of the Jesuits at Ma-Chia-Ching lies at a little distance from the main road leading eastward from Tang Shan. Here is the church militant indeed. The buildings are surrounded by a strong, castellated wall, and guarded at the corners by watchtowers, in which guns are mounted and ammunition stored. A few nights ago the mission had repulsed an attack of brigands after a desperate engagement, in which the superior weapons and position of the church told at length on the greater numbers of their assailants.

"The brigands are members usually of the great secret society, Ta Tao Hui, or Big Knife Guild, which, in addition to having vague political objects in view, such as the overthrow of the Mantchoo dynasty, turns its immediate attention more particularly to arson and robbery. They have attacked Ma-Chia-Ching several times, but fortunately the priest in charge has always been on the alert and ready for them with his people armed with rifles and the native made cannon well charged with slugs. As many as a dozen bodies of dead brigands have been found next day after an engagement. These their accomplices strip and behead before retiring in order to prevent identification and leave the ghastly remains for the conqueror to inter."—London Catholic Times and Opinion.

CONVERSION OF ENGLAND.

Cardinal Vaughan on the Action of Prayer at the Paris Shrine.

The Paris shrine in connection with the conversion of England is, without doubt, that of Notre Dame des Victoires. In the latest number of The Annals of its archconfraternity it tells us that, faithful to its traditions, it was during the closing days of May the scene of a triduum of prayer for the conversion of England. It informs us, moreover, that Cardinal Vaughan, writing afterward on the subject to the Abbe Rataud, cure of Notre Dame des Victoires, alluded to two Anglican clergymen of London who during the triduum had renounced Protestantism and joined the Catholic church.

His eminence was inclined to attribute this twofold conversion to the action of prayer at the Paris shrine. What is being done for England at Notre Dame des Victoires finds its echo in St. Sulpice, the seat of the archconfraternity of Our Lady of Compassion. The monthly meeting of members of the association took place there on a recent Sunday evening, the preacher being the Abbe Billecocq, priest of St. Sulpice and acting director of the archconfraternity. Benediction and prayers for the conversion of England before the blessed sacrament followed.—London Catholic Times and Opinion.

Catholics In Cuba and Porto Rico.

If, as seems most probable, Cuba and Porto Rico ultimately become a part of the United States, the number of Catholics added to our census will be about 3,000,000, says The Ave Maria. Three new sees—one of them Santiago de Cuba, the oldest in the western hemisphere—will most probably, though not necessarily, be attached to the hierarchy of the United States. Just at this juncture it will interest our readers to learn that Cuba was once known to the world as "the isle of the Ave Maria."

GEN. JOE WHEELER.

FRESH HONORS FOR THE MAN WHO SOUGHT TO RESCUE DAVIS.

A Unique Character in History—From a Leader in the Rebel Cause He Retires to His Farm, Later to be Called to Represent His People at Washington.

A correspondent of the Washington Capital writes: General Wheeler is one of the few men who have come out of this war without anything but glory in their records. His life has been a somewhat curious mixture of the most dashing and picturesque adventure and the most uninteresting of drudgery. A West Point lieutenant just entering upon his military career at the beginning of the civil war, he unhesitatingly devoted his heart and his hand to the fortunes of the Confederacy and became the most daring and successful cavalry leader of the South, possibly of the whole country. Wheeler's exploits during those four years were told with glee by the Confederates and with a mixtue of admiration and gnashing of teeth by the Union officers whom he circumvented. When Lee surrendered and Jefferson Davis was a prisoner, Wheeler, loyal as ever to the cause for which he had fought for four long years, risked his life and freedom in an attempt to rescue Davis. It failed, and when the turmoil of war had a little subsided and the knights of the Lost Cause gathered themselves together to face the future, Wheeler, practical, plucky, and uncomplaining as ever, was to be found grubbing a living out of his farm in Alabama. They wanted him to be professor of philosophy in the Louisiana State Seminary, but he declined that offer and kept on practicing law and agriculture with equanimity and success.

The Forty-seventh Congress saw him in the House, and after that nothing except a war would have dislodged him from his seat. Whenever there has been any development which looked like war he has always been the first to tender his services to the government. For the last thirty years he has had what one might call a standing determination to continue his military career when he had a chance. It is my belief that if we had an administration foolish and obstinate enough to refuse him a commission he would have shouldered a rifle and gone to the front as a private, and he would have inevitably come out of the fight wearing shoulder straps. He is not the kind of man to be ignored.

The stories which have clustered about Wheeler's career in this war would make an interesting book all by themselves. He not only climbed a tree to reconnoiter the enemy's camp—and it wasn't a cactus or a cocoanut palm, as some of the enterprising artists tried to make us believe—but it is reported that he climbed the tree under which the capitulation was signed at Santiago, and sent a leaf thereof to each of his constituents. I am inclined to doubt this yarn. Of course it is a picturesque thing to think of—the slender, active little general sitting in the crotch of a limb busily picking leaves enough to fill barrels and leaving the tree as bare as a barber's pole, but it is my belief that if there really was a barrelful of leaves picked off that tree, Wheeler sent some small Cuban boy up to do it. He never does an odd thing for the sake of being odd. It is certain, however, that he did send a good many of his friends leaves from "that there tree," and that they prize them most highly.

Wheeler's behavior at Santiago has furnished the subject for almost the only real war poem which has appeared during the war. You have all read it. It is called "Wheeler at Santiago," and is by James Lindsay Gordon. The poem has been copied all over the United States, and the story of that day has been told everywhere, but I am going to tell it over again. Wheeler, not being any more acclimated than the rest of the army, was, like his men, attacked by the fever of the country, and was not able to lift his head for several days. He was carried here and there and directed operations from his cot, but when the time came to attack Santiago he was so ill that it was not thought best to inform him just when the attack would take place. But he heard the roar of guns from afar and he was not to be let or hindered. He told them to put him into an ambulance and take him to the front, and there is more power in the little major general's say so, even when he is helpless with fever, than there is in the blatant roaring of a big six-foot bully. They put him into that ambulance and started for the front. On the way they met the litters with the wounded, and the newspaper correspondents bear witness as to the miserable inadequacy with which these unfortunates were provided for. Wheeler was out of that ambulance and in the saddle in about a minute and a half, and though almost any man in his army could have picked him up and carried him, nobody ventured to oppose his determination to go to the front. And then he rode to the front, and the sight of him put new life into the whole army. Gordon tells it in words which thrill one like the sound of drum and fife.

There is nothing in the whole history of warfare more dramatic than that incident. It will live as long as there is an American to be thrilled by the sight of the starry flag. It will be a bond of union forever between North and South—that day at Santiago. From Machias bay to Puget sound, from Rangeley lake and the Adirondacks to Key West, and then again from Manila and Honolulu round the world to Porto Rico. Wherever Americans live and die under the flag, nobody will refuse to cheer the name of Joseph Wheeler.

CYCLING COMMENT.

The Y. M. C. A. cyclers intend to hold a run somewhere tonight, although the destination of the party has not been fully decided upon. When the schedule was made out New Brunswick was set down as the objective point for tonight, but as the New Brunswick association has withdrawn from the league, they cannot go there.

The recent road races held in this city whetted the appetites of the local fast man for something bigger and they found it in the big event held on the Hudson county boulevard Labor Day morning. It is needless to say that some of the riders are not as well pleased with the way that such affairs are run as they might be. There was some kicking at the officials in the local races but it was bliss in comparison with that which they found over in Hudson county. Peter Simmonds, Plainfield's speedy colored rider, claims that he was robbed of fourth place and put back to tenth. Then Yep Sorenson wasn't placed at all and half killed in the bargain. George Apgar rode a game race but his tire punctured and he had to walk for nearly ten minutes before he found any one with a wheel he could borrow. Then he went off again but it was too late. Ray Poole had such a small handicap that he knew he hadn't the ghost of a show in the race so he took things easily. He was caught by the scratch men and went on with them until he fell. Then he caught them again to fall the second time and he left behind. A third fall bent his pedal badly and cut his leg but he continued in the race and finished in the vicinity of fifty.

TENNIS.

The tennis tournament started last Saturday on the Hillside Tennis and Golf Club grounds on Plainfield avenue has not been completed yet. Play was continued Monday morning, but the contest will probably be concluded next Saturday.

PARTICULAR MENTION.

J. W. Reinhart left this morning for California.

Mr. and Mrs. W. D. Williams left today for a two weeks' visit with friends in Connecticut.

Miss Leona B. Hoffman, of Park place, has returned from a two weeks' visit with relatives at Liberty Corner, this State.

Miss Bertha Schlick and Miss Hattie Otto left today for North Beach, L. I., where they will spend a vacation of two weeks.

—Wednesday evening neighbors in the vicinity of the Climax Bottle Stopper Works discovered the factory to be opened. They reported the matter to Special Officer Dennis Carney and he in turn informed Sergeant Kiely. The doors were locked.

WEAR Royal Worcester Corsets.

FOR SALE BY LEADING DEALERS.

CONSTABLES AT ODDS.

A LIVELY TIME OVER THE OWNERSHIP OF A PIANO.

Constable VanHorn Succeeded in Getting it Out of Constable Pangborn's Control—A Complicated Legal Tangle.

When Constable J. W. VanHorn sold the mahogany baby grand piano, attached by the creditors of Andrew D. Warde, the erstwhile proprietor of the late New Jersey Military Academy, Tuesday afternoon at the residence of William N. Pangorn, to W. R. Brokaw, the highest bidder at the auction, he little knew what difficulty he would encounter when he attempted to deliver the goods.

After the sale Brokaw sent piano movers to get the piano, and gave them an order for the delivery of it, signed by Constable VanHorn. Mrs. Pangborn did not know anything about the matter and would not allow the piano to be removed from her residence. When VanHorn sought Pangborn to explain the matter to his wife, Pangborn also refused to allow the piano to be removed without a written order from the lawyers who represented the plaintiffs against Warde. When this was obtained, he still refused to deliver the piano until the full amount of a claim of Woodhull & Martin was paid to him. This was also obtained for him by VanHorn. When Pangborn, to his surprise, demanded that storage be paid to him for the care of the piano. VanHorn claims that he had allowed the piano to be placed in Pangborn's home with the agreement that there should be no charge for storage. After a wordy wrangle the money was paid to Pangborn, and VanHorn called at the house in company with the dray and removed the piano. After the piano had been delivered to Brokaw, Pangborn received a notice from W. S. Angleman, claiming the piano as the property of Richard Menzel. He hastened to intercept the removal of the piano, but the notice came too late.

This piano was originally sold by Menzel to Warde on the instalment plan and was not paid for. May 3, 1898, the piano was attached, and has been held by the creditors of A. D. Warde since that time. The claimant of the piano has done nothing in the matter other than to serve notice on the constable claiming the goods. The sale, originally set for August 24th, was adjourned until September 6th in order to give the claimant the opportunity of proving his claim, but as nothing was done the constable was obliged to sell.

HE HAD THREE STOLEN WATCHES.

The Man Confessed That he Helped to Rob a Farmer.

(Special to The Daily Press.)

Somerville, N. J., Sept. 8.—George Clemmins, alias Fred Haas, was brought to the County Jail from Peapack Tuesday night, charged with the robbery of John Opdyke's house. Mr. Opdyke is a wealthy farmer living near Peapack. While the family was absent at a church fair one night last week the house was entered and $40 in gold, $15 in silver and two gold watches, two silver watches and $2,000 in notes were taken.

Suspicion rested upon Clemmins and another man who had been in Mr. Opdyke's employ, and who disappeared that night. Mr. Opdyke does not believe in banks, and frequently has large sums of money in the house. Clemmins was arrested in Newark by Detective Cosgrove. Three of the stolen watches were found in his possession. He confessed to his part of the crime, but says he did not enter the house.

BURGLARS LOOT JERSEY VILLAGES.

Seemed to Have Had Everything Their Own Way About Clinton.

(Special to The Daily Press.)

Clinton, Sept. 8—Within a radius of less than six miles six villages have been very thoroughly sacked by burglars in little more than a fortnight. These include Sidney, Junction, Asbury, High Bridge, Annandale and Lebanon. Three burglars were fired upon in High Bridge by Austin Sweazy. From a trail of blood found it is believed one of the burglars was wounded.

This is the only instance where burglars awakened residents. People awake every morning to find their homes plundered.

Residents are organizing themselves into police committees to protect their property. Every house is now armed with shotguns and revolvers.

Mr. and Mrs. Will F. Williams, of Central avenue, have returned home after spending a few days pleasantly with W. H. Voorhees and his family at their summer cottage on Long Island.

—The Sunday-school of the Church of the Heavenly Rest will begin its fall sessions Sunday next at 9:45 a. m.

—Children's shoes for school or play; shoes with service in them. Boy's shoes that look like dad's, etc., can be found always at VanArsdale's at correct prices.

OUTWITTING A TUTOR.

How Pennington Got His Shirts Laundered at the Professor's Expense.

The mode of life was simpler in those days than now, but the same humor which still makes collegians so comic effervesced fifty years ago. When, for example, William Pennington, son of a former governor of New Jersey, and himself afterward speaker of the National House of Representatives, roomed next door to Senior Tutor Topping, at Princeton, it was the custom for each man to hang on the outside knob of his door the bag containing his soiled clothes for the laundry. Pennington stuffed his own shirts one day in Tutor Topping's bag, and waited for the day when the clean linen was returned and laid out on Topping's bed. Then, knowing that two of the young tutors were in Topping's room, Pennington knocked at his door. On entering he put on an embarrassed air, as if hesitating to speak in the presence of the other tutors.

Topping, in a lofty way, said: "These gentlemen are my friends; I have no secrets from them; say what you wish." Pennington still hemmed and hawed, but again urged to speak, blurted out: "It is not my fault, Mr. Topping; I did not want to say anything about it now, but, as you insist, I must ask you to please return the shirts I lent you, as I am in need of them."

Topping's rage and horror at being thus addressed before the younger tutors, who looked up to him as a "Magnus Apollo," may well be imagined. He began to upbraid Pennington, who interrupted him by saying:

"It's no use, Mr. Topping, trying to deny the fact. I see the shirts there on the bed with your other things!"

The tutor stood aghast, but Pennington stepped to the bed and picked out his own shirts marked with his name."

Astor a Thoroughbred.

Colonel John Jacob Astor has been, in his way, quite as unique a figure in the war as Colonel Roosevelt. Although one of the richest men in the world, accustomed from infancy to a life of luxury, he shared the hardships

COL. JOHN JACOB ASTOR.

of the field at Santiago without grumbling. Although the owner of one of the finest private yachts in the world, he came home on a dirty, crowded, ill smelling transport ship and put up with the scanty accommodations with cheerfulness. Colonel Astor showed his patriotism at the beginning of the war by presenting to the government a battery fully equipped at his own expense.

When Spies Are Caught.

A spy is a person sent into an enemy's camp to inspect his works, ascertain his strength, and report on his movements. By the laws of war among civilized nations a spy is subject to capital punishment. A state of war must exist before any person can be executed as a spy, and he must, in the first place, be caught inside the enemy's lines.

To be treated as a spy it must be shown that at the time of capture he was in dress other than the adopted military uniform of his country.

A soldier caught within the enemy's lines wearing his rightful uniform can only be held as a prisoner of war.

Not every person passing secretly through the enemy's lines need necessarily be a spy.

When captured, if the prisoner can show that his errand in getting through was of a personal nature, he can only be held as a prisoner of war.

Trading with the enemy or attempting to enter his camp with letters of a personal nature does not constitute spying.

To be treated as a spy it must be clearly shown that the object of the accused person was to gain information for the enemy which it would be to their advantage to know.

Pipe Faces of Men.

The newest discovery in the "face" line is the pipe face, which is grown by men who smoke pipes.

The habit of smoking the pipe has a perceptible effect upon the face. The pressure of the lips to hold the pipe in position increases the curvature of the lips around the stem, and the muscles become more rigid here than in other parts.

Thus, the lips at a certain point become stronger and the pipe is unconsciously held in the same habitual position.

After long continuation of the habit small circular wrinkles form parallel with the curvature of the lips round the stem.

These are crossed by finer lines caused by the pressure of the lips to retain the pipe in position. In case of old men who have smoked a pipe for years the effect upon the lips is very marked.

"Mary, there's dust on the piano at least six weeks old."

"But, Missis, that's the fault of the last maid. I've only been here three weeks."—Fliegende Blaetter.

YESTERDAY'S STORM.

CONTINUED FROM PAGE 1.

hended in either of the above cases.

What Happened in the Borough.

A large tree at the corner of Mercer and Sycamore avenues was uprooted and it fell across the electric light and fire-alarm wires, causing the fire-alarm bell to ring frequently and putting out the electric lights for the night. The borough was in total darkness and it was with difficulty that people managed to get around.

At the corner of Duer street and Linden avenue another tree was wrecked and blocked the street for sometime. It was taken away before midnight. On Duer street near Linden avenue a tree was blown over and and it fell against the house formerly occupied by H. Zimmerman.

On Harrison street two houses were struck by lightning. David K. Allen's house was struck first and nearly all of the slate was torn from the roof, and many panes of glass broken. From there the electric fluid skipped across the street and struck Special Marshal Begley's house. Here the front windows were wrecked, the chimney demolished and other damage of a smaller nature resulted. Fortunately the occupants of the houses were not injured. The loss on both dwellings is fully covered by insurance held by E. M. French & Co.

In front of Mark Lees' home on Chatham street a large tree was snapped off and the largest part of it lays on the house, preventing exit or egress. In the yard adjoining the rectory of St. Joseph's church on Jackson avenue a tree was split in half, and at various places along Watchung avenue limbs of trees are scattered. In Chatham street, on the house occupied by Mrs. Zeisz the chimney was wrecked completely.

On the west side of the borough there was considerable damage, consisting of wrecked trees chiefly, and the destruction to telephone, electric light and fire-alarm wires was quite general. In front of the Park Club the electric light pole was uprooted and the fire-alarm box thereon disconnected from the system. Wires in that vicinity are completely out of service.

All through Washington Park the streets are littered with limbs of trees and in some cases lawns were almost ruined by the falling debris. Workmen have been kept busy all day cleaning up streets and lawns about the borough.

A result of the storm is to be seen in the rear of William Campbell's house on Duer street, where four large trees were torn up. So far as can be learned no buildings were disturbed in the borough to any extent.

Two hours after the storm the fire-alarm system was placed in running order by Electrician Stahl, and the only box out of use is the one on Washington avenue. Just as soon as the electric light company erects a pole this box will be connected.

Chief Marshal Wilson was kept busy after the storm in looking after many matters that needed his attention.

A report was current that E. Z. Allen, a resident on the mountains back of the borough, was struck by lightning and killed. This report was not confirmed.

THE COURTS.

JUSTICE MOSHER.

Summons issued—In the case of Howell against McNabb, on contract, returnable September 15th.

JUSTICE MOFFETT.

Judgment rendered—In the case of National Cycle Manufacturing Company against Kinzie, for full amount

PUBLIC SALE OF LANDS FOR TAXES OF 1896 DUE BOROUGH OF NORTH PLAINFIELD.

Notice is hereby given that by virtue of a warrant issued by the Mayor and Council of the Borough of North Plainfield, in the County of Somerset, to make the unpaid taxes assessed on lands, tenements, hereditaments and real estate, in said Borough in the year 1896, the subscriber, Collector of Taxes for said Borough, to whom said warrant is directed, will on Tuesday, the twentieth day of September, 1898, between the hours of 12 M. and 5 P. M., to wit at 2 o'clock P. M., at my office, No. 43 Somerset street in said Borough, sell the lands, tenements, hereditaments and real estate hereunder described at public vendue, for the shortest term not exceeding 30 years for which any person will agree to take the same and pay such taxes with interest thereon at the rate of twelve per centum per annum from the twentieth day of December, 1896, together with all costs, fees, charges and expenses.

ESTABLISHED MAY 10, 1887. PLAINFIELD, N. J., FRIDAY, SEPTEMBER 9, 1898. TWO CENTS A COPY—$5 A YEAR.

MORE TIME TO DECIDE IN G. O. P. CAUCUSES.

Plans to Have Polls Remain Open Two or Three Hours.

NOT ALL IN HARMONY NOW.

PRESENT REPUBLICAN MACHINE MAY BE RELEGATED TO REAR.

A Well-known Politician Expresses His Views on the Subject, and Says the People are Getting Tired of the Way Things are Running—He Would Like to See the City Judgeship Salary Increased.

The question as to whether a political clique is to govern Plainfield, or whether the people at large are to act in that capacity, now seems to be the problem that is soon to be solved.

For some time past there has been efforts made to change the complexion of the city executive committee of the Republican party, and in some respects the interested ones have succeeded. The time has now arrived when a strong effort is to be made to reclaim lost ground, and at the meeting of the city executive committee to be held next Saturday evening something is likely to drop that will be heard all over the city.

One of the new plans on foot is to have the committee decide that at the coming city primaries the polls shall remain open for at least two or three hours, so as to give all of the people in each ward a chance to cast their ballot.

Heretofore it has been the custom to present a previously prepared ticket and elect it all in the same breath, and the rule, as many know, has been to run the primaries with lightning rapidity. This sort of thing has disgusted more than one voter in the city, and in fact many have remained away from the polls on this account.

A Daily Press representative interviewed one of Plainfield's most prominent and trustworthy Republicans recently and from him much of a political nature was learned. The party man stated, without any hesitation, that something would have to be done this year or else the Republican party would suffer great losses. Regarding the present City Council, he said: "It seems as though that body has not made a single move during their term but what they have stepped on someone's toes. They have acted directly in opposition to the majority of the people, and if they suffer a reaction they will have no one to blame but themselves. They have enforced the Martin Act and many other acts that have worked a hardship on the poor people, and not only on the poor people, but on those in moderate circumstances who could scarcely afford the expenses demanded."

"What do you think of the City Judgeship?" was asked.

"Well, regarding that office, I think it would only be fair to increase the salary to $1,000 a year. A lawyer with a good practice has no desire to take the office and lose time that might bring him in a much greater sum of money.

"I am sure of one thing," continued the politician, "that there is a dark spot on the moon for someone unless a change takes place. The opposition is working very strong and are not losing any time. The thing for the party to do is to set itself right with the people and thus win back their confidence for the future. Thus will success be the result at the next election."

Regarding the Councilmanic and Mayoralty honors the party man had little to say other than that a great change could be looked for at the next election.

A Week With the Soldiers.

S. Clinton Crane, of East Second street, has just returned from Harrisburg where he has been spending a week with his brother, Arthur B. Crane, who is a member of the ambulance corps in the Pennsylvania Volunteers. Mr. Crane spent the entire week in the soldiers' camp, partook of their fare and came home with a good coat of tan. He had no fault to find with camp life.

The Golden Rod Excursion.

The famous Golden Rod excursion to Glen Island took place this morning. The train left Easton at an early hour, but was half an hour late when it reached this city. A pleasant sail up the river to Glen Island will be the principal feature of the day. Only a few from this city went.

Knocked Out the Telephones.

The storm last Wednesday was the worst in the history of Plainfield for the local telephone company. Nearly every instrument in the city was more or less damaged, and a large gang of men was imported to repair the difficulty.

THE SCHOOL TEACHERS.

THOSE WHO HOLD THE DESTINY OF THE NATION IN THEIR WORK.

Ira W. Travell Again Principal of the High School, and Will Teach Greek and Mathematics—What Others Teach.

The following is the list of teachers engaged in the public schools for the ensuing year:

High School—Principal, Ira W. Travell, Greek and mathematics; Ellen E. Niles, history and literature; Helen W. Peckham, Latin and German; Alice M. Whitney, mathematics and English; S. Lena Bass, Latin and French; A. B. Meredith, science; Geo. W. Sanford, commercial department; Anna J. Bennett, drawing; Mabel A. Maxson, pianist; Charles L. Lewis, music.

Stillman Grammer School—Principal, Carrie B. Runyon; M. Elizabeth Benedict.

Whittier School—Principal, Anna M. Day; Lena Tomlinson, Alice W. Lansing, Flora Griffin.

Franklin School—Principal, Noel J. Bullock; Anna E. Manktelow, Jennie E. Davies, Mabel Mitchell, Charlotte C. Merrill, Emma Force, Clara J. Churton, Edith Gilbert, Lottie B. Strong, Madge L. Sutphen, Caroline A. Barber; Edith R. Bond, kindergarten.

Washington School — Principal, Millicent E. Humpston; Anna W. Booraem, Jennie Owen, S. Louise Wood, Margaret R. Cory, Genevieve Laning; M. Agnes Blair, kindegarten.

Bryant School—Principal, Emma V. Shattuck; Elizabeth E. More, Kate A. Remer, Ariadne Gilbert, Harriet Baker, Ella M. Brotchie, Jessie A. Browne, Clara Ticknor, Katherine Scranton, Louise B. Runyon; Cora F. Cadmus, kindergarten; Josephine Petrie, pianist.

Irving School—Principal, Genevieve Petrie; Eleanor P. Wilbur, Anna W. Watson, Grace Teller, Charlotte M. Beekman, Lottie W. Stillman, Lucia N. Wood, Alice A. Lee, Hattie Filmer, Elizabeth W. Reynolds, Lucy L. Brown, Mary M. Griswold, Eunice M. Merchant, Cora Perry.

Lincoln School—Principal, Louise H. Burnett; Alice Miller, Nancy M. Thomas, Agnes B. Freeman; Susie Davies, kindergarten.

Wants Pay for the Candy.

Candy is not very costly, but when one peddles it and buys quite a quantity at a time it mounts up to quite a bill. Edward Wolff is the peddler, and Julius J. Stahl, of Somerset street, a candy manufacturer, has been supplying him with sweets since December, 1893. The total amount claimed for the candy up to date is $18.56. Wolff has bought more candy than this off Stahl, but has paid cash for it. This $18.56 Wolff refused to pay, so Stahl brought suit in Justice Mosher's court. Wolff didn't put in any defense, so yesterday judgment was rendered against him.

Commercial Course in Borough School.

The Borough Board of Education has added a commercial course to the curriculum of their school, and Miss Myrtie Montague, of Tonawanda, N. Y., a graduate of the New York State Normal School, has been engaged to teach typewriting, stenography and composition. Miss Montague arrived in Plainfield this morning and she will at once prepare to commence teaching next Tuesday. This department gives promise of being one of the most popular in the school.

Hurt Worse Than He Thought.

Last Sunday William Mosher, of New street, in company with a few friends went on their wheels on a fishing trip to nearby waters. While on the outward trip Mr. Mosher fell from his wheel and injured himself quite badly. He at first thought little of the accident and continued on his journey, but when he started to return home he found it very difficult to ride his wheel. He was assisted home and a physician was called. Mr. Mosher is now detained at home, but his injuries are not serious.

Released From Hospital.

Mrs. Fugot, the Frenchwoman, living near Washington Rock, who was taken to the hospital last Wednesday suffering from convulsions produced by fright from the storm, was released from the hospital today, having entirely recovered.

Decision in November.

The Supreme Court will not render a decision in the borough Watchung avenue matter until November. There seems to be a general opinion that the assessment made will be allowed to stand.

Organization Postponed.

On account of the storm Wednesday night there was no meeting of the Clif quartette held, to organize as a double quartette, and the meeting was postponed to next week.

HOW BEST TO TEACH IN SUNDAY-SCHOOL.

Thirty-Fourth Annual Convention of Middlesex Association.

IN SESSION AT NEW MARKET

MANY INSTRUCTIVE PAPERS READ BY EXPERIENCED WORKERS.

An All-Day Session Was Held, and Was Attended By Teachers From All Over the County — Dunellen Presbyterian Church Wanted to Withdraw to Affiliate Elsewhere, But Was Opposed.

(Special to The Daily Press.)

New Market, September 9.—The thirty-fourth annual convention of the Middlesex County Sunday-school Association was held in the Seventh-Day Baptist church all day yesterday. There were three sessions, morning, afternoon and evening, and the edifice was crowded at all three.

It was a gathering of Sunday-school workers from all over the county, and the sessions were devoted to addresses by prominent Sunday-school workers from other places as well as Middlesex county, also discussions and conferences. The entire day was devoted to the convention, and all who attended felt well repaid.

The morning session opened at 10 o'clock with devotional services and a greeting to the assembled delegates by Rev. E. Peterson, pastor of the church here. The response was made by Rev. Thomas S. Long, of Dayton, president of the association. A conference, conducted by Rev. E. M. Fergusson, came next. The subject of this conference was "Grading in Sunday-schools" This was followed by another, "The Sunday-school Library," by Rev. C. E. Taylor, of Cranbury.

At the afternoon session Rev. E. M. Fergusson, general secretary of the State Association, gave his report, and the report of the county secretary and treasurer was read by H. B. Zimmerman, of New Brunswick. An address on the secret of effective teaching was given by Rev. Linn E. Wheeler, of New Brunswick.

The Primary Hour, under the direction of the New Brunswick Primary Union, was led by Miss Blendina Smock. The lesson was taught by Mrs. J. N. Harris, and some of the ways of meeting the responsibilities of superintendents and teachers were told of by Mrs. D. E. Stelle. The principal address of the evening was delivered by Dr. Robert R. Doherty, of New York.

A collation was served by the ladies at the close of the morning and afternoon sessions.

The election of officers resulted as follows: President, B. S. Letson, of Stelton; vice-presidents, Rev. Melville E. Snyder, Rev. Frank Fletcher and Rev. C. F. Taylor; corresponding secretary and treasurer, H. B. Zimmerman; recording secretary, Charles P. Stevenson; members of the executive committee, Charles Naffey, D. W. DeForest, L. T. Titsworth, F. A. Brown, J. F. Fulton and W. C. Crosby; superintendent of primary work, Mrs. F. H. Skiliman; member of State executive committee, G. W. Barnes; township secretaries, Cranbury, Howard Butcher; East Brunswick, E. B. Drake; Madison, Charles D. Brown; Monroe, Edward Livezey; Perth Amboy, J. J. Deitche; Piscataway, H. V. Dunham; Raritan, Charles A. Whitlock; New Brunswick, Rev. Jospeph Horner, Dr. J. N. Harris and Charles P. Stevenson; North Brunswick, Thomas A. Letson; Sayreville, C. W. Fisher; South Amboy, George C. Taylor; South Brunswick, R. M. Cole; Woodbridge, T. Henry Morris; delegates to the fortieth State convention to be held in Paterson, November 15th, Rev. Frank Fletcher, Rev. Thomas S. Long, Rev. Alen S. VanDyke, Samuel G. Garretson, William C. Acken, Frank A. Brown, Mrs. J. M. Harris, Mrs. Ella Stiltz, Mrs. J. B. Smith and Mrs. E. W. Vail.

A lively discussion arose during the afternoon session caused by the Dunellen Presbyterian church desiring to withdraw from the Middlesex Union, and join the Union County Union. The convention opposed this, and finally the matter laid on the table. The convention adjourned to meet next year at Highland Park.

Craig A. Marsh Retained.

Craig A. Marsh has been retained by Constable Pangborn to fight his opponents in the celebrated piano case that is now figuring so prominently in the borough. The piano, it is claimed, is owned by Richard Menzel, and he is contesting the right of the creditors of Dr. Warde to sell the instrument for debt. Lawyer W. S. Angleman represents Mr. Menzel, while Murphy & Blatz represent the creditors.

LEGAL FIGHT FOR THE FIXTURES.

Plainfield Beef Company Trying to Secure Them to Settle Their Claim.

Another step in the proceedings instituted some time ago by the Plainfield Beef Company against John A. Murphy, a butcher keeping a shop on South Second street, was taken yesterday before Judge Atwater in the District Court at Elizabeth. The goods in Constable W. R. Mattox's hands had been replevied by John F. Jackson, of New York, and this matter occupied the attention of the Judge a part of the day. Judge Atwater finally reserved his decision for one week.

Murphy owed the Plainfield Beef Company a bill. The company sued him, got judgment, and execution was issued. Constable Mattox levied on the goods, but on the day of sale Jackson, who keeps a butchers' supply store in New York, served a notice on the constable to the effect that the goods belonged to him.

Jackson's story was that he fitted out Murphy's store with fixtures to the amount of $194. Murphy paid $50 down and gave four months' notes for the balance, the property to remain in Jackson's name. Jackson says that before the execution had been issued Murphy came to him and told him to take back the fixtures, as he couldn't pay for them. Jackson sent his men August 1st to take away the goods. Mattox had just made the levy and retained possession of them.

Instead of trying the right of property in a justice court, Jackson replevied the goods. Jackson was represented by Frank P. McDermott, of Jersey City, and Murphy & Blatz, as counsel for the Beef Company, looked after the interests of the constable. As there is nothing on record to show that any business transactions passed between Murphy and Jackson. Judge Atwater said that the whole case hinged on whether the delivery of the fixtures to Jackson by Murphy, before the execution had been issued, was an actual delivery or not.

AFTERMATH OF THE STORM.

Certain Portions of the City Were in Darkness Last Night.

Several portions of the city were not lighted last evening by electric light, but men are working as rapidly as possible to get the system in working order. In some places there was a resemblance to the country and people experienced some trouble in getting about.

All of the local telephones are not yet in working order, although every effort is being made to repair the difficulty.

Last Wednesday afternoon at the Mountain Park Inn the effect of the storm was most striking. On the large verandas there were a number of heavy porch chairs. They were picked up by the wind and scattered at will on the mountain side. Some of them was wrecked, while others were not damaged to any extent.

A new electric light pole has been erected in front of the Washington Park Club and fire-alarm box No. 151 is again in working order. The electric light service in the borough has been restored and the residents are happy.

$100 For Sick Benefits.

At the meeting of Division No. 4, Ancient Order of Hibernians, held last evening, three candidates were initiated and $50 in dues were received. The sum of $100 was expended for sick benefits. This division is paying the dues of all its members who are serving the country as soldiers or marines. The members passed resolutions on the death of their late brother, Thomas Lappin, and the same are published in today's Press.

"The Unpardonable Sin."

Elder S. B. Horton and family have returned from camp meeting held in Wilmington, Del. Tent meetings will probably be resumed next week. Tomorrow Elder Horton will preach in the Christian Church, Grove street, at 2:30 p. m. Subject: "The Unpardonable Sin." All welcome.

This Footpad Had But One Leg.

A one-legged man knocked down and robbed John Sigrist, a farmer from Fanwood, in Newark, the other day. Charles Douglas, who is minus his left leg, was arrested yesterday. Sigrist at first identified him. Afterward he said he was mistaken. Douglas was discharged.

Borough Tax Rate Soon to Be Known.

In a few days Assessor Elston M. French, of the borough, will make known the borough tax rate for the coming year. It is not thought that it will exceed the rate of last year.

Returned From Abroad.

Rev. Charles E. Herring, of Watchung avenue, has returned from his trip abroad and will occupy his pulpit next Sunday at the First Presbyterian church.

Mrs. Caleb Dickinson, of Newark, is spending a few days in town.

HIGH BOARD FENCE, MONUMENT OF SPITE.

C. W. Krausse Shuts Off the View of His Nearest Neighbor.

RESULT OF A FAMILY FEUD.

CHARLES C. CAMPBELL THE OTHER FACTOR IN THE DISTURBANCE.

Quarrel Started With the Women and the Husbands Finally Became Involved in It — Campbell Says He Doesn't Care, But His Landlady, Mrs Reick, is Very Much Concerned.

The residents of Vine street and vicinity are much interested in a fifteen-foot board fence that C. W. Krausse is erecting between his house and that occupied by Charles C. Campbell, the two dwellings being but a few feet apart. The monster fence is a monument of spite to a neighborhood quarrel, which has raged with more or less intensity for sometime past between the Krausses and the Campbells.

Just how the disturbance between the two families started is not known, but it originated in a trival way and was of a moderate nature between the wives of the two men at the start. Acrimonious remarks, direct and indirect, were passed between the women and finally a few days ago the husbands became involved in the quarrel. Since then the feeling between the two families has been very bitter.

The top of the fence reaches to the second story of each house and runs from the back to the front of the lot. It shuts off Campbell's view of Vine street from the east. But Krausse suffers equally with Campbell in this respect, because he will be unable to see any further than the western line of his own property.

Campbell is a tenant of Mrs. Louise Reick, and intimates that Krausse can build fences sky high and it wont make any difference to him. He dosen't expect to stay in town very long, anyway, so he can stand it if Krausse can. There is one person that has great concern in the high board fence, however, and that is Mrs. Reick. The fence is a terrible spectre to her when she thinks of her home without a tenant and people coming to look over the advantages with the prospect of renting it, and then viewing the high fence. She has consulted a lawyer in order to secure redress.

Krausse, however, has built the fence wholly on his property and has no fear of interference with his plans,

Series of Dime Sociables.

The second of a series of dime sociables under the auspices of Martha Washington Council, No. 23, Daughters of America, will be held next Tuesday evening on the lawn at the home of Mr. and Mrs. Daniel Page, of Elmwood place. The members and their friends are cordially invited. Water and muskmellons will be served.

Meeting for Colored People.

The Woman's Christian Temperance Union will hold a meeting for the colored people next Sunday afternoon at their rooms, 129 East Front street, at 4:30 o'clock. Rev. Mr. Jackson, of the Mt. Olive Baptist church, will conduct the meeting. Mrs. L. Cox and others will take part. A full attendance is desired.

Visited the Battleships.

Prof. Wightman, superintendent of the Borough Public High School, went to Brooklyn yesterday and visited the battleships. He fortunately met a gunner who had charge of one of the eight-inch guns during the Santiago engagement, and he very kindly showed Prof. Wightman everything of interest about the ships.

Struck by Lightning.

The home of David Clark, 309 East Fourth street, was struck by lightning last Wednesday afternoon. The chimney and considerable plaster in the house was damaged to some extent. The loss is fully covered by insurance and Elston M. French & Co., of North avenue, hold the policy which insures prompt settlement.

Night-Blooming Cereus.

The front piazza at the home of Mrs. A. J. Winckler, Park place, was the scene of the unfolding of four beautiful flowers upon a night-blooming cereus plant last evening. The wife of ex-Collector H. N. Spencer, of Somerset street, also had many callers who enjoyed a similar sight at her home.

Bloomed Three Years Continuously.

A beautiful night-blooming cereus was greatly admired yesterday at the home of Miss Julia Philpitt, West Front street. This plant has bloomed in the daytime for the past three years, which is considered to be a rare occurrence.

CYCLE RACING AGAIN.

GOOD EVENTS ARRANGED AT THE OVAL BY THE RIVERDALES.

It is the Inauguration of the Popular Sport Again—Entries Consist of Some of the Best Amateur Riders About Here.

Tomorrow promises to see a rejuvenation of the Crescent Oval to the noble sport of bicycle racing. It has been over a year now since the speedy pedalers have whirled around the egg-shaped track to the admiration and plaudits of cycling enthusiasts, but under the enterprising auspices of the Riverdale Field Club cycle racing will be given a good hard push, and if any interest is left in Plainfield for the sport a good crowd ought to wend their way to the track tomorrow afternoon. The prizes offered by the Riverdales has resulted in securing the best riders in amateur ranks in the metropolitan district. The entries for the various events are as follows:

FIVE-MILE HANDICAP.

$3,500 FOR HIS INJURIES.

James Corkery Gets a Verdict Against the Central Railroad of New Jersey.

(Special to The Daily Press.)

New Brunswick, N. J., Sept. 9—Justice VanSyckel of the Supreme Court of New Jersey decided yesterday that James Corkery, for many years superintendent of schools at South Amboy, is entitled to $3,500 for injuries received while attempting to board a train of the Central Railroad of New Jersey at Toms River Dec. 18th. He contended that he stepped on the train while it was standing still and that it started before he could get on the steps. The railroad company declared that he tried to board the train while it was moving. His injuries have unfitted him for teaching. Since the accident he has married a young Philadelphia woman who nursed him in his illness, and is now living in Germantown.

CLOSE OF FRESH-AIR CAMP.

Many Poor Mothers and Babies Have Been Helped This Summer.

[Special to The Daily Press.]

Westfield, Sept. 9—Camp Woolfe, the headquarters of the Westfield Fresh-Air work, has closed for the season, the last delegation being sent home this week. The season has been a successful one, 870 persons having been entertained in the summer months. Of these, 228 were mothers, 545 children and 97 infants. The number of those who were ill at the time of their arrival was 159. Dr. Frederick A. Kinch attended the sick, and at the close of the season the mothers presented to him a book in token of their gratitude. Religious meetings were held on Sunday afternoon and week-day evenings. The food was wholesome and abundant. The total number of meals served was 29,035.

Resolutions of Condolence.

At the regular meeting of Division No. 4, A. O. H., held Thursday, Sept. 8, 1898, the following resolutions were presented by the committee and unanimously adopted:

WHEREAS, It has pleased Almighty God to take from our midst our beloved friend and brother, Thomas Lappin, and

WHEREAS, In the death of Thomas Lappin, Division No. 4, A. O. H., has lost one of its most active members, be it

Resolved, That we, the members of Division No. 4, A. O. H., while bowing to the Divine will, express our deep sorrow at his death in the prime of manhood, and be it further

Resolved, That we tender to his devoted wife our heartfelt sympathy in her sad bereavement, and that a copy be sent to the Plainfield Daily Press and Courier-News for publication, and that they be spread in full on the minutes of our society.

[Signed] P. Casey.
John J. Goff.
Frank Cullen.

Miss Mabel B. Cardner returned to her home on Orange place last evening, after spending seven weeks with relatives at Springfield and Holyoke, Mass.

POLITICIANS' DAY AT WAVERLY FAIR.

The Gubernatorial Aspirants Were All on Hand.

PITNEY SEEMS TO PLEASE.

ACTING-GOVERNOR VOORHEES HAS A TALK WITH SEWELL.

The Only Conspicuous Absentees Were Vice-President Hobart and Attorney-General Griggs—Enthusiastic Reception for Voorhees—Democrats There in Abundance—Daly is Still in the Race.

(Special To The Daily Press.)

Newark, Sept. 9—Yesterday was "Governor's Day" at the State Fair at Waverly, and, as usual, there was a great gathering of politicians from all parts of the State. It was the first occasion the men who manipulate party affairs have had to get together and "size up" the Gubernatorial situation. In consequence there was a great display of booms, a deal of handshaking and promises to support, some of which will be kept. Large pumpkins, tall corn and even the horse racing were secondary in public interest to the gathering under canvas on "Politicians' Hill." There the Gubernatorial candidates received their friends and the public looked on with gaping curiosity. The only conspicuous absentees among the Republican leaders were Vice-President Hobart and Attorney-General Griggs.

Judge J. Franklin Fort, who had just returned from Lake Champlain, bringing his Gubernatorial boomlet with him, had a hearty handclasp from his South Jersey friends. His Essex county rival, Franklin Murphy, chairman of the State committee, was also on hand to look after his own political fences.

State Comptroller Hancock, County Clerk Barker Gummere, Alexander C. Yard and Former Assemblyman W. L. Wilber, were among the Mercer county politicians, who kept their eyes on the political weather vane. State Roads Commissioner Budd, Former Senator Parry and Former Assemblyman Wildes reported that Burlington county was not yet ready to declare itself on the Gubernatorial situation. Congressman Pitney's friends from North Jersey declared that he was gaining strength daily throughout the State and they were confident that he would be the nominee.

Acting-Governor Voorhees' adherents were able to counteract the Pitney sentiment somewhat by giving the "logical candidate" an enthusiastic reception when he climbed up the hill about 2 o'clock. United States Senator Sewell had arrived a short time before and was holding an informal reception. Acting-Governor Voorhees soon sought General Sewell and they had a short but earnest talk. Later Voorhees' friends circulated the report that Senator Sewell had assured the Acting-Governor of his support. It was also reported that, in order to solve the complications that threaten to arise from his nomination for Governor, Voorhees would resign as Senator in time to have his successor elected in November, and would turn over the acting-governorship to Speaker Watkins, of the House of Assembly, who is next in the line of succession. It is not true that Attorney-General Grey has been asked to give an opinion as to the Acting-Governor's right to hold the office after presenting his resignation as Senator.

Although the Republican politicians were most in evidence there were several Democratic Gubernatorial probabilities in the throng. The gentlemanly and urbane quartermaster-general of the State, R. A. Donnelly, had cordial greetings for his host of friends. He was assured of support from South Jersey by State Committeeman Harry B. Paul. Former Congressman Johnston Cornish, who is nursing a Gubernatorial bee up in North Jersey, was on hand. Last but not least of the would-be Governors, to arrive was Senator William Daly, of Hudson.

"Your Uncle William is still in the race," he said, "and he believes he will win."

Major General Joseph W. Plume, who has just returned from Camp Alger, greeted his military and political acquaintances. There is no likelihood that his name will be mentioned in the Democratic Gubernatorial convention now that he has resigned from the army without having been fortunate enough to get into service at the front.

While the Gubernatorial booms were clashing John Kean, the popular candidate for United States Senator, to

CONTINUED ON PAGE 5

STATEMENT OF MILES

How It Is Viewed in War Department Circles.

CONSIDERED UNDIGNIFIED

The President Lashed Over the Shoulders of Secretary Alger and Adjutant Gen. Corbin. The Controversy Probably to Be Permitted to Die Out, Corbin Denies the Suppression of Despatches.

Washington, Sept. 9.—The authorized statement from General Miles was read with intense interest in the war department. It has added to the amazement excited by the whole affair, and has created something of a reversal of sentiment among army officers, who now feel that General Miles is pursuing an undignified course. No one doubts that General Miles is determined, up to the present hour, to force the fighting, and compel those whom he regards as antagonists to engage with him. There is still no sign of willingness to enter the controversy on the part of the departmentad authorities at whom his insinuations are undeniably amed.

General Miles, however, is encroaching upon ground which may give way beneath him. It is pretty generally known in the war department that the war has been conducted from the White House, where appointments were made and the general policy of campaigns and plans of equipment were devised, and hence that General Miles's criticism of the operations of the army in Cuba is more than an attack upon either Secretary Alger or Adjutant General Corbin. It has the effect of an assault upon the president, and General Corbin, who evidently comes in for the largest share of General Miles's reproach, is said to be sustained in all he has done by the written orders of the president.

It is expected that the return of General Miles to Washington will be marked by a re-establishment of equanimity among the military heads. General Miles can find no occasion, it is pointed out, to continue his assaults if neither Secretary Alger nor General Corbin shows any disposition to reply. So far both officers have preserved a discreet silence. They do not dispute General Miles's claim to credit, and, indeed, that officer appears to have emerged from the war with more glory than most of his brother officers. If he insists upon being held responsible for the expeditions to Cuba, a good part of the credit now attaching to his course may be sacrificed by these authorized interviews.

Some of General Miles's special champions persist in their prediction that he will continue to fight, and they promise in the near future a spectacle before which the Santiago campaign will pale into insignificance. They reject all suggestions that he will speedily be placated when he reaches Washington. They say that the period of truce has expired. They do not, however, divulge what this later war will produce or to what it will lead, and their idea of an ultimate victory for the general is evidently nothing more than a wide spread publicity as to army methods.

The opinion most prevalent among experienced observers is that when the general discovers whom he is really lashing over the shoulders of the secretary and the adjutant general he will think better of carrying the fight to a finish.

The charges, according to the statement from New York, include one that General Corbin suppressed dispatches. There was an intimation of this, as will be remembered, in the inspired interviews from Porto Rico. Such a charge, if sustained, would require the offending officer to suffer dismissal by court martial. General Corbin refuses to discuss General Miles's charges, but, independently of what Miles is alleged to have said, Corbin declared that he had not suppressed dispatches at any time during his career, and least of all would he have thought of doing so during the war with Spain and while adjutant general of the army.

Gen. Miles Goes to Washington.

New York, Sept. 9.—General Nelson A. Miles, his wife and daughter, and his staff, left the Waldorf-Astoria hotel, Manhattan, yesterday, taking the 12.50 train for Washington.

General Miles said he received no word from Washington relative to his published statement, and that his report would be a verbal one. He stated that he might later visit Montauk Point. He said nothing to add to his statement of yesterday. Regarding his movements in Washington, General Miles said:

"I shall immediately enter the 'treadmill,' meaning my official duties. I shall call at the war department first and pay my respects, and then shall go at once to the executive mansion and meet President McKinley."

The Red Cross Cuban Supplies.

New York, Sept. 9.—Word was received at the Red Cross headquarters in this city yesterday that Miss Clara Barton would leave Tampa yesterday for Washington to consult with state department officials regarding the imposition of heavy customs duties on her relief supplies intended for Havana. It is likely that Miss Barton will come to this city to meet the officers of the Red Cross after finishing her business at Washington.

Li Hung Chang's Downfall.

London, Sept. 9.—A private telegram just received here confirms the statement, made in a dispatch from Pekin, yesterday, that Li Hung Chang has been dismissed from the Chinese foreign office. "But," the dispatch adds, "it is pointed out here (at Pekin) that this does not necessarily mean that he has been deprived of all power."

Cotton Mills Started Up.

Bristol, R. I., Sept. 9.—The spinning and carding departments of the Namquitt cotton mills here started up yesterday and by next Monday the mills will be run in full. The plant has been shut down since August 3 on account of the unsatisfactory condition of the cotton goods market. The mills employ 125 hands.

F. ESTERHAZY DISAPPEARS

A Paris Newspaper Says He Has Hanged Himself.

Paris, Sept. 9.—The greatest excitement was caused here this afternoon by a special dispatch in the Journal de France saying that Colonel Esterhazy, to whom suspicion attaches in connection with the Dreyfus case, had committed suicide.

The story is denied at the ministry of war and the prefecture of police.

The sudden and unexplained disappearance of Colonel Esterhazy is answerable for the report that he had killed himself. Other rumors regarding him are afloat, the most reliable of which is that he went to England on Monday and thence to Ostend yesterday.

The Journal de France said that the suicide occurred in a hotel where Esterhazy was hiding, and declared that the commissary of police for the district confirmed the report of Esterhazy's death.

La France asserts that Esterhazy, conversing with the director of a leading newspaper, admitted the authorship of the bordereau.

A friend of the director, who was behind a screen, heard the confession, and is willing to testify to what he heard.

Colonel Picquart, the former head of the army investigation bureau, who was removed from office owing to his championing Dreyfus, and who was subsequently imprisoned, has not been set at liberty, notwithstanding the demand of his counsel, Matre Labori.

London, Sept. 9.—The Paris correspondent of the Daily News visited the commissary of police, who said that Colonel Esterhazy had committed suicide, and found his office thronged with reporters.

The commissary was absent, but his secretary declared that the newspaper publishing the report had not obtained its information there. He added that he knew nothing of the suicide.

The Daily News correspondent is the only one of the English correspondents who seriously notices the rumor.

He seems to think it not improbable and suggests that if it is a fact the government has ordered the police to suppress it until the ministers shall have decided how to treat it.

Correspondents at Dover assert positively that Esterhazy sailed thence for Ostend to-day.

THE MUSTERING OUT

The Ninth and Fourteenth New York Ordered Home.

Albany, Sept. 9.—Adjutant Gen. Tillinghast has received notification from Adjutant General Corbin that the Ninth regiment of New York city and the Fourteenth regiment of Brooklyn had been ordered to their home armories, and that they would be mustered out of the service on their arrival.

Chickamauga Park, Tenn., Sept. 9.—Two more regiments left Camp Thomas yesterday. The First Arkansas left for Little Rock to be mustered out, and the First Mississippi left for Lauderdale Springs for the same purpose. The mustering out of Grigsby's Rough Riders was completed yesterday. The paymasters expected to begin on this regiment yesterday, but on account of errors in the pay rolls the work was postponed until to-day. Four additional paymasters have arrived.

The work of cleaning up Chickamauga Park is progressing in a vigorous manner under the personal supervision of General Boynton. More than one hundred men are employed in cleaning out the debris.

The investigation of the hospital of the Second division, Third Corps, by Major Milo B. Ward, chief surgeon, Third brigade of that division; Major L. J. Johnson and Major F. S. Holborn, has been completed, and a detailed report of the case probably will be submitted to General Breckinridge this week.

More than two hundred witnesses have appeared before the committee, and several days have been consumed in the investigation.

More Gold Coming.

New York, Sept. 9.—Kuhn, Loeb & Company have purchased about $400,000 gold in the open London market for importation to this country by steamer leaving Liverpool on Saturday. The amount may be increased to $500,000. This engagement makes the total engagements of gold thus far this week $650,000.

A Rising Photographer.

"What you doin' out wid dat camer-er to-day, 'Rastus?"

"I been photergrafin', mammy, o' course."

Mr. Gaswell—As soon as the kinetoscope privileges are satisfactorily arranged.—Pittsburg Chronicle-Telegraph.

What It Required.

He—Yes, I can make a portrait on the ice with my skates.

How wonderful! Did it take you long to learn?

Well—er—it required a number of sittings.—New York Journal.

BLASTS FROM THE RAM'S HORN.

If you wish to know a man's character learn his thoughts.

In judging another's honor we often place a valuation upon our own.

A lie, like a note, must be met at last.

No man suffers so much from rascality as the rascal.

When a man makes a fool of himself he generally does the job well.

Vice either hides or draws its sword as soon as virtue shows her face.

When a man begins to move others he is generally called a "crank."

It takes both grace and grit to bear disappointment well.

BLANCO READY TO GO

Captain-General Will Leave the Island of Cuba Soon.

EFFECTS ALREADY SHIPPED

He Would Have Gone Long Ago but for a Request from the Queen Regent to Remain Until the Commission Meets. Will Return Home With Added Riches from His Administration.

Havana, Sept. 9.—Captain General Ramon Blanco is preparing to leave Cuba for Madrid. Preparations to this end have been in progress for three weeks, and before another three weeks have passed the captain general will have left forever the Queen of the Antilles.

The delay in his departure was not of his own choosing. He would have left many days ago had he not received a command from the queen regent to remain in Havana until after the commissioners who are to formulate the details for the evacuation of Cuba by the Spanish troops had convened. He obeyed this command with ill grace.

He felt that he was being subjected to a humiliation which he had sworn never to suffer, but nevertheless he is still here, not exactly in Havana, but within easy reach of the city. The magnificent summer palace is practically closed, and Blanco is enjoying the breezes of the ocean and gulf at a little resort ten miles out from the city.

With him are several secretaries, aides and advisers, and his last days in Cuba are being enjoyed as well as it is possible under the circumstances.

No one, not even the queen regent or Sagasta, could be more humiliated than is General Blanco. The reason is that he boasted rashly, and his boasts are the weapons with which his enemies here are dealing him the most unkind cuts.

CAPTAIN GENERAL BLANCO.

Even his friends who trusted most in his declaration that the "Yankee pigs" should never enter Havana as conquerors are upbraiding him.

But General Blanco is still himself, and bears his reverses and those of his country like a man. No one can truthfully charge him with cowardice, for he has courage, both physical and moral, and he has made the people of Havana and Cuba know and realize this fact.

Most of the people of Havana, whether Cuban or Spanish in their sympathies, respect him, and even this morning, when the time of his power is waning fast, and his departure from the island so near at hand, he was cheered along the route from his seaside abode to the palace of the civil governor, where he was compelled to go to attend to important matters of state.

Unlike Calixto de Castro, the civil governor, he is known to be true to his sentiments and is not a hypocrite. That his early departure is a certainty is shown by the fact that already many of his effects have been packed and shipped to Spain.

A Spanish tramp steamship sailed from this port several days ago, and on it were many trunks containing the personal effects of the captain general, all plainly marked and addressed to himself in Madrid. Like all of the captain generals who have held sway over Cuba and returned to Spain, General Blanco does not return to his country with his baggage alone. His administration, although short and stormy, has been remunerative, and had he been poor when he succeeded Captain General Weyler, what he has found in Cuba would still have made him a rich man.

Dies In the Hour of Triumph.

New York, Sept. 9.—After working for years to perfect a practical air buoy for raising sunken vessels, and on the day when success crowned his efforts, and his invention was accepted by the government, John R. Grant of Boston was stricken with apoplexy in Smith & McNeil's hotel early yesterday morning and died before medical assistance could reach him.

The Cornwall Disaster.

Cornwall, Ont., Sept. 9.—Although little else is talked of here, there are practically no developments in the Ontario and New York bridge disaster. None of the bodies of the drowned have been recovered, nor are they likely to be until the wrecked spans are removed. The wounded are all doing well and unless some unforseen complications set in all will recover.

Gen. Young to Leave Montauk.

Camp Wikoff, Montauk Point, Sept. 9.—General S. M. Young, the first commander of Camp Wikoff, has received orders to report to Major General William Graham, commander of the Second army corps, at Camp Meade, Pa., for assignment to the command of a division in that corps.

Lawton's Plan Approved.

Washington, Sept. 9.—General Lawton's plan to furnish food to such Cuban insurgents as lay down their arms and return home, has been approved by the administration. It is believed the action will turn the Cubans into peaceful walks of life.

HAHNE & CO. Newark.

to all interested in

Up-to-date Laundry Work.

We run the laundry and take care of all details, but you "boss" it. We do what you tell us to do. It may give you a new sensation to find that you get a domestic finish when you ask for it, and to discover that your collars are actually ironed in the way that the maker intended them to be ironed.

We are running a laundry with the most improved methods and appliances. We use pure water and good soap. We are using two things that are not commonly used in laundries—care and intelligence. If you have found a laundry that pleases you perfectly, we have nothing to say to you. If you have any reason to be dissatisfied, we would like to give you a practical demonstration of our way of running a laundry.

Tell us where and when to call for your work, when you want it delivered and let us know any particular thing that you would like to have done with it.

We want you to understand that we are running this laundry for you, and that your wishes are to be regarded in every particular.

We also have just completed arrangements for doing family washing in a satisfactory manner by the dozen or week. Please call at office for further information.

THE G. A. R. ENCAMPMENT.

The Business Session Begun at Cincinnati, Gen. Sickles, for Commander.

Cincinnati, O., Sept. 9.—The business of the thirty-second annual encampment of the Grand Army of the Republic and of its auxiliaries began yesterday after three days of preliminary demonstrations. The business sessions were, however, interrupted by a parade of civic and industrial organizations in the afternoon.

The encampment will have much work in considering the proposed revision of the ritual, and also in considering propositions for amalgamation. It is believed that the proposition to make those who participated in the Spanish-American war eligible will not prevail. There is more sentiment in favor of uniting those who fought on different sides in the same war, and a resolution will be offered inviting the Confederate veterans to meet with the Grand Army of the Republic next year. The Missouri delegation will likely present the resolution, as that state was about equally divided during the civil war. If no joint encampment is arranged, it is proposed to have fraternal delegates sent from one encampment to the other.

The national encampment of the Women's Relief Corps opened at the Scottish Rite cathedral with an address by Miss Law, while the women of the Grand Army of the Republic resumed their sessions at Odd Fellows' Temple. The efforts to unite these two orders have not been successful so far.

It is stated that General Sickles has been named in good faith as a candidate for commander-in-chief as a means of uniting the New York delegates. It is also stated that the name of T. F. Mack of Ohio will not be presented by the Ohio delegates.

At the afternoon session General Gobin delivered the annual address of the commander-in-chief.

BIDS FOR NEW NAVY

Awards for Torpedo Craft Are Nearly Ready.

Washington, Sept. 9.—The board of naval bureau chiefs which has been carefully examining the large number of bids and plans submitted by shipbuilders for the construction of torpedo boats and torpedo boat destroyers, has completed that work and within a day or two is expected to report to Acting Secretary Allen a plan for distribution of awards.

The decision arrived at by the board is to distribute the craft as follows among the bidders:

To the Union Iron Works of San Francisco probably three destroyers; the Maryland Steel Company of Sparrows Point, four or five destroyers; Neafie & Davy of Philadelphia, two or three destroyers; Harlan & Hollingsworth of Wilmington, two destroyers; Fall River Iron Company of Massachusetts, two or three destroyers; W. R. Trigg & Co. of Richmond, one or two destroyers and three or four torpedo boats; Bath Iron Works of Maine, three or four torpedo boats; Lawley of Boston, one or two torpedo boats. Another of the torpedo boats will go to either Lewis Nixon of Elizabethport, N. J., or to Herreshoff of Bristol, R. I., while if the department shall decide still further to distribute the work and reduce the number of boats awarded to some of the bidders, the Columbian Iron Works of Baltimore and the Gas Engine and Power Company of Morris Heights, N. Y., may be awarded one boat each.

FIGHTING AT CANDIA.

Order Restored by the International Forces.

Candia, Island of Crete, Sept. 9.—A detachment of international troops, which has just arrived here, has occupied the fortifications and restored order.

It is now estimated that two hundred persons were killed during the rioting. The Mussulman troops protected the Christians placed under their care, but they did not attempt to prevent the pillage of Christian houses, which continued until the international troops arrived.

Canea, Island of Crete, Sept. 9.—The president of the Cretan executive committee has notified the foreign admirals that, in view of the massacres at Candia, it is impossible to continue the efforts to organize an administration until the Turkish functionaries and troops are withdrawn. He demands the convocation of the Cretan assembly, and proposes to place a force of Cretans at the disposal of the international administration.

The Peace Commission.

Washington, Sept. 9.—There is no information forthcoming at the White House or the state department as to the fifth member of the peace commission. It was admitted that Senator Gray of Delaware had been offered the appointment and declined it. This would make the chances of Senator Lindsay of Kentucky pretty good, if it were not known that he has become a pronounced expansionist, and the president's desire is to maintain the present equilibrium of individual opinion among the membership of the commission. Senator Turpie of Indiana is strongly pushed, although Indiana's geographical position is not quite what is desired for this purpose.

Gen. Schwan on Cuba.

Washington, Sept. 9.—General Theodore Schwan, who commanded troops at Porto Rico, has reached Washington. He reports that island a desirable acquisition, and says its climate will not be dangerous for anyone who can be protected from the fierce sun and the heavy rains.

This, of course, the troops could not be. General Schwan will probably resume his duties in the war department. He is an assistant adjutant general in the regular army, and at the outbreak of the war was General Corbin's principal assistant.

England May Get Mozambique.

London, Sept. 9.—It is said that the Anglo-German agreement permits England to negotiate with Portugal regarding the acquisition of Mozambique by Great Britain, and that Germany will acquiesce in any arrangement in the matter that may be made.

Germany's compensation for her passive assent is to be England's recognition of her rights in England, Africa, and in Asia and China.

SITUATION AT MADRID

Stringent Censorship Measures Will Be Taken.

SHAMEFUL ACTS IN CORTES

Fall of the Ministry Foreshadowed by the Conservatives' Attitude. Disgraceful Scenes in the Cortes Last Night. A Proposal for Reducing Military Expenses.

Madrid, Sept. 9.—The Spanish cabinet, at its meeting yesterday, agreed to take the most stringent measures to prevent the publication of the proceedings of the Cortes, and to provide for the censorship of telegraphic dispatches.

The newspapers assert that the government is greatly surprised and chagrined at the attitude of the Conservatives in the Chamber, which indicates that the government is isolated on questions of such magnitude as the conclusion of the peace treaty. The papers express the opinion that this attitude of the Conservatives foreshadows the downfall of the ministry.

The cabinet met in order to discuss the situation, but the chamber did not meet, as it was the feast day of the Virgin. It appears that many of the government supporters abstained from voting last night. This fact is greatly commented upon.

The disorderly scenes witnessed in the chamber would have shamed a bull ring. Fists and sticks were shaken in the air, and invectives were to be heard on all sides. As a result several duels are expected to take place.

It is understood here that Spain intended to bargain at the Paris peace conference to retain part of the Philippine islands, but the impression somehow prevails that a republic will be established there under the protectorate of the United Statets, Great Britain and Germany.

General Polaveija, ex-captain general of Cuba and of the Philippine islands, who has just issued a manifesto intimating that he is ready to place himself at the head of a neutral party in politics, is understood to be recruiting a strong party of discontented Liberals, and others, with the object, it is claimed, of "restoring the military preponderance of the government."

The minister for foreign affairs, Duke Almodovar de Rio, informed his colleagues that, as a result of the negotiations at Washington relative to the Spaniards in the Philippine islands, instructions had been sent to the Spanish consul at Hong Kong in accordance with the agreement reached.

The society for commercial union is sending a petition to the Cortes demanding the closing of all the military schools, the curtailment of retiring pensions; that all officers returning from Cuba be placed in the reserve, and that a budget of 1,000,000 pesetas (about $200,000) annually be provided for the care of the sick and wounded Spanish soldiers returning from the colonies.

NEW JERSEY TROOPS

Governor Voorhees Does Not Approve of Orders for the Fourth to Move.

Sea Girt, Sept. 9.—A telegram from Adjutant General Corbin has been received by Colonel Smith directing him to move the Fourth regiment to Camp Meade, Middletown, Pa., as soon as possible. The telegram further stated that the chief quartermaster at New York city had been directed to furnish the necessary transportation, and the chief commissary the travel rations, and coffee money.

The fourth, upon arriving at Camp Meade, is to report to Brigadier General Graham, commander of the Second Corps.

Colonel Smith replied to the telegram stating that the regiment can move within twenty-four hours, if necessary.

Governor Voorhees, who does not approve of the plan to move the Fourth regiment to Camp Meade, will go to Washington to-day and endeavor to have the order rescinded. He believes that if the command proceeds to Camp Meade now, it must go intact, and the enlisted men will not be allowed to drop out of the service if they so desire.

A majority of the officers of the Fourth favor going to Camp Meade at once, and are arranging to do so. They contend that if the regiment is to go to Porto Rico or Cuba in October, the men should be brigaded as soon as possible, in order that it may be proficient in brigade and corps work when the time comes to join the army of occupation.

The Czar.s Peace Proposal.

St. Petersburg, Sept. 9.—In view of the irritation in France, the politicians and newspapers are seeking to represent the czar's peace circular in a new light. They urge that it has been misconstrued, and assert that the imperial government never contemplated the immediate convocation of a conference, being fully aware of the difficulties in the way. It was only hoped, they continue, to sow good seed, which would gradually ripen and bear fruit when circumstances are more favorable.

These utterances are regarded as indicating, owing particularly to the attitude of France, that the failure of the proposal is foreseen, and that public opinion is being prepared for it.

The Return of the Eighth Ohio Regiment.

Cleveland, O., Sept. 9.—The Eighth Ohio volunteer regiment arrived in this city over the Lake Shore Railroad yesterday from Montauk Point. A corps of physicians was at hand in the station when the train arrived.

After being served with a good breakfast the men scattered, taking trains on various roads from this city direct to their homes.

Colonel Hard said that although there were times when food was scarce, there was no time when the men did not have a little to eat.

Filipinos Coming.

London, Sept. 9.—A cable dispatch from Hong Kong, dated September 6, says that a committee of three Filipinos, appointed by Aguinaldo, has left Hong Kong to confer with President McKinley upon the future of the Philippines.

GOVERNOR AT CAMP MEADE

Secretary Alger Is Expected to Visit the Pennsylvania Camp To-day.

Harrisburg, Pa., Sept. 9.—There are now four paymasters at Camp Meade paying the troops their August wages. A heavy guard has been placed on the quarters of the paymasters, and they are accompanied by a guard wherever they go.

The First Maryland came in yesterday from Fort Monroe, Va., and the Eighteenth regiment it from Sheridan Point.

Governor Hastings is with the Pennsylvania troops in camp as the guest of General Graham. The executive and a small party of friends left Harrisburg yesterday in a private car over the Pennsylvania railroad, and were met at Camp Meade by Lieutenant Summeral, an aide on General Graham's staff.

After calling at corps headquarters to pay his respects to General Graham and assistant Adjutant General Reichmann, the governor visited the camps of the 18th, 14th and other Pennsylvania regiments.

Secretary Alger is expected in camp to-day. He sent word to General Graham that he would drop off to see him on his way home to Detroit.

No arrangements will be made to receive the secretary of war until it is definitely known when he will arrive and how long he will stay.

It is certain that there will be no review, and that he will remain in camp only long enough to make a tour similar to that made by President McKinley.

There is great joy in the camp of the Twelfth Pennsylvania regiment over the news that it is to be mustered out.

THE EIGHTH REGIMENT HOME

They Arrive from Chickamauga Last Last Night and Are Warmly Received.

New York, Sept. 9.—Bringing with them a trainload of sick and convalescent soldiers, the Eighth regiment of New York volunteers arrived in Jersey City from Chickamauga late last evening.

The regiment came in four sections, the trains being made up of Pullman sleeping cars.

In the first section which rolled into the freight yard of the Pennsylvania Railroad, at the foot of Bay street, Jersey City, at six o'clock, were fifty-six sick men, several of whom are in a very critical condition.

Several thousand persons were in the freight yard when the hospital train arrived, and hundreds of men and women waved flags as a token of welcome to the home coming soldiers, who have undergone so much suffering in camp life.

There was little cheering, for at least one of the men in the train was known to be in a dying condition.

Darkness added to the confusion, but when the second section arrived, in charge of Major Ridabock, everybody forgot unpleasantness, for Ramponi's Old Guard Band, which had gone to Jersey City to meet the men, began playing "Home, Sweet Home."

The third section, in charge of Major Isaac Freeman, and the fourth, in charge of Major John E. Kirby, arrived later, and some of the men started across the river. Lieutenant Colonel J. M. Jarvis was in command of the regiment.

As the men arrived they marched into the freight station, where they were refreshed with sandwiches, coffee, cake, ice cream and milk, furnished by the women's relief corps of the regiment.

THE NICARAGUA CANAL

Commission Will Be Ready to Report to Congress Next Session.

Washington, Sept. 9.—Admiral Walker, president of the Nicaragua canal commission, has returned to Washington.

The admiral says that about two hundred and fifty men are at work along the line of the proposed canal and they will stay there throughout the rainy season. They are making borings and ascertaining the character of the soil at every point where it is proposed to locate dams, locks or other heavy masonry structures.

Field parties are taking accurate measurements of the rainfall, and the flow of the various streams lying within the limits of the canal concession, information desired because all the calculations hitherto made have been based upon the conditions as existing in the dry season.

Admiral Walker is confident that the commission will be able to report to Congress at the approaching session. He thinks the project will be shown to be entirely practicable and worthy of execution.

At the Brooklyn Navy Yard.

Brooklyn, Sept. 9.—The battleship Texas, which has been for some time lying off Tompkinsville, went to the navy yard yesterday. It is supposed that the object of her return to that station is to have her battery of six-inch rifles replaced by six-inch rapid firing guns.

The battleship Oregon is also to be equipped with six-inch rapid firing guns. The work involved in making the change is already under way. The Oregon's fore and aft torpedo tubes are to be abolished. The two tubes amidships will be retained.

A Parade of Troops Not Likely.

Washington, Sept. 9.—If there is to be a parade of troops in New York, it is not likely to be composed of those under the command of General Shafter, as the general has reported to the war department that the troops under his command will not be able to take part in such a parade as is desired by the citizens of New York until the first of October. By that time most of the troops at Montauk will have gone home or to their respective stations.

The Arkansas Election.

Little Rock, Ark., Sept. 9.—Unofficial returns show that the Populist party has elected one member of the legislature from Cleburne county. They have lost Nevada, White, Cleveland and Polk counties, heretofore considered their strongholds. About one hundred thousand votes were cast in the state, of which the Republicans polled about 35,000 and Populists and Prohibitionists perhaps 15,000. Governor Jones ran far behind the Democratic ticket.

THE DAILY PRESS.

COMING EVENTS.

September 11—Rev. Chas. Mohammed, a convert from Mohammedanism, from Tangier, Morocco, North Africa, will tell of the manners and customs of his people at the Y. M. C. A., at 4:15 p. m. Lemonade and fans.

Democrats Favor Donnelly.

According to a Trenton correspondent the Democratic situation is simmering down toward the nomination of General Donnelly. It is true that Mayor Seymour, of Newark, has a large following, but at the same time it is reported that he is not favored by some of the influential leaders of his party. The Mayor, himself, it is said, is not a candidate at all Should he persist in his determination not to enter the list there is scarcely a doubt that his friends would submit gracefully to the nomination of General Donnelly.

As a loyal Democrat the latter, no doubt, would command the united support of his party if any man could, and it is believed that he would poll a large portion of the Grand Army and military vote of the State, with which element he is exceedingly popular. A prominent Trenton Democrat says that General Donnelly would carry Mercer county by over 1,000 majority, so popular is he with all classes of the people. As he is not a rich man by any means he could not be expected to open a barrel for campaign purposes. Senator Smith and his friends would see to that feature of the campaign. Should General Donnelly be nominated and then carry Mercer county, that would mean the election of a Democratic Senator where the Republicans would otherwise have a walkover with their candidate.

Allan McDermott believes that General Donnelly can be elected Governor with a short and sharp campaign, and he is very seldom astray in his prediction. In the past he prophesied Democratic defeats, as well as victories, and he generally hit the mark. Sould neither Donnelly nor Seymour prove to be a favorite in the Democratic convention then perhaps the lightning might strike Judge Howard Carrow, of Camden. He has many friends throughout the State who would like to see him Governor, and his nomination, no doubt, would arouse the dormant Democracy of South Jersey.

Mr. Voorhees' Attitude.

Acting-Governor Voorhees was seen last night at his home in Elizabeth by a reporter and asked if there was any truth in a report that he intended withdrawing as a candidate for the nomination for Governor. Mr. Voorhees replied as follows:

"I have felt that I could not with dignity or propriety at this time declare myself as a candidate for the office. If it is the wish of the Republican party, as expressed by it in the selection of delegates to the convention, that I should be the nominee, I will feel justified in accepting the nomination. I feel, however, that the proprieties require that I should not take any steps to bring about my nomination, but that I should honestly, faithfully and diligently discharge the duties pertaining to my office, especially at this time, leaving to the people of the State the selection of their choice for Governor."

A few years ago the Russian czar looked with frowning discontent on little Bulgaria, which owed its political existence to the Muscovite. Stambouloff, the hater of Russian influence and intrigue, being dead, the pendulum has swung far the other way. Russia is now looking in the main to developments in the far east, but she still keeps her eye on the old problem which has interested her since the days of Catherine II. When the clock strikes high noon for that long delayed hope, the little mouse can help the lion.

COUNT MURAVIEFF.

The Russian Minister of Foreign Affairs, Count Muravieff, is one of the boldest and ablest diplomats in Europe. He has beaten Lord Salisbury in the great struggle with England for supremacy in China.

A Great National Literature.

Mr. Hamilton Mabie, a genial and discriminating critic, in a recent lecture finds that lack of a great national literature in America comes from our lack of national unity from the racial and sectional diversities which still exist here. When our life has become a moral and spiritual unit, he maintains, and the local is swallowed up in national pride, then will come the great art, the great book. "There is some depth which we have not touched yet in our art of writing. There is something beneath us into which our roots have not yet sunk down."

This analysis is palpably correct, a truism in brief. But it does not cover the whole of the problem. The molding spirit, the very lifeblood of American ethics, sentiment, law and literature are modified English or Anglo-Saxon. Every intelligent American feels that Chaucer, Shakespeare, Milton and all the great men in English letters are his and their language his as much as does the Englishman. He is saturated through and through with the fundamental things of English life, however great the local divergencies, however variant the social traits. The Hellene of Italy or Asia Minor was always Greek through to his core. So, too, for many years to come will be the American in his core the modified Englishman. If he ever becomes anything else, he will be but a disinherited heir, who will have sold his birthright for a mess of pottage. Let us have done with talking about a great national literature. Let us rest satisfied with producing great literature and take our chances on its being distinctively American or national.

Many of the English papers, though anxious for the most solid results of the deliberations of the Joint High Commission at Quebec, are a little distrustful of the temper of their practical Canadian brethren. After expressing its sympathetic hopes The Westminster Gazette, for instance, says: "Too much however, should not be expected of the Canadians, who have scarcely yet become infected with the sentiments that have had free play in England during the war. We may expect them to stand out for what they conceive to be their rights, even at some inconvenience to politicians in London."

Modern Germany was established on the basis of the idea that a great army is the foundation of strength. Russia has for a century rested on the same basis of force, but a change has entered into such views. Germany and France each year vote bigger naval credits. Russia, without colonies or a seacoast, contemplates spending $225,000,000 in the next seven years on ten ships. Sea power is looming up as the ruling factor in international rivalry.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

The office of sheriff is a most important one. It should be occupied by a level-headed, fair man, who will do his duty and see that all men get justice. There are several candidates now before the Republicans of Somerset county, and they must make a careful selection. Not to do so will mean defeat and justly so. Each candidate is now engaged in making a canvass in order to have the best showing possible in the convention, which will meet next month. This they have a right to do. But when the delegates come together they should go over the ground coolly and without prejudice, and choose the man who has the most strength. All factional feeling should be forgotten, and the whole party should unite in the enthusiastic support of the candidate chosen. There are no differences of opinion as to principles among Republicans. They are united on National and State issues. But certain success cannot come without a candidate upon whom all can unite.—Somerville *Unionist-Gazette*.

PASSING COMMENT.

Things that Are Not Exactly News but Just as Interesting.

A good story is told about a West Front street merchant and his son who, together with Mr. TenEyck, keeper of the City Industrial Home, went fishing last Monday. The trio spent a good portion of the day in nearby waters looking for a mess of fish, but their efforts were not rewarded. On their way home they met a gentleman of color who had a number of fish. They made a bargain and bought ten fish out of the lot. Then they came back to town without the slightest objection to being seen.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

Reversing the prevailing order of things we now have vaudeville stars surrounding themselves with a clever company and a bright comedy and becoming stars in the legitimate field. A notable example is Clifford and Huth, the well known favorites and leaders in all the first class vaudeville houses for the past five years. Herbert Hall Winslow has written especially for them a delightful farce comedy in three acts, full of bright lines, amusing complications, and something unusual in farce comedies, an interesting and absorbing plot. "A High Born Lady," which will be seen at Music Hall Saturday night, is the title of the play into which are introduced clever up-to-date specialties, quartettes, sextettes and operatic choruses. Among the supporting company are the well-known kings of Irish comedy, Fisher and Carroll, Sam J. Adams, Bijou Russell, the Royal Sextette, Gilbert Sisters and many others of prominence in the theatrical world.

* * * * * *

"At Piney Ridge," another of those plays that are destined to lay the foundation for the distinctive American play, will be given at Music Hall for one night, Tuesday, Sept. 13th. This play has the true flavor and faithfully depicts the langourous life of the sunny south without any of the cheap stage exaggeration that has ruined so many so-called southern plays. The character of "Jack Rose," the hero of the drama, is well told, and while Mr. Higgins has properly given himself in this part the lion's share of the interest and opportunities, he has not submerged the other characters, but has so distributed the material that every personage in the drama has at some time an excellent chance to produce effects. All the acts are good and the scenery is specially characteristic. Among those supporting Mr. Higgins are Misses Georgia Waldron, Lydia Knott, Lottie Wade, Marie Kinzie, and Messrs. Frederick Hardy, Harold Scott, Van Kinzie, Frederick Horan and others.

* * * * * *

The first starring tour of James H. Hackett will begin shortly under the management of Daniel Frohman. Mr. Hackett will have an excellent company. Miss Mabel Amber has been secured as his leading lady. "The Tree of Knowledge," the play which was so successful at the Lyceum Theatre, New York, last year, will be the principal piece in Mr. Hackett's repertoire. He will visit this city during the season.

—Another big shipment of peaches will be displayed by Neuman Bros., tomorrow morning.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, Sept. 9—Bernard P. Sirisky, of the borough, was married to Miss Anna Stark, of Raritan, at the Church of the Immaculate Conception at Somerville Wednesday afternoon. Rev. Father Bogaard performed the ceremony. Miss Martha Sirisky acted as bridemaid and Ambrose James as best man. A reception was held at the home of the groom's parents at Raritan. The couple will make their home here, where the groom has a barber shop.

A crowd of young men and boys made the early part of last night hideous with shouts and noise in the vicinity of Bernard P. Sirisky's house. Sirisky brought home his bride Wednesday night and last night he was serenaded. A huge bonfire was built in front of the house, and this added to the confusion. Sirisky treated the visitors to refreshments.

During the storm Wednesday Edward Mauer's new barn was blown down. The barn was in course of erection and was not entirely enclosed. The structure now is a total wreck.

Allen Wilson lost a horse Tuesday night. The animal was overcome by the heat Tuesday, and dropped near the Town Hall on Prospect avenue.

The storm took down a big tree in front of A. N. Randolph's house Wednesday afternoon, and another from in front of John Moynihan's.

Mrs. A. N. Randolph and Miss Virgie Tunison are visiting Mr. and Mrs. Manning Randolph, of Piscataway.

Miss Jessie Haynes and Miss Cora Dayton, of New Market, are spending a week at the Delaware Water Gap.

Miss Ella Boice has returned from Gladstone, where she has been visiting Miss Lizzie DeMott.

Mrs. Josephine Dunham and sister, Mrs. Ayres, visited in Plainfield yesterday.

Peter M. Schone has become an inmate of the Soldiers' Home at Kearney.

Miss VanMiddlesworth, of Plainfield, visited relatives here yesterday.

Mrs. Ayres, of New York, is visiting her sister, Mrs. J. Dunham.

Miss Rose Becker, of Raritan, is visiting Mrs. J. D. Anderson.

Miss Minnie VanMiddlesworth, who has been ill, is better.

Mrs. W. L. Larrabee is visiting at Brookfield, N. Y.

NEW MARKET.

(Special Correspondence of the Daily Press.)

New Market, September 9.—Miss Myra Runyon, of Plainfield, visited friends here yesterday.

Miss Edna Smalley and Miss Mabel Palmer, of Orange, have been visiting Miss Emma Nelson.

Miss Mamie Phillips, who has been visiting Miss Day, has returned to her home at Hopewell.

Mr. and Mrs. George Newhall and family are among the guests at the Nelson House.

William Tremain gave a dance Wednesday evening which was well attended.

Rev. Frank Fletcher and wife attended the Waverly Fair yesterday.

'PLAINS AND FANWOOD.

(Special Correspondence to The Daily Press.)

Scotch Plains, Sept. 9—Miss Sarah Drake visited friends in Plainfield

Bon Ami

WAS POLITICIANS' DAY.

CONTINUED FROM PAGE 1.

succeed Senator Smith, was able to greet all the rivals with a smile and a hearty handclasp. Kean still has no rival for the Senatorship and he will afford the Republican party valuable aid in the election of the legislative candidates.

The launching of the Pitney boom and confab at Waverly yesterday will rapidly crystalize the Gubernatorial situation. Essex united, would hold the balance of power in the convention, but if there is a three-cornered fight in Essex, as now seems probable, it is hard to tell how the delegation will stand. The Voorhees men claim that the Acting-Governor cannot now be beaten for the nomination without seriously jeopardizing the party's chances at the polls. They try to make light of the Senatorial complication and deny that his popularity has diminished. But, withal, they are casting anxious glances toward South Jersey.

THE COURTS.

JUSTICE NEWCORN.

Judgment rendered — In the case of Westphal & Son against Barton, for full amount and costs.

Adjourned—Cases of Russo against Macoroni; Gato against Macoroni; and Bimbo against Macaroni, to September 17th.

JUSTICE NASH.

Summons issued—In the case of Coon against Smith, on contract, landlord and tenant, returnable September 14th.

—Parents desirous of having their children become proficient piano players are referred to the card in another column of Mr. Goodwin, 105 Manning avenue

Thursday.

Miss Emma Adams, who has been spending her two months' vacation in New York State, has returned and taken up her residence with Mrs. Thomas Whitnack.

John Schmidt and George McCauley returned to their duties at Fort Slocum Thursday, after enjoying a forty-eight hour furlough.

Mrs. Henry Meyers is reported as improving very nicely after the recent operation performed at Muhlenberg Hospital.

The electric lights are once more burning in the village and Scotch Plains had a more cheerful look last night.

Twilight Council, Jr. O. U. A. M., hold an important meeting in their rooms this evening.

Rev. J. S. Braker will lead the prayer meeting in the Baptist church this evening.

Mrs. James Ritchie, of Plainfield, spent Thursday with old friends in town.

Mrs. Ira G. Walker is entertaining her cousin, Miss Foster, of Morristown.

Robert Walpole is entertaining his son-in-law, Mr. Hueston, of Brooklyn.

Miss Florence Darby, of Alton, spent Thursday with Miss Cora Miller.

Mrs. Stiles M. Parse has returned from a visit with friends in Newark.

Miss Louise Barr spent Thursday with friends in Plainfield.

WESTFIELD.

(Special Correspondence of The Daily Press.)

Westfield, September 9.—Edward Wright, of the United States steamer Detroit, is enjoying a week's furlough with friends in Westfield and Plainfield. He took part in the battle of San Juan and was also present at the battle of Santiago, although his ship did not take part in the fight.

The following Plainfield firemen have been visiting friends in Westfield: L. M Dunavan, of No. 1 Company; J. Dawe, of No. 2 Company; William Townley, driver of Alert Hose Company, and Robert Ike, of Engine Company No. 2.

During the heavy storm Wednesday two large smoke stacks on the Bloodgood mills were blown off, and nine large trees in the front yard at the home of Frank Slade, on the Rahway road, were torn up by the roots.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness, caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular; free.

Hall's Family Pills are the best.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way.

Mayor Wilson, of the borough, was in New York yesterday on business.

Mrs. A. D. Pope, of Lincoln place, will soon remove to 43 Somerset street.

Charles Hyde and family, of East Front street, have returned from Europe.

Miss Pauline Guatelli, of Newark, is spending a few days with Plainfield friends.

Miss Minnie Smalley, of Somerset street, is much improved from a serious illness.

Miss Kate Rogers, of East Third street, is visiting Brooklyn friends for a few days.

Miss Moynihan, of the trading stamp store, has returned from her annual vacation.

Prof. Thomas Stillman, of Stevens Institute, Hoboken, has been visiting Plainfield relatives.

F. T. Woodhull and family, of Sycamore avenue, have returned from their summer outing.

Miss Mamie Foley, of Brooklyn, who has been visiting Plainfield friends, has returned home.

Miss Florence Hawkins, of LaGrande avenue, has entirely recovered from a recent serious illness.

Mrs. Henry VanMiddlesworth, of Elmwood place, has returned from a visit with Jersey City friends.

Miss Young, of Trenton, who has been visiting Miss Boice, of East Front street, has returned home.

Mrs. Cadmus, of Somerset street, who has been visiting out-of-town friends, will return home next week.

Miss Carrie S. Pangborn, of 33 Linden avenue, is visiting her brother, James E. Pangborn, of Spruce street, Newark.

B. J. Shreve and family, of Grove street, are stopping at Mt. Holly, N. J., during the weeks of Mr. Shreve's vacation.

Mrs. Margaret VanNest, of 526 West Third street, who has been ill with nervous prostration, is somewhat improved.

Rev. Dr. Samuel Hamilton, of Louisville, Kentucky, is visiting at the home of D. N. Groendyke, of Mercer avenue.

Thomas Minford and family, of Watchung avenue, have returned from their summer outing at Narragansett Pier.

Miss Maude VanDyke, of East Front street, who is visiting relatives at Liberty Corner, will return home next Monday.

Mrs. W. H. Tams and son, who have been visiting Mrs. Tams' father, Councilman Moffett, have returned to their home in Trenton.

Mrs. George Wilson, (nee Miss Ida Deacon) formerly of Plainfield, but now of Canada, is visiting her many friends in this city.

Mr. and Mrs. Osroe Bittle, of Newark, have been the guests of Mrs. Bittle's brother, William Boice, of Washington avenue.

Sadie Wilson, daughter of Chief Marshal and Mrs. Wilson, of the borough, is spending a short time in the country with relatives.

Rev. George Hauser, of Duer street, who has been sojourning in Germany, has returned to his home. He reports having had a delightful trip.

Miss Ella Conover, a trained nurse in the Mercer Hospital at Trenton, is visiting her brother, Charles Conover and family, of Elmwood place, for a time.

Mrs. Hellwig and daughter have returned from their trip to France, and are now at their home at the corner of Watchung avenue and East Fifth street.

Mrs. J. W. A. Bauersachs and daughter, of Grandview avenue, attended the Waverly Fair yesterday. Miss Bauersachs will visit friends in Newark for a few days.

A letter has been received from Isaac Laing, of Dunellen, who is now at Mt. Pocono, Pa., for his health, and he is not improving as rapidly as his friends would like. He will probably return home at an early date.

George Mehl, Jr., and family, of West Fourth street, arrived home yesterday from their summer outing most of which was spent with Mrs. Mehl's parents, Mr. and Mrs. Cornelius Buckley, in the Catskill Mountains.

Many people interested in the movements of Professor and Mrs. A. D. LaCasse, of North Plainfield, so well-known as survivors of the ill-fated steamer, the Burgoyne, and who had the bravery to dare attempt crossing the ocean again last week, will read with pleasure that they registered Tuesday at the office of the *New York Herald* in Paris.

—Michael Weber, the East Third street butcher, will soon open a meat market on Grove street near Greenbrook road.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—Bartlett pears, peaches and tomatoes for canning, at Neuman Bros.

—For Sunday's breakfast attend Rogers' afternoon and evening special.

—A great deal for little money is what you get when you buy your shoes and footwear at Flynn Brothers, 222 West Front street.

—An interesting meeting of the Christian Endeavor Society of the First Baptist church will be held this evening. All are invited.

—Extra men were engaged all day yesterday repairing the damage to the Plainfield Electric Light Company's wires about the city.

—Employes of the city have succeeded in draining the large pond of water on West Front street opposite Washington avenue. This water fell last Wednesday.

—There will be an important meeting of the Borough Board of Education next Monday evening, when matters pertaining to the new schoolhouse will be discussed.

—No better laundry in Plainfield than that of the City Hand and Steam Laundry, Morey & LaRue, proprietors, 19 Somerset street. Drop them a postal, or telephone, and they will call for your order.

—It is said that, under the school law, a certificate must be filed at the county clerk's office for each child attending a public school in a district in which no school tax for such child is paid, and the district in which the child lives is required to reimburse the district in which the child attends school for the child's tuition.

Central Railroad of N. J.

will run a

Low Rate One Day Excursion to

Lake Hopatcong

Saturday, Sept. 10, 1898.

For this occasion special excursion tickets from Plainfield will be sold, good to go on special train leaving at 9:08 a. m. Sept. 10th and to return on special train same day, leaving Lake Hopatcong at 5:30 p. m., or by any regular train Sept. 11th or 12th.

Edward White.

THE SUNDAY LESSON.

INTERNATIONAL SERIES, WITH COMMENTARY BY DR. STEARNS.

Golden text:—They also have erred through wine; and through strong drink are out of the way. Isaiah xxviii: 7. Sept. 11, 1898.

1. "Come and let us return unto the Lord, for he hath torn and he will heal us; he hath smitten and he will bind us up." The topic of this lesson is "Sinful Indulgence," and it is assigned as the quarterly temperance lesson. It is possible that the committee meant the first eight verses of chapter vii, for there is a reference in verse 5 to bottles of wine. But we shall in our meditation upon these verses consider the book as a whole and thus gather what we can of the mind of the Lord. Hosea in Israel was contemporary with Isaiah in Judah, as will appear by comparing Isa. i, 1, with Hos. i, 1. The great sin of both Judah and Israel was that of turning away from the Lord, as is simply stated in Jer. ii, 13, and God's constant cry to them was that they should turn to him again. See Jer. iii, 1, 7, 12, 14, 22; iv, 1, etc. This Hosea urges them to do in the first verse of our lesson, identifying himself with them in their sins, as did all the prophets, typifying our Lord Jesus, who took our sins upon him that he might save us. See Dan. ix, 5, 6, 8, etc., and II Cor. v, 21; I Pet. ii, 24.

2. "After two days will he revive us, in the third day he will raise us up, and we shall live in his sight." All prophecy is full of a glorious future for Israel when their sins shall be blotted out, and they shall be a righteous nation before God in the midst of the earth (Isa. lx, 21; Jer. xxxi, 33, 34). In Ezek. xxxvii, 12, 13, and Dan. xii, 1, 2, this restoration of Israel is associated with resurrection. It is possible that in this verse there is a looking back to Isaac being given back to Abraham on the third day, a looking forward to the resurrection of Christ on the third day and to the restoration of Israel two days or 2,000 years after their scattering. Note also the reference to the third day in the life and in the teaching of our Lord and take as a constant prayer "That I may know him and the power of his resurrection" (Phil. iii, 10).

3. "Then shall we know if we follow on to know the Lord; his going forth is prepared as the morning." It is written in John vii, 17, "If any man will do his will, he shall know." There must be a forgetting and a pressing on if we would know him (Phil. iii, 13). Israel grew weary of him and of his teachings and guidings, and they left off to take heed to the Lord, forgot his law, joined themselves to Idols, and dealt treacherously against the Lord (chapters iv, 6, 10; v, 4, 7). All intemperance in meat or drink or in the pleasures or occupations of life is due to a lack of the knowledge of God. His coming in glory, which is doubtless included in his "going forth as the morning" is the purifying hope of John iii, 3.

4. "O Ephraim, what shall I do unto thee? O Judah what shall I do unto thee? For your goodness is as a morning cloud and as the early dew it goeth away." Ephraim stands for Israel, the ten tribes. God tried every way to win them, but their piety was transient as a morning cloud dispersed by the rising sun (xiii, 3). They cried unto the Lord, even howled upon their beds, but it was not with their heart, and when they assembled themselves, apparently to worship God, it was really for corn and wine, or, in other words, to eat and drink for their own pleasure (chapter vii, 14). They did not know that the Lord gave them their corn and wine and silver and gold which they used upon Baal.

5. "Therfore have I hewed them by the prophets; I have slain them by the words of my mouth, and thy judgments are as the light that goeth forth." They considered not that all their doings were before God's face (vii, 2), and that he saw their divided heart (x, 2). Through the prophets by his word, which is like a fire and a hammer that breaketh the rock in pieces (Jer. xxiii, 29). He had sought to break their pride and their rebellion, but their doings would not suffer them to turn unto their God (chapter v, 4, margin). Many know what they ought to do and know of God's love for them and claims upon them, but they stop their ears and harden their hearts and prefer their pleasures of sin for a season. They will not believe that as they sow so shall they reap, and they that sow the wind shall reap the whirlwind (chapter viii, 7).

6. "For I desired mercy and not sacrifice, and the knowledge of God more than burnt offering." Sacrifice was instituted when God in mercy gave to man redemption garments (Gen. iii, 21) thus foreshadowing the sacrifice on Calvary, wherein was manifest the great love of God to sinners. God desires not sacrifice, for the blood of bulls and goats cannot take away sin (Ps. xl, 6; li, 16; Heb. lx, 12). He does not ask gifts nor religious favors from those who fancy themselves righteous, but he desires to give redemption freely, by the sacrifice of himself, to all who will receive him. When we learn to know God, and his love, and his way, we never think to offer him anything to win his favor or in any way propitiate him, but accepting his propitiation, Jesus Christ, our Lord, we yield ourselves to him, a living and will sacrifice, bought by his blood.

7. "But they, like Adam (margin) have transgressed the covenant; there have they dealt treacherously against me." On God's part all is perfect—perfect love and grace and faithfulness for the undeserving. The break and the failure are always upon man's part. Yet God changes not; he abideth faithful and is ever the same (Mal. iii, 6). Although they were guilty of all manner of sin as recorded in the next chapter and elsewhere, yet his cry to them was, "O Israel, return unto me, thy Lord thy God; I will heal their backsliding; I will love them freely" (chapter xiv, 1, 4).

8. "Gilead is a city of them that work iniquity, and is polluted with blood." Gilead was noted for its spices (Gen. xxxvii, 25; Jer. viii, 22), but now it was anything but a pleasant odor to God. Even the priests were full of iniquity, as stated in the next verse, and yet they sought to cover up their iniquity by their sacrifices, as if God could not read their heart. God will receive a sinner, however great his sins, if only the sinner will confess his sins, and turn from them to God.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Sept. 11. Comment by Rev. S. H. Doyle.

TOPIC.—"Self indulgence or self denial?"—I Cor. ix, 24-27; Gal. v; 16-24. (A temperance topic.)

Self indulgence is the greatest curse of Christianity today. Self denial is its greatest need. Self denial is demanded and self indulgence forbidden, not only for the good of others, but also for ourselves. We should deny ourselves for the sake of others. We should also deny ourselves for the sake of self. Self interest should make us self denying and keep us from self indulgence. Paul practiced self denial both that he "might save some" and also that he himself "might be partaker thereof."

1. The willingness of men to deny themselves for perishing worldly honors should inspire us with a willingness to deny self for immortal honors (I Cor. 24-27). Paul illustrates this by the runner in the Isthmian games. One who contested for the prize in the Isthmian games, the glory of Corinth, had to deny himself, had to be temperate in all things. For ten months before the contest the candidates, according to ancient authorities, had to be pure, sober and enduring to obey orders, to eat sparely and simply and to endure fatigue and hardship. This denial of self was absolutely necessary to inspire hope of success. Without it it would be useless for one to contend. His condition would be such that he could have no hope for success. The contestants did not refuse to fulfill the conditions. They did it willingly and cheerfully, and, too, that they might obtain a corruptible crown, a fading garland of Isthmian or Nemean parsley, or Pythian olive, or Olympian bay. How much more willing therefore the Christian should be to deny himself, since he strives for an incorruptible, an unfading, an unwithering crown, "a crown of righteousness," "a crown of life," and that, too, eternal life. This self denial is also absolutely necessary to success in the Christian race. We cannot live an indulgent and a Christian life at the same time. The extent to which Paul went in self denial he illustrates by the pugilist as a fighter. He strikes real blows at his body, not feints or blows at random. He declares that he bruised his body and smote it under the eyes. Keeping it thus in subjection, Paul referred to no harmful bodily torture, but to noble self sacrificing labors and self denials for the good of others.

2. The fruits of self indulgence and self denial should inspire self denial (Gal. v, 16-24). Self indulgence leads to the grossest sins, which forever debar us from the kingdom of God. Self denial produces the fruits of the spirit, which make us Christlike and Christ possessed. They that crucify the flesh for Christ's sake are Christ's.

As Christians and Endeavorers let us go often to Calvary that we may drink deeply from the fountain of noblest sacrifice and self denial, and, thus refreshed and strengthened, go into the world and teach it by our lives what true self denial is and its superiority over self indulgence.

Bible Readings.—Prov. xx, 1; xxiii, 1-3; Jer. xxxv, 1-9; Math. xvi, 24-28; Mark viii, 34-38; Luke iii, 11-14; ix, 22-25; xiv, 26-33; Acts ii, 44, 45; xx, 24; Rom. vi, 12-14; xii, 1, 2; xv, 1-3; Phil. ii, 1-12; Heb. xi, 24-26; I Pet. ii, 11, 12.

Shake Off Melancholy.

It is only selfish people who contrive to be always happy and placid whatever happens. They are so thoroughly unsympathetic, so unmoved by the joys and sorrows of others, that so long as they live in comfort they are perfectly content. But a great many well meaning people contrive to be unhappy when they might well be the reverse. They have made up their minds that this world is a sad and weary one, and they will not grasp and benefit by the few joys that come in their way. They may fully understand the divine dictum, "Weep with them that weep," but they fail to realize the equally binding obligation to "rejoice with them that do rejoice."—Lutheran Observer.

The Lord Decides.

No Christian can doubt that the Lord of hosts, who cares for right and justice, decides the issues in great battles. Neither the skill nor the power of man can make the issue of any battle certain. Very frequently it is the seemingly unimportant thing that turns the scale and brings victory or defeat, and no Christian nation can afford to enter into war without asking and answering sincerely the question, Is it the Lord's cause? If we cannot commit our way unto the Lord in this matter, it is vain for us to boast of national glory and national resources.—Presbyterian Messenger.

The Negative of Life.

There is a negative side of life which, though not its most pleasant phase, is a very necessary one. When life is young, it seems to be surrounded by a vast shadowy world in which dreams are like realities and realities dreams. In time there comes a juster conception of what living on this practical earth means, boundary lines become more clearly defined, and while the positive side is being learned a lesson in negatives is also taught, and the latter is by no means an easy or a pleasant lesson to learn.—Presbyterian Banner.

Our Responsibility.

All that you and I are responsible for is doing our duty. Ours is the seeding, and God alone beholds the end of what is sown. How do we know how much good we accomplish when we do any good thing or utter any truth in love? Eternity will be full of surprises to us. Wait and see.—Theodore L. Cuyler.

What Is Happiness?

I have come to see life not as the chase of a forever impossible personal happiness, but as a greed for endeavor toward the happiness of the whole human family. There is no other success. —W. D. Howells.

EPWORTH LEAGUE.

Lesson For the Week Beginning Sept. 11. Comment by Rev. W. J. Yates, A. M. Topic, Laborers In the Vineyard.

SCRIPTURE READING.—Math. xx, 1-16, "Go ye also into the vineyard, and whatsoever is right, that shall ye receive."

A rich young Jew, a synagogue ruler in his native town, devout in spirit, had come to Jesus for direction. Deeply disappointed at the direction to dispose of his wealth and become an apostle of Jesus, he had gone away and rejected the call. This gave occasion for the Master to remark on the difficulty one having wealth found in entering the kingdom of God.

Amazed that riches were a hindrance to discipleship, the apostles called attention to their own condition of poverty and the fact of their having abandoned all worldly prospects of advantage in following Him. He promises them thrones of glory in "the regeneration" and great increase to all His followers who deny themselves, but adds the significant words that "many that are first shall be last, and the last first." Then follows the parable of the laborers in the vineyard.

The striking points of this are: The hiring of the workmen at an agreed price in the morning; next, the successive calls at the third, sixth and eleventh hours to idle laborers and the sending them to work with only the promise of proper pay. The generosity of the master in giving a full day's wage to the later hired workmen is striking. The discontent and open criticism of their employer by the first hired because he gave them only their just wages and their jealousy of the later hired workmen show vividly the evil heart of the laborers in contrast with the benevolent action of the lord of the vineyard.

This parable is far from teaching that God distributes his favors arbitrarily and without reason or regard for merit and service. It is a direct rebuke of the hireling spirit shown by Peter in his question: "What shall we have? Behold, we have forsaken all and followed thee!" It shows that salvation is God's free gift. No man can by his work confer a favor on God. No man can be saved except by becoming right and keeping right. When he has done all, when sins have been repented of and faith exercised, he is still an unprofitable servant and does not merit eternal life. He must enter heaven, if he enters at all, by God's pure grace forgiving and saving him. Go, then, into God's work, labor faithfully, and you shall have a hundredfold here, and He will give you of His own mercy, eternal life, hereafter.

Rev. W. A. Spencer, D. D.

One of the most widely and favorably known officers of our connectional benevolent societies is the secretary of the Church Extension society, Rev. W. A. Spencer, D. D. In the prime of life, alert of mind, vigorous in physique, devout of spirit, forcible, humorous, pathetic, persuasive in utterance, a singer

REV. W. A. SPENCER, D. D.

of exceptional ability, a soul wholly given to the work, all this makes him a welcome visitor to the annual conferences and the local churches. Since November, 1885, when he was elected to fill the position formerly held by Chaplain McCabe, he has been identified with the responsible work of this society. It has prospered during his time of service far beyond all previous record.

How the Call Came.

How God called Abraham is not stated. That the manner was different from that in which God now speaks to men is extremely doubtful. The human spirit is adapted to receive communications from the Divine Spirit as truly as the human ear is adapted to hear natural sound or the eye to see physical objects. Whoever will give attention to his soul life can be as sure of the Holy Spirit's presence as he is of the outer physical world and can understand His utterances as clearly as he knows the meaning of common words of his mother tongue.

The Spirit still says to men, "Come" and "Go." Inattention and stubborn refusal dull the senses to the call as men in sleep or drunkenness give no heed to warning voices. Then the Spirit is grieved and leaves them. Listen to the Spirit's call and get into the new land and let God make somebody of you.

Get Into the Best Society.

You can if you really wish to do so. It will take time and thought and hard work, but it will pay. It is worth all it costs and much more. Really you can't afford to be in any but the very best if you are anybody and wish to make the most of yourself and your opportunities. Besides, it does not take any more effort to belong to the best, after you get in, than it does to move in the lower grades of social life. The top is none too good for you. Look up and get up. If you are given to looking down, you are apt to fall down.

Lokal-Nachrichten aus der alten Heimath.

Provinz Ostpreußen.

Königsberg. Hier hat sich ein Verein gebildet, um Gymnasialkurse für Frauen und Mädchen in's Leben zu rufen. Die Kurse knüpfen an das Unterrichtsziel der höheren Mädchenschulen an und bezwecken nicht, die weibliche Bildung in andere Bahnen zu lenken. Vielmehr streben sie in erster Linie eine Vorbereitung für die Lehrerinnen an, die in die sogenannten Oberlehrerinnenkurse einzutreten gedenken, oder solchen Mädchen und Frauen, welche es wünschen, eine gründliche Ergänzung und Vertiefung ihrer Kenntnisse zu ermöglichen. Langsam und planvoll soll befähigten Mädchen die Möglichkeit gewährt werden, sich für eine erweiterte Erwerbsthätigkeit vorzubereiten. Der Eintritt in die Kurse, welche acht Semester umfassen, wird erst nach vollendetem 16. Lebensjahre gestattet. Dem Vereine gehören auch zahlreiche Schulmänner und hohe Beamte an.

Wartenburg. Bei einem hier zur Nachtzeit ausgebrochenen Brande kamen zwei Brüder in den Flammen um; drei Häuser wurden eingeäschert.

Provinz Westpreußen.

Danzig. Die Fahne des städtischen Gymnasiums hatte sich bei herrschendem Winde mit dem Blitzableiter eines Thürmchens verwickelt. Der Cementverband des Thürmchens löste sich, und ein fast einen Centner schweres Gesteinstück fiel herab und traf eine 32jährige Dame, die sofort todt blieb.

Thorn. Am Brückenkopf-Glacis wurde der Schuhmacher Hapke aus dem benachbarten Dorfe Rudak erschlagen aufgefunden. Neben der Leiche lag ein zersplitterter Knüttel. Der Mord ist am hellen Tage verübt worden, ein verdächtiges Individuum wurde bereits verhaftet.

Rheinprovinz.

Köln. In der hiesigen Gefangenenanstalt am Klingelpütz starb ein Insasse, Degenhard Empt, der seit 50 Jahren die Schwellen der Anstalt nicht überschritten hatte! Er war 1848 wegen Mordes zu lebenslänglichem Zuchthaus verurtheilt worden. Schon vorher hatte er fünf Jahre Zuchthausstrafe verbüßt. Von seinen 83 Lebensjahren hat er somit drei Viertel im Zuchthaus verbracht.

Aachen. Unser zweiter Beigeordneter, Bürgermeister Schürmann hat wegen eines andauernden Nervenleidens zum 1. Oktober seinen Austritt aus dem Amte angezeigt beziehungsweise um Pensionirung nachgesucht. Die Stadt Aachen wird vom 1. Oktober ab sechs Bürgermeister als Pensionäre haben, welche jährlich 27,000 Mark Pension erhalten.

Wahn. Auf dem hiesigen Schießplatz wurden von drei Personen, welche sich durch die Postenkette geschlichen hatten, um in der Nähe des Kugelfanges Bleistücke zu suchen, zwei durch eine Granate getödtet, die dritte schwer verletzt.

Provinz Sachsen.

Gardelegen. Eine furchtbare Feuersbrunst legte das Dorf Klein-Engersen zum großen Theil in Asche. Mit rasender Schnelligkeit ergriff das Feuer die zum Theil noch mit Stroh bedeckten Häuser, Scheunen und Ställe der Dorfstraße, und bald standen etwa 20 Gebäude in Flammen. Eine furchtbare Panik bemächtigte sich der Ortsbewohner. Die aus der Umgegend herbeigeeilten Spritzen waren fast machtlos, und so brannten sechs größere Bauernhöfe und sieben Grundsitzerstellen mit vielem Inventar, Haus- und Ackergeräthschaften, einigen Tausend Stiegen Korn, Holzvorräthen u. s. w. total nieder. Auch viel Vieh und Geflügel kam in den Flammen um. Menschenleben sind glücklicher Weise nicht zu beklagen.

Halle. Die theologische Fakultät der Universität betrauert den Tod eines ihrer beliebtesten Mitglieder, des außerordentlichen Professors Dr. Theodor Förster, der sich besonders durch seine ästhetisch-kritischen Forschungen auf kirchengeschichtlichem Gebiete, speziell des Kirchenliedes, hervorgethan hat.

Provinz Schlesien.

Breslau. Der hiesige Maurerstrike endete mit einer vollständigen Niederlage der Arbeitnehmer.

Flinsberg. Durch Brandstiftung entstand im hiesigen Gasthof „Berliner Hof" Feuer. Zahlreiche Kurgäste, die in diesem Gasthof wohnten, retteten nur das Leben. Fräulein v. Teichmann aus Berlin kam in den Flammen um; ihre halbverkohlte Leiche wurde später aufgefunden. Drei Kellner suchten sich durch Sprung aus dem oberen Stockwerk zu retten und erlitten schwere Verletzungen.

Oppeln. Bei einer Felddienstübung sind ein Unteroffizier und ein Gefreiter vom 63. Regiment vom Hitzschlag getroffen und gestorben.

CHAPTER III.

Sir Roy threw himself back in one of the easy chairs of the smoking room car and lighted a cigarette, and as he watched the curls of blue smoke float away above him, he could see in them the face of the woman he loved.

It was certainly not the petite face of Miss Emmott. For the eyes were large open sunny ones, the brow was square and broad, and the hair above it broke into wayward tendrils, which resisted all the possessor's attempts to keep them smooth. The cheeks were beautifully rounded and colored with a delicate glow of pink, and the whole face wore an expression of sweetness and nobility that would have attracted attention anywhere. Discovered in the rough dwelling of the Californian farmer who had given him shelter, it had instantly won the young Baronet's heart; and the sympathy and care which the girl Lilac had shown him had made him quite certain that here in this out-of-the-way part of the world, he had met the woman on whom the whole happiness of his life depended.

And Lilac—had she learnt to love him? He wondered, as he watched the blue smoke and thought how beautiful and clever and good she was. He had been nearly five weeks in her society, constantly, almost uninterruptedly, thanks to his broken leg, for which he was devoutly thankful; and yet he could not do more than hope that his passion for the beautiful California girl was reciprocated.

After traveling four or five hours in the cars, the young man left them at Tonkerville, a solitary station, to join the coach which traveled North, passing within six miles of his destination on its way to Carton Camp, an important gold-digging centre.

He had left San Francisco soon after ten in the morning, but it was becoming dusk when the lumbering vehicle rounded the bluff which marked the point where Garth was to part company with it. The young mining expert was not unaccustomed to such means of traveling, and he generally found the time pass pleasantly enough, for conversation with the driver on a Californian coach was always interesting, and the scenery was not monotonous. But on this day neither scenery nor conversation had any charm for him, and he could think of nothing but the end of his journey, counting the hours that must pass before he could reach the Gulch and see Lilac.

"Another hour and a half," he said to himself impatiently, as the coach rounded the bluff; and his face expressed the impatience he felt.

But as the coach stopped his expression changed. They had just come in sight of a narrow defile leading down from the higher country at the top of the precipitous rocks at the foot of which they had been driving. It was up this defile that Sir Roy must start on his walk to the Marvels' ranch, and there was a faint hope in the young man's heart as he looked up it. Immediately he did so hope became a reality, for racing down the defile at tremendous speed came two horses abreast, one riderless and held by the bridle, while on the other was seated a girl in a crimson skirt, and cape over a white blouse, with no covering for her head but the luxuriant brown curls that floated behind her as she flew down the ravine.

"Oh, you needn't feel scared, mister!" said the driver to Sir Roy, for the young man had sprung up as if in alarm. "You needn't be afraid of Miss Lilac coming to any harm on a horse;" and he glanced with an amused smile at Garth's face, which had grown deathly white. The Baronet compressed his lips as he stood in his place upon the coach and watched the two horses come tearing down toward them, looking as if they must inevitably dash into the coach or against the wall of solid rock at its farther side. But, as the driver said, he need not have feared, for close up to the coach the horses were turned dexterously, and made to describe a narrow circle around it. They stopped, facing the horses of the vehicle, and the fearless rider, flushed with the playing of the wind upon her cheeks, waved a greeting to her friend the driver, and waited for the Baronet to get down from his seat as quickly as his leg which was still rather stiff, would allow.

SHE FLEW DOWN THE RAVINE.

They exchanged no greeting until the coach had lumbered on again on its journey to Carton Camp. Then, as they rode up the ravine, Lilac turned towards her companion and held out her firm little hand.

"I am glad I was here in time to meet you," she said, as he took it and held it for a moment in his, "but it was a narrow squeak—wasn't it. They kept me running about at home until the last moment."

"I think it was very kind of you to come, Miss Lilac," said Sir Roy, as he looked into the girl's beautiful face still aglow with her gallop. "I expected to have to walk to the Gulch."

"With your injured leg? You do think us unkind!"

"I think you are the kindest person I ever met," he answered, with a perceptible stress upon the pronoun.

"What—to give myself a jolly ride at the very nicest part of the day, instead of stopping in to wait on uncle and Lance? I do not think so, but since I have taken the trouble to bring you a horse, Sir Roy, I think you might at least ride it.

She handed the bridle of the spare horse to the Baronet as she spoke, and in another moment he was in the saddle.

"I wish you had not come back to the ranch, Sir Roy!" she said, with determination in her clear sweet voice.

The Baronet turned to her in anxious surprise.

"What—are you sorry to see me again?" he asked very seriously; and Lilac smiled in spite of the cloud that had gathered on her face before she spoke.

"No—I am glad for myself," she answered with child-like honesty; "but I do not think it is safe. All the men in the place know that you have come back with money."

"But I told only your uncle and cousin."

"That was enough. Lance was sure to tell the men."

"But I have been more than a month at the farm, Miss Lilac," protested the young man, "and no one has attempted to injure me"

"They had nothing to gain by it. Your money was stolen while you lay insensible after your accident."

"And you think your uncle's labourers relieved me of it?"

"They have an evil name," said the girl slowly, as if unwilling to admit the well-known bad character of the occupants of Deadman's Gulch.

Sir Roy's face grew anxious.

"And you have to live among them?" he said.

Lilac laughed rather uneasily.

"I am safe enough, but you ought not to have come."

The young Baronet was chilled by the determination in her tone. It seemed almost as if she refused to welcome him back.

"Would you have been better pleased if you had never seen me again after you bade me 'Good-bye' a few days ago?" he asked, bringing his horse quite close to her side.

"No; I shall miss you very much but there was no need for you to come."

"But I have to pay back the money I borrowed from Mr. Marvel; and I could not trust anybody else to deliver." He had taken a neat little morocco case from his pocket, and handed it to her as he spoke, watching her face as he did so.

The girl's face had flushed a crimson at the first mention of a present, but the flush departed quickly and left it quite pale as Lilac dropped the bridle upon her horse's neck to open the case and see what it contained. Sir Roydon Garth's heart sank as he watched the girl's beautiful expressive eyes, and saw a look of pain, where he had almost dared to hope for something else, when Lilac caught sight of his gift—a slender gold ring, ornamented with a little cluster of diamonds set in the form of a heart, and surrounding a ruby of unusual size and brilliance.

It was a beautiful and valuable little trinket; but the girl to whom it was offered had scarcely glanced at it when she reclosed the case and handed it back to her companion, whose face had grown as white as her own.

"Won't you keep it, Lilac?" he said quietly; and the girl, turning to him, answered almost fiercely—

"I would rather not. I am very sorry if you should consider that I expected payment for the little help I was able to give you when, ill and helpless, you were confided to my care. I have nothing to do with the anxiety that my uncle and cousin show for repayment; but I did not think you would insult me by concluding that I am like them. I suppose you cannot help thinking it when we are so closely related!"

There were tears of anger and indignation in the eyes that haughtily met his. The young man's did not shrink before them. Instead, they brightened with a smile of relief.

"My dear little girl, how you misunderstand me!" he said tenderly, bringing his horse close to her side again. "As though I could ever pay you, if I dreamed of such a thing, for what you have done! I want you to take this ring and wear it as a sign that you will be my wife. I love you with my whole heart, darling, and I cannot go back to England without you! Tell me that you have learned to care a little for me, too, and will come with me!"

CURRENT BASEBALL NEWS IN AND AROUND PLAINFIELD.

Bits of Information and Comment Gleaned From the Great National Game —Latest Scores of the League Teams

The Riverdale Field Club have secured Arthur Lederer, the crack second baseman of the old Crescents, to cover second base for them, the manager knowing Lederer's playing ability and also that he is very popular with the ball cranks. Lederer has not been playing regularly with any team.

CYCLING COMMENT.

Local Consul of the L. A. W. Thos. A. Cuming went to Waverly Fair today on his wheel to be the guest of the management.

No Y. M. C. A. bicycle run was held last night. Only four wheelmen met at the building and they were not enthusiastic enough to attempt a long run, so all four stayed home. The memorable run to New Brunswick early in the season, when they were given such a cold reception, has heartily sickened the boys of the wheeling trips. The last one occurs two weeks from last night, Sept. 22d, and the destination of the party will be Orange. It is hoped that a large delegation will turn out.

A big time is looked forward to for tomorrow at the Oval. Bicycle races and a baseball game will be in progress during the afternoon. The bicycle races will start at 2 o'clock, the ball game at 4 o'clock. There are three events scheduled—a one-mile open, five-mile handicap, and a two-mile scratch. On account of the many entries the one and two-mile races will be run in heats. Prizes are now on exhibition in Chas. Lister's show windows. The ball game will be between the Riverdales and the New York Athletic Club.

AT THE TRAPS.

A. I. Smalley and John D. Kirch, of the borough, have agreed to shoot a match Saturday afternoon at 50 clay birds. Both are good marksmen, Mr. Kirch's record being ten out of twelve birds. The match will be shot at Eureka Park, and is for $50 a side.

MODELED AFTER A FRENCH BAZAAR.

Practical and Pretty Arrangement of Goods in Woodhull & Martin's Store.

The sound of the hammer and the saw and the swash of the painter's brush is mingled with the ripping of calico and the whirr of the cash railway in Woodhull & Martin's dry good store in the Babcock building, and indicates that great improvements are being made in this mercantile emporium. It does not require very close observation of those who have been in the store before to see that many changes have been made in the arrangement of stock.

The store is now modeled after a French bazaar, and a very pretty and practical arrangement it is. The furniture which was located on the east side of the first floor has been removed to the basement, and in its place the hosiery, notions and underwear have been established.

All of the shelves in the center of the store have been removed, affording an uninterrupted view of any part of the floor from all points. Four main aisles have been formed with handsome large showcases at the sides, which will give an opportunity for a fine display of the best grades of stock carried by the firm.

Several new departments have been added to the store, among them being a line of stationery, upholstering and satchels and handbags. No town in New Jersey can boast of a handsomer or more enterprising store than that conducted by Woodhull & Martin.

PARTICULAR MENTION.

H. M. Estil is suffering with an attack of inflammatory rheumatism at his home on Grove street.

Among the Plainfielders who have been registered for the season at Lake Minnewaska, N. Y., are Mrs. Moore and her daughters, the Misses Moore, of Central avenue.

Mr. and Mrs. Clarence Varian have returned from their wedding trip, which was spent at the Kittany House, Delaware Water Gap. They will reside with Mrs. Varian's parents on East Fifth street.

Trolley Opposed by Railroad.
(Special to The Daily Press.)

New Brunswick, September 9—J. Blair MacFee, vice-president of the New York and Philadelphia Traction Company, is quoted as saying that the extension of the trolley lines from Bound Brook to New Brunswick on the west side of the Raritan river is delayed because the Pennsylvania Railroad Company, which controls the Delaware and Raritan Canal, will not allow trolley tracks on the bridge over the canal at Bound Brook. It is the intention of the trolley people when this section is completed to extend a line to Trenton, and it is suggested that the Pennsylvania Railroad Company is blocking the trolley people through fear of losing traffic between this city and Trenton.

Award For Damages Cut Down.
(Special to The Daily Press.)

Elizabeth, September 9.—Mrs. Ann Parker secured a verdict at the January term of the Union County Circuit Court for $5,000 damages against the Consolidated Traction Company. Her injuries were sustained while alighting from a trolley car here. The Traction Company appealed the case to the Supreme Court on the ground that the verdict was excessive. The Supreme Court this week cut the verdict down to $1,500, which, it is said, is one of the largest reductions ever made in a verdict of a Union county jury.

New Electric Light Plant.
(Special to The Daily Press.)

Westfield, Sept. 9—The Ironclad Resistance Company filed articles of incorporation yesterday with the clerk of Union county. The company's capital is $25,000, and the incorporators are Arthur W. Berresford, August P. Manning and Horace M. Williams. The company will carry on an electrical business for the purpose of supplying light, heat and motive power. The plant will be located at Westfield.

EARLY INTELLIGENCE.

—Men are now engaged in repairing the damage to the First Baptist church as a result of last Wednesday's storm.

—The last picnic of the season will be held next Thursday night at Mountainside Grove by Miantonomo Tribe of Red Men.

—Tomorrow at White's they will put their entire stock of men's fine negligee shirts on the counter at a price that will interest all the men.

—Tomorrow morning Neuman Bros. will have a grand display of peaches, pears, tomatoes, corn, melons, etc., etc. If you are putting off your canning don't let tomorrow go by without doing a part of it at least.

A SOUTH SEA STORY.

A Modern Robinson Crusoe Found on Christmas Island.

An English naturalist has lately explored an island in the South Pacific only recently discovered, and named Christmas Island. It was not thought to be inhabited by man or beast. The naturalist was, however, astounded to run across a huge bamboo house in the center of the island, and saw every sign of luxury through its open porticos, while the surrounding country was laid out in beautiful gardens.

As he appeared in the open glade an aged white man left a stockade close to the house, and, followed by his native wife and children, with twenty black servants and concubines bringing up the rear, came toward him. The modern Robinson Crusoe either refused to speak or had forgotten his native tongue, for he made himself understood by signs, and this dumb show was to the effect that if the visitor did not leave the island at once it would be worse for him.

The white man, like the natives, wore no clothing except a loincloth made of skins. The natives treated their white master with great reverence, evidently looking upon him as a big chief or a deity. The man's identity could not be learned.—Cor. San Francisco Chronicle.

STRANGE AMPUTATING DISEASE.

The Little Toe Contracts at the Base Until It Hangs by a Thread.

Dr. Bernard Wolff, an Atlanta, Ga., physician, some time ago treated a negrow woman for a peculiar disease known as "ainhum." Only three similar cases ever have been recorded in the United States. The disease had its origin in Brazil. It afflicts none but negroes. It has the curious effect of causing self-amputation of the little toes on one or both feet.

The first manifestation of the disease consists in a slight contraction of the flesh at the base of the little toe. This hardening continues until a ring is formed, which gradually contracts until the bone is absorbed and the toe hangs by a slender thread of flesh. There is little pain, though the toe often doubles under the foot, which causes annoyance. The cure consists in clipping off the toe, a simple and painless process that causes little loss of blood.

Dr. Wolff attributes the disease to the fact that the negro has a flat foot, so that every step taken results in a severe shock to the nerve leading to the little toe. This gradually diseases the outer member and causes the peculiar contraction of the skin.—New York World.

Lincoln's Bravery and Integrity.

Abraham Lincoln, when a young man, showed that, if he was unwilling to indulge in "wooling and pulling" for amusement, he did not object to it in a case of honor. A man came into his store one day who used profane language in the presence of ladies. Lincoln asked him to stop; but the man persisted, declaring that nobody should prevent his saying what he wanted. The women gone, the man began to abuse Lincoln so hotly that the latter finally said coolly, "Well, if you must be whipped, I suppose I might as well whip you as any other man;" and, going out of doors with the fellow, he threw him on the ground and rubbed smartweed in his eyes until he bellowed for mercy. Now, Salem's sense of chivalry was touched, and enthusiasm over Lincoln increased. His honesty excited no less admiration. Two incidents seem to have particularly impressed the community. Having discovered, on one occasion, that he had taken six-and-one-quarter cents too much from a customer, he walked three miles that evening, after his store was closed, to return the money. Again, he weighed out a half-pound of tea, as he supposed. It was night, and this was the last thing he did before closing up. On entering his shop next morning, he discovered a four-ounce weight on the scales. He saw his mistake, and, closing the shop, hurried off to deliver the remainder of the tea.

The First Man.

Teacher—Who was the first man?

Little Boy (at rear of class). George Washington, ma'am.

"Why do you think George Washington was the first man?"

"Because he was first in war, first in peace and first in the hearts of his countrymen."

Another boy raised his hand.

Teacher. Well, Johnny, who do you think was the first man?

Johnny. Don't know what his name was, but I know George Washington wasn't the first.

"What makes you so positive?"

"Well, my history says he married a widow; so there must have been a man ahead of him."

WHOLESOME ADVICE.

For People Whose Stomachs are Weak and Digestion Poor.

Dr. Harlandson, whose opinion in diseases is worthy of attention, says when a man or woman comes to me complaining of indigestion, loss of appetite, sour stomach, belching, sour watery-risings, headaches, sleeplessness, lack of ambition and a general run down nervous condition I advise them to take after each meal one or two of Stuart's Dyspepsia Tablets, allowing the tablet to dissolve in the mouth, and thus mingle with the food eaten. The result is that the food is speedily digested before it has time to sour and ferment. These tablets will digest food anyway whether the stomach wants to or not, because they contain harmless digestive principles, vegetable essences, pepsin and Golden Seal which supply just what the weak stomach lacks.

I have advised the tablets with great success, both in curing indigestion and to build up the tissues, increase flesh in thin nervous patients, whose real trouble was dyspepsia and as soon as the stomach was put to rights they did not know what sickness was.

A fifty cent package of Stuart's Dyspepsia Tablets can be bought at any drug store, and as they are not a secret patent medicine, they can be used as often as desired with full assurance that they contain nothing harmful in the slightest degree; on the contrary, anyone whose stomach is at all deranged will find great benefit from the use of Stuart's Dyspepsia Tablets. They will cure any form of stomach weakness or disease except cancer of the stomach. Full sized package at druggists 50c or $1.00 or by mail from Stuart Co., Marshall, Mich. 9-7-9

MR. M'KINLEY'S FAVORITE SONG.

He Loves the Everyday Tunes with Which Everybody is Familiar.

President William McKinley loves music. His life has been a busy and serious one, not given to accomplishments in music or art, save the art of political success. Yet nothing delights him more in the hours of recreation than sweet, simple music. At church services his baritone voice is heard in the congregational singing of the old familiar hymns. He is a Methodist, and knows from boyhood the simple melodies with which Methodists worship. Like other mortal men the ruler of this nation has his favorite hymns, songs and "tunes." To President McKinley the sweetest sacred song is the hymn that begins:

"There is a wideness in God's mercy.
Like the wideness of the sea."

Of the operas, he loves best "The Bohemian Girl," and the number that appeals most to his fancy is "The Heart Bowed Down." Nor does the President despise the modern songs of light opera and the vaudevilles.

During the campaign at Canton the young ladies of the city delighted to spend quiet, homelike evenings at the McKinley house. There was always a delightful season of song and jollity after the arduous tasks of the day, and the candidate for the Presidency was pleased with the up-to-date musical entertainment furnished by his guests.

His greatest delight was "Louisiana Lou," as sung for him by Miss Kate Huntington. Each time this fair and vivacious singer visited the McKinley cottage the most talked-of-man among millions asked her to sing that pseudo-negro melody, which she did in inimitable style.—Leslie's Weekly.

LIVING ANIMALS FOR JEWELRY.

New Fashion in Paris Uses Live Tortoises for Ornament.

The new "living jewelry" is all the rage in Paris. In a show window of a prominent jeweler on the Rue Royale there are a number of tiny living tortoises imbedded in jewels and crawling about on plush cushions.

The tortoises are from one-third to one-half of an inch long without the head. Their shells are covered with an ornament of filigree gold in which is set a number of precious stones. The little animals are in no way incommoded by their ornaments. To the shell is attached a tiny gold chain that can be pinned on the corsage by a safety pin.

When not exhibited on their plush back-ground in the shop windows the animals are allowed to crawl around in a little doll garden in the store, which is planted with real shrubs and has a rustic bridge and gravel walks. —Chicago Times-Herald.

Modifying the Story.

"Just at that moment," said the cheerful liar, "we saw a snake as big around as a stovepipe."

"Be careful," said the man who believes in sticking to facts.

"Cautious, now," cautioned the man who had spent some years in the study of everything in that line; "you know I am an authority on the snakes in this country."

"Of course, of course," returned the cheerful liar, cheerfully, "but you're not posted as to stovepipes. Some of these little gas stoves have mighty small ones."—Chicago Post.

No Chains for Her.

"I asked her to wear love's fetters for me."

"What did she say?"

"She said she couldn't think of it; that everything was chainless nowadays."—Detroit Free Press.

DON'T WANT VOORHEES BECAUSE HE IS POOR.

The Argument That Some Republicans Are Making.

MURPHY NOW IN THE FIGHT.

IT IS THOUGHT THAT HE WOULD FURNISH NECESSARY CASH.

As Yet, However, the Opposition to Voorhees Has Not Developed the Strength That It Will Require to Defeat Him—Voorhees' Friends Have Unbounded Confidence in His Popularity

(Special to The Daily Press.)

Trenton, Sept. 10—While the opposition to Foster Voorhees for the Republican nomination for Governor, seems earnest enough to encompass his defeat in the convention, yet it does not appear to be on the right track in order to be effective. During the week reports were circulated that some of the leaders were showing a determination to vanquish Voorhees. But so far they have not united on any particular candidate as against him, and until their efforts are concentrated in that direction their chances for success will be very slim. It cannot be denied that Voorhees has lost much ground during the past week, and he may meet with serious reverses unless the managers of his bureau bestir themselves and ascertain the location of the danger spots.

A prominent Republican leader said the other day that should Voorhees be nominated, he would be required to run his own campaign, with, of course, some assistance from the Republican State committee, but not nearly as much as had been given to John W. Griggs three years ago. John Kean will take particular pains to look after the legislative ticket, so that he may secure votes enough to land him in the United States Senate. In doing so, perhaps, the Gubernatorial ticket would suffer a slight which might prove fatal. But the friends of Governor Voorhees say they do not care much what John Kean may do, because they have unbounded confidence in the popularity of their favorite, which, they feel certain, will enable him to carry the State. But, perhaps Governor Voorhees is not so popular as they pretend to believe. While his career in the Senate and his adminstration of the affairs of State during his term as Acting-Governor have been marked by sturdy honesty and industry, yet some of his public acts are severely criticised. He was instrumental in defeating the biennial session amendment to the Constitution, which caused much displeasure in South Jersey, and he refused to sign the anti-trading stamp and school teachers' retirement bills, which caused much disappointment throught the State.

A Republican said the other day: "What's the use of nominating Voorhees? He has no money to spend, and a winning campaign cannot be made without the necessary funds. Neither has Pitney any money. Give us Franklin Murphy, and then, between him and John Kean, the wherewithal to run the campaign will not be lacking." Another Republican of prominence expressed himself for Judge Fort, whose ability as a campaigner and widespread popularity would, he insisted, prove stronger in the campaign than all the extra funds that could be raised for campaign purposes. It would seem, then, from all this talk that the Republican nominee for Governor has not yet been settled upon by any means, and that the respective friends of the four men before the public eye—Voorhees, Fort, Murphy and Pitney—will make the coming State convention one of the liveliest on record.

A veteran politician indulged in prophecy a few days ago by naming both the Republican and Democratic tickets, as follows:

For Governor—Franklin Murphy, Republican; Richard A. Donnelly, Democrat.

For United States Senator—John Kean, Republican; James Smith, Democrat.

For Chairman of the Republican State Convention—Gen. William J. Sewell.

For Chairman of the Democratic State Convention—Wm. B. Gourley.

Primaries for Congressional Delegates.

The Republican primaries to elect delegates to attend the Congressional convention will be held Monday evening, September 19th. The convention will be held September 29th.

Ready for School.

All of the borough school teachers have returned from their summer outing, and are getting ready for the opening of the public school next week Tuesday.

PRIMARIES IN SOMERSET

REPUBLICAN COUNTY COMMITTEE FIX THE DATE FOR SEPT. 19TH.

County Primaries Will Be Held October 17th and County Convention Two Days Later—Candidates Now in Field.

(Special to The Daily Press.)

Somerville, Sept. 10—The Somerset county Republican executive committee met yesterday afternoon at the County House for the purpose of fixing the date for the township primaries at which time delegates will be selected to attend the State convention to be held at Trenton September 22d, when a candidate for Governor will be nominated. The date for holding the primaries are fixed for Monday, September 19th, and the county has been accorded seventeen delegates, and North Plainfield will be entitled to two.

The date was also fixed for the county primaries, which will be held October 17th, and the county convention will be held October 19th, when a sheriff and assemblyman will be nominated. There are four candidates in the field for the office of sheriff. They are George C. Cooper, of Bridgewater; Assemblyman VanDoren, of Hillsborough; Messrs. Suydam and Snyder, of Franklin. It is conceded that VanDoren is by far the strongest candidate of them all.

Two candidates have thus far appeared in the field for the Assembly in the persons of Charles McMichael, of Bernards, and Joseph Freilinghuysen, of Bridgewater.

There seems to be the best of feeling in the party and the rivalry among the candidates is of a friendly nature. It is not a dead certainty that the whole support of the county will be given to Voorhees for Governor, although he is a strong man at present.

SERMON IN ENGLISH.

Danish Lutherans Taboo the Language of their Fatherland in the Church.

A year ago the Danish Lutherans of this city conceived the idea of holding services in English instead of German, as had been their custom for some time. The scheme was started, but was not a success. Now several of them are in favor of beginning again and pursuing a somewhat different course. Rev. Fred C. Graph, of Elizabeth, has been secured to preach Monday evening in the German Reformed church, on Craig place, and a large attendance is desired.

The reason given why they desire the services to be in English instead of German is that a large number of the members are English-speaking, and those who are not are bringing up their children to speak that tongue and want them to hear it on every possible occasion.

JERSEY SOLDIERS SHIVER.

Cold Wave Struck the Third Regiment in Real Earnest.

(Special to The Daily Press.)

Pompton Lake, September 10.—The cold wave struck the camp of the Third New Jersey Volunteers in real earnest last night. In the tents the men had to make themselves as comfortable as possible with their light blankets, while outside the sentries had to maintain a continuous walk or sharp run to keep warm.

A rumor that four of the six cases in the hospital were typhoid fever proves to be unfounded. There are five cases of malaria and on of rheumatism. Many similar cases are sick in quarters because the hospital has not been provided with additional cots and tents, for which requisition has been made.

Repairing the Damage.

Street Commissioner Gavett's men were out last night with the teams until 8 o'clock carting away the stumps and branches torn up and blown off by the wind storm Wednesday. This practically finishes the work, and most parts of the city have been put back in as good condition as before.

W. J. Roome's New Offices.

W. J. Roome, of Washington Park, has opened handsome new offices on Thirty-fourth street, opposite the Waldorf-Astoria Hotel, New York, where he will continue the large real estate business which he has carried on for a number of years on Sixth avenue near Twenty-fifth street.

W. C. T. U. Annual Meeting.

The Woman's Christian Temperance Union will hold their annual meeting in their rooms Monday, Sept. 12th from 10 a. m. to 5 p. m. Election of officers in the morning and annual reports. Reports of experience in earning a dollar by members and friends in the afternoon.

For Shooting Matches.

The Independent Scheutzen Corps and the German Beneficial Society, which recently combined, will arrange to use Keller's Grove next year for shooting matches.

A FAMINE OF ICE NOW THREATENS THE TOWN.

Supply of Hot Weather Commodity is Rapidly Giving Out.

PRICES ON THE INCREASE.

DEALERS REFUSE TO DELIVER LESS THAN FIFTY POUNDS AT A TIME.

Plainfield is Supplied by the Big Dealers at Lake Hopatcong and Mt Pocono, But Their Reserve is Nearly Gone and Maine Dealers are the Only One to be Appealed to, But They May be Too Far Away for Use

Where is Plainfield going to get her ice supply during the balance of the hot season and during the fall and early winter? This is the question that is interesting the ice dealers as well as the individual consumer. The question is hard to answer, for the supply is almost exhausted, and even the wholesale sellers are at a loss where to turn for more.

This is one of the most unique problems that has ever faced the ice consuming public. Very seldom is the crop itself exhausted, although sometimes its scarcity compels the dealers to demand an enormous price for it. But now not only is the price going up, but the supply itself rapidly diminishing.

A Press reporter has interviewed several leading ice dealers recently, and learns that this almost unprecedented thing, a dwindling away of the reserve, has actually happened. Ice dealers have not foreseen this; that is many of them have not, and that they will soon be unable to procure any is something they have not bargained for or taken into consideration.

Prior to September 1st ice was 10 and 20 cents a hundred weight. On the first of the month the price rose to 20 and 25 cents, the first sum being charged to large buyers, the second to private families. Another raise was threatened, but the sudden break in the temperature and the falling off of the demand has so far kept it back.

Althoug the ice dealers in this city generally keep the prices alike, they are in no association that compels one man to do just as the others do, so some of them have agreed not to place any ice in a house unless the order is for fifty pounds at least. All the dealers do not do this, but those who have have caused their patrons considerable uneasiness. Fifty pounds of ice a day is more than many people use, indeed, many of the refrigerators will not hold so large a piece, and they are compelled to purchase twice as much at a time as they can use, just to have it at all.

It was stated the other day that there was plenty of ice, but that the large dealers at Lake Hopatcong and Mt. Pocono, where most of the Plainfield ice comes from, were holding it back for a better market. This is said by others, who have tried to buy at any price, not to be true; that the wholesale dealers are out of a supply as well as the smaller dealers. The only place, they say, where there is ice is in Maine and the cost of handling it, as well as the loss and waste during transportation, makes it impracticable to send there for it.

The famine not only affects Plainfield, but other cities all around where the local dealers were not careful of their stock and sold it out too rapidly. One dealer in Bound Brook has not supplied his customers for four or five days. The customers found fault because he raised the price, so he grew disgusted, put his wagons in the barn, and told them to get ice if they could.

The customers soon came to his terms and begged him to resume business. The dealer was willing enough to do so, but during his few days' inactivity the dealer from whom he had been buying had sold out, so the Bound Brook man was placed in a dilemma.

He came here and begged one of the dealers, who, by the way, has enough ice on hand to supply his own customers for some time yet, to let him have some. But this dealer had refused to sell even to Plainfield dealers, so could not accommodate his Bound Brook friend. Where he will get it is not known, unless he sends to Maine and takes the risk of transportation, etc.

The hot weather being nearly over, the demand will not be so great from now on, but a great many people take ice all through the fall and winter, and these will be the sufferers.

The Hygeia Ice Company expected to begin the manufacture of ice by Sept. 1st, but have not done so. Even if they had it is said they could not begin to supply Plainfield, unless they had all winter to lay in a stock and then begin with warehouses full. These are the facts as they appear to the dealers, many of them having sold their supply as fast as they could, not taking into consideration that ice was growing scarcer.

GRIST OF CITY COURT.

A NUMBER OF SMALL CASES FOR JUDGE DEMEZA TO DECIDE.

Quarreling Neighbors, Jealous Hackmen and Various Other Offenders Were in Court for Justice or Punishment.

Quarreling neighbors and jealous hackmen were in evidence in the City Court this morning, and furnished the City Judge with grist enough to turn out of his legal mill. The usual Saturday morning crowd was on hand ready to laugh at the smallest excuse, or to sympathize with the prisoners as opportunity offered.

Two hackmen, Peter Seader and Richard Day, first occupied the court's attention. Seader claimed that Day swore at him one afternoon recently, and without any provocation whatever. This Day denied, and said the charge was made through jealousy, and that Seader "was too mean to eat." The City Judge told both parties that they ought to have a gentle application of the rod made to them, as they were acting childishly over nothing, and decided to think it over. W. G. DeMeza represented Day.

Michael Honan and his wife, and Katherine Cahill, of South Second street, were arraigned on complaint of Officers Meyers and Totten on charge of being drunk and disorderly a week ago last night. All three protested their innocence, and so the case went to trial. Honan plays the flute, and on the morning in question sat out on the piazza of his home and dispersed melody from a pair of strong lungs through the notes of a squeaky flute.

The music had a strange effect on his wife and Mrs. Cahill, for soon their feet began to keep time to the music, and later to dance. This exertion proved too much for all three, so excursions were made to a neighboring saloon. Before long they had drunk a little too much, and were in that condition where they didn't care what they did, so when Officer Myers made his appearance he and Totten were assailed with a volley of epithets more forcible than polite. Myers and Totten stood it for a while. During their watch Myers says he saw Mrs. Honan "split" Mrs. Cahill's husband with a broom stick, and later says that Mrs. Cahill and her husband had a free fight in an upper room.

Complaints were made against all except Cahill who took no part in the row except to get beaten. At the conclusion of the trial Mrs. Honan was adjudged guilty, but sentence was suspended in her case; her husband was fined $5 which he paid; and Mrs. Cahill was given 30 days in jail.

Two or three cases were laid over for a week. Charles Saueracher, who is charged by Mike Doyle with using bad language, will come up for trial next week. Frank Vail charges Mike McCarthy with using bad language. Vail was not in court this morning to press the charge, so that, too, was laid over for a week.

William G. DeMeza, as counsel for William Hickey, wanted to withdraw a complaint made by him against Mrs. Clicknor, of West Third street, charging her with using profane language. The court refused the request, and set the case down for next week.

FIRES CAUSED BY STORM.

It is a Record Not Often Equalled in One Day.

The storm which visited this vicinity Wednesday afternoon was the cause of several losses by fire. The record kept by French & Company, of North avenue, insurance agents, shows a list not often equalled in this city in one day, and this is only one company's loss.

At 312 LaGrande avenue, a lamp exploded in the house occupied by L. E. Howard. Loss $10.

A lamp was knocked off the table in August Frohlick's house on East Third street. Loss $30.

David C. Allen's house on Harrison street was struck by lightning. Loss $15.

Marshal Begley's house, on the same street, was struck. Loss $20.

The chimney of David Clark's house on East Third street was also struck. Loss here $15. There is another and much larger loss that has not been reported to them as yet.

To Begin Work Again.

The Plainfield Ice and Cold Storage Company will begin work at once on their new ice-house at Washingtonville, which was blown down by the wind Wednesday afternoon. The company will tear out the debris, and begin anew the work of construction. They will take charge of the work themselves and have it done by days' work.

Park Avenue in Bad Condition.

The lower part of Park avenue is in a very bad condition and a little repairing would be appreciated by the traveling public.

CRAZED PATIENT GOT OUT THROUGH CELLAR.

William Koehler Escaped From the Brookside Retreat.

SEEN BY WOMEN PICNICERS.

MADE A BEE LINE FOR MOUNTAINS AND STILL AT LARGE.

Mrs. William Wilson Saw Him Escape From the Institution—After She Came Home She Notified the Institution of the Fact—Keepers Scoured the Woods and Mountains Without Finding Him.

Yesterday afternoon about 4 o'clock Mrs William A. Wilson, wife of Chief Marshal Wilson, of Duer street, together with some friends, was enjoying a picnic on the mountains near the end of the Somerset street trolley line. The party was having a good time, when suddenly Mrs. Wilson noticed a man running toward her at a rapid gait. She also noticed that the man had come from the Brookside Retreat, and she at once thought that he had escaped. She, as well as the others in the party, were frightened and they hid themselves in a small building close by. As the man came nearer they could see that the expression on his face was one usually to be found on an insane person. His eyes bulged out, and as he struck the incline he did not slacken his pace, but seemed to run even faster.

As soon as the man passed on up the mountains Mrs. Wilson hastened home and telephoned to Brookside Retreat and inquired as to whether one of their patients had escaped. They made an investigation and soon discovered that William Koehler, whose home is in Jersey City, was missing. This was nearly an hour after the escape.

Dr. Cooley, proprietor of the retreat, was at once notified and he started his men out in search for the missing patient, but up to the present time he has not been found.

The story of his escape is somewhat similar to the escapes of others. He was out on the lawn in charge of one of the nurses, and nothing out of the ordinary was noticed. In the course of the conversation Koehler remarked that he wanted to go in the house. The nurse allowed him to go, but as he did not return right away nothing strange was thought of it. It was supposed that he had decided to stay in the house. This was the last thought of the man until the attention of the authorities was called to him by Mr. Wilson.

Wm Koehler is about 35 years of age. He was, it is said, employed by B. Altman & Co., of New York, as a salesman and expert window dresser. Several months ago he experienced a general breakdown in health and his mind became affected considerably. He was obliged to give up his business and was finally placed in Brookside Retreat. It is said that his case is a hopeless one and that he can never get well.

When he escaped from the retreat yesterday he was well dressed in a suit of blue cloth. He wore a check bicycle cap and a pair of russet shoes. He has a heavy sandy moustache and is a handsome-looking person.

It is said that he stopped at the home of a family on the mountains and inquired for something to eat, and then proceeded on his journey. Dr. Cooley has the greatest confidence that the man will be caught and thinks that he has not wandered far away.

When Dr. Cooley was interviewed by a Daily Press representative this morning he refused to discuss the case at any length. He took the position that the matter was a private one and that it is of no interest to outsiders.

A Sudden Death.

Richard Stafford, aged forty-seven years, seven months and eleven days, died very suddenly this morning at his home, 24 Grandview avenue, in the borough. He had been quite ill for a year past, but the end was not thought to be so near. He and his family formerly resided in England, but for several years past they have lived in the borough. A widow, one daughter and two sons survive him The funeral services will be held from his late residence Monday afternoon next at 3:30 o'clock.

Somerset County Bible Society.

The eighty-first annual meeting of the Somerset County Bible Society, will be held in the First Reformed church, Somerville, Tuesday, Sept. 27th. The annual sermon will be preached by Rev. O. J. Hogan, and the special address will be made by Rev. J. Owen Jones.

—Reed-bird shooting, it is said, was never better in the vicinity of Bridgeport.

A SCORCHER INJURED.

WHEEL STRUCK A RUT AND RIDER BROKE HIS COLLAR BONE.

They Were Riding at a Twenty-Mile-an-Hour Clip Near Fanwood When Pat. Culhane, Pacemaker, Was Thrown.

The second serious accident as a result of bicycle scorching to occur in this vicinity within a week happened at Fanwood yesterday afternoon, when three Rahway wheelmen were spinning along at a twenty-mile clip, and one of them, striking a rut in the roadway, was thrown from his wheel and besides breaking his collar bone, cracked another small bone in the shoulder and sustained other painful bruises and cuts.

Robert Graham, Frank Ludlow and Patrick Culhane were the scorchers. Culhane was setting the pace as the party neared the Fanwood hill. When near Sheelien Brothers grocery store he attempted to pull out to let Ludlow take the pace, and in doing so his wheel settled into a rut in the road. The bicycle lurched to one side and Culhane went flying through the air ten feet high and landed headforemost twenty feet away. He was knocked insensible.

Graham and Ludlow narrowly missed hitting the prostrate body. As soon as they could dismount they hurried back and picked up their insensible companion. He was carried into the grocery store and Dr. Westcott called. The doctor worked over the injured man for several minutes and succeeded in restoring him to consciousness. After attending to the fracture and the wounds the doctor had the man removed to the Central Railroad station, where he was put on board a train and sent home. It will be several weeks before he will be able to ride a bicycle again.

FUNERAL OF GEORGE ECKHARDT.

Victim of Explosion of Camden Chemical Works Laid at Rest.

The funeral services of the late Geo. Eckhardt, who was killed so suddenly while at work in a chemical factory at Camden a few days ago, were held yesterday afternoon at 4:30 o'clock from the home of his aunt, Mrs. Clare, 87 Jackson avenue. There was a large attendance of friends and relatives.

The services were in charge of Messrs. Parker, Loizeaux and Jennings, members of the Plymouth Brethren, so called. Each one spoke at some length regarding the life of the departed, and pointed all present to Christ, who would comfort and console. The remarks altogether were full of interest and sympathy. At the close Mr. Loizeaux offered a fervent prayer.

An opportunity was given to view the remains and all were impressed with the lifelike appearance. There was a pretty floral display, including a wreath and star combined, from the fellow-workmen of the deceased. There were other smaller tributes.

Interment was in the North Plainfield cemetery and those who served as bearers were Wm. S. Loizeaux, Wm. R. Rushmore, Ivan Hardingham, Thos. Cuming, Fred Loizeaux, Sydney T. Perrin and Joseph Hawkins, who assisted.

RESERVES NOT DISCHARGED.

They May Be Detailed Two Weeks Longer On Duty On the Badger.

(Special to The Daily Press.)

Charlestown, Mass., Sept 10—The New Jersey Naval Reserves on the auxiliary cruiser Badger were again disappointed yesterday. Thursday Captain Snow received orders to discharge the Reserves as soon as possible, discharge papers were being made out hurriedly, and the Reserves expected to get off next Monday morning. Yesterday morning Commodore Howison informed Captain Snow that the order to the Badger was a mistake, and that it was intended to apply only to the Reserves manning the tugboats in Boston Harbor. The news was very unwelcome to the Jerseymen, who now believe that they will be detained on the Badger at least two weeks longer in order to enable the authorities to secure a crew to take their places.

LAST DAY OF THE STATE FAIR.

About 4,000 Watch the Racing and See the Prize-Winners.

The New Jersey State Fair closed yesterday. The week was only partially successful owing to the extreme heat of the earlier days, coupled with the rain storms of Tuesday and Wednesday. Monday and Thursday were the only big days of the week, the attendance on the latter day being the best reminder of old times at Waverly.

There were about 4,000 persons in attendance yesterday. The racing, although very good, was not up to the exhibitions of the day before. The awarding of prizes in all the show classes took up most of the day.

—Press want ads pay—try one.

PITNEY SENTIMENT EXISTS IN THIS CITY.

Voorhees, It Is Said, Is Not as Strong as Was Thought.

THE PLAINFIELD SUPPORT.

AMONG CERTAIN PARTY MEN PITNEY MAY GET A SHARE OF IT.

During the Last Ten Days a Marked Change of Opinion Has Come Over Some of the Republican Politicians—One Leader Thinks That He is a Better Man for Governor than Voorhees.

Will Plainfield give all of its support to Foster Voorhees or part of it to Mahlon Pitney for the Governorship? This is a question that is not settled in the minds of everybody in this city. It is a fact that cannot be disputed that Acting-Governor Voorhees has not the support in this vicinity that is generally supposed by the G. O. P. leaders.

During the past few days a change in opinion regarding the candidate for Governor has taken place in this city. The influence of Mr. Pithey's boom has been felt in this locality and the Voorhees' boom is a little on the wane.

When a party leader was asked yesterday if Plainfield would be unanimously for Voorhees, it was with some hesitation that the reply was given. The G. O. P. leader remarked that Voorhees would fill the bill, if elected, but, he continued, "Pitney is a brighter man and a person with greater capabilities. He is certainly a strong candidate and every day he is gaining friends. I have been surprised to learn that Pitney's boom is being so generally felt in Plainfield. There are many strong points about him that heartily commend him to the people.

"The apparent inactivity of Mr. Voorhees has cost him a number of friends and votes that he is not likely to regain. Another thing that will be sure to act against him is the overwhelming support that is sure to be given Pitney from the northern part of the State, while the voters in the southern part may combine, leaving those in the central part to fight the cause for Mr. Voorhees alone. At any rate it is not going to be a walkover for Mr. Voorhees, for Mr. Pitney will surely make a great race for the honors.

"It would be natural to suppose that Plainfield would contribute her support toward Mr. Voorhees as he is a Union county resident, but it is not altogether unlikely that the people of this city will extend their support to Mr. Pitney."

A YOUTHFUL HOSTESS.

Little Miss Ryno Celebrated Her Third Birthday Very Pleasantly.

Twenty-two bright little tots from five months to five years of age, assembled at the home of Mr. and Mrs. Corra Ryno, Coddington avenue, yesterday afternoon, between the hours of 4 and 6 o'clock, and joined in the happy occasion of celebrating the third birthday anniversary of Mr. and Mrs. Ryno's daughter, Emma Hazel.

The young hostess, assisted by her parents, entertained the guests and everyone enjoyed themselves to their heart's content. The little ones preferred the spacious lawn to the house and all had a jolly time in romping about on the green. During the afternoon refreshments were served on the lawn and this was an enjoyable feature. The young celebrant received a number of pretty and useful presents from her friends, and she will always remember the occasion with pleasure.

Old Hotel Keeper Dead.

[Special to The Daily Press.]

Elizabeth, N. J., Sept. 10.—John Kreig, one of the oldest men in Elizabethport, died yesterday. He was 80 years old and came to Elizabethport about 60 years ago. He was the first man to establish a bakery in that part of the city. During the civil war he ran one of the principal hotels here.

Mountain Park Inn to Close.

The Mountain Park Inn will close for the season next Wednesday. Several families who desire to remain a week or two longer on the mountain, will be taken care of by Mr. Moulton in one of the adjoining cottages.

Chaplain Jones to Talk.

A great treat is in store for the patriotic citizens of Plainfield next Thursday when Chaplain Jones, of the battleship Texas, will deliver an address about his experiences in the war, at the Casino at 8:15 o'clock.

Politics Tonight.

Tonight there will be a meeting of the Republican city executive committee at Republican headquarters.

PROBABLE WAR INQUIRY

Indication that it Will Be Ordered By the President.

SEC. ALGER REQUESTS ONE

The Bureau Chiefs Expecting to Be Vindicated. Difficulty of the Investigation. Hope that Reforms in the Service will Result. The Task will Be a Formidable One.

Washington, Sept. 10.—Secretary Alger's request for an investigation of army affairs during the war is likely to be complied with, though it is not true that the president has yet indicated his decision in the matter. There have been signs of a purpose in this direction, and the quartermaster general, surgeon general and commissary general, upon whom the greatest blame has fallen, have been anxious for an inquiry, each assuring himself that he will emerge vindicated.

These bureau chiefs have urged the secretary to appoint boards of inquiry, and General Sternberg, against whom the attacks have been especially violent, has been particularly desirous of an investigation of his corps and his methods.

The task before the commission which will be assigned to investigate the war department and army affairs is a formidable one. Nothing quite so gigantic has been presented to a commission, and there are those in the war department who have faint hopes that the inquirers will be able to reach any definite or satisfactory conclusion. The attempts made to locate responsibility for many alleged defects of system, attempts conducted by persons without prejudice, have served only to bewilder the searchers. Every staff officer upon whom criticism has fallen is able to explain away the charges against him, and the commission which Secretary Alger has asked for will probably be afforded a spectacle of endless shifting of responsibility and blame until the investigators retire in bewilderment.

The only hope of substantial results is that the disclosures of the inquiry will lead to needed reforms of system.

Lieutenant General J. M. Schofield, retired, is spoken of as the officer most likely to be selected as a military member of a commission to investigate the army when the president appoints one. He is regarded as the most experienced and best qualified of army officers likely to be chosen for this duty. It is probable that an officer of the judge advocate general's department will be selected to act as recorder. It is deemed that such an officer will bring out technical facts better than a lawyer taken from civil life. For this duty Judge Advocate General Lieber is spoken of.

If General Miles is preserving a silence in regard to the controversy, his associates are not so discreet. The officers who returned to Washington with him are outspoken in their criticism of prominent men at the war department, and Adjutant Gen. Corbin comes in for a large share of their censure.

If one may judge of General Miles's sentiments from the remarks of his staff officers and others of his Porto Rico party, there will be no abatement of the fight.

An additional cause for grievance among the Miles men develops in their interviews here. They point out that General Shafter was repeatedly and promptly praised by Secretary Alger and the president, and that General Merritt and Rear Admiral Dewey have been congratulated upon every occasion, while General Miles and his officers have gone so far without a sign of appreciation from the authorities.

Secretary Alger, on leaving Detroit, will visit Lexington, Chickamauga, Huntsville and Jacksonville. He will be joined at Cincinnati by Surgeon General Sternberg and Quartermaster General Ludington, who will accompany Secretary Alger on his tour of inspection.

Alger's Request Granted.

Washington, Sept. 10.—The president has decided to appoint a commission to investigate the war department. General Schofield and ex-Senator John B. Gordon of Georgia have been asked to accept places upon the commission.

Atlanta, Ga., Sept. 10.—A telegram from President McKinley was received to-day by the family of General John B. Gordon asking the general to accept a position as a member of "A commission to examine into the conduct of the commissary and medical departments of the army in the recent war with Spain."

The specific object of the commission is stated in the telegram to be an examination into the commissary, quartermaster and medical bureaus of the war department and into the extent, causes and treatment of sickness int the fields and the camps.

General Gordon is at Reynolds, Ga., and inaccessible.

Ocean House Burned.

Newport, R. I., Sept. 10.—The Ocean house, the biggest hotel here, was burned to the ground yesterday afternoon and the Casino was badly damaged by fire.

So far as known no lives were lost, and nobody was hurt.

The blaze started in one of the upper floors of the Ocean house, a great frame building on Bellevue avenue. The cause has not yet been ascertained.

About one hundred persons were staying at the Ocean house. None of them had time to save any of their effects.

Hall Caine Arrives.

New York, Sept. 10.—Hall Caine, whose weird novels, analytical of nearly every human emotion, "The Manxman," "The Deemster," "The Bondman," and "The Christian," have given him a wide audience in America, was among the passengers on the Campania which arrived yesterday.

Mr. Caine comes to supervise the preparations for the presentation of the play built out of his latest story, "The Christian," at the Empire theatre, with Miss Viola Allen in the leading role.

DUN'S WEEKLY REVIEW.

Volume of Business Larger. Iron Steel Promises Well.

New York, Sept. 10.—The volume of business is larger than it ever has been. Investors across the water have caught the cue, and their purchases of American bonds and stocks have been heavy for several weeks. There are symptoms of another crazy movement in South Africa and Australian stocks, and instead of gold and diamonds by the car load Americans have only dividends to offer, but the transportation business of this continent is a very solid basis for earnings and values.

Wheat has been about one cent higher in price for spot, with western receipts only about as large as those of last year for the week. No doubt some farmers have learned that it is a poor business to hold back for higher prices, and yet many are doing it, and so are making inevitable a more disastrous decline in prices after a time. The latest estimates range from 665 to 700 million bushels, foreshadowing a somewhat smaller crop than was indicated a month ago, but one large enough, nevertheless, to distribute one hundred million bushels for replenishing the world's depleted stocks, to meet all domestic consumption and probable foreign demand, and still to leave a sufficient surplus to depress the market. Atlantic exports for the week have been 2,325,100 bushels, against 4,243,358 last year, flour included, and Pacific exports 163,192, against 713,434 last year. Corn is a shade higher, one estimate promising only 1,750 million bushels.

The cotton year has closed, according to the Financial Chronicle, with a yield of 11,180,960 bales in 1897, of which 7,646,085 were exported, 1,856,000 were consumed in northern mills, 1,227,989 in southern mills, 420,079 were added to northern mill stocks, and 98,991 to commercial stocks. It is but fair to say that the financial Chronicle makes no calculation of the quantity produced, but not marketed, which the New Orleans Cotton Exchange reckons at 330,000 bales, presumably including cotton owned by southern mills, but not yet consumed.

The leather does not yield as yet in quoted prices, though in this case also the quotations may not accurately represent thte actual transactions. At Chicago hides have not changed in price.

The sales of wool have been only 2,289,500 pounds, at the three chief markets, against 18,010,400 pounds for the same week last year, and 8,812,000 for the same week in 1892. The feeling grows that the prices demanded at the West cannot be maintained, and until wool sells at materially lower prices the manufacture cannot meet the existing market for goods. The volume of all business represented by clearing house exchanges has been 3.1 per cent. larger in daily average for September thus far than in 1892, and this with the returns of railways, indicates a material enlargement in the general volume of traffic.

Failures for the first week of September have been in amount of liabilities $1,111,593, manufacturing $224,602, and trading $703,991. Failures for the week have been 164 in the United States against 215 last year, and 16 in Canada against 35 last year.

A PROTEST FROM SPAIN.

Manila Capitulated After Peace Protocol Had Been Signed.

London, Sept. 10.—The Madrid correspondent of the Standard says:

"The government recently forwarded to M. Cambon, the French ambassador at Washington, a long and strongly argued statement respecting the Philippines, which he will communicate verbally to the Washington government.

"Spain protests against the capitulation of Manila, because made two days after the protocol was signed.

"It asks that the revenue from the Manila customs may continue devoted to the service of the Philippine loan of 1897, and finally, it insists upon the United States compelling Aguinaldo to liberate a thousand Spaniards now in his custody, most of whom were placed there, the note asserts, by Admiral Dewey."

The Coaling Station in Samoa.

San Francisco, Sept. 10.—Commander Tanner has opened bids for the construction of a United States coaling station at Pago Pago, Samoa. The lowest bidders, Messrs. Cotton Brothers of Oakland, offer to erect the coaling sheds, wharf, etc, for $183,337.

WIT AND HUMOR.

"Mike," said Plodding Pete, "how is it dat some o' dese people kin work day after day an' never seem to feel it?"

"Well," replied Meandering Mike, reflectively, "I s'pose dey is started in young an' gets to be immunes."—Washington Star.

"You called on Miss Spritely the other evening? Didn't you find her charming in conversation?"

"I found her charming in monologue. We didn't succeed in holding any conversation."—Chicago Tribune.

"I have heard that she walks in her sleep," said the gossip.

"Indeed," returned Mrs. Parvenue scornfully. "So common, isn't it? I should think she would ride.—Chicago Post.

"I spent $100 on my silver wedding present to my wife."

"What is it?"

"I don't know; she hasn't got through exchanging it yet."—Chicago Record.

Druggist—Here is something that will cure you when everything else fails.

Customer—Oh, I don't want to wait until then.—Roxbury Gazette.

"Did she break down when you told her you were going abroad?"

"Naw. I think she felt like doing one, though."—Indianapolis Journal.

THE PEACE COMMISSION

Senator Gray Finally Consents to Become a Member.

HAS GENERAL APPROVAL

His Declination to Serve Reconsidered on the Presidents Request. Commissioners to Meet in Washington to Receive Instructions. Mr. Gray will Retire from the Anglo-American Commission.

Washington, Sept. 10.—It is officially announced that Senator Gray of Delaware had been selected by the president as the fifth member of the Paris Peace commission. This completes the personnel of the commission, which is as follows: Secretary of State Day, Senators Davis, Frye and Gray and Whitelaw Reid, editor of the New York Tribune. In selecting Senator Gray, the president has given Democratic representation on the commission. The appointment probably will necessitate the retirement of Mr. Gray from the Anglo-American commission, which is conducting its sessions in Quebec, as this commission will resume its work about the time the peace commissioners sail for Paris.

The position was offered to Senator Gray several days ago, but at that time was declined. The president, however, further urged Mr. Gray to accept, and his final agreement was secured yesterday. On foreign questions, Mr. Gray has generally been regarded as opposed to expansion, his Senate votes having been against the annexation of Hawaii.

Now that the commission is complete it is expected that the American case will be made up, and the commission be given its final instruction. The commissioners will meet here about September 15, prior to sailing for Paris, at which time they will meet the president and be made aware in a general way of the views of the administration.

The announcement of Senator Gray's name was made soon after the cabinet met. Acting Secretary Moore was called to the White House during the meeting and the final decision was then announced. Senator Allison and other public men who were at the White House at the time expressed strong approval of the selection.

Senator Gray is one of the best known men in public life, having been a prominent figure in the Senate for the last twelve years. He was born at Newcastle, Delaware, in 1840, and was graduated from Princeton. He served as attorney general of Delaware and was later appointed to the Senate when Thomas F. Bayard entered the first Cleveland cabinet as secretary of state. Mr. Gray has been in the Senate continuously since then, serving with distinction, being one of the recognized forces in debate and in the shaping of important legislation. He is a member of the Senate committee on foreign relations, thus making three members of that committee Senators Davis, Frye and Gray, on the peace commission.

GEN. SHAFTER'S MOVEMENTS.

A Report that He is to Return to His Command on the Pacific Coast.

Washington, Sept. 10.—Gen. Shafter has expressed his wish to the secretary of war that when the department commanders are sent to posts, he would prefer to have his old command, the department of California.

It is probable that it will be given him, but such action will be a long time in the future, as the organization of the army upon its old basis is not likely to take place for some time.

San Francisco, Sept. 10.—The Call has the following:

General Shafter is expected in San Francisco in about two weeks. He has applied to be assigned to his old command, the department of California, and it is generally expected that his request will be granted. In that event, Colonel Babcock, now on his way to San Francisco from Manila, will be made adjutant general, having filled this place under General Shafter's previous administration of this department.

Colored Troops for the Philippines.

Norfolk, Va., Sept. 10.—Colored troops are to be sent to the Philippine islands. Information to that effect has been received here from Camp Corbin, where there are several hundred negro volunteers from Virginia. They compose the infantry branch and are very well drilled and equipped.

They are to do garrison duty around Manila, and it is said will sail soon. The troops have received orders to go to Knoxville, where it is presumed they will take trains for the Pacific coast and embark at San Francisco.

Sternberg Consulted by the President.

Washington, Sept. 10.—One of the first callers the president had yesterday was Surgeon General Sternberg of the army. It was understood that the visit of General Sternberg had some relation to the proposed commission to investigate the war department. Some prominent surgeon is expected to be a member of the commission, and the surgeon general was called in consultation as to some man especially fitted for the duty.

Stringent Measures for Crete.

Canea, Island of Crete, Sept. 10.—The admirals of the foreign powers, replying to the protests of the Cretan executive committee against the recent massacres, have declared that they will recommend that their respective governments solve the question definitely by the removal of the Turkish troops from the Island of Crete, and the appointment of a governor to be selected by the powers.

Ex-Secretary Bayard Weaker.

Dedham, Mass., Sept. 10.—Thomas F. Bayard was very weak this morning, but there was no other change from his previous condition, which was not nearly so favorable as that of twenty-four hours ago.

Mr. Bayard's physician reported his condition still unchanged this afternoon. He is taking very little nourishment.

SEVEN SUTHERLAND SISTERS

Hair Grower and Scalp Cleaner

For Over 14 Years

these highly meritorious preparations have stood at the head of all hair restoratives. More than 3,000,000 bottles have been used by the American people, and thousands of testimonials bear witness to their excellence, while there were never any complaints when directions were followed.

GEN. MILES AT THE WHITE HOUSE.

A Brief Talk with the President Just Before the Cabinet Meeting.

Washington, Sept. 10.—Gen. Miles, accompanied by Colonel Michler of his staff, called at the White House just before the cabinet meeting began yesterday.

The general wore fatigue uniform, showing the two-star red eqaulettes of a major general. At thte time of his arrival the president was conferring with Judge Harlan, Senator Allison, and other callers.

General Miles and Colonel Michler were shown into the cabinet anteroom, and there the president joined them, excusing himself from the other callrs.

The meeting between the president and commanding general was comparatively brief, lasting about five minutes, as the cabinet meeting was about to begin. It was not in the nature of a conference, during which questions relating to the war were discussed, but was that formal call of respect usual on the return of a high official. The conference for more extended discussion of war affairs doubtless will come later, although it was said after the call that no exact time had been fixed for a further meeting.

General Miles had nothing to say before or after the call. He was greeted with a round of applause as he left the White House, pushing his way through the dense crowd awaiting the review of returning District of Columbia troops.

Before going to the White House General Miles came to the war department, at ten o'clock, and after spending a short time in his room at army headquarters went to the office of the secretary of war. Acting Secretary Meikeljohn was at the desk of Secretary Alger and was talking with Governor Atkinson of Georgia and Adjutant General Corbin, when General Miles entered.

The latter was accompanied by a member of his staff. After shaking hands Mr. Meikeljohn and General Miles chatted for some time on general topics of the campaign in Porto Rico and the return trip of the commanding general. Soon afterwards Gen. Miles left tthe department and went to the White House.

NEWS FROM MANILA.

Sword Returned to a Spanish Commander By Captain Dyer.

Manila, Sept. 9.—The trouble caused by the men who went out on strike in this city on account of an attempt to return to an equitable basis for the payment of labor, after the American authorities in the early exigencies of the situation here had agreed to the extravagant demands of the laborers, are disappearing.

It has become necessary to employ soldiers to take the strikers' places in some cases, while in others the matter has been compromised. One of those strikes, as cabled on September 5, caused the suspension of traffic on the horse car lines of Manila, but they resumed operations to-day.

The recruiting agents of the insurgents are causing further trouble. They have been impressing the employes of foreign residents, including those of the British consul, and several of the foreigners have complained that the native grooms are taking their employers' horses and joining the insurgents.

The American army chaplains have instituted Protestant services in private buildings. Such services have never previously been held in the history of the Philippine islands.

The United States consul here, O. F. Williams, on behalf of Captain N. Mayo Dyer, of the United States cruiser Baltimore, has returned to General Miranda the sword which the latter surrendered to the American officer at the capture of Corregidor island, at the entrance of the bay of Manila.

The general replied that he was overwhelmed by the generosity of Captain Dyer.

To Much Money.

New York, Sept. 9.—According to a special dispatch received in Wall street Secretary Gage will recommend in his annual report the repeal of some of the sections of the war tariff for the purpose of lessening the revenue.

The cause for this is the money stringency which results from the heavy drain of money from the people and the banks to the treasury.

In the meantime the secretary is making every effort to pay out as much money as possible to the banks as an offset to the government's heavy receipts.

One of the propositions now under consideration is the redemption of $25,000,000 of 4 1-2 per cent. bonds, which were extended at 2 per cent.

These bonds can be called in by the secretary without the necessity of congressional action.

The treasury department has already relieved the money situation in a measure by anticipating the October interest on bonds, and by calling in for redemption $14,000,000 of the currency sixes.

This will put in circulation about $20,000,000 which would otherwise have remained in the treasury.

Battleships Contracts.

Washington, Sept. 10.—The navy department will make during the next few days, awards of contracts for battleships, torpedo boats and destroyers. The Cramps, the Newport News Company and the Union Iron Works will each build a ship on plans adopted by the department, contemplating a ship sixteen feet longer than that called for by department specifications, of 16,000 horse power and 12,500 tons displacement.

Passenger Rates from Buffalo Cut.

Buffalo, Sept. 10.—Yesterday the West Shore Railroad announced a $10 rate to New York and return, and the Erie, Lehigh and Lackawanna immediately met the cut. Previously the fare on any of these four roads was $16, the Lehigh charging $17 for passengers choosing to go on the Black Diamond express.

Soldiers Remains to Be Sent Home.

Washington, Sept. 10.—Before leaving Washington Secretary Alger directed that an order be issued that instead of the regular allowance of $1 for the burial of a soldier, that $35 should be allowed and the remains transported home at the government's expense.

WHEELER'S SAD TRIP

The Grief-Stricken Family Start for Alabama.

THE FUNERAL IN MONTAUK

Three Regiments That Have Been Under Orders to Move for Several Days Cannot Get Transportation. Surgeons Report Against a Parade of Troops in New York.

Montauk, L. I., Sept. 10.—Impressive funeral services were held over the bodies of Thomas H. Wheeler and Lieutenant Kirkpatrick, who were drowned Wednesday afternoon while in bathing. Chaplain Archibald Bradshaw of the One Hundred and Seventy-first New York regiment officiated. The roughly hewn caskets were placed in the center of a hollow square, formed by Troop A of the Third cavalry on one side, General Wheeler's headquarters on the other, the spectators and the choir forming the other two sides. The caskets rested on two military caissons and after the services the coffins were placed in strong boxes, made of oak, surmounted by polished nickel.

With bowed heads and hats in hand the spectators and mounted troopers listened to the singing of "Nearer My God to Thee," by the Young Men's Christian Association choir. The chaplain read from the ritual of the Protestant Episcopal church and the choir then chanted "Lead, Kindly Light." Prayers and a benediction were offered for the dead and the funeral procession then got under way.

The mounted cavalry led the procession, preceded by the Second Cavalry Regiment band, and followed by the hearse. General Wheeler, his son and two daughters, in the two old-fashioned stages followed, and on both sides of the procession marched the bare headed spectators made up of members of various regiments in camp.

The solemn stillness was never broken during that long march to the depot, except for the clatter of hoofs and the low funeral music of the band. The tears rolled fast down the old general's cheeks, and his children could not suppress their sobs.

The train was waiting and the two coffins, draped in red, white and blue, were placed in the baggage car. General Wheeler and his family went into the parlor car and were alone when the train pulled out. The body of Kirkpatrick will be shipped to his home in Lexington, Va., and General Wheeler and his children will go to their home in Wheeler, Ala., where the young man's body will be buried. The general will not remain any longer than a week.

The information was given out at General Shafter's headquarters yesterday that Colonel Forwood and all of the surgeons who were requested by General Shafter several days ago to make some recommendations with regard to a parade of the troops in New York had all recommended against a parade. The surgeons stated in their report to General Shafter that the troops would not be in shape to stand the exertion of a march before the expiration of at least a month or six weeks. There is an impression at the camp that there will be no parade at all.

The Ninth, Thirteenth and Twenty-first infantry regiments from upper New York state were ordered to their homes on the 6th. The regiments from upper New York state were ordered to their homes on the 6th. The regiments are here yet, with no prospect of getting home in the immediate future, and not until the quartermaster's department gives the word. That is the situation to-day and the exodus from camp has been checked temporarily. The Ninth regiment goes to Madison and Sackett's Harbor, the Thirteenth to Niagara, Fort Porter, near Buffalo, and Governor's Island, and the Twenty-first to Plattsburgh.

The Long Island Railroad Company, through its president, declares it is ready to transport the men and has been waiting to do so.

At last the Rough Riders are being started on their homeward journeys. The mustering out is being pushed and two troops will leave to-day. Two more will get away Sunday, and by Tuesday it is hoped all will be out of the service and free to go wherever they will.

Colonel Roosevelt is no longer commander of the cavalry division of the Second brigade. The colonel turned his command over to Colonel Noyes and he will leave the service in the early part of next week. The First cavalry (Rough Riders) has been displaced by the Second cavalry.

Howard Townsend, Red Cross agent, has communicated with the war department, urging hurried preparations to be made to guard against the approaching cold weather. He says the hospitals will have to be heated and more substantially constructed to afford any protection against the weather. It is probable that thte camp will be abandoned before the cold weather sets in.

There are 766 patients in the general hospital and there is room for one thousand. The detention hospital is almost empty. The Shinnecock left yesterday afternoon with 215 convalescents for the hospitals in New York and Brooklyn and Boston, and the furloughs continue to run into the hundreds daily.

A Gigantic Steel Trust.

Trenton, N. J., Sept. 10.—The certificate of incorporation of the great steel trust, to be known as the Federal Steel Company, has been filed in the secretary of state's office. It is the largest company ever organized under the laws of New Jersey, its paid in capital being $200,000,000.

The particulars of the consolidation of the Minnesota Iron Company and the Illinois Steel Company, together with other kindred corporations, have been recently published and are well known. The controlling spirit in the movement, it is said, has been J. Pierpont Morgan, head of the banking house of J. P. Morgan & Company, who are going to finance the new company.

SILVELA'S ATTITUDE.

Accused of a Desire to Become Dictator of Spain.

Madrid, Sept. 10.—The following statement has been made by an important Spanish official:

"Senor Silvela (the leader of a section of the Conservative party) refuses the government the support of his party, although he is fully aware of the difficulties of the situation. He is doubtless prompted by the desire to obtain power. We will do all in our power to realize his desire with short delay. The country will then soon see how soon the man, who is now posing as a Liberal, will be transferred into a despotic dictator."

The Liberal again makes the assertion that Premier Sagasta will resign as soon as the Chamber adopts the peace bill.

General Polavieja has handed a copy of his manifesto to the reporters, but the censor forbids its publication. He also forbids its transmission by telegraph. It is probable that the general will attempt to read it to-day in the Cortes, and it is certain that if he does so attempt the government will stop him and insist upon a secret session.

The Republican, Carlist and Dissident Conservative deputies, at their resumed meeting yesterday, decided to continue their abstention from the Chamber, to act together as long as necessary and to issue a manifesto to the country, which was drafted and signed at the meeting.

The cabinet council yesterday was occupied with the attitude of these parties. The ministry decided to continue the secret sessions.

The council drafted and forwarded instructions to General Rios, in the Philippines for the administration of the Visayas and of Mindanao.

TRADE WITH BRITAIN.

Our Exports to the United Kingdom Exceeding Our Imports.

Washington, Sept. 10.—The fact that British imports into the United States have fallen off greatly in the past year while American exports to Great Britain have greatly increased, has been announced from time to time during the year, but the full figures, just presented by thte treasury bureau of statistics, bring to the surface some interesting details not heretofore published.

These show that while the exports from the United States to tthe United Kingdom have increased 12 per cent., the imports from the United Kingdom have fallen off 35 per cent.

The exports from the United States to thte United Kingdom during the past year were in round numbers five times as much as the imports from the United Kingdom, the figures of the bureau of statistics being:

Imports from the United Kingdom, $109,138,365; exports to the United Kingdom, $540,860,152.

The details of the reduction in our imports and increase in exports in our commerce with the United Kingdom are shown in some figures reproduced by the treasury bureau of statistics from the "Official reports of trade and navigation of the United Kingdom, which show the exports of principal articles from the United Kingdom to the United States, and her imports of principal articles from the United States in the year ending June 30, 1898, compared with those of 1897 and 1896.

GRAND ARMY ELECTION.

All the Officers for 1898 Chosen at the Encampment at Cincinnati.

Cincinnati, O., Sept. 10.—The Grand Army encampment opened yesterday with a small attendance and proceeded to finish the election of officers. The following were elected by acclamation?

Senior Vice Commander-in-Chief—W. C. Johnson of Cincinnati.

Junior Vice Commander-in-Chief—David Ross of Delaware.

Surgeon General—Dr. Pierce of Nebraska.

Chaplain-in-Chief—Colonel Lucas of Indianapolis.

A delegation from the National Association of Army Nurses presented letters of greeting. The reports of committees were then made and adopted.

The friends of Colonel James A. Sexton of Chicago are celebrating his election as commander-in-chief. There was no unusual feeling between the departments of Illinois and New York, but there was certainly not much brotherly love between the departments of New York and Pennsylvania. Those two states never voted on the same side of any ballot.

The Quarantine Against Key West Raised

Washington, Sept. 10.—Advices received by Surgeon General Wyman yesterday from the state health officer of Florida are that thte quarantine against Key West has been raised. The disease prevailing there has been ascertained to be dengue, and not yellow fever, as was at first feared.

Other information regarding the yellow fever in the South shows the situation generally to be more encouraging. So far as known here no fatalities have taken place among the cases brought to Dry Tortugas on a steamer which arrived there recently.

$2,000,000 for a Mine.

Butte, Sept. 10.—Two million dollars for the purchase of the Center Star mine in Rossland, B. C., has been deposited with Cashier T. M. Hodgens of the State Savings Bank here.

The purchasers are an English syndicate, of which Sir Charles Ross, now in New York, is the head. The stockholders who sell out are principally Butte people.

Greenleaf Coming to Montauk.

Washington, Sept. 10.—Assistant Surgeon General C. R. Greenleaf of the army, who has been with General Miles in Porto Rico, left last night for Montauk Point. He will take charge of the transportation of sick and wounded from Camp Wikoff to hospitals in New York city and elsewhere. The transfer will take place at once.

Marblehead Back from Guantanamo.

Highland Light, Mass., Sept. 10.—The United States cruiser Marblehead passed here at ten o'clock bound for Boston, yesterday, from Guantanamo bay, Cuba.

COMING EVENTS.

September 11—Rev. Chas. Mohammed, a convert from Mohammedanism, from Tangier, Morocco, North Africa, will tell of the manners and customs of his people at the Y. M. C. A., at 4:15 p. m. Lemonade and fans.

The Republican Dilemma.

J. Willard Morgan, a prominent South Jersey Republican leader, who resides in Camden, has the following to say about the candidacy of Congressman Pitney for Governor:

"When the convention meets I expect to see Pitney nominated by acclamation after the first ballot. While not a word can be said against the candidacy of Mr. Voorhees, the chief stumbling-block to his candidacy is the fact that the Republican party cannot afford to lose a Senator from Union county. Mr. Voorhees cannot be Governor and Senator both, and he cannot resign as Senator without ceasing to be Acting Governor. In other words, Mr. Voorhees is confronted by a serious dilemma, and as a matter of politics I consider it the wisest plan to nominate Congressman Pitney for Governor. Mr. Pitney will make equally as strong, if not stronger a candidate for Governor than Mr. Voorhees, and then there will be no question about the vacancy for Senator from Union county. This year New Jersey Republicans want both the Governorship and the United States Senatorship, and the way to get them is to nominate Mr. Pitney for the former office. I am for Mr. Pitney personally, and as a matter of politics and all my efforts will be directed toward securing his nomination."

Gently Hear, Kindly Judge.

The Dunellen Call is a little paper, but that doesn't prevent its having good broadside editorials once in a while, and here is one of them:

"I'd give him Hail Columbia if I owned a newspaper," we often hear from individuals who fancy they can get even with somebody for a slight, and seem to think that such is the province of a newspaper. Others again hear or know of some affair in which certain citizens have been engaged not greatly to their credit from the standpoint of certain other individuals, or it may be the joker who is always bringing to light the little escapades which occur in the community, but which seldom concern anybody outside of the participants. We enjoy a neatly turned joke as well as many others, but to parade the minor shortcomings of our neighbors we do not think in good taste either as an individual or a journalist, believing that while the acts of our neighbors or associates are not always to be commended, it is better "Gently to hear, kindly to judge."

Population, 20,000.

By a system of computing which has proved to be very reliable in the past, the canvassers for the new city directory estimate that Plainfield—city and borough—now has over 20,000 population. The combined census of city and borough taken three years ago showed a population of about 18,000. To those who have watched the progress and growth of the city this estimate seems very conservative. It is highly gratifying to know that in three years the town has increased 2,000 in population.

The Decay of Caste.

An English contemporary deplores the breaking down of caste privileges and prejudices and finds in the consequences an omen of England's political and social decline.

"We have seen what fate has overtaken France in her rage for so called equality and the rule of the people on a grandiose scale. There is no clearly defined line drawn between the leisured classes and Jean and Jacques of the village commune, and the nation has known no real rest or peace since the 'Man of Sedan' was driven into the hands of his arch enemy—kinder to the royal captive than the raging mob which had once been imperialists of a pronounced type. Now, in one respect we have taken a leaf out of the French system of morals and ethics, and a page has been turned which is not perhaps too readily replaced. The governing or leisured classes are evading their responsibilities, and the masses are gradually usurping their places."

Since when has England begun this slide to perdition? Surely her tremendous power as a nation augmented to imperial and worldwide dominion really began with the expansion of her commercial and manufacturing interests. It is the development of these

SURGEON GENERAL STERNBERG.

A conspicuous figure before the public just at present is Surgeon General George M. Sternberg of the United States army. Since the Santiago campaign his department has been vigorously attacked and he has as vigorously defended it.

leading men of all ranks of the social cosmos to places of financial greatness which has broken down the barriers of caste. In other words, caste in England, or what is called so, for at least a hundred years has ceased to have a damantine walls. Any one can now break through or leap over the partition who has the genius of success. It is this perpetual commingling of the old blood with the new, the re-enforcement of decayed families with the lusty vigor of the yeomanry and the middle classes, which have permitted the survival of so called caste to be a force in modern English life. The same influences work now which have been molding a great people for a century or more, only perhaps with more organic force and directness. The tool to the hand which can use it, place to talent which dares to aspire and seize, that is the slogan of modern English life, as it is of American. This flexibility of rank gradation, now submerging the old, now uplifting the new, has been the salvation of England. It is the one thing which has made caste tolerable. Without it the nation would have ceased to have a royal family and nobility. It is the rigid preservation of the superstition of the "sangre azul," or blue blood, which more than anything else has ruined Spain. In the one case caste has embraced democracy and sucked its healthiest juices. In the other it has withered in barren impotence and withered the nation with it.

An interesting matter not mentined in the protocol has been laid before the American members to be submitted to the joint high commission which has been sitting at Quebec to settle Anglo-American differences. This relates to a monument to be erected to the memory of Major Richard Montgomery, who fell on the Plains of Abraham in the American attack on Quebec in the Revolutionary war. Several attempts have been made at different times to get this accomplished, but the Quebec municipal council concluded that it would be scarcely consistent to memorialize the name of one who fell in an assault on British power, indeed in the attempt to capture Quebec itself. Yet a notable American some 20 years ago did a thing similar in scope and spirit. There was more magnaminity in Cyrus Field than in the Quebec officials. Mr. Field erected at Tappan, N. Y., a monument to the name and misfortune of Major Andre on the spot where the latter was made the victim of military justice. This was in spite of Andre's association with a treason which Americans detest so bitterly as one of the darkest blots on their history. It makes no difference that some vandal in the dead of night defaced and overthrew the monument. Mr. Field's act was approved by Americans as a piece of generous and kindly appreciation, pity for the fate of a noble spirit involved in the toils of a colleague who committed a colossal crime. There could be no finer test of the rapprochement between Great Britain and the United States if, under the recommendation of Lord Herschell and his associates, the Quebec municipality authorizes this erection of a Montgomery memorial.

One of the humors of the day comes from a large and prosperous western city. During the Centennial fair of 1876 the Spanish commissioner presented the public library of the town with a pair of the first Toledo blades. During the recent war they were taken from the wall which they ornamented and hid away in a dark closet. The flash of Spanish steel did not alarm our soldiers nearly as much.

The growing interest in forestry is indicated in the recent appointments of professors to newly created departments in half a dozen of our big colleges and universities. By the time we have pretty much devastated our forest resources the people will have learned that restoration is more profitable than ruin.

Happiness is like a watch. It never marks the time but when you interrogate it, and the less complicated it is the more easily it is kept running.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

No more enthusiastic supporter of Mahlon Pitney lives than Lewis A. Thompson, clerk of the Court of Chancery. He admires the Congressman for what he terms his "magnetic force," and says that Speaker Reed's protege is, next to Griggs, "the greatest vote-winner of the age."

"Then he's just the fellow we want for 1902," suggested a friend.

"Not if we can land him in 1898, and I think we will," retorted the Somerset leader.—*New York Press.*

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

John Gaub, of Somerset street, is exhibiting a strange looking fish that he caught in Green brook Thursday. It is a catfish about a foot in length, and has only one eye, but two tails. One of the tails is larger than the other, but both are well formed and perfect. Gaub is going to keep the fish alive as long as possible, then will have it mounted.

* * * * *

Louis Hartfelder, a contractor living on Manning avenue, was a resident of Savannah, Ga., in 1893, and he says that a terrific wind and rain storm visited that city while he was there. It lasted for thirty-six hours, but he says that the whole storm could not compare with fifteen minutes of the storm that visited Plainfield last Wednesday. The storm at Savannah resulted in damage to the amount of $500,000.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

The engagement of Clifford & Huth in Herbert Hall Winslow's brightest comedy, "A High Born Lady," gives promise of being one of the most successful of the present season. These clever stars, surrounded by a most capable supporting company, will appear at Music Hall tonight, and promise a performance full of humor and bright specialties. The dialogue is snappy and numbers of up-to-date songs, quartettes and sextettes place the musical portion of the entertainment on an excellent footing. Clifford & Huth, who will be remembered as one of the solid successes in Rich & Harris' "Courted Into Court" company last season, and have also been great favorites at the Keith theatres, have included in the personnel of their support, among other clever and well-known artists, Fisher and Carroll, Sam J. Adams, late comedian of the Tally Ho Trio; Bijou Russell, the Royal Sextette, E. S. Clifford and many other favorites of the theatre-going public.

* * * * *

The fine southern play entitled "At Piney Ridge" will be the next attraction at Music Hall, where it will play an engagement of one night, Tuesday, Sept. 13th. This strong play will be given by the talented author-actor, David Higgins, supported by Miss Georgia Waldron and his own company. The story of "At Piney Ridge" is too well known to need comment, for it is in its second season as a standard attraction that it comes to us. Few plays tell so good a story and tell it as well as Mr. Higgins' romantic and interesting drama of Tennessee. It is full of quaint and pleasing episodes and poetic fancies. The scenic effects are fine and true to the life the play depicts.

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused atthe Supper Table atYour Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, Sept. 10.—Omelia, the thirteen-year-old son of Mrs. Pyquetle, who ran away from his mother the other night to escape being placed in the home at Hopewell, has not been found. It is said that he was seen around Lincoln a day or two ago, and some think that he has found employment among the farmers and will keep out of sight as much as possible.

Mr. and Mrs. Cox, of Somerville, have rented one of William Larkins' houses on the New Market road, and will move here the 13th.

An ugly little yellow dog, whose home is near the Eight Row, runs out and snaps at the feet of wheelmen riding by.

Miss Suydam, who has been sojourning at Newfoundland, N. J., for a month, has returned home.

Miss Eva Bodine has returned to her position as teacher in one of the public schools at Bayonne.

Mr. and Mrs. Isaac Laing, who have been sojourning at Mt. Pocono, returned home Thursday.

Miss Jessie Maltbie is visiting her cousin, Miss Gertrude Suydam, at Kingston, N. Y.

Mr. and Mrs. Barron and family, of Washington avenue, returned to New York today.

Miss Mary Touzeau has returned home after a visit with out-of-town relatives.

Daniel Richardson leaves next week for Syracuse, where he will enter college.

Mrs. Nancy Thomas and family have returned from Asbury Park.

William H. Terry spent yesterday with his mother in Metuchen.

Miss Minnie VanMiddlesworth has recovered from her illness.

Mrs. Lewis Tunison is quite ill at the home of George Giles.

Miss Mary Martine visited friends in Westfield Wednesday.

LeRoy Jennings is quite ill at his home on North avenue.

NEW MARKET.

(Special Correspondence of the Daily Press.)

New Market, Sept. 10—The Board of Education will hold a meeting Tuesday.

Miss Virginia VanPelt, of Newark, has been spending the week with Miss Irene Day.

Miss Alice Marriner, of Elizabeth, has been visiting at Mrs. William Pizie's.

'PLAINS AND FANWOOD.

(Special Correspondence to The Daily Press.)

Scotch Plains, Sept. 10—Miss Minnie Squier has returned from her two months' vacation, spent with relatives in Rahway and Chautauqua Lake, N. Y.

The Christian Endeavor meetings in the Baptist church, which were discontinued during August, will be resumed Sunday evening.

School opens Monday, and from the outlook there will be a large attendance of pupils the coming year.

Miss Sadie Riger has returned from her two months' vacation, spent with relatives in Morris county.

Entries for the five-mile bicycle race over the Mountain avenue course next Saturday, close tonight.

Rev. Mr. Woodruff will lead the prayer meeting in the Methodist church this evening.

Mrs. Hezekiah Hand spent Thursday with her parents, Mr. and Mrs. Jacob V. Coles.

Mrs. Edward Dorwarth visited friends in Plainfield Friday.

Miss Eva Baker is suffering from a severe attack of hay fever.

WESTFIELD.

(Special Correspondence of The Daily Press.)

Westfield, Sept. 10.—Rev. N. W. Cadwell has returned home after a month's vacation and will occupy the pulpit at the Presbyterian church Sunday, both morning and evening.

Mr. and Mrs. Theo. S. Closs are entertaining G. F. Hawkins, who is private secretary to John Jacob Astor. Mr. Hawkins was on General Shafter's staff in the Cuban campaign and was in the battle of San Juan.

The members of Upchurch Lodge, No. 50, A. O. U. W. will go to Newark by stage Monday evening to be the guests of Memorial Lodge of that city.

Frank M. Ledley, of the 9th Calvary U. S. A., is enjoying a 48 hours' furlough with his father, John M. Ledley, in Westfield.

Robert Embleton, of the 203d N. Y. Regiment is home from Camp Black on a week's furlough.

The Board of Education will hold a special meeting Tuesday evening.

LINCOLN.

(Special Correspondence of The Press.)

Lincoln, Sept. 10.—The Grant Avenue ball nine of Plainfield are expected to cross bats with the local team today on the home grounds.

Mayor Drake has been entertaining a number of capitalists during the past few days, and received quite a number of investments.

Mrs. Olivia Hazard, one of this town's charming Councilwomen, has gone on a visit to friends in Philadelphia this week.

A picnic will be given by the Mayor to all the Sunday-school children in the grove this afternoon.

REALTY CHANGES.

Matters of Record From Plainfield Recorded in County Clerk's Office.

The New Jersey Contractor and Gazette publishes the following transfers of property as recorded during the current week at the Union County Clerk's office:

Mr. and Mrs. John A. Stoner, of Brooklyn, are visiting at the home of L. E. Cole, 76 Duer street.

Mrs. Daniel McCarthy started today for Lake Hopatcong, accompanied by her sister, Miss Kittie Carney.

Mrs. H. E. Gayle, of Vine street, who has been seriously ill, has about recovered her usual good health.

Mrs J. E. Tyrrell and daughter, of Manning avenue, are home after a week's visit in Somerville and Bound Brook.

A. B. Dunlap and the family of A. D. Conant, of Watchung avenue, returned this morning from their summer outing.

Mr. and Mrs. Daniel McCarthy have returned from the Catskill Mountains, where they have been spending the last three weeks.

Miss Helen F. Wagner, of West Fourth street, and her cousin, Miss Stout, of Newark, are visiting relatives at High Bridge.

Mrs. A. J. Gavett and family, of West Fifth street, returned today from Kennebunkport, Me., where they have been spending the summer.

J. B. Mills and family are again occupying their cottage on the mountain, adjoining the Mountain Park Inn, where they will remain for about six weeks.

B. R. Rogers, of Westervelt avenue, who has been very ill with typhoid fever for over eight weeks, was able to go to his place of business for a little while today.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way.

J. J. Kenney, of East Second street, is a sufferer from the hay fever.

Sheriff Wyckoff, of Somerville, has been in the borough on business.

John Baker and family, of this city, have been visiting Centreville friends.

Mrs. James T. Scott, of West Seventh street, will return from Atlantic City today.

Miss Mariella Brokaw, of this city, has returned from a visit with Raritan relatives.

Joseph Owen and family, of Harlingen, have taken up their residence in Plainfield.

Miss Louella Mills, of East Fifth street, will return from her vacation next week.

Winfield Schomp, of West Front street, has been visiting relatives at Whitehouse.

Miss Esther Labaw, of this city, has returned from a visit with her parents at Harlingen.

E. B. Day and family, of Central avenue, have returned from their summer outing.

Miss Lizzie Huff, of Centreville, is visiting Mr. and Mrs. Horace Huff, of Coddington avenue.

George Firstbrook, of Elmwood place, is absent from home on an extended business trip.

Walter Emmons, of Jackson avenue, has accepted a position with a New York dry goods house.

Miss Mamie Dunham, of this city, has been spending a few days with friends at North Branch.

Mrs. Hughes, of East Second street, who has been quite ill, is reported as being not much improved.

Mr. and Mrs. John Whitenack, of Duer street, have been visiting at Blawenburg, Somerset county.

Wm. Runyon, of South Orange, is visiting his brother, Isaac P. Runyon, of North avenue, for a few days.

Miss Ethel Lorton, of this city, who has been spending her summer outing at Centreville, has returned home.

Mr. and Mrs. Romeyn VanZandt, of this city, have returned from a short visit with relatives at East Millstone.

Rev. Madison C. Peters, who has been spending the summer on East Front street, has returned to his home in New York.

Mrs. George Firstbrook, of Elmwood place, who is visiting friends at Harrisburg, Pa., is expected to return in a short time.

Ramsey Blair and family, of East Second street, have returned from Belmar, where they have been spending the summer.

Miss Lillian Thorn and Miss Lottie Chamberlain, of East Third street, are visiting at the home of George Martin, Raritan.

Miss Nettie Miller, of New York, who has been visiting Mr. and Mrs. Henry Windham, of Fairview avenue, has returned home.

C. W. McCutchen and family, of Rockview avenue, who are spending the summer in the Adirondack Mountains, will return about October 1st.

Mr. and Mrs. A. Weston, who have been visiting Mr. and Mrs. Henry Windham, of Fairview avenue, have returned to their home in Brooklyn.

W. J. Roome, of Washington Park, has joined his family at Atlantic City, after a brief stay in New York. He and his family will probably return home next Monday.

Alonzo Titsworth, of Boston, who was called to Plainfield a few days ago to attend the funeral of his sister, Miss Edith Titsworth, who died so suddenly, will return to Boston Monday next.

Mrs. Wilbur Chamberlin and family, of Jersey City, visited relatives in town this week. Mrs. Chamberlin's husband, who is connected with the New York *Sun* as correspondent, is still representing his paper in Cuba, where he has been since the outbreak of the war.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness, caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular; free.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—The Gesang and Turn Verein will meet in regular session Thursday evening of next week.

—The Somerset County Board of Freeholders will hold a regular meeting at Somerville next Tuesday.

—Winfield Scott Post, No. 73, G. A. R., will hold a regular meeting the last Tuesday evening in this month.

—The New York company which recently purchased a canning plant near Williamstown has to date bought 5,000,000 pickles from farmers in that vicinity. Some of these growers have taken as high as $100 per acre from this product.

—Miss Palmer, of 123 East Sixth street, announces reception hours from 10 to 12 a. m. and 3 to 5 p. m. every day next week, to all who wish to investigate the latest and best methods of music study. Miss Palmer is qualified by study and experience to give expert advice.

—Frogs have left their meadow homes for the near-by farms in pursuit of the pernicious worms and bugs that have hatched out by the million during the long wet and heated term. Frogs, unknown to many interested, destroy every season innumerable numbers of farmers' insect enemies, and without using a share of the fruit and other crops protected, as do the birds.

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Malaria, Chills and Fever. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating Tonics. Price, 50c. For sale by R. J. Shaw. 11 30 eod 1y

Ladies fine lisle hose, 50c quality, 29c pair.

Edward White.

NEW YORK FASHIONS.

The up-to-date young woman returning from a sojourn at mountain or seaside is surrounded with as many boxes and bags as would have been considered enough to accommodate the wardrobe of an entire family in the days of our grandmother. But times have changed since then and among the bachelor girls accessories her bags and boxes are no small expense and there is always something new to buy.

Even suppose her to be provided with two or three general and hat trunks, there is her "dress-suit" case, for short trips; her bicycle trunk, her dressing-case bag, her case for mandolin or guitar, whichever it is; her valise for her mascot—all pets are mascots these martial days—and, the latest, her trunk for her bathtub! It is the thing to carry an individual "bath" now upon many such trips as one makes in the summer.

Hat trunks are made in two sizes—of about 20 inches square, to hold five, which is as many head coverings as an ordinary woman needs for a season, and the other about twice as large.

Inside, four little mounds are secured to the sides and bottom of the trunk. They are of woven wire, and those of better grade are covered with canton flannel. Packing four hats by this plan becomes as simple as plunging eight hatpins into them. Indeed, that is really all it is. The crown of each fits over one of the four mounds on the sides or bottom of the trunk, and two pins stuck through each hat and mound preserve the hats against the worst the baggage-smashers can do. A small tray in the top is for the fifth. It is especially meant for a sailor style, being only a few inches deep.

Nearly all modern trunks are canvas-covered, except those made for army officers. The last are small, black, iron-bound boxes, with an unusual number of red silk-lined places for hats.

A new sort, intended for the European traveler, is covered with olive green canvas, the slats secured and ornamented with nickel rivet heads thickly as a dog's collar or a leather belt, this year's style. Everything possible has been done to make the trunk light in weight, to give the European railroads as little to gain as possible. The newest trunks for general use are made each with a special compartment in the top tray for shirtwaists. It holds several of these useful articles folded closely.

With the advent of cool weather the tailor made girl puts in her appearance, and a very charming creature she, quite as lovely in fact as the fluffy and airy maiden who held full sway during the summer months at seaside and mountain, attired in filmy garments designed to please the eye and captivate the heart of the summer young man.

The make-up or the fin de siecle tailor made girl does not consist solely of a handsome gown of faultless fit, by any means. She must be, what every woman desires, well groomed from the top of her pretty head to the tip of her well made boot. This means abundance of time spent on the toilet; brushing and arranging the hair in a becoming manner, keeping the skin in good condition, the teeth of pearly whiteness and the nails well manicured. Then the hat must harmonize with the rest of her costume, while the veil to be worn must be selected with the greatest care and always neatly folded after wearing, as nothing tends to spoil a pretty costume like a tawdry or homely veil.

Gloves and shoes are of the greatest importance, and a rip in the glove or a shoe minus a button imparts a decidedly slovenly appearance to an otherwise dressy toilet. All these minor details takes time and thought, but a woman is well repaid for the extra trouble when attired for an afternoon walk or drive.

The chief change noticeable in the tailor made gowns for early fall wear, is the touch of feminity which is apparent in all the models, the complete mannish appearance having completely disappeared, and fancy collars, plastrons, revers and trimmings having usurped the stiff collars and shirt fronts, thus making these garments far more attractive than the severely plain modes of former seasons. This change is especially pleasing to the sterner sex, who highly disapproved of the wholesale adoption by the summer girl of the articles of attire which they rightfully consider their especial property.

Beige cloth is the material employed for another chic tailor made costume. The skirt made with a straight front gore, has a circular flounce extending from the gore around the sides and back. The cut-a-way coat, made with long swallow tail basques at the back is tartan lined and opens in the front over a vest of black taffeta, fastening with small jewelled buttons. The collar and revers are of satin, trimmed with stitched bands, these bands also forming the garniture on skirt and coat. A stock of white mousselaine de soie is finished in front with a jaunty bow of plaid silk.

Stuffed Tomatoes.

Tomatoes stuffed with fish are a variation of baked tomatoes that is recommended. Canned salmon may be used or any kind of cold boiled fish. A sauce such as is prepared for any fish is made of butter, flour, and milk, paprika and grating of nutmeg being an addition. To this boiled sauce, before it is stirred with the salmon, add the powdered yolks of two eggs, boiled very hard, and the pulp of the tomato. The tomato shells are then repacked with this mixture, the top covered with a little buttered cracker crumbs, and the whole baked, with frequent bastings, until browned.

A Girl's Ideal.

A girl never marries her ideal. One reason is, that she seldom finds him, and when she does, she doesn't like him. Another reason is, the material man is so dreadfully unlike the one of her imagination.

A girl is an inconsistent creature, anyway. As sure as she fashions the idol of her mind's eye as a great, fierce, black-moustached, brigandish-looking individual, the end will be a promise to love and obey some meek, freckled, red-haired person who cannot forget his affection for chocolate carmels and football scrimmages.

Most dreadful is the fate of the little woman who admires the jolly man who can laugh at paper-weight biscuit and boiled beefsteak, for she invariably falls head over heels in love with some solemn stately man, whose very photograph makes her dumb with silent awe.

Robes de Luxe.

Among the robes de luxe for autumn wear will be those of very rich but exceedingly flexible and lustrous watered silk in black, made in princesse form with elaborate trimmings on the front from shoulder to skirt hem. The garnitures vary for those of different ages, size, and height. Very elegant jet pieces in quaint, beautiful designs combined on the most expensive gowns with black guipure lace, decorate some of the dresses that are cut low in the neck, the space being filled in with a guimpe of jetted net over white or colored satin or of cream silk laid in fine tucks. Even for elderly women some of these princesse gowns have a little rounded yoke of lace with neckband of mauve, plum-colored, dahlia, or black velvet, almost covered by the lace pleatings, which fall over the collar.

GOWN OF BLACK SILK WITH WHITE APPLIQUED VEST AND REVERS

The Newest Tailor-Made.

The tailor-made gowns designed for autumn wear have the combined effect of being both mannish and feminine in appearance. The severe cut-away coat promises to be very popular, but will be somewhat relieved by the soft fixings about the neck, which are now generally adopted in place of the high standing collar.

A lovely model of wool poplin has the skirt made very tight fitting at the top but flaring at the base. The cut-away coat is trimmed around the edges with embroidered satin and is worn over a vest of satin. White chiffon forms the stock collar and tie, while the belt is of black velvet caught with a handsome buckle.

The Useful Blouse Waist.

The separate blouse waist grows more in popularity every season and it is hard to say when this convenient and indispensable article of attire will ever be given up. All sorts of materials are employed for their manufacture and they are made suitable for every occasion.

A lovely model is of rose colored taffeta, embroidered in white and trimmed with bands of guipure insertion. The corsage is cut square in the neck and is worn over a guimp of white crepe de chine. The sleeves, of taffeta, are close fitting and are finished at the wrist with a pointed cuff.

To Prevent Globes from Breaking.

The breaking of glass globes is very frequent, as all housekeepers know. Their durability may be greatly increased if they are tempered beforehand. This is done by putting them in a large pan, and covering them with cold water. The pan is then set on the range until the water boils. When that occurs it is removed from the fire, and the globes are allowed to remain in the water until it is perfectly cold again. This is a common treatment for lamp-chimneys, and is equally efficient in the case of glass globes.

An Italian sculptor has designed a sculpturing machine for duplicating statuary and carvings, in which several pieces of rough marble are set in pivots in a frame, and the carving tools for all are operated by the artist as he works on one of the pieces.

The origin of the custom of widows wearing caps is extremely ancient. It may be traced back to the Egyptian and Grecian practice of shaving off the hair in periods of mourning. But as without hair their was a danger of catching cold, the men wore wigs upon their heads, and the women caps.

Dinner.—Pea Soup. Broiled Chicken. Riced Potatoes. Green Corn. Lettuce Salad. Ice Cream. Coffee.

For Dressy Wear.

A charming blouse for afternoon wear is made of pale pink nun's veiling, combined with fine guipure lace. It is arranged in large tucks over a tight fitting lining, fastening down the front and opening at the top over a collar and plastron of finely tucked mousselaine de soie. The pointed revers, collar and epaulets over the tucked sleeves are all of guipure. Black velvet ribbon encircles the waist.

Many of the new blouse waist boast large revers, edged with narrow lace insertion over a foundation of chiffon puffing. Silk waists veiled with chiffon have the epaulets, basques and revers decorated in this manner.

Styles in Hair Dressing.

The summer modes of dressing the hair for evening vary somewhat, as they should always do, with each individual, but the latest fancy in Paris is the Spanish coiffure, with a high jewelled comb, and a glowing crimson or yellow rose at one side just above the ear. Another style shows a high compact knot on the very top of the head at the back, with the hair very loose, wavy, and fluffy all around. All sorts of pretty jewelled side-combs, tortoise-shell pins, and glittering ornaments are used with this coiffure, including crescents, wings, and dragonflies of spangled gauze. Another fancy is a rose cluster and an aigrette rising from a coif of waved and loosely coiled hair.

A New Fad.

The next dietetic fad is going to be banana flour. Manufacturers are experimenting in this direction, and promise soon a meal that will keep as long as wheat flour and make a much more nutritious bread. As already the craze for whole-wheat flour is passing this new albumen will undoubtedly meet a quick welcome when it comes. The use of the banana has developed its great value as an article of food and the great army of banana consumers are prepared to accept eagerly its further development.

Lokal-Nachrichten aus der alten Heimath.

Provinz Schleswig-Holstein.

Schleswig. Die Stadtvertretung hat beschlossen, zur dauernden Erinnerung an den Fürsten Bismarck ersten 10,000 Mark zur Gründung eines Bismarckfonds zu bewilligen, dessen Zinsen zur Unterstützung verschämter, hilfsbedürftiger Personen dienen sollen; zweitens auf dem Rathhausmarkte einen Bismarck-Brunnen zu errichten. Die Stadtvertretung hat zu den Kosten dieses Brunnens eine Summe von 6000 Mark bewilligt, während der Restbetrag der Kosten durch freiwillige Gaben aufgebracht werden soll.

Tondern. Ein seit Jahren wegen Unterschlagung von 80,000 Mark von der Berliner Polizei verfolgter Kaufmann, der als Badegast in Amrum weilte, wurde dieser Tage dort verhaftet.

Provinz Westfalen.

Altena. Das Stadtverordnetenkollegium lehnte die vom Magistrat geforderte Beihilfe von 75,000 Mark für eine Schmalspurbahn durch das Nettethal ab. Damit ist die Verwirklichung des seit zwei Jahrzehnten erstrebten Zieles wieder in weite Ferne gerückt.

Gelnhausen. Auf dem Kirchweihfeste im benachbarten Lanzingen entspann sich ein Streit zwischen jungen Burschen aus Geislitz und Lanzingen, wobei ein Geislitzer Bursche einen Burschen aus Lanzingen so schwer am Halse verwundete, daß der Getroffene todt auf dem Platze blieb.

Sachsen.

Dresden. Die hier stattgehabte Versammlung des Vereins deutscher Straßen- und Kleinbahnen erörterte namentlich das Pensionswesen und Fachfragen. Die nächstjährige Versammlung findet in Elberfeld-Barmen statt.—Der Trambahnkutscher Reich wurde durch einen Kollegen bei einer Neckerei getödtet. Der Thäter ist verhaftet.

Chemnitz. Nach einer auf dem Verbandstage der Feuerwehren des hiesigen Kreises erfolgten Feststellung gab es am Beginn dieses Jahres, außer den Spritzenmannschaften, in Sachsen 738 organisirte Feuerwehren mit 498,837 Mitgliedern. Insgesammt gibt es in Sachsen rund 2500 Fahrspritzen mit 537,000 Meter Schlauchleitung. Die 738 Wehren haben im vorigen Jahre 15,365 Uebungen abgehalten; bei 2918 Bränden waren sie thätig.

Glauchau. In Folge der großen Hitze starben am Hitzschlag je ein Mann von der zweiten und fünften Kompagnie des Infanterie-Regiments 178 der Garnison Zittau und Kamenz auf dem Marsche nach Königsbrück.

Grimma. Durch Großfeuer wurden vier große Wohnhäuser zerstört. Viele Familien sind obdachlos, die meisten sind nicht versichert.

Leipzig. Der Berliner Schnellzug überfuhr kürzlich auf dem Uebergang nach der Moskauerstraße einen mit Steinen beladenen Wagen. Dem Führer des Gefährts wurden beide Beine abgefahren; die Pferde wurden getödtet. Der 60jährige Bahnwärter, der die Schranke nicht geschlossen hatte, versuchte sich zu erhängen, konnte aber noch lebend abgeschnitten werden.

Lichtenstein. Der Briefträger Frommhold ist wegen Unterschlagung von Geldern und Soldatenbriefen zu einem Jahr Gefängniß verurtheilt worden.

Ziegenhain. Hier erhängte sich der Bürgermeister nach einer Gemeindeversammlung, in der er wegen der in der Ausführung begriffenen Wasserleitung und ihrer Kosten scharf verurtheilt worden war.

Thüringische Staaten.

Gotha. Eine Anstalt zur Erziehung und Pflege der Idioten, wesentlich von der Herzogin Marie begründet und nach ihr „Marienstift" genannt, wurde feierlich in Gegenwart der Herzogin eröffnet. Die Anstalt ist für 36 Pfleglinge eingerichtet.

Hildburghausen. Die Königin Luise von Preußen hat oft in hiesiger Stadt bei ihrer Schwester Charlotte, welche mit Friedrich, dem letzten Herzog von Sachsen-Hildburghausen, vermählt war, geweilt. Im Jahre 1815 haben Herzog Friedrich und seine Gemahlin der Königin Luise im Schloßgarten ein Denkmal setzen lassen, das im Laufe der Zeit stark verwittert ist. Jetzt ist dasselbe neu restaurirt worden und hat ein neues Medaillonbild der unvergeßlichen Königin erhalten, das nach einem Entwurf des Herzogs von Meiningen in Marmor ausgeführt ist.

Jena. Auf eine Anregung aus Gera werden an der hiesigen Universität im kommenden Winter wöchentlich am Samstag Nachmittag Kurse für Volksschullehrer stattfinden. Sie werden sich vorläufig auf Pädagogik, Naturwissenschaft, Geographie und Volkswirthschaftslehre erstrecken.

GOOD JOB WORK.

THE DAILY PRESS office can do it—anything from a milk ticket to an auction bill; even larger, too.

The job department of THE DAILY PRESS office is the largest and best equipped in Plainfield or vicinity. The workmen employed are experienced and capable and possess the knack of producing neat products. The prices are reasonable. When work is promised for a certain time the customer gets it without the aggravating delay common to many printeries.

If you need job printing at all you need the kind that reflects credit for neatness and style on you. You can get that kind

AT THE DAILY PRESS.

YOU'RE READING THIS?

CERTAINLY!

Well, Mr. Merchant-who-thinks-of-advertising, this is only one of the many corners in THE DAILY PRESS—it isn't the best located one, either; we can give you better—and if this attracts your attention in our endeavor to tell you how good advertising will get you a hearing before the purchasing public, doesn't common sense teach you that if you were having people reading your trade story instead of you're reading our argument about it, that it would be better for your business.

THE DAILY PRESS reaches the purchasing public that makes the profits for the merchant.

We can give you big or little space—but in advertising it is'nt always economy to be sparing in your appropriation.

EDUCATIONAL.

The Plainfield Academy,

(CONTINUED.)

His low musical voice was full of wonderful tenderness, his arm encircled the girl's slender waist as she rode slowly by his side. It rested there for a minute or two, while Lilac remained mute and motionless. Her face was still deathly in its pallor. Then, almost as if acting automatically, she put down one hand and removed the arm that encircled her waist.

"I am sorry I made a mistake—or rather, I am very glad," she said slowly; "and I thank you very much, Sir Roydon, but I cannot accept the ring."

"You do not love me then, Lilac?" The Baronet's tone was not altogether a hopeless one. "I thought you cared for me a little, dear," he went on in earnest impassioned tones, as Lilac did not reply. "Do not tell me that I have imagined it all, or that your heart is already somebody else's property, for I think it will break mine if you do, little girl. Lilac, Lilac, do you care for me a little?"

"I like you very much, Sir Roy," said the girl, answering at last, her face still pale and impassibe, "but I cannot marry you."

"Why?" The young man's tone showed that he was becoming more hopeful still, and, as he uttered the monosyllable, his arm again encircled her waist.

Lilac did not seem conscious of its presence. She had not raised her eyes once from her horse's mane since the young man had made his declaration of love, and they were still lowered as she made answer—

"If I give you a good reason, will you promise me never to ask me again to —to be your wife?"

The young Baronet gave the promise readily, and, as if a little relieved by it, Lilac went on with less effort.

"You think that you are in love with me because you have seen me only here, where I am at home; but you would soon find out, when we got to England, that I am not at all the sort of girl you ought to marry. I am not clever or rich, and I should not know how to act among your friends. I should be strange and awkward. You would soon discover that I belong to a different world from yours, and you would be sorry that you had given way to impulse, instead of waiting and choosing a wife among your own people. I am glad you have asked me—it will be something to remember and think of that you have cared for me sufficiently; but I shall not marry you It is of no use asking me. I see so clearly that it would be wrong of me."

She spoke quietly, almost coldly, but the rigidity and pallor of her face showed what great cotnrol she was exercising over her emotion to be able to do so. For a moment the man at her side saw only the coldness.

"But do you not love me?" he asked passionately; and Lilac answered more quietly than ever.

"Even if I loved you, I could not be your wife. You promised not to ask me again."

His fear vanished before her evident reluctance to give a direct answer to his question, and he went on quite cheerfully—

"Only if you gave me a good reason for refusing, dear. And there is only one possible reason that I should think a good one."

"And that is——"

"That you do not love me sufficiently. What you say about not being the sort of girl I ought to marry is all rubbish. I should think I am the best judge of that, and I consider you would make the best 'Lady Garth' imaginable. You are perfectly good and beautiful and refined; anything else that my wife should be you can pick up in a month—the way to snub people and say nice things you do not mean, and the other few accomplishments of a cultivated lady. The only thing I want to know is whether you think me worthy of the honour of being your husband. Do you, Lilac?"

His voice was soft and persuasive, his deep earnest eyes were bright and tender with love, but the girl compressed her lips tightly.

"It is of no use talking about it, Sir Roy," she said with quiet determination. "I wish you would agree to forget that you have spoken like this to me. Please spare me the pain of talking about it again. Shall we have a gallop now? The horses do not like this walking pace."

She gathered up the reins as she spoke, but Garth laid his hand upon her arm.

"One word, and then I won't say any more about it at the present, since you do not wish it, Lilac. To-morrow, as you know, I have to start for the Seven-Cent mines in —Nevada—I cannot put it off any longer, because I was due there a week ago. When I come back in two months' time, I mean to marry you. Believe me, I know you better than you know yourself, and understand how far you are different from the women who would be thought 'suitable matches' for me—how much nobler and sweeter than any I have ever met, how slight your deficiency is in the thin veneer of polish which you think so much of. Whatever you say—unless it is that you do not love me—I shall marry you when I come back. That is all, so we will gallop now if you like!"

His companion did not seem eager, however, to avail herself of his permission.

"You must not come back," she said hesitatingly; but Sir Roy interrupter her.

"We will not spoil the day with arguments, little girl," he said.

The girl's manner and reticence had reassured him upon the point about which he had been anxious, and he could afford to leave the conquest of her unselfish scruples until his return from the Nevada mines. "She loves me—she dare not say that she does not love me," he said to himself with a delightful feeling of success, as he noticed how pale she was, and that her eyes dared not meet his; but the evident pain he was causing her by continuing the conversation made him willing to forego for a little while the ecstacy of hearing her lips declare the love that her face could not conceal.

He forced his horse's pace as he finished speaking, and the two riders, galloping side by side over the short grass of the prairie, had no chance of uttering more than monosyllables until the wooden roofs of the farm buildings of the ranch came into view. Then Lilac drew bridle and waited until the Baronet was abreast of her.

"You have made it easier for me to say something that I wanted to," she said earnestly. "When I warned you against coming back to the Gulch, it was not so much the men I was thinking of, although they are a rough, lawless lot, as my cousin, Lance Marvel. He wants me to marry him, you know."

"But you have never dreamed of doing that?" Roy asked quickly.

The girl's answer reassured him.

"I would kill myself first! But he is jealous of you all the same. That is what made me sorry for your return. Remember that he will do you harm if he can."

As she spoke they arrived at the entrance of the house, and Lance Marvel, a tall sinister-looking man, with shaggy black hair and black eyes, lounged out of the open door to greet his cousin and their guest.

CHAPTER IV.

There was a very evil look indeed in the eyes of the gaunt young California farmer when they lighted on the couple of riders who reined in their horses at the door of the rough wooden building which for the past two years had served as Lilac Marvel's home. But he managed to look friendly enough when he approached them, and, with a silent nod to Sir Roy, led away their horses to the stable at the back of the house. Lilac took advantage of his absence to whisper a last warning to her companion.

"You must not let Lance or any of them guess what you have said to me," she said earnestly, with a nervous glance in the direction in which her cousin had disappeared.

Sir Roy looked into her eyes as he answered—

"I shall not speak a word to a soul, sweetheart, till I come back. Then everybody will know, because we shall have a wedding. What makes you so nervous?"

"It is Lance," she said. "He is so passionate and lawless! If he thought that I cared for you, I think he would kill me."

Roy laughed to reassure her.

"You need not be frightened, little prairie-flower," using for the first time a name by which he had often called her in his thoughts. "I think I am quite able to take care of myself."

"But he has such an influence over the men on the ranch. They will do anything he wishes," she went on quite unaffected by her companion's light-hearted assurance. "You must be very careful."

"For your sake, Lilac."

Roy was looking down into the girl's sweet flushed face with eyes that were full of tenderness. But she did not allow her own to reveal any of the love that was in her heart.

"Yes—I should never forgive myself if harm happened to you here," she said gravely. "Now let us go into the house. He must not see us still standing outside here when he returns."

As she spoke she led the way through the open doorway and across the barely-furnished room into another at the back, where her uncle sat smoking by the side of the empty grate. This room, like the other, was lighted by a common kerosene lamp, and contained only the roughest of furniture; but it was made beautiful in the young Baronet's eyes by a dozen little signs of womanly care and refinement. There was something pathetic in the sight of the vase of butterfly-like mariposa bloom on the rough wooden table, in the dainty curtains before the roughly-sashed windows, in the hanging bookshelf on the wooden wall—the wall that Lilac herself had painted a delicate green.

Her uncle had not risen upon his entrance, and had taken the black corn-cob pipe only for a moment from between his lips while he grunted a greeting to his guest. He was more than sixty years old, with a weak but not unkindly face, and he had glanced up from under bushy white eyebrows. When he spoke, it was with a slow whining drawl.

"Sir Roydon Garth has come back, as he promised, to bid us 'Good-bye' before he goes to Nevada, uncle," said Lilac, as the old man went on stolidly smoking; and Seth Marvel took the corn-cob pipe from his mouth once more.

"Has he brought the money?" he drawled, without looking up.

Lilac's cheeks flushed. Sir Roy could not help thinking what a beautiful picture she made, as she stood by the table in the light of the kerosene lamp, untying the strings of her red cape. He could scarcely take his eyes from her face to answer her uncle.

"Oh, yes, I have the money all right, Mr. Marvel!" he said, smiling at the old man's eagerness. "I will settle your bill now if you like."

The farmer answered, without looking up—

"Oh, there's no bill! We do not want to charge you anything for our hospitality; but I have no doubt you are a richer man than we are, and your illness has been expensive. Hasn't it, Lil?"

"No, Uncle Seth. You know that it has not cost us anything," said the girl with quiet determination; and there was a long awkward pause, which Sir Roy tried to fill up in an easy and well-bred manner.

He was sorry that the subject had been broached in Lilac's presence, and was anxious to get it over with all possible speed. The old man interrupted his polite phrases.

"It does not matter," he drawled. "I do not want any payment I only thought that fifty dollars or so would put things straight between us. "Where are you going, Lil?" For Lilac was walking out of the room.

Sir Roy wondered how the farmer could have noticed it when his eyes were not once raised from the floor. She made no reply, and the young Englishman waited until she was gone before removing his belt and taking from it a hundred dollar note, which he pushed toward his companion.

"I was thinking of asking you to accept this, Mr. Marvel, as a slight return for your kindness and hospitality to a stranger," he said, with an amused twinkle in his eyes.

Seth Marvel's horny fingers closed greedily upon the note.

"You have acted like a British gentleman," he said, when he had noted its amount, and held it up to the light to see whether it bore any signs of being a forgery.

LANCE CAME IN.

Lance came in as his father was speaking, stepping so quietly that Sir Roy started when he turned and caught sight of his face. In his surprise he dropped the belt, which he had been replacing around his waist, and it fell to the floor with a clanking sound, as of gold. Lance Marvel's deep-set black eyes brightened as he heard it, and he bent down in his ungainly, hulking way to pick up the belt.

"It's pretty heavy, stranger," he drawled lazily; and something in the tone made Garth remember Lilac's warning against taking this sinister man into his confidence.

He was thinking what reply to make in order to prevent Lance Marvel's concluding that he carried a fortune about with him, when Lance turned to his father without waiting for a reply.

"Where's Lil, guv?" he asked. "I have a bone to pick with her."

"You will find her somewhere out at the back, I guess—she has just gone out. Tell her I want supper. The girl is always reading or scribbling when we want her!"

Sir Roy buckled on his belt in silence. It jarred upon him terribly to hear these coarse hulking fellows talk of the woman he loved as if she were a mere drudge, a chattel, and his blood boiled to think that they should have the right to do so all the time that he was away. In a few more hours he would have to leave her for two whole months, and here he was wasting time by keeping away from her. He burned with impatience, when the younger of his two companions lounged out of the room in search of his cousin, leaving him to a one-sided conversation with Lilac's uncle. He would have been more restless still if he had known what was passing outside the house, where Lilac had gone to relieve her feelings of anger and shame at the inhospitable conduct of her uncle.

"What will he think of us all?" she cried out in indignant pain, as she recalled the scene that had just taken place in the house. And never before had she rebelled so thoroughly against the coarseness and greed of the relatives upon whose hands she had been thrown than now, when they contrasted so strongly with the unselfish thoughtfulness and refinement of the man she loved.

For, although she would never confess it, Lilac did love the handsome young Englishman with her whole heart and soul. She would never marry him, she was quite decided on that point. She would never allow him to suffer for his generosity, for the mistake that she felt he was making in mistaking gratitude for love. Even Evangeline Garth, as she exclaimed over her cousin's telegram, "Poor auntie—and poor Lilac Marvel!" did not realize one whit more clearly than the California girl herself what would be thought by Sir Roydon Garth's aristocratic mother and aristocratic friends if he took home to England a wife from the "wilds."

Lilac never allowed herself for a moment to think of marrying him. If she remained firm he would soon forget her, she told herself, and before long he would meet among his own people a bride to love, and of whom he would have no need at all to feel ashamed. Poor Lilac wiped away some tears as she thought of seeing him no more; but she never wavered for a moment in her determination.

She was startled out of her reverie by the voice of her cousin, who had overtaken her before she was aware of his presence.

"Hallo! What are you crying for, Lil?" he asked, with some rough tenderness in his unmusical voice; and the girl quickly brushed her tears away.

"I was not crying, Lance."

"Oh, yes, you were! I have been watching you.

"What—in the dark? Well, if I did cry, it was about something you would not understand. So please go away."

Her words irritated him, although that was the last thing she wished to do that night, and the roughness was in his voice without the tenderness when he spoke again.

"You always say that I don't understand," he burst out irritably, with less of his drawl than usual. "I understand a great deal more than you think, Miss Lil, about you and your fine friend here. I have seen him making eyes at you. You think he is going to marry you, I guess; but he won't. You had better take me, Lil." The unaccustomed tenderness was again coming back to his voice. "You know that I have loved you ever since you came here. Why won't you have me? Many girls would be glad to. There are the Sylvester girls over at the Bluffs who would give their right hands to be Mrs. Lance Marvel!"

Lilac could not restrain a smile of amusement.

"So would I, Lance, of course—if I loved you. But I have told you so often that I do not!"

"Then whom do you love? The Englishman, I suppose?"

Lilac was silent. She could not tell him a direct falsehood.

"You may be sure that he won't ask you to marry him," said Lance. "He is too fine a person for you."

The sneer aroused the overwrought girl into sudden passion. But it was more for the Baronet's honour than her own that she answered quickly—

"You are wrong. Sir Roydon asked me this evening to be his wife."

She had thought for a moment that it would be better to tell her cousin that she had received the offer and had refused it; but the sight of the young man's face made her regret that she had spoken.

"You jumped at it?" he asked fiercely; and Lilac made haste to answer—

"No—I have refused."

"Refused to be 'her ladyship?' I do not believe it."

"You have never known me to tell a lie, Lance."

"Well, I will tell you why I do not believe you," he drawled lazily. "It is because I watched you when you thought I was taking the horses to the stable. You didn't look as if you had refused him. You had better promise to marry me, if you don't want harm to happen to your fine friend to-night."

Lilac felt that she could have bitten her tongue off. She had satisfied her cousin on the one point about which he had a doubt—whether the Baronet was in earnest in the attentions he paid her—and now the fear that his jealousy would lead the unscrupulous young farmer to try to injure the man she loved seemed a very serious one. She struggled to undo the harm by insisting over and over again that she had no intention of marrying Sir Roydon Garth, although he had asked her; but it seemed like talking in vain.

"I give you one more chance, Lil," Lance said fiercely, at last. "Will you marry me?"

Lilac shook her head in silence.

"All right, then! The Britisher shall pay for it!" he said, and strode back to the house.

(TO BE CONTINUED.)

THE CINEMATOGRAPH IN EVIDENCE.

It Demonstrated that President Faure Was Correct.

The cinemetograph has settled an important international question between France and Russia that might otherwise have added to the prevailing political uncertainty in Europe. It seems that Prince Bismarck, in an interview with a German newspaper man, recently observed that President Faure, during his visit to Russia of a few months ago, had behaved with perfect propriety except upon one occasion. This was when, at his arrival in St. Petersburg, he received the Cossack troops which acted as his guard of honor. He was said to have returned their salute by simply touching his hat, instead of taking off his hat, as the protocol prescribes. Bismarck's criticism was brought to the French President's attention, who cudgeled his brain to remember what form of salute he gave on that momentous occasion, but in vain. Neither could any of his comrades recall. But the other day the cinematograph, which seemed to have kept an unwearied eye upon President Faure's movements in St. Petersburg, was interrogated upon the point, and was able to return a satisfactory answer. It discloses a reproduction of the scene of the President's arrival at St. Petersburg, showing him walking slowly in front of the ranks of his guard of honor, taking off his hat with a large and sweeping gesture of the most correct style. Prince Bismarck had been deceived; the protocol was safe; President Faure breathed easily again.—New York Tribune.

The least said about that last game with Orange, the better. The Riverdales were certainly not up to their popular standard of playing. Westervelt wasn't pitching as good as usual and the Orange batters sent his curves all over the field. Then, too, the Riverdale boys couldn't bat Voorhis' twists. The game was a great disappointment to Mr. Wood, the captain-manager of the Riverdales, who hoped to give the Orange team a close rub if not defeat them.

Norton, who played third for the Riverdales Monday, is one of the crack ball players from the west. He made for himself a great reputation on the Minneapolis team where he was a great favorite. He only recently came east and fell in with his old acquaintances on the Riverdales. Besides being a good infielder he has considerable ability as a pitcher. He pitched against the Brown boys, of Woodbridge, Monday morning, and those great batters were completely mystified. He didn't have to let himself out and was ready in the afternoon for another game.

The team from the New York Athletic club is coming to Plainfield again this afternoon. The New York boys are anxious to retrieve their reputation and have promised their clubmates who are on the Riverdale team that the red and black of the N. Y. A. C. is going to wave triumphant this time. At the last game Sankey, one of Princeton's infielders, was to come to Plainfield on the New York team, but he found some fair attraction too great and stayed away. This time, however, the Dunne brothers are going to round him up the day before and make sure of his appearance at the Crescent Oval.

AMONG THE STEPPERS.

The Interclub Trotting Circuit, comprising Trenton, N. J., Bristol, Newtown and Holmesburg, Pa., has been organized. The following gentlemen were elected as secretaries from each of the four cities represented in the circuit: W. J. Crockett will look after the interests of the Holmesburg track; S. C. Keith will attend to the affairs at Newtown; W. A. Lantell will have the Bristol section in his care, and Wm. H. McMahon will look after matters connected with the Trenton track. The programme of races outlined includes 2:20, 2:30 and 2:45 trot and pace for purses of $100 and $150. National Trotting Association rules will govern the events. The first meeting will occur at Holmesburg next Wednesday. The second will be held the following Saturday at Bristol, and the third will take place in Trenton. Three thousand dollars in purses will be expended.

ROD AND GUN.

Harold Hegeman, son of former Mayor B. A. Hegeman, Jr., of Washington Park, who has passed the summer with his parents at Point Breeze Camp, Wolfboro, N. H., has developed into an expert fisherman. He wound up the season by making a catch of twenty-four fine bass, with his father, three of which, weighing over three pounds each, were sent to relatives at home.

CYCLING COMMENT.

W. H. Rogers has two old wheels in his show windows that attract attention—an ancient Columbia tandem and a "Star." Both were in use five years ago, but wheels have undergone such rapid changes that these look like relics of a former age.

GOLF.

The water pipes have been extended from Somerset street to the new clubhouse of the Park Golf Club, and they now have the use of the water.

THE COURTS.

JUSTICE MOFFETT.

Summons issued—In the case of Casey & Son against O'Keefe et al, on contract, returnable September 17.

Summons issued—In the case of Roberts against Brown, on contract, returnable September 19.

Summons issued—In the case of Hummer against Smith, on contract, returnable September 16.

JUSTICE NASH.

Adjourned—Case of Farley against Field, until September 21.

Improvements at Mt. Olive.

The Mt. Olive church members are thoroughly aroused to the interest of beautifying their house of worship. The frescoe work is completed, and in a few days the entire auditorium will be a room of beauty. The color of the walls are cream and pink, the woodwork light walnut and the pews dark walnut. The seats will be handsomely cushioned.

The Case Adjourned.

The case of Mrs. Laura W. Farley against Isaac N. Fields, as guardian, for board for Charles R. Outen, which was to have come up before Justice Nash yesterday afternoon, was adjourned to September 21st. Judge Cowenhoven, of New Brunswick, represents the plaintiff and Senator Reed the defendant.

WEAR Royal Worcester Corsets.

FOR SALE BY LEADING DEALERS.

JOTTINGS OF THE DAY.

ENTERPRISINGLY GATHERED AND CONCISELY TOLD BY REPORTERS.

Newsy Notes of More or Less Importance Bunched Together for the Ready Reference of Press Readers

—Press want ads bring results.

—The Mount Olive edifice is being handsomely remodeled and beautified.

—The Bard Cycle Company carry a full stock of Eastman's camera supplies.

—Patsy Christmas, the contractor, has his men at work repairing the car tracks on West Front street.

—The fall opening of the Boys' Club will be held Thursday evening, Sept. 15th. It will be an enjoyable affair.

Miss Abbie VanCleef, of East Second street, has gone to East Millstone to spend a week with her father and sister.

—The large tree uprooted in front of the Park Club on Washington avenue last Wednesday has not yet been removed.

—Farmers in the vicinity of Vineland report that the rain Wednesday improved the potato crop to the extent of thousands of dollars.

—During the cyclone of last Wednesday W. J. Roome lost a number of fine shade trees in his park on Willow avenue, in Washington Park.

—At Debele's creamery, 127 B, West Front street, you can always purchase extra fine sweet cream, fresh sweet milk, and fresh buttermilk.

—Blair, the Park avenue haberdasher, will soon have his stock of fall and winter hats and caps. The style will be all right and so will the price.

—Employes of the city are engaged on West Front street repairing the street, and the Plainfield Street Railway Company is also having its tracks reset.

—Dorsey W. Hyde will resume instruction in piano and harmony Monday, September 19th. Lessons will also be given in New York. His address is 705 Woodland avenue.

—Young women seeking art instruction will find the course at the Newark Technical School, as advertised elsewhere, worth inquiring about before making engagements for the winter season.

—Parties in Westfield who keep homing pigeons have lost so many of their birds lately that they have decided to unite and offer a reward of $25 for information as to the persons who are shooting them.

—The Royal Santiago Circle, Mothers of American Protectors, will hold their prayer and praise service Monday evening at the home of Mrs. D. B. Bowden, 225 Grant avenue. Friends of soldiers are cordially invited. 9 10-2

—The George Jonas glass factory, at Minotola, and the Vineland flint glass works, which took no vacation this summer, are continuing with increased activity, enough orders having been received to insure the plant's steady blast at least all winter.

—On Monday Neuman Bros., the grocers, will have peaches, plums, tomatoes and Bartlett pears for canning. Tuesday they will have another large shipment of Hunterdon county peaches, and housewives who have not yet done their canning will do well to buy, as the season is almost gone.

—C. C. Stanley, florist, of 142 North avenue, has on sale a large stock of palms, ferns, pan danup, crotons, and a large assortment of all kinds of plants, which he is disposing of at very low prices. Big discounts on large lots. He is also headquarters for cut flowers, floral designs, decorations, etc.

—The century plant in front of the residence of Mrs. Geo. H. Field, of Roselle, was struck by lightning during Wednesday's storm. The plant was an exceptionally fine one, nearly twenty-five feet high, and a few weeks ago attracted considerable attention, people traveling from the city to see it on account of its being in full bloom.

—It is reassuring to note that in spite of the greater number of people wearing glasses, the percentage of blind persons is on the decrease. This would indicate that the proper adjustment of glasses is saving many people from going blind. Don't "monkey" with your eyes. If they are bothering you call and find the trouble. Scientific examination day and night, free of charge, at Collier's, 103 Park avenue.

Off for a Western Trip.

Charles H. Schermerhorn, manager of the Western Union Telegraph Company's office in this city, accompanied by his wife, leave tonight on the New York Central Railroad for Omaha, Neb., where they will attend the eighteenth annual reunion of the U. S. Military Telegraph Corps and the Old-Time Telegraphers Association. Mr. Schermerhorn takes the trip through the courtesy of the Western Union Company, who recognize in him one of their best employes. R. H. Gorrell will take his place in the local office while he is absent.

Mrs. David Smith, of Steiner place, is confined to her home with a severe attack of pleurisy. Dr. Davis is in attendance.

Reed Will Speak for Pitney.

(Special to The Daily Press.)

Morristown, Sept. 10—In case Congressman Mahlon Pitney secures the nomination for Governor it is understood that Speaker Reed, of the National House of Representatives, will come to Morristown during the campaign and deliver an address.

Lost His Hat Anyway.

As the special train carrying the Illinois soldiers home was passing Picton Station yesterday, one of the men put his head out of the window and was struck by the mail catcher. His hat was knocked off and rolled into the ditch. Whether the man was seriously injured is not known.

New Hotel at Pluckamin.

James Brown, Jr., has commenced the erection of a hotel on the site of the old one in Pluckamin. It will be 48x68 feet in dimensions, will contain 22 rooms, will be fitted up with hot and cold water and electric lights and will cost about $8,000.

Work for Old Employes.

The reorganization of the Iron Clad Rheostat Company, of Westfield, having been completed, the new company has sent notices to the old employes that the shop will start up again in a few days.

Storm Sewers Worked Well.

During the severe storm last Wednesday the newly-laid storm sewers worked to the satisfaction of the officials. They seemed to carry off the water rapidly.

Mrs. Wm. O. Worth, of Washington Park, returned home this morning from a visit with her sister at Phœnixville, Pa.

KILLED AN EMPRESS.

The Fair Ruler of Austria Was Stabbed by an Anarchist in Switzerland.

(Special to The Daily Press.)

Geneva, Switzerland, September 10.—The Empress of Austria was assassinated at the Hotel Blaurivage this afternoon by an anarchist. The anarchist slipped up behind her unnoticed and stabbed her with a stiletto.

The knife sunk in a fatal portion of the body and the Empress uttered a piercing cry and sank to the floor.

She expired in a few minutes.

Great excitement prevailed, but the assassin was not permitted to escape. He was arrested and jailed.

Rev. H. H. F. Schnellendreussler, of Milton avenue, who is confined at the hospital for treatment, is reported as doing well. There has been no return of hiccoughs.

—Use Press want ads for returns.

—Rev. F. Appleton will conduct the services at Grace church tomorrow.

How Senator Vest Got His Desk.

Many stories could be told of the alertness which Senators display in securing well-placed desks, but the experience of Mr. Vest is especially worth relating. When, in 1883, the civil service law was being discussed, Mr. Pendleton, an Ohio Democrat, and Mr. Dawes had presented bills. By a shrewd bit of politics the Republicans abandoned their support of the Dawes bill and voted for Mr. Pendleton's measure, their votes, together with the votes of the Democrats favorable to the measure, being sufficient to pass it. As the bill was about to be voted on, Mr. Cockrell moved that its title be changed so as to read: "A bill to retain Republicans in office." As soon as it passed Mr. Vest filed a claim for Mr. Pendleton's seat. "The author of such a bill," said he, "will never come back to the Senate."

Mr. Vest was right, and at the beginning of the next Congress he moved into Mr. Pendleton's vacant chair.—Washington Post.

One Hundred Gold Dollars.

Gold dollars are very scarce and are at a premium. But that their value is sometimes overestimated was evidenced recently on Third street. A consignment of 100 of the tiny pieces was received from the country with the request to the person to whom they were consigned that he see what could be gotten for them. When the matter was discussed it was thought by some that they would bring as much as $2.50 apiece. A round of the banks was made, and the best bid made for the lot was $1.25 for each good coin. The banks are not allowed to charge a premium on any gold or other coin, but the attaches usually keep a number of the various scarce coins on hand for the accommodation of patrons. The best price obtained by them for a gold dollar is $1.50. The $3 pieces bring as high as $5.—Cincinnati Commercial Tribune.

Some Sound Advice.

The Patron—I confess that I'm prone to making a mountain out of a molehill.

The Clairvoyant—Why don't you go into the real estate business?—New York Journal.

Lace Curtain and Blanket Cleaning

The season is here and we are prepared for it. We have the improved method for handling the finest fabrics in Lace Curtains. It requires skill and carefulness to get them a dainty white without injuring a thread or design.

Few can do this, but we can, because we have made a specialty of it.

We also make a study of washing woollen blankets.

Price 50c. per Pair

RAY POOLE WON THE FIVE-MILE HANDICAP.

The Only Plainfielder to Get a Place in Saturday's Races.

GOOD ATTENDANCE THERE

TRACK WAS IN POOR SHAPE BUT GOOD TIME WAS MADE.

Harry Cuming Run in Hard Luck and Was Put in a Pocket by the Other Riders—A Rahway Rider Disqualified for Fouling Another Contestant —Poole Showed Great Reserve Power.

The amateur race meet held on the Crescent Oval last Saturday afternoon under the auspices of the Riverdale Field Club was a success. A good attendance of people was attracted to the grounds. It was a little after 2 o'clock when the races started. They were run off in good time and everyone enjoyed them. Despite the fact that the track is in a wretched condition, fairly good time was made. In the first race there was a limit of 2:55 placed on the riders in the first heat, and the second heat a limit of 2:46 was placed on them. This had a good effect, for the time made was 2:42. There was little loafing. In the next race, two-mile scratch, a time limit of 6 minutes was used in the first heat and 5:40 in the second heat. There was no time limit in the five-mile race.

The last race—the five-mile handicap—proved to be the most interesting, for Ray Poole, of this city, was the winner. He had a good-sized handicap, but then he is a new rider. He rode a fine race, and showed that he is a stayer. On the wind-up he displayed a reserve of staying power and finished in excellent form.

Harry Cuming was the only other Plainfielder entered. He showed up well, but there seemed to be a lack of courage on his part. In several instances he was crowded outside, and on one occasion when he got inside the other riders placed him in a pocket and this worked disastrously for him.

In the last race Frank Boland, of Rahway, came in third, but was disqualified for fouling another rider, and the place was given to John King, of Newark.

Altogether the races furnished excellent sport and all were well pleased. The result of the races in detail follows below, together with the list of those who rode:

ONE-MILE OPEN.

First prize—Silver watch; 2d prize—solid gold stick pin; 3d prize—gold link cuff buttons.

Winner—Milton R. Brown, Passaic. Second, Nick Pfiffer, Elizabeth. Third, John Allgair, Jr., Somerville. Time, 2:42; limit, 2:55.

TWO-MILE SCRATCH.

First prize—Silver fruit dish; 2d prize, kodak; third prize, racing saddle.

Winner—Thomas Firth, Newark. Second, Milton R. Brown, Passaic. Third, Edward Warren, Kearney. Time, 5:31; limit, 5:40.

FIVE-MILE HANDICAP.

First prize—Gold watch; 2d prize, set silver spoons; 3d prize, racing suit.

Winner—Raymond Poole, Plainfield. Second, Arthur Ross, Harrison. Third, John King, Newark. Time—12:40.

Those who rode in the first race, one-mile open, were John Allgair, Jr., Somerville; Milton R. Brown, Passaic; John King, Newark; Edward Warren, Kearney; Stanley Baldwin, Bloomfield; Thomas Firth, Newark; Nick Pfiffer, Elizabeth; John B. Terry, New Brunswick; Arthur Ross, Harrison; Harry Cuming, Plainfield; Charles S. Tate, New York.

In the two-mile scratch those who rode were Milton R. Brown, Passaic; John King, Newark; Edward Warren Kearney; Stanley Baldwin, Bloomfield; Thomas Firth, Newark; Nick Pfiffer, Elizabeth; Arthur Ross, Harrison; Harry Cuming, Plainfield; Charles S. Tate, New York.

In the last race, the five-mile handicap, the riders and their handicaps were Milton R. Brown, Passaic, 50 yards; John Allgair, Jr., Somerville, 100 yards; Thomas Firth, Newark, 150 yards; Stanley Baldwin, Bloomfield, 150 yards; Arthur Ross, Harrison, 200 yards; John King, Newark, 200 yards; Nick Pfiffer, Elizabeth, 250 yards; F. M. Letson, Stelton, 250 yards; John B. Terry, New Brunswick, 300 yards; Raymond Poole, Plainfield, 300 yards; Edward Warren, Kearney, 350 yards; Frank Boland, Rahway, 350 yards.

The officials of the race were H. K. Lister, secretary of racing committee; timers, J. W. VanSickle, Dr. Pocock, Charles E. Vail; clerk of the course, Harry K. Lister: assistant clerk of the course, Frank Clarkson; starter, H. C. VanEmburgh; referee, Thomas A. Cuming; scorer, F. L. Jones; announcer, William Waters. Charles H. Norwood, of Paterson, was the handicapper.

An Old Engineer Very Ill.

Pony McClaren, a well-known engineer of the Central Railroad, is dangerously ill at his home in Somerville.

—Use Press want ads for returns.

DON'T LIKE ICE CREAM.

A Curious Taste is That Held by a Native of Morocco.

Rev. Charles Mohammed, of Tangier, Morocco, made an interesting address yesterday afternoon at the Y. M. U. A. men's meeting. He related many interesting facts concerning the customs in his native land and also told what is being done for Christianity in that country. He told how glad his people are to hear about Christ and rid themselves of the many false doctrines which they have held for many years. The address was listened to with great interest by a large number of people present.

Today Mr. Mohammed left for Newark, where he will remain for a few days. He will sail for home September 28th, going by the way of London. He says that he prefers the excessive warm weather in his country to the kind experienced in this country. While on his trip here he indulged in a plate of ice cream for the first time, but he says that he does not like it. He has a preference for something warm, instead of something cold. He is much pleased with this country and with the people and with the hospitable manner of those whom he has met.

THE COONTOWN CAKE WALK.

Fantastic Costumes and Graceful Steps at Sunset Cottage.

Saturday evening was delightfully spent at Sunset Cottage, a large number of friends from Plainfield, Metuchen, Mount Horeb and New Brunswick, gathering together to spend the evening with Mr. and Mrs. Jacob Voehl and children. All kinds of games were indulged in, while singing, dancing and recitations played an important part. But the feature of the evening was the Coontown cake-walk, arranged by John H. Carney, in which ten couples participated. The unique costumes and original movements brought forth many side-splitting laughs and Dewey smiles. John Lehlein, of Metuchen, as a "cullud" gentleman from the south, and his lady partner, Mrs. George Terrill, of New Brunswick, as an up-to-date "cullud" lady, were awarded the cake by Jacob Voehl and Edward Sebring, who acted as judges. Refreshments were served, after which all departed to their various homes with pleasant memories of Sunset and the Coontown cake-walk.

A GREAT NAVAL COURTESY.

A Plainfield Couple on Board the Oregon While the Boat Was in Motion.

An uncommon courtesy to civilians was shown last Saturday afternoon at the Brooklyn Navy Yard to C. Maynard Evans, of East Front street, and Miss Margaret Vermeule, of Watchung avenue. The magnificent Oregon was being taken from dry dock and through Mr. Evans' acquaintance with Secretary Long and Admiral Bunce, permission was secured to board the Oregon and remain on board while she was being towed to a distant part of the yard.

Later in the afternoon another naval friend of Mr. Evans remarked that it was almost an unheard of thing for a civilian to be on board a war ship in motion, even if she was being towed by a tug. Surely it was an experience always to be remembered by the participants.

TOOK THE FORBIDDEN FRUIT.

Poor Old "Frenchy" Sent to Jail for 20 Days by the City Judge.

Charlie Gouchet, a poor old Frenchman, who is the butt of many a joke perpetrated by mischievious boys about town, was in police court this morning charged by Halsey Compton with stealing apples from his orchard. He was caught by the owner of the orchard filling a bag with the forbidden fruit yesterday afternoon. Judge DeMeza said that complaints of this sort had been so frequent this summer that someone had got to be made an example of. He imposed a fine of $8 or twenty days in jail. Poor "Frenchy" will go to the bastile for a sojourn.

Night Blooming Cereus.

Last Saturday evening a large crowd was attracted to Armstrong's pharmacy, corner of North and Park avenues to witness a beautiful night blooming cereus. The plant bore 13 flowers and was indeed a pretty sight. The plant is owned by Mrs. Craft, of 232 Kensington avenue, and she was desirous that as many as possible should see it while in bloom. She therefore had it placed in Mr. Armstrong's window.

Clothes for Uncle Sam's Men.

Schepflin, Shultz & Company's clothing factory on West Front street is running full force on a contract of 15,000 blouses for the Army Department. The blouses are made of the best material. The firm had the chance of securing a contract to manufacture 50,000 flannel shirts for the Government, but was unable to secure experienced shirt-makers to do the work.

BOWLING GREEN CHIRP.

THE PLEASURES OF A SCOTTISH GAME TOLD IN SONG.

The Ode Rendered to Christian Schepflin's Green—Written by H. B. Willis, of New Brunswick—It Was Ladies' Day.

(Special to The Daily Press.)

Dunellen, September 12—Christian Schepflin's bowling green presented a gay appearance Saturday afternoon. The Middlesex Bowling Green Club held their semi-annual ladies' day, and one of the pleasantest afternoons in the history of the club was spent. The green was in fine condition, and the playing spirited and close.

Saturday was ladies' day and everybody gave place to them. No matches were played, but the green was resigned to the members of the fair sex who bowled for two prizes put up by Squire Lucky, a set of half-a-dozen siver teaspoons and half-a-dozen orange knives. Mrs. Alex. Pittitt, of New Brunswick, won the match with Mrs. George A. Veihman, of New Brunswick, second. Mrs. Pittitt, being first, was given the first choice. Squire Lucky made the presentation and presented the prizes with a few appropriate words.

After the bowling the members of the club and their guests, the ladies, gathered around the orchestra and sang a song, the words to which were composed by H. B. Willis, of New Brunswick, and dedicated to Mr. Schepflin. This song was sung to the tune "We Won't Go Home Until Morning." The song was called "The Middlesex Bowling Green Chirp," and the words are as follows:

Of all the games to me, sir,
There is none like the bowling green, sir;
Where the boys can all be seen, sir,
On a Saturday afternoon.

Our boys can sight the Jack, sir,
Our skips can give it a whack, sir;
They've always had the knack, sir,
On a Saturday afternoon.

When the game is half-way spent, sir,
The boys all rush for the tent, sir;
Where spirits never repent, sir,
On a Saturday afternoon.

We love to see the green, sir,
Charmed with our bowling queens, sir;
Our hearts will score these scenes, sir,
On a Saturday afternoon.

We'll join our hearts and hands, sir,
And loudly praise the man, sir;
Who has treated us so grand, sir,
On Saturday afternoons.

CHORUS.

On a Saturday afternoon,
We can't get there too soon;
Oh, here's to the bowling green, sir,
The king of games now seen, sir,
On Schepflin's beautiful lea, sir,
On a Saturday afternoon.

Under the tent refreshments were served and the affair was made a pleasant one socially.

Autumn Fireworks at Manhattan.

The season at Pain's Amphitheatre at Manhatten Beach will not close until Saturday, the 17th. Mr. Pain has decided that those who have been in the country all summer and have not had an opportunity to see the "Fall of Manila" will be able to do so. While every night will have its special features, Wednesday will be the "Harvest Moon Jubilee Night," when special and appropriate devices will be exhibited. Thursday night will be devoted to Naval Reserves, and the officers and crew of the U. S. S. New Hampshire will be invited. Saturday will be the first autumn carnival, and among the set pieces will be fine pictures of autumn flowers and golden rod. These devices are unique, and Pain is the only man who has succeeded in giving them with any truth to nature.

Fell off Load of Hay and Broke Two Ribs

(Special to The Daily Press.)

South Stirling, September 12.—John Wendel, of this place, is now detained at home with two broken ribs. Last Friday he was working in a field loading hay on a wagon. He stood on the rear part of the wagon, when suddenly his horses moved. The jar threw him off, and it was first thought that Mr. Wendel's back was broken. Some of his help carried him to his home and Dr. Probasco, of Plainfield, was summoned. An examination disclosed the fact that two ribs were broken and that that was the extent of his injuries. It will be sometime before Mr. Wendel will be able to resume work.

Important Witness Absent.

Adam Fritz, of Somerset street, brought suit in Justice Smalley's court against Morris Compton for $41 due for rent of a house on Fritz avenue. The case was to have been tried this morning, but upon an affidavit filed by the defendant's lawyer that an important witness was out of the State, the case was adjourned for 30 days. Murphy & Blatz represent Fritz and William G. DeMeza the defendant.

At the Hospital.

Three new medical cases were admitted to the hospital today and yesterday. There are now nineteen cases in all at the above place.

THE COLD WATER WOMEN

LOCAL W. C. T. U. HOLDING THEIR ANNUAL CONVENTION TODAY.

Morning Session Devoted to Hearing Reports, Which Showed the Union Prosperous—Mrs. Parse Elected President.

The annual meeting of the W. C. T. U. is being held today. The morning session was mainly devoted to listening to reports from the secretary and treasurer and the election of officers. Luncheon was served at noon.

The president, Mrs. Carman Parse, made an address in which she reviewed the work done during the year. The treasurer's report showed that the receipts for the year had been $1,254.70 and the disbursements $1,141.61, leaving a balance on hand of $113.09. Since August 31st, when the books were closed, bills have come in which leaves only $1.16 in the treasury. Besides there is a debt of $150 to be paid.

The election of officers resulted in the re-election of Mrs. Carman Parse to the presidency. The honorary vice-presidents are Mrs. J. W. Yates and Mrs. T. H. Tomlinson; corresponding secretary, Mrs. S. R. Krom; recording secretary, Mrs. Emma French. The treasurer was not elected. The vice-presidents will be chosen this afternoon. The auditors are Mrs. T. H. Tomlinson and Mrs. J. H. McNaughton.

At an executive meeting held before the regular meeting this afternoon, superintendents of departments were elected as follows: Evangelistic work, Miss C. Yates; parlor meetings, Mrs. T. H. Tomlinson; foreign work, Mrs. Jacob Voehl; soldiers, sailors and railroad men, Mrs. M. C. Dobbins; mass meetings, Mrs. Winters; franchise, Mrs. Tomlinson: press, Mrs. McNaughton; literature, Mrs. S. R. Krom; colored, prison and alms work, Mrs. L. Cox; Sabbath observance and Sunday-school, Mrs. R Case; narcotics and scientific instruction, Mrs. J. J. Coard; flower mission, Mrs. DeForest.

TO HURT VOORHEES.

Machine in Middlesex County Supposed to be Against the Acting-Governor.

(Special to The Daily Press.)

New Brunswick, Sept. 12.—A call for the Republican primaries to be held in Middlesex county to select delegates to the Republican State convention has been issued by the county executive committee, which met in New Brunswick Saturday afternoon. The primaries will be held Monday, September 19th.

The Republican county executive committee has been controlled for several years by the machine in Middlesex county, of which Robert Carson, Collector of the Port of Perth Amboy, has been the undisputed leader, with Theodore Strong, of New Brunswick, as his faithful lieutenant. Mr. Carson has admitted that he is friendly to Mahlon Pitney in the Gubernatorial fight, but because of the declaration of General Sewell, Carson's political superior, he is not free to make an open effort in Pitney's behalf. Those who know Mr. Carson's faithfulness to John Kean say his active interest in the candidacy of Pitney is prompted by a desire to see Voorhees beaten, fearing that the success of Voorhees will kill Kean's chances for Senatorial honors.

Throughout Middlesex county sentiment is strong in favor of Voorhees for Governor, hence the holding of the primaries at once would undoubtedly be favorable to him. Friends of the acting Governor express the belief that the date was postponed to the last possible moment by the machine at Mr. Carson's dictation in the hope that with another week to work throughout the county the primaries might be so manipulated that Voorhees would make a poor showing.

A Long Criminal List.

[Special to The Daily Press.]

New Brunswick, Sept. 12.—The September term of the Middlesex County Courts will open in New Brunswick Tuesday. Supreme Court Justice Gilbert Collins will preside. The Grand Jury will begin its labors on that day, and will have two hundred and fifty criminal cases to consider.

At Hope Chapel.

Communion was observed at Hope chapel last night. Two persons also united with the church on confession of faith. Yesterday morning the young daughter of Charles Delahunt was baptized.

—There was a goodly number of people who joined the Central Railroad Company's excursion last Saturday to Lake Hopatcong.

—Next Wednesday afternoon the Junior Christian Endeavor Society of the First Baptist church will meet at 4 o'clock and a full attendance is desired.

THE BUGGY OVERTURNED

WALLACE VAIL WAS IMPRISONED UNDER THE VEHICLE.

An Unknown Bicyclist Ran Into Him and the Horse and the Bicycle Became Tangled Up—Horse Overturned the Buggy.

Former Postmaster Wallace Vail, of Clinton avenue, narrowly escaped serious injury last Saturday afternoon while he was driving home in company with his friend, Ira Hulburt, the West Front street contractor.

The horse, a spirited one, was going along leisurely, and just as they were going by Liberty street on Front street, a cyclist whose name could not be learned, turned from Liberty into Front street at a scorching pace. He either lost control of his wheel or else was so close to the horse and carriage that he was unable to clear them.

The rider and his wheel went under the horse, but the rider got out of the tangle before the animal began to kick. The animal's feet became fastened in the spokes of the wheel and he kicked vigorously. At the same time the heavy buggy, in which was seated the two men, was turned over. Mr. Hulburt managed to escape, but Mr. Vail was not so lucky. He was imprisoned and for a few minutes it looked as though he would not get out alive.

It was Mr. Hulburt's presence of mind that saved him, for he at once rushed for the horse and in a few minutes pacified the animal. The wheel was taken out and was found to be a total wreck. The buggy was turned right side up and Mr. Vail was assisted to his feet. He escaped with a few slight bruises and sprains, and the horse was not injured to any extent.

The wheelman got his wheel as quickly as possible and got away. He will not give his name, and seemed to be satisfied to make his escape. The buggy was not damaged and the two men were able to continue their journey homeward.

TIED SCORES TWICE.

John D. Kirch and A. I. Smalley Still Undecided Who is Best Marksman.

John D. Kirch and A. I. Smalley, both of the borough, have been rival sportsmen for some time. Both are good marksmen and play havoc with the birds when at the traps. This rivalry resulted in a match, which was shot Saturday, for fifty birds a side, and after two trials, the first time with fifty, the second with ten birds, the match was declared a draw.

The shoot began at 2 o'clock, and the men shot until too dark to see the birds. It took place on Johnson's farm, and was witnessed by a large number of sportsmen who were attracted by the prospect of good sport.

The birds were sprung five at a time until the fifty had been disposed of, then it was found that both men had killed forty-three. It was decided to shoot off the tie with ten birds apiece, but here they tied again, each getting six out of the ten. The tie will be shot off as soon as possible. Meanwhile the merits of the two trap shooters are being generally discussed.

SMOKESTACK JACK IN DURANCE VILE.

He Had a Bad Attack of Intoxication Across the Brook.

Edward Hoover, alias "Smokestack Jack," was arrested on Somerset street last Saturday evening suffering with a bad attack of intoxication. He was very disorderly and it was with difficuly that Marshal Schenck was able to land him in the lockup. He was detained over Sunday and this morning before 8 o'clock Mayor Wilson held court. Hoover was arraigned and given his choice between $3 and ten days. The prisoner had in his possession $3.51, but rather than part with it he decided to go to Somerville for the ten days.

Secured Position as Manager.

Harry S. Hall, of East Fifth street, has secured a position as manager of I. Stoutenburg's ladies' tailoring establishment in Brooklyn, and began on his new duties today. Mr. Hall will soon take up his residence in Brooklyn.

Primaries Next Monday.

The city Republican executive committee met last Saturday evening and instructed the secretary to send out the call for the primaries to be held next Monday evening, Sept. 19th. The meeting then adjourned to this evening.

E. E. Marshall Improving.

A telegram Saturday evening to friends in this city gave the cheering news that E. E. Marshall, who underwent a surgical operation at Niagara Falls last week, is regaining his health slowly but surely.

A Ripe Old Age.

Mrs. M. Margaretta Cock, of East Fifth street, is celebrating her ninety-sixth birthday today.

ROMANCE OF LOVE AND MAGIC.

Interesting Sequel to "Boy Wonder's" Visit to New Brunswick.

A romance of love and magic comes from New Brunswick, in which the "Boy Wonder," who spent several weeks at the Revere House in this city last winter curing the lame, the halt and the blind, is one of the participants, the other one being Miss Florence E. Brosse, of New Brunswick. In private life the "Boy Wonder" is known as Charles A. Dwinell.

After leaving Plainfield last winter he visited New Brunswick and duplicated the success that he had here in attracting and securing the confidence of those whom he treated.

Chance led to an acquaintance with Miss Brosse, who is a young woman of refinement and comeliness, and it was whispered after a time that they were to be married in the fall. About three weeks ago, however, it occurred to the young couple that there was absolutely no good reason for delaying the wedding, and one fine morning found them on their way to Brooklyn, where they were married by Rev. R Stanley Povey, rector of the Orange Street Episcopal church. This was August 21st. The witnesses were two intimate friends.

KOEHLER STILL AT LARGE.

Brookside Retreat Patient Has Not Been Captured Yet.

Up to the present time no news has been received of William Koehler who escaped from Brookside Retreat last Friday afternoon. Dr Cooley's employes are still searching for the man and every effort is being made to find him.

Just where he went or which course he pursued it is hard to determine. The last thing heard about him was that he had stopped at a house on the mountains and asked for something to eat. From that point no one knows which course he took. All sorts of rumors are in circulation. It has been reported that Koehler killed himself in some out of the way place on the mountains, while others have heard that he is making for his home in Jersey City.

A PEST OF SKUNKS.

Borough Territory Infested With Animals—One Caught Last Night.

Sigler VanFleet, of Jackson avenue, caught a skunk last evening by means of a trap, and when he went to his barn this morning he found the animal fastened in the trap. For sometime past the east side of the borough has been invested with these animals, and the residents have been very much annoyed. It is said that Mr. Underhill, who lived in Washington Valley, secured a number of skunks for breeding and when he decided to move away he allowed them to run away. This is the reason, it is said, why there are so many of them in the borough. A few days ago Marshal George Wise's dog captured three skunks. It is hoped that in a short time the borough will be rid of these troublesome animals.

TROLLEY WIRE PARTED.

Traffic Slightly Delayed at the North Avenue Switch this Morning.

Owing to a break in the trolley wire at the North avenue switch this morning, travel on the street railway was interrupted for a short time. The break was sudden, and occurred at 8 o'clock, just as the cars were leaving the switch. The end of the wire became unfastened and fell. As soon as it came in contact with the ground the circuit was cut off, and the broken end had to be hauled by a rope to a tie post and kept clear of the ground.

When this was done the power was turned on again, and the cars began to move. Only one track over the switch could be used during the time the wire was being repaired, but that was the only inconvenience experienced.

YOUNG GIRL MISSING.

Bella, Fifteen-Year-Old Daughter of Geo. VanNest, Mysteriously Disappears.

Bella, the fifteen year old daughter of George VanNest, of Monroe avenue, mysteriously disappeared from home Friday noon and has not been seen since. She left home on that day to go to school, and when she didn't come home at night her parents became alarmed.

Yesterday an uncle went to Brooklyn to try and get some trace of her among her relatives, but was not successful. The police say that she is at her grandfather's in Newark, but the family say they do not believe it.

Court on Sunday Morning.

City Judge DeMeza held court yesterday morning for the accommodation of one prisoner, Wm. Roantree, who gave his residence as Dunellen. Roantree was picked up by Officer Cash, who found him drunk Saturday night. Upon his promise to keep sober the Judge suspended sentence on him.

RIVERDALES LOST TO THE OLD-TIME RIVALS.

New York Athletic Club Team Defeated Them by One Score.

BUT ONE EARNED RUN MADE.

RIVERDALE'S PITCHER DID NOT RECEIVE THE SUPPORT HE NEEDED.

Five Errors Credited to the Home Team—A Few Disputes With the Umpire, One of Which Boded Serious Trouble With the Progress of the Game—Little Heavy Batting Witnessed.

Those who went to the Crescent Oval last Saturday afternoon to witness the baseball game between the Riverdale team and the New York Athletic Club team enjoyed a rich treat, for one of the best contests of the season was played. These teams met only a short time ago when the Riverdale's were the winners by the score of 6 to 5, but yesterday the home team was obliged to suffer defeat by a score of 3 to 2. Both teams played a good clean game, and save for a few disputes with the umpire, the contest was one of genuine pleasure.

The only earned run was made by the home team, while the visitors secured all of their runs on errors, five of which were made by the Riverdales. The visitors scored a run in the second inning, another in the third and a third run in the ninth. In all they secured five hits off of Norton, the home pitcher. The latter pitched a superb game, and had he been properly supported throughout, the game would have gone to the home team.

Up to the last inning it was anybody's game, and it seemed to be more of a pitcher's battle. In the ninth inning the visitors scored a run and it looked as though they were not entitled to it. The home team claimed that Sackman, the runner, was touched, but the umpire thought differently and the run was counted.

In the seventh inning the visitors began to get ruffled and Dunne, their pitcher, was on the point of throwing up the game. The umpire, he claimed, was unjust and would not give him a strike. At this point Manager Haley, of the Riverdales, was induced to umpire, and the game went along with less trouble.

Timpson, of the home team, was the only man that was struck out, while Dunne, the catcher for the visitors, struck out once, and Murphy, their first baseman, went out twice on strikes.

There was not any heavy batting, but all flies were well taken care of in the field. Reinacker, of the home team, and Affeld, of the visitors, each made a wild throw that cost a run, but outside of these two errors the other breaks were trivial.

Lederer, of this city, filled the position at second base with credit. He made several brilliant plays, as did also Smith, the catcher for the Riverdales. The visitors were a jolly lot of gentlemanly players and another game in this city with them would be enjoyed. Below will be found the score in detail:

RIVERDALE F. C.

Relics of the War.

James McMillan, of 190 South Second street, went to New York last Saturday to see his son, who is a marine on the Gloucester that is now anchored off Tompkinsville. Mr. McMillan's son gave him a revolver, a nine-inch shell and a Spanish handkerchief covered with blood, all of which were taken off the Vizcaya after the fight at Santiago.

—The quarterly meeting of the Woman's Foreign Missionary Society of the First Baptist church will hold a regular meeting next Wednesday afternoon at 4 o'clock in the Bible class room of the church.

COMMISSION IN HAVANA

Blanco Receives the American Evacuation Representatives.

DUE FORMALITY OBSERVED

The Steamer Resolute Reaches Morro at Dayb ack Saturday. She is Boarded by Blanco's Representatives The Presentation at the Palace. Session of the Commission to Begin at Once.

Havana, Sept. 12.—Shortly after daybreak Saturday morning Morro Castle signalled that a steamer was sighted in the offing. The Mascotte of the Plant line had just arrived and Morro telephoned the captain of the port that the steamer sighted appeared to be an American warship, and to this the captain of the port answered not to signal her.

The United States transport Resolute, having the United States Cuban evacuation commission on board, entered the port shortly after seven o'clock. There were no Spanish flags flying at that time and no salute was fired.

Immediately after the arrival of the Resolute, which reached here flying some white bunting forward and an admiral's flag from her mainmast, she was visited by the commander of the French gunboat Fulton, who boarded the Resolute in full uniform.

Shortly afterward a government launch ran alongside the Resolute. She had on board Dr. Congosto, the secretary general of the government; General Solano, the chief of staff, representing Captain General Blanco, and Major Garcia Bonitz of the general staff. Their visit lasted fully an hour. General Solane wore a crimson sash outside his uniform. Major Bonitz wore a blue sash and Dr. Congosto was in a frock coat and a silk hat.

At the expiration of the hour's conference with the United States commissioners, an officer of the Spanish warship Alfonso XII paid his respects to Rear Admiral Sampson. The interview was of a formal nature.

Shortly afterward General Solano, acting for Captain General Blanco, placed the latter's private carriage at the disposal of the visitors.

All the foreign and American shipping in port displayed every available piece of colored bunting, and the Resolute dipped her colors in answer to every salute.

The Resolute is moored to a buoy, close alongside the steel dock. She was surrounded all the morning by hundreds of small boats, which circled the vessel while the occupants waved their hats and handkerchiefs.

At 9.15 the American commissioners, accompanied by Spanish officers representing Captain General Blanco, landed at La Machina wharf, and arrived at the palace at 9.40 o'clock, where the captain general's body guard presented arms as they appeared.

Captain General Blanco, dressed in full uniform, received the commissioners in the reception room, where, after the formal presentations had taken place, and the official courtesies had been exchanged, they sat down and conferred for about twenty minutes. The Spanish commander sat in the center, with General Butler on his right and Admiral Sampson on his left. Next to General Butler sat General Parrado and next to him was General Wade. On Admiral Sampson's left sat Colonel Cloas and Captain Hart, the official interpreter.

The captain general addressed the commissioners in English. He asked them to excuse any mistakes which he might make, explaining that it was a long time since he had used that language.

The United States commissioners left the palace shortly after ten o'clock, accompanied by General Solano and Dr. Congosto. They were driven to the Machina wharf, opposite the wreck of the Maine, where they took lunch before returning to the Resolute.

Colonel Cloas and Captain Hart, accompanied by a Spanish officer, then paid a visit to Admiral Manterola, and to the captain of the port, after which they returned on board the Resolute.

The American party, as yet has not secured quarters ashore.

The general public crowded the wharves when the arrival of the Resolute became known, but there was no demonstration. Everybody behaved quietly and respectfully.

Late in the afternoon the American commissioners, on the advice of the accompanying physician, decided to live ashore while here, but they have not yet chosen a place of residence. They remained on board the Resolute Saturday evening and will probably make the change to-day.

The first session of the commissioners took place Sunday morning at 9 o'clock, at the colonial government offices. Judging from conversation with the commissioners, all the sessions will be behind closed doors.

Santiago Helth Report.

Washington, D. C., Sept. 12.—General Lawton's health report from Santiago was more encouraging in the mortality list. It was as follows:

Santiago de Cuba, via Hayti, Sept. 10.—Adjutant General, Washington: Total sick, 524; total fever, 254; total new cases fever, 39; total returned to duty, 105; no deaths.

LAWTON,

Falcon Island Disappers.

Victoria, B. C., Sept. 12.—News comes from Suva by the steamer Miowera that Falcon island, recently situated midway between the Tonga Tabu and Heufel groups and immediately opposite the Nomuka group of islands, has disappeared beneath the waves, owing to volcanic action.

There were about twenty native fishermen on the island, who doubtless have perished.

Envelope Contract Awarded.

Washington, Sept. 12.—Postmaster General Smith has awarded to the Plympton-Morgan Company of Hartford, Conn., the contract for supplying the department with stamped envelopes and newspaper wrappers for four years from January 1, 1899. This company was the lowest bidder for the work.

THE PORTO RICO COMMISSION

First Joint Meeting of the Americans and Spaniards.

San Juan, Porto Rico, Sept. 12.—The first joint meeting of the evacuation commissioners was held in the council chamber of the palace Saturday morning. It was exceedingly formal. Major General Brooke, Rear Admiral Schley and Brigadier General Gordon, accompanied by their personal staffs, drove to the palace, where they were formally presented to the Spanish commissioners, General Ortega, Brigadier of Marine Vallerino and Senor Aguila, auditor of war. The presentation was made by Captain General Macias.

Both commissions then retired to the spacious council room, hung with fine paintings, where credentials were exchanged. The Spanish commissioners were most courteous. They explained that they were embarrassed because of the fact that their instructions had failed to arrive, although they were expected on the Alfonso XIII, overdue since Friday.

They assured the American commissioners of their confidence that the instructions would arrive in the course of the day and suggested an adjournment until this afternoon at 2 o'clock, to which the American commissioners promptly agreed.

The American commissioners also agreed to the suggestion that the sessions of the commissions should be held in secret, as many questions of a diplomatic character might arise which if given publicity, might embarrass the work.

The two commissions will meet separately, to begin with, and the joint sessions will be held to exchange propositions. The American official interpreters, stenographers and typewriters are expected to-day.

The American commissioners will display a liberal spirit in the negotiations, taking the position that they can afford to be generous in non-essentials. They are only anxious to bring about evacuation as soon as possible.

The Spanish officials have been at work several days making inventories of the government property. Many officers have all their effects packed and will welcome the day on which they sail for Spain.

WILL DECIDE TO-DAY

The Council Expected to Settle the Question of a New Trial.

Paris, Sept. 12.—A semi-official note says that the minister for war has handed to the minister of justice the papers in the Dreyfus case, with his definite opinion thereon.

The council, it is added, will to-day decide definitely upon the course to be taken.

The Liberte says the examination of the documents in the Dreyfus case has led General Zurlinden, the minister for war, to thte conclusion that the prisoner is guilty, "as it did his predecessors," and that consequently the general has decided to resume the military governorship of Paris next week.

It is believed that the real difficulty in the way of revision is that the only documents really relied upon are those said to have been obtained illicitly from a foreign embassy, and the government is beginning to doubt the authenticity of these.

A semi-official note denies that any foreign government has made any sort of communication to the French government relative to the Dreyfus affair. This disposes of the statement made by the Rome Tribuna, which asserted that Count Von M'inster, the German ambassador at Paris, had informed the French foreign minister, M. Delcasse, that the letters purporting to have passed between Emperor William and Dreyfus were forgeries, and that in case of their use in an eventual trial he (Von Munster) had been instructed to demand his passports.

Troops for Porto Rico.

Camp Meade, Middletown, Penn., Sept. 12.—The Third battalion of the Sixteenth Pennsylvania regiment which was among the first troops to reach Camp Meade, has been ordered to sail from New York on Wednesday for Porto Rico for garrison duty.

The First and Second battalions went to Porto Rico with General Brooke and performed effective service in the campaign against Ponce. Colonel Willis J. Hullings of Oil City is in command of the regiment, and will be promoted to brigadier general when the Third battalion joins him.

Gen. Grant's Kindness.

"Dent, I wish you would get down, and see what is the matter with that leg there," said Grant, when he and Colonel Dent were riding through the thickest of a fire that had become so concentrated and murderous that his troops had all been driven back. "I guess looking after your horse's legs can wait," said Dent; "it is simply murder for us to sit here." "All right," said Grant; "if you don't want to see to it, I will." He dismounted, untwisted a piece of telegraph wire which had begun to cut the horse's leg, examined it deliberately, and climbed into his saddle. "Dent," said he, "when you've got a horse that you think a great deal of, you should never take any chances with him. If that wire had been left there for a little time longer, he would have gone dead lame, and would, perhaps, have been ruined for life."—Success.

What One Soldier Eats.

How many young men who are thirsting for war know what "emergency rations" mean?

In the first place, what is an emergency?

It is such an occasion as requires troops to subsist on food carried on their persons. Emergency rations are rations for five days, that being the limit of the time during which the men can live on the rations and keep up their fighting strength.

A day's emergency ration consists of 10 ounces of bacon, 16 ounces of hard bread, 4 of a peameal, 4 of coffee, or half an ounce of tea, 4 grains of saccharine, 64-100 ounce of salt, 4-100 ounce of pepper, half an ounce of tobacco. Put into five-day packages, the emergency rations are kept at all military posts ready for immediate use

A BOARD OF INQUIRY

President Calls Upon Nine Men of Note to Probe Scandal.

WISHES THOROUGH SEARCH

The President Says the Full and Exact Truth Must Be Given to the Public. The Committee Must Be Such As will Deserve the Complete Confidence of the Nation.

Washington, Sept. 12.—The president has urged the following named gentlemen among others to accept places on the committee requested by Secretary Alger to investigate the conduct of the war:

Lieutenant General John M. Schofield General John B. Gordon, General Grenville M. Dodge, D. C. Gilman, General Charles F. Manderson, Robert T. Lincoln, Daniel S. Lamont, Dr. W. W. Keen and Colonel James A. Sexton.

The message which President McKinley addressed to each of these follows:

"Will you render the country a great service by accepting my appointment as a member of the committee to examine into the conduct of the commissary, quartermaster and medical bureaus of the war department during the war, and into the extent, causes and treatment of sickness in the field and in the camps?

"It is my desire that the full and exact truth shall be ascertained and made known. I cannot too strongly impress upon you my earnest wish that this committee shall be of such high character as will command the complete confidence of the country and I trust you will consent to serve

"WILLIAM McKINLEY."

General Schofield was General Miles's predecessor as commanding general of the army, and has held the unlimited confidence of all the presidents of the United States since Grant, without regard to political adherence. His experience in the civil war as a corps commander eminently fits him to pass judgment upon the operations in the field just concluded.

General Gordon had about the same experience in the Confederate army as General Schofield on the northern side, and in addition he has represented Georgia for two terms in the Senate, and retired in the face of a popular demand for his re-election.

General Dodge is well known as a man of large business interests in New York, but even better among soldiers whom he led to success in the civil war. He also commanded an army corps, and has never lost his interest in military affairs since entering civil life.

D. C. Gilman is one of the best known educators in the United States, and is president of Johns Hopkins University in Baltimore. He was selected by President Cleveland as a member of the commission appointed to settle the enezuelan boundary controversy.

Charles F. Manderson of Nebraska was senator from that state for two terms, and also served with distinction in the war as a division commander. His affiliation with the veteran element will give weight to any conclusions he may reach. He is at present in Washington.

Robert T. Lincoln, secretary of war under Garfield, is so well known as to need no introduction to the public, and the same is almost equally true of Daniel S. Lamont, secretary of war under Cleveland's second administration.

Dr. Keene is a citizen of Philadelphia and enjoys the reputation of being one of the most scientific and ablest of the physicians of that city. In his selection the president supplies the technical talent necessary to insure a sound inquiry into the conduct of the medical department of the army.

Colonel Sexton has been made known to the American people, mainly by his election to the post of commander-in-chief of the G. A. R.

Another Load of Sick Soldiers.

Camp Wikoff, Montauk Point, L. I., Sept. 12.—The hospital ship Missouri, from Santiago, tied up to the railroad pier here Saturday after a five and a half day's trip, during which twelve men died of typhoid fever. Another man died of the same disease while she was lying in the bay.

The mortality list was increased to fourteen by the death of a man who was being taken in an ambulance from the ship to the general hospital. Of the dead five were members of the Seventy-first regiment of New York volunteers.

On the ship when she started on her trip north were 262 men. Two hundred and forty-eight of them are now in the general hospital, and most of them are convalescents. Included in the list of those who will recover are thirty-three members of the Seventy-first regiment.

When the Missouri had tied up to the pier and a gang plank had been laid, Joseph Neilson, more than six feet tall, with a red cross on his right arm, dashed from the main deck down to the pier, where ambulances were waiting to take away the patients. He rushed to an ambulance, threw the driver out, seized the reins, and ordered that patients should be given to him quickly so that he could drive them back to Siboney.

Neilson had been in constant service since the war began as a hospital nurse and the strain in the hospitals in Cuba and on the ship bringing home its company of sufferers, had weakened his intellect until he had become a maniac.

He was taken from the ambulance by half a dozen men, who had a lively struggle. It took a dozen to get him back on the ship and hold him until a conveyance could be found to take him to the general hospital. The doctors say he will recover his reason.

Alaska Boundary Dispute.

Ottawa, Sept. 12.—It is said here that the Alaska boundary dispute, which is one of the subjects before the Quebec conference, will be referred to some independent tribunal for a decision, as the views of the commissioners on each side seem to be widely apart.

LET US ARM YOU!

It's quite necessary, because while Uncle Sam is settling scores with the Spaniards you're bound to have a little brush at home at the same time, and there's nothing like being ready for emergencies. Until you can sign a perpetual truce with sun, wind and storm, your house and other buildings will need to be fortified with paint, and ours are like a 20-inch chilled steel armor.

INSURGENTS MAY ATTACK MANILA

Persistent Reports Are in Circulation that That is the Intention.

Manila, Sept. 11.—Persistent rumors are in circulation that the idea of attacking the city is gaining strength among the rebels, and it is asserted that some of the leaders are boldly urging such a plan.

Owing to these reports, General Otis has been taking precautions to prevent the possibility of such a rising. He has dispatched strong detachments of the American troops to occupy strategic positions in the suburbs.

The work of disarming the Filipinos is being carried on with even greater energy than before in view of the new developments.

It is not thought, however, that any attack by the Filipinos is probable. Such a course at this time, when the fate of the Philippines will soon be the subject of discussion at the Paris conference, would be suicidal. Any attack the rebels could make with the forces they could muster would be almost certain to be ineffective.

Aguinaldo, despite his efforts to fortify the position he has assumed as "dictator," is beyond doubt losing control over the lawless spirits among the natives.

Residents of Manila are not at all alarmed over these reports of the intentions of the rebels. The administration of General Merritt prior to his departure for Paris and the course taken by General Otis since he has assumed command have convinced the inhabitants of Manila that they can live in complete security under the protection of the Americans.

LI HUNG CHANG'S DISMISSAL

Curt Note from the Emperor Remove Him from the Foreign Office.

Peking, Sept. 12.—An imperial edict announcing that the emperor has no further need of Li Hung Chang's services as a minister of the Tsung-li-Yamen, was promulgated September 8. It is a short, curt dismissal, for which no reasons are given. He presumably remains in office as grand secretary.

The news of Li Hung Chang's dismissal was not unexpected. A growing distrust of the great Chinese statesman has been observable for some time past among his colleagues. It will be a great blow to Russia, which country Li Hung Chang has faithfully served for months past. Whenever the Tsung-li-Yamen received the British minister, Sir Claude M. Macdonald, in audience, Li immediately visited the Russian minister and reported the whole proceedings to him.

Latterly there have been indications that Li Hung Chang was wholly in the service of Russia, and on Saturday last in the presence of the Tsung-li-Yamen, Sir Claude M. Macdonald reproached Li Hung Chang for his conduct, and his dismissal from the foreign office was probably the immediate consequence.

It is expected that Russia will strenuously endeavor to bring about the reinstatement of Li Hung Chang. The courage of the latter gave to him the leadership of the Chinese foreign office, where he was the only minister prepared to vigorously answer harsh foreign demands.

A panicky feeling pervades officialdom here. The emperor is daily giving out dismissals or promotions without apparent causes. A new edict just issued requires the viceroys to send to the capital lists of the men capable of bearing arms. This is looked upon as indicating the organization of a militia on the European model.

SHAFTER'S WORK RECOGNIZED.

Said that He will Command Department of the East.

New York, Sept. 12.—General Bates, acting commander at Camp Wikoff, has received word from Washington that General Shafter had been appointed to the command of the department of the east.

Nothing was known of the new appointment on Governor's island Sunday night, but such a move, officers say, would be possible.

It was understood that the two successors of General Merritt were to hold the command temporarily. General Frank was the immediate successor of Merritt, and when he was ordered to the command of a division at Camp Thomas, General Gillespie succeeded him.

The department of the east always has been reserved for the second major general on the list. Merritt is second, next to Miles. Shafter is fifth. Shafter's old command was the department of the Pacific, but this command would not go with his rank, nor, indeed, with the late addition to his record.

Spanish Prisoners Sail.

Portsmouth, Sept. 12.—All the arrangements for the transportation of the Spanish prisoners from Seavey's Island to the steamship City of Rome, which has been chartered to take them to Spain, have been completed. The arrangements have been conducted by Commodore Remey, under instructions form Washington, and Admiral Cervera. The men will board the City of Rome at 10 o'clock To-day. From that hour the United States will cease to have jurisdiction over them. The Spaniards will be turned over to Admiral Cervera, and will be placed under command of the members of his staff.

Every precaution is being taken to prevent the escape of the prisoners. Commodore Remey has issued instructions not to allow any visitors at the navy yard or at Seavey's island next Monday.

Secretary Long made an informal visit to the navy yard Saturday. He was on his way to Boston from Bucksfield, Me. where he has been spending a short vacation.

The Spread of Yellow Jack.

Austin, Tex., Sept. 12.—State Health Officer Blunt has received a telegram from the New Orleans Board of Health stating that up to date there were twenty-six cases of fever at Franklin, La., with two deaths, but only fourteen need medical attention at this time, and all these are doing well, that there were twenty-three cases at Taylor, Miss., with two deaths, while at Orwood there had been thirty-four cases with no deaths. There is one reported at Waterford, Miss.

AN EMPRESS MURDERED

Elizabeth of Austria Struck Down by an Italian Anarchist.

TERRIBLE CRIME PLANNED

The Murderer Captured. Crime Committed in the Street. The Empress Carried Back to a Hotel to Die, The Emperor Receives the News. How the Deed was Planned.

Geneva, Switzerland, Sept. 12.—Further particulars are at hand in relation to the shocking tragedy which occurred here Saturday afternoon. The cruel assassination of Empress Elizabeth of Austria is still the principal topic of conversation, though the excitement has somewhat abated.

Her majesty was walking from her hotel to the landing place of the steamer about 1 o'clock when a man suddenly approached and stabbed her to the heart. The empress fell, got up again, and was carried to the steamer unconscious. The boat started, but seeing the empress had not recovered consciousness, the captain returned, and the empress was carried to the Hotel Beau Rivage, where she expired.

The stretcher upon which the empress was carried to the hotel was hastily improvised with oars and sailcloth. Doctors and priests were immediately summoned and a telegram was sent to Emperor Francis Joseph.

All efforts to revive her majesty were unsuccessful and she expired at 3 o'clock.

The medical examination showed that the assassin must have used a small triangular file.

After striking the blow he ran along the Rue Des Alpes, with the evident intention of entering the Square Des Alpes, but before reaching it he was seized by two cabmen who had witnessed the crime. They handed him over to a boatman and a gendarme, who took him to the police station.

The prisoner made no resistance. He even sang as he walked along and kept saying:

"I did it" and "She must be dead."

At thte police station he declared he was a "starving Anarchist, with no hatred for the poor but only for the rich."

Later, when taken to the court house and interrogated by a magistrate in the presence of three members of the local government and the police officials, he pretended not to know French and refused to answer questions. The police, on searching him, found a document showing his name to be Lugi Lachent, born in Paris in 1873 and an Italian soldier. His parents were Italians.

Emperor Gets News.

Vienna, Sept. 12.—Emperor Francis Joseph received the news at Schoenbrun. His majesty's journey to attend the manoeuvres at Zips, Hungary, was of course abandoned. All the theatres here and in the provincial towns were closed.

The extra edition of the semi-official Wiener Abendpost appeared with black borders. It expressed "the universal sorrow felt at the loss of our noble empress, whose life was one long chain of philanthropy.

President's Message of Sympathy.

Washington, Sept. 12.—The following message was received at the state department:

Geneva, Sept. 10, 1.50 p. m.—Empress of Austria just assassinated here by Italian Anarchist. RIDGELY, Consul.

On receipt of Consul Ridgely's dispatch President McKinley sent the following message of condolence:

Executive Mansion,
Washington, Sept. 10.

To His Majesty, the Emperor of Austria, Vienna:

I have heard with profound regret of the assassination of her majesty, the empress of Oustria, while at Geneva, and tender to your majesty the deep sympathy of the government and people of the United States.

WILLIAM McKINLEY.

How the Crime Was Planned.

Geneva, Sept. 12.—The assassin, while being questioned by the magistrate, said he came to Geneva with the intention of killing the Duc d'Orleans, but the latter had already left. He then followed the duke to Evian, where he was again unsuccessful. He then returned to Geneva and learned from the papers of the presence of the Oustrian empress. Friday afternoon about 1.30 o'clock he saw the valet of the empress leave the hotel and go toward the landing. He inferred from this that she was going to take the steamboat and he hid himself behind a tree on the quay, with the file concealed in his right sleeve. In a few minutes the empress, accompanied by her lady of honor appeared and the assassin struck the file home.

Higginson and Hobson Promoted.

Washington, Sept. 12.—Among the naval orders issued are the following promotions:

Captain Francis J. Higginson of the Massachusetts to be commodore from August 10.

Assistant Naval Constructor R. P. Hobson, to be full naval constructor, to date from June 23.

The delay in making the latter promotion was caused by the impossibility of having an earlier examination.

A Princely Gift.

New York, Sept. 12.—Colonel Oliver H. Payne has just given a million and a half of dollars to the Cornell University Medical College in New York city. It is a royal endowment. Out of this princely fund the most comprehensive medical college in the world is to be erected immediately.

It is expected that the new building will be ready for occupancy by October, 1899.

Miss Winnie Davis No Better.

Narragansett Pier, R. I., Sept. 12.—No improvement was reported in the condition of Miss Winnie Davis, daughter of Jefferson Davis. Dr. Cleveland of New York has been summoned from Newport to hold a consultation with Dr. John A. Wilcox regarding the case.

FRENCH OCCUPATION OF FASHODA

It May Cause a Clash Between France and England.

London, Sept. 12.—The dramatic news received from Omdurman showing apparently that Fashoda, on the White Nile, about four hundred miles south of Khartoum, has been occupied by a white force, causes the greatest sensation here. If, as there seems little room to doubt, the troops occupying the place are French, this will prove a disastrous setback to the British victories on the Nile and at once disposes of the question of a British waterway to the upper Nile.

Of course it is possible the forces at Fashoda may be British troops under Major MacDonald, but this is most unlikely, as the latest news received from Uganda announced that MacDonald had not left there at the end of May. But, it was added, he was expected to resume his expedition in a few days.

However, it is extremely improbable that MacDonald's force could have covered the six hundred miles, over a difficult country, from Uganda to Fashoda, in this time, more especially as, so far as known, he had only one small stool boat with which to navigate the Nile.

Almost every official regarded the story of a French expedition under Major Marchand as being near Fashoda as nothing more than "bluff," but now there is little reason to nope that this is the case.

The news that British gunboats have started for Fashonda opens the question whether a conflict is likely to occur between them and the force occupying Fashoda. The great danger is that the headstrong young French officer may open fire on the gunboats.

The strategic value of Fashoda has always been insisted upon as being very great. Scientists and geographers have repeatedly pointed out the possibility of easily damming up the Nile there and diverting the course of the river so as to make lower Egypt, whose very existence depends on the Nile, a waterless desert.

Additional evidence of the fact that General Sir Herbert Kitchener expects serious and important events to grow out of this new feature in the Soudan situation came with the news that the newspaper correspondents with the expedition are not allowed to proceed to Fashoda, but have been ordered to return immediately to Cairo.

If the French should claim to exercise sovereignty over Fashoda, either Great Britain or France must back down in order to avoid war.

A BIG PARADE PLANNED

Gen. Miles Gets the President's Consent to the Plan.

New York, Sept. 12.—This city will witness a big parade of soldiers next Saturday. General Miles has so far perfected the arrangements for a parade as to authorize the statement that about ten thousand of the troops that will be left at Montauk Point will participate.

They will be marched over the Brooklyn bridge together with the volunteer troops from Porto Rico, and will parade up Fifth avenue to Central Park, where the parade will terminate, and whence the troops will be dispersed, the volunteers being sent immediately to their homes, to be furloughed in anticipation of being mustered out, and the regulars being sent to the posts to which they will be assigned by Major General Miles.

General Miles thought the president would review them, but would not admit that he himself would be there. Of this, however, there is thought to be little doubt.

In running over the list of Porto Rican troops available for the parade, General Miles mentioned the Sixth Illinois, part of the Second Wisconsin, First Missouri battery, First Indiana battery and First Illinois battery, or from fifteen hundred to two thousand in all.

These troops are now on the water, under the command of Generals Wilson and Garrison. General Miles thought some of the regulars at Montauk would be there. A Pennsylvania battery also may be present. Those arriving first will have to put in camp to await those coming later.

One of the main objections to the proposition was the great expense involved. Then there is no place in Brooklyn where they can camp preparatory to the trip across the bridge. They will probably have to be kept at a place outside of Brooklyn, and then all loaded on steamers again to be brought to the foot of the bridge, where they can disembark.

Reception of Troop A.

New York, Sept. 12.—The members of Troop A arrived in New York at 5.40 o'clock Saturday afternoon and were accorded an ovation from the crowds that waited for five hours for them along the line of march such as they will never forget. It was a spectacular event, the only real spectacular event since the war; unmixed with any pathetic scenes such as were concomitant on the return of the Seventy-first and Eighth regiments.

The parade up Broadway and Fifth avenue was one continuous ovation, and it is estimated that fully 20,000 persons crowded City Hall Park where Mayor Van Wyck and city officials led the cheering. A great reception was given to the troopers at their armory.

Trial Trip of the Farragut.

San Francisco, Sept. 12.—It is expected that the new torpedo boat Farragut will be in condition to make her trial trip to-morrow. The port cylinder, which was rendered useless when she was recently speeded on the bay, has been replaced by the Union Iron Works.

Duty for Gen. Hains.

Washington, Sept. 12.—General Hains of the engineer corps, who recently returned from Porto Rico, probably will be assigned to his former duty in charge of engineering work at Baltimore. General Hains will at once resume his duties as a member of the Nicaragua canal commission.

Gen. Gordon Declines to Serve.

Atlanta, Ga., Sept. 12.—General John B. Gordon has declined to serve on the committee requested by Secretary Alger to investigate the conduct of the war, giving as a reason his unstable health.

COMING EVENTS.

Sept. 13—Piney Ridge at Music Hall.
Sept. 16—Hogan's Alley at Music Hall.

The Case of Mike Watson.

The Newark Evening News makes the following comments on the great and only Michael Watson and his dealings with this city:

Plainfield has a novel and perplexing municipal problem on hand in which various ethical considerations are so involved and complicated that an entirely satisfactory solution seems impossible. Among the well-known citizens is one Michael Watson, who has attained notoriety because of his repeated violations of the city ordinances regulating the sale of liquor. Mr. Watson held the laws in contempt and paid his frequent fines with cheerfulness and promptness. Some time ago the city authorities, getting weary of perpetually prosecuting Mr. Watson, entered into negotiations with him to see if some compromise could not be arrived at which would make him a law-abiding citizen. According to the Plainfield Press, Mr. Watson was promised that in consideration of his ceasing to sell illegally and giving the city a bond to observe the laws he would receive a license from the Common Council. Mr. Watson carried out his part of the agreement. He closed up his place, gave the required bond, and, with the serene conscience of a man who knows that he has done a laudable act, waited for the city to fulfil its part of the compact. But he waited in vain. With Mr. Watson's bond in its possession the city had that gentleman on the hip and it procrastinated. One Council meeting after another passed, but still there was no license for Mr. Watson, and when he asked for an explanation he found a decided inclination on the part of the members of Council to repudiate the city's share of the contract, while at the same time holding him to a strict accountability. Now Mr. Watson wants his bond back, and his bondsman, who is doubtless well acquainted with the peculiarities of his principal, is most anxious to be released from his obligation. From a legal point of view it is doubtful if Mr. Watson can make out a case, but from a moral aspect, if there can be anything moral in such a bargain, he has all the better of it. But Plainfield will scarcely suffer if the agreement be repudiated.

Union for Its Favorite Son.

In a conversation with Governor Voorhees, a day or two ago, the writer asked him if Union county would be solid for him He laughingly replied that he saw no danger there at all, because he felt confident that the votes of all of its forty-two delegates would be cast for him. He was asked why he did not do some hustling throughout the State, as there was a fear, as expressed by his friends, that he was losing ground. He replied that it would be undignified in him as the Acting-Governor of the State to go around and solicit support. He was satisfied to leave his candidacy in the hands of the people, in whom he had unbounded confidence, and he had no apprehension as to the result. "However," added he, "if I fail to get the nomination I will not feel hurt. I will lose no sleep should I be defeated. My record as Acting-Governor and as State Senator are such that I am sure it is worthy of endorsement. In the conscientious discharge of my duties I may have given offense to some people, but I could not help it. I feel that I have done my best according to my ability. My conscience is clear and, as I said before, if I do not get the nomination I will not worry myself over the disappointment."

There is a movement in Jamaica to secure British permission for annexation to this country. In this case it is a question of sugar. Perhaps Jamaica would better sound the feeling here first. We may have all of the saccharine probabilities our sweet tooth calls for.

It has been announced that the honorarium of the peace commissioners will be $25,000 each. How many needy statesmen out of business there are who will sigh that they are not quite big enough to be candidates!

The offender in a quarrel never pardons unless he is a man of consummate magnanimity.

Educational Expansion.

Dr. William T. Harris, United States commissioner of education, read a striking paper before the American Social Science association at Saratoga. Its subject dealt with the recent advances in college and university education in this country. Its statements are full of significance. Among other things, he asserts that in the last quarter of a century the records of enrollment among the students of the higher education, including the high schools and advanced academies, indicate a triple ratio relative to the population as against the preceding ratio. Three times as many students per million of people—that is an amazing fact more notable than our other landmarks of progress, brilliant as these have been! It is interesting to speculate on the causes. Two salient ones at once suggest themselves. In the first place, the needs of the age have compelled universities and colleges to introduce many specialized courses. Students, looking on the higher study as not merely a medium of mental discipline, but a direct avenue to professional work, have thus been tempted to use those agencies once devoted largely to the grind of Latin and Greek. The useful in study has greatly increased clientage where broad general culture alone would have failed in its appeal. Secondly, there has been an astonishing increase in the means of the middle classes, those neither very rich nor very poor. Social agitators constantly assert that the tendencies of the times make the rich richer and the poor poorer. This is contrary to all the sociological testimony. The vast expansion of national wealth has been among those occupying the golden mean. These two causes alone will account for the educational increase. It is a pity that Dr. Harris did not enter specifically into its rationale.

An article of great interest in The Engineer, an English technical weekly, entitled "American Progress In English Industry," goes into a multiplicity of detail showing why the manufacturers of America are supplanting the English on their own soil and in their own home markets, a fact so remarkable as to be worth extended comment. Among other things the writer says: "Such a great deal has been heard of late about the progress of Germany as a rival to industrial England that the bitter cry of American competition seems to have been overlooked. It would not be far from the truth to say that British industry is pressed harder by the Americans than by the Germans. America is no longer the key to the Sheffield trade. Sheffield manufacturers having intimate relations with the United States and who go regularly on business there several times a year are impressed by the fact that transatlantic firms, both in their methods of working and in the way in which the artisans do their work, are far ahead of this country. At this moment the American is sending over in the regular way of business heavy consignments of steel. The time will come when costlier qualities will be imported in quantity to meet our demands." This striking admission emphasizes what the students of industrial science have long known. The mechanical ingenuity which has characterized American industry has tended greatly to offset higher cost of labor and enable us to meet foreign competition in many lines on its own ground. There have been relatively few great fundamental inventions and discoveries made in the United States, but those made abroad have been so modified and improved in practice as to have revolutionized their worth.

The London Spectator advocates a plan which would have made the statesmen ruling English affairs 24 years ago open their eyes with amazement. It proposes the abrogation of the Clayton-Bulwer treaty and in its place one whereby the two nations of England and America guarantee for each other the control of the Suez and the Nicaragua canals against all comers. This would constitute a pact of invincible strength, and the official discussion would make the rest of the world squirm. Probably no serious opposition could or would be made to such an agreement, but none the less it would be felt as a slap in the face by every continental power. It would be looked on as the final seal of Anglo Saxon partnership. Stranger things have certainly come to pass.

It is complacently announced that Santiago will be immediately blessed with the introduction of the American school system and that 4,000 children of varicolored skins will be at once introduced to the pedagogue, all in good time. But the city of St. James needs other things first. Among these is a system of sewerage and street cleaning which will make healthful school buildings possible.

Observation of life shows that more enduring friendships and affections are based on contrasts than on similarities. Healthy minded people tire of themselves and crave the companionship of those widely different.

When General Merritt, now on his way to Chicago en route for the Paris peace commission, arrives in the Windy City, he will not object to the salute a la Hobson, if report does not belie the facts.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

The New Jersey Naval Reserves from this section are to be mustered out at Boston Monday after an honorable service that deserves the gratitude of the State to which they brought so much good repute. It was not their privilege to have any spectacular work in the naval campaign, but their duties were important and without any intermission for rest or play, and the historian must remember them with a good bright page when the chronicles are made up of the part played in the war of 1898 by New Jersey's sons.—*Patterson Press.*

* * * * * *

One hears little of John Kean, aside from his trolley interests in Union county, but that, to those who know the shrewd Republican leader, is conclusive evidence of activity. Mr. Kean has no use for a brass band in his march on Senator Smith's works, and when most people think he is miles away he is likely to be right in the vicinity of the Senator's choicest preserves. He means to be the next United States Senator from this State, and his party is behind him. To win out he must have a Republican Legislature, and he'll have it, too, even if the Hudson Assembly delegation is made to be of the Republican persuasion, in whole or in part.—*New York Press.*

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

One of the best performances ever at Music Hall was had Saturday night in the presentation of Clifford & Huth's new farce comedy by Herbert Hall Winslow, entitled "A High Born Lady." It was delightfully amusing, refined and entertaining. W. S. Clifford and Maud Huth were perfection itself in their respective characters, and Fisher and Carroll, Samuel J. Adams and the pretty bevy of ladies comprising the balance of the cast, were the most pleasing we have had here for many seasons. A return visit would crowd the house.

* * * *

Among the attractions that make up the theatrical offerings of the current season is "At Piney Ridge," the fine southern play by David Higgins, that is now in its second season of success. This drama has been accorded an enviable place in the list of creditable American plays, and it is in the heyday of its career as a finished production that it comes to this city this season. It is not often that a young man springs to the front and starts so promisingly on the upward and rough road of popular favor at one good big first spring as David Higgins, thanks to his most excellent work, has done. But this is not all, for as an actor Mr. Higgins has made a like success. In the part of "Jack Rose," the hero of his capable drama, he has made so fine an impression that we may look for his name as a necessary part of the complete roster of the stage of the present. This story of the young and ambitious mountaineer, with its light and shade of humor and pathos, its sincere and truthful word painting and characteristic emotions, is a study of life that has added largely to the good stage material, which, thanks to the efforts of our younger dramatists, has been brought forward in the last five years. The play is not only true to life, but it is true to the honored traditions of the stage, so much scoffed at of late by many writers of ability and merit, but who, nevertheless, spite of the enduring rewards success brings, conscientiously refrain from the writing of good plays. Mr. Higgins' play is not only a good one, it is a fine entertainment as well, and well repays in the enjoyment and interest it excites.

* * * * * *

Gilmore and Leonard, with their original company of comedians, will be at Stillman Music Hall Friday night with their edition of "Hogan's Alley." Everything that is new will be introduced, including latest songs, dances, ragtime melodies, musical selections, besides a host of pretty girls and great comedians.

—There will be a meeting of the Borough Board of Education this evening.

—Next Sunday the Sunday-school of the First Baptist church will meet at 2:30 o'clock in the afternoon instead of the morning as during the summer season.

—The Royal Santiago Circle, Mothers of American Protectors, will hold their prayer and praise service Monday evening at the home of Mrs. D. B. Bowden, 225 Grant avenue. Friends of soldiers are cordially invited. 9-10-2

NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, Sept. 12.—Miss Bessie Frescoln, who has been a guest of Miss Francis Hunt, has returned to her home in Brooklyn.

T. Barron and family, who have been occupying Mrs. Nancy Thomas' house on Washington avenue during the summer, have returned to their home in New York.

Benjamin Carpenter is clerking for George Schenck, the grocer, in John Fenner's place, while Fenner is away on his vacation.

Mrs. Walter Hunt and family have returned to their home in Philadelphia after spending part of the summer here.

Mrs. Nancy Thomas and family, who have been spending the summer at Ocean Grove, have returned home.

Mrs. Joseph Eder and family have returned to their home in New York after a visit at Mrs. Catherine Maier's.

Miss Florence Howard, who has been visiting Mr. and Mrs. A. W. Warden, has returned to Brooklyn.

John Fenner, Will Craig and Fred Haynes have gone to Stroudsburg, Pa., to spend a ten days' vacation.

Jacob Henry, who has been visiting relatives in the borough, has returned to his home in Joliet, Ill.

Miss Annie Fenner, of Plainfield, spent Saturday with her sister, Mrs. Harry Swackhamer.

John Milligan is putting up a new fence for A. M. Randolph on John Milliken's property.

Mrs. S. T. Prentiss, of Greenwich, Conn., is visiting Mrs. Robert Bogardus.

Mrs. George W. Townley, of Elizabeth, spent Friday with Mrs. William H. Terry.

Miss Sadie Childs, of Red Bank, is visiting Mrs. Emily Apgar, of Front street.

Firman Giese lost a horse Friday. The animal dropped dead in the harness.

Frank Haffner, of Plainfield, has been visiting friends in the borough.

Mrs. Frank Stillman, of Morristown, is visiting her mother.

Miss Lulu Adams has been ill at her home.

NEW MARKET.

(Special Correspondence of the *Daily Press.*)

New Market, Sept. 12.—Mrs. Jennie Smalley and her sister, Miss Myra Runyon, of Plainfield, have been visiting relatives in Piscataway.

The Misses Alice and Emma Heydon, of Saratoga, who have been visiting Mrs. G. W. Coriell, have returned home.

Thursday night several new members will be initiated into Lakeside Council.

Henry S. Garretson is a member of the Grand Jury for Middlesex county.

PLAINS AND FANWOOD.

(Special Correspondence to The Daily Press.)

Scotch Plains, September 12—Mrs. George Marsh entertained her parents, Mr. and Mrs. A. L. Jimerson, and her sister, Mrs. Bulkly, all of Westfield, Sunday.

The teachers, officers and scholars of the Baptist Sunday-school tendered a reception to their superintendent, George E. Hall, Sunday afternoon in the chapel of the church. The regular lesson was put aside and an interesting programme was rendered by the scholars. The affair was arranged in honor of Mr. Hall's return from a month's vacation and to show the school's appreciation of the work he has done in the Sunday-school.

Miss May Johnson entertained a few of her friends at her home on Grand street Saturday evening. Music, games and refreshments helped to pass away a pleasant evening to all. Among those present were: Miss Squier, Miss Adams, Miss Regee, Mr. Young, Rev. Mr. Woodruff and others.

Ex Sheriff Kyte, Town Clerk Hand, Frank Allen and James Goodman started Saturday upon a two days' fishing cruise off Sandy Hook. There is no doubt but there will be a large catch, and their many friends are expecting to have fish for their Tuesday morning breakfast.

Mrs. Rogers and daughter, Miss Stella, of Brooklyn, spent Saturday and Sunday with Mrs. Rogers' parents, Mr. and Mrs. Ryno.

Miss Florence Darby, of Alton, who has been visiting Miss Cora Miller, returned to her home today.

Miss Lizzie Archibald, of Westfield, spent Sunday with her parents, Mr. and Mrs. John Archibald.

The Building and Loan Association meet tonight at the home of Dr. J. H. Parks.

Miss Lottie Lyons, of Plainfield, visited friends in town Sunday.

Bon Ami

Will not Scratch

ALWAYS USED IN THE FORM OF A LATHER, AND DOES NO MORE INJURY THAN WATER.

PEOPLE COME AND GO.

PERSONAL MENTION OF INTEREST TO PRESS READERS.

Some Come to Enjoy Pleasures of Plainfield, Others Journey to Either Mountain or Shore for Recreation.

L. W. Randolph, the druggist, starts on a short vacation today.

Charles Moffett, of Park avenue, was in Trenton Saturday.

Bert Schriener, of West Sixth street, has returned from his vacation.

George Dufford, of West Seventh street, is visiting at Whitehouse.

Counselor S. S. Swackhamer spent Sunday with relatives at Whitehouse.

Frank Clarkson, of East Second street, has returned from his vacation.

Robert Davis, assistant secretary of the Y. M. C. A., spent Sunday in Whitehouse.

Miss Thorn, of Elizabeth, was the guest yesterday of the Misses Woodland, of Craig place.

Rufus Larew, of West Fourth street, has been spending a week in Newark with friends.

Miss Mamie McCann, of West Third street, has returned from a week's visit in Elizabeth.

Mr. and Mrs. R. W. Barnes, of Grove street, are the guests of Elizabeth friends and relatives.

Robert Schriener, of Randolph's pharmacy, has been spending two weeks' vacation at Cape May.

Byron Moffett and family, of Franklin, Pa., are visiting Mr. Moffett's daughter, Mrs. Judson McClintock, of the borough.

Aubrey Johnson, who has been employed in Shaw's pharmacy during the summer, has gone to New York to accept another position.

WESTFIELD.

(Special Correspondence of The Daily Press.)

Westfield, September 12. — The Woman's Club, of this place, will renew their regular monthly meetings Monday evening, October 10th, after a vacation period of two months. This club has grown rapidly and is now one of the strongest organizations of its kind in the State, and counts among its members most of the best people of this town. The club was started in 1895 with a very small membership, but now has over eighty members. The officers of the club are: President, Mrs. Eliza K. DeLamater; vice-presidents, Mrs. Minnie B. Foote and Mrs. Emma S. Phillip; corresponding secretary, Lucy C. Worth; recording secretary, Florence M. Embree; treasurer, Jessie MacDiarmid; standing committee, May E Gomes, Mary E. Moore, Grace White and Esther H. Johnson. The committee on study consists of Anne Walker Johnson, Ellen Bradbury, Abigail Halsey and Sarah P. Carberry.

Private George S. Bolsterli, of Company K, Third Regiment, came up from Fort Wadsworth Saturday to visit friends in town. He left in the evening for Plainfield to visit his parents. George says that the boys of his company are very anxious to be mustered out, as the evenings are commencing to be rather chilly at the fort and that they are longing for the comforts of a good feather bed.

LINCOLN.

(Special Correspondence of The Press.)

Lincoln, September, 12,—Mrs. J. B. Cleaver and daughter, Josephine, were guests of Mrs. Edgar Granert Friday afternoon.

James Dunlap, of Brooklyn, and daughter, Mrs. P. B. Merlett, of Fieldsville, were visitors at the residence of the Misses Anna and Katherine Bohn, during the week.

C. Goering returned Friday after several days' visit with friends in Brooklyn.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way.

Mrs. Edward Sebring and daughter Edna are at Asbury Park.

Lewis E. Dunn, who is confined to the hospital for treatment, is improving.

Mrs. Harned and Miss Harned, of Craig place, spent Saturday at Lake Hopatcong.

Mrs. Sarah Manning, of Grant avenue, is making improvements to her property.

Miss Ada VanHorn returned today after spending a pleasant week at Sunset Cottage.

Mrs. A. D. Pope, of Lincoln place, is spending a week with Mrs. Francis Clark, of Newark.

Mr. and Mrs. VanZandt, of this city, have returned from a visit with East Millstone relatives.

L. H. Biglow, Jr., and family, of Central avenue, have returned from their summer outing.

David King and family, of Craig place, spent yesterday at Liberty Corner with relatives.

Miss Lottie Chamberlain, of East Third street, has returned from a visit with Raritan relatives.

Stanley and Fred Krom, of Jersey City, spent Sunday with their parents, Mr. and Mrs. S. R. Krom, of Madison avenue.

Miss Maude VanDyke, of East Front street, returned today from Liberty Corner, where she has been visiting.

Mr. and Mrs. Charles Schermerhorn, of Madison avenue, are enjoying themselves at the exposition at Omaha.

Rev. Madison C. Peters and family, of New York, who have been spending the summer in Plainfield, have returned home.

The last word received from Niagara Falls regarding the condition of E. F. Marshall, of Fairview avenue, is that he is slightly improved.

Miss Kline, of Elizabeth, was a guest at the home of Mr. and Mrs. George L. VanEmburgh, of East Second street, over Sunday.

Mrs. Joseph Blimm and daughter, Miss Gertrude, accompanied by Mrs. E. F. Hill, of Evona, are stopping at the "Bernine," Asbury Park.

The engagement of Miss Martha Cook, of this city, and Leonard Leach, of Dunellen, is announced. The wedding will take place at an early date.

Mr. and Mrs. Charles VanMiddlesworth, of Brooklyn, are visiting at the home of Mrs. VanMiddlesworth's mother, Mrs. Zeisz, of Chatham street.

The marriage of Miss Maude Mosher, of East Fifth street, to George Homan, of West Fifth street, will take place next Wednesday at the home of the bride.

The Misses Sadie and Anna Searing, of Madison avenue, returned Saturday from their two weeks' vacation, and this morning Miss Sadie resumed her duties in White's dry goods store.

Nicholas Jansen, one of the clerks at Findlay's, on East Second street, accompanied by Ernest Roth, bologna-maker for Crane & Mundy, spent Sunday very pleasantly in a carriage ride over the mountain to Stirling.

Last Friday evening at the home of former Councilman and Mrs. Arthur T. Gallup, West Front street, a few friends gathered to witness a night blooming cereus. There were nineteen flowers on the plant and the sight was beautiful.

William James Stillman, brother of the late Dr. Charles H. Stillman, war correspondent of *The London Times*, of Rome, Italy, is on a short trip to this country. He is the guest of Mrs. J. K. Myers, at Whiteface Inn, Adirondack Mountains.

Miss Katheryn B. Vreeland, assistant principal of the Girls' Preparatory College at Evansville, Indiana, who has been visiting her mother, Mrs. K. J. Vreeland, of West Front street, left for the field of her labor the coming season this morning.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness, caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular; free.

ITEMS BRIEF AND BRIGHT

GATHERED ALL ABOUT THE TOWN BY ALERT PRESS REPORTERS.

News in Short Paragraphs That are Interesting to Read During the Spare Moments of Many Busy Plainfielders.

—Most of the local telephone trouble, the result of the storm last Wednesday, is repaired.

—Tomorrow the Borough Public High School will reopen for the fall and winter term.

—The large tree that was blown over near the Park Club last week has been taken away.

—The Park Avenue Baptist Sunday-school will resume its afternoon sessions next Sunday.

—The water pipes along West Fourth street, from Plainfield avenue west, are being laid rapidly.

—The Boy's Club will open for the fall and winter months Thursday evening, September 15th.

—There will be a regular meeting of Plainfield Council, No. 711, Royal Arcanum, this evening.

—The members of the W. C. T. U. have shipped another barrel of literature to the sailors and soldiers

—Green gages and damson plums, Colorado melons and 200 baskets of peaches at Neuman Brothers tomorrow.

—The First Baptist church choir resumed their place yesterday for the first time after a vacation during the summer months.

—The J. P. Laire Hardware Company ask your attention to their new advertisement in today's Press. They have made some genuine reductions in prices.

—The Blue Point oysters for half shells will be fine this year. The only place in the city that pays the price for the genuine stock is at Rogers' seafood market.

—The graphophone entertainment to be given at the First Church of Christ tonight will be conducted by Prof. Love. There will also be some instrumental and vocal music.

—Thorpe, the mantel dealer, at 310 312 Park avenue, is cutting prices on gas grates, and now is the time to put them in your house. No dust, no dirt, no waiting, but you have the fire just when you want it.

—Parents and students about to decide upon a course of music study for the coming year or even a single term, should accept Miss Palmer's invitation for this week and learn of the newest ideas in teaching.

—A large number of Plainfield citizens have had attention called to the excellent laundry work of Hillier & Co., of No. 179 North avenue, through the medium of a very tasteful card sent through the post.

Ladies desiring KNIFE-PLEATING or FINKING done, will please leave orders with Mrs. Force, 201 Watchung avenue, and it will receive prompt attention. 10 26tf

Ladies fine lisle hose, 50c quality, 29c pair.

Edward White.

Gray Poplin Calling Gown.

A pretty afternoon gown suitable for driving or calling is built of soft gray poplin with the skirt opening in front over a simulated under dress of turquoise blue taffeta, and trimmed with two bands of lace insertion.

The bodice is made with a draped effect, caught up gracefully on the left side with a dull gold buckle, and bordered with insertion. The lower part

of the sleeves are composed of guipure lace, while the upper portion of gray poplin is shirred down the center to give a full effect. A dainty little capote of grey satin straw, adorned with pale pink roses and black quills tops off this dainty costume.

New Disease Among Cyclists.

A new disease has broken out among cyclists, and is causing considerable trouble and perplexity to those medical men who, insufficiently acquainted with "biking" habits, have not yet hit upon its cause. It is known as "cyclist's fever," and its principal symptom is insomnia. The patient wakes frequently to find himself in a profuse perspiration, his heart beating violently, and the muscles of his body rigid.

The cause of this is that the keen emulation between cyclists has led to most of them disdaining food while on a run. They never think of refreshment till it is over. Then they have no appetite for it, and go to bed with the result described above.

The extraordinary thing is that men do not feel the strain so long as they are actually working. It is only when they have ceased that the collapse comes. But a very light refreshment eaten on the way is, according to a high medical authority, sufficient to prevent this.

A Good Reminder.

The average housekeeper finds that her memory is shortest when it comes to the daily planning of meals. Her frequent cry that she cannot think of anything to order never seems to be suggestive to her of its own remedy. She has ordered and does order every day the round of family living, and if when the process is over she would arrange in a little book kept for the purpose the chief dishes that have appeared on the table during the twenty-four hours, she will find that she quickly accumulates a valuable memorabilia. Instead of cataloguing these dishes under Sunday, Monday, and Tuesday, it is simpler to classify them breakfast, luncheon, dinner; substantials and desserts. A housekeeper who has practised this plan since the beginning of the year has over and over again been amazed to discover how the useful simple dishes escape her memory without it.

Smart Fall Gown.

One of the prettiest gowns designed for late summer wear is built of rose colored drap d'ete, with garniture of white silk and black satin. The skirt is the fashionable sheath-like model, trimmed around the foot with soft folds of black satin caught here and there with cut steel buckles.

The corsage is finished at the top with square tabs of white silk and is worn over a full gulmp of silk. The sleeves are decidedly close fitting. Black satin composes the crush stock, the cuffs and the wide ceinture about the waist, while wide black satin streamers fall to the end of the skirt in the back.

Organdie pillows have been made up this summer over silesia of the tint of the prevailing flower. The slip covers are, of course, made separately and are easily laundered. The room occupied by the daughter of the household in a pretty suburban home is dressed in organdie for the warm weather, the pattern selected being a white ground with cool-looking green flowering sprays straying over it. A bed-spread and valance, the trimmings of the dressing-table, curtains, and even the cover for the divan, are made of the organdie. Five or six pillows similarly covered are piled on the divan, the effect being extremely dainty and beautiful.

The Marriageable Age in Different Lands.

The "marriageable age" varies greatly. In Austria a "man" and "woman" of fourteen are supposed to be capable of conducting a home of their own. In Germany the man must be at least eighteen years of age. In France and Belgium the man must be sixteen and the woman fifteen. In Spain the intended husband must have passed his fourteenth year and the woman her twelfth. The law in Hungary for Roman Catholics is that the man must be fourteen years old and the woman twelve; for Protestants the man must be eighteen and the woman fifteen.

In Greece the man must have seen at least fourteen summers and the woman twelve. In Russia and Saxon they are more sensible, and a youth must refrain from matrimony till he can count fourteen years, and a woman until she can count sixteen. In Switzerland men from the age of fourteen and women from the age of twelve are allowed to marry. The Turkish law provides that any youth and maid who can walk properly and can understand the necessary religious service are allowed to be united for life.

Heavily Taxed Islands.

In the Philippine Islands all males over twenty-one years of age must pay a poll-tax that equals about $20 of our money, and the women must pay $15. A man must pay a license to sell cocoanuts from his own trees or indigo of his own raising. Every article of furniture that costs half a sovereign is taxed. The curtain never goes up at the theatre unless £2 is paid to the Government, and for every act of slaughtering his own animals, clipping his own sheep, or felling his own trees the Philippine farmer must pay a fee to the Government. There is exacted Government tribute for getting married and for being buried, and at every step and turn of his life the tax-collector holds out his hand to him, and it is not a demand that can be refused. No wonder Spain wishes to keep a possession that yields such a return; no wonder also that the last sixty years have developed seventeen rebellions in the Philippines.

Iced Chocolate.

Iced chocolate is pronounced one of the most nourishing of summer drinks, as it is one of the most refreshing. The chocolate is made in the usual way, two teaspoonfuls to a pint of boiling water. It is cooked in a double boiler, and when cold a cup of cream is added. The process of beating the chocolate with a Dover beater is to be recommended for the serving of cold chocolate. It is more disgestible as well as more palatable after this treatment. It is then served in tall glasses, partly filled with chopped ice Iced tea and iced coffee are excellent stimulants for hot weather, if one feels the need of such. They perform the service of stimulating without heating as spirituous liquors do.

Made Them Lively.

Standing in front of his uncompleted building, a contractor uneasily watched the labourers as they slowly performed their work. The men who carried in the bricks and tiling from the street were especially annoying to him. They moved about at a sleepy and turtle-like pace, and did not appear to be worried in the least when their slowness was the cause of delay on the inside work.

While he was watching them in disgust an Italian with a barrel-organ halted just across the way and began grinding out a lively march. He had been playing for several minutes before the contractor observed the marvellous effect of the music on the men who were carrying the bricks. They came out of the building like circus horses in a grand entree, hurriedly filled their hods, and then marched back into the building at double quick, stepping high.

The builder went across the street and give the Italian a shilling, in return for which he played lively tunes for a half-hour. During that half-hour the labourers did a half-day's work. Next day the contractor ran across another Italian and sent him over to the corner to play. And the labourers never discovered what a shabby trick had been played upon them.

In the Course of One's Life.

Without knowing anything about it, we breathe into our lungs an extraordinary collection of things during the course of a lifetime. Going daily to work most people will, at one time or another, inhale the following:

Fine particles of silica lifted from the road by the wind; minute atoms of chalk, lime, clay, soot; particles of dead and decaying animals; hairs, fibres of straw and hay, stable manure (the chief constituents of town dust); fragments of wood as sawdust and fine chips; fibres of linen and cotton; feathers; the dust from volcanoes, which is so fine that it travels round the globe; portions of food, moth-cells, seeds of vegetables, pollen, and many volatile substances of flowers; and salt, which comes from the ocean, and is found in the air of every spot on the earth.

Then there are the millions of microbes, dangerous and harmless. In the outer country air there are only two or three of these to a gallon; but eighty-five have been found in a four roomed house, and 580 to the gallon in a one-roomed house. They are of infinite variety, and among the dangerous ones are those from which we get consumption, bronchitis, catarrh, influenza, small-pox, typhus fever, measles, scarlatina, diphtheria, and erysipelas.

To Clean a Bicycle Chain.

A bicycle often runs badly because the chain needs cleaning. The best way to clean it is the following:—Remove the chain, clean off the rougher dirt, and then boil it in Russian tallow. The boiling scums off all the dirt, and the tallow works in to the moving parts, and coats the whole chain with a film that is not a dirt collector, giving, as it were, no grip for dust to settle on. The process keeps a chain good for several hundred miles, and should then be repeated, no other lubricant being used in the meanwhile.

How Arab Babies Are Treated.

If a little Arab baby could talk, it would certainly tell its interviewer that a baby's life is not a happy life, and, as far as its experience went, it would certainly be telling the truth.

The higher the rank of the baby, the more necessary is it in the eyes of its parents and guardians that it should be reared in the manner prescribed by ancient custom. When a royal baby makes its appearance on the scenes, it is first washed and perfumed, and then a bandage is placed around its body. Then the little creature is laid on its back and its arms and legs are straightened, and its whole body is swathed from the shoulders downwards.

In this position it is kept for no less than forty days, but the bandage is removed twice daily that it may be bathed. This process is supposed to render the child straight for life, and assuredly there ought to be some advantages in it, for it is a period of misery to the hapless infant.

If the baby be a girl, holes, usually six in number, are pricked in her ears on the seventh day after her birth, and when she reaches the age of two months, heavy gold rings are attached to them, which she wears through life, except during periods of mourning.

On the fortieth day a most important ceremony takes place—the shaving of the baby's head. The disposal of the first hair is a very weighty matter, and it is of the utmost importance that it should not be burnt or thrown away, but buried, cast into the sea, or concealed in some crevice of a wall.

The fortieth day marks the child's entrance into society. Till that time it must be seen by no one but its parents, a few very intimate friends of the family, and the slaves on duty. Now it may be seen by all the world. Several charms are attached to it to preserve it from the "evil eye," and those are worn for a longer period by girl than boy babies. The favorite charm is a gold or silver locket worn suspended from the neck.

Every Arab baby is strongly perfumed from the time of its birth. Its clothing, and all articles of toilet are covered at night with jasmine, fumigated with amber and musk, and then sprinkled with attar of roses before being used.

Some Matrimonial Facts.

Widowers are more inclined to marry than bachelors. Widows are more inclined to marry than spinsters. Both facts are eloquent in favor of the comparative advantages of matrimony. For one bachelor that marries between the ages of fifty and fifty-five, seven widowers re-marry between these ages. These are marriages out of equal numbers of each class; the actual number of bachelors married will be greater only in proportion as they exceed by seven to one the actual number of widowers living at these ages.

Under the same conditions, for every spinster married between thirty and sixty-five two widows are re-married. Inasmuch as the total number of spinsters far exceeds that of widows, and the figures given refer to marriages out of equal numbers, this disparity is not so noticeable; its existence, however, is beyond dispute.

Similarly, out of an equal number of widowers and bachelors between twenty-five and thirty years of age, thirty widowers re-marry for every thirteen bachelors who enter the bonds of Hymen for the first time.

The Sweep in Switzerland.

In Switzerland the chimney-sweep is an official personage. He is the employe of the commune, receiving a fixed salary. He is also, as many tourists will have noticed, one of the few sons of the Helvetian Republic who on Sundays and week-days sport a tall silk hat. On his official tour he takes it off blandly, and informs the householder that he is "empowered by the State to inspect his flues." In the canton of Grisons recently the post and title of "communal chimney-sweep" was opened to competition. The salary was £32 a year, and the candidates were numerous. But the strange thing was that they were mostly schoolmasters from Italy, a painful sign of the times in that unrestful land.

Thunder and Lightning.

It is believed that lightning is visible at a distance of 150 miles, but opinions still differ as to how far away thunder can be heard. A French astronomer has made observations on the subject, and he declares it impossible for thunder to be heard at a greater distance than ten miles. An English meteorologist has counted up to 130 seconds between the flash and the thunder, which would give a distance of twenty-seven miles.

Wash Cloth Bags.

Wash-cloth bags hang on the towel posts of the English washstands that are now often seen in city as well as country bedrooms, the dislike for plumbing in sleeping-rooms being wide-spread. These bags are a little smaller than the ordinary collar and cuff bags, otherwise are like them, being made of white or blue art denim and ornamented with some large design of embroidery. They gather neatly and separately and hold for laundering the wash-cloths used each day.

An Immense Plough.

The largest plough in the world, perhaps, is owned by Richard Gird, of San Bernardino County, California. This immense sod-turner stands 18 feet high, and weighs 36,000 pounds. It runs by steam, is provided with twelve 12-inch plough-shares, and is capable of ploughing fifty acres of land per day. It consumes from one to one and a half tons of coal per day, and usually travels at the rate of four miles an hour.

Lokal-Nachrichten aus der alten Heimath.

Mecklenburg.

Grabow. Zur Erbauung der Berlin-Hamburger Eisenbahn hatte die Stadt Grabow Ländereien im Werthe von 60,000 Mark unentgeltlich hergegeben unter der Bedingung, daß alle fahrplanmäßigen Züge hier halten sollten. Die Staatsbahnverwaltung hatte sich an diese Verbindlichkeiten nicht gekehrt, was die Stadtvertretung zu einer Klage gegen den Fiskus bewog auf Zahlung einer Entschädigung. Jetzt hat, nach fünfjähriger Dauer des Prozesses, das Reichsgericht im Sinne der Vorinstanzen entschieden, daß der Fiskus zu 2400 Mark jährlicher Abgabe an die Stadt—entsprechend einer vierprozentigen Verzinsung jener Werthsumme—zu verurtheilen sei.

Braunschweig.

Braunschweig. Neulich Nachmittags verbrannte auf offener Straße der 72jährige Friedrich Staudmeister. Der Mann stand im Augenblick in hellen Flammen und ist den erlittenen Brandwunden erlegen. Die Ursache wird darauf zurückgeführt, daß Staudmeister die brennende Cigarre oder Pfeife in die Tasche steckte.

Großherzogthum Hessen.

Darmstadt. Ein kürzlich vom hessischen Militär entlassener Soldat hat auf seinem Arm die Worte: „Freiheit, Gleichheit, Brüderlichkeit" eintätowirt; dies ist ihm auch als „besonderes Kennzeichen" in seinem Militärpaß bescheinigt. Der Hauptmann soll ihn grimmig angewettert haben: „So einen Mann können wir nicht gebrauchen, Sie kommen in's Lazareth und da wird es ausgebrannt werden." —Es ging aber nicht.

Mainz. Fünf junge Franzosen, die hier wohnen, machten vor dem Kriegerdenkmal in Gonsenheim eine deutschfeindliche Kundgebung; sie sangen die Marseillaise und bespuckten das Denkmal. Sie wurden verhaftet; auch wurden ihnen photographische Apparate abgenommen.

Schlitz. Die Eröffnung der Bahnstrecke Salzschlirf-Schlitz ist für den 1. Oktober in Aussicht genommen. Der Unterkörper der Bahn ist hergestellt, und auch die Vollendung der Hochbauten bis zu diesem Zeitpunkte gesichert. Für die umwohnende Bevölkerung hat die neue Bahnstrecke einen hohen wirthschaftlichen Werth, da durch sie die bedeutende Leinenindustrie und der Viehhandel sowie auch der großartige Holztransport aus den gräflich Görtz'schen Waldungen, welcher an sich schon einen erheblichen Theil der Betriebskosten der Bahn decken dürfte, in hohem Maße gefördert werden.

Bayern.

München. Hier tagte der zweite Kongreß des Vereins von Heizungs- und Lüftungs-Fachmännern. Ueber 200 Theilnehmer aus Deutschland, Oesterreich-Ungarn, der Schweiz, Rußland und anderen Ländern waren zu der Versammlung erschienen. — Der Schriftsteller Dr. Naumann hat im Auftrag einer Brauerei den Ankauf des Orpheums, eines Tanzlokals mit großen Versammlungssälen, abgeschlossen. In dem Etablissement soll eine Heimstätte für die Arbeiterorganisationen geschaffen werden, doch soll es auch anderen Zwecken dienstbar gemacht werden.

Altötting. Dieser Tage wurde der Bäckermeister August Engelhart im Ernst'schen Sommerkeller, wo er als Gast bei einem Arbeiterfest in heiterster Stimmung war, unter dem Verdachte der Brandstiftung verhaftet. Am 24. Juli brannte nämlich die mit 12,000 Mark versicherte sogenannte Moosmühle in Zolling bei Freising, deren Besitzer Engelhart ist, vollständig nieder. Der Verhaftete soll Tags vorher in der Nähe von Freising gesehen worden sein und vermag sich über diese kritische Zeit nicht auszuweisen.

Aßling. Vor Kurzem wurde hier ein Mann begraben, der sich seit vielen Jahren her bei den Leuten dadurch bekannt machte, daß er ständig die Redensart gebrauchte: „Ich und der Bismarck sterben einmal mit einander." Und richtig, als der Telegraph von Friedrichsruh die Nachricht von dem Tode Bismarcks überbrachte, lag der Bäckersepp von Aßling, obwohl noch in den besten Jahren stehend, auf dem Paradebett.

Bamberg. Sieben oberfränkische Lehrer, darunter Herr Motschenbacher von Bamberg, die im Jahre 1858 das Austrittszeugniß aus dem hiesigen Schullehrerseminar erhalten hatten, feierten neulich hier ihr 40jähriges Dienstjubiläum.

Bad Kissingen. Bei Sichtung des Nachlasses des verstorbenen Holzhändlers Karl Freitag hat sich ein ganz bedeutendes Defizit—man spricht von 300,000 Mark—ergeben. Die Betroffenen sind, außer der hiesigen Stadt und des Staats für nicht unbedeutende Holzgeldrückstände pro 1898, die zum Theil durch Kautionen gedeckt sind, viele hiesige Private mit erheblichen Summen.

THE CRESCENT HOTEL.

corner Somerset and Chatham streets, North Plainfield. Regular and transient boarders.

RUDOLPH SPEIGEL, Proprietor

GOOD JOB WORK.

THE DAILY PRESS office can do it—anything from a milk ticket to an auction bill; even larger, too.

The job department of THE DAILY PRESS office is the largest and best equipped in Plainfield or vicinity. The workmen employed are experienced and capable and possess the knack of producing neat products. The prices are reasonable. When work is promised for a certain time the customer gets it without the aggravating delay common to many printeries.

If you need job printing at all you need the kind that reflects credit for neatness and style on you. You can get that kind

AT THE DAILY PRESS.

YOU'RE READING THIS?

CERTAINLY!

Well, Mr. Merchant-who-thinks-of-advertising, this is only one of the many corners in THE DAILY PRESS—it isn't the best located one, either; we can give you better—and if this attracts your attention in our endeavor to tell you how good advertising will get you a hearing before the purchasing public, doesn't common sense teach you that if you were having people reading your trade story instead of you're reading our argument about it, that it would be better for your business.

THE DAILY PRESS reaches the purchasing public that makes the profits for the merchant.

We can give you big or little space—but in advertising it is'nt always economy to be sparing in your appropriation.

EDUCATIONAL.

(CONTINUED.)

CHAPTER V.

Supper was served late that evening at the Marvels', and the four ate almost in silence. Sir Roy made some attempt to talk, but his thoughts were full of the parting that was soon to take place between him and the girl who had won his heart. Lilac's pale anxious face made him surer than ever that she would feel the parting as keenly as himself, and he looked forward confidently to the time when he should return from Nevada, and overcome her scruples against becoming his wife. Lance seemed the least constrained of the four, and towards the end of the meal he persuaded his father to bring out a bottle from his scanty stock of wine, in honour of the guest who was about to leave them. The old man agreed with a bad grace, and as was his son who opened the bottle and filled the glasses.

As soon as he had refilled the Barronet's, however, he rose to go, with some excuse about work on the ranch; and a few moments later Lilac rose also and left the table. When she had gone it seemed to Sir Roy that the brightness had left the room, and he found it difficult to pay even decent attention to her uncle's talk, who, since the appearance of the wine, had lost his usual taciturnity, and regaled his guest with a gruesome account of the undetected crimes which had been committed near Deadman's Gulch and had given the place its bad name.

The Englishman listened as attentively as he could, but he felt himself overcome by a sudden sense of drowsiness. He wished that Lilac would return, so that he might see her once more before he retired to his room. He would have gone to look for her if his sleepiness had not been so oppressive. It forced him at last to give up all hope of seeing her before the morning—the morning of his departure—and sent him stumbling up-stairs to his room, where he fell, dressed as he was, across the bed in a sleep that was almost stupor.

* * * *

When Sir Roy woke an hour later, it was to find somebody standing over him in the dark room—somebody who was splashing cold water in his face, and begging him in an excited whisper to wake. He recognized Lilac's voice, although he could not see her in the darkness, and he started up, rubbing his eyes and asking what was the matter.

"Hush! You must not make any noise, or you will disturb my uncle in the next room!" said the girl in a whisper. "Get up instantly, and follow me down stairs without a sound!"

"But I do not understand," said the young man, still half asleep; and Lilac explained hurriedly—

"Your wine was drugged! Lance has been plotting with Gavin, the stockman, against you. You must get away at once! I have a horse ready for you, if you only can rouse yourself. I thought you would never wake."

The drugged man was still unable to realize the full extent of the danger which threatened him; but, when Lilac repeated her injunction to follow her at once down stairs, he staggered to his feet, still rubbing his eyes, and prepared to obey

"You must try not to make a sound, she whispered in a firm, commanding tone, that would have surprised him if he had been less drowsy; and she led the way carefully down the rough uncarpeted stair-case which led to the ground floor, and across the house to the door at the back, which was unlatched.

In the stable shed at the rear of the house were two horses ready saddled.

"I thought it would be better to get everything ready before waking you," Lilac explained, as she led them out into the yard. Now, if we can get half an hour's start on these we will be all right. I have turned the rest loose, and it will take some time to recover them when they find you are gone. You are not too drowsy to ride?"

She asked the question anxiously, for Sir Roy still acted like a man in a dream. It semed to him indeed as if he were still asleep and dreaming. There was something strangely unreal in the silent house through which they had crept, in the vague sense of unseen danger, in the very fact that he was preparing in the middle of the night for a ride across the dim prairie with the woman he loved. But, when they had mounted their horses and started in an easy canter along the grass at the side of the bridle-path, by which they had approached the house in the evening, the fresh breeze which blew in Roy's face and the movement of riding helped to clear away the effect of the drug which Lance Marvel had put in to his wine. He turned to the girl at his side.

"Shall you not put yourself in danger if you come with me?" he asked; and Lilac answered in a little more than a whisper—

"I must see you safe to Tonkerville. You do not know the shortest way, and the men will be almost sure to follow you. You can't afford to lose time finding your way. Do not talk yet. One's voice is heard so far at night on the prairie, and Lance will soon be taking the men to the house."

Sir Roy made no further expostulation. It seemed to him, as far as he was able to think clearly, that, now she had assisted in his escape, it would be more dangerous for Lilac to remain and meet the baffled desperadoes, whoever they were and whatever they were intending to do, than to join in his flight. What the end of the flight would be for her he could not think out at present while his mind was so sluggish.

They cantered along without a word for another twenty minutes, the girl every now and then turning her head to listen if any sound came from the ranch to tell them that their escape had been discovered. Then she said to her companion—

"We can talk now. I expect you are wondering what on earth has happened to make me hurry you away like this in the middle of the night."

"I believe I owe my safety to you," said Roy gratefully. "I should certainly like to know what was intended towards me."

"I am afraid that the worst was intended," said Lilac, still riding quickly at his side. "I have been very nervous about Lance, you know. When he left the supper table, I followed him without his knowing it. He went to Jake Gavin's hut—Jake Gavin is reckoned the worst man on the ranch. I managed to hear their talk, and Lance said that he had drugged you, that you were carrying a lot of money in your belt, and that he would let Jake into the house as soon as his father was asleep. I did not wait for any more."

Roy's breath came in sharp gasps but it was not at the thought of his own danger. The thought of leaving his "prairie--flower" in the midst of desperadoes made his cheeks grow pale.

"How did you come to live at Deadman's Gulch?" he asked abruptly; and, as she rode the girl told him the sad simple history of which he had heard a little already—of the happy life she had led while her parents were alive, of their sudden death within an interval of little more than a year of each other, and of the poverty which followed, making her uncle's offer of a home one that necessity forced her to accept.

"I should not have accepted it if I had known what the ranch is like," she went on. "I would rather have endured any hardships. It is only since your arrival that I have discerned the true characters of my cousin and the men. I feel sure that it was Jake Gavin who robbed you when you were lying insensible after your accident perhaps it was he who caused it by frightening your horse—and that my cousin had some of the money. He has hinted as much."

"Well, you have certainly saved my life, Lilac," said the young man. "You cannot refuse to marry me now."

"You must not speak of that again please." The girl's voice was very firm and decided.

"But you cannot go back," said Roy. "It is impossible for you to remain at the mercy of these villainous relatives of yours, even if you had not offended your precious cousin by saving me from his clutches."

"No—I shall never go back while Lance is alive," she answered quietly. "My uncle has not been unkind to me, and he is not like the rest. He is only weak, and afraid of his own son, I think. It is he who has made my life at the ranch bearable; but even he would not be able to protect me now from the resentment of my cousin and the men."

"Then, what are you going to do?"

"I shall go to 'Frisco, and try to get work of some sort."

They were galloping now along the narrow coach-road, and, as the girl spoke, she urged her horse into a gallop, which prevented her companion from replying.

The very suggestion that she should earn her own livelihood irritated Roy. When everything seemed to point so clearly to their immediate marriage as the only safe, sensible and happy way out of the difficulty, it made him impatient to find Lilac still holding out against it. He did not understand that the very fact of his being almost driven to marry her made her all the more determined not to allow him to give way to what she considered was scarcely more than a generous impulse. If he had understood her more thoroughly, he would not have wasted another moment talking about the difficulties with which she would have to contend if she decided to carry out her resolution, but would simply have insisted upon the fact that he loved her and wanted her for his wife. As it was, the earnestness and tenderness of his tone moved her more than any of his arguments.

"Look here, Lilac—it is absolutely impossible for me to leave you stranded in San Francisco without friends and without money. Why, in common gratitude I should have to stay there and see that you got on all right; and that would keep me all the longer from Nevada, where I ought to be now. Do you not see how much simpler it will be if you marry me? Directly we reach the end of our railway journey I shall take you to some friends of mine who are staying at the 'Golden Hotel,' and you can remain with them for a day or so, until I have made arrangements for the wedding. Then I can put my dear wife in a little house until my return from Nevada to take her home with me to Delverton Hall. Does not that sound better, little girl, than struggling alone against the cruel world?"

"It is very generous of you to make me such an offer, Sir Roy, but I have told you already why I cannot accept it."

"That you are not a fine enough lady for my wife—eh, 'prairie flower'? That, as I said before, is all nonsense. You would make a perfect Lady Garth."

"But you said yourself that I should require two months' polishing argued Lilac, her voice trembling a little. If, after all, the sacrifice that she was making of her life's happiness was an unnecessary one.

"Why not have the two months' polishing, then, if you think the social veneer so important?"

"How can I?" Lilac's voice trembled more than ever, as hope grew a little stronger.

"It is the simplest thing in the world You are going with me to San Francisco, where I will hand you over to my friends—Major Emmott and his daughter. They will return home in a few days, and you can go in their charge on a visit to my mother at Delverton Hall. She will be glad to see the lady to whom I owe health and life. Then when I get my business done at the Nevada mines, I shall hurry home and find you transformed into the 'fine lady' whom you think I ought to marry."

The girl's pale face flushed.

"But," she began, then hesitated.

Her lover had drawn his horse close to her side.

"There are no 'buts,' darling," he said enthusiastically—"the plan has no drawbacks."

"Suppose I agree," she said, "and, when you see me among other girls, you find that you do not care for me as you thought, will you promise me that you will not consider yourself bound to me at all—that you will let me come back here, and not think that I have any claim upon you?"

"That is very easy to promise, sweetheart. It is agreed that you go home, with the Emmots, and marry me if I am of the same mind—if you insist upon my saying it—when I return from Nevada?"

Still Lilac did not reply.

"Give me a kiss to ratify our compact sweetheart."

The Baronet's face was close to hers as he leaned over from his horse, and the girl made no demur when his lips touched hers; but her own did not respond.

"Now we must gallop again, I suppose, sweetheart," Roy said brightly, "unless we want those villains from Deadman's Gulch to catch us before we reach Tonkerville?"

They both urged their horses into a gallop as he spoke; and perhaps it was only the night wind that blew sharply in their faces which again brought the tears into Lilac's beautiful eyes.

[TO BE CONTINUED.]

THE WAY THE POPE LIVES.

Rooms in the Vatican Which Are Used by the Holy Father.

The rooms actually inhabited by Pope Leo in the Vatican are not numerous, and only the Cardinals, his immediate surroundings and those who are granted a special audience are admitted. Access to them is reached from the Corte Damaso by the Scala Regia, opposite the celebrated Sistine chapel, which later, although it actually forms part of the private apartments, is not difficult of access to the general public.

The furniture of the ante-rooms is modern and very simple, being made up of red damask and velvet, with gold lace hangings. There is nothing in them specially to attract the eye or to remind us that we are invading the privacy of the pontiff, save the baldachini or canopies which are made use of in processions and other functions, and which have similar upholstery. Under one of these the Pope takes his solitary meals, for, by the etiquette of the court, he is not permitted to entertain even the nearest of his relatives or to eat otherwise than alone.

The private library, which overlooks the Piazza of St. Peter, has three windows, but some years ago the present Pope diminished its apparent size by means of a richly embroidered damask screen, artistically disposed and lightly supported by elegant columns, which divides the room into two parts. The walls are furnished with bookcases of pearly whiteness, picked out in gold, with golden foliage, but the books which repose in these shelves, as well as the numerous manuscripts, are not visible, being for the most part carefully covered by green silk hangings. The screen only reaches as far as the top of the windows, and thus the upper part of the room is left open.

The division of the room, which has two windows contains but few books, but on the side opposite the screen is a large console in the style of the seventeenth century, on which is placed a crucifix and two immense candelabra. The only ornaments of the library consist of busts of the Popes—ten in number—amongst whom Pius VII. and Pius IX. are conspicuous. It is here that on certain semi-private occasions, as, for instance, his name day (Onomastico) in August, the Pope receives the visits of the Cardinals and of his private friends.

As might be expected, the daily routine of the Pope's life is extremely simple, but the amount of work of infinite variety which he gets through in the day is incredible considering his advanced age. He rises at 7, at which hour his faithful valet and maggiordomo, Centra, of whom more must be said later on, is always in waiting to assist at his master's toilet. His bedroom is large and commodious without a vestige of luxury, but the details of his apparel require the help of an attendant. The Pope is neat to the last degree in all that concerns his requisite dress, and his valet takes care that nothing is wanting in the disposal of his spotless linen or of his purple stockings, and that the sacred slippers are in their place.—Chicago Inter-Ocean.

A CHARACTER.

I'm kind o' sorry fur 'im, 'cause I know he means it well;
But I wish he didn't have so many useful facts ter tell.
He's got so educated that his knowledge has become
A second nature to 'im which he can't git loosened from.
He keeps us fellers sittin' still; we da'sn't laugh or cough.
He never gives us any chance at all fur showin' off.
An' the folks all gits to yawnin' when he starts ter have his say,
The man who knows so much it's allus gittin' in the way.

Ef some one tells a story, he won't even stop ter grin,
He'll talk about who wrote it an' what year 'twas written in.
An' ef Hannah plays the organ, jes' as soon as she gits through
He'll lecture on the music like somebody paid him to.
Ef some one has a bunch of flowers, he'll pick 'em all apart
An' go to botanizin'. He knows everything by heart.
He can't be satisfied ter go on careless-like an' gay,
The man who knows so much it's allus gittin' in the way.

He ain't content ter know 'bout what this world is doin' now.
He goes clean back through centuries an' tells the neighbors how
Folks useter do housekeepin' way back yon in Greece an' Rome.
Such things is most improvin', but they don't cheer up yer home
Like good ol'-fashioned games where you kin jine the gals an' boys
A-guessin' an' a-laughin' an' a-makin lots o' noise.
He's learnt 'bout everythin', exceptin' how ter romp an' play,
The man who knows so much it's allus gittin' in the way. —Washington Star.

HORSES IN TIME OF WAR.

Their Great Intelligence and How They Act When the Battle is On.

"It is remarkable how quickly horses adapt themselves to the military service," said an old soldier to a New York Sun reporter. "Every artilleryman knows that they learn the bugle calls and the evolutions quicker than the men, as a rule. They soon acquire a uniform gait, which is about the same as what he call the route step or the legal marching step. If the horse did not acquire the same gait as the infantry the different arms of the service—that is, between the infantry and the cavalry, artillery, and the commanders and their escorts. In the drills in the artillery service the horses will preserve their alignment as well as the infantry rank.

"It is surprising how quickly horses learn the bugle calls. Let the first sounded and instantly there will be a stamping, kicking and neighing among the horses. Once, during a terrible night storm in camp, our horses were seized with such terror that those of nearly every battery broke loose and scattered about. The next morning there was a wild rush among the artillerymen to capture horses for use. All was excitement, and the horses refused to be caught. An officer ordered the bugler to give the feed call. Horses from every direction came dashing in to that battery, and the rush was so great that it was with difficulty the men could get out of the way of the eager horses.

"When it comes to a battle a horse seems to know everything that is going on, and the reason for it all, and does his duty nobly. He enters into the spirit of a battle like a human being. He shows no fear of death, no sign of being overcome by panic in all the wild tumult of the battle's roar. A horse in one of our batteries during the Murfreesboro fight was hit by a piece of shell, which split his skull so that one side was loosened. The driver turned him loose, but he walked up to the side of the gun and watched the firing, and when a shot was fired would follow it with his gaze as if to note its effect on the enemy. When a shell would burst near by he would turn his head and look at it. When he saw the team he had worked with being driven back for ammunition he ran with the rest. When an officer pushed him aside to have another horse put in he gazed at the new one with a most sorrowful expression in his eyes. Then he seemed to realize that the glory of battle was no more for him, and he walked away and lay down and died. The officer declared that it was a broken heart, not the wound, that killed him."

Singhalese Children.

The Singhalese children are said to be more beautiful than those of any other race on the four continents, and some of the little girls, even of the very lowest caste, are irresistibly pretty as they run before you in the streets to beg; they cry out in the sweetest and most plaintive voices, touching the stomachs to signify hunger in a way that would be awkward and vulgar in any other being, but in them it is so winsome that, before you know it, you sacrifice a rupee to the band cause of encouraging them in begging—knowing quite well that all they want is a good opportunity to pick your pocket for more.

The Successful Man.

"A successful man," says Ella Wheeler Wilcox, "is one who has made a happy home for his wife and children. No matter what he has not done in the way of achieving wealth and honor, if he has done that he is a grand success. If he has not done that, and it is his own fault, though he be the highest in the land, he is a most pitiable failure."

Napoleon's Provisions.

"What would yo do," Napoleon was asked in his examination at the military school in Paris, "if you were besieged in a place entirely destitute of provisions?" "As long as there was anything to eat in the enemy's camp," he replied, "I should not be at all concerned."—Success.

McMinus—It's no the seeckness I'm minding, its the awfu' waste; I paid a-teenpance for that deener.

Wheat for Chickens.

We have just received the choicest lot of wheat for this purpose that we have ever seen. It won't last long.

GOLF.

Play for the Mrs. Charles J. Fisk cup was continued Saturday afternoon on the links of the Hillside Tennis and Golf Club. There were very few players out and apparently little interest. The scores are as follows:

	Gross.	Handicap.	Net.
W. R. Richards	95	5	90
W. L. Glenny	97	scratch	97
O. Saugstad	106	18	88
C. Wharton, Jr.	112	18	94
F. C. Ard	101	14	97
Jas. Murray	110	10	100

TENNIS.

The lawn tennis tournament of the Hillside Tennis and Golf Club which was not finished the 3d inst., was concluded Saturday. George H. Lyder won the club cup, defeating Carl L. Walz by the score, 6-4, 2 6, 3-6, 6-3, 6-3. The cup will become the property of the member winning it three times. It was first contested for last year when it was won by Mr. Walz.

ON THE GRIDIRON.

Joseph Vought, of Westfield, has had an offer from a Newark team to play football. If he can organize a team in Westfield, however, he will not leave town. Last season he played on the team of the North Shore Athletic Club, of Lynn, Mass.

PARTICULAR MENTION.

Miss Bessie Bacron, of Newark, was the guest of Mr. and Mrs. M. C. Dobbins, of Elmwood place, yesterday.

Lottie Montross and Florence Williams, of 417 Madison avenue, returned this morning from their summer's outing.

—There will be a meeting of the Grocers' Protective Association in their rooms in the Taylor building tonight.

—Delegates from Columbia and Central Lodges, A. O. U. W., will be guests of Memorial Lodge at Elizabeth tonight.

EXCESS CHECKS ABOLISHED

Central and Lehigh Patrons May Now Buy Tickets on Train Without Extra Charge.

Conductors on the Jersey Central and Lehigh Valley railroads have been instructed to issue no more excess checks for the ten cents extra that was formerly charged passengers who boarded trains without previously purchasing tickets at the ticket office.

The excess checks were redeemable at any station on their respective roads. According to the new war revenue law these excess tickets had to be stamped, and all that was paid for the stamp was therefore virtually given away by the company, for very few persons failed to redeem the checks at the nearest station.

The check system was found to be defective anyway, so far as insuring the honesty of conductors was concerned, for it was the experience of conductors that few passengers took close enough notice of the checks to interpret the meaning of the punch marks, and if a conductor wished to be dishonest he could punch a check several stations short of the passenger's destination and pocket the difference.

OUTING OF UNION REPUBLICANS.

To Discuss Politics Tomorrow at Avon-by-the-Sea.

(Special to The Daily Press.)

Elizabeth, Sept. 12.—The Union county Republicans will have their second annual outing and clambake tomorrow at Neptune Heights, near Avon-by-the-Sea. All the big men of the party in Union and a goodly collection of the smaller fry are expected to attend the outing and air their views on the political situation, and especially the chances of Acting-Governor Voorhees being nominated.

This will be the practical opening of the Republican campaign in Union. Politics will be very freely discussed on the trip to Neptune Heights and return, and also in the private parlors of the Neptune House, which are always reserved for the leaders of the party. Drake's Band will furnish music for the braves on the trip, and an enormous quantity of clams have been ordered for the feast.

RIGHT TO KEEP HOGS.

A Much-Mooted Question in Raritan Carried to Vice-Chancellor's Court.

The right to keep hogs in the township of Raritan was argued before Vice-Chancellor Reed. The township was the plaintiff and Charles A. Hensler the defendant.

The township wanted a retaining order to prevent Hensler from excepting the hogs, it being alleged that they were a nuisance. Hensler was ordered to move the hogs, by a notice from the local Board of Health. His defense is that the hog ordinance of the borough of the township and the notice were inconsistent, there being no authority for the notice under the ordinance.

He claims that the ordinance merely sets forth a general condemnation of keeping hogs within the township. Counsel for the plaintiff argued that the notice was drawn up under the authority of the State law, which empowers the Boards of Health to abate nuisances.

Third Regiment Awaits News.

(Special to The Daily Press.)

Pompton Lake, Sept. 12—Colonel Lee, of the Third Regiment, New Jersey Volunteers, has no official information as yet that his command is to be retained for garrison service. Up to date there have been seven desertions, one death from accident and two discharges for physical disability. One member of Co. A is in the guardhouse under a nine months' sentence for absenting himself without leave four times.

—The foundations for the new firehouse are being rushed.

—The annual meeting of the local W. C. T. U. is being held today in the rooms on East Front street.

—Neuman Brothers will have 200 baskets of peaches on sale tomorrow, also Colorado melons and plums.

BABIES THRIVE ON IT. GAIL BORDEN EAGLE BRAND CONDENSED MILK.

OUR ILLUSTRATED PAMPHLET ENTITLED "BABIES" SHOULD BE IN EVERY HOUSEHOLD. SENT ON APPLICATION.

NEW YORK CONDENSED MILK CO. NEW YORK.

"OIL WIZARD" WAS RIGHT.

Laughed at for His Discoveries Twenty Years Ago, He Triumphs Now.

Jacob Long, the famous "Oil Wizard" of Indiana, has come into prominence again through locating, by his peculiar method, some extensive oil country recently, and his predictions have been in almost every instance phenomenally successful. Twenty years ago, when Long was in his prime he was called the "water witch." Whenever a sawmill or residence was to be built he was called on to ascertain if the place was provided with water. Long was enabled to detect the presence of water by means of a forked stick which he carried close to the ground. He held a prong in each hand so that the third prong pointed upward. He claimed that as he passed over the water the prong would invariably point downward. Scientific people laughed at his method, but his judgment proved to be so good that no one thought of putting down a well unless Long was consulted.

Some years ago while Long was searching for water, his stick began to perform very curious antics by turning inward and outward. The phenomena puzzled Long at first, but in the natural course of events, the time has come for him to step down after investigation he announced that large reservoirs of oil and gas lay under this land. The theory seemed so absurd that he was laughed at, and his sanity was questioned. Failing to convince his neighbors, he left home and tried to accumulate enough money to purchase a part of the land. In this he has been unsuccessful.

A short time ago he heard that oil had been discovered by accident where he had located it twenty years ago. He has returned to his old home and his predictions since then have been so accurate that he is again beginning to enjoy local fame.—New York World.

TURKEY FOOT A MASCOT.

Done in Gold, Silver and Ribbons it Brings You Luck.

The rabbits foot is not in the race any longer as a charm. What has caused the downfall of bunnie's hind foot as a protection against all evil and an assurance of perpetual good luck for its happy possessor is rather a puzzling question and one which the fair sex and the advocates of the new fad would find it hard to explain.

Well, the rabbit having enjoyed so great and so long a run of popularity, and out. He has done so, and his place has been taken by one of the kings of the farmyard—the lordly turkey.

Fashion decrees that in order to be lucky one must wear in some manner or possess in some shape or other a turkey's claw.

The most popular style at present is the natural claw, properly treated by a taxidermist, its shank covered by a silver or gold cap, set with an amethyst, turquoise, or the new green stone, which resembles an emerald. The tip of the nail is covered with gold or silver cap, with a fine chain to match the cap from the shank to what one might call the wrist of the claw, and a pretty ribbon bow with long ends tied just below the shank.

These new mascots are so arranged that they can be hung up as ornaments or used as paper weights or table ornaments. In one case a foot was profusely bejewelled, which was intended for a cabinet. As dress ornaments they are, so far, but little used, though the writer was told they were being fashioned into clasps for fastening golf capes at the neck.—New York Herald.

At Close Quarters.

A darky was suing a railroad company for damages—caused by the killing of his cow. There was a strong suspicion that he had purposely driven the cow on the track.

"Did you not drive the animal in front of the engine?" asked the lawyer for the road.

"No, suh, I didn't!"

"You'll swear you didn't?"

"Yes, suh, ten times over!"

He won the case, but as he pocketed the check for his money some one overheard him say:

"Dat wuz a narrow escape I had, I tell you; but I tol' him de truth. It wuzn't me what driv' de cow in front er de engine, but my brother-in-law—he de one done it! I mighty glad dat lawyer stop when he did, kase he wuz right in de fambly!"—Atlanta Constitution.

About the Face on Silver Dollars.

A leading authority on American curios thus given the history of the face on the American silver dollar: "Miss Anna W. Williams is the name of the lady whose profile is stamped upon the Bland silver dollar. When the designer, Morgan, came to this country from England, in 1876, he was selected to make a design for a new dollar. He settled in Philadelphia, with the direct aim of thoroughly Americanizing his work, being desirous to present as the principal figure a representative head of an American beauty, finally selecting Miss Williams, who was living at the time with her aunt at 1023 Spring Garden street. She was unconscious of the ultimate use of the sketch she gave sittings for, and not until two years afterward was the secret disclosed."—St. Globe-Democrat.

In Doubt.

Gladys—Do you think Charley means business?

May—I can't tell yet; but I'm afraid he only means poetry.—Puck.

The Danger.

She—"Don't you think it dangerous to eat mushrooms?" He—"Not a bit of danger in it. The danger is in eating toadstools."—Chicago News.

INTENSE SUFFERING

FROM DYSPEPSIA AND STOMACH TROUBLE.

Instantly Relieved and Permanently Cured by Stuart's Dyspepsia Tablets

A New Discovery, But not a Patent Medicine.

Dr. Redwell relates an interesting account of what he considers a remarkable cure of acute stomach trouble and chronic dyspepsia by the use of the new discovery, Stuart's Dyspepsia Tablets.

He says: The patient was a man who had suffered to my knowledge for years with dyspepsia. Everything he ate seemed to sour and create acid and gases in the stomach; he had pains like rheumatism in the back, shoulder blades and limbs, fullness and distress after eating, poor appetite and loss of flesh; the heart became affected, causing palpitation and sleeplessness at night.

I gave him powerful nerve tonics and blood remedies, but to no purpose. As an experiment I finally bought a fifty cent package of Stuart's Dyspepsia Tablets at a drug store and gave them to him. Almost immediate relief was given and after he had used four boxes he was to all appearances fully cured.

There was no more acidity or sour watery risings, no bloating after meals, the appetite was vigorous and he has gained between 10 and 12 pounds in weight of solid, healthy flesh.

Although Stuart's Dyspepsia Tablets are advertised and sold in drug stores yet I consider them a most valuable addition to any physician's line of remedies, as they are perfectly harmless and can be given to children or invalids or in any condition of the stomach with perfect safety, being harmless and containing nothing but vegetable and fruit essences, pure pepsin and Golden Seal.

Without any question they are the safest, most effective cure for indigestion, biliousness, constipation and all derangements of the stomach however slight or severe.

Stuart's Dyspepsia Tablets are made by the Stuart Co. of Marshall, Mich., and sold by druggists everywhere at fifty cents per package.

Little book on stomach diseases mailed free, address Stuart Co., Marshall, Mich. 9 12-14-16

RARE CANINE INTELLIGENCE.

Illustrated in a Novel Manner by a Big St. Bernard.

A striking instance of the intelligence of a dog was demonstrated one night in Maplewood, at the residence of Colonel W. S. Moore, local agent of the Miami Powder company. The incident has set all Maplewood to talking.

A St. Bernard pawed on the door of Mr. Moore's residence and whined and growled in such a strange manner that the people in the house concluded to investigate. They had observed that his face detokened a look of distress rather than fierceness. Colonel Moore and others started out to follow the dog.

As soon as the St. Bernard perceived that he was being at least partially understood his whole attitude changed and he frisked about in a joyful manner. He watched the colonel and his party carefully to see that they were following him, and led the way to a neighboring house, about half a mile distant. When this place was reached his motives were at once understood. There, wedged tight between the bars of a porch railing, was a small pug dog that, in his struggles to secure his liberty, had twisted himself in such a position that he was rapidly choking to death.

The St. Bernard stood by and watched with interest the efforts of the party to extricate the unfortunate pug from his perilous position. This was only accomplished by breaking the bars of the railing. As soon as the pug was freed the St. Bernard manifested his appreciation by jumping on the shoulders of Colonel Moore and licking his hands in gratification. Then he trotted complacently from the place and was soon lost to view.

No one in the vicinity had ever seen the St. Bernard before, but all expressed admiration for the rare canine intelligence that he displayed.—St. Louis Republic.

Amount of Coal Used on Vessels.

The amount of coal consumed by a vessel during a voyage depends very largely upon the speed, for the consumption of coal increases almost in a geometrical ratio to the speed. There are many ships which burn from 100 to 300 tons of coal per day, the lowest consumption being when the vessel is sailing at a moderate rate. Our men-of-war do not consume so much in proportion as swift passenger steamers which ply between Europe and America, for, unless in an emergency, they are not driven at the highest attainable speed. The ocean passenger steamers often burn from 2,500 to 3,500 tons during a voyage lasting six to seven days, though, of course, as already stated, the amount is largely dependent on the speed.—St. Louis Globe-Democrat.

He—There are at least a dozen women who would be glad to get me if you were to die.

She—I don't doubt it. They know I have got you pretty well trained.—Indianapolis Journal.

O'Neill's.

Sixth Ave., 20th to 21st St.

New York.

General Expressions of Surprise at the much we have to show in women's new Suits, Cloaks, Coats, Skirts and Waists!

From now on we'll make "O'Neill's Suit and Coat Department" the focus of interest for New Yorkers. There will be exclusive styles far out of the crowd of imitations—assortments unmatched from ocean to ocean—prices copied from the alphabet of "O'Neill storekeeping," fair and right As often as possible we'll use the newspapers as a searchlight to show up the points of interest, but types cannot describe it. Please come tomorrow, and in future when you speak of the best suit and cloak house in New York you'll mean "O'Neill's." Anyhow, compare these prices for any quotations for new similar values:

Women's men-tailored cheviot Walking Suits, fly front jacket, new shaped skirt: entire skirt lined; a worthy quality of colored taffeta. The price to start early buying..... **$19.98**

Cheviot serge Dress Skirts, made with the new circular flounce and finished at top with two bands of material, percaline lined, velveteen bound—a late $10 skirt, but at an early price of..... **$5**

KNOTTY PROBLEM FOR VOORHEES TO SOLVE.

Resignation as Senator Makes a Complex Situation.

LAWS SEEM TO CONFLICT.

SUGGESTED THAT HE WITHHOLD RESIGNATION TILL JANUARY.

Then if He is Elected Governor He Could Resign in Time so That a Senator From Union County Could be Chosen to Vote for the United States Senator, Which Will be Important.

The friends of Acting-Governor Voorhees are still wrestling with the knotty problem produced by his proposed resignation as Senator from Union county. The deeper they go into the matter, however, the more complex it becomes, and there seems to be no daylight ahead.

Doubt was expressed as to the right of the Governor to order an election to fill "an anticipated vacancy," such as his resignation might be construed to imply, and his answer was that the resignation would not be "anticipated," but actual, because he would accept it as final whether elected Governor or not. That being the case, it was assumed that the problem was solved until paragraph 1, section 4, article 4, of the State Constitution, was consulted, and another snag was encountered. The paragraph in question reads as follows:

"Each House shall direct writs of election for supplying vacancies, occasioned by death, resignation or otherwise; but if vacancies occur during the recess of the Legislature the writs may be issued by the Governor, under such regulations as may be provided by law."

It was under the authority vested by this paragraph that Acting-Governor Voorhees intended to issue the writ of election for his own successor as Senator, but it appears he would have no right to do so if his resignation were to take effect on the third Monday in January next, when his term as Acting-Governor expires.

Paragraph 3, section 1, article 4 of the Constitution designates the second Tuesday in January as the time for the opening of the legislative year and the day on which both Houses shall meet. For that reason the Legislature is in session on the third Monday in January, and any vacancy occurring in either House on that date would have to be filled by a writ of election issued by the House in which such vacancy occurred. It would, therefore, be impossible to hold an election in Union county next November to fill a vacancy that will not occur until after the one hundred and twenty-third session of the Legislature is convened.

On the other hand, Acting-Governor Voorhees could tender and accept his resignation, to take effect prior to the second Tuesday in January, when the Legislature convenes. In that event he could issue a writ of election for a Senator from Union county to be chosen next November. But even there, peculiar complications would arise.

The Constitution provides that in the event of a vacancy in the office of Governor the duties shall be peformed by the President of the Senate, and in the event of the death, resignation or removal of the latter, upon the Speaker of the House. Hence, if Acting-Governor Voorhees should tender his resignation at any time prior to the second Tuesday in January, Assemblyman Watkins, as Speaker of the House, would become Acting-Governor. As an Assemblyman is elected for one year only Mr. Watkins' term as Assemblyman, Speaker of the House and Acting-Governor would expire on the second Tuesday in January, even were he re-elected next November.

That would mean, first, that the Legislature would have to convene without receiving an annual message from the Governor, or person administering the government, and that the State would have no Chief Executive from the second Tuesday in January until the third Tuesday in January unless the Senate elected a new President in the meantime.

As a way out of the apparent dilemma it has been suggested that Acting-Governor Voorhees withhold his resignation as State Senator until the next Legislature convenes, when, if elected Governor, he might present his resignation and his successor might be elected before a joint meeting was called to elect a United States Senator. The latter is accepted as the most logical solution of the problem and it will probably be carried into effect unless Attorney-General Grey advises otherwise.

TABOO ON HURLY-BURLY REPUBLICAN POLITICS.

Important and New Rules For the Conduct of Primaries.

KINSMAN PLAN ADOPTED.

PRIMARIES TO BE CONDUCTED LIKE A REGULAR ELECT ON.

Polls to be Open From 5 to 9 p. m. in Each Ward—Nominations for Candidacies for Various Officers Must be Filed by Saturday Night With a Regularly Appointed Clerk--Election Board of Three.

There was an important meeting of the Republican City Executive Committee last evening at Republican headquarts, at which time new rules governing primaries and elections were adopted.

The new rules provide that in the future all nominations shall be made before the primaries, that the names of the nominees shall be posted by a clerk in each ward, and that the committee shall appoint each clerk. At the coming primaries the clerks will be as follows: First Ward, J. B. Coward; Second Ward, Wm. N. Runyon; Third Ward, Roger F. Murray; Fourth Ward, Wm. Newcorn.

The polls are to be open from 5 to 9 o'clock p. m., and no one will be allowed to vote who did not vote the Republican ticket at the last general election and can satisfy the election board that they are entitled to vote. The election board will consist of three persons, who need not necessarily be members of the executive committee, but who will be selected from the various wards by the committee.

All names of nominees in the coming contest for delegates will have to be named and filed by the Saturday evening prior to the primaries to be held Monday evening, September 19th.

It has been thought that trouble will arise if people are allowed to hang around the polls the same as in the case generally with the primaries, and that a voter ought to be allowed and compelled to go to the polls and cast his vote unaccompanied. If there is any trouble along this line the rules will be amended to cover that point.

A number of other rules governing minor matters at election were adopted unanimously. However, there was some kicking regarding the adoption of the rule to keep the primaries open for four hours, but the rule finally was adopted without a dissenting vote.

The new rules are patterned after the Kinsman plan which operated in the Third ward at the last municipal election.

A BIRTHDAY PARTY.

Enid May-belle Fonda Celebrated the Event in a Pleasant Way.

One of the brightest little birthday parties of the season was that given by Mrs. John Lance, of 165 North avenue, in honor of her little daughter, Enid May-belle Fonda. It was a pink and white affair. The little girls wore pink or white dresses and the birthday cake was iced in pink and white and held twelve pink wax candles as well as Enid's name. It was also a patriotic cake as it bore the flag of our Union worked out in bon-bons in the ice on the side. There were all kinds of games with pretty prizes to the winners, also music and the soap-bubble blowing contest created no end of fun. Enid received many beautiful gifts from friends and relatives in Kansas City, Mo., (her old home) as well as from those here.

WORK ON A SPITE FENCE STOPS.

A Petition was in Circulation on Vine Street Declaring it a Nuisance.

The fifteen-foot high board fence which C. W. Krausse, of Vine street, was erecting in order to separate himself and family from either the sight or intercourse of Charles C. Campbell, his next-door neighbor, has not been finished. Soon after the poles were set for the fence Campbell went among the neighbors and secured the signatures of nearly all of them to a petition asking that the borough officials stop the erection of the fence as it was a nuisance and an eyesore to the community.

A Delicate Operation.

Another successful operation performed yesterday by Plainfield's eminent surgeon, Dr. Endicott, gives additional evidence as to his skill. The patent was Alfred Tabbert, aged twelve years, of 914 West Eighth street, who was a terrible sufferer from a pelvic abscess. The boy's life was almost given up and his condition was critical. The only thing left to do was an operation. This was performed and was very successful. The boy is now getting well and will recover.

TEMPERANCE WOMEN TELL OF THEIR WORK

Vice-Presidents of W. C. T. U. Chosen From Churches.

HOW DOLLAR WAS EARNED.

CURIOUS WAYS BY WHICH THE MEMBERS SECURED CONTRIBUTIONS

The Union to Hold a Fair in Their Rooms From November 7th to 10th—Memorial Service Held in Honor of Members who Have Died During the Last Year—Letters Read From Members.

The annual meeting of the local W. C. T. U. was continued yesterday afternoon with a good attendance and the consideration of many interesting subjects. The first business transacted was the election of the vice-presidents of the union. Those selected are as follows: Crescent Avenue Presbyterian church, Mrs. Cahoone, Miss C. R. Yates; First Baptist church, Miss Anna Boice, Mrs. Reuben Knox; First Presbyterian church, Mrs. E. V. Shotwell, Mrs. Ramsey Blair; Park Avenue Baptist church, Mrs. David Smalley; Congregational church, Mrs. LaBoyteaux; First M. E. church, Mrs. S. Jackson, Mrs. McNaughton; Grace M. E. church, Mrs. Voehl, Mrs. Powell; Warren chapel, Miss Mair, Miss Claypool; Unitarian church, Mrs. S. R. Krom; Trinity Reformed church, Mrs. Parse; Mt. Olive Baptist church, Miss Georgie Wilson, Miss Mary Cline; Seventh-day Baptist church, Mrs. Amanda Maxson, Mrs. George Babcock; Friends, Mrs. John Diedrick.

This was followed with a pleasing vocal solo by Miss Kathryn Glen, accompanied on the piano by Miss Lillian Glen. The young women received a vote of thanks from the members for their efforts.

At this time Mrs. T. H. Tomlinson, county superintendent, conducted the memorial service and she spoke very tenderly and sympathetically of those who have passed away during the past year. The names of Mrs. Silas Yerkes, Mrs. Anne Dickenson, Mrs. Beekman, Mrs. Lugar, as active members, and R. K. Case, as an honorary member, and the daughter of Mrs. John Titsworth, were all affectionately spoken of.

The next part on the programme was the experience meeting, at which time the members each gave a dollar and told how they earned the money. Each member was supposed to tell in rhyme how the dollar was earned, but the president was about the only one who presented a verse in rhyme. It was as follows: "Two heads I gave a good shampoo, to earn a dollar for the W. C. T. U."

One member, whose nurse girl had left her, made her dollar by taking care of her baby, while another member made her money by using her tongue. Still another earned the dollar by ironing shirt waists, and another saved a dollar by depriving herself of gloves. One woman found $2 and received 50 cents reward. She added 50 cents more and gave it to the union. In all, $23 was received from the members for the treasury.

Mrs. John McNaughton was called upon to give an account of her visit to the Waverly Fair last week, and she gave an excellent talk concerning the union's work at that place, where they had a building on the fair grounds. She said that after being informed regarding the army canteens she was not surprised to learn that so many soldiers have been ill.

An innovation was at this time accorded Mrs. Penfield, one of the union's oldest members, who entered the room. She made a few remarks and stated that she was soon to commence the work of making one hundred silk work bags, for which she was going to charge $1. She was then going to give the $100 toward paying off the indebtedness on The Temple in Chicago.

Mrs. Tomlinson made a few remarks concerning The Temple and said that the action of the National executive committee in giving up the building would not be settled until the National convention to be held next November. She together with a number of other New Jersey women were still hoping that The Temple would not be given up as New Jersey had already given a large amount and would continue to do so.

It was announced by the president, Mrs. Parse, that a fair will be held in the rooms commencing on the evening of November 7th and continue until the evening of November 10th, also that the Union county convention will be held at Westfield one week from tomorrow.

For the benefit of those who were

A MYSTERIOUS BLAZE.

THOMAS GARRITY'S HOUSE GUTTED BY FIRE THIS MORNING.

Flames Started in Clothing on the Lounge in the Dining Room—Passing Wheelman Sent in Alarm from Box 34.

Second Assistant Chief Andrew Jennings fought his first fire this morning in his capacity as chief. It was a good-sized blaze, too, the whole interior of Thomas Garrity's house, 537 West Fifth street, being gutted. The loss on the house is $1,000, on the household furniture $800.

The fire started in the dining room, among some clothes of the husband's which lay on a lounge. Mrs. Garrity was in the attic at the time, and no one was in the dining room except one of the children, a little boy. Mrs. Garrity was called from her work by the boy who screamed upstairs that the house was on fire. The dining room was filled with smoke, and on the lounge was a heap of blazing clothes.

Mrs. Garrity saw it was too late to do anything herself, so she ran out in the street looking for some one by whom to send the alarm. A man passing on a wheel heard her, and rode to Dr. VanHorn's, got the key, and pulled Box 34.

Prior to this some one had telephoned to fire headquarters and Chief Jennings was on his way to the fire with No. 2 hose wagon. Lines of hose were laid and water turned on. The fire had reached such headway that the parlor furniture only could be saved. A bank book and a few articles of wearing apparel were carried out of the flames from a bedroom, but everything else was left until the fire had been put out, then they were either burned up or soaked with water.

Mrs. Garrity says that in her husband's overcoat, on the lounge, were matches, and she thinks that the little boy was playing with them, and in this way started the blaze. The Garrity's were burned out two summers ago, in one of the houses in Hetfield's row, but the loss then was very slight. The house formerly belonged to the Stelle estate, but was sold about a month ago to a Mr. Marsh.

BOROUGH SCHOOL OPEN.

Members of Board of Education Addressed the Pupils.

The Borough Public High School reopened this morning for the fall and winter term with exceedingly bright prospects. All of the teachers were present and most of the school commissioners. Addresses of congratulation were made by President S. St. John McCutchen, of the Board of Education, and Prof. Wightman, superintendent of the school. Both officials were loud in their praise of last year's work, and they assured all of greater progress for the coming year. Mr. McCutchen spoke especially regarding the commercial course in the school curriculum and urged all who desired to make application at once for instruction.

The morning exercises were opened by the singing of "America," which was given with enthusiasm. The school looks very bright and cheerful, thanks to the efforts of Janitor McDonald.

The school, as usual, is in an overcrowded condition, and the increase in enrollment is large. In some grades half sessions will be held so that all can be accommodated. In several of the higher grades the same condition exists.

"AT PINEY RIDGE" TONIGHT.

Amusement Patrons' Chance to Witness a Very Fine Performance.

"At Piney Ridge," of which John Daly is advance agent, appears in Music Hall this evening. It is the first high-class peformance to be seen there this year. The company appeared in Trenton last night, and the *True American*, of that city, this morning accords them high praise. It says: "The audience that gathered in Taylor Opera House last evening lacked only in size in its appreciation of a very artistic presentation of David Higgins' romantic drama of life in the south, 'At Piney Ridge.' The play tell a story of life in the Tennessee mountains and is written in a very attractive style. Mr. Higgins, the author of the play, in the part of Jack Rose, gave a very true-to-life picture of the Tennessee mountaineer. He brought out the droll humor and inborn generosity and honor of the southern gentleman, together with the picturesque twang of the negro dialect so common to southerners, in a very natural way. The cast was a large one and evenly balanced. The play was put on with special and unusually effective scenery." Music Hall should be filled this evening.

WHOLE FAMILY IS POISONED BY FISH.

Spanish Mackerel Was the Cause of the Illness.

FACES TERRIBLY SWOLLEN.

THE AFFLICTED ONES WERE FOUND BY AN EARLY CALLER.

Captain David M. Perry and Family Ate Spanish Mackerel for Supper and Were Taken Severely Ill During the Night—Doctors Worked Over the Patients Nearly All Day With Success.

(Special to The Daily Press.)

Bound Brook, Sept. 13—Former Mayor C. Howard Perry went to the house of his son, Captain David M. Perry, on Maple avenue, yesterday morning to visit. There was a strange silence around the house, and no one answered his ring at the front doorbell. Mr. Perry was puzzled.

After waiting several minutes he went around to the rear yard and effected an entrance to the house by a back door that he found unlocked. There was no one moving inside, and Mr. Perry, with a suspicion that something terrible had happened, rushed up stairs to the room of his son and daughter-in-law.

They were both in bed, too ill to stir hand or foot, let alone rise. Their faces were so swollen that they were scarcely recognizable.

Mr. Perry knelt beside his son and asked what had happened. Capt. Perry managed to say that he and his wife and their two children had eaten Spanish mackerel and that they had been poisoned.

In the room, in a condition almost as bad as their father and mother, Mr. Perry found his grandchildren in bed, their little faces swollen, and crying with pain.

Mr. Perry rushed out of the house and to the office of the nearest physicians, Drs. Fisher and Wild. He found both of them in and hastened back with them to the house.

They worked over the captain and Mrs. Perry and the two children for an hour and a half before there was any sign of improvement. Then a drug they gave began to reduce the swelling in their faces and to alleviate somewhat their suffering.

Powerful emetics were given them without effect for several hours, and it was not until late in the afternoon that the family was considered out of danger.

Drs. Fisher and Wild remained in constant attendance at the house.

The case of the children responded most readily to treatment and they were able to be around the house in the afternoon. Captain and Mrs. Perry were so weak that they could scarcely stand.

Captain Perry said the family had partaken of the fish Sunday evening and during the night they were attacked by sickness.

He refused to say where he had bought the mackerel, but it was learned that it was from a leading grocer.

NEW ENDEAVOR LIFE.

Committees Named in the Trinity Reformed Church Society.

The business meeting of the Endeavor Society of Trinity Reformed church last evening gave evidence of a new life to the society. Two young men present were received as members by a rising vote of those present and a report of the lookout committee was read by the chairman that had a very helpful tone to it. Remarks and prayers were made by several and a genuine desire for greater earnestness in the work of the Master seemed to pervade all present.

Before adjournment President Martin appointed a nominating committee to nominate officers for the ensuing year as follows: Miss E. C. Benedict, Messrs. F. E. Smith, A. K. Willett, H. E. Gayle and Miss Mabel Woodruff. At the same time he appointed a committee on "Anniversary Day," which occurs in the week of October 3d to 8th, as follows: Miss Mabel Wilson, Mrs. F. C. Adams, Mrs. J. M. Tier, and Messrs. Henry Seader and Edgar Sheppard.

—George Kirch, of the borough, will open a grocery store on the corner of Liberty and West Fourth streets about October 1st. His son, Phillip, of Park avenue, will go in partnership with him.

—Neuman Bros., the popular Watchung avenue grocers, made a bold stroke yesterday when they bought 325 baskets of fine canning peaches. Before noon today they had sold 200 baskets. Tomorrow they will have another shipment of 200 baskets, same quality fruit.

JUDGE M'CORMICK COMMITS SUICIDE.

Found With a Bullet Hole in His Head This Noon.

CEMETERY FOR DEATH SPOT

ELIZABETH STARTLED WITH SUDDEN AND SAD NEWS.

No Reason is Assigned for the Voluntary Act of Taking His Life, as He Seemed to Be in an Apparently Happy Frame of Mind—He Had Been in Comparative Retirement Since He Left the Judgeship

(Special to The Daily Press.)

Elizabeth, September 13.—Former Judge T. F. McCormick committed suicide this morning in an insolated part of St. Mary's cemetery on Washington avenue. When the deed was discovered the body of the Judge was prostrate on the ground, the right hand tightly clutching a revolver with one chamber empty. The act of killing himself showed itself to have been a deliberate attempt on the part of the victim to end his existence.

The lifeless body was found by a man by the name of Kernan, a gardener, who was passing through the cemetery about the noon hour. He recognized the remains as those of the former judge. The city authorities were hurriedly notified. The remains were removed to the city morgue where the coroner will hold an inquest into the death.

Judge McCormick arose this morning in an apparent happy frame of mind and left his home on Westfield avenue at the usual time. Between 10 and 11 o'clock he was seen going towards St. Mary's cemetery. Some time after that a pistol shot was heard by residents in that neighborhood, but as such a sound is not an infrequent thing in the vicinity nothing suspicious was thought of it.

Since his retirement from the bench of the Union county court, the first of the year, Judge McCormick has been living in comparative retirement. He resumed his practice of law, and was gradually gaining the business which had dropped away while he occupied a seat on the bench. He seemed to be prosperous and satisfied with his lot in life. No act or mood of his ever indicated that his mind thought of suicide.

The news of the suicide spread rapidly over the city and caused a profound sense of bereavement among all classes of citizens.

Judge McCormick was born in Elizabeth in 1844 and worked himself up from a poor boy to one of the leading citizens of the State. He leaves a widow and eight children.

BIRDSEYE VIEW OF PLAINFIELD.

It Shows Distinctly Every Building in City and Borough.

Landis & Hughes, makers and publishers of birdseye view maps, have just finished a birdseye view of Plainfield and North Plainfield, which is a wonderful peice of work in detail. It shows every building within the borough and city limits, as well as the general shape of the building. The map is of great value. C. S. Bradley, representing the firm, is in town making a canvass among the business men endeavoring to secure sufficient local patronage to produce a number of the maps.

Contract for Heating Apparatus.

The Borough Board of Education held a meeting last evening and gave out the heating and ventilating contract for the new public school to the Wolfe Heating and Ventilating Company, of Boston. The contract price is between $1,800 and $1,900. The system to be used is hot air and is considered to be just the thing for the building of the proposed size. For a week past work on the building was temporarily stopped, owing to the failure of the Board to award this last contract, but work was again resumed today.

Private Keuhnle Invited to Talk.

Private Fred Keuhnle of Co., D, Seventy-first Reg. N. G., N. Y., who spoke at the Y. M. C. A. Hall Sunday afternoon, August 7th, has been invited to be present and address the Young People's Endeavor Society of Trinity Reformed church next Monday evening by the temperance and good citizenship committee of the society, and it is hoped that he will be able to be present.

ON A PLEASURE TRIP, DIED FAR FROM HOME.

E. E. Marshall Succumbs To Operation for Appendicitis.

A PARTICULARLY SAD DEATH

HAD GONE TO NIAGARA FALLS TO ENJOY A LITTLE RECREATION.

Left Plainfield a Week Ago Last Saturday and on His Arrival at the Falls was Compelled to Enter a Hospital to Submit to an Operation—Has Been Hovering Between Life and Death.

(Special to The Daily Press.)

Niagara Falls, Sept. 13—The death of Edgar E. Marshall, of Plainfield, occurred last evening at 9:15 o'clock at the Memorial Hospital, the result of an operation performed a few days ago for appendicitis by Dr. W. R. Campbell, assisted by the hospital staff.

The sad news of Mr. Marshall's death reached this city early this morning by telegram and was delivered to Mrs. Coombs, mother of Mrs. Marshall, who resides on Fairview avenue, in the borough. It soon spread all over the city and was a great shock to the many friends and acquaintances of Mr. Marshall, who did not know fully of his serious illness.

The circumstances attending Mr. Marshall's death are of a particularly sad nature. For sometime past he had not been feeling in the best of health, but he thought little of it. A week ago last Saturday morning he was at his place of business on North avenue, and felt especially bad. He left the store, telling Miss Graves that if anybody inquired for him to tell them that he had gone home ill. He then went to the North Avenue station and purchased two tickets for Niagara Falls, after which he went home. When he entered the house he took the tickets from his pocket and showed them to his wife.

It had always been Mrs. Marshall's desire to go to Niagara Falls, and she was delighted with the prospect of the trip. During the remainder of the day Mr. Marshall continued to feel ill. That evening he and his wife left the city. The trip to the Falls was rather tedious.

When they arrived at Niagara Falls Mr. Marshall was feeling so much worse that it was deemed best to call a physician. The physician pronounced Mr. Marshall a victim of appendicitis, and stated that unless an operation was performed he would not live six hours. He also told Mrs. Marshall that her husband's heart was exceedingly weak and that there were chances of his not surviving from the operation.

However, it was decided to have the operation and Mr. Marshall was taken to Memorial Hospital at once and arrangements were made for the operation.

Mr. Marshall stood the operation fairly well, but from that time his recovery seemed to be doubtful. He had two sinking spells, and the third spell which he had last evening proved fatal.

Manager Charles W. Runyon, of the local telephone company, an intimate friend of the family, telephoned several times to Niagara Falls yesterday and last evening, but no word of encouragement was received. Yesterday afternoon a report was current that Mr. Marshall was dead, but this was untrue. Last evening Mr. Runyon called Dr. Campbell by telephone, and learned that there was no change. Soon afterward Mr. Marshall died.

From the start Mrs. Marshall has remained with her husband and did not leave his bedside once. It is said that Mr. Marshall's fathers and sisters from St. Louis were with him during his last hours.

Mr. Marshall was a resident of Plainfield for seven years. He first came here in the employ of VanSciver, dealer in wall papers, on North avenue, and he worked for him until he bought the business. He occupied a store in the Mulford building. He was popular among a large host of friends. Two years ago he built a house for himself on Fairview avenue, and only recently he had started another new house on Verdon avenue, which he proposed to rent.

About six years ago he was married to Miss Leah Coombs, of Brooklyn, who was at that time a resident of this city.

Mr. Marshall was a native of St. Louis. He was energetic, and ambitious and was held in high esteem by both his business associates and his social friends.

—Mrs. K. H. Marsh has resumed her business for the fall and winter season.

CAMP WIKOFF REPORT

A Thorough Inspection Fails to Reveal Serious Conditions.

TROOPS DO NOT COMPLAIN

The Inspection Conducted by Col. Smart. Injudicious Furloughs Checked. The Favorable Site of the Camp. Reports of Bad Management and Poor Food Grossly Exaggerated.

Washington, Sept. 13.—Colonel Chas. Smart, of the medical department of the army, has just handed to Surgeon General Sternberg the written report of his inspection of Montauk Point. He has also submitted to General Shafter a report on the same subject.

In the report to General Sternberg Dr. Smart says that the first thing which arrested his attention was the utter prostration of some of the men furloughed at the intervention of friends who desired to remove them to their homes.

No doubt much pressure was brought to bear upon surgeons charged with the duty of furloughing by the injudicious entreaties of the sick men and their relatives, but it appeared to Dr. Smart that much greater care should have been exercised in authorizing the departure of certain of these men on a journey which necessarily involved much fatigue.

The instructions of the war department forbidding the furloughing of men unable to take care of themselves appeared to remedy this evil.

The site of the camp, Colonel Smart says, is excellent, on a firm, compact and well drained grassy soil. The camps are in excellent condition, the streets and inter-regimental areas perfectly clean, all garbage buried except some of the refuse which is more conveniently burned. The kitchens of all the commands are under tent flies, all utensils are clean and wastes put under ground.

No suggestion of a complaint as to the character of the food supply could be elicited in any of the regiments. Ice, milk, eggs, fruit, etc., appeared to be abundant in every camp.

The sick list in each of the commands is large, and Dr. Smart's record shows that of a total force of 12,851 at Montauk, when he was there, 2,085 were sick, many of them requiring hospital care. The cases of sickness in the regiments consist mainly of malarial debility, recurring febrile attacks and diarrhoeal troubles.

No case of typhoid was reported as having originated in the present camps. Such cases as have occurred, Dr. Smart thinks, must have been incurred at Santiago or on shipboard.

Dr. Smart found that thte troops were living better than ever before and that the regulars did not complain at the conditions. He found that on one day, as an example of the sufficiency of food, one company of regulars received eight hundred eggs as its allotment, or thirteen eggs per man. The officers said that the newspaper accounts of bad arrangement at Montauk were for the most part grossly exaggerated.

Preparing to Depart.

Washington, Sept. 13.—Secretary of State Day arrived in Washington from his home at Canton yesterday. As soon as he had breakfasted he went to the White House, where he had a long conference with the president, which is presumed to have had special reference to the nature of the instructions to be given to the peace commissioners. Nothing has been heard at the state department recently from the other members of the commission, and it is uncertain whether there will be a majority of the body here to-day to hold even the informal meeting which is desired in order to arrange for the departure of the commission on the 17th instant.

Mr. McArthur has just returned to Washington from New York, where he completed all the arrangements for the trip, and it is now settled that the American commissioners will take passage on the Campania, leaving New York next Saturday.

It is not expected that the instructions to be given to the members of the commission will be made public, as in view of the department the commissioners will be placed at a considerable disadvantage in conducting their negotiations were their case made known fully in advance.

Spain's Protest Answered.

Madrid, Sept. 13.—The French ambassador at Washington, M. Cambon, who has been acting for Spain in the peace negotiations, has cabled to the government here the American reply to thte Spanish note protesting against the hostilities upon the part of the insurgents in the Philippine islands, in spite of the peace protocol. The United States promises to send envoys to induce the Tagals to respect the suspension of hostilities and to prevent vessels leaving Manila with insurgents having the intention of propagating the insurrection in other islands.

Judge Cooley Dead.

Ann Arbor, Mich., Sept. 13.—Judge Thomas M. Cooley, the noted jurist and constitutional lawyer, died yesterday at his home. Three months ago he returned from a private sanitarium at Flint, Mich., where he had been treated for mental weakness. He was then so much improved in mental health that he was able to recognize acquaintances.

The Paris Exposition.

Paris, Sept. 13.—Mr. Ferdinand W. Peck, the United States commissioner to the Paris exposition of 1900, with his family and staff, has taken up his quarters at the Continental hotel until he can find suitable offices. He called upon the French minister for foreign affairs, M. Delcasse, and other French officials, yesterday.

A New Southern Steel Plant.

Chicago, Sept. 13.—A story comes from Ensley City, Ala., that John W. Gates in connection with other Chicago and Cleveland capitalists, will build a $2,000,000 steel plant there. Col. Elwood, who is closely identified with the Illinois Steel Company and the American Steel and Wire Company.

TROOPS TO LEAVE MONTAUK

All the Commands Will Reach New York Next Saturday.

Montauk, L. I., Sept. 13.—In accordance with imperative orders received from Washington, every effort will be made to get all the troops, both sick and well, away from Montauk by the end of the week. Both transports and the Long Island Railroad will be used to transfer the troops to the city.

The wires between the camp and the war department at Washington and Colonel Kimball's headquarters in New York are being kept hot with messages pertaining to thte movement of troops from Montauk.

General Shafter is expected to return to take charge of the arrangements for transporting the troops.

The sick soldiers continue to be moved from the hospitals here at the rate of about 400 per day.

Many of the convalescents were sent through by train to-day.

There is a general bustle about the camps of the regulars and on all sides there are evidences of preparations being made to get away from camp.

By the Long Island Railroad and the transports together it is expected the 15,000 troops now in camp will be landed in New York by Saturday morning.

Maine State Election.

Augusta, Me., Sept. 13.—The election in Maine passed off very quietly yesterday, a small total vote being thrown, the smallest for twenty-five years, but the citizens of Maine have sustained the national and state administrations with the largest majority given in the last twenty-five years, with two exceptions, 1894 and 1896.

People should remember that for the first time in the history of the Republican party not a single document has been issued or a single speech has been made, excepting those delivered by the Democratic candidates for governor and for Congress in the First district.

The Republicans have carried every county in the state, elected every state senator, and the Democrats will not elect over 15 members of the House out of 151.

Portland, Me., Sept. 13.—The full Republican ticket elected is as follows:

Governor—Llewellyn Powers of Houlton.

CONGRESSMEN.

First District—Thomas B. Reed of Portland.

Second District—Nelson Dingley of Lewiston.

Third District—Edwin C. Burleigh of Augusta.

Fourth District—Charles A. Boutelle of Bangor.

Sickness in Porto Rico.

Ponce, Island of Porto Rico, Sept. 13.—The United States army surgeons here believe there has been a genuine case of yellow fever at this camp. Chas. Miner, a private of the Nineteenth infantry, died on Friday and the symptoms pointed to yellow fever. It was not until the autopsy was held that the surgeons pronounced it yellow fever.

General Henry's report, made to Gen. Brooke on the condition of the troops on the south side of the island, shows there are 1,553 sick out of a total of 11,000, the highest percentage yet recorded.

Santiago is now filled with Cuban soldiers from General Castillo's command. One result is a large number of gala parties at the various clubs.

Crisis Near at Manila.

Manila, Sept. 13.—Rear Admiral Dewey says he considers the situation critical. It is understood that he has asked for an additional cruiser and a battleship.

The Spaniards assert that Germany will take a coaling station here and that Spain will retain the remainder of the islands.

The last Spanish garrisons at Ilocos and Laguna have surrendered, and the whole of the island of Luzon except Manila and Cavite is in the hands of thte insurgents.

Aguinaldo went to Malolos on Friday. He has announced his intention of convening an assembly of the Filipinos on September 15, in order to decide on the policy to be adopted by the insurgents.

Says Wilhelmina Was Attacked.

London, Sept. 13.—The Evening News persists in the assertion that an attempt was actually made upon the life of Queen Wilhelmina of the Netherlands a few days previous to her coronation.

The queen, according to the story, was riding on an unfrequented road when three shots were fired at her. The shots missed her, but one struck the Countess Limburg-Stirum, shattering her arm. The queen pledged everybody to secrecy concerning the affair. It is not known whether or not the assailant has been captured.

Maria Teresa Will be Saved.

Santiago de Cuba, Sept. 13.—The work of floating the Infanta Maria Teresa is nearly complete, but the Almirante Oquendo is not worth the cost of saving.

Sunday was observed for the first time since the war terminated as a day of rest and worship. All the military and civil offices were closed, as were also the shops, and the city's appearance was unusually quiet. Religious services were held at the palace and General Lawton, General Wood and other American officers attended.

Turkish Troops Must Go.

Canea, Crete, Sept. 13.—The foreign admirals have resolved, in consequence of the disturbances in Candia, that the Ottoman troops must withdraw from the island of Crete at once.

Constantinople, Sept. 13.—The Porte has abandoned its intention of addressing a circular upon the recent events in Candia to the representatives of the governments at London, Paris, St. Petersburg and Rome.

Spaniards' Great Victory.

Madrid, Sept. 13.—The government has received a telegram from Iloilo saying that a Spanish gunboat squadron has sunk an insurgent flotilla coming to incite rebellion in provinces loyal to Spain, killing many of the leaders and the larger part of the troops which intended to land.

A PARADE ABANDONED

The Soldiers Will Not March in New York Next Saturday.

CORBIN CARRIES HIS POINT

Decision Reached After a Long Conference at the White House. Expense Would be Very Great and Many of the Troops Are Unfit for the Fatigue a Long March Would Entail.

Washington, Sept. 13.—There will be no parade of troops in New York next Saturday. All plans providing for a parade were declared off yesterday and a telegram embodying the decision of the president and the war department was sent to Mayor Van Wyck shortly after 2 o'clock.

This decision was reached after a long conference between the president, Acting Secretary Meikeljohn and Adjutant General Corbin.

Mr. Meikeljohn and General Corbin were at the White House for three-quarters of an hour and the matter was thoroughly discussed. Before visiting the president a brief conference was held with General Miles.

The decision to have no parade in New York was reached as a direct result of the efforts of General Corbin, who was opposed to the scheme ever since the matter was taken up by General Miles.

General Miles secured the consent of the president Saturday afternoon and so announced to members of the press.

The adjutant general declared yesterday that the plans for a parade, if there ever were any, would not be carried out. He opposed the project strenuously and talked the matter over with General Shafter and with tht prsident.

At the conference with the president he used every argument possible to prevent the carrying out of the orders issued by General Miles to the depot quartermaster in New York. He said that the expense would be very grat and that many of the men were in no condition to parade the streets. It was believed yesterday that the president would not overrule the commanding general of the army in the matter, but the decision to do so was arrived at reluctantly after the conference at the White House.

PEACE COMMISSION PLANS

Members Will Receive McKinley's Instructions Thursday.

Washington, Sept. 13.—The return of Secretary Day to Washington has caused renewed interest and activity concerning the peace commission, of which he will be the leading member. After an interview with the president Mr. Day returned to the state department, and for several hours was in close consultation with Assistant Secretary Moore, who will resign his present place to become secretary of the peace commission.

It was arranged between the president and Secretary Day at their interview that the peace commissioners should meet the president on Thursday to obtain from him an idea of the scope of the work before them, and to consult on theg rave problem of the future of the Philippines. The commissioners will sail from New York for Europe on Saturday.

At the regular meeting of the cabinet to-day the Philippine situation will be discussed, and the president hopes definitely to decide, after hearing the views of his advisers, on the policy that will be pursued in the matter.

The importance of the meeting may be understood from the fact that telegrams were sent to Secretaries Long and Bliss requesting their attendance.

Will be an Investigation.

Washington, Sept. 13.—The disappointing responses received by the president from several of the men who were asked to accept places on the proposed commission to investigate the administration of the war department in the war with Spain, have not resulted in a decision to abandon the inquiry.

On the contrary President McKinley is more than ever determined that the investigation shall take place.

He feels that any failure to push it to the depths would result in accusations of bad faith against the government by the people of the country, and he is anxious to show everybody concerned that the fullest and freest kind of an inquiry will be made.

It is now likely that not more than five of the nine men asked to serve will accept, and other men of standing will therefore be asked to become members of the commission, as the president is sai dto desire at least seven commissioners.

A Big Silver Combine.

Meriden, Conn., Sept. 13.—Stockholders of four silverware manufacturing concerns, with a capital aggregating $1,850,000, have received notices to the effect that the International Silver Company, a corporation with a capital stock of $30,000,000, has made an offer for the stock of the local concerns.

The receipts of these notices marks an advanced step in a play looking toward the combination under this one head of nearly twenty of the largest silver and silver plated ware manufacturing concerns in the country. It is estimated that the concerns which have been approached manufacture 75 per cent. of the silverware produced in this country.

Barbadoes Governor Threatened.

Kingston, Jamaica, Sept. 13.—Information received here from Barbadoes says that Sir J. S. Hay, the governor of that island, has received an anonymous letter, which threatens that he and five other officers of the island will meet the same fate as Speaker Pile of the Barbadoes Legislature, who was recently assassinated by a negro.

Roosevelt Makes a Report.

Camp Wikoff, Montauk Point, Sept. 13.—Colonel Roosevelt has sent to Washington, at the request of the president, a report of the campaign treating of the mismanagement of the commissary, transportation and hospital departments, suplemented by reports from his captains on the same subject.

YOU'RE READING THIS?

CERTAINLY!

Well, Mr. Merchant-who-thinks-of-advertising, this is only one of the many corners in THE DAILY PRESS—it isn't the best located one, either; we can give you better—and if this attracts your attention in our endeavor to tell you how good advertising will get you a hearing before the purchasing public, doesn't common sense teach you that if you were having people reading your trade story instead of you're reading our argument about it, that it would be better for your business.

THE DAILY PRESS reaches the purchasing public that makes the profits for the merchant.

We can give you big or little space—but in advertising it is'nt always economy to be sparing in your appropriation.

Our 14th Annual Clothing Sale,

for July and August has commenced, and for the next two months we will sell all of our summer stock at just ½ price. It will pay you to call and get our prices before purchasing elswhere.

Men's and Boys' Suits, Bicycle Suits, Extra Bicycle Pants, Hats and Gents' Furnishing Goods

must be closed out, as we carry nothing over. We have about 100 pairs of those English Tweed pants left, which we still sell at the low figure of 98c the pair, so if you need pants, now is the time to catch on. All goods sold as advertised.

THE EMPRESS'S ASSASSINATION

Wound Revealed by the Autopsy to have Pierced the Heart.

Geneva, Switzerland, Sept. 13.—The post mortem examination of the body of the late empress of Austria, who was assassinated on Saturday last by an Italian Anarchist, whose name has been variously given as Laccheni, Luchesi and Luigini, has revealed that the weapon completely transfixed the heart, penetrating three and one-third inches, and making a wound one-sixth of an inch wide. The fact that the empress walked fifty yards to the steamer is ascribed to her remarkable will power.

The body has been enclosed in a triple coffin and placed in a room transformed into a mortuary chamber The walls of this apartment are veiled with black drapery covered with silver stars, and several sisters of charity are continually on their knees beside the bier, praying for the soul of the departed. Near by stands the prayer table of the empress, bearing her rosary and crucifix.

The imposing demonstration of sympathy organized by the Federal Council began at noon to-day. The approaches to the Hotel Beauriage were guarded by gendarmes. The procession was headed with gendarmes with arms reversed. Then came four beadles, with cocked hats and long cloaks, half yellow and half red. Their leader wore a crape covered mace. They were followed by the members of the government, the members of parliament, the diplomatic corps, and the civic dignitaries.

Then came a great mass of the population of Geneva. In close ranks the people defiled bare headed before the hotel, in spite of the very hot sun. In the meantime the bell of the Cathedral of St. Clemence clanged heavily.

The procession lasted for more than an hour. All eyes were directed towards the terrace of the hotel, where stood General Berzoviczy, marshal of the late empress's household; the Austrian minister, and the members of the suite of the deceased. The majority of the stores were closed.

A NEW ARMY HOSPITAL

One Suitable for Winter Use at Fort Monroe.

Washington Sept. 13.—Surgeon Sternberg has furnished some interesting details of the plans of the war department, referred to by Secretary Alger, for the establishment of two large well equipped winter hospitals for the troops. He said that, without attracting much attention, the medical department had for some time been at work erecting such a hospital on the government reservation at Fort Monroe, and he was pleased to be able to announce that Lieutenant Colonel Woodhull, the surgeon in charge, had reported that the hospital would be ready for the reception of troops next Friday.

There is already at the fort a tent hospital in excellent shape, capable of accommodating 500 patients. The new hospital will be in addition to this, will be constructed of lumber, after the style of regular barracks, and will contain 1,0000 beds. It is intended for the reception of sick soldiers returning from Porto Rico.

Looking ahead to the possibility of an extended occupancy of Cuban ports by the United States army with the resulting requirements upon the medical department for the care of the sick soldiers, Surgeon General Sternberg is planning for another hospital on an even larger scale at some of the southern ports below Fort Monroe and more accessible from Cuba.

He has appointed a medical board to make an inspection of the available places, and the impression prevails that the hospital will be located either at Charleston or Savannah. The hospital ships Resolute and Missouri are under orders to prepare immediately for a return trip to Porto Rico to bring back any sick soldiers requiring home treatment.

Cost of the War to Spain.

Washington, Sept. 13.—Aside from the loss of her colonies, and the ships destroyed in battle, the war has cost Spain about $375,000,000, according to information received at the navy department from the naval attaches of this government abroad. Including the cost of preparation begun by Spain in May, 1895, in anticipation of the war, these sums have been raised and expended:

From the sale of 322,944 Cuban notes, $25,242,255; from the sale of 60,000 Cuban notes of 1896, $5,784,897; loan of 400,000,000 pesetas on the customs guarantee, $74,400,000; from the sale of silver, $866,338; loan of the Bank of Spain on the Cuban guarantees, $58,400,000; loan of the Bank of Spain on the customs guarantee, $48,200,000; loan of the Bank of Spain on guarantee of contributions, $32,000,000; loan of the Bank of Spain, 4 per cent. interest debt, $29,000,000; Philippine taxes, $37,000,000.

Killed in a Riot.

New Orleans, Sept. 13.—The steamer Olympia has arrived here from Puerto Cortez, and brings news of serious rioting in Guatemala during the recent elections, in which it is said that three hundred were killed and wounded. The story of the rioting was brought from Puerto Barrios to Puerto Cortez by a trading schooner, whose captain says the facts were kept from the wires by the government censorship.

Although Prospero Morales died after his capture in a cave by the government forces, his followers were ill contented to submit to the election of President Estrada, and, although in no shape to make a strong fight in the balloting, gathered in force at the polls and when the disorders became extensive the order to fire was given.

The Burning of Jerome, Arizona.

Prescott, Ariz., Sept. 13.—Th property loss at Jerome, near here, which was completely destroyed by fire Sunday morning, will reach fully $1,000,000. Eleven bodies have so far been recovered, while a score or more are said to be in the ruins or missing. The fire originated in a cabin and spread rapidly. The fire was confined exclusively to the business part of the town.

Col. du Paty de Clam Dismissed.

Paris, Sept. 13.—It is officially announced that Colonel du Paty de Clam has been placed on the inactive list and dismissed from his post, in consequence of the general staff's investigation into the Esterhazy case.

NO INQUIRY COURT YET

Three Prominent Men Decline to Serve on Commission.

NO PROVISION FOR PAYING

Extra Military Commission Is Not Provided for by Any Law Now on the Books. Clerks Will Not Be Disposed to Testify Against Their Superiors.

Washington, Sept. 13.—The president has not yet succeeded in filling the military commission to investigate the conduct of the war. The refusal of General Gordon, former secretary Lamont and Mr. Lincoln to serve, has caused some embarrassment. The president considered these men specially desirable, and up to this time has not found men to replace them.

Several names have been sugegsted. These the president has taken under consideration. In the absence of orders of an official nature, regarding the work of the commission, the investigation is the subject of much gossip among army officers. An officer with whom an interview was had yesterday expressed the opinion that the commission would not have the requisite power to make inquiry as thorough as the president desired. He said that it would not have the power to compel the attendance of many desirable witnesses.

He predicted that clerks in the various bureaus of the war department would testify with great reluctance regarding the work of their superior officers.

The compensation of those who serve on the commission and its general expenses is another important matter. How can this be taken from the appropriations for "war purposes" is not clear, and the officer says that this cannot be done.

As far as can be learned it is the intention to have the commission sit in Washington with power to visit any and all places it may deem necessary and to send for persons and papers.

Expenses of this kind must be provided for, but no law can be found governing the case. Should the commission be a purely military one, appointed to investigate the administration of the affairs of the army, the case would be different.

These are some of the points which are being raised in army circles. Others will follow.

The Cuban Commission.

Havana, Sept. 13.—The United States Cuban evacuation commissioners held no meeting yesterday. At 8 o'clock General Butler, two members of his staff and a doctor, landed at La Machina wharf and went for a carriage ride through the streets of Havana, taking photographs of the public buildings, etc.

At 9.15 a. m., Colonel Clous, accompanied by Colonel Hart, the interpreter, visited Senor Montero, the secretary of the treasury, bearing a sealed communication, understood to refer to the next meeting of the commissioners and other details. For the present, communications between the commissions are exchanged in writing.

The United States commissioners have not engaged rooms ashore. They are remaining on board the Resolute.

Secretary Day's Resignation.

Washington, Sept. 13.—Judge Day has handed his resignation as secretary of state to the president. The name of Ambassador Hay's successor is not yet announced, and as far as can be ascertained at the department of state, no person has yet been chosen to succeed Senator Gray on the Canadian commission. There is a growing notion that this vacancy will not be filled, as the commission has proceeded so far with its work that one member more or less will not affect the result.

Dreyfus Case Postponed.

Paris, Sept. 13.—Two cabinet meetings have considered the question of a revision of the Dreyfus case, and the cabinet has adjourned until Saturday at the request of the minister of justice, M. Sarrien, who is desirous of more time to consider the matter.

President Faure retired Colonel Du Paty de Clam at the suggestion of the minister for war, General Zurlinden.

The court has refused to release former Colonel Picquart pending a rehearing of the case against him.

Aguinaldo's Commissioners.

San Francisco, Sept. 13.—News has been received that Aguinaldo's three commissioners to the American Paris commission have started from Hong Kong and will arrive in San Francisco on September 30 on the steamer Gaelic.

These men are native Filipinos, who have been appointed by the insurgent dictator with the permission of the American commander at Manila. They will argue for the independence of the Philippines.

Discussing the Dreyfus Case.

Paris, Sept. 13.—The cabinet council held a session yesterday which lasted until 12.30 p. m. The ministers carried on a very lively debate until the adjournment. The sitting was to be resumed at 2.3 p. m.

The report that General Zurlinden has resigned is spreading. It is said that at the evening session of the cabinet the ministers will decide the question of General Zurlinden's successor, and also that of revision of the Dreyfus case.

Canadian Immigrants' Effects.

Montreal, Sept. 13.—The value of settlers' effects imported into the Dominion of Canada for the fiscal year ending June 30, 1898, make a total of $2,826,000, which is $500,000 in excess of the value of those of the previous year and $700,000 in excess of the amount in 1896.

Warships Going to Hampton Roads.

Norfolk, Va., Sept. 13.—It is stated here that all of the big warships now at New York will assemble in Hampton Roads by October 1, and participate in the ceremonies attendant on the launching of the battleship Illinois at Newport News on October 5.

THE OREGON AND IOWA

To Be Accompanied by Colliers on Their Long Cruise.

Washington, Sept. 13.—The navy department is shifting some of the officers of the battleships Oregon and Iowa preparatory to their departure from New York on their long cruise to San Francisco, by way of the straits of Magellan.

The department has just selected from among the fleet of colliers acquired during the war, four of the best and largest to accompany the battleships on their long run. These are the Cassius, the Scandia, the Alexander and the Aberendia, and their coal capacity is sufficient to insure a full supply for the big battleships as well as for themselves, without subjecting the fleet to the danger of refusal of any of the South American republics to allow them to take on coal, on account of the technical existence of the state of war between the United States and Spain.

No attempt is to be made to drive the big ships so as to equal the famous run of the Oregon coming eastward, the need for the ships on the Pacific side not being so pressing as to warrant incurring the risk of injuring the boilers or machinery by keeping up full speed.

It is expected that the battleships, with their colliers, will be able to start from New York about the end of this month.

It is now known, although no official instructions have yet been received in the Brooklyn navy yard, that the battleships Iowa and Oregon are to go to Honolulu as soon as the repairs to both vessels are completed, and are there to await orders in case there is any trouble in the Philippines which might require their presence there.

THE PRISONERS RETURN

Sailing of Admiral Cervera's Men on the City of Rome.

Portsmouth, N. H., Sept. 13.—Most of the Spanish sailors and marines who survived the destruction of Admiral Cervera's fleet were taken from Seavey's island yesterday morning to the steamship City of Rome, which has been chartered to take the admiral and his officers and men to their native country. The work of transporting the prisoners began at 5.45 o'clock, and at nine o'clock all were on board. The arrangements necessary for the comfort of the men during the voyage were hurried as much as possible.

Admiral Cervera, with his son Angel, made farewell visits to the officers of the navy yard at nine o'clock, and afterwards boarded the City of Rome. On the way to the boat the admiral spoke enthusiastically to those who accompanied him of the treatment the Americans had accorded to the Spanish prisoners, to his staff and to himself. He recounted the many courtesies he had received at Portsmouth, Annapolis, Norfolk, New York and Washington.

He was most favorably impressed with the American people, and said he would carry home with him many happy recollections of the kindness and generosity of those high in official circles as well as of citizens in every walk of life.

These sentiments were heartily endorsed by his son, Lieutenant Angel Cervera, and the other officers of his staff.

The City of Rome sailed at 12.15 p. m. She will go to Santander, a port in northern Spain. Of the more than 1,706 Spaniards on board, 1,668 were from the prison on Seavey's island.

Unusual Cold at Mt. Washington.

Mt. Washington, N. H., Sept. 13.—The cold wave from the West reached Mt. Washington within twenty-four hours after it was reported in Montana and on Sunday morning the temperature was down to 27 degrees above zero. Monday morning it fell to 21 degrees. Ice in the water barrels formed an inch thick, and the highest summits are covered with a remarkably fine frost formation unusual at this time of year.

The atmosphere is clearer than it has been at any time this season, with the Maine coast lines visible from a point beyond the mouth of the Penobscot to the Isles of Shoals.

Sailing vessels are visible off Portland, more than seventy miles from Mt. Washington.

Camp Thomas is Deserted.

National Military Park, Chickamauga, Sept. 13.—The Ninth New York was paid yesterday. The regiment has packed all its effects and is expected to leave for home early to-day.

The Second Kentucky is also in readiness to move, and is expected to get away before to-night. The departure of these regiments will leave only about 1,800 men at Chickamauga, these comprising one regiment and 50 men in the hospitals.

The midway at Lytle, which has been the scene of so much turmoil during the summer, is now a thing of the past. The last of the small shops were closed yesterday the majority of the shopmen going to other camps.

The Naval Attache at Tokio.

Washington, Sept. 13.—The navy for the first time in its history, will soon be represented at Oriental courts. The selection of Lieutenant A. L. Key of the Naval Academy for duty as naval attache at Tokio and Pekin, gives that officer one of the most attractive billets of the service, and places him in a position where he can be of great value to this government in view of the development and extension of American interests in Asia.

Don't Want to Give Up Fashoda.

Paris, Sept. 13.—The Eclair says that France might justly claim rights in the Nile valley, being its first occupant.

The Gaulois says that France won the race to Fashoda and England had better think twice before trying to displace her.

No Room for Them.

New York, Sept. 13.—All the public schools of this city were opened yesterday, and several thousand children in Manhattan, the Bronx and Brooklyn were unable to gain admission, owing to lack of accommodations.

Railroad in Corea.

Yokohama, Sept. 13.—An agreement has been signed at Seoul, Corea, for the laying by Japanese of the railway from Seoul to Fusan.

Sept. 16—Hogan's Alley at Music Hall.

High Board Fences.

The man that first made use of the high board fence to shut off himself and family from a neighbor whom he could not bear the sight of was the promulgator of an idea that has had many patrons since, but for all that it is a foolish way of venting one's spite. The practice may be aptly described as "biting off one's nose to spite the face," since the fence builder generally suffers the same amount of inconvenience and discomfort that the fence brings to the one who has engaged his or her enmity.

Within the last few days residents of the borough have seen a neighborhood quarrel culminate in a determination to build a high board fence which would effectively separate the disputants. But fortunately for the tranquility of the neighborhood where the insurrection raged the work on the fence has been halted. Presumably the builder has taken a different view of life and its trials—a happier one, probably. To finish the fence would be but to give passive personal satisfaction to himself, though, of course, when a man vows to engage in such an undertaking his mind is in such a frame that he scarcely stops to consider consequences except to demonstrate in some striking manner his dislike for another.

It seems, however, that the original intention of the builder has been toned down and the work on the fence has been stopped. It is a cause for congratulation. High board fences are ever an eyesore to a neighborhood, especially when viewed in the knowledge that they have been built in spite.

A Bold Editor.

We are sorry to relate that our esteem for the *Trenton Evening Times* has been rudely shaken within the last few days, and our faith in its brightness and originality is now at a discount. One day last week The Daily Press printed a short editorial commenting on the lively discussion in the New Brunswick papers as to which one published the most personal items and was the first to originate the idea of publishing them so complete. Incidentally, it was mentioned that if the truth was known the honor of orignating the personal column as such an enterprising and extensive feature would be with The Daily Press.

Imagine our surprise, then, when we received a copy of the *Evening Times* a few days after, in which the editorial was printed with the name of that paper substituted for The Daily Press, but otherwise word for word as it was printed in this paper.

There was a time when we thought *The Times* was a very clever paper, but it seems that its principal claim as such is lodged in a sharp pair of shears in the hands of a very, very bold editor.

The attitude of Russia toward the United States is that of traditional friendship. Since that critical time when a Russian fleet lay in New York harbor under sealed orders, which have since been revealed to be co-operation with us in case of any attempt to smash the southern blockade, nothing has disturbed a cordial harmony. We do not clash in any possibility of Asiatic developments with Russia. There is not even a shadow of contention between the two, so far as one can see, in posse or in esse. Russian expansion of commerce and power in northern Asia has a zone widely apart from any which we could possibly wish to occupy as a competitor. Any theory of Russian alliance with other continental powers in putting the screws on the United States in a contingency which has been discussed is too vague to be seriously considered.

Bronze Casting.

The art of bronze work is one of the oldest in the world, magnificent specimens of the sculptor's work in this metal having been found on the sites of buried Assyrian cities and in the Egyptian tombs. Some of these examples of the world's pristine art date back not less than 3,500 years before the Christian era. The alloy of copper and tin, known as bronze, was one of the first metals to be worked on account of its greater fusibility, the mixture of the two metals offering increased facility also in hardening and tempering. The perfection of the process of bronze work as shown by the ancients, especially by the Assyrians and the Greeks, who used it so largely for their statuary, cannot be surpassed by modern times. It was one of the earliest arts, too, to be revived during the middle ages, and it was practiced steadily during what is known as the dark period. But it was not till the renaissance that this art, like the other fine arts, flowered into consummate beauty. Such artists as Benvenuto Cellini and Ghiberti illustrated it with their most famous efforts, and themselves took part in the details of the work as well as molded the models. This attention indeed has not been uncommon with all the greatest artists in bronze. Though Paris and Munich are now the best known centers of the bronze founders art New York has of late years rivaled the most splendid and difficult products of this sort of art industry. We have given to the world a line of gifted sculptors, and they have not needed to leave this country of late years to find the most skillful means of reproducing their work in bronze. Indeed one bronze foundry in New York has lately executed a chef d'œuvre, which there is scarcely a concern in the world sufficiently venturesome to undertake. This great feat was the casting of an immense statue, that of the nature god Pan, which is to be erected in Central park, in one mold, the whole amount of metal poured having been four tons. The danger of cracks and flaws in casting, involving great loss, is imminent. To minimize this most founders cast their work in sections, there being sometimes several hundred piece molds in a single statue. The castings are fitted together to make the perfect figure afterward. Many will remember the "Lay of the Bell," by Schiller, how he tells us in glowing verse the anxieties of the bronze founder as he watches each stage of his difficult and beautiful process. In achieving this triumph of making such an immense figure in a single piece the American bronze workers have attained another triumph of art industry worthy of record.

The theory of evolution which is associated with the name of Darwin, but which is really almost as much under a debt to a number of other distinguished scientists, from Lamarck to Haeckel, has received from the latter scientist a very striking attestation. The great difficulty has always been in the chain of fossil proofs which would establish the doctrine by the logic of facts. The difficulty of securing these is of course evident, and their lack has been an almost fatal bar to the complete dominance of the theory. Scientific men themselves have not been distressed over these breaks in the fullness of testimony, but the person of ordinary intelligence, less acute in his methods of reasoning, might well incline to halt. Professor Haeckel, the most eminent living exponent of the evolution theory, declared the other day that recent discoveries in Borneo, Madagascar and Australia had now all but completed the chain of proof. This was at the meeting of the Cambridge congress of zoology, where his paper was the most striking feature of the proceedings. The great German scientist assures the world that the proofs are now irrefutable. The time he gives for the development of man from the lowest form of life is a thousand million of years, though Lord Kelvin and others doubted whether the scene of life on this earth could be more than 25,000,000. But it is as difficult to grasp the one set of figures as the other, so ghastly is the impact of scientific computation on the mind when measuring time and space by such colossal expressions. The practical acceptance of the evolution doctrine by the thinking world, even among people of highly religious minds, makes Haeckel's statement of the deepest interest.

Bulls, however absurd as logic in speech, sometimes present an idea with extraordinary vividness. Two Irish bulls, quoted as prize examples in a recent book, illustrate this. The first is by Timothy Healy, "As long as the voice of Irish suffering is dumb the ear of English compassion is deaf to it," and this from The Irish Times, "The key of the Irish difficulty is not to be found in the empty pocket of the landlord." Accuracy of phrase would take out the backbone from these Hibernianisms.

The world rarely scrutinizes evidence closely in favor of something which it is anxious to believe. This enables many intelligent men to form honest convictions which do great discredit to their good sense.

The last public act of General Jaudenes, the governor general of the Philippines, was to fine a newspaper editor for speaking the truth. This was the ruling passion strong in official death.

WHAT THE SHEARS FIND.

Editorial Comment From Other Papers of Interest in Plainfield.

The Somerville *Unionist-Gazette* is very properly criticising the Board of Freeholders of Somerset county for increasing the salary of its clerk to $400 a year, when the law limits the salary to $300 in counties of less than 70,000 population. It does seem ridiculous to pay $400 a year to a clerk in Somerset, whose population is 30,000, and $300 to the clerk of Middlesex county, whose population is over $70,000. The Somerset Board should at once take steps to respect the law.—*New Brunswick Home News.*

* * * * *

The tire on Senator Reed's political wheel seems to have suffered a bad puncture. The able Somerset county senator's particular theme for the past few years has been the disproportionate school tax paid respectively in the counties of Somerset and Ocean. His claim has been that Ocean county property is not assessed at high enough value for taxing purposes, and that therefore Ocean county escapes its just proportion of the State school tax, while Somerset county especially—and other counties incidentally—are thus made to pay for the education of the Ocean county children. Senator Reed made such a strong case against Ocean county that the Somerset county Freeholders went down to Ocean for the express purpose of ramming home the charge against the latter. They selected as an instance of low assessment and tax shirking the property of the millionaire, George J. Gould. But they made a stupendous blunder. Mr. Gould's property in Ocean county is assessed at $300,000, and the Somerset Freeholders were conscientiously compelled to admit that it was overvalued instead of undervalued. There may be much truth in Senator Reed's charge that Ocean county property is not assessed at a proper valuation, but if so the Gould property is not so leniently taxed as some other tracts in Ocean. Senator Reed and the Somerset Freeholders will have to seek for some other terrible example, and mend the political wheel's tire with something that will stand the strain.—*Elizabeth Journal.*

PASSING COMMENT

Things that Are Not Exactly News but Just as Interesting.

Dr. Charles Woodward, while angling in a pond near New Egypt, felt the familiar tug and swish of a big pike on his line and began to play the fish. Just as he was about to land it in his boat he was startled by a roar and a flutter over his head, and next instant a huge bird swooped down, caught the pike in its beak and started to fly away. Dr. Woodward, at first too startled to move, soon recovered his senses and pulled hard on his fish line with its two prisoners, one within the other. He gradually got the big bird to his boat, and discovered that it was a fine specimen of eagle. The bird of freedom showed fight when it reached the boat, and the physician, after a severe struggle, managed to kill it with an oar. The eagle measured seven feet from tip to tip, and will be mounted as a souvenir.

THEATRICAL.

Current Dramatic Attractions That Plainfielders Can Witness.

In Music Hall tonight "At Piney Ridge" will be presented with the best company that has made its appearance in Plainfield this season. This is the company with which John Daly is engaged as advance agent, and his many friends will doubtless turn out to see the show whose big success on the road has been in part due to Mr. Daly's creditable advance work. Never before has the south been so honestly and truthfully depicted as by Mr. Higgins in his charming story of the Tennessee Mountains. This play which is so earnestly written and so well acted by Mr. Higgins and his company, bids fair to live long as one of our best dramas and its hold on the public will increase instead of diminish. The secret of this is its evident sincerity and its strong, well told story. There are few finer moments in the drama than the powerful climax of the third act of this dramatic story and all its four acts are strong and good. David Higgins, as actor, author and director of a fine company, deserves success and it seems that he is getting it.

* * * * *

"Gossip says that I have joined hands in the holy bonds of padlock with Liz. Don't believe it for I am still with the original company of Gilmore & Leonard's 'Hogan's Alley,' and so is Liz. (Signed) The Yellow Kid." Don't fail to see the Yellow Kid this season in his new character with his chums, Alex, George, Liz and Luke; he also brings with him the goat, parrot and dog and his favorite trotter Star Pointer. He will be at Stillman Music Hall Friday night with Gilmore & Leonard's latest edition of "Hogan's Alley."

—The Assessor of Cranford announces that the tax rate this year will be $2.98 on $100 valuation, an increase over the rate of last year, caused by road work.

Elevator For Sale!

A first-class freight elevator for sale. Good as new and will be sold cheap for want of use.

Upholstery Goods.

A new Department with us, but one of the most attractive in the store. We have a most complete assortment of new Tapestry Curtains from $2.98 to $13.00 per pair. NEWS OF THE SUBURBS.

THINGS THAT INTEREST SCOTCH PLAINS AND DUNELLEN.

Brief and Terse Observations Gathered by Alert Press Reporters to be Perused at the Supper Table at Your Leisure

DUNELLEN.

(Special Correspondence of The Press.)

Dunellen, Sept. 13—Newton and James Ammerman and families, of Somerville, visited relatives in the borough Sunday.

Hugh McClaren, better known as "Pony" McClaren, of Somerville, died Sunday after a long illness. McClaren was a brother to Mrs. S. A. Milliken, and had been an engineer on the Central Railroad for forty-one years. He had charge of the express that left here at 7:18 a. m. for New York.

Two weeks ago John Reinhart, brakeman on Engine No. 32, strained one of his arms while boarding a car and has not been able to use it since. No bones are broken, but something gave way in the arm and has not yet healed.

A Plainfield jeweler has secured W. H. Cole's coal office as headquarters where patrons can leave watches and jewelry to have it repaired.

Miss Mathina Bodine and Miss Edith Wilson left yesterday for the Trenton Normal School to resume their studies.

Charles English and Walter Runyon visited the Brooklyn Navy Yard Sunday and went aboard the Iowa and Oregon.

A few changes in the time-table, governing the High Bridge branch of the Central Railroad, go into effect today.

Charles Dinneen, conductor on drill engine No. 32, is sporting a handsome meerschaum pipe, a gift from a friend.

The signal pole which was blown down during the high wind last Wednesday, is up in place again.

The Dunellen depot park is being cleaned up and made to look as well as it did before the storm.

Harry Dodwell has a handsome drawing of the battleship Texas of which he is very proud.

Mr. and Mrs. C. I. Dunham and son have returned from a three weeks' visit at Asbury Park.

James Touzeau, fireman on engine 32, who has been on the sick list, is back to work again.

A meeting of the board of stewards of the Methodist Episcopal church was held last night.

Thos. Thomas and Lewis Churchill returned from Asbury Park Saturday on their wheels.

Thomas Costello and family will go to Lake Hopatcong in a few days to spend two weeks.

Harry Swackhamer spent Saturday and Sunday with his brother John, at Springtown.

Runyon Clauson, foreman of the roundhouse, was on the sick list yesterday.

Mr. and Mrs. R. J. Swackhamer entertained company from out of town Sunday.

Miss Jessie Haynes is spending a few days at Delaware Water Gap.

Miss Sadie Eganey is entertaining company from New York.

William H. Terry is spending the day in New York.

W. H. Taylor is out with a pair of fine bay horses.

Rev. A. I. Martine spent yesterday in New York.

Bert Snowden has moved into the Taylor house.

Miss Sadie Tilton has returned from Passaic.

NEW MARKET.

(Special Correspondence of the Daily Press.)

New Market, Sept. 13—Miss Bertha Giles, of Plainfield, spent yesterday visiting friends in town.

Miss Dayton is spending a few days at the Delaware Water Gap.

Miss Nancy Bauman spent yesterday in New Brunswick.

'PLAINS AND FANWOOD.

(Special Correspondence to The Daily Press.)

Scotch Plains, September 13.—Entries for the five-mile bicycle race over the Mountain avenue course Saturday afternoon next closed Saturday evening. There are only six entries in the race, but they are considered among the best in the village. Marsh, winner of the last race, and Maginn, who started at scratch, are both entered. Haskard is kept out by a broken wrist, received while practising over the course last week.

The public school opened yesterday morning at 9 o'clock with a full attendance. The following corps of teachers will have charge during the year: Principal, John R. Morey; Miss Emma Adams, Miss Minnie Squier, Miss Sadie Riger and Miss Lulu Robison.

A party by the name of Stagg from Brooklyn has bought the property at the corner of Grand street and Stout avenue, and is going to build. F. K. Clark has the contract for excavating the cellar and John Bornmann the carpenter work.

Rev. Mr. and Mrs. J. S. Braker entertained Mrs. Braker's father and mother, Mr. and Mrs. Andrews, of Montaudon, Pa., and his sisters, Mrs. Hess, of New York and Miss Anna Andrews, Saturday and Sunday.

Mr. and Mrs. Fred Rose, of Plainfield, spent Sunday with Mrs. Rose's parents, Mr. and Mrs. Frederick Gibbs.

Miss Foster, who has been visiting her cousin, Mrs. Ira G. Walker, has returned to her home in Morristown.

Mr. and Mrs. Charles Grant were the guests of Mrs. Grant's parents, Mr. and Mrs. T. M. Paff, Sr., Sunday.

The Exempt Firemen held their regular monthly meeting in Excelsior H. & L. Co. rooms last evening.

Mr. and Mrs. Goodbrough are entertaining Mr. Goodbrough's mother from New York.

Mrs. Joseph Mercein spent Sunday with relatives at Berkely Heights.

William Ilsley, of Plainfield, visited friends in town Sunday.

WESTFIELD.

(Special Correspondence of The Daily Press.)

Westfield, Sept. 13.—The fourteenth annual convention of the Union County W. C. T. U. will take place in this town Wednesday of next week.

At the meeting of the Township Committee of Cranford, held last evening, A. A. Gaddis, of the Westfield and Elizabeth Street Railroad Company, asked that the petition of his company for a franchise to build and maintain and operate a trolley road through the township streets and avenues be given a further hearing and placed on its third and final reading. This the Committee would not do but instead placed it on the second reading and thus adjourned it until September 19th, when it will be given a further hearing.

The Claremont Pigeon Lofts of this place has a number of birds entered in the two-hundred-mile race of the Union County Association which takes place from Washington, D. C, Saturday.

Rev. Oscar C. Helming, pastor of the First Congregational church at Atchison, Kan., will probably be called to take the pastorate of the Westfield Congregational church.

LINCOLN.

(Special Correspondence of The Press.)

Lincoln, Sept. 13.—The German residents of this town held a meeting a few evenings ago for social and mutual improvement, with the following officers: President, Fritz Brugger; secretary, F. Marquart; treasurer, Charles Wulfing. Mr. Marquart gave the members permission to erect a clubroom on one of his lots, and a committee was appointed to visit Mayor Drake and make arrangements for the erection of the building at once. The large attendance at the meeting augurs well for the success of the first German society in Lincoln.

Morgan Smalley, of Shiloh, was a visitor at the residence of Gideon Smalley Monday.

TEMPERANCE WOMEN.

CONTINUED FROM PAGE 1.

not present at the morning session, Mrs. Parse read her annual report again at this time, and an interesting letter was read by Miss Mair from Mrs. George Musgrave, who together with her husband are now on their way to Alaska. She related a great deal of interest concerning their experiences and of the country through which they had traveled.

The members by a unanimous vote decided to change the date for holding the annual meeting from the second Monday in September to the second Wednesday in the same month. After a prayer was offered by Mrs. Penfield the meeting adjourned.

PARTICULAR MENTION.

PERSONAL GOSSIP OF INTEREST TO CITY AND BOROUGH.

In Brief are Told the Daily Doings of Many Residents and Visitors Who Go and Come in a Social and Business Way.

Mrs J. J. Coard, of New York, spent Sunday in town.

Amos Moffett, of West Sixth street, spent Sunday in Jersey City.

Miss Edith DuBois, of Park avenue, spent Sunday at Whitehouse.

Mayor Wilson, of the borough, was in Philadelphia yesterday on business.

Frank French, of Craig place, has returned from his annual summer outing.

Miss Addie Fenner, of Elmwood place, has returned from her summer vacation.

H. C. McVoy, of Sandford avenue, has entirely recovered from a recent slight illness.

Jacob Sebring, of this city, is in Scranton, Pa., attending to some business matters.

Mr. and Mrs. Phil Kirch, of Central avenue, have rented one of the flats in the Clifton building.

Mr. and Mrs. Amos Gray, of Elmwood place, have been entertaining Mrs. Gray's sister, of Elizabeth.

Rev. Dr. and Mrs. D. J. Yerkes, of West Seventh street, have been entertaining company from out of town.

Privates Mark Doud and John Sullivan, of Co. H, N. G. N. J., are visiting their friends and relatives in town.

Miss Margaret Rand, who has been spending several months in the New England States, is expected home today.

Rev. D. H. Clare, of Waverly, N. Y., who came here to attend the funeral of his cousin, George Eckhardt, has returned home.

Miss Crowthers, a teacher in the Borough Public High School, returned yesterday from her vacation, and resumed her duties this morning at the school.

Newton Ammerman and wife, of Somerville, and Mr. and Mrs. James Ammerman, of Raritan, Ill., were guests last Sunday of Plainfield friends.

Tomorrow evening at the Seventh-Day Baptist church will take place the marriage of Miss Violet Truell, of Central avenue, to Mr. Johnson, of New York.

The friends of Willard Case in this city will be pleased to learn that he is improveing from his illness. He is still at Chickamauga, but his recovery is now assured.

Mrs. Schenck and sons, Cornelius and Harold, of West End Park, returned from Philadelphia last night, where she has been visiting at the home of her mother.

EARLY INTELLIGENCE.

—Miss Smalley, of East Front street, has reopened her dressmaking parlors.

—The employes of the local telephone company have about completed the work of repairing the damage to the wires as a result of the storm last week.

—Today the Borough Public High School reopened. The enrollment in all grades is very large and in some grades half sessions will be held for the present.

—Next Friday evening the Christian Endeavor Society of the First Baptist church will hold a consecration service. The subject will be "Trials, How to Bear Them."

—The Bertillon system of recording criminal prisoners arrested in Bayonne is soon to be introduced into the police department. The local Board of Councilmen has authorized the purchase of the apparatus.

—While the Front street trolley tracks are being repaired the street is in a miserable condition for wheeling. Large and small stones are left all over the roadway and it is rather difficult to ride a wheel with comfort.

—Tomorrow morning Neuman Bros., the grocers, will have 200 baskets fine canning peaches. The price is a little higher than last week, but the fruit is elegant. Call and see their display, and you are sure to buy.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness, caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular; free.

36 inch Denim.....10c yard
50 inch Furniture covering..23c yard
Ladies fine lisle hose, 50c quality, 29c pair.

Edward White.

NEW YORK FASHIONS.

The defining line between gowns designed for children and those intended for grown up folks is hardly perceptible nowadays. Women wear larger models of frocks worn by the small girls, with full, round waists and guimpe effects, while on the other hand the wee maid as young as seven has her skirt cut in the latest fashion, with all the frills and furbelows employed on the gowns worn by her mamma, while the separate skirt and waist has been adopted with avidity by the children who feel quite grown up when decked out in this conventional costume.

The blouse bodice is the most popular model for youthful garments and proves the most practical as well as becoming waist in that it allows perfect freedom of movement to the growing child. These waists are usually made with an empiecement set in to form the yoke or are worn with guimpes of every material. The small girl has the bodice and skirt made in one and a pretty model is of blue serge, to be worn with a white guimpe, or for cool days a red cashmere guimp with a girdle of the same material about the waist makes an attractive little frock.

The older girls, however, say from ten to sixteen, prefer the separate skirt and little Eton jacket mode of costume, which may be worn with a variety of blouses or shirtwaists. These useful suits are especially appropriate for the school girl, for while the journey to and from the schoolhouse is often cold and chilly, the class room on the contrary, is apt to be close and overheated, and that being the case the jacket may be removed and the pretty little blouse disclosed to view. Plain materials, such as serge, broadcloth, cashmere and poplins are employed for these frocks, and are relieved by trimmings of bright plaid or some contrasting color.

The soft wool and silk and wool fabrics will be largely employed this fall for church and party wear, while lace, velvet and silk will furnish the trimmings and dainty accessories to these frocks. Tucking, shirring and cording will also play an important part in the decoration of the up-to-date girl's Sunday dress, which when completed is often quite as elaborate as her debutante sister's.

A stylish frock for a miss of thirteen is of Cuban red drap d'ete lined throughout with dark red taffeta. The skirt, cut with an attached flounce of a rather odd design, is finished a little to either side of the front gore, and is connected with two straps and buttons. The corsage, a low necked bolero, almost meets down the center and is adorned with tiny black buttons, as is also the pointed strap which extends from either side of the side seam. Black velvet is employed for the collar and belt, while the dainty little guimpe or underblouse is made of soft red and white India silk.

A pretty dress suitable for dressy occasions is daintily carried out in flowered challie on a cream ground, combined with plain challie and finely pleated silk mull. The full flounce of the flowered material has a band of the tucked mull at the top, finished with a little ruche, and is attached to a closely fitted round yoke of the plain goods. The full blouse bodice is adorned with a pleated collar edged with a full ruffle, arranged in fichu fashion, which merges in with the fastening of the waist slightly to the left side where it forms a narrow ruffle. The yoke, stock collar and sleeves are of flowered challie, while the ceinture is of crushed yellow satin, fastening in the front with a dull gold buckle. The hat is the latest design in headgear, being a three-cornered affair turned back directly from the face and adorned with black wings and ribbon.

The pelisse or box style of garment appears to be the preferred model in coats designed for young children. A natty model for a miss of seven or eight is made of smooth faced green broadcloth, lined with satin and trimmed with stitching and buttons. The skirt portion of the coat has a simulated attached flounce extending around the sides and back, leaving the double-breasted front perfectly plain to the top where it is finished with turned back pointed revers of white cloth, heavily stitched. A small shaped cape accompanies this coat, and a scarf of white mull about the neck gives a dainty finish.

—Florence Healy.

Linen Mesh Underwear.

It looks as if the next fad to which we must all bow down will be the linen mesh underwear. We have had wool of various thicknesses, from the web of a fineness to go literally through the wedding-ring to the fluffy sort that was actually thick enough to measure; we have had silk, heavy and light, and all weights and qualities of cotton, and as a novelty there is naturally left only the linen department to invade. The advocates of the new underwear claim for it coolness in summer and warmth in winter, and hygienic comfort at all times.

The most magnificent work of architecture is the Taj Mahal, in Agra, Hindustan. It is octagonal in form, of pure white marble, inlaid with every sort of precious stone. The work took 22,000 men twenty years to complete, and though there were free gifts and the labor was free, the cost was $16,000,000.

New Felt Sailor Hats.

The new sailor hats of pearl white and soft cream-white French felt are very appropriate and stylish accompaniments to the tailor costumes of white serge, camel's hair, mohair, and other handsome wools.

Attractive Calling Gown.

A pretty little gown is composed of grey crepon, embroidered with a dainty leaf design. The skirt has the upper fitted portion cut in scallops and encircled with three little plain grey frills, headed with a cording. The attached flounce is made perfectly plain.

The full bodice is mounted on a plain

yoke of the material, which is covered with a fancy shaped collar and small epaulets, trimmed with three ruffles, corresponding with those on the skirt. The sleeves are close fitting, with a frill at the wrist. A satin sash tieing in a graceful bow in the center of the back finishes the waist.

What It Meant to Hubby.

"What do you think of it?" asked the wife of the newspaper man who is paid by the column.

The scribbler sighed and shook his head doubtfully.

"I presume," he said, "that it is quite the correct thing as gowns go, but it looks to me as if it must have cost a lot."

"Well, of course gowns like this one are not to be had for nothing," she admitted, "and this is just the nicest one I ever had; but considering the workmanship and material, it was really very reasonable."

"How much?" he inquired, and she handed him the bill.

An hour later he was still deep in a mass of figures, and she began to get curious.

"What are you doing?" she asked.

"I am trying to find out what entered into the construction of that remarkable gown," he answered.

"Well, you'll never find out that way," she asserted. "Why don't you ask me? I could tell you. It took eight yards of the finest———"

He motioned to her to stop.

"You couldn't do this problem in eighteen years," he said. "Now, just listen, and I will tell you what was needed to make that gown. It took, first, a third of a yard of leading editorial, a yard and a half of special articles, eight inches of verse, a full two yards of editorial paragraphs, six yards of humorous items, an eighth of a yard of financial statistics, eleven inches of headlines, and half a yard of literary review.

"This was trimmed with sixteen inches of dramatic notes, and a yard and a quarter of the Woman's Column. I tell you, Maria, that gown ought to be a good one."

A Sherbet and an Ice.

The difference between sherbet and an ice is that the former has added to it gelatine or the whites of eggs after it is taken out of the freezer. In freezing, the sherbet must be stirred with the crank as is ice cream, the ice being left unmolested after a few rounds of the dasher. Lemon water-ice is now sometimes enriched by a half-pint of rich cream that is stirred in with a wooden spoon just as the mixture begins to set. The can is then covered and packed well in ice and salt, and left untouched until thoroughly frozen.

Dainty Furnishings.

The beauty and perfection to which furnishings for the country house have been carried have produced their own reward. From china to window draperies, the inexpensive fittings intended for summer use have achieved a popularity that has given them longer life. It is common now for these pretty effects to be found above stairs at least, and in the family sitting-room in city homes.

A Military Entertainment.

A recent entertainment by the war-relief committee took the form of a military encampment. The hall was hung with flags and military insignia, and the stalls were tents named for the various heroes of the present war, Camp McKinley leading, with Dewey, Sampson, Schley, Shafter, and others duly represented. The attendants wore military costumes, music of a patriotic character was furnished, and a general martial atmosphere secured.

Satin Wall Papers.

The choice of satin papers is permissible in rooms where few pictures hang upon the walls. Where the reverse is true, plain, dull-finish papers should be used. A polished surface makes a poor background for a picture; the reflections of light prove distracting, but the same printed with some light pattern is ornamental in itself.

A LUCKY ACCIDENT.

How Sir Henry Bessemer Discovered His Famous Process.

It is refreshing, in considering the notable achievements of great inventors, to happen upon an occasional instance where fortune has not only smiled on, but has well rewarded genius. It is far too often the case that the successful inventor closes his life in poverty and distress and leaves to others the harvest of substantial benefits which in justice should have been his. Sir Henry Bessemer was a marked exception to this class. While Bessemer did not invent steel, he discovered a process for its manufacture that has revolutionized the iron and steel working industry of the entire world. Up till the time when his experiments were crowned with success, the making of steel was a very slow, and, consequently, a very laborious process, and steel had a comparatively restricted application in the industrial arts.

In a measure the discovery of Bessemer's process was accidental. To begin with, he had no knowledge of chemistry and metallurgy when he first set about his investigation to turn iron into steel. But he visited many places where iron was wrought and be kept his eyes open. He saw that in the slow process of "puddling" the particles of molten metal were gradually brought into contact with the air and that this seemed to, in time, produce a fair quantity of steel. Had he known the chemistry which was at work during puddling, Bessemer steel undoubtedly would have been made some years sooner than it was. But he only saw the mechanical part of the operation. He knew that it was a great deal easier to stir air than it was to stir iron, and it was while recovering from a severe illness that the idea came to him of blowing air through the melted iron. As he lay in bed the breezes from an open window fanned his cheek, and this turned his thoughts in another direction, which proved to be the beginning of the problem's solution.

As soon as he was sufficiently recovered to resume his investigations he set about making a retort in which he could test his new idea. It was so constructed that a blast of cold air was forced into the bottom so that it would pass through the melted iron in the upper part of the retort. The day for the test arrived, and Henry Bessemer was naturally not the least excited of the group that gathered around the new contrivance. When the pig iron was melted the blast of air was turned in to prevent the metal filling the holes through which the air entered. Then the metal was poured in through the charging hole by an attendant stoker. A tremendous commotion immediately took place within the vessel. "The molten iron," to quote one present, "bounded from side to side; a violent ebullition was heard going on inside, while a vehement violent flame, accompanied with dazzling sparks, burst from the throat of the cupola, from which the slang was also thrown in large foam like masses. A cast iron plate of the kind used to cover holes in the pavement, that had been suspended over the mouth of the vessel, dissolved to a gleaming mist, together with half a dozen yards of the chain by which it hung."

It is not surprising that such an unusual sight should have frightened not only the men, but the daring experimenter. Bessemer thought he saw in this terrific demonstration of two prime elements the complete failure of his plans. He wanted to shut off the air before the charge of iron was spoiled or the furnace burned, but the stopcock regulating the supply was so close to the retort that no one dare go near it. This proved fortunate, for soon the commotion within the retort subsided, the fury of decarbonization had expended itself, and the product was run off. The result was not quite satisfactory. The product was, for the most part, burnt iron, but Bessemer saw enough in the experiment to encourage him in making a second trial, and the product from this proved to be malleable iron.

By further experiment it was found that by interrupting the process before the decarbonization of the iron was complete the product was unmistakably steel, which, when tried, proved to be of very good quality. Here was a discovery of immense importance. If malleable iron and steel could be produced direct from pig iron by a process so rapid and simple, it could not fail before long to effect an entire revolution in the iron trade. And such it actually did many years before Bessemer closed his long and successful career.—Chicago Post.

The Art of Reading the Hands.

The left hand is passive and the right hand is active, a palmist tells us. When you see a person's left hand with excellent lines, and then examine the right and find there are none of them there, you may be sure that that person had talent and ability, but neglected to make use of them. When the conditions are reversed, then the person has made his or her own character. I can tell a great deal about a person by the general feeling of the hand. The harder a hand is the less susceptible a person is to outside influences, the less feeling a person is apt to have. A soft hand is apt to be the hand of a person of great susceptibility. A fat, flabby hand shows indolence, and a white, soft, puffy hand belongs to a sensuous, selfish person. A person with hard, dry hands is not usually affectionate. Active mentality will sometimes make a hard hand. There is more character in the thumb than in any other part of the hand. Of course, one feature of a hand cannot be taken as conclusive evidence of the trait it is supposed to indicate, for it may be modified by many others.

Lokal-Nachrichten aus der alten Heimath.

Freie Städte.

Hamburg. Hier sind kürzlich an einem Tage zehn Personen am Hitzschlage gestorben und viele schwer erkrankt. Ein Schauermann im Hafen, an Bord eines englischen Dampfers, fiel während der Arbeit vom Hitzschlage getroffen um und starb nach wenigen Minuten. In Eimsbüttel starb ein Straßenreiniger während seiner Beschäftigung.—Für das hier geplante Bismarck-Denkmal sind schon über 200,000 Mark eingegangen.

Bremen. Auf dem Rheinsberger Friedhof fand die Beisetzung des verstorbenen Heidedichters August Freudenthal statt. Die Kapelle faßte kaum die Zahl derer, die sich um den unter duftenden Kränzen und Blumen, unter denen die Haideblume vorherrschte, schier verschwindenden Sarg geschaart hatte. Das Grab des Volksdichters liegt inmitten schöner Anlagen in einem dunklen Haine von immergrünen Tannen, ein wahres Dichtergrab.

Lübeck. Der Senat hat von seinem Gnadenrecht Gebrauch gemacht, indem er dem vor zwei Jahren wegen Urkundenfälschungen in ideeller Konkurrenz mit Betrug zu drei Jahren Gefängniß verurtheilten Großkaufmann Claus Georg Heinrich Magnus den Rest der Strafe, ein Jahr Gefängniß, im Gnadenwege erließ. Die Entlassung des Magnus aus dem Gefängniß wird hier viel besprochen.

Oldenburg.

Oldenburg. In Folge Hitzschlages starben in Varel der Arbeiter Bökemann, in Jade der Arbeiter Decker, in Colmar bei Brake ein Knecht, in Fünfhausen bei Brake das zehn Monate alte Söhnchen des Arbeiters Harms.

Württemberg.

Stuttgart. Mit einem Motorwagen verunglückten vier Beamte einer Hagelversicherungsanstalt, die zwischen Schloß Solitude und hier eine Spazierfahrt unternommen hatten. Der Motorwagen stürzte—wahrscheinlich durch Unachtsamkeit des Lenkers—einen tiefen Abhang hinunter, wobei die Insassen herausgeschleudert wurden. Ein Herr erlitt einen Armbruch, ein Anderer einen Beinbruch, ein Dritter und ein Vierter trugen bedeutende Kopfwunden davon, ebenso der Lenker des Motorwagens.

Heilbronn. Für den Umbau des Rathhauses liegen nunmehr von den Architekten Vollmer und Jassoy die vollständigen Pläne vor. Die Durchführung desselben soll nach und nach erfolgen. Zunächst wird die Renovirung der Façade durchgeführt werden. Nach den vorläufigen Berechnungen belaufen sich die Gesammtkosten für den Umbau (einschließlich 50,000 Mark für den schon fertiggestellten Rathskeller) auf etwa 380,000 Mark, wovon 125,000 Mark auf die Façade kommen.

Ravensburg. In der Kaserne des zweiten württembergischen Infanterie-Regiments legte der Soldat Hertneck im Scherz mit dem Dienstgewehr auf seinen Kameraden Schmidbleicher aus Baihingen an; der Schuß krachte und Schmidbleicher stürzte mit durchschossenem Schädel zu Boden. Er ist seinen Verletzungen bald darauf erlegen.

Schramberg. Der Demokrat Galler, der frühere Reichstagsabgeordnete, der bei der letzten Wahl durchfiel, hat seinen Austritt aus der katholischen Kirche erklärt.

Tübingen. Der schon mehrere Monate in Untersuchungshaft befindliche Schullehrer Maier von Mähringen wurde vom Landgericht wegen verschiedener Diebstähle und wegen des Einbruchs im Seminar zu Nürtingen zu vier Jahren Gefängniß verurtheilt.

Ulm. Neulich Abends brach in dem Dachstuhl des neuen Postgebäudes Feuer aus, wodurch dieser abbrannte und das ganze Gebäude ruinirt wurde. Das Feuer ist vermuthlich dadurch entstanden, daß ein Arbeiter eine brennende Löthpfanne stehen ließ.

Baden.

Karlsruhe. Der Student Michaelis vom hiesigen Korps Bavaria stürzte vom Falkenstein bei der Herrenalb gelegentlich eines mit zwei Korpsbrüdern unternommenen Ausfluges ab. Michaelis war sofort todt.

Baden-Baden. Der neue Erzbischof von Freiburg, Thomas Nörber von hier, hat gelegentlich eines Ständchens, das ihm vom Sängerbund in Hohenbaden gebracht wurde, eine Ansprache gehalten, in der er bemerkte, er sei von gutem Willen beseelt, trage den Frieden in seiner innersten Seele und wünsche daher auch sehnlich, daß, so weit es in seinen schwachen Kräften stehe, die auf ihn gesetzten Hoffnungen in Erfüllung gehen möchten.

Bruchsal. Die Leiche des vor einem Vierteljahre verstorbenen Trompeters Hecht ist wieder ausgegraben worden. Der Verstorbene soll in Folge einer Zahnoperation, welche von einem hiesigen Zahntechniker mit einer unreinen Zange vorgenommen worden war, an Blutvergiftung gestorben sein. Im Beisein einer Gerichtskommission und des betreffenden Techniters fand die Oeffnung der Leiche statt. Ober- und Unterkiefer wurden zurückbehalten und dann die Leiche der Erde wieder übergeben.

GOOD JOB WORK.

THE DAILY PRESS office can do it—anything from a milk ticket to an auction bill; even larger, too

The job department of THE DAILY PRESS office is the largest and best equipped in Plainfield or vicinity. The workmen employed are experienced and capable and possess the knack of producing neat products. The prices are reasonable. When work is promised for a certain time the customer gets it without the aggravating delay common to many printeries.

If you need job printing at all you need the kind that reflects credit for neatness and style on you. You can get that kind

AT THE DAILY PRESS.

AMOS H. VAN HORN LIMITED

Note first name "AMOS" and No. "73" before entering store. Get off car at Plane St.

"The Domestic Sewing Machine" knows no superior, for it has none—call we'll prove it. Sold for cash or credit.

Big fight on

We open Fall season with a pitched battle—competition will be beaten in the worst way—our splendid $100,000 stock now covering 3 acres floor space will be scattered all over this state at low prices no one can match—no one will need to leave our store because of too thin a pocketbook or obnoxious terms. Protect yourself by finding out how low are our prices and easy our terms before you buy elsewhere.

Fall's Carpets-- "Fighting Prices"

On every single weave—that means a lot, for this carpet store of ours can not be "overtoppled" by any other house in point of size, variety or true novelty—an immense floor from Market Street to Campbell through to Bank devoted to the stock.

Heavy Ingrains, 39c; Body Brussels, 90c; all wool Ingrains, 65c; Moquettes, Axminsters, Tapestry Brussels and Mattings—heaps of new colors, large and small effects.

$11.75 is the "Fighting Price"—it's an $18 Sideboard. You mustn't think we've no other kinds—for we've 50 sorts at least. China Closets, too.

$2.95, the "Fighting Price"—$4.00 what others get—it's a sturdy, brass trimmed bed, not flimsy sort.

$5.95, the "Fighting Price"—$8 is cheap for such a couch.

$29 for $40 Parlor Suits

—all silk brocatelle, plush trimmed, overstuffed—awfully rich and strikingly new.

$25 Bedroom Suits at $10.50

—bought 'em at a snap for you—you can have them at $10.50 'stead of $15.

"The Portland Range"—a perfect baker, economical coal burner, reliable, long-lived, best.

NEW YORK TERMINALS—Foot of Cortlandt Desbrosses and West 23d streets.

Noticed This Before.

You Probably Have and May Have Spoken About It.

The reader of this newspaper, if he takes the time and trouble to look carefully through its columns, will probably find half a dozen statements attached to the foot of reading notices about medicinal preparations. Note this fact. In each and every case, as far as Plainfield is concerned; as far as the reader's knowledge of the party is concerned; he might just as well live in the moon. Make another note of this. The only remedy on the market which gives testimony at home, local proof in every town and city in the Union, to back up its claims, is Doan's Kidney Pills. They all try it, but they cannot do it. Why they are unable to do it, can safely be left with the reader to draw his own conclusions. Here is Plainfield proof for Plainfield readers:

Mr. Charles Giese, Cigar Manufacturer, of 25 Elm Place, says: "I have been subject to attacks of kidney complaint for the last 2 or 3 years. Most of the pain was in my back and hips and I could not stoop or straighten up without feeling sharp, shooting twinges. When I sat for any length of time I grew stiff and sour and was compelled to get up and move about. Last spring I grew so bad I had to do something for it. I had read a great deal about Doan's Kidney Pills being such a good medicine for kidney troubles so I got a box of them at L. W. Randolph's drug store. I used them according to directions and after 2 or 3 days I felt better. I continued their use until the pain disappeared and I am only to glad to be able to testify to the fact, that Doan's Kidney Pills are a splended remedy."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U.S. Remember the name Doan's and take no other.

CHAPTER VI.

Miss Sabina Emmott's headaches were very troublesome. She was suffering from one again on the morning of the day following her meeting with Sir Roydon Garth. Her father had expressed his intention of taking her through the Chinese quarter; but the girl had no taste for pottering about with her martinet father on his instructive walks through unpleasant places. She much preferred to breakfast in bed, and afterward enjoy some sensational novel—literature which had to be guarded scrupulously from the Major's watchful eyes. She was lounging on the couch in her dressing-room, poring over a forbidden book, with her luxuriant dark hair spread loosely over her shoulders, and her petite figure enveloped in a gorgeous crimson dressing-gown, when she was surprised by a tap at the door.

In an instant the volume disappeared under the cushion of the couch and in its place Miss Sabina was holding a vinaigrette in her hand, when she gave a languid permission to her visitor to enter. She congratulated herself upon having taken these precautions when she saw that it was her father.

The Major's face wore a strangely-mingled expression, in which concern for his daughter's indisposition struggled with a pleased excitement. If the girl had been less intent upon her vinaigrette, she would have guessed from her father's face that he had important news to impart. As it was, her only idea was that he had come to persuade her to accompany him on a visit of instruction to the haunt of the "Celestials." When he asked anxiously whether she was any better, Sabina sniffed once more at the bottle in her hand, and answered languidly that she felt a little worse than when she woke.

"Don't you think that you will be able to come down in an hour or so?" asked the Major, earnestly; and his daughter, with her mind still full of the proposed objectionable expedition, answered mournfully—

"I am afraid not, papa. I really think that you had better go without me!"

With her bird-like movement of the head she glanced up quickly, when her father rejoined—

"I am not going out. I have had a telegram which has changed my plans."

Sabina's little black bead-like eyes glanced inquiringly at him as he stood uneasily twisting the ends of his moustache.

"It is very awkward, for it is important that you should be down and looking your best," he went on.

"Why, papa?" Sabina forgot her languor for a moment.

"Because Sir Roydon Garth is to be here in an hour or so."

"This morning?" Sabina dropped the vinaigrette in her astonishment.

The Major himself was fortunately too excited to notice how the news appeared to revive her. He had an important announcement to make.

"Not only has the Baronet wired from Tonkerville to announce the time of his arrival here, my child, but he has added a very important message, which shows unmistakably, I think, what his purpose is in contemplating giving us so early a call immediately upon his arrival."

The Major handed Sabina the telegram as he spoke.

"What can it mean, papa?" she asked innocently, when she had read the concluding sentence which had caused such excitement in her father's mind; and then she recited the passage aloud, holding her head on one side and looking more bird-like than ever as she did so. "'Have a great favour to ask of you and Miss Emmott.' What can it be, papa?" she inquired; and the Major patted his daughter's cheek with an unusual display of affection.

"My innocent little one, I think that the words can have only one meaning."

"One meaning?"

The girl tried to speak with an accent of childish wonder; and the Major smiled indulgently.

"Yes, dear—that Sir Roydon Garth wishes to ask me for my little Sabina. I am sorry you will be unable to see him when he comes."

Miss Emmott had quite forgotten her headache.

"If you would like me to see him, I will try to come down, papa," she said, speaking languidly once more, and picking up the forgotten vinaigrette.

"I wonder what my little girl's answer will be when Sir Roydon Garth asks the important question?" pursued the Major, who, if the chance of having a baronet for a son-in-law presented itself, did not intend it to run any risk of being thrown away.

Sabina shook herself in her bird-like way.

"Do you think it is right to make me say, papa, before we really know what the telegram means?"

In her heart of hearts Sabina was a little doubtful. That handsome Sir Roydon Garth should wish to make her mistress of his fine place at Delverton Hall seemed too good to be true.

When her father had left her, satisfied with the effect of his announcement, she walked to the cheval-glass and looked complacently at the reflection she saw there. Why should she not be chosen for the future Lady Garth? What else could the telegram possibly mean? It was possible to think of other favours that the Baronet might ask of her father; but surely there was only one that he could ask of herself!

The more she thought of the matter the more confident she became; and she was allowing herself to sink into a pleasant reverie, in which the material of her wedding dress and the items of her trousseau had a considerable part, when the sudden recollection that the hero of her dream might arrive in less than an hour set her to work dressing and adorning herself with all the care of which she was capable.

Once more she looked at herself admiringly in the chevel-glass, and a tinge of colour came into her pale cheeks again, which matched the flowers.

She seized her vinaigrette quickly as another tap came at the door, and her father's voice sounded outside.

"Do you think you will be able to come down, my love, when Sir Roydon arrives?"

"Yes, papa—I will try when he has spoken to you, if you will send for me then."

"How long will he be?" she wondered, and every time that a carriage came in sight she asked herself whether it contained the man for whom she was waiting so anxiously.

She had grown very impatient because of the delay, and had ceased for a moment to look out into the street, when the sound of a vehicle stopping at the hotel door caused her once more to become eagerly attentive. If it is Sir Roydon the fly will drive away again, she said to herself; and she listened intently, for it was impossible to see who the visitor was, without leaning out of the window, and that Miss Sabina was far too discreet to do, although she had it ready open. She availed herself of its help however as soon as she had given the occupant of the vehicle ample time to enter the house, and peeped down. It was a carriage which was standing before the door; but, as Sabina craned her neck, she caught a glimpse of colour in it which told her that a lady was its occupant, and the carriage immediately ceased to interest her.

But as she turned from the window, another sound attracted her from the interior of the hotel. It was the closing of a door on the floor below, and it sounded to her very much like the door of the sitting room where her father was waiting to receive the Baronet. Sabina opened her own door and listened. She could plainly hear the Major welcoming somebody in his heartiest tones. Sir Roydon must have come, after all! Satisfied upon this point, Miss Emmott fluttered back to the window, to look below once more, wondering whether she had made a mistake about the carriage's having an occupant.

As the glimpse of colour was still to be seen, Sabina decided that Sir Roydon must have come to the hotel on foot, and her interest in the cab again ceased. She continued to lean out of the window for the sake of the cool wind that fanned her cheeks, which were becoming too flushed and hot with excitement as the important moment drew nearer; but, as she looked down, the occupant of the carriage suddenly assumed overwhelming importance, for, to her intense astonishment, Sir Roydon Garth had walked down the hotel steps towards the waiting vehicle, and had handed from it a young lady in a blue cotton dress, that was neat and pretty, but certainly not fashionable.

They entered the hotel together, and left Sabina in a state of absolute bewilderment, wondering what on earth it all could mean. She stood with her eyes fixed upon the carriage, which still remained, as if she could gain from it some explanation of the event which had come to disturb her complacency. She watched until Sir Roydon came out of the hotel and drove away in it. Then, when she left her point of vantage, it was to find that a maid had been knocking for some minutes at her door, with a message that her father wished to see her.

As she was about to answer the summons, she happened to pass the cheval-glass in which she had admired herself half an hour before, and, catching sight of the flowers at her neck, she tore them roughly from her dress and left them lying upon the floor.
